

SUPPLEMENT TO
The Gazette of India.

No. 14.]

SIMLA, SATURDAY, APRIL 6, 1901.

OFFICIAL PAPERS.

• A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Weather Review of India for the Week ending at 8 a.m. on
Saturday, March 23rd, 1901.**

Fairly general showers were again reported from South India on Sunday, but winds at 8 A.M. were light and irregular on the Coromandel Coast and showers decreased on Monday and practically ceased on Tuesday and no rain was received in this area during the remainder of the week.

A very shallow depression entered Upper Sind on Tuesday, giving very light rain in Baluchistan and cloud in Upper India. A few local showers were received in the Central Provinces, Bengal and Upper Burma as the storm drifted eastwards. The largest amounts reported were '75 inch at Darjeeling and Mymensingh on Thursday and 1'22 inches at Lashio on Friday.

This depression was very shortly followed by another of similar character which entered Sind on Wednesday morning. It drifted slowly eastwards into West Rajputana by Thursday, and gave a few light showers in Baluchistan and the West Punjab. The largest amount reported was only '32 inch at Quetta. No rain of any importance fell during the remainder of the week. The disturbance advanced very slowly eastwards and on Saturday it was in the eastern districts of the North-Western Provinces.

Conditions continued feebly unsettled in Baluchistan after this last depression had entered Sind, and the barometer fell briskly in Kashmir on Thursday,

showing that weather was disturbed in the interior ranges of the Himalayas. A few showers were received in Kashmir and the North-West Punjab on Friday and in Baluchistan, the West Punjab and Upper Sind on Saturday. Jacobabad reported a fall of .92 inch and Quetta and Chaman each of .43 inch. Skies were overcast over the whole of Upper India on Saturday morning and weather was disturbed in this area, especially in the hill districts.

Temperature has been in general excess in North-West and Central India and unusually high maximum temperatures ranging from 104° to 107° were registered during the week at Surat, Ahmedabad, Akola and Khandwa. Temperature was in defect in North-East India during the first part of the week and in excess at the close of the week.

Rain.—Light showers have been received in the majority of the rainfall divisions. The amounts received have been equal to or in excess of the normal fall of the week in the hills divisions of Bengal and the North-Western Provinces, the West Punjab, Baluchistan, Sind, West Rajputana, Berar, the central division of the Central Provinces, the Konkan, Khandesh, Malabar, Coorg and South Central and South Madras. In only one division, that of South Madras, has the rainfall of the week averaged as much as one inch. The following gives the largest amounts received at individual stations:

N.-W. Provinces (Hills)	Pithoragarh	2.20 inches.
	Joshinath	2.31 „
Malabar	Badagora	2.14 „
	Kasaragod	2.20 „
South Madras	Tenkasi	3.79 „
	Tinnevely	2.00 „

The last three columns of the table at the end show that the rainfall of the period March 3rd to March 23rd has been within 20 per cent. of the normal, and has hence been practically normal in the Bengal Hills, South Oudh, the west and hills divisions of the North-Western Provinces, the submontane and North Punjab, Berar, the western division of the Central Provinces, the Baluchistan Hills, Coorg and South Central Madras. It has been 20 per cent. or more in excess of the normal in Lower Burma, Bihar, the east and east submontane divisions of the North-Western Provinces, the central and east divisions of the Central Provinces, Central India (East), the Konkan, Khandesh, Malabar and South Madras. The defect in the remaining divisions has been actually largest in Assam, especially in the Surma Valley, where it amounts to 5.19 inches.

W. A. BION,

for Meteorological Reporter to the Government of India

and Director-General of Indian Observatories.

J. B. FULLER,

SIMLA, 28th March, 1901. .

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on
Saturday, March 30th, 1901.

Weather was disturbed in Upper India at the commencement of the week, but during the remainder of the week was fine and settled generally over the whole country. Local dust and thunder storms occurred in North-East and Central India and parts of the Peninsula, but were not of much importance.

The barometer fell briskly to rapidly in Kashmir and the North Punjab on Saturday of the previous week and on Sunday morning numerous dust and thunder storms were reported from the plains and hills of Upper India. The heaviest falls reported were: Simla 2.48 inches, Cherat 1.33 inches, Lahore 1.27 inches, Chakrata 1.26 inches and Mussooree 1.10 inches. Light showers also fell in the Central Provinces and parts of Bengal and Assam. Weather continued slightly unsettled in the North-West Himalayas during Sunday and a severe hailstorm occurred at Simla, the precipitation amounting to 1.03 inches. Conditions were more settled on Monday morning and skies had cleared during the previous twenty-four hours over the whole of North-West India. A few light local showers were reported from the Deccan and North-East India, the largest amount of rain received, however, being only 0.32 inch at Ahmednagar. On Tuesday pressure changes were more regular than they had been for some days and weather was now fine and settled over nearly the whole country. A few local showers had occurred in East Bengal and Assam, the most important being a fall of 1.07 inches at Barisal. Pressure changed by small amounts on Wednesday and was very uniform over the whole country. Temperature now increased briskly to very rapidly in North-West India and an area of comparatively low pressure was shown over the western desert,—the first appearance this year of the usual hot weather depression of that region,—which continued in practically the same position during the remainder of the week. Temperature was in excess in North-West India during the same period, and the excess was very large on Saturday in the region represented by the stations of Mooltan, Jacobabad and Bikaner, where it amounted to 10° in the mean of the day and night temperatures. Irregular changes of pressure on Saturday showed that weather conditions were again slightly unsettled in Upper India and thundershowers were received in the North-West Punjab and light snow in the Kashmir Himalayas. Murree reported a fall of .65 inch, Minimarg .56 inch and Astor .53 inch.

Rain.—Showers have been received in Assam and parts of Bengal, Chota Nagpur and Orissa, but the amounts received have been small, and the rainfall of the week has been considerably below the normal in all divisions in North-East India. It has been normal or in excess of the small normal fall in the hills, west and west submontane divisions of the North-Western Provinces, the Punjab

(except in the north and west divisions), Gujarat, Berar, the Konkan, Khandesh, the Bombay Deccan and South Madras. The division which has received the largest average rainfall is the Punjab Hills (2·51 inches).

The following gives the largest amounts received at individual stations :

East Bengal	Barisal	2·27 inches.
Assam	Cheera Poonjee	3·00 „
Punjab	Simla	3·51 „
	Palampur	2·02 „
	Abbotabad	2·05 „
Bombay Deccan	Chandgad	3·52 „
South Madras	Srivaikuntam	2·59 „

The rainfall of the period commencing with 3rd March has been in defect in all divisions, except Lower Burma, Bihar, the North-Western Provinces (except the central and west divisions), the Punjab, Gujarat, Central India (East), Berar, the central and east divisions of the Central Provinces, the Konkan, Khandesh, the Bombay Deccan, Malabar and South Madras. The largest and most important actual deficiency occurs in Assam and parts of Bengal. The normal fall of the period in the Surma Valley is 9·03 inches, but the amount received has been only one inch, the defect in this division hence amounting to 8·03 inches. In the Assam Hills and the Brahmaputra Valley the defect is nearly 3 inches.

J. B. FULLER,

Offg. Secretary to the Government of India

SIMLA, 4th April, 1901.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the 6th April 1901.

Madras.—The rainfall was moderate in parts of Tinnevely. Light or uttered showers fell in parts of the Circars and in South Canara. Water-supplies are insufficient in parts of Godavari, the Deccan, the central, Madura and West Coast districts. Some ploughing, sowing and transplanting is going on. The condition of standing crops generally is fair, but paddy in North Arcot and cotton in Coimbatore are suffering from want of rain. Harvests of dry and garden crops in the Circars and the Deccan districts and of paddy and *ragi* in parts of the Carnatic and the central districts are being completed with moderate outturn. Pasture generally is scarce, except in the Circars, South Arcot and parts of the southern districts, but fodder generally is available. The condition of cattle generally is good. Prices are almost stationary and above the warning rates throughout, except in South Canara, while those of some or all the dry grains are at or above the scarcity rates in parts of the Deccan, South Arcot, North Arcot and Salem. Prospects generally are fair, but are not satisfactory in Salem. Numbers on relief—workers—Cuddapah—men, 768; women, 805; children, 39; total 1,612. Weavers—men, 1,724; women, 1,359; total, 3,083. Grand total, 4,695.

Bombay.—Slight rain fell during the week in parts of Ahmednagar, Belgaum and Kanara. There was a very slight fall in parts of Khandesh, Poona, Satara, Bijapur and Dharwar. Agricultural prospects are good in the Konkan and in parts of Kaira, Broach, Surat, Khandesh, Nasik, Poona and Satara and moderate to poor elsewhere. Standing spring crops have been damaged by rats and by locusts or insects in parts of Sindh and generally are suffering from want of moisture, except in irrigated lands. Reaping of spring crops is completed in Satara, nearly over in Poona and is progressing in other districts. Threshing is in progress in parts of Ahmednagar, Nasik and Kanara. Cotton-picking is nearly over in Dharwar and is progressing in parts of Surat. Lands are being prepared for next season in parts of Karachi, the Konkan, the Karnatak and the Deccan. The fodder-supply generally is sufficient, but is scanty in parts of the Karnatak. Agricultural stock generally is in good condition. The water-supply is becoming deficient in parts of Nasik and of the Karnatak. Prices have fallen in six districts, risen in three districts and are stationary elsewhere. The price of rice is slightly over the normal, but is easier than in 1900. The price of *bajri* is below the normal in Gujarat and over the normal in the Konkan, the Deccan and the Karnatak and, compared with 1900, considerably easier. The price of *juar* is below the normal in Gujarat and considerably over the normal in the Deccan, the Konkan and the Karnatak and, compared with 1900, is easier in the Konkan and the Karnatak and considerably easier in the Deccan and Gujarat. The price of wheat is considerably over the normal, but about the same as in 1900.

Daily average numbers on relief—British districts—on test works, 492; on relief works, 136,245; dependants, 22,610; total on works, 159,347. In poor-houses, 3,878; on village relief, 44,235; total on gratuitous relief, 48,113. Figures for Ahmedabad, Sholapur and Ahmednagar are incomplete. Native States on relief works, 18,382; dependants, 7,120; total on works, 25,502. In poor-houses, 992; on village relief, 992; total on gratuitous relief, 1,984. Figures for Kolhapur and Sangli are incomplete. Grand total, 234,946.

Bengal.—Light showers are reported from the districts of Burdwan, Dacca, Faridpur, Backergunge, Noakhali, Puri, Palamau and Manbhum. Rain is wanted in several districts. Harvesting of the spring crops and pressing of sugarcane are approaching completion. Preparation of lands for early rice and jute crops continues. Prospects of crops depend on rain. Reaping of *mahua* was commenced. Fodder and water are sufficient, except in Chittagong, Bankura and in the Chuadanga sub-division in Nadia. The price of common rice has risen in eleven districts, fallen in eight and is stationary in the rest.

North-Western Provinces and Oudh.—The weather was clear with slight rain in a few districts. Harvesting of spring crops is in progress.

Extraction of opium is nearing completion. Slight damage by rust to crops is reported in some districts, while some injury has been caused by caterpillars in Almora and by rats in Kheri. Supplies and fodder are sufficient. Prices are fluctuating.

Punjab.—A slight fall of rain is reported from Mooltan, Lahore, Peshawar and Dera Ismail Khan. Good rainfall was received in the submontane parts of Amballa and Rawalpindi. Harvesting of certain spring crops has commenced in Hissar, Delhi, Amballa, Ferozepore, Lahore and Amritsar. Sowing of sugarcane and cotton crops, as well as of extra spring crops, continues. Ploughings for other autumn crops is going on in Sialkot. The condition of standing crops is said to be satisfactory, and a good outturn is expected everywhere, except in Hissar, where an average outturn is expected. Crops are said to have been damaged by locusts and partly by rust in parts of Mooltan. Cattle are generally in good condition. Pasturage fodder is said to be sufficient, except in parts of Mooltan. The price of wheat, the staple food-grain, has risen in Amballa, Shahpur and Peshawar, fallen in Amritsar and Rawalpindi and is unchanged elsewhere. The prices of other food-grains are unsettled. Wheat is selling from 10 to 15, gram 9 to 20, maize 16 to 27 and bulrush-millet 14 to 29 seers per rupee.

Burma.—*Report not received.*

Central Provinces.—The weather was unsettled at the close of the week, with high winds and thunderstorms. Light showers have fallen in Jubbulpore, Seoni, Betul and Balaghat. Rust and insects have caused slight damage to wheat and gram in Damoh. Harvesting of spring crops is in full swing in the north and east of the provinces. Threshing is in progress in the Nagpur country and Chhattisgarh and has commenced in the northern districts. Land is being prepared for summer sowings in most parts of the provinces. Fodder and water are ample. Prices fluctuate in most districts. In Chanda the price of *juar* has risen from 16 to 13½ seers per rupee. The cheapest prices are—wheat 13, gram 16, rice 13½ and *juar* 22 seers per rupee. The dearest prices are—wheat 8, gram 10, rice 8 and *juar* 13½ seers per rupee. There are still seven persons on relief in the Saugor poor-house. In Balaghat there are 672 persons on village relief and 23 in pauper wards.

Assam.—Slight rain fell in all districts, except Goalpara. More rain is badly wanted in Sylhet, Goalpara, Kamrup, Nowgong and the Khasi and Jaintia hills. Gathering of mustard is finished. The outturn is good in Lakhimpur, fair in Sibsagar and bad in other districts. Pressing of sugarcane is nearly finished. The outturn is good in Lakhimpur and fair in other districts. Pruning of tea is nearly finished in Sylhet. Plucking of tea is in progress in places. Ploughing for early and late rice and sowing of early rice continue. Land is being prepared for sugarcane in Kamrup and Sibsagar. Fodder and water are scarce in the Khasi and Jaintia hills and in parts of the Surma valley. Water is insufficient in parts of Darrang, Nowgong and Sibsagar. Prices—common rice, Silchar, 12½; Sylhet, Dhubri and Dibrugarh, 10; Gauhati, 12½; Tezpur, 10½; Nowgong, 11½; Sibsagar, 12 seers per rupee.

Mysore.—No rain fell in the Civil and Military station. Standing crops are in good condition throughout. Prospects are good throughout and fair in Hassan. *Ragi*, paddy and Bengal gram are being harvested in a few parts and in other parts paddy is being sown. Prices are steady at Tumkur and Chitaldrug, have slightly risen in parts of Bangalore, Kadur and Hassan and have fallen slightly elsewhere. Cattle are healthy throughout, except in parts of Chitaldrug. Water and fodder are sufficient, except in parts of the Mysore district and in some parts of Hassan and in Chitaldrug where water is gradually getting scarce.

COORG: Prices of food-grains are normal. Water and fodder are sufficient.

Berar.—The weather was warm and occasionally cloudy. Harvesting of winter crops is approaching completion. Ploughing operations for the ensuing crops is in progress. Fodder and water are sufficient. Prices are fluctuating.

Hyderabad.—The rainfall amounted to 8 cents. The total from 1st January is 1 inch and 90 cents. Harvesting of spring crops continues in a few talukas. The winter rice harvest has been commenced in parts. Cattle are in good condition. Grain prices are almost stationary. Prices—wheat 5, coarse rice

Rajputana.—The rainfall amounted to 30 cents in nizamat Suratgarh in the Bikanir State. Agricultural operations are satisfactory. Standing crops generally are in good condition. Harvesting of spring crops continues. Cattle are in good condition. Fodder is ample. The cheapest prices range from 12 to 34.25 seers per rupee. Number on gratuitous relief, 159.

Central India.—No rain fell throughout the Agency during the week. Agricultural operations are in progress everywhere. Standing crops and the probable outturn generally are good. Crops have been damaged by rust in Bundelkhand and Baghelkhand and by drought in Malwa and Bhopawar. Agricultural stock is in bad condition in parts of Malwa and good elsewhere. Prices of food-grains are falling in Gwalior, are steady in Bhopal, normal in Bundelkhand, below average in Baghelkhand and high in Malwa. Average prices—in Gwalior, 17.4 to 30.5; in Bundelkhand, 12 to 22; in Malwa, 18; in Bhopawar, 16 to 17 seers per rupee. The condition of opium generally is good. Numbers on relief—gratuitous relief—Jaora, 73; on Jobat, Alirajpur and Jhabua relief work, 3,620. Report from Indore not received.

Baroda.—Agricultural stock is in fair condition. Prices—*bajri*, 34; *juar*, 35; wheat, 21; rice, superior, 13; inferior, 21 pounds per rupee. Number on relief works, 10,372; gratuitous relief, 4,220.

Kashmir.—The weather was bright mostly during the middle portion of the week, but has been rainy since. Prices are normal, rice selling at 24 seers the rupee. JAMMU PROVINCE: No rain fell. Prices generally are stationary. Wheat sells from 10½ to 17 and maize 20 to 26½ seers per rupee. The condition of standing crops is good. Fodder is insufficient.

Nepal.—The rainfall was slight. The weather is warm and seasonable. The standing crops are in good condition. The price of rice is 8½ seers per rupee.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table:

Extraction of opium is nearing completion. Slight damage by rust to crops is reported in some districts, while some injury has been caused by caterpillars in Almora and by rats in Kheri. Supplies and fodder are sufficient. Prices are fluctuating.

Punjab.—A slight fall of rain is reported from Mooltan, Lahore, Peshawar and Dera Ismail Khan. Good rainfall was received in the submontane parts of Amballa and Rawalpindi. Harvesting of certain spring crops has commenced in Hissar, Delhi, Amballa, Ferozepore, Lahore and Amritsar. Sowing of sugarcane and cotton crops, as well as of extra spring crops, continues. Ploughings for other autumn crops is going on in Sialkot. The condition of standing crops is said to be satisfactory, and a good outturn is expected everywhere, except in Hissar, where an average outturn is expected. Crops are said to have been damaged by locusts and partly by rust in parts of Mooltan. Cattle are generally in good condition. Pasturage fodder is said to be sufficient, except in parts of Mooltan. The price of wheat, the staple food-grain, has risen in Amballa, Shahpur and Peshawar, fallen in Amritsar and Rawalpindi and is unchanged elsewhere. The prices of other food-grains are unsettled. Wheat is selling from 10 to 15, gram 9 to 20, maize 16 to 27 and bulrush-millet 14 to 29 seers per rupee.

Burma.—*Report not received.*

Central Provinces.—The weather was unsettled at the close of the week, with high winds and thunderstorms. Light showers have fallen in Jubbulpore, Seoni, Betul and Balaghat. Rust and insects have caused slight damage to wheat and gram in Damoh. Harvesting of spring crops is in full swing in the north and east of the provinces. Threshing is in progress in the Nagpur country and Chhattisgarh and has commenced in the northern districts. Land is being prepared for summer sowings in most parts of the provinces. Fodder and water are ample. Prices fluctuate in most districts. In Chanda the price of *juar* has risen from 16 to 13½ seers per rupee. The cheapest prices are—wheat 13, gram 16, rice 13¼ and *juar* 22 seers per rupee. The dearest prices are—wheat 8, gram 10, rice 8 and *juar* 13½ seers per rupee. There are still seven persons on relief in the Saugor poor-house. In Balaghat there are 672 persons on village relief and 23 in pauper wards.

Assam.—Slight rain fell in all districts, except Goalpara. More rain is badly wanted in Sylhet, Goalpara, Kamrup, Nowgong and the Khasi and Jaintia hills. Gathering of mustard is finished. The outturn is good in Lakhimpur, fair in Sibsagar and bad in other districts. Pressing of sugarcane is nearly finished. The outturn is good in Lakhimpur and fair in other districts. Pruning of tea is nearly finished in Sylhet. Plucking of tea is in progress in places. Ploughing for early and late rice and sowing of early rice continue. Land is being prepared for sugarcane in Kamrup and Sibsagar. Fodder and water are scarce in the Khasi and Jaintia hills and in parts of the Surma valley. Water is insufficient in parts of Darrang, Nowgong and Sibsagar. Prices—common rice, Silchar, 12¼; Sylhet, Dhubri and Dibrugarh, 10; Gauhati, 12½; Tezpur, 10½; Nowgong, 11½; Sibsagar, 12 seers per rupee.

Mysore.—No rain fell in the Civil and Military station. Standing crops are in good condition throughout. Prospects are good throughout and fair in Hassan. *Ragi*, paddy and Bengal gram are being harvested in a few parts and in other parts paddy is being sown. Prices are steady at Tumkur and Chitaldrug, have slightly risen in parts of Bangalore, Kadur and Hassan and have fallen slightly elsewhere. Cattle are healthy throughout, except in parts of Chitaldrug. Water and fodder are sufficient, except in parts of the Mysore district and in some parts of Hassan and in Chitaldrug where water is gradually getting scarce.

COORG: Prices of food-grains are normal. Water and fodder are sufficient.

Berar.—The weather was warm and occasionally cloudy. Harvesting of winter crops is approaching completion. Ploughing operations for the ensuing crops is in progress. Fodder and water are sufficient. Prices are fluctuating.

Hyderabad.—The rainfall amounted to 8 cents. The total from 1st January is 1 inch and 90 cents. Harvesting of spring crops continues in a few talukas. The winter rice harvest has been commenced in parts. Cattle are in good condition. Grain prices are almost stationary. Prices—wheat 5, coarse rice 7½ and *juar* 14½ seers per *halli sicca* rupee. Numbers on relief not reported.

Rajputana.—The rainfall amounted to 30 cents in nizamat Suratgarh in the Bikanir State. Agricultural operations are satisfactory. Standing crops generally are in good condition. Harvesting of spring crops continues. Cattle are in good condition. Fodder is ample. The cheapest prices range from 12 to 34.25 seers per rupee. Number on gratuitous relief, 159.

Central India.—No rain fell throughout the Agency during the week. Agricultural operations are in progress everywhere. Standing crops and the probable outturn generally are good. Crops have been damaged by rust in Bundelkhand and Baghelkhand and by drought in Malwa and Bhopawar. Agricultural stock is in bad condition in parts of Malwa and good elsewhere. Prices of food-grains are falling in Gwalior, are steady in Bhopal, normal in Bundelkhand, below average in Baghelkhand and high in Malwa. Average prices—in Gwalior, 17.4 to 30.5; in Bundelkhand, 12 to 22; in Malwa, 18; in Bhopawar, 10 to 17 seers per rupee. The condition of opium generally is good. Numbers on relief—gratuitous relief—Jaora, 73; on Jobat, Alirajpur and Jhabua relief work, 3,620. Report from Indore not received.

Baroda.—Agricultural stock is in fair condition. Prices—*bajri*, 34; *juar*, 35; wheat, 21; rice, superior, 13; inferior, 21 pounds per rupee. Number on relief works, 10,372; gratuitous relief, 4,220.

Kashmir.—The weather was bright mostly during the middle portion of the week, but has been rainy since. Prices are normal, rice selling at 24 seers the rupee. JAMMU PROVINCE: No rain fell. Prices generally are stationary. Wheat sells from 10½ to 17 and maize 20 to 26½ seers per rupee. The condition of standing crops is good. Fodder is insufficient.

Nepal.—The rainfall was slight. The weather is warm and seasonable. The standing crops are in good condition. The price of rice is 8½ seers per rupee.

J. B. FULLER,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.
(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected District detail Provincial totals published weekly in the Crop and Weather Summary of the *Gazette of India*.

Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns, from gratuitously relieved in poor-houses or at their homes. Weavers relieved in their own trade are shown under "Gratuitous relief."

The dates at the head of the table are the dates of the *Gazette of India* in which the Provincial totals were published. The figures, however, show the numbers on-relief in each preceding week.

Matter intended for publication in the Supplement should reach the Press not later than Thursday.

WM. ROSS,
Publisher, *Gazette of India*.

GOVERNMENT OF INDIA. DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 3rd April 1901.

NOTIFICATIONS.

No. 1262 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 30th March 1901 :—

- No. 130 of 1901.—William Leonard, Superintendent of the Alipore Central Jail, Alipore, Calcutta. *A device for opening or closing simultaneously by one action all the doors or openings in a range of cubicles, cells or other separate compartments of a building in a line or circular curve, and which permits also of any separate and individual door or opening in the range being opened or closed without opening or closing the remainder.*
- No. 131 of 1901.—Jean Alexandre Lacôte, engineer, 10 rue du Debarcadere, in Paris, France. *Improvements in or relating to machines for treating vegetable stems.*
- No. 132 of 1901.—Jean Alexandre Lacôte, engineer, 10 rue du Debarcadere, in Paris, France. *Improvements in or relating to scutching or fibre preparing machines.*
- No. 133 of 1901.—Erie Exploration Company, a corporation organized and existing under the laws of the state of Delaware, and having an office at No. 30 Broad Street, New York city, state of New York, U. S. A., and in Dover, Delaware, U. S. A. *Improvements in insulating strips or cores for rheostats, electric heaters and similar devices.*
- No. 134 of 1901.—James Dunlop, engineer, of 206 Gorton Lane, Gorton, Manchester, in the county of Lancaster, England. *Improvements in pneumatic and like percussive hammers.*
- No. 135 of 1901.—The Honneus Sulphide Company, Limited, whose registered office is at Brookman's Buildings, Barrack Street, Perth, Western Australia. *Process and means for converting refractory ore into free milling ore.*
- No. 136 of 1901.—Dajibhai Govindji Desai, agriculturist, of Katargam, Surat District, in the Bombay Presidency. *Manufacture of a powder similar to coffee prepared from the seeds of a plant.*

No. 1263 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 138 of 1900.—George Henry Clarkson, Assistant Telegraph Superintendent, Indian Midland Railway, Jhansi, North-West Provinces, India. *Improvements in and connected with electric signalling on railways.* (Specification filed 23 March 1901.)
- No. 319 of 1900.—Thomas Mackenzie, overseer, Military Works Service, Chakrata. *Improvements in centrifugal or vacuum pumps.* (Specification filed 22 March 1901.)
- No. 411 of 1900.—Frederic Godfrey Hughes, legal manager, of National Mutual Buildings, Collins and Queen Streets, Melbourne, in the colony of Victoria. *An improved bandoleer or cartridge belt for carrying ammunition for magazine rifles and other small arms.* (Specification filed 20 March 1901.)

No. 1264 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 22 of 1889.—Erastus Wiman. *Improvements relating to the pulverisation or reduction of mineral or other substances and to apparatus therefor.* (From 1 April 1901 to 1 April 1902.)

No. 14 of 1895.—John Frederick Duke. *Improvements in the means for automatically lighting gas.* (From 11 April 1901 to 11 April 1902.)

No. 24 of 1895.—Francis Harley Davis. *Improvements in core boring apparatus and in the mode of gripping and raising cores therewith.* (From 3 April 1901 to 3 April 1902.)

No. 47 of 1896.—Hari Anandrao Kulkarni. *A warping reel for making warps of cotton, or silk yarn* (From 16 November 1900 to 16 November 1901.)

No. 382 of 1896.—Mephan Ferguson. *Improved means for joining the edges of metal plates or sheets to each other principally useful in the manufacture of pipes.* (From 26 April 1901 to 26 April 1902.)

No. 234 of 1897.—George Henry Clarkson. *Improvements in and connected with electric signalling on railways.* (From 27 October 1901 to 27 October 1902.)

No. 1265 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 238 of 1896.—George John Altham. *Improvements in oil engines.* (Specification filed 21 December 1896.)

No. 340 of 1896.—John George Gough and William Edward Harding. *Improvements in driving gear for cycles and for other purposes.* (Specification filed 18 December 1896.)

No. 341 of 1896.—John Milton Brown and Numa Augustus Joubert. *Improvements in apparatus for producing ice cream and the like.* (Specification filed 18 December 1896.)

No. 350 of 1896.—Romeo Grilli. *Improvements in or relating to bicycles.* (Specification filed 21 December 1896.)

No. 352 of 1896.—John Melrose Arnot. *Improvements in or connected with the closing of boxes, jars, canisters and the like.* (Specification filed 21 December 1896.)

No. 361 of 1896.—Daniel Mayer. *Improvements in or relating to resonators for stringed instruments, particularly pianofortes.* (Specification filed 17 December 1896.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1895) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,
*Secretary under the Inventions and
Designs Act, 1888.*

Administrator General of Bengal

7, COUNCIL HOUSE STREET;
Calcutta, 3rd April, 1901.

TELEGRAPH DEPARTMENT.

NOTIFICATIONS.

Simla, the 22nd May, 1900.

TELEGRAMS FOR THE TROOPS IN SOUTH AFRICA.

No. 9.—The following revised notification is published for general information :—

Until further notice, State and Private telegrams *in plain language* addressed to persons serving with the Field Force in South Africa will be accepted *at Sender's risk*, and charged for at the rate of Rs 1-8 per word from offices in India or Burma. Telegrams in Code or Cypher cannot be accepted at this reduced rate. The address should consist of the following :—

- (1) The name, or number, or both of the person to whom the telegram is addressed (in the case of officers the rank may be omitted, and in the case of telegrams for Non-Commissioned Officers and men the name may, in like manner, be omitted if the number is given. Such omissions, however, add to the risk of the telegram going astray, more especially when addressed to Non-Commissioned Officers and men), and
- (2) The Regiment (*this will be counted and charged for as one word irrespective of the number of words used*).

These telegrams should be addressed "Bombay for South Africa" (*which words will be signalled free*), and not to any particular Telegraph Office in South Africa. The Bombay Telegraph Office will forward them to the Officer Commanding at Capetown, who will deliver them to the Addressees at whatever place in South Africa they may be stationed.

Senders of telegrams should accurately describe the Regiment, Battalion, Battery or Corps, to which the Addressees are attached, as it appears in the "Army List." For example: the address of an Officer or Private in the "Rifles" should give the number of the Battalion, and make it quite clear whether it is a Battalion of the "Rifle Brigade," the "King's Royal Rifle Corps," the "Royal Irish Rifles," or the "Scottish Rifles (Cameronians)."

The reduced rate will also apply to telegrams addressed to members of the Nursing Staff serving in South Africa, and any telegrams addressed to a Nurse will be treated in the same way as those intended for soldiers and sailors.

Telegrams for officers, Non-Commissioned Officers and men in South Africa who are known to be suffering from wounds or sickness may be addressed to them as if they were with their regiment or corps. Such telegrams, on arrival at the place where the regiment or corps is stationed, will be redirected to the proper hospital.

When, however, the name of the hospital is known to the sender of the message, he may address the telegram direct to that hospital, e.g., "Field Hospital, 1st Cavalry Brigade," or to "No. 2 General Hospital" or to "Mooi River Hospital."

In any case, the telegram should, as already stated, be addressed by the sender to "Bombay for South Africa," which words will not be charged for.

The following are given as examples of addresses and counting :—

"Captain Armstrong, 64th Royal Field Artillery, Bombay for South Africa" (*three words*); "Captain Armstrong, Wynberg Hospital, Bombay for South Africa" (*three words*); "7303 Murphy, 2nd Battalion, Royal Dublin Fusiliers, Bombay for South Africa" (*three words*); "7303, Mooi River Hospital, Bombay for South Africa" (*two words*).

II. Notification No. 5, dated the 8th May, 1900, is hereby cancelled.

The 5th December, 1900.

No. 37.—The British Government announces that the transmission of Private telegrams for the Orange River Colony and the Transvaal, *via* Cape Colony and Natal, is now suspended.

Telegrams for Pretoria, Johannesburg, Vereeniging, Germiston, Middelburg, Heidelberg, and Standerton are, meanwhile, being accepted for transmission, *via* Lourenco Marques, at the usual rates. These telegrams should be written in plain English, and will be accepted only at the risk of the sender. They are also subject to censorship and to delay in transmission.

The 31st January, 1901.

TELEGRAMS FOR SOLDIERS AND SAILORS OF THE BRITISH AND INDIAN FORCES IN CHINA.

No. 43.—The following revised Notification is issued for general information :—

Until further notice, private telegrams, *in plain language*, for members of the British or Indian Military and Naval Forces in China, from their friends in India or Burma will be accepted *at sender's risk* and at the reduced rates mentioned below to the three following stations only, *via* Madras :—

1. To Shanghai at Rs 0-15-0 per word.
2. " Weihaiwei " 1-3-0 "
3. " Taku " 1-4-0 "

In the Official Instructions the words "*Reduced Rates*" should be inserted, and will be signalled free.

Telegrams intended for Military or Naval members stationed at Hongkong should be addressed to *Shanghai*, and those for members stationed at Tientsin or Peking should be addressed to *Taku*. These reduced rates will also apply to telegrams for Civilians in Military or Naval employ in China.

In the address the name and number of the Regiment, Battalion, Battery, or Corps will be counted and charged for as *one* word, irrespective of the number of words used. For instance, in a telegram addressed to "Capt. Brown, 2nd Field Battery, Royal Artillery, Shanghai," the number of words to be charged for will be *four* only, instead of *eight* words, as usual.

II. Notification No. 34, dated the 22nd November, 1900, is hereby cancelled.

Calcutta, the 7th March, 1901.

No. 47.—The following revised notification is published for general information :—

The Post Master General, London, announces that the British Government have decided to suspend at Aden and the Cape of Good Hope the transmission of all telegrams in Code or cipher, whether of Foreign Governments or private persons, to or from British Central Africa, St. Helena and Ascension. Telegrams in plain language are subject to censorship, and can only be accepted at the risk of the sender.

Code messages for the following places, *vis.*, Cape Colony, Natal, Rhodesia, Zanzibar, Seychelles, Mauritius, Madagascar, British and German East Africa, Mozambique and Lourenco Marques may, however, be accepted, if the words used are in one or other of the following Code Books, which have been deposited with the authorities at Aden, *vis.* :—

- (1) A B C (4th edition).
- (2) A Z.
- (3) Scott's (9th edition).
- (4) A I.
- (5) Telegraphenschluessel of W. Staudt and O. Hundius (published by Julius Springer at Berlin).
- (6) The Mercur Code (2nd edition), enlarged and revised, with the First Supplement.
- (7) Broomhall's Comprehensive Cipher Code.
- (8) Western Union Telegraphic Code and International Cable Directory, Universal Edition, 1900.
- (9) Atlantic Cable Directory of registered addresses and Directory Code, 1898.
- (10) Atlantic Cable Directory of registered addresses and Directory Code, 1900.
- (11) Watkin's Telegraphic Code with Appendix (17th edition), 1900.
- (12) International Mercantile Telegraph Code (Meyer), 1880.
- (13) The General, Commercial, and Mining Telegram Code, 1897, by C. A. Moreing and F. C. McCutcheon.
- (14) Bedford McNeill's Mining and General Telegraphic Code 1899.

Telegrams should be endorsed to the effect that the words used actually represent the corresponding expressions given in the above-named Code Books.

As delays occur at Aden in consequence of the difficulty of determining which Code has been employed, senders of telegrams to the above-named places in East and South Africa should write on the message draft the name of the Code employed. For instance A B C; A Z; Scott's; A I; Staudt; Mercur; Broomhall's; Directory; Atlantic, 1898; Atlantic, 1900; Watkin's; Meyer; McCutcheon; or McNeill. This information will be included in the "Official Instructions" and transmitted free of charge.

II. Notification No. 39, dated the 13th December, 1900, is hereby cancelled.

No. 47-A.—In the event of the establishment in British India of a censorship over telegrams, the first twelve Code Books mentioned in Notification No. 47, dated the 7th of March, 1901, will be used in India for purposes similar to that for which they are employed in Aden.

The public are recommended to provide themselves with such of the Codes as may appear suited to their requirements.

H. A. KIRK,
Director, Traffic Branch.

OLD AND NEW CEMETERIES, HYDERABAD, SIND.

The following monuments in these cemeteries being in a ruinous condition, notice is hereby given, in accordance with the Ecclesiastical Regulations, Part I, Rule XX, that if the said monuments be not repaired by some interested party or parties they will be treated at the next annual repairs according to the rules laid down :—

Person to whom monument was erected.	Date of burial.
Mrs. Ann M. Wilson, 65 years .	9th September 1867.
Retta Almeida, 10 years . .	2nd June 1863.
Rowena Lucy Lord . .	6th July 1857.
John Barry, 23 years . .	22nd October 1857.

FRANCIS B. SANDBERG,
Chaplain of Hyderabad.

HYDERABAD, SIND,
March 12, 1901.

Ditto (Parcels for Natal only).	18th "	5-45	Per Steamer Umhusi from Madras.
	17th "	P.M. 5	

• Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail Steamer, full allowances being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

The letter-box for inland articles will be cleared for the forenoon Mails at the following hours:—

For Goolundo and Chittagong Express train at 5-30 A.M.

For Midnapore, Orissa and Madras Presidency at 5-45 A.M.

For Eastern districts Rajahmundry and Mysenning at 6-30 A.M.

For Khulna Line at 7-30 A.M.

For Bombay Mail via Nagpur and Mail for Midnapore at 10-45 A.M. and with a late fee of $\frac{1}{4}$ anna up to 11-35 A.M.

The letter-box will be cleared for the evening Mails without late fee at the following hours, viz.:—

For E. I. Railway Loop Mail at 2-30 P.M. and up to 2-55 P.M. with a late fee of $\frac{1}{4}$ anna.

For Darjeeling and Assam at 3-25 P.M. without late fee, and 3-30 P.M. with late fee of $\frac{1}{4}$ anna.

For the Bombay Mail via Jubbulpore at 6 P.M.

For the Punjab Mail at 7-30 P.M.

For Midnapore District and Orissa at 7-30 P.M.

For Khulna Mail at 7-30 P.M.

For the Eastern Bengal Mail at 7-30 P.M.

Late letters bearing a fee of $\frac{1}{4}$ anna will be received for the Midnapore, Orissa, and the Madras Presidency Mails from 5-45 A.M. to 6-35 A.M., and for the Bombay Mail via Jubbulpore up to 6-30 P.M. and for other Mails from 7-30 to 8 P.M., and from 8-0 to 8-45 P.M. with a late fee of $\frac{1}{4}$ anna for the Punjab and Eastern Bengal Mails only.

Late registered letters will be received between the following hours:—

For the Bombay Mail via Nagpur up to 10-30 A.M.

For the Bombay Mail via Jubbulpore from 5 P.M. to 6-15 P.M.

For the Punjab Mail from 6 P.M. to 7 P.M.

For the Eastern Bengal Mail from 6 P.M. to 7 P.M.

For the Khulna Mail from 6 P.M. to 7 P.M.

For Midnapore, Orissa and the Madras Presidency the previous evening up to 6 P.M. and late registered letters up to 7 P.M.

The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7-30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of $\frac{1}{4}$ anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies, China and Japan via Tuticoria, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 5-45 A.M., and late letters and papers fully prepaid will be received up to 6-35 A.M.

On the day of despatch of the Mail of Europe (Thursday), the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6-30 P.M., and late letters and papers fully prepaid will be received up to 6-45 P.M. Late registered articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6-30 P.M. for despatch by any Foreign Mails via Bombay the same night and up to 8-30 P.M., late letters and papers up to 9 P.M., for any Foreign Mails despatched by Sea. Foreign Mails for despatch via Madras or Tuticoria are received up to 5-45 A.M. and with a late fee up to 6-35 A.M. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,

Offg. Presidency Postmaster, Calcutta.

سینکونا فبرجی فوج یعنی ٹپ بھگانے والی سینکونا *

سینکونا فبرجی فیوج کلکتہ کے بوٹانیکل گارڈن یعنی
ادمینی باغ کے سپرنٹنڈنٹ صاحب سے ہر ایک ملازم
سرکاری اور ایک مشیت چھہ پونڈ تک لیٹے والا ہر
ادمی حسب نرخ ذیل خرید کر سکتا ہے:— یعنی
چار اونس والا ٹین بقیمت در روپیہ آٹھ آنہ؛ آٹھ
اونس والا ٹین بقیمت پانچ روپیہ؛ ایک پونڈ والا
ٹین بقیمت دس روپیہ * .

عام آدمیوں کو یہ فرا بوٹانیکل گارڈن یعنی کمپنی
باغ کے سپرنٹنڈنٹ صاحب سے بقیمت نقد حسب نرخ
ذیل مل سکتی ہے۔ یعنی چار اونس والا ٹین بقیمت
تین روپیہ؛ آٹھ اونس والا ٹین بقیمت چھہ روپیہ؛
ایک پونڈ والا ٹین بقیمت بارہ روپیہ *

یہ درا کلکتہ کے بڑے بڑے ولایتی اور دیسی
دواخانوں میں بھی بکٹی ہے — ماسوائے قیمت
مذکورہ بالا کے محض قداک چار اونس والا ٹین کا

چار آنہ؛ آٹھ اونس والا ٹین کا آٹھ آنہ؛ اور ایک
پونڈ والا ٹین بارہ آنہ *

PURE SULPHATE OF QUININE.

*Manufactured at the Bengal Government
Cinchona Plantation.*

From 1st April, 1900, the price of this Quinine
will be as follows:—

1-pound tin, *R17*, or, post-free, *R17-12*.

½ " " *R 8-8* " *R9*.

¼ " " *R4-4* " *R4-12*.

Analysis shows this Quinine to be of the
purest manufacture; and it is guaranteed to be
free from wilful mixture with the inferior alka-
loids Cinchonine and Cinchonidine. It is for
sale only to Government officers, and only for
cash, and may be had from the Superintendent,
Botanic Garden, Sibpur, near Calcutta.

বঙ্গদেশের গবর্ণমেন্টের সিনকোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৯০০ সালের ১লা এপ্রেল হইতে এই কুইনাইনের বিবরণিত দ্বারা
হইবে, যথা—

১ এক পৌণ্ড টিন ১৭ বা ডাকঘাতল বিনা ১৭।১০

। আধ " " ৮ " ৯

। শিকি " " ৪।০ " ৪।১০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে
প্রস্তুত করা হইয়াছে, এবং ইহা যে সিনকোনাইন ও সিনকোনি-
ডাইন নামক অশুদ্ধি কারের সহিত ইচ্ছা পূর্বক মিশান হয় নাই
তাহার পরীক্ষা দেখা হইতেছে। ইহা নগদ দ্বারা কেবল গবর্ণ-
মেন্টের কর্মচারীগণের নিকট বিক্রয় করা হইবে, এবং কলিকাতার
নিকট শিবপুরের কোম্পানির বাগানের কুণ্ডলিতে কুইনাইন
পাইতে পারে।

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal 8vo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

Section	I. Building Materials (1898), R2-0.
"	II. Masonry (1898), R1-4.
"	III. Carpentry (1898), R1-8.
"	IV. Earthwork (1892), R1-4.
"	V. Tools and Plant (never published).

VOLUME II.*

Section	VI. Buildings (1899), R1-4.
"	VII. Bridges (1897), R4-4.
"	VIII. Roads (1897), R1-8.
"	IX. Railways (1891), R1-4.
"	X. Irrigation Works. (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

- Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R7.
" II. The Stability of Structures, mostly by Graphic Methods. (In the Press.)

MANUALS.

- VII. Surveying (by Major Firebrace, R.E.) (7th edition with Curve Table). R3.
XIII. Drawing (by Lieut. R. Pulford, R.E.). † R6.
XIIIa. Drawing, First Principles of Geometrical (by do.). R1-4.
XIV. Simple Applied Mechanics (3rd edition), Parts I and II in one. R1-8.
Simple Applied Mechanics, Part II (1st edition) 8a.
XV. Examples of Estimating. Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). R3-12.
XVI. Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. R1.
XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Civil Engineer and Upper Subordinate classes at the Thomason College in Civil Engineering. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. 4a.
Scantlings of Timber for Roofs. Tables and investigation of formula for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 30 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. 12a.
Notes on Chemistry of Building Materials. R1-8.
Tate's Mechanism. R1.
Barman's Descriptive Mineralogy. R2-4.

* Date of Edition on sale.

† Originally published at R15, reduced to R6.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunhya Lal. R2-8.

O'Callaghan's Earthwork Tables for India. In one large sheet, 12a; mounted on cloth and bound. R1-12.

Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. 12a.

Tyndall's Hand-Book of Specifications. (In the Press.)

The Indian Engineer's Pocket Book. R1.

Wooden Bridges and Designs. By Rai Kunhya Lal. (In the Press.)

Blasting under Water (2nd edition). 10a.

Waugh's Instructions for Topographical Surveying. R1.

Analysis of Lime and Cement Stones. By Murray Thompson, Esq., M.D., F.R.S.E. 6a.

Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width, very useful for Projects. R1-6.

SCIENCE BOOKS.

Wilson's Inorganic Chemistry. R1-8.

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pies into decimals of a Rupee. With a few others of general utility (4th edition). R1-8.

Boileau's Tables of Log sin† P (for computing time (4a)).

Cape's Logarithms, with Tables of Squares, Cubes, etc. R1-4.

Cape's Geometry. R1-4.

Cape's Mechanics. 8a.

Todhunter's Plane Trigonometry. R2-8.

Todhunter's Differential Calculus. R2-8.

Military Topography. 8a.

HINDUSTANI.

Elements of Hindustani Grammar. 8a.

Technical Dialogues—English and Urdu. R1.

A Vocabulary of Common and Technical Words in English-Urdu. 12a.

History of India (*Itihas Timirnāsah*), Hindi, Parts I and II. Both 6a.

Short Account of Ganges Canal (English and Urdu). Each 4a.

NOTE AND FIELD-BOOKS, etc.

Note Books (Section paper), large. Each R1-4.

Surveying Field Books (ruled). 14a.

Levelling Field Books (English Pattern). R1-4.

" " " (Canal " "). R1-4.

" " " (College " "). R2-0.

P. W. D. Note-Book. R1-4.

" Measurement Book. R1-4.

Circular Card-board Protractors, 4" ches. R2.

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants.

J. CLIBBORN, Lieut.-Col., I.S.C.,
Principal, Thomason Civil
Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.
For the Complete Series, including postage. Rs. 22-8

	Without postage.	With postage.
For the Calcutta Series	R s. p. R s. p.	
" each of the Madras, Bombay, and Allahabad Series	10 0 0	12 8 0
" a part of the Calcutta Series purchased separately, inclusive of postage in India	6 0 0	7 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	...	2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For country.
For the Calcutta Series; per copy	R s. p. R s. p.	
" each of the Madras, Bombay, and Allahabad Series; per copy	0 8 9	0 10 0
" the Calcutta Series. For the year	0 5 3	0 5 3
" each of the Madras, Bombay, and Allahabad Series. For the year	7 2 6	8 6 3
" each of the Madras, Bombay, and Allahabad Series. For the year	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Reports should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.
Orders and subscriptions for 1893 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	Half page.	Quarter page.
For one issue	R 20	R 14	R 9
" three issues	" 55	" 36	" 24
" six "	" 100	" 63	" 45
" nine "	" 145	" 96	" 64
" twelve "	" 180	" 120	" 80

Several volumes of the **BENGAL LAW REPORTS**, from August 1868 to December 1875, and **FULL BENCH RULINGS**, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
Bengal Law Reports, for one year	R s. p. R s. p.	
Single copies, Rs. 2 per copy.	20 0 0	22 8 0
Full Bench Rulings, Parts I and II	20 0 0	22 8 0

Bengal Secretariat Book Depot, Writers' Buildings, Calcutta.
Remittance to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March, in each year. Those who register their names after that date will understand that copies will be supplied only if available.

SANITARY.

Plague.

The 11th April, 1901.

No. 765.—The following Notices of the Board of Trade are published for general information:

(F. & H. 3783)

Board of Trade (Fisheries and Harbour Department), London, March 1, 1901.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a Telegram from His Majesty's Representative at St. Petersburg, intimating that Cape Colony is declared dangerous on account of plague.

(F. & H. 4121.)

Board of Trade (Fisheries and Harbour Department), London, March 5, 1901.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, the following Quarantine Notice from His Majesty's Representative at Berlin, *viz.*:

(Translation.)

Notice Respecting Restrictions on Imports and Transit Goods from Cape Colony and Natal.

March 1st, 1901.

In view of the law respecting the combatting of diseases dangerous to the community of June 30th, 1900 (Reichsgesetzblatt, p. 306), and the notice respecting the restrictions on imports and transit goods for keeping off the danger of cholera and the plague of July 4th, 1900 (Reichsgesetzblatt, p. 555), the following regulations are hereby put in force from the day of their publication:

1. The import and transit of body linen, old and worn articles of clothing, used bed clothes, and rags of all kinds from Cape Colony and Natal is forbidden.

2. The prohibition under section 1 does not apply to body linen, bed clothes, and articles of clothing, which travellers bring with them for their own use, or which are introduced as change clothing. Nevertheless permission to import them may be made dependent on a preliminary disinfection.

3. The Chancellor of the Empire is empowered to allow exceptions from the prohibition subject to the arrangement of necessary measures of precaution.

Berlin, 1st March 1901.

The Representative of the Imperial Chancellor.

COUNT VON POSADOWSKY.

No. 1915-P.—Captain C. T. Hudson, I.M.S. (Bombay Establishment), Deputy Assay Master, substantive *pro tempore*, is confirmed in that appointment, with effect from the 17th of September 1900.

No. 1922-P.—The following is notified in substitution for the first clause of the Notification in this Department, No. 1472-P., dated the 13th March 1901:

Mr. H. G. H. Keene, Comptroller, Hyderabad, is granted, with effect from the 21st of March 1901, privilege leave for twenty-four days with furlough out of India for one year and eight months in continuation.

• **No. 1933-P.**—Captain C. T. Hudson, I.M.S. (Bombay Establishment), Deputy Assay Master, is granted, with effect from the 4th of May 1901, privilege leave for three months with special leave on urgent private affairs for three months in continuation.

The 12th April, 1901.

No. 1971-P.—Mr. H. J. McIntosh, I.C.S. (Bengal Establishment), is appointed to be Deputy Secretary to the Government of India in the Finance and Commerce Department, with effect from the 6th of April 1901.

The 10th April, 1901.

No. 1907-S R.—In exercise of the power conferred by the last paragraph of section 1 of the Indian Salt Act, 1882 (XII of 1882), and in supersession of the notification in this Department, No. 1093, dated the 5th March 1890, and all previous notifications on the subject, the Governor General in Council is pleased, with effect from the 15th April 1901, to extend to Calcutta as defined by or under the Calcutta Municipal Act, 1899 (Bengal Act III of 1899), and to the area included within a distance of 2 miles from the limits of Calcutta as so defined, the whole of the said Act, with the exception of the following portions, namely:

- (1) the portions thereof specified in the second paragraph of section 1;
- (2) the words "an Assistant Commissioner of Northern India Salt-revenue, and also includes" in the second clause of section 3;
- (3) the words "any officer of the Northern India Salt Department, and also includes" in the third clause of section 3;
- (4) sections 5, 8-A and 8-B;
- (5) the words "unless the Commissioner of Northern India Salt-revenue otherwise directs" in section 22;
- (6) the last sentence of section 27; and
- (7) the words "or the Commissioner of Northern India Salt-revenue" in section 30.

No. 1908-S R.—In exercise of the powers conferred by sections 27, 28 and 29 of the Indian Salt Act, 1882 (XII of 1882), and in supersession of the notifications of the Government of India in the Department of Finance and Commerce, No. 6007, dated the 29th November, 1889, and No. 1092, dated the 5th March, 1890, the Governor General in Council is pleased to make the following rules to carry out the provisions of the said Act, namely:

1. These rules shall apply to Calcutta as defined by or under the Calcutta Municipal Act, 1899 (Bengal Act III of 1899), and to the area included within a distance of 2 miles from the limits of Calcutta as so defined and shall have effect therein on and from the 15th April, 1901.

2. The importation into Calcutta or such area as aforesaid of the salt known in Calcutta and other parts of Bengal as puckwa, being salt which has been obtained in the manufacture of saltpetre, and on which duty for the time being imposed under section 7 of the Indian Salt Act, 1882 (XII of 1882), (hereinafter referred to "as the said Act"), has not been paid at the place where the salt was obtained as on salt manufactured in the part of British India where that place is situated, is prohibited absolutely.

3. No saltpetre shall be manufactured or refined, and no salt shall be educed therefrom, except under and in accordance with the conditions of a license as hereinafter prescribed.

4. Applications for licenses shall be made to the Salt-revenue officer in charge of the division or circle in which the works are situated, who may grant the application on receipt of the prescribed license-fee.

5. No license shall be granted for the manufacture of crude saltpetre, unless the licensing officer is satisfied that the soil in the vicinity of the place of manufacture and the soil from which the said crude saltpetre is to be produced do not contain such a percentage of chloride of sodium as to render the manufacture a source of danger to the salt-revenue, and unless the works are so situated that they can without difficulty be supervised by the Salt-revenue Department.

6. Ordinarily no refinery shall be licensed until the person applying for a license has satisfied the licensing-officer that he is prepared to produce within the period of the license not less than two hundred maunds of refined saltpetre.

7. No refinery shall be licensed until the person applying for a license has satisfied the licensing-officer that the refinery-buildings and premises are so constructed and surrounded by a wall as to afford full security for the levy of the duty on all salt educed therein.

8. The following fees shall be levied in prepayment for licenses for each description of work:

	<i>Rs. a. p.</i>
For the manufacture and refining of saltpetre, including the education of salt therefrom	50 0 0
For the manufacture of saltpetre	0 4 0

9. The license for the manufacture of crude saltpetre to be granted to persons not licensed to refine the saltpetre or educe salt therefrom shall contain the name of the person to whom it is given, and shall specify the place where such manufacture may be carried on and the approximate quantity of saltpetre to be manufactured, and shall also contain the following conditions:

1st.—That the provisions of the said Act and of these rules shall be strictly observed by the licensee, his agents and his servants.

2nd.—That no process for refining the crude saltpetre shall be resorted to.

3rd.—That the plant specified in the license shall not be altered, or the locality of the works changed, without the written sanction of the Salt-revenue officer in charge of the circle.

The license shall be subject to such further conditions as the Commissioner of Excise and Salt may from time to time prescribe for the protection of the Salt-revenue.

10. The license for the manufacture and refinement of saltpetre and for the eduction of salt therefrom shall contain the name of the person to whom it is given, and shall specify the place where such refinement of saltpetre and eduction of salt may be carried on and the approximate quantity of saltpetre to be refined, and shall also contain the following conditions:

1st.—That the provisions of the said Act and of these rules shall be strictly observed by the licensee, his agents and his servants.

2nd.—That the refinery-buildings and surrounding walls shall be kept in good repair to the satisfaction of the Salt-revenue officer in charge of the circle, and so as to afford full security for the Salt-revenue.

3rd.—That the number of pans and boilers specified in the license shall not be altered without the written sanction of the Salt-revenue officer in charge of the circle.

4th.—That the licensee shall maintain a daily register showing the quantity of crude saltpetre purchased or manufactured, of the saltpetre refined therefrom and of the salt educed from such saltpetre, and of the quantities of any of these substances which may be sold and removed from the refinery.

5th.—That no saline substance other than refined saltpetre shall be removed from the refinery except with the written sanction of the Salt-revenue officer of the circle, and, if the substance is by law subject to the payment of duty, on payment of the duty of Rs. 2-8 per maund or of such other duty as may for the time being be imposed under section 7 of the said Act: provided that, with the written sanction of the Salt-revenue officer of the circle, any saline substance subject to the payment of duty may, without such payment, be so removed for destruction at some convenient place outside the refinery under the supervision of the Salt-revenue officer of the circle or of such other Salt-revenue officer as may be specified in the written sanction.

The license shall be subject to such further conditions as the Commissioner of Excise and Salt may from time to time prescribe for the protection of the Salt-revenue.

11. All licenses granted under these rules shall be for a period ending on or before the 31st July following the date of their issue, and shall on expiry be returned to the Salt-revenue officer of the circle.

12. A duplicate of any license lost or destroyed during the period of its currency may be obtained on payment of one quarter of the original license-fee.

13. Every licensee shall produce his license for inspection when called upon to do so by any Salt-revenue officer not below the rank of Inspector, or by any subordinate deputed by such officer for the purpose.

14. All licensed works and all premises connected therewith shall be open at all times by day or night to the inspection of any such officer or subordinate as is referred to in rule 13.

15. All diaries, registers, books of account, and the like connected with the business of licensed works shall at all times be open to the inspection of any such officer or subordinate as is referred to rule in 13.

16. All salt shall be daily weighed and placed in a bonded store-house under lock and key; the key shall remain in the possession of the refiner or his agent, subject to such directions as the Commissioner of Excise and Salt may give from time to time; and the Assistant Commissioner or Inspector from time to time may cause the salt to be weighed in his presence and removed from the bonded store-house. The licensee shall, within twenty-four hours subsequent to such weighment and before the removal of the salt, pay the duty leviable thereon,

17. When salt has thus been weighed and the duty paid, it shall, with all possible despatch, be removed to a distance of more than one hundred yards from any part of the refinery-premises under a pass signed by the Assistant Commissioner or Inspector.

The pass shall be current for such period, not exceeding twenty-four hours, as the officer issuing it may deem necessary for the removal of the salt.

A pass shall not be granted for a less quantity than twenty maunds except for the purpose of emptying a bonded store-house.

18. Except as hereinbefore provided, or with the permission of the Assistant Commissioner, no person shall possess any salt at any place within the limits, or within one hundred yards from the nearest part, of any saltpetre manufactory or refinery and its appurtenances.

19. If any licensee under the foregoing rules fails during the period of his license to carry on effective working at the place at which he is licensed to carry on the same, the licensing-officer may suspend the license until the licensee is prepared to resume effective working there.

20. In all cases in which illicitly manufactured salt or saltpetre is seized by any Salt-revenue officer below the grade of Assistant Commissioner, such officer shall at once proceed with the salt or saltpetre so seized and any person concerned in the manufacture whom he may have been able to arrest, and any independent witnesses to the seizure whose attendance he may be able to secure, to the nearest police-station. The senior officer present at such police-station shall receive from the seizing officer the salt or saltpetre so seized and in the presence of the witnesses (if any) and the accused shall, after weighing and recording the weight of each kind or quality of salt or saltpetre seized (if there are more than one such kind or quality), take from each two samples of not less than one tola each, and shall seal the same with the official seal of the police-station, and after numbering them deliver them to the officer who made the seizure, recording at the same time a note on the printed form of seizure, which shall be presented to him, specifying the total weight of each kind seized according to the weighments made before him and the corresponding numbers of the samples. The remainder of the salt or saltpetre shall be sealed up with the seals of the officer who made the seizure and of the police-station, and shall remain in the malkhana or other secure place in the police-station until such time as a written order shall be sent by the Assistant Commissioner, either for the destruction of the articles seized, which shall be carried into effect by the officer presenting such request in the presence of some officer of the police station and certified by him on the reverse of the order, or for the delivery of the same or part thereof, as the case may be, to the bearer of the order for production in Court.

21. When a seizure is made by the Assistant Commissioner in person, he may either follow the foregoing procedure, deputing one of his subordinates present at the seizure to take the articles seized to the police-station and receive the samples, or he may himself on the spot take out and seal up the samples and the rest of the articles seized with his own official seal. He may then either take the articles seized with him to deposit in such place as he may think fit, or send them for deposit to the nearest or most accessible police station, to be kept, as provided by rule 20, until further orders. If, however, the Assistant Commissioner himself seals the articles seized, he shall, in the event of the identity of the salt or saltpetre produced in Court being denied by the accused, be prepared to attend and prove the same in person.

22. When anything is seized and detained under the said Act or these rules it shall not be released until all duty, penalties and charges due on account thereof have been paid by the owner to the Salt-revenue officer who is in possession thereof.

If the article seized is reported for confiscation, it shall not be released unless orders for its release are received from competent authority.

23. If an animal is so seized and detained, the owner shall provide for its due care and keep; and, if he fails to do so, it may be sold to defray any charges incurred in respect of it.

24. If orders are received from competent authority for the release of anything seized and detained, and no duty or penalty is payable in respect thereof, it shall at once be released to the owner or his agent on his paying all charges incurred in respect thereof.

25. If no one is present to receive the article released, the Salt-revenue officer in charge shall do his best to give notice to the owner of the order of release, and shall cause a similar notice to be affixed in a conspicuous place in his own office and in that of the Assistant Commissioner.

If within two calendar months from the date of the notice no person entitled to receive the article released, claims it and pays all charges incurred in respect thereof, it shall be sold and the proceeds placed in deposit.

If, after a further period of three calendar months, no such claim is made and charges paid, the proceeds shall be credited to the Government.

26. If any duty is leviable or any penalty is imposed by competent authority in respect of any article seized, unless such duty or penalty, together with all charges incurred in respect thereof, is paid within three days of the receipt of the orders of competent authority for release subject to such payment, the article shall be sold, and from the proceeds the duty, penalty, and charges shall be deducted, and the balance made over to the owner or his agent. If no one is present to receive the balance, notice, as under rule 25, shall be given, the balance being kept in deposit for three calendar months. If not claimed within that period, it shall be credited to the Government.

27. When orders are received from competent authority for the confiscation of anything seized and detained, it shall with all convenient despatch be sold or destroyed as the Assistant Commissioner may direct.

28. When a Magistrate orders the confiscation of works, materials, or implements under section 9 of the said Act, they shall be sold or destroyed in such manner as the Assistant Commissioner may direct.

29. Whoever is dissatisfied with any order passed by the Assistant Commissioner, may appeal to the Commissioner of Excise and Salt.

An appeal against every order of the Commissioner of Excise and Salt shall lie to the Board of Revenue, Lower Provinces, it presented within sixty days from the date of the order appealed against.

An order passed on appeal by the Board of Revenue, Lower Provinces, shall be final.

30. Subject to the provisions of rule 29, the Commissioner of Excise and Salt shall be at the head of the administration of the salt-revenue under the said Act in the area to which these rules apply, and may prescribe all forms necessary for the administration therein of the said Act and of these rules.

J. E. FINLAY,

Secretary to the Government of India

MILITARY DEPARTMENT.

T. HIGHAM,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Weather Review of India for the Week ending at 8 a.m. on
Saturday, the 6th April, 1901.**

Ordinary hot weather conditions have prevailed during the week, with unusually high temperature in North-West India, and temperature slightly below the normal in the south and east of the Peninsula. Local thunderstorms, in some cases accompanied with hail, have occurred in most parts of the country, especially in the Central Provinces, Assam, East and North Bengal and Tenasserim.

Pressure changes were irregular and weather was slightly unsettled in Upper India on Saturday, the 30th March, and showers were reported on Sunday morning in the North-West Himalayas and light to moderately heavy falls of snow in Kashmir. Astor received 1.79 inches and Minimarg 0.72 inch. On Monday shallow low pressure areas were shown along the hills in the North-Western Provinces and in South-East Rajputana and the adjacent districts. The latter depression was the cause of a few dust and thunderstorms in the central parts of the country accompanied with light showers of rain. The former gave dry westerly winds in the Gangetic Plain and thunderstorms in Assam and North Bengal. The barometer fell briskly to rapidly in Baluchistan, the Punjab, Sind and West Rajputana on Wednesday, and slightly to briskly in Gujarat, Khandesh, the west of the Central Provinces and the north of the Deccan. A shallow depression formed in the South-West and Central Punjab, and pressure was slightly lower than in the surrounding districts in Kathiawar, Khandesh and the Deccan. Another shallow low pressure area had also formed in Central Burma. On Thursday thunderstorms were reported from Upper Burma, the Bombay Deccan and the Central Provinces and were accompanied with hail in the Central Provinces. Pachmarhi received 1.11 inches, Seoni 1.08 inches and Nagpur 0.95 inch. The observer at Nagpur reported severe storms on Wednesday and Thursday, causing some loss of life and considerable damage to property. The depression in the Punjab advanced slowly eastward, but gave no rain till Friday, when it had entered the submontane districts of the Punjab. Light thunder-showers were then received in the Upper India hills. A shallow depression was shown on Friday lying over the south-western districts of the Deccan, and thunder and hail storms were reported on Saturday from the Bombay Deccan and the Central Provinces. Thunderstorms had also occurred in Assam. Belgaum received 1.76 inches, Silchar 1.36 inches and Sambalpur 0.79 inch.

Rain.—Most rainfall divisions report showers, but the amounts received are generally small. The average rainfall of the week has exceeded an inch in only Tenasserim and the Surma and Brahmaputra valleys and the fall has again been considerably below the normal in Assam. Amounts equal to, or in excess of, the small normal weekly rainfall have been received in Tenasserim, Eastern Bengal, the Bengal Hills, Orissa, North Oudh, the east submontane division of

the North-Western Provinces, the Konkan, the Bombay Deccan, Khandesh, Berar, the Central Provinces and Central India (East). The largest amounts received at individual stations were—

Bengal	Bauphal (Backergunge)	3.50 inches.
	Laksham (Tipperah)	2.50 „
	Madaripur (Faridpur)	1.82 „
Assam	Mandakatta (Kamrup)	2.52 „
	Golaghat (Sibsagar)	1.71 „

The rainfall of the period 3rd March to 6th April has been in general defect in Burma (except Tenasserim) and North-East India, and generally equal to, or in excess of, the normal along the North-West Himalayas and in the central parts of the country.

The following gives all divisions in which rainfall has been equal to, or in excess of, the normal: Tenasserim, North Bihar, the North-Western Provinces (except the central and west divisions), the Punjab (except the south-west and central divisions), Gujarat, Central India (East), the Central Provinces, Berar, the Konkan, Khandesh, the Bombay Deccan, Malabar and South Madras.

The defect is again actually largest in Assam and now amounts to 10 inches in the Surma valley.

Offg. Secretary to the Government of India.

SIMLA, 11th April, 1901.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the
13th April 1901.

Madras.—The rainfall was moderate in Travancore, and light or scattered showers fell in parts of the Circars, Coimbatore and Malabar. Water-supplies are insufficient in parts of Godavari, the Deccan, North Arcot, Salem, Madura, Malabar and South Canara. Ploughing sowing and transplanting are going on in parts. Standing crops are thriving generally, but some need rain in parts of North Arcot and Coimbatore, and *cholam* in parts of Cuddapah has been blighted by disease. Harvests generally are being completed with moderate yield. Pasture generally is scarce, except in the Circars, parts of the Deccan, South Arcot, the Southern and the Nilgiris districts, but fodder generally is available. The condition of cattle generally is good. Prices are stationary or slightly easier, except for some rise in Ganjam, South Arcot, Salem and parts of the Southern and West Coast districts. Prospects generally are fair, but are not encouraging in Salem. Test workers—Cuddapah—men, 967; women, 1,066; children, 23; total, 2,061. Weavers relieved—men, 1,729; women, 1,363; total, 3,092. Grand total, 5,153.

Bombay.—Slight rain fell during the week in parts of Satara, Bijapur and Belgaum and there was a very slight fall in parts of Kolaba, Khandesh, Ahmednagar, Poona, Dharwar and Kanara. Agricultural prospects are good in Sindh, fair to good in the Konkan and parts of Kaira, Broach, Surat, Khandesh, Nasik, Poona and Satara and moderate to poor elsewhere. Standing spring crops have been damaged by rats, locusts or insects in parts of Sindh and generally are suffering from want of moisture, except in irrigated lands. Reaping of spring crops has been completed in Satara, is nearly over in Poona and the Panch Mahals and is progressing in other districts. Threshing is in progress in parts of Thar and Parkar, Ahmednagar, Nasik and Kanara. Cotton-picking is nearly over in Ahmedabad and Dharwar and continues in parts of Broach, Surat and Belgaum. Lands are being prepared for next season in parts of Karachi, the Konkan, the Karnatak and the Deccan. The fodder-supply generally is sufficient, but is scanty in parts of the Karnatak. Agricultural stock generally is in good condition. The water supply is becoming deficient in parts of Ahmednagar, Nasik, Belgaum and Dharwar. Prices have fallen in nine districts, risen in three districts and are stationary elsewhere. The price of rice is slightly over normal, but easier than in 1900. The price of *bairi* is below normal in Gujarat, over normal in the Konkan and the Deccan and considerably over normal in the Karnatak and, compared with 1900, is considerably easier. The price of *juar* is below normal in Gujarat and considerably over normal in the Deccan, the Konkan and the Karnatak and, compared with 1900, is easier in the Konkan and the Karnatak and considerably easier in Gujarat and the Deccan. The price of wheat is considerably over normal and about the same as in 1900.

Daily average number on relief—British districts—on test works, 626; on relief works, 152,275; dependants, 21,647; total on works, 174,548. In poor-houses, 4,196; on village relief, 43,759; total on gratuitous relief, 47,955. Figures for Ahmedabad, Sholapur, Ahmednagar, Belgaum and Dharwar are incomplete. Native States—on relief works, 19,613; dependants, 8,097; total on works, 27,710. In poor-houses, 965; on village relief, 958; total on gratuitous relief, 1,923. Figures for Aundh, Phaltan and Jamkhandi are incomplete. Grand total, 252,136.

Bengal.—Rain fell in small quantities in some of the districts of Bengal and also in the Santbal Parganas, Cuttack, Angul and Singhbhum. More rain is wanted for the cultivation of lands for early rice and *jute*. Harvesting of spring crops is almost over and threshing has commenced. Sugarcane pressing

is nearly finished and the planting of fresh shoots of sugarcane is going on in some districts. Fodder and water are sufficient, except in Bankura, Chittagong, and in the Chuadanga sub-division of the Nadia district. The price of common rice has risen in seventeen districts, fallen in nine and is stationary in the rest.

North-Western Provinces and Oudh.—The weather was generally bright, except in twelve districts, where slight showers fell. Reaping and threshing of spring crops are in active progress and are approaching completion in places. Prospects continue favourable. Extra crops and sugarcane are flourishing. Opium extraction continues, and weighments have begun. Poppy is being cut in some districts. In Jhansi slight injury by rust has been caused. Markets are well stocked, and fodder is abundant. Prices are generally falling.

Punjab.—Rain has fallen in the Rawal Pindi district only. Harvesting of spring crops and sowing of extra spring crops as well as of sugarcane and cotton continue. Threshing of certain spring crops has been commenced in Sialkot. Spring crops are ripe in Amballa and a good outturn is expected everywhere. Standing crops are flourishing throughout the province. Crops are said to have been damaged by locusts and rust in parts of Mooltan. Locusts also appeared in the Rawal Pindi district, but did no damage. Cattle are generally in good condition. Pasturage fodder is said to be sufficient in all districts, except in the unirrigated tracts of Mooltan. The price of wheat has risen in Mooltan, Lahore, Rawal Pindi and Pehawar, fallen in Hissar, Amballa, Amritsar and Shahpur and is unchanged elsewhere. The price of gram has fallen throughout the province, owing to the fresh supply being imported into the market. The prices of maize and bulrush millet are also giving way. Wheat is selling from 10 to 14 seers, gram 11 to 25, maize 16 to 28 and bulrush millet 16½ to 30 seers per rupee.

Burma —**LOWER BURMA:** Reaping of dry weather paddy is progressing in Tavoy. **UPPER BURMA:** Sowing and transplanting of dry weather paddy are in progress in several districts and have been completed in Upper Chindwin. Cultivation of wet weather paddy has been commenced in Kyaukse, completed in the Southern Shan States and is approaching completion in Mandalay. Clearings of hill sides continue in five districts. Plucking of tobacco and gathering of beans and other island crops continue in most places, and are approaching completion in a few. Prospects of early wet weather paddy in Kyaukse are unfavourable, owing to the large number of irrigation works under repair. Elsewhere prospects generally are good, except in Bhamo. The price of paddy has fallen slightly in three districts and risen considerably in Pakokku.

Central Provinces.—The weather was unsettled at the beginning of the week. Thunderstorms have given rain in almost all districts, the largest amount registered being 1½ and 1¾ inches in Seoni and Nagpur, respectively. Two very severe hailstorms are reported to have passed over Mandla. The damage done has not been stated. The recent rain has caused some damage to crops on the threshing floor in the Nagpur district. In Betul the wheat crop is in good condition where not spoiled by hail and in Chanda the double cropped rice is doing fairly well. Harvesting of spring crops is approaching completion and threshing is in progress. In Damoh the outturn of wheat and gram is estimated at 90; in Mandla wheat at 90 and gram at 40. Land is being generally prepared for summer sowings. Fodder and water are ample. Prices are steady in the Nagpur country and Chhatisgarh; elsewhere there are slight local fluctuations. The cheapest prices are—wheat 14½, gram 16½, rice 13½ and *juar* 22 seers per rupee. The dearest prices are—wheat 7, gram 9, rice 8 and *juar* 15 seers per rupee. There are still seven persons on relief in the Saugor-poor-house. In Balaghat there are 689 persons on village relief and 50 in pauper wards.

Assam.—Rain fell in all districts, except the Garo hills. More rain is wanted in most districts. Pressing of sugarcane is nearly finished. The outturn is good in Lakhimpur and fair in other districts. Plucking of tea is in progress. Prospects are fair. Ploughing for early and late rice and sowing of early

rice continue. Land is being prepared for sugarcane. Fodder and water are scarce in the Khasi and Jaintia hills, Garo hills and in parts of the Surma valley. Water is insufficient in parts of Darrang, Nowgong and Sibsagar. Prices—common rice, Silchar, $11\frac{1}{4}$; Sylhet, Dhubri and Dibrugarh, 10; Gauhati and Sibsagar, 12; Tezpur, $10\frac{1}{8}$, and Nowgong, 11 seers per rupee.

Mysore.—No rain fell in the Civil and Military station. Standing crops are in good condition throughout, except in parts of Shimoga and Chitaldrug. Prospects are good throughout and fair in Hassan. *Ragi* is being harvested in some parts and paddy is being sown in other parts. Prices are steady at Shimoga and Chitaldrug, have fallen in Hassan and parts of Kadur and Tumkur and have risen in Mysore and other parts of Kadur and Tumkur. Cattle are healthy, except in parts of Chitaldrug. Water and fodder are sufficient, except in a few parts of Mysore, Tumkur and Hassan and in Chitaldrug and parts of Shimoga, where water is gradually getting scarce.

COORG: The rainfall was 71 cents. Ploughing for *ragi* has been commenced. Prices of food-grains are normal. Water and fodder are sufficient.

Berar.—The weather was warm and cloudy frequently. Harvesting of winter crops has been completed, except in one district. Ploughing of fields continues. Fodder and water are sufficient. Prices show a tendency to fall.

Hyderabad.—The rainfall during the week amounted to two cents. The total from 1st January is one inch ninety-two cents. The winter rice harvest has been commenced in parts. Preparation for the next sowing season is in progress. The condition of cattle is satisfactory. Pasture and fodder are easily available. Grain prices are almost steady. Prices—wheat 5, coarse rice $7\frac{1}{4}$ and *juar* $14\frac{1}{2}$ seers per *halli* rupee. Numbers on relief—workers, 4,283; gratuitously relieved, 9,468; total, 13,751.

Rajputana.—The rainfall was 7 cents in Mewar, 26 in Bundi, 5 in Shahpur and 1 in Deoli. Agricultural operations are satisfactory. Standing crops generally are in good condition. Harvesting of spring crops continues. Cattle are in good condition. Fodder is ample. Cheapest prices range from 16 to 31·4 seers per rupee. Number on gratuitous relief, 267.

Central India.—Twenty-five cents of rain with hail fell in Malwa and 4 cents in Bundelkhand, but none elsewhere. Agricultural operations are in progress everywhere. Standing crops are in good condition and the probable outturn is generally estimated to be good. Crops have been damaged by rust in Bundelkhand and Baghelkhand and by drought in Malwa, and have been partially injured in Bhopawar. Agricultural stock is in bad condition in parts of Malwa, but good elsewhere. The prices of food-grains are falling in Gwalior and Bhopal, are normal in Bundelkhand, are below average in Baghelkhand and are high in Malwa. Average prices—in Gwalior, 16·12 to 29; in Bundelkhand, 17 to 20; in Malwa, 18·2; and in Bhopawar, 16 to 17 seers per rupee. The condition of opium generally is good. Numbers on relief—gratuitous relief—Jaora, 59; number on Jobat, Alirajpur and Jhabua relief work, 3,679. The report from Indore has not been received.

Baroda.—Agricultural stock is in fair condition. Prices—*bajri*, 34; *juar*, 35; wheat, 21; rice, superior, 13; inferior, 21 pounds per rupee. Number on relief works, 11,010; gratuitous relief, 4,501.

Kashmir.—The weather was bright and shiny. Prices are normal, rice selling for $24\frac{1}{2}$ seers per rupee. JAMMU PROVINCE: No rain fell. Prices generally are stationary. Wheat sells at from $10\frac{1}{2}$ to 17 and maize 20 to $26\frac{1}{2}$ seers per rupee. The condition of standing crops is good. Fodder is insufficient.

Nepal.—The rainfall was slight. The weather was bright and warm. The price of rice is $8\frac{1}{2}$ seers per rupee.

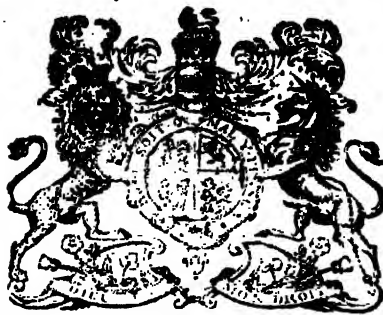

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table :

Name of Province.	PRECEDING WEEK. (REVISED FIGURES.)			PRESENT WEEK.			Increase or decrease.

Matter intended for publication in the Supplement should reach the Press not later than Thursday.

WM. ROSS,
Publisher, Gazette of India.

GOVERNMENT OF INDIA. DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 11th April 1901.

NOTIFICATIONS.

No. 1282 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 6th April 1901 :—

- No. 137 of 1901.—Harry Walker Abbott, mechanical engineer, of 414 Winchester Avenue, and Thomas Inlow Porter, officer of the United States Secret Service, both residing in Chicago, county of Cook, state of Illinois, U. S. A. *Machines for counting coins, disks, etc.*
- No. 138 of 1901.—Dr. Luigi Cerebotani, professor, of Munich, in the kingdom of Bavaria, German Empire. *Improved apparatus for transmitting manuscript.*
- No. 139 of 1901.—Dr. Luigi Cerebotani, professor, of Munich, in the kingdom of Bavaria, German Empire. *An improved process for telegraphing with Morse apparatuses.*
- No. 140 of 1901.—Dr. Luigi Cerebotani, professor, of Munich, in the kingdom of Bavaria, German Empire. *An auto-tele-meteorograph.*
- No. 141 of 1901.—Thomas Steel Perkins, electrical engineer, of Idlewood, county of Allegheny, state of Pennsylvania, U. S. A. *Improvements in rheostat elements or resistance boxes.*
- No. 142 of 1901.—Max Bernstein, patent agent, of No 74 Blumen Strasse in the city of Berlin, in the kingdom of Prussia, German Empire. *An improved arrangement for transmitting telegraphic messages in contrary directions simultaneously over a single wire.*
- No. 143 of 1901.—Ernst Emil v. Hedemann and Rosenorn v. Hedemann, manufacturers, both of Mariendalsvej 23, Copenhagen, Denmark. *Improvements in or connected with slabs or panels of plaster of Paris or the like.*
- No. 144 of 1901.—Aubrey Osler Dowson, of the firm of F. & C. Osler, manufacturers, of No. 230 Broad Street, Birmingham, England. *New or improved apparatus for humidifying and cooling air for ventilating apartments and other places.*
- No. 145 of 1901.—Count Albert DeDion and Georges Bouton, engineers, both of 3 Rue Meyerbeer, Paris, in the Republic of France. *Improvements in or relating to friction driving devices.*
- No. 146 of 1901.—Count Albert DeDion and Georges Bouton, engineers, both of 3 Rue Meyerbeer, Paris, in the Republic of France. *Improvements in or relating to valve operating mechanism.*
- No. 147 of 1901.—Robert Rickie, of Messrs. Rickie & Co., Bangalore Iron Works, Bangalore City. *A portable sugar refinery.*
- No. 148 of 1901.—Karl Louis Gocht, architect, of 19 Josephinenstrasse. Chemnitz, Saxony, Germany. *New or improved means for securing bolt and screw nuts.*

No. 1283 P.—A SPECIFICATION of the undermentioned invention has been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. This and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a

fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

No. 435 of 1900.—Claus Peter Carl Muhl, manager of Mysore Mill, and James Beaty Forster, senior partner of Forster & Co, chemists, both of Bangalore City. *Improvements in life-saving apparatus.* (Specification filed 1 April 1901.)

No. 1284 F.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 143 of 1890.—Carl Linde. *Improvements in refrigerating machinery.* (From 2 April 1901 to 2 April 1902.)

No. 34 of 1894.—Edmund Charrington. *Improvements in rollers for reciprocating rods, such as those which work railway points or signals and the like.* (From 13 April 1901 to 13 April 1902.)

No. 71 of 1894.—Peter Black. *Improvements in apparatus for moving and locking railway points and safety bars.* (From 7 May 1901 to 7 May 1902.)

No. 132 of 1894.—William Henry Casbourne. *A process of manufacturing pipes, junctions, bends and other things from dry or powdered Portland, Roman and other artificial and natural cements.* (From 31 October 1901 to 31 October 1902.)

No. 87 of 1895.—James Leyster Courtice and John Wood. *Improvements in pianofortes.* (From 2 April 1901 to 2 April 1902.)

No. 361 of 1895.—Samuel Cleland Davidson. *Improvements in tea leaf rolling machines.* (From 30 April 1901 to 30 April 1902.)

No. 382 of 1895.—Samuel Cleland Davidson. *Improvements in apparatus for limping or withering tea leaf or for drying vegetable or other substances.* (From 30 April 1901 to 30 April 1902.)

No. 197 of 1897.—Edward Anderson Blanton. *Improvements in and connected with means for securing cams and the like upon shafts.* (From 2 July 1901 to 2 July 1902.)

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,

*Secretary under the Inventions and
Designs Act, 1888.*

TELEGRAPH DEPARTMENT.

NOTIFICATIONS.

Simla, the 22nd May, 1900.

TELEGRAMS FOR THE TROOPS IN SOUTH AFRICA.

No. 9.—The following revised notification is published for general information:—

Until further notice, State and Private telegrams in plain language addressed to persons serving with the Field Force in South Africa will be accepted at *Sender's risk*, and charged for at the rate of R1-8 per word from offices in India or Burma. Telegrams in Code or Cypher cannot be accepted at this reduced rate. The address should consist of the following:—

- (1) The name, or number, or both of the person to whom the telegram is addressed (in the case of officers the rank may be omitted, and in the case of telegrams for Non-Commissioned Officers and men the name may, in like manner, be omitted if the number is given. Such omissions, however, add to the risk of the telegram going astray, more especially when addressed to Non-Commissioned Officers and men), and
- (2) The Regiment (*this will be counted and charged for as one word irrespective of the number of words used*).

These telegrams should be addressed "Bombay for South Africa" (*which words will be signalled free*), and not to any particular Telegraph Office in South Africa. The Bombay Telegraph Office will forward them to the Officer Commanding at Capetown, who will deliver them to the Addressees at whatever place in South Africa they may be stationed.

Senders of telegrams should accurately describe the Regiment, Battalion, Battery or Corps, to which the Addressees are attached, as it appears in the "Army List." For example: the address of an Officer or Private in the "Rifles" should give the number of the Battalion, and make it quite clear whether it is a Battalion of the "Rifle Brigade," the "King's Royal Rifle Corps," the "Royal Irish Rifles," or the "Scottish Rifles (Cameronians)."

The reduced rate will also apply to telegrams addressed to members of the Nursing Staff serving in South Africa, and any telegrams addressed to a Nurse will be treated in the same way as those intended for soldiers and sailors.

Telegrams for officers, Non-Commissioned Officers and men in South Africa who are known to be suffering from wounds or sickness may be addressed to them as if they were with their regiment or corps. Such telegrams, on arrival at the place where the regiment or corps is stationed, will be redirected to the proper hospital.

When, however, the name of the hospital is known to the sender of the message, he may address the telegram direct to that hospital, e.g., "Field Hospital, 1st Cavalry Brigade," or to "No. 2 General Hospital" or to "Mooi River Hospital."

In any case, the telegram should, as already stated, be addressed by the sender to "Bombay for South Africa," which words will not be charged for.

The following are given as examples of addresses and counting:—

"Captain Armstrong, 64th Royal Field Artillery, Bombay for South Africa" (*three words*); "Captain Armstrong, Wynberg Hospital, Bombay for South Africa" (*three words*); "7303 Murphy, 2nd Battalion, Royal Dublin Fusiliers, Bombay for South Africa" (*three words*); "7303, Mooi River Hospital, Bombay for South Africa" (*two words*).

II. Notification No. 5, dated the 8th May, 1900, is hereby cancelled.

The 5th December, 1900.

No. 37.—The British Government announces that the transmission of Private telegrams for the Orange River Colony and the Transvaal, *via* Cape Colony and Natal, is now suspended.

Telegrams for Pretoria, Johannesburg, Vereeniging, Germiston, Middeburg, Heidelberg, and Standerton are, meanwhile, being accepted for transmission, *via* Lourenco Marques, at the usual rates. These telegrams should be written in plain English, and will be accepted only at the risk of the sender. They are also subject to censorship and to delay in transmission.

The 31st January, 1901.

TELEGRAMS FOR SOLDIERS AND SAILORS OF THE BRITISH AND INDIAN FORCES IN CHINA.

No. 43.—The following revised Notification is issued for general information:—

Until further notice, private telegrams, in plain language, for members of the British or Indian Military and Naval Forces in China, from their friends in India or Burma will be accepted at *sender's risk* and at the reduced rates mentioned below to the three following stations only, *via* Madras:—

1. To Shanghai at R 0-15-0 per word.
2. " Weihaiwei " 1-3-0 "
3. " Taku " 1-4-0 "

In the Official Instructions the words "*Reduced Rates*" should be inserted, and will be signalled free.

Telegrams intended for Military or Naval members stationed at Hongkong should be addressed to *Shanghai*, and those for members stationed at Tientsin or Peking should be addressed to *Taku*. These reduced rates will also apply to telegrams for Civilians in Military or Naval employ in China.

In the address the name and number of the Regiment, Battalion, Battery, or Corps will be counted and charged for as *one* word, irrespective of the number of words used. For instance, in a telegram addressed to "Capt. Brown, 23rd Field Battery, Royal Artillery, Shanghai," the number of words to be charged for will be *four* only, instead of *eight* words, as usual.

II. Notification No. 34, dated the 22nd November, 1900, is hereby cancelled.

Calcutta, the 7th March, 1901.

No. 47.—The following revised notification is published for general information:—

The Post Master General, London, announces that the British Government have decided to suspend at Aden and the Cape of Good Hope the transmission of all telegrams in Code or cipher, whether of Foreign Governments or private persons, to or from British Central Africa, St. Helena and Ascension. Telegrams in plain language are subject to censorship and can only be accepted at the risk of the sender.

Code messages for the following places, *vis.*, Cape Colony, Natal, Rhodesia, Zanzibar, Seychelles, Mauritius, Madagascar, British and German East Africa, Mozambique and Lourenco Marques may, however, be accepted, if the words used are in one or other of the following Code Books, which have been deposited with the authorities at Aden, *vis.*:—

- (1) A B C (4th edition).
- (2) A Z.
- (3) Scott's (9th edition).
- (4) A I.
- (5) Telegraphenschluessel of W. Staudt and O. Hundius (published by Julius Springer at Berlin).
- (6) The Mercur Code (2nd edition), enlarged and revised, with the First Supplement.
- (7) Broomhall's Comprehensive Cipher Code.
- (8) Western Union Telegraphic Code and International Cable Directory, Universal Edition, 1900.
- (9) Atlantic Cable Directory of registered addresses and Directory Code, 1898.
- (10) Atlantic Cable Directory of registered addresses and Directory Code, 1900.
- (11) Watkin's Telegraphic Code with Appendix (17th edition), 1900.
- (12) International Mercantile Telegraph Code (Meyer), 1880.
- (13) The General, Commercial, and Mining Telegram Code, 1897, by C. A. Moreing and F. C. McCutcheon.
- (14) Bedford McNeill's Mining and General Telegraphic Code 1899.

Telegrams should be endorsed to the effect that the words used actually represent the corresponding expressions given in the above-named Code Books.

As delays occur at Aden in consequence of the difficulty of determining which Code has been employed, senders of telegrams to the above-named places in East and South Africa should write on the message draft the name of the Code employed. For instance A B C; A Z; Scott's; A I; Staudt; Mercur; Broomhall's; Directory; Atlantic, 1898, Atlantic, 1900; Watkin's; Meyer; McCutcheon; or McNeill. This information will be included in the "Official Instructions" and transmitted free of charge.

II. Notification No. 39, dated the 13th December, 1900, is hereby cancelled.

No. 47-A.—In the event of the establishment in British India of a censorship over telegrams, the first twelve Code Books mentioned in Notification No. 47, dated the 7th of March, 1901, will be used in India for purposes similar to that for which they are employed in Aden.

The public are recommended to provide themselves with such of the Codes as may appear suited to their requirements.

H. A. KIRK,
Director, Traffic Branch.

The 12th April, 1901.

No. 50.—The undermentioned officer is granted leave to proceed out of India on medical certificate under article 980, Army Regulations, India, Vol. I, Part I; the leave to have effect in India from the date of being struck off duty till the date of sailing; the specified period to count from the date of leaving India:—

Sub-Conductor S. H. Wells, Telegraph Department, Lahore, for one year.

J. J. ALLEN,
for Director General of Telegraphs.

PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

Simla, the 20th September, 1893.

A Registry Office for men of all grades out of employ is kept up by the Principal, Thomason College, Roorkee. Officers requiring men are requested to apply to Principal.

J. CLIBBORN, *Major, I.S.C.,*
Principal, Thomason College.

THE HONOURABLE THE AGENT TO THE GOVERNOR-GENERAL IN BALUCHISTAN.

NOTIFICATIONS.

Quetta, the 6th April, 1901.

No. 3801.—In exercise of the powers conferred by clause (b) of section 3 of the Quetta Municipal Law, the Honourable the Agent to the Governor-General is pleased to nominate Seth Hira Mall, general merchant, to be a member of the Committee established for the Municipality of Quetta. Seth Hira Mall will be a member of the Committee until a fresh committee is appointed.

No. 3852.—Under section 12 of the Code of Criminal Procedure, 1898, as applied to the territories administered by the Agent to the Governor-General in Baluchistan as such Agent, the Honourable the Agent to the Governor-General is pleased to appoint Mr. Ardeshir Dossabhoy Marker to be a Magistrate of the 2nd class within the local limits of the Quetta Municipality.

By Order,
A. MCCONAGHEY, *Captain,*
First Assistant.

THE HON'BLE THE RESIDENT IN MYSORE.

NOTIFICATIONS.

Bangalore, the 30th March, 1901.

The following is the consolidated list of text-books approved by the Hon'ble the Resident in Mysore for use in aided schools in the Civil and Military station, Bangalore.

2. Heads and managers of schools are informed that, where more books than one are approved for any form or class, they are at liberty to select whichever book they like.
3. No books not authorized by the Resident shall be used in any aided school.

The 1st April, 1901.

No. 1755.—Under the provisions of sub-section (1) of section 177 of the Bangalore Municipal Law, 1897, the Hon'ble the Resident in Mysore is pleased to empower the President of the Municipal Commission, Civil and Military Station of Bangalore, to accept composition for all offences against the said Law, its rules and bye-laws.

No. 1756—With reference to Notification No. 1755 of this day's date, the Hon'ble the Resident is pleased to make the following Rules to regulate the proceedings of the President, Municipal Commission, Civil and Military Station, Bangalore, in accepting composition under section 177 of the Bangalore Municipal Law, 1897:—

- (i) Before accepting a composition the President must satisfy himself by personal enquiry that there is reasonable ground to believe that the alleged offence has been committed. In this enquiry the President shall always hear the statement of the accused person unless he is prevented from doing so by unavoidable circumstances and as far as may be possible the President shall conduct the enquiry in the presence of the accused.
- (ii) The President shall not accept a larger sum than ten rupees in composition for any alleged offence.
Provided that in cases where in his opinion a larger sum may be reasonably demanded, the President shall not accept a larger sum than Rs. 10 until the composition has been ratified by a resolution of the Municipal Commission and such resolution has been confirmed by the Hon'ble the Resident in Mysore
- (iii) For every composition accepted the President shall grant a receipt. For this purpose the President shall maintain a book of Receipt Forms serially numbered with proper counterfoils.
- (iv) The President shall enter the particulars of every composition accepted in a register of the form given below. Column 6 of this register shall be totalled weekly.
- (v) The President shall pay the amount received by him in composition weekly into the Revenue office of the Commission for the credit of the Municipal Fund. For each payment the President shall obtain a receipt and keep it filed with the register for 12 months, after which it may be destroyed.
- (vi) On the 1st of April and the 1st of October in each year the President shall submit his register with the attached receipts to the Hon'ble the Resident in Mysore, and shall comply with all instructions consistent with law and with these rules which the Hon'ble the Resident may issue as to his proceedings in the acceptance of compositions.

By order;

L. RUSSELL,

First Assistant to the Resident.

Form of Register of compositions under section 177 of the Bangalore Municipal Law of 1897.

Port Blair.	26th " P.M.	Per Steamer <i>Shahjehan</i> .
South Africa (Letters)	20th " A.M. 5-45	Per Steamer <i>Umkusi</i> from Madras.
Ditto (Parcels for Natal only).	19th " P.M. 5	

*Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail Steamer, full allowance being made for the steamer being in advance of her published timing. Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

The letter-box for inland articles will be cleared to the forenoon Mails at the following hours:—

For Goalundo and Chittagong Express train at 5-30 A.M.
For Midnapore, Orissa and Madras Presidency at 5-45 A.M.
For Eastern districts as far as Dacca and Myitthaing at 6-30 A.M.

For Khulna Line at 7-30 A.M.

For Bombay Mail via Nagpur and Mail for Midnapore at 10-45 A.M. and with a late fee of 1 anna up to 11-35 A.M.

The letter-box will be cleared for the evening Mails without late fee at the following hours, viz.:—

For E. I. Railway Loop Mail at 2-30 P.M. and up to 2-55 P.M. with a late fee of 1 anna.

For Darjeeling and Assam at 3-25 P.M. without late fee, and 3-50 P.M. with late fee of 1 anna.

For the Bombay Mail via Jubbulpore at 6 P.M.

For the Punjab Mail at 7-30 P.M.

For Midnapore District and Orissa at 7-30 P.M.

For Khulna Mail at 7-30 P.M.

For the Eastern Bengal Mail at 7-30 P.M.

Late letters bearing a fee of 1 anna will be received for the Midnapore, Orissa, and the Madras Presidency Mails from 5-45

A.M. to 6-35 A.M., and for the Bombay Mail via Jubbulpore up to 6-30 P.M. and for other Mails from 7-30 to 8 P.M., and from 8-0 to 8-45 P.M. with a late fee of 1 anna for the Punjab and Eastern Bengal Mails only.

Late registered letters will be received between the following hours:—

For the Bombay Mail via Nagpur up to 10-30 A.M.

For the Bombay Mail via Jubbulpore from 5 P.M. to 6-15 P.M.

For the Punjab Mail from 6 P.M. to 7 P.M.

For the Eastern Bengal Mail from 6 P.M. to 7 P.M.

For the Khulna Mail from 6 P.M. to 7 P.M.

For Midnapore, Orissa and the Madras Presidency the previous evening up to 6 P.M. and late registered letters up to 7 P.M. The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7-30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of 1 anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies, China and Japan via Tuticorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 5-45 A.M., and late letters and papers fully prepaid will be received up to 6-35 A.M.

On the day of despatch of the Mail of Europe (Thursday), the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6-30 P.M., and late letters and papers fully prepaid will be received up to 10-45 P.M. Late registered articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6-30 P.M. for despatch by any Foreign Mail via Bombay the same night and up to 8-30 P.M., late letters and papers up to 9 P.M., for any Foreign Mails despatched by Sea. Foreign Mails for despatch via Madras or Tuticorin are received up to 5-45 A.M. and with a late fee up to 6-35 A.M. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,

Offg. Presidency Postmaster, Calcutta.

GEOLOGICAL SURVEY OF INDIA.

FOR SALE.

1. Records of the Geological Survey of India, Vols. I to XXX. Price Rs 2 per volume or Rs 1 per part.
2. Memoirs of the Geological Survey of India, Vols. I to XXIX. Price per volume Rs 5.
3. Palæontologia Indica, Series I to XVI and new series, Vol. I, 1-2. The price of these publications is 4s. per single plate.
4. A Manual of the Geology of India, 2nd Edition. By R. D. Oldham, A.R.S.M., F.G.S. Price Rs 8.
5. A Manual of the Geology of India, Economic Geology, 2nd Edition, part 1, corundum. By T. H. Holland, A.R.C.S., F.G.S. Price per copy Rs 1.
6. An Introduction to the Chemical and Physical Study of Indian Minerals. By T. H. Holland, A.R.C.S., F.G.S. Price 8s.
7. Report on the Geological Structure and Stability of the Hill Slopes around Naini Tal. By T. H. Holland, A.R.C.S., F.G.S. Price Rs 3.
8. Bibliography of Indian Geology. By R. D. Oldham, A.R.S.M., F.G.S. Price Rs 1-8.
9. Map of the Geology of India, scale 1"=90 miles. Rs 1 per copy.
10. Map of the Geology of India, in 6 sheets, scale 1"=32 miles. Rs 12 per copy.
11. Reports on the Inspection of Mines in India, by James Grundy:—

Report for the year ending 30th June, 1894.

Do.	do.	30th June, 1895.	Price Rs 1.
Do.	do.	30th June, 1896.	Price Rs 2.
Do.	do.	31st Dec., 1890.	Price Rs 1.
Do.	do.	31st Dec., 1897.	Price Rs 1.
Do.	do.	31st Dec., 1898.	Price Rs 2.

Apply to the Registrar, Geological Survey of India, Calcutta.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal 8vo, with numerous Plates.

Volumes I and II are published in separate convenient sized sections, as below, but can be bound up if required :—

VOLUME I.*

Section	I. Building Materials (1898), Rs. 2-0.
"	II. Masonry (1898), Rs. 1-4.
"	III. Carpentry (1898), Rs. 1-8.
"	IV. Earthwork (1892), Rs. 1-4.
"	V. Tools and Plant (never published).

VOLUME II.*

Section	VI. Buildings (1899), Rs. 1-4.
"	VII. Bridges (1897), Rs. 4-4.
"	VIII. Roads (1897), Rs. 1-8.
"	IX. Railways (1891), Rs. 1-4.
"	X. Irrigation Works. (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol.	I. Direct and Transverse Strain, principally by Analytical Methods. Rs. 7.
"	II. The Stability of Structures, mostly by Graphic Methods. (In the Press.)

MANUALS.

- VII. Surveying (by Major Firebrace, R.E.) (7th edition with Curve Table). Rs. 3.
- XIII. Drawing (by Lieut. R. Pulford, R.E.). † Rs. 6.
- XIIIa. Drawing, First Principles of Geometrical (by do.). Rs. 1-4.
- XIV. Simple Applied Mechanics (3rd edition), Parts I and II in one. Rs. 1-8.
- Simple Applied Mechanics, Part II (1st edition) 8s.
- XV. Examples of Estimating. Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). Rs. 3-12.
- XVI. Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. Rs. 1.
- XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6s.

Note.—The complete Treatise forms the course of the Civil Engineer and Upper Subordinate classes at the Thomason College in Civil Engineering. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. 4s.
- Scantlings of Timber for Roofs. Tables and investigation of formulae for determining size of timbers for flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 36 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. 12s.
- Notes on Chemistry of Building Materials. Rs. 1-8.
- late's Mechanism. Rs. 1.
- Barman's Descriptive Mineralogy. Rs. 2-4.

* Date of Edition on sale.

† Originally published at Rs. 15, reduced to Rs. 6.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunhya Lal. Rs. 2-8.

O'Callaghan's Earthwork Tables for India. In one large sheet, 12a.; mounted on cloth and bound. Rs. 1-12.

Tables for Computing Earthwork in Distributaries and small open Channels. in use in Irrigation Department. N.-W. Provinces. 12a.

Tyndall's Hand-Book of Specifications. (In the Press.)

The Indian Engineer's Pocket Book. Rs. 1.

Wooden Bridges and Designs. By Rai Kunhya Lal. (In the Press.)

Blasting under Water (2nd edition). 10s.

Waugh's Instructions for Topographical Surveying Rs. 1.

Analysis of Lime and Cement Stones. By Murray Thompson, Esq., M.D., F.R.S.E. 6s.

Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width, very useful for Projects. Rs. 1-6.

SCIENCE BOOKS.

Wilson's Inorganic Chemistry. Rs. 1-8.

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pies into decimals of a Rupee. With a few others of general utility (4th edition). Rs. 1-8.

Boileau's Tables of Log sin² † P (for computing time (4s)).

Cape's Logarithms, with Tables of Squares, Cubes, etc. Rs. 1-4.

Cape's Geometry. Rs. 1-4.

Cape's Mechanics. 8s.

Todhunter's Plane Trigonometry. Rs. 2-8.

Todhunter's Differential Calculus. Rs. 2-8.

Military Topography. 8s.

HINDUSTANI.

Elements of Hindustani Grammar. 8s.

Technical Dialogues—English and Urdu. Rs. 1.

A Vocabulary of Common and Technical Words in English-Urdu. 12s.

History of India (*Itihās Timirnāsak*), Hindi, Parts I and II. Both 6s.

Short Account of Ganges Canal (English and Urdu). Each 4s.

NOTE AND FIELD-BOOKS, etc.

Note Books (Section paper), large. Each Rs. 1-4.

Surveying Field Books (ruled). 14s.

Levelling Field Books (English Pattern). Rs. 1-4.

" " " (Canal "). Rs. 1-4.

" " " (College "). Rs. 2-0.

P. W. D. Note-Book. Rs. 1-4.

" Measurement Book. Rs. 1-4.

Circular Card-board Protractors, 2 inches. Rs. 2.

MISCELLANEOUS.

Distributary, Velocity and Discharge Table. By Capt. Allan Cunningham. 8s.

Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") Rs. 1-8.

Ditto ditto in Urdu. Rs. 1-4.

Perspective (fully explained). By Col. A. M. Brandreth. R.E. Rs. 1-12.

Thomason College Calendars for 1892,* 1895,† 1896† and 1897.† Each Rs. 2.

Ditto ditto for 1898‡ and 1899.† Pt. I. Rs. 3-6.

* This does not contain the Entrance Examination papers of the Superior Accounts Branch, Public Works Department.

† These include question papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

‡ This does not contain the Entrance Examination Papers of the Upper Subordinate Class.

Forms of Accounts, P. W. D., for Sub-Divisional Officers, in English (very old). 4a.
Memo. of Instructions for Road Project. R1.
Project for College Mess (sample Project). 8a.
Ferrotypes Printing Processes. 8a.
Thomason College Library Catalogue. *R1-12.

Ditto, Supplement, 1895 to 1899. Each 2a.

Irrigation by Rajbahas.
Irrigation Tract, No. I. } 4a. each.
" " " II. }
" " " III. }

Land Measuring Chain Statement. Area of kucha and pukka Bighas sheet. 4a.

Report of the Ganges Canal Committee (Major Crofton's Project for remodelling the Ganges Canal according to the views of Major-General Sir Arthur Cotton, R.E., K.C.S.I.), 1856. 8a.

Report of the Ganges Canal. By Captain J. Crofton, R.E., with Estimates and Plan—

Vol. I. Report, 1865. R1.

Vol. II. Estimates. 12a.

Shakesperian Readings, viz.:—

1. Taming of the Shrew.
 2. Othello.
 3. Macbeth.
 4. Comedy of Errors.
 5. Merchant of Venice.
- } Each 3a.

Annual examination papers set for the years 1867 to 1870, each 8a.

PLANS OF STATIONS.

Lithographed Plans of the Cantonments and Regimental Lines in the different Military Stations of India. Drawn to a uniform scale and prepared between 1864 and 1868 for the Government of India, P. W. Department. (Useful for Executive Engineers' and Superintending Engineers' Offices.)

Bengal, 51 Plans.

Madras, 99 Plans.

Bombay, 91 Plans.

N.-W. Provinces, 104 Plans.

Oudh, 21 Plans.

Rajputana, 4 Plans.

British Burma, 19 Plans.

Central Provinces.

Whole lot 4 2 each.

A set of Professional papers both loose and quarterly numbers inclusive of Railway freight R10. This is not quite complete.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

Vol. I. (Quarterly, Nos. 1 to 5), bound R1-8.

Quarterly, Nos. 1, 2, 3, 4, and 5.

Vol. II, Quarterly, Nos. 6 and 7.

" VI, " No. 25.

" VII, " Nos. 26, 27, 28, and 29.

Extra No., April 1870.

4a. each, inclusive of postage.

(SECOND SERIES.)

Quarterly Numbers of Vols. I, II, and IX of the series 4a. each inclusive of postage.

Quarterly Number 41 A of Vol. X. Each 8a.

Cloth covers for Volumes of 1st and 2nd Series, at 8a. each.

Index to Professional Papers and loose Papers. 1st and 2nd Series, at 2a. each.

FERO-TYPE PRINTING.

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depot. Application to be made to the Curator.

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants.

J. CLIBBORN, Lieut.-Col., I.S.C.,

Principal, Thomason Civil

Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1899, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the Complete Series, including postage. R22-8

	Without postage.	With postage.
	R a. p.	R a. p.
For the Calcutta Series	10 0 0	12 8 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately, inclusive of postage in India	...	2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
	R a. p.	R a. p.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTES.

Stolen in 1898.

The Government Promissory Note, No. 010397, of the reduced $3\frac{1}{2}$ per cent. of 1854-55 for Rs. 500 (five hundred), originally standing in the name of Mr. G. K. Sinclair, proprietor, by whom it was never endorsed to any other person. Payment of the above note and interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, Calcutta, since the year 1898, and application has been made for the issue of a duplicate in favour of the undersigned.

G. K. SINCLAIR,
Proprietor and Government Pensioner.

Lost.

The Government Promissory Note No. 049931 and 049951 of the $3\frac{1}{2}$ per cent. of 1865 aggregating Rs. 1,500 originally standing in the name of Raj Lakshmi Debi, Executrix of Ishan Chandra Chatterji and the proprietress by whom they were never endorsed to any other person. Payment of the above Notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favour of the proprietress.

Name of the Advertiser—R. L. DEBI,
C/o BABU GOPAL CHUNDER MUKERJEE,
Bulloram Sircar's Lane, Bhutpara.

Destroyed by fire.

The Government Promissory Note No. 012267 of the $3\frac{1}{2}$ per cent. of 1879 for Rs. 1,000 originally standing in the name of Peroshaw Pallonjee, the proprietor by whom it was never endorsed to any other person. Payment of the above Note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favor of the proprietor.

PEROSHAW PALLONJEE,
Government Mail Contractor, Mysore.

MYSORE,
12th March 1901.

Estate, Henry Berners, deceased.

Notice is hereby given that all creditors and other persons having any claims against the estate of the deceased abovenamed are hereby requested to send in writing the particulars thereof to the undersigned on or before the 1st day of May next after which date the undersigned will distribute the assets of the estate of the said deceased amongst the parties entitled thereto having regard to the claims of which he has then had notice.

And notice is hereby further given that the undersigned will not be liable for the assets or any part thereof so distributed to any person of whose claim he shall not have had notice at the time of such distribution.

HENRY CHARLES BEGG,
Executor of the will of the deceased,
12 Mission Row, Calcutta.

Dated this 1st day of April, 1901.

SANDERSON & Co.,
Attorneys.

**Estate, Henry John Fleming
Morison, deceased.**

Notice is hereby given that all creditors and other persons having any claim against the estate of the deceased abovenamed are hereby requested to send in writing the particulars thereof to the undersigned on or before the 8th day of May next after which date the undersigned will distribute the assets of the estate of the said deceased amongst the parties entitled thereto having regard to the claims of which he has then had notice.

And notice is hereby further given that the undersigned will not be liable for the assets or any part thereof so distributed to any person of whose claim he shall not have had notice at the time of such distribution.

SUPPLEMENT TO

The Gazette of India.

No. 15.}

CALCUTTA, SATURDAY, APRIL 13, 1901.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

No. 285.—The services of Mr. A. H. Gayer are replaced at the disposal of the Government of Burma, with effect from the 1st March 1901.

The 18th April, 1901.

No. 287.—Mr. H. Jowers has been permitted to resign His Majesty's Indian Civil Service, with effect from the 3rd December 1900.

MEDICAL.

The 10th April, 1901.

No. 550.—The services of Lieutenant K. Wigram, 1st Battalion, 2nd Gurkha Rifles, are

replaced at the disposal of the Military Department.

SANITARY.

Plague.

The 15th April, 1901.

No. 769.—The following telegram is published for general information:

Telegram, dated Pera, the 10th April 1901.

From—His Britannic Majesty's Ambassador Extraordinary and Plenipotentiary at Constantinople,

To—His Excellency the Viceroy.

Quarantine for four hours with rigorous disinfection on departures from Alexandria since 8th April. Five days against Muscat and Bahrein.

The 10th April, 1901.

No. 800.—The following Notices of the Board of Trade are published for general information:

(F. & H. 5401.)

Board of Trade (Fisheries and Harbour Department), London, March 26, 1901.

The Board of Trade have received, through the Secretary of State for the Colonies, the following quarantine notices issued by the High Commissioner for Cyprus, viz.:

(No. 5493.)

Quarantine.
Plague.

Under the power and authority vested in him by the "Quarantine Ordinance, 1879," His Excellency the High Commissioner orders that all direct arrivals from Smyrna and any port or place on the coast of Asia Minor from Dikeli to Yeronda, inclusive, be subjected to twenty-four hours' quarantine of observation to be undergone at Larnaca, and that the importation of very susceptible goods, *i.e.*, rags, worn clothing, and empty used sacks, except gypsum sacks, is prohibited.

18th February 1901.

(No. 5494.)

Under the power and authority vested in him by the "Quarantine Ordinance, 1879," His Excellency the High Commissioner orders that all direct arrivals from ports on the Arabian Coast from Muscat to Aden, both inclusive, be admitted to free pratique.

26th February 1901.

(F. & H. 5330.)

Board of Trade (Fisheries and Harbour Department), London, March 26, 1901.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from His Majesty's Representative at Sofia, intimating that the vilayet of Bitlis and the town of Trebizond are declared infected.

PORT BLAIR.

The 17th April, 1901.

No. 234.—In modification of the orders contained in Home Department Notification No. 88, dated the 16th February 1901, Mr. E. H. Man, C.I.E., Deputy Superintendent, Port Blair, is, with effect from the 7th April 1901, granted privilege leave for twenty-four days with furlough out of India for four months and twelve days in continuation.

JUDICIAL.

The 18th April, 1901.

No. 542.—In modification of the orders contained in Home Department Notification No. 352, dated the 14th March 1901, Captain D. G. Peart, Indian Staff Corps, Cantonment Magistrate, Lucknow, is granted privilege leave for twenty-one days with leave for three hundred and forty-four days out of India, under the leave rules for the Staff Corps in continuation.

No. 544.—The Hon'ble Mr. Behari Lal Gupta, Indian Civil Service, Superintendent and Remembrancer of Legal Affairs, Bengal, took his seat as an Officiating Judge of the High Court of Judicature at Fort William in Bengal on the 10th April 1901.

The 19th April, 1901.

No. 552.—Mr. F. B. Taylor, Indian Civil Service, took his seat as an Officiating Judge of the High Court of Judicature at Fort William in Bengal on the 10th April 1901.

ECCLESIASTICAL.

The 16th April, 1901.

No. 163.—The Reverend H. T. Ottley, Chaplain of St. Stephen's Church, Kidderpore, is appointed Chaplain of Shillong, with effect from the 1st April 1901, or from the date on which he takes over charge of his duties at Shillong.

EDUCATION.

The 16th April, 1901.

No. 142.—Under section 12 of Act II of 1857, the Governor General in Council is pleased to authorize the affiliation of St. Xavier's College, Calcutta, to the Calcutta University in Arts up to the standard of the B. Sc. Examination, with effect from the 1st June 1901.

J. P. HEWETT,

Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATIONS

EMIGRATION.

Simla, the 18th April, 1901.

No. 1138—21-3.—In exercise of the power conferred by section 80 of the Indian Emigration Act, 1883 (XXI of 1883), the Governor General

in Council is pleased to direct that the following amendment be made in the rules as published with the Notification of the Government of India in the Department of Revenue and Agriculture, No. 94-E., dated the 18th March 1886, as subsequently amended, namely:

To rule 9 the following paragraph shall be added—

"The duties imposed by this rule shall, in the town of Madras, be exercised by the Commissioner of Police."

FORESTS.

The 19th April, 1901.

No. 458—57-22-F.—Mr. C. H. Haldane, Extra-Assistant Conservator of Forests, 2nd grade, is transferred from Berar to Burma in the interests of the public service.

ECONOMIC PRODUCTS.

The 19th April, 1901.

No. 1155—18-11.—Mr. Edwin John Butler, M.B., who has been selected by His Majesty's Secretary of State for India to fill the appointment of Cryptogamic Botanist to the Government of India assumed charge of his duties, with effect from the 17th March 1901.

J. B. FULLER,

Offg. Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 15th April, 1901.

No. 645-G.—With reference to notification, No. 83-G., dated the 16th January, 1901, the provisional recognition by the Government of India of the appointment of Count Annibale Raybaudi-Massiglia, as Consul General for Italy at Calcutta, has been confirmed by His Majesty's Government.

The 16th April, 1901.

No. 580-E. A.—The following substantive *pro tempore* appointments are made, with effect from the 14th November, 1900:

Mr. J. C. Gaskin, Extra Assistant to the Political Resident in the Persian Gulf, is appointed to be Assistant to the Political Resident in the Persian Gulf, and Assistant Political Agent at Bahrein.

Mr. J. P. Sequeira, Uncovenanted Assistant to the Political Resident in the Persian Gulf, is appointed to be Extra Assistant to the Political Resident in the Persian Gulf.

The 18th April, 1901.

No. 1536-I. B.—Captain J. Talbot, Indian Staff Corps, 7th Bombay Lancers, is appointed to be Inspecting Officer, Kathiawar Imperial Service Cavalry, with effect from the date of assuming charge, *vice* Captain W. J. Peyton whose services have been replaced at the disposal of the Military Department.

H. S. BARNES,

Secretary to the Government of India.

FINANCE AND COMMERCE DEPARTMENT.

NOTIFICATIONS.

LEAVE AND APPOINTMENTS.

Simla, the 15th April, 1901.

No. 2007-P.—Mr. A. G. Barr having been appointed a Probationer in Class VII of the Enrolled List of the Financial Department, is attached to the Office of the Comptroller, Assam, with effect from the 2nd of April 1901.

The 16th April, 1901.

No. 2051-P.—The following revisions of officers of the Account Department during the month of February 1901 are notified:

With effect from the 8th of February 1901,—

Mr. R. C. Chapman to officiate in class II,

Mr. Abhaya Charan Banerjee.

T. HIGHAM,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on
Saturday, the 13th April, 1901.

The chief feature in pressure conditions since the 15th February has been a general excess of pressure over the whole country, but chiefly shown in Northern India. On Sunday, the 7th April, pressure gave way over the whole of the Indian region and the excess of pressure which had been more or less persistent for nearly two months disappeared. The fall of the barometer was brisk to rapid in North-East India and a low pressure area was formed along the Himalayas in Bihar and the North-Western Provinces which was a more or less marked feature in the distribution of pressure during the whole week. The depression along the Central and Eastern Himalayas determined dry westerly winds in the Gangetic Plain, moderate to strong southerly winds at the head of the Bay and easterly winds in North-East Bengal, thus rendering conditions more favourable for thunderstorms in Assam which have consequently been of daily occurrence throughout the week. A few local thundershowers have also been reported from parts of Bengal, but the amounts received have in most cases been small and the amount of rain received in Assam since the 3rd of March is still largely below the normal of the period.

Temperature increased in North-West India at the beginning of the week and the usual hot weather depression formed over the western desert on Tuesday. On Wednesday a brisk to rapid fall of the barometer in Baluchistan, Upper Sind and the Punjab caused an intensification of this depression and an extension of it into the South-West Punjab. It then commenced advancing eastwards and was lying over North Rajputana and the South Punjab on Thursday, and was the cause of cloudy and unsettled weather in Upper India, especially in the hill districts. Rain and snow were reported on Thursday and Friday from the Kashmir Himalayas and light showers of rain from Baluchistan and the North-West Punjab. The depression was a very short-lived disturbance, for it filled up by Friday morning, but on Saturday another shallow depression advanced eastwards through Baluchistan into Upper Sind, North Rajputana and the South Punjab in which pressure was in considerable defect, and a brisk to very rapid fall of the barometer occurred in Kashmir. Showers were again reported from Kashmir and the North-West Punjab, the most important falls being 88 inch at Murree and 69 inch at Srinagar.

Thunderstorms have occurred in most divisions in the Peninsula and have been most numerous in South India and Malabar.

Rain.—The rainfall of the past week has been normal in the Brahmaputra division of Assam, but has again been in defect in the Surma and hills divisions. It has been in defect in all divisions of Burma, Bengal, the North-Western Provinces, Central India, Rajputana, the Punjab (except the west division), North Bombay and the Central Provinces. It has been equal to, or in excess of, the

normal in the West Punjab, the Bombay and Malabar coast districts (except Mysore), Berar and South Madras.

The following stations have received more than three inches during the week :

Assam	Habiganj	3'53 inches.
	Cherra Poonjee	4'00 "
	Sadiya	3'02 "
Malabar	Hosdurg	3'06 "
South Madras	Tenkasi	3'45 "
	Nilacotta	3'30 "

The last three columns of the table at the end show that the rainfall of the period March 3rd to April 13th has been practically normal in Tenasserim, North Bihar, the east submontane division of the North-Western Provinces, the Submontane and North Punjab and the east division of the Central Provinces. It has been in excess in the eastern division of the North-Western Provinces, the Punjab hills, Gujarat, Central India (East), the central and western divisions of the Central Provinces, Berar, the Konkan, Khandesh, the Bombay Deccan, Malabar and South Madras.

The defect in Assam and parts of Bengal continues large. The actual defect in the Surma valley now amounts to 11'71 inches and in Assam hills to 5'46 inches.

W. A. BION,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. B. FULLER,

Offg. Secretary to the Government of India.

SIMLA, 18th April, 1901.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the 20th April 1901.

Madras.—The rainfall was good in Malabar and South Canara, moderate in the Nilgiris and Tinnevely and light or *nil* elsewhere. Water-supplies are insufficient in parts of Godavari, the Deccan, the Central, Madura and the West Coast districts. Ploughing, sowing and transplanting are going on in parts where water is available. Standing crops generally are in fair condition, but some need rain in parts of North Arcot, Salem, Coimbatore and Madura. *Cholam* in parts of Cuddapah has been blighted by disease. Harvests generally are being completed with moderate outturn. Pasture generally is scarce, except in parts of the Circars and the Nilgiris districts, but fodder generally is available. The condition of cattle generally is good. Prices generally are stationary or slightly easier, though those of dry staples in Cuddapah, of *ragi* in Anantapur, North Arcot and Salem and *cumbu* in South Arcot and Salem are above the scarcity rates. Prospects generally are fair. Numbers on relief—Test workers—Cuddapah—men, 1,056; women, 1,153; children, 29, total, 2,238. Weavers—men, 1,729; women, 1,353; total, 3,082. Grand total, 5,330.

Bombay.—Slight rain fell during the week in parts of Bel^{ss}im, Satara and Kanara and there was a very slight fall in parts of Shikarpur, Upper Sindh frontier, Ahmednagar, Poona, Bijapur and Dharwar. Agricultural prospects are good in Sindh, fair to good in the Konkan and parts of Kaira, Broach, Surat, Khandesh, Poona and Satara and moderate to poor elsewhere. Standing spring crops have been damaged by rats or insects in parts of Sindh and generally are suffering from want of moisture, except in irrigated lands. Reaping of spring crops is nearly over in Ahmedabad and the Panch Mahals and is progressing in other districts of Gujarat and in parts of Sindh, the Deccan and the Konkan. Threshing is in progress in parts of Shikarpur and Nasik. Cotton-picking is nearly over in Dharwar and continues in parts of Kaira, Broach, Surat, Belgaum, Rajkot and Baroda. The fodder-supply generally is sufficient, but is scanty in parts of Bijapur and Dharwar. Agricultural stock generally is in good condition. The water-supply is becoming deficient in parts of Nasik, Belgaum and Dharwar. Prices have fallen in eight districts, risen in two districts and are stationary elsewhere. The price of rice is slightly over normal, but easier than in 1900. The price of *bajri* is below normal in Gujarat, and over normal in the Deccan and the Konkan and considerably over normal in the Karnatak and, compared with 1900, is easier in the Konkan and the Karnatak and is considerably easier in Gujarat and the Deccan. The price of *juar* is below normal in Gujarat and considerably over normal elsewhere and, compared with 1900, is easier in the Konkan and the Karnatak and considerably easier in Gujarat and the Deccan. The price of wheat is considerably over normal and about the same as in 1900.

Daily average numbers on relief—British districts—on test works, 3,345; on relief works, 169,908; dependants, 23,637; total on works, 196,890. In poor-houses, 4,317; on village relief, 53,642; total on gratuitous relief, 56,959. Figures for Ahmedabad are incomplete. Native States—on relief works, 18,015;

dependants, 7,166; total on works, 25,181. In poor-houses, 945; on village relief, 959; total on gratuitous relief, 1,904. Grand total, 285,934.

Bengal.—The weather generally was hot and almost rainless. A few light showers are, however, reported from the Dacca and Chittagong divisions and also from the districts of Midnapore, Jessore, Khulna, Darjeeling, Cuttack and Ranchi, but more rain is still required. Lands are being prepared for autumn rice and jute in several districts, but the progress is being retarded for want of sufficient rain. Fodder and water are sufficient, except in Bankura and Chittagong. The price of common rice has an upward tendency. It has risen in fourteen districts, fallen in eight and is stationary in the rest.

North-Western Provinces and Oudh.—Seasonable weather prevailed during the week. Reaping of spring crops continues in several districts. Threshing and winnowing are in progress. Prospects are good. Sugarcane and extra crops are being watered. Extraction of opium has been completed in a couple of districts. *Mihua* is being gathered in places. Supplies and fodder are sufficient. Prices show a tendency to fall.

Punjab.—Slight rain has fallen in Ferozepore, Amritsar, Lahore and Dera Ismail Khan and heavier showers are reported from Sialkot and Rawal Pindi. Prices of food-grains and especially of wheat and gram have fallen. This general fall in prices is due to the fresh supply from the current year's crop being brought into the market. Harvesting of spring crops and sowings of autumn crops are generally in progress. Extra spring crops are still being sown in Dera Ismail Khan. Irrigation works have commenced flowing in Shikhar and Ludhian in the Multan district. Prospects of standing crops are generally still to be good. The yield is reported to be average in Amritsar and parts of Sahiwal and much above the average in Sialkot. In Hissar the grain crop is average in character. Standing crops are flourishing. Locusts appeared in two districts of Rawal Pindi but did no damage. Locusts have also appeared in parts of Dera Ismail Khan and are being destroyed. Cattle generally are in good conditions. Pasturage fodder is sufficient in all districts, except in parts of Multan.

Burma.—**LOWER BURMA:** Reaping of dry weather paddy in Tavoy is nearly completed. **UPPER BURMA:** Cultivation of dry weather paddy is in progress in most places and clearings on hill sides in northern districts continue. Sowing of early wet weather paddy is still in progress. Plucking of cotton is approaching completion in Thayetmyo. Gathering of beans is about finishing. Standing crops promise well on the whole. The price of paddy is practically stationary, there being unimportant variations up and down in six districts.

Central Provinces.—The weather was hot and occasionally cloudy. Harvesting of spring crops is completed in most districts and is approaching completion in the others. Threshing is in progress. Land is being prepared for summer sowings in parts. Fodder and water are ample. Prices are steady in Betul, Bhandara and Sambalpur and have slightly fallen in the northern districts and in Chanda and Raipur; elsewhere there are slight local fluctuations. In Balaghat the price of wheat has risen from $11\frac{1}{4}$ to $7\frac{1}{2}$ seers per rupee. There are still 5 persons on relief in the Saugor poor-house. In Balaghat there are 727 persons on village relief and 28 in pauper wards.

Assam.—Rain fell in all districts, except Goalpara and the Khasi and Jaintia hills. More rain is wanted in Sylhet, Goalpara, the Khasi and Jaintia hills and the Garo hills. Pressing of sugarcane is nearly finished. The outturn is good in Lakhimpur and fair in other districts. Plucking of tea is in progress. Prospects are poor in Sylhet and fair elsewhere. Ploughing for and sowing of early and late rice continue. Land is being prepared for sugarcane. Fodder and water are scarce in the Khasi and Jaintia hills and the Garo hills. Water is insufficient in parts of Sylhet, Darrang and Nowgong. Prices—common rice—Silehar, $11\frac{1}{2}$; Sylhet, Dhubri and Dibrugarh, 10; Gauhati, 12; Tezpur, $10\frac{1}{8}$; Nowgong, $10\frac{1}{2}$; and Sibsagar, 11 seers per rupee.

Mysore.—No rain fell in the Civil and Military station. The rainfall was good in parts of Mysore, Shimoga and Hassan. Standing crops are in good condition throughout, except in parts of Chitaldrug. Prospects are good, except in a few parts of Shimoga and Chitaldrug. Paddy and *ragi* are being harvested in some parts. Prices are steady at Mysore, Shimoga and Chitaldrug, have risen in Hasan and Tumkur and in parts of Kadur and have fallen in other districts and in other parts of Kadur. Cattle are healthy, except in parts of Chitaldrug. Water and fodder are available, except in parts of Mysore and Hassan and in Chitaldrug, and parts of Bangalore and Shimoga, where water is gradually getting scarce.

COORG: Ploughing for *ragi* continues. Prices of food-grains are normal. Water and fodder are sufficient, but some showers are wanted for coffee blossoms.

Berar.—The weather was hot and cloudy. Threshing of wheat and gram is in progress in the Ellichpur district. Land is being prepared for the monsoon crop. Fodder and water are enough for requirements. Prices are fluctuating.

Hyderabad.—The rainfall during week amounted to 10 cents. The total from 1st January is two inches three cents. The winter rice harvest continues. Preparation for next sowing season are going on. Grain prices are almost steady. Total number of persons on relief—workers, 5,867; gratuitously relieved, 10,718; total, 16,585. Prices—wheat $5\frac{1}{4}$, coarse rice $8\frac{1}{4}$ and *juar* $14\frac{1}{2}$ seers per *halli* rupee.

Rajputana.—Agricultural operations are satisfactory. Standing crops generally are in good condition. Harvesting and threshing of spring crops continue. Cattle are in good condition. Fodder is sufficient. The cheapest prices range from 16 to $33\frac{1}{2}$ seers per rupee. Number on gratuitous relief.

Central India.—No rain fell throughout the Agency during the week. Agricultural operations are in progress everywhere. Standing crops generally are in good condition, and the probable outturn is estimated to be good. Crops have been damaged by rust in Bundelkhand and Baghelkhand, by drought in Malwa and partially injured in Bhopawar. Agricultural stock is in bad condition in parts of Malwa, but good elsewhere. Prices of food-grains are falling in Gwalior and Bhopal; are normal in Bundelkhand, are below average in Baghelkhand and are high in Malwa. Average prices—in Gwalior, 17 to 28-3; in Bundelkhand, 17 to $24\frac{1}{2}$; in Malwa, 17-14; in Bhopawar 16. The condition of opium generally is good. Number on relief—Jaora—gratuitous, 53; on the Jobat, Ali Rajpur and Jhabua relief works, 3,932. Report from Indore not received.

Baroda.—Agricultural stock is in fair condition. Prices—*bajri*, 34; *juar*, 36; wheat, 23; rice, superior, 13, inferior, 23 pounds per rupee. Number on relief works, 12,500; gratuitous relief, 5,116; total 17,616.

Kashmir.—The weather was mostly rainy during the week. Prices are normal, rice selling for 24½ seers per rupee. JAMMU PROVINCE: Slight rain fell. The condition of standing crops is good. Cutting of the spring crops has been commenced in some parts of the Province. Fodder is sufficient. The price of wheat is rising slightly, but that of maize is falling. Wheat sells from 10 to 17 and maize 24 to 27 seers per rupee.

Nepal.—No rain fell during the week. The weather was bright, clear and warm. The price of rice is 8½ seers per rupee.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table:

Name of Province.	PRECEDING WEEK. (REVISED FIGURES.)			PRESENT WEEK.			Increase or decrease.

* Report from Indore not received.

J. B. FULLER,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected District details of the annual totals published weekly in the Crop and Weather Summary of the *Gazette of India*.

Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns, from persons actually relieved in poor-houses or at their homes. Weavers relieved in their own trade are shown under "Gratuitous relief."

The dates at the head of the table are the dates of the *Gazette of India* in which the Provincial totals were published. The figures, however, actually show the numbers on relief in each preceding week.

No. 153 of 1901.—Paul Eugène Domergue, engineer, residing at Haiphong, Tonkin, French Indo-China. *Improved dynamo especially applicable for driving fans.*

No. 154 of 1901.—The Linotype Company, Limited, manufacturers, of No. 188 Fleet Street, in the city of London, England. *Improvements in the means for holding late news linotypes in position upon the machine cylinder.*

No. 155 of 1901.—The Linotype Company, Limited, manufacturers, of No. 188 Fleet Street, in the city of London, England. *Improvements in and connected with the adjustable moulds of linotype machines.*

No. 156 of 1901.—The Linotype Company, Limited, manufacturers, of No. 188 Fleet Street, in the city of London, England. *Improvements in the casting mechanisms of linotype machines.*

No. 157 of 1901.—The Linotype Company, Limited, manufacturers, of No. 188 Fleet Street, in the city of London, England. *Improvements in moulds for fudge or late news linotypes.*

No. 158 of 1901.—The Linotype Company, Limited, manufacturers, of No. 188 Fleet Street, in the city of London, England. *Improvements in linotype machines.*

No. 159 of 1901.—The Linotype Company, Limited, manufacturers, of No. 188 Fleet Street, in the city of London, England. *Improvements in linotype machines.*

No. 160 of 1901.—The Linotype Company, Limited, manufacturers, of No. 188 Fleet Street in the city of London, England. *Improvements in linotype matrices and in apparatus for making them.*

No. 161 of 1901.—The Linotype Company, Limited, manufacturers, of No. 188 Fleet Street, in the city of London, England. *Improvements in the ejector blades of linotype machines.*

No. 162 of 1901.—Andrew Gilmour McMeekin, tea planter of the Allynugger Tea Estate, Shamsheernugger, South Sylhet, British India. *Improvements in tea firing machines.*

No. 163 of 1901.—Thomas Aubrey Hunt, engineer and tea planter, residing at the Lackatoorah Tea Estate, Sylhet, in British India. *A marker for keeping the score at the game of "Bridge" to be called the "Simplex Bridge Marker."*

No. 164 of 1901.—The Right Honourable Douglas Mackinnon Baillie Hamilton Cochrane, Earl of Dundonald, of 34 Portman Square, in the county of London, England. *An improvement in tea and coffee pots.*

No. 165 of 1901.—Alfred Peyton, District Locomotive Superintendent, Oudh and Rohilkhand State Railway, Moradabad. *A tool for excavating and throwing up improvements, to be entitled "Peyton's Intrencher."*

No. 166 of 1901.—Charles Herbert Curtis, Clement Leigh Watson Smith, David James Metcalfe and Alfred Copley Percy, gunpowder manufacturers, all of 3 Gracechurch Street, London, England, and Andrew Fuller Hargreaves, gunpowder manufacturers, of Roslin, Midlothian, Scotland. *Improvements in explosives.*

No. 1318 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 192 of 1900.—Edward Joseph DeCourcy and Robert Crawford, gentlemen, both of 7 Lombard Street, Belfast, Ireland. *Improvements in machinery for breaking or scutching flax.* (Specification filed 10 April 1901.)

No. 193 of 1900.—Edward Joseph DeCourcy and Robert Crawford, gentleman, both of 7 Lombard Street, Belfast, Ireland. *Improvements in machinery for scutching and cleaning flax.* (Specification filed 10 April 1901.)

No. 310 of 1900.—The British Westinghouse Electric and Manufacturing Co., Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in alternating current induction motors.* (Specification filed 2 April 1901.)

No. 311 of 1900.—The British Westinghouse Electric and Manufacturing Co., Ltd., manufacturers, of Westinghouse Building, Norfolk Street in the city of Westminster, England. *Improvements in systems of electrical distribution.* (Specification filed 2 April 1901.)

No. 325 of 1900.—The British Westinghouse Electric and Manufacturing Co., Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements relating to systems of alternating current electrical distribution.* (Specification filed 10 April 1901.)

No. 326 of 1900.—The British Westinghouse Electric and Manufacturing Co., Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in systems of electrical distribution.* (Specification filed 10 April 1901.)

No. 13 of 1901.—Joseph Arthur Wade, engineer, of 19 Old Hall Street, Liverpool, England. *An improved combination hand tool suitable for use as a ratchet brace lifting appliance and partly applicable as a spanner.* (Specification filed 11 April 1901.)

No. 1319 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 83 of 1889.—George Bakewell Dewhurst. *Improvements in apparatus for marking folded piece goods with trade marks and other marks and devices and for printing and colouring such marks and devices at a single operation.* (From 21 May 1901 to 21 May 1902.)

No. 121 of 1889.—La Société des Générateurs à Vaporisation Instantanée (Système Serpollet). *Improvements in apparatus for generating steam.* (From 6 June 1901 to 6 June 1902.)

No. 139 of 1890.—Charles Cheers Wakefield. *Improvements in sight feed lubricators.* (From 10 July 1901 to 10 July 1902.)

No. 105 of 1892.—Syed Ameer Alee Husaini *coffee peeler.* (From 30 March 1901 to 30 March 1902.)

No. 166 of 1892.—James Gresham. *Improvements in injectors and in their application to locomotives.* (From 13 March 1902 to 13 March 1903.)

No. 178 of 1892.—James Gresham. *Improvements in and relating to apparatus for applying sand to locomotive driving wheels.* (From 13 March 1902 to 13 March 1903.)

- No. 50 of 1893.—Otto Hoffmann. *Improvements in air moistening and ventilating apparatus.* (From 29 April 1901 to 29 April 1902.)
- No. 104 of 1895.—Louis Michel Bullier. *Process for the manufacture of carbides or acetylides of the earth-metals and alkali-earth metals and of the oxides of these metals.* (From 26 April 1901 to 26 April 1902.)
- No. 153 of 1895.—Charles Henry Palmer, John William Denmead, and Joseph Alvirus Baughman. *Improvements in and relating to machines for filling boxes with matches.* (From 31 May 1901 to 31 May 1902.)
- No. 351 of 1895.—William Alexander Wilcock. *An improvement in the manufacture of bay salt.* (From 14 April 1901 to 14 April 1902.)
- No. 398 of 1895.—Charles Cheers Wakefield. *Improvements in or relating to lubricators.* (From 17 July 1901 to 17 July 1902.)
- No. 127 of 1896.—William Bull. *Improvements in the construction and working of continuous kilns for burning bricks and tiles.* (From 13 April 1901 to 13 April 1902.)
- No. 301 of 1896.—George Johnston. *Improvements in automatic central buffers and couplings.* (From 30 April 1901 to 30 April 1902.)
- No. 337 of 1896.—Joseph George Nash and Arthur Onslow Whittington. *Improvements in apparatus for automatically indicating numbers or changes of numbers simultaneously with the action of a press for marking or embossing tickets.* (From 15 April 1901 to 15 April 1902.)
- No. 356 of 1896.—William Lindsay. *An enlarging bit for well-boring by the cable or pole system.* (From 30 April 1901 to 30 April 1902.)
- No. 437 of 1896.—The Publishing, Advertising, and Trading Syndicate, Ltd. *Improvements in the manufacture of material suitable for belting, carding cloths, soles of boots and like uses.* (From 3 May 1901 to 3 May 1902.)

No. 1320 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased:—

- No. 363 of 1895.—Joseph Lindsay. *Improvements in baling presses.* (Specification filed 5 January 1897.)
- No. 125 of 1896.—William Shanks and John Shanks (Junior). *Improvements in water closets and urinals.* (Specification filed 5 January 1897.)
- No. 194 of 1896.—John Fraser. *Improvements in and connected with fuse lighters.* (Specification filed 5 January 1897.)
- No. 281 of 1896.—James Thomson and Vishnoo Vamana Sohoni. *Improvements in humidifiers.* (Specification filed 31 December 1896.)
- No. 319 of 1896.—Albert Tudor Rogers. *Rogers' combined safety swivel points locker and protector.* (Specification filed 31 December 1896.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs50 for each of the above inventions

- No. 293 of 1895.—James Henry Southcott, Owen Phillip Payne, and James Clarkson Sumter. *An improved water filter.* (Specification filed 30 December 1895.)

Fee in respect of the continuance of an exclusive privilege—

4 (b) After the expiration of the fourth year and before the expiration of the fifth year from the date of the filing of the specification—

The sum of Rs50 for the above invention.

- No. 97 of 1888.—Stephen Alley, and John Alexander MacLellan. *Improvements in and connected with apparatus for making moulds for casting.* (Specification filed 2 January 1889.)

Fee in respect of the continuance of an exclusive privilege—

4 (i) After the expiration of the eleventh year and before the expiration of the twelfth year from the date of the filing of the specification—

The sum of ₹100 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,
*Secretary under the Inventions and
Designs Act, 1888.*

বঙ্গদেশের গবর্ণমেন্টের সিনকোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৯০০ সালের ১লা এপ্রেল চইতে এই কুইনাইনের বিবরণিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৭/১২ ডাকহাওল বিনা ১৭/১২

১ আধ " " ৮/৮ " ৯

১ শিকি " " ৪/৪ " ৪/১২

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিনকোনাইন ও সিনকোনি-ডাইন নামক অপকৃষ্ট কারের সহিত ইচ্ছা পূর্বক মিশান হয় নাই তাহার পরীক্ষা দেখা বাইতেছে। ইহা বঙ্গ মূল্যে কেবল ১৭/১২ সেন্টের কর্তৃত্বগণের নিকট বিক্রয় করা বাইবে, এবং কলিকাতার নিকট শিবপুরের কোম্পানি বাগানের সুপারিন্টেন্ডেন্টের নিকট পাইতে পারে।

ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The following revised Rules for Examinations in Arts passed by the Syndicate are published for general information:—

RULES FOR EXAMINATIONS PASSED BY THE SYNDICATE.

(i) ARTS.

I.—GENERAL.

(a) APPOINTMENT OF EXAMINERS.

1. In February of each year the Syndicate shall appoint gentlemen to set the question papers in all the subjects of the Arts Examinations of the current academical year.

2. No gentleman shall be appointed to set a paper in a subject of which he teaches the whole or a part.

3. Not less than a month before the commencement of the Arts Examinations, the Syndicate shall appoint Examiners to look over the answer papers of the candidates. Canvassing will not be allowed.

Head Examiners shall be appointed to superintend the work of the Entrance Examiners in the following subjects:—

- | | |
|------------------|---------------------------------------|
| (1) English. | (3) Sanskrit and Bengali Translation. |
| (2) Mathematics. | (4) History. |
| (5) Geography. | |

Separate Examiners shall be appointed in English and in Philosophy to examine Honour and Pass papers in the B. A. Examination.

The B. A. Pass papers in English and in Philosophy shall each be divided into halves and one Examiner shall be appointed to examine the answers to each half-paper.

In the B. Sc. paper in English, the Essay on each respective Scientific subject shall be examined by the Examiner appointed to conduct the B. Sc. Examination in that subject.

(b) SETTING PAPERS.

4. Gentlemen appointed to set the examination papers are requested to write in the margin, opposite to each question, the maximum number of marks they intend to assign to it.

5. The papers set should be such as candidates can reasonably be expected to answer within the time allotted.

6. The questions in each subject should be fairly distributed over the whole course in that subject, and should, as far as possible, conform to the standard of previous years. Gentlemen setting papers are requested to guide themselves by the text-book, or portions of the text-book, prescribed by the Syndicate as covering the syllabus. Where two or more alternative text-books, or groups of text-books, are prescribed in any subject, the examination questions shall be so framed as to be capable of being answered out of any one of the prescribed text-books, or groups of text-books.

7. The examination papers, *in duplicate*, written very legibly *on one side only of foolscap paper*, are to be sent by post in a sealed and registered double cover to the Registrar at his private residence. No copy of any examination paper is to be retained by the gentleman setting it.

8. The papers in English, Mathematics, and History and Geography for the Entrance Examination, and in English, Mathematics, and Elementary Physics and Chemistry for the First Examination in Arts, shall be moderated. Three persons shall be appointed a Board of Examiners to set each of the papers in the abovenamed subjects. The duty of *two* of them shall be to set the paper allotted to them, in consultation with each other at a meeting, and the duty of the *third*, who shall be appointed by the Syndicate on the recommendation of the Board of Studies concerned, and shall be designated "Moderator," shall be to revise, in consultation with the other members of the Board, at a meeting, the paper set, all points of difference being decided by a majority of votes. The paper, thus set and revised, shall be submitted to the Registrar with a certification, over their joint signatures, that it conforms to the prescribed condition, and does not involve a variation from the average standard.

9. When two or more persons are appointed to set papers in any subject for the F. A. B. A., B. Sc., or M. A. Examination, it shall be their *joint* duty, wherever possible, to moderate the papers set by them in consultation with each other, and to see that the papers set by them conform to the conditions laid down by the University for such examination, and that the standard of questions set remains approximately uniform from year to year.

(c) EXAMINATION OF PAPERS.

10. The Examiners will be expected to be present in Calcutta during the examination in the subjects for which they have been specially appointed.

11. When two or more Examiners are appointed to examine answers to the same question paper, they shall meet, as soon as possible after the examination, to decide upon a uniform system of marking.

They shall elect one of their number to act as Chairman, whose duty it shall be to decide all questions that arise after the meeting of the Examiners, and to forward to the Registrar a copy of the rules agreed upon at the meeting.

In the case of the Entrance Examination, the Head Examiner shall be *ex-officio* Chairman.

The B. A. Pass papers in English and in Philosophy shall each be divided into halves, and one Examiner shall be appointed to examine the answers to each half-paper.

12. Each Examiner shall be furnished with a roll containing the names and numbers of all the candidates to be examined by him, in which he shall enter the total number of marks assigned to each candidate.

The total number of marks must in every case be a whole number; if the roll submitted by an Examiner contains fractional marks, it will be returned to him for correction.

13. The Examiners shall mark on each answer paper the marks assigned to each question, as well as the total marks.

14. The Examiners will be expected to examine the papers of the candidates in the order in which their names appear on the roll, and at the end of each week to send to the Registrar, or to the Head Examiner, as the case may be, the pages of the roll containing the marks assigned to the papers examined. The attention of the Examiners is specially directed to this rule, and the Registrar is required to report to the Syndicate, after the examinations are over, any case of infraction of this or any other rule.

15. As soon as the results have been tabulated, the Registrar shall prepare a list of the candidates who have failed in one subject only; and in order to guard against any possible inaccuracy, their papers in that subject shall be re-examined by the original Examiners, or by the Head Examiners, on the method of marking already adopted, and without any alteration of the standard.

To facilitate the work of re-examination, the Examiners, or the Head Examiners, as the case may be, shall keep the answer papers of the candidates arranged in the order in which their names appear on the roll.

The answer papers shall be returned to the Registrar as soon as the work of re-examination is over.

16. Six weeks before the Entrance, F.A., B.A. and B.Sc. Examinations take place, the Syndicate shall fix the latest date for sending in marks. The time allowed for the re-examination of answer papers shall be *four* days for 100 papers and under, and *one* day additional for every 25 papers, or portion thereof over 100, Sundays being excluded.

If any Examiner fails to send in his marks within the limits of time prescribed for examination and re-examination, the amount of his remuneration shall be reduced by Rs. 16 for each day by which he exceeds that period.

17. Each Examiner shall write his name and the subject of examination at the foot of every page of his roll.

18. No entry shall be made in the roll against the name of any candidate from whom no paper is received.

19. Examiners are requested to keep the result of the examination and the marks assigned to candidates *strictly secret*.

20. Not less than a month before the commencement of the Entrance and F.A. Examinations, the Syndicate shall appoint, from among the representatives of the Faculty of Arts, four Moderators. The Moderators, in consultation with the Registrar, shall be empowered to pass candidates who have failed in one subject only in either of the above examinations, by the addition of grace marks. If the Moderators and the Registrar are not unanimous on any point, it shall be referred to the Syndicate at their next meeting.

21. The Examiners for the B.A. and B.Sc. Examinations shall report the result of the examination in their respective subjects to the Syndicate.

II.—SPECIAL.

(a) ENTRANCE EXAMINATION.

1. The Examination shall be held early in March in the following order:—

Monday, English	1st Paper from 10 A.M. to 1 P.M. The text-books and questions on Grammar.
			2nd Paper from 2 P.M. to 5 P.M.
			Part I—(a) Translation from a vernacular. (b) Special question for students whose vernacular is English.
Tuesday, Mathematics	Part II—Questions on English Composition for all candidates.
			Arithmetic and Algebra from 10 A.M. to 1 P.M. Geometry from 2 P.M. to 5 P.M.
Wednesday, Second Language	1st Paper from 10 A.M. to 1 P.M. Text and Grammar.
			2nd Paper from 2 P.M. to 5 P.M. Translation and Composition.

Thursday, History and Geography	...	{ History from 10 A.M. to 1 P.M. Geography and Huxley's Introductory Primer from 2 P.M. to 5 P.M.
Friday, Drawing*	...	{ Freehand and Model Drawing from 10 A.M. to 1 P.M.

2. The questions shall be framed chiefly with a view to test a general but intelligent knowledge of the subjects, and questions that are very minute or very difficult shall, as a rule, be avoided.

3. The following values are attached to the various subjects:—English (1st paper), 120. (2nd paper), 80. Mathematics—two papers, 80 each. Second Language (1st paper), 80. (2nd paper), 40. History and Geography, with Huxley's Introductory Primer—two papers, 60 each. Drawing (optional subject), 100.

Part I of the 2nd paper in English (translation from a vernacular, and the corresponding special questions for students whose vernacular is English) shall be calculated to occupy one hour, and 26 marks shall be assigned to it.

In the Mathematical papers not less than 60 per cent. of the marks in Geometry and not more than 30 per cent. of the marks in Arithmetic and Algebra shall be assigned to book-work.

In the papers in Sanskrit and Sanskrit Languages, some of the questions at least shall be required to be answered in the language in which the candidate is being examined.

4. To pass the examination, candidates shall be required to obtain 33 per cent. of the marks in English and 25 per cent. in the remaining subjects, and 33 per cent. in the aggregate.

5. Candidates obtaining 50 per cent. of the marks in the aggregate shall be placed in the First Division, and those obtaining 40 per cent. in the Second Division.

In Drawing (optional subject) the papers of candidates gaining 60 per cent. or more of the marks shall be classed as "excellent," and those gaining between 40 and 60 per cent. as "good."

6. The Head Examiner shall determine, in consultation with the Entrance Examiners in his subject, the method of marking the answer papers of the candidates.

For this purpose a meeting of the Examiners in each subject shall be held, as soon as possible after the close of the examination, at which provisional rules shall be drawn up. After this meeting each Examiner shall look over a certain number of papers (the number to be determined at the meeting), and shall submit them to the Head Examiner for re-examination. After he has re-examined these papers, the Head Examiner shall call another meeting for the final determination of the rules. A copy of these rules shall be sent to each Entrance Examiner and to the Registrar.

7. Each Head Examiner shall re-examine at least 5 per cent. of the answer papers looked over by each of the Entrance Examiners in his subject, with a view to see whether they are working uniformly according to the method indicated, and shall direct, if necessary, any Examiner to conform strictly to that method.

The re-examination of the answer papers shall be conducted in the following manner:—

Every Entrance Examiner shall, as soon as he finishes the examination of about 100 papers, send them with the corresponding pages of his roll to his Head Examiner, who shall examine at least five papers taken at random out of them, and shall give the Examiner any further instructions he may deem fit, or shall return the remaining papers for re-examination, if he is of opinion that the rules have not been complied with. The same course shall be followed with every subsequent batch of 100 papers.

8. In no case shall the Head Examiner increase or diminish the marks assigned to any paper by an Entrance Examiner without himself examining that paper.

9. In case of a difference arising between a Head Examiner, and an Entrance Examiner, an appeal shall lie to the Moderators.

10. Every Entrance Examiner must remain in Calcutta as long as his services are required by his Head Examiner.

11. The Head Examiner shall forward to the Registrar, by instalments, the totalised marks in his subject, with observations on those cases which he may deem worthy of special consideration.

In order to avoid delay in the submission of the totalised marks, Head Examiners are requested to see that the Entrance Examiners look over the papers of candidates in the order in which their names appear in the rolls (General Rule 14).

(6) FIRST EXAMINATION IN ARTS.

1. The Examination shall be held in March in the following order:—

Monday, English	...	{ Poetry from 10 A.M. to 1 P.M. Prose from 2 P.M. to 5 P.M.
-----------------	-----	--

* 1. Freehand—

The candidate will be required to draw correctly, in outline, straight lines, simple and compound curves. Drawing to be enlarged or reduced to a given size.

2. Model Drawing—

By "Model Drawing" the delineation of "Geometric solids or common objects from nature" is to be understood. The candidate will be required to draw correctly, in outline, geometric solids, as the cube, triangular, square and hexagonal prisms, the cylinder, and cone—the solids to be arranged in groups of two or three in combination with common objects (without ornamentation) as Vases, Lotos, Buckets, Stools, etc.

Drawing to be not less than eight inches in height.

One paper to be set in this subject.

Tuesday, Mathematics	...	{ Mathematics from 10 A.M. to 1 P.M. " " 2 P.M. to 5 P.M.
Wednesday, Second Language	...	{ Second Language from 10 A.M. to 1 P.M. " " 2 P.M. to 5 P.M.
Thursday, Physics and Chemistry	...	{ Physics from 10 A.M. to 1 P.M. Chemistry from 2 P.M. to 5 P.M.
Friday, History and Logic	...	{ History from 10 A.M. to 1 P.M. Logic from 2 P.M. to 5 P.M.
Saturday, Physiology, Sanitary Science, and optional paper on original Composi- tion in Bengali, Hindi, Urdu or Uriya.	{	Physiology or Sanitary Science from 10 A.M. to 1 P.M. Original Composition from 2 P.M. to 5 P.M.

2. In all cases where the answers are written in English, Examiners, in giving marks, shall take the correctness of the English into account.

3. The value of the papers shall be as follows:—English, 75 marks in each paper. Mathematics, 60 marks in each paper. Second Language, 60 marks in each paper. Physics and Chemistry, 60 marks in each paper. Logic, 60 marks. History, 60 marks. Physiology, 60 marks. Sanitary Science, 60 marks.

4. In the Mathematical papers at least three-fifths of the marks shall be awarded to book-work. In the Physics paper no mathematical questions shall be set. In one of the papers in English some subject for Original Composition shall be set; 25 marks shall be assigned to this question.

The examination in Logic shall be on the subject as defined by the syllabus, and shall not necessarily be confined to the book recommended to be used in studying the subject.

An optional paper on Original Composition in Bengali, Hindi, Urdu or Uriya shall be set at the examination, and 100 marks shall be assigned to it.

5. In order to pass in English, a candidate must obtain 45 marks; in Mathematics 30 marks; in the additional Language, 30 marks; in Physics and Chemistry, 30 marks; in History, 15 marks; in Logic, 15 marks; in Physiology, 15 marks; in Sanitary Science, 15 marks.

In order to pass the F. A. Examination, a candidate must pass in the compulsory subjects and must secure an aggregate of 160 marks in those subjects. Candidates obtaining 342 marks or more shall be placed in the First Division, and those obtaining 257 marks or more shall be placed in the Second Division.

If a candidate has passed in the compulsory subjects, and has obtained the minimum aggregate, he will be allowed to have the marks which he may obtain in the optional subject, provided he has passed in it, added to his aggregate marks in the compulsory subjects, and the total so obtained will be used in determining the division in which he will be placed and his place in such division.

In order to entitle a candidate to a special certificate in Original Composition in Bengali, Hindi, Urdu or Uriya under paragraph 8 of the F. A. Regulations, the candidate must obtain not less than 50 per cent. of the marks in the paper on Composition.

(c) B. A. EXAMINATION.

1. The examination shall be held in March in the following order:—

Monday, English (Pass and Honour)	...	{ 1st Paper from 10 A.M. to 1 P.M. 2nd Paper from 2 P.M. to 5 P.M.
Tuesday, English (Honour)	...	{ 3rd Paper from 10 A.M. to 1 P.M. 4th Paper from 2 P.M. to 5 P.M.
Wednesday, Philosophy and alternative subjects in the B Course (Pass and Honour)	...	{ 1st Paper from 10 A.M. to 1 P.M. 2nd Paper from 2 P.M. to 5 P.M.
Thursday, Philosophy and alternative subjects in the B Course (Honour)	...	{ 3rd Paper from 10 A.M. to 1 P.M. 4th Paper from 2 P.M. to 5 P.M.
Friday, Mathematics and alternative subjects in the A Course (Pass and Honour)	...	{ 1st Paper from 10 A.M. to 1 P.M. 2nd Paper from 2 P.M. to 5 P.M.
Saturday, Mathematics and alternative subjects in the A Course (Honour)	...	{ 3rd Paper from 10 A.M. to 1 P.M. 4th Paper from 2 P.M. to 5 P.M.
Monday, Optional paper on Original Composition in Bengali, Hindi, Urdu or Uriya	...	{ From 10 A.M. to 1 P.M.

2. In all cases where the answers are written in English, Examiners, in giving marks, shall take the correctness of English into account.

3. The papers in each language shall include questions in Grammar and Idiom, and paraphrasing shall be discouraged. Sentences in each of the languages in which the candidate is examined shall be given for translation into the other language. No questions in Rhetoric are to be set in the Sanskrit Pass and Honour Papers.

In English, in one of the Pass papers, some subject for Original Composition shall be set; 30 marks will be assigned to this question.

* Chemistry, 2 to 3-30 P. M. Date or dates of the practical Examination in Chemistry will be fixed by the Registrar in consultation with the Examiner.

In the 4th Honour paper in English, some subject for Original Composition shall be set; 50 marks will be assigned to this question.

In the Pass papers in Mathematics, three-fifths of the marks shall be assigned to book-work and two-fifths to simple riders.

In the Honour Papers in Mathematics, one-half of the marks shall be assigned to book-work, and the other half to easy riders and problems.

The questions in Descriptive Astronomy shall be confined to book-work.

The examination in Mental and Moral Science shall be on the subject as defined by the syllabus, and shall not necessarily be confined to the books recommended to be used in studying the subject.

In the 3rd Honour paper, 25 marks shall be assigned to questions on the "Special subject" in History of Philosophy.

An optional paper on Original Composition in Bengali, Hindi or Uriya, Urdu shall be set at the examination; 100 marks shall be assigned to it.

4. Different papers shall be prepared for the Pass and Honour candidates, who will be examined at the same time. The questions set in the papers for Pass candidates shall be taken only from the Pass Course, and the questions set to the candidates for Honours shall be taken from both the Pass and Honour Courses. In the papers set to the Honour candidates, the questions taken from the Pass Course shall be more difficult than those in the papers set to candidates for a Pass only. The papers shall be headed English, (*) 1st Pass paper; English, (*) 2nd Pass paper; English, (*) 1st Honour paper; English, (*) 2nd Honour paper; English, (*) 3rd Honour paper; English, (*) 4th Honour paper.

5. The papers shall be headed and distributed among the various subjects as follows:—

A COURSE.

I.—English, 1st Pass Paper	<div style="display: flex; align-items: center;"> <div style="margin-right: 10px;">...</div> <div style="border-left: 1px solid black; padding-left: 5px;"> 1st half, Poetry, 50 marks, Shakespeare's Plays. 2nd half, Poetry, 50 marks, Milton and Tennyson. </div> </div>
" 2nd "	<div style="display: flex; align-items: center;"> <div style="margin-right: 10px;">...</div> <div style="border-left: 1px solid black; padding-left: 5px;"> 1st half, Prose, 50 marks, Burke. 2nd half, Prose, 20 marks, Pattison, 30 marks. Original Composition. </div> </div>
" 1st Honour Paper	... Poetry, Pass texts.
" 2nd " "	... Prose, Pass texts.
" 3rd " "	... Poetry and Prose, Honour texts.
" 4th " "	... History of English Language and Literature and Essay.
II.—Philosophy, 1st Pass Paper	1st half, 50 marks.
	<i>Psychology—</i>
	Philosophy and Psychology. Scope and Method of Psychology. Relation of Psychology to Metaphysics and Physiology.
	Mind, Consciousness, Self-consciousness. Analysis and Classification of Mental Processes and Products. Development of Mental Life. Laws of Mind.
	Psychology of Cognition. Perception and Sensation. The Senses and the Nervous System. Localisation of Sensation. Primary and Secondary Qualities of Body. Object of Perception. Perception of the different Senses. Acquired Perceptions. Imagination, Expectation, Memory. Thinking, Conception, Judgment, Reasoning, Generalisation. Belief and Knowledge. Experience and Reason. Self, External World. Time, Space, Substance, Cause, Power.
	<i>Logic—</i>
	Definition and Province of Logic. Relation of Logic to Metaphysics and the Special Sciences. Thought, Knowledge, Truth, Science. Immediate and Mediate Knowledge. Intuitive and Inferential Truths.
	2nd half, 50 marks.
	<i>Logic—</i>
	Observation and Experiment. Analysis and Synthesis. Classification and Definition. Hypothesis and Explanation. Induction, Analogy and Probability. The ground of Induction, Experimental Methods. Deductive Method. Relation of Induction to Deduction. Demonstration, Syllogism, Functions of Syllogism.

* Or whatever the subject may be.

					1st half, 50 marks.
					<i>Psychology—</i>
					Psychology of Feeling. Sense-feelings, Emotions and Sentiments. Pleasure and Pain.
					Psychology of the Will. Attention and Volition. Appetite and Desire. Instinct and Habit. Voluntary Action. Conflict of Motives. Deliberation, Choice. Freedom of the Will.
					<i>Ethics—</i>
					Scope and Method of Ethics. Relation of Ethics to Metaphysics, Psychology, Sociology, and Politics.
II.—Philosophy, 2nd Pass Paper	...				2nd half, 50 marks.
					<i>Ethics—</i>
					Analysis of the Moral Consciousness; Moral Sentiment, Moral Judgment, the Moral Faculty, Springs of Action and their Mutual Relation.
					The Good or Ultimate End of Action. Moral Obligation. Standards of Right and Wrong. Sanctions of Morality. The Individual and Society. Duties and Virtues.
II.—Philosophy, 1st Honour Paper	...				Logic and Psychology (exclusive of Psychology of the Feelings and the Will).
„ 2nd „ „	...				Ethics and Psychology (of the Feelings and the Will).
„ 3rd „ „	...				History of Philosophy.
„ 4th „ „	...				Natural Theology.
III.—Second Language, <i>e.g.</i> —					
Sanskrit, 1st Pass Paper	...				Poetry.
„ 2nd „ „	...				Prose.
„ 1st Honour Paper	...				Poetry.
„ 2nd „ „	...				Prose.
„ 3rd „ „	...				Poetry and Prose.
„ 4th „ „	...				Comparative Philology.
IV.—History and Political Economy—					
1st Pass Paper	...				History.
2nd „ „	...				History and Political Economy.
1st Honour Paper	...				History of England.
2nd „ „	...				Political Economy.
3rd „ „	...				History of Greece and Rome.
4th „ „	...				History of India.
V.—Mathematics as in the B. Course.					

B. COURSE.

I.—English as in the A. Course.					
II.—Mathematics, 1st Pass Paper	...				Statics and Hydrostatics.
„ 2nd „ „	...				Dynamics and Astronomy.
„ 1st Honour Paper	...				Statics and Hydrostatics.
„ 2nd „ „	...				Dynamics and Astronomy.
„ 3rd „ „	...				Analytical Geometry.
„ 4th „ „	...				Differential and Integral Calculus.
III.—Physics and Chemistry—					
1st Pass Paper	...				Physics.
2nd „ „	...				Chemistry.
1st Honour Paper	...				Physics.
2nd „ „	...				Physics and Doctrine of Scientific Method.
3rd „ „	...				Chemistry.
4th „ „	...				(a) Chemistry, time 1½ hours. (b) Chemistry, Practical Examination, time 3 hours.
IV.—Biology, 1st Pass Paper					
„ 2nd „ „	...				Physiology.
„ 1st Honour Paper	...				Botany or Zoology.
„ 2nd „ „	...				Physiology.
„ 3rd „ „	...				Botany and Doctrine of Scientific Method.
„ 4th „ „	...				Zoology and Doctrine of Scientific Method.
	...				Zoology.

V.—Geology, 1st Pass Paper	...	Geology.
" 2nd " "	...	Physical Geography or Mineralogy.
" 1st Honour Paper	...	Geology.
" 2nd " "	...	Mineralogy and Physical Geography.
" 3rd " "	...	Geology and Doctrine of Scientific Method.
" 4th " "	...	Paleontology and Doctrine of Scientific Method.

6. The same number of marks, viz. 100, shall be given for each paper, with the exception of the 4th Honour paper in Chemistry, in which 50 marks shall be given for the half-paper in Chemistry, and 50 for the Practical Examination. In order to pass in the Pass Course in any subject, a candidate must obtain 60 marks.

In order to obtain Honours in the First Division in any subject a candidate must obtain 240 marks; and in order to obtain Honours in the Second Division in any subjects, a candidate must obtain 160 marks.

In order to pass in an Honour subject, a candidate must obtain 100 marks.

If a candidate obtains Honours in any subject, no minimum aggregate shall be required; but if a candidate does not obtain Honours in any subject, he must, in order to pass, obtain 216 marks in the aggregate; and if he has taken up an Honour subject, 60 per cent. of the marks obtained in that subject shall be counted towards the aggregate.

In order to obtain a special certificate in Original Composition in Bengali, Hindi, Urdu or Uriya a candidate must obtain 50 per cent. of the marks.

"(d) B.SC. EXAMINATION.

(1) The Examination shall be held in March in the following order—

Monday, English	...	One paper, Essay, from 10 A.M. to 1 P.M.
Tuesday, Physics	...	{ 1st Pass and 1st Honour Paper, from 10 A.M. to 1 P.M. Pass Practical Examination and 2nd Honour Paper, from 2 P.M. to 5 P.M.
Wednesday, ditto	...	Honour Practical Examination.
Thursday, Chemistry	...	{ 1st Pass and 1st Honour Paper, from 10 A.M. to 1 P.M. Pass Practical Examination and 2nd Honour Paper, from 2 P.M. to 5 P.M.
Friday, ditto	...	Honour Practical Examination.
Saturday, Mathematics	...	{ 1st Pass and 1st Honour Paper, from 10 A.M. to 1 P.M. 2nd Pass Paper (optional Mathematics) and 2nd Honour Paper, from 2 P.M. to 5 P.M.
Monday, ditto	...	{ 3rd Honour Paper, from 10 A.M. to 1 P.M. 4th Honour Paper, from 2 P.M. to 5 P.M.
Tuesday, Physiology	...	{ 1st Pass and 1st Honour Paper, from 10 A.M. to 1 P.M. Pass Practical Examination and 2nd Honour Paper, from 2 P.M. to 5 P.M.
Wednesday, ditto	...	Honour Practical Examination.
Thursday, Botany	...	{ 1st Pass and 1st Honour Paper, from 10 A.M. to 1 P.M. Pass Practical Examination and 2nd Honour Paper, from 2 P.M. to 5 P.M.
Friday, ditto	...	Honour Practical Examination.
Saturday, Zoology	...	{ 1st Pass and 1st Honour Paper, from 10 A.M. to 1 P.M. Pass Practical Examination and 2nd Honour Paper, from 2 P.M. to 5 P.M.
Monday, ditto	...	Honour Practical Examination.
Tuesday, Geology	...	{ 1st Pass and 1st Honour Paper, from 10 A.M. to 1 P.M. Pass Practical Examination and 2nd Honour Paper, from 2 P.M. to 5 P.M.
Wednesday, ditto	...	Honour Practical Examination.
Thursday, Mineralogy	...	{ 1st Pass and 1st Honour Paper, from 10 A.M. to 1 P.M. Pass Practical Examination and 2nd Honour Paper, from 2 P.M. to 5 P.M.
Friday, ditto	...	Honour Practical Examination.

(2) There shall be a simple practical Examination in all subjects other than English and Mathematics.

(3) In all cases where the answers are written in English, Examiners, in giving marks, shall take the correctness of the English into account.

(4) One paper shall be set in English, requiring short essays to be written (a) on some portion of a subject in Physical Science or Chemistry, and (b) on one of the optional subjects taken up by the candidate. Each Essay on the respective subjects must be written in a separate answer book.

In the Pass papers in Mathematics one-half of the marks shall be assigned to easy riders and problems.

(5) Different papers shall be prepared for the Pass and the Honour candidates. The questions set in the papers for Pass candidates shall be taken only from the Pass course, and the questions set to the candidates for Honours shall be taken from both the Pass and the Honour courses. In the papers set to the Honour candidates the questions taken from the

Pass course shall be more difficult than those in the papers set to candidates for a Pass only. The papers shall be headed Mathematics, (*) First Pass Paper; Mathematics, (*) second Pass Paper; Mathematics, (*) First Honour Paper; Mathematics, (*) Second Honour Paper; Mathematics, (*) Third Honour Paper; Mathematics, (*) Fourth Honour Paper.

(6) The papers shall be headed and distributed among the various subjects as follows:—

I.—English, Pass Paper only		(a) Essay on some portion of a subject in Physical Science or Chemistry ...	100 marks.
		(b) Essay on one of the optional subjects taken up by the candidate ...	100 "
II & X.—Mathematics, 1st Pass	Paper	Statics and Dynamics ...	200 "
" 2nd "	"	Hydrostatics and Astronomy ...	200 "
" 1st Honour "	"	Statics and Dynamics ...	200 "
" 2nd "	"	Hydrostatics and Astronomy ...	200 "
" 3rd "	"	Plane Analytical Geometry ...	200 "
" 4th "	"	Differential and Integral Calculus ...	200 "
III.—Physics, 1st Pass	Paper	100 "
" 2nd "	"	Practical Exam. in Physics ...	100 "
" 1st Honour "	"	100 "
" 2nd "	"	100 "
" 3rd "	"	Practical Exam. in Physics ...	200 "
VI.—Chemistry, 1st Pass	Paper	100 "
" 2nd "	"	Practical Exam. in Chemistry ...	100 "
" 1st Honour "	"	100 "
" 2nd "	"	100 "
" 3rd "	"	Practical Exam. in Chemistry ...	200 "
V.—Physiology, 1st Pass	Paper	100 "
" 2nd "	"	Practical Exam. in Physiology ...	100 "
" 1st Honour "	"	100 "
" 2nd "	"	100 "
" 3rd "	"	Practical Exam. in Physiology ...	200 "
VI.—Botany, 1st Pass	Paper	100 "
" 2nd "	"	Practical Exam. in Botany ...	100 "
" 1st Honour "	"	100 "
" 2nd "	"	100 "
" 3rd "	"	Practical Exam. in Botany ...	200 "
VII.—Zoology, 1st Pass	Paper	100 "
" 2nd "	"	Practical Exam. in Zoology ...	100 "
" 1st Honour "	"	100 "
" 2nd "	"	100 "
" 3rd "	"	Practical Exam. in Zoology ...	200 "
VIII.—Geology, 1st Pass	Paper	100 "
" 2nd "	"	Practical Exam. in Geology ...	100 "
" 1st Honour "	"	100 "
" 2nd "	"	100 "
" 3rd "	"	Practical Exam. in Geology ...	200 "
IX.—Mineralogy, 1st Pass	Paper	100 "
" 2nd "	"	Practical Exam. in Mineralogy ...	100 "
" 1st Honour "	"	100 "
" 2nd "	"	100 "
" 3rd "	"	Practical Exam. in Mineralogy ...	200 "

In order to pass in the Pass Course in any subject, a candidate must obtain 33 per cent. of the total number of marks allotted to that subject. In order to pass the B.Sc. Examination, a candidate must obtain 40 per cent. in the aggregate.

In order to pass the B.Sc. Examination with Honours, a candidate must take up and obtain Honours in at least two subjects, Mathematics counting as a double subject.

As an exception to the ordinary rule, making Mathematics a compulsory subject, a candidate, who, after examination in English, Physics, and Chemistry and any two of the other subjects, passes in all five and obtains Honours in at least three subjects (English excepted), may obtain the degree of B.Sc. without taking up Mathematics.

In order to obtain Honours in the First Division in any subject, a candidate must obtain 60 per cent. of the total number of marks allotted to that subject, and in order to obtain Honours in the Second Division in any subject, a candidate must obtain 40 per cent. of the total number of marks allotted to that subject.

In order to pass in an Honour subject, a candidate must obtain 30 per cent. of the total number of marks allotted to that subject.

If a candidate obtains Honours in any two or more subjects, no minimum aggregate shall be required, but if a candidate does not obtain Honour in any two subjects, he must,

* Or whatever the subject may be.

in order to qualify as a pass candidate, obtain 480 marks in the aggregate; and if he has taken up two or more Honour subjects, 55 per cent. of the marks obtained in those subjects shall be counted towards the aggregate.

(c) M.A. EXAMINATIONS.

1. The examination shall be held in the month of November in the following order :—

Monday, 10 A.M. to 3 P.M., 1st Paper.
 Tuesday, " " " 2nd "
 Wednesday, " " " 3rd "
 Thursday, " " " 4th "
 Friday, " " " 5th "
 Saturday, " " " 6th "

2. One hundred marks shall be allotted to each paper in all branches of the M.A. Examination, and a Practical Examination in Natural and Physical Science shall be considered equivalent to one paper.

The examination in Mental and Moral Science shall be on the subject as defined by the syllabus, and shall not necessarily be confined to the books recommended to be used in studying the subject.

3. The papers in the different branches shall be headed and distributed as follows :—

ENGLISH.

1st Paper	Drama (Texts and Criticism).
2nd "	Poetry (Texts and Criticism).
3rd "	Prose (Texts and Criticism).
4th "	General Paper in Literature, together with Taine and Dodwen.
5th "	Anglo-Saxon (Sweet's Primer) Comparative Grammar (Sayce's Introduction), together with Morris and Smith.
6th "	Essay on a subject connected with the History or Literature of the English Language (not to be confined to the prescribed text-books).

GREEK.

1st Paper	Homor, Pindar, Aristophanes.
2nd "	Æschylus, Sophocles, Euripides.
3rd "	Unseen passages, Grammar, Sayce.
4th "	Herodotus, Thucydides, Demosthenes.
5th "	Plato, Aristotle.
6th "	Essay, Composition, Mahaffy.

LATIN.

1st Paper	Plautus, Terence, Catullus, Lucretius.
2nd "	Virgil, Horace, Juvenal, Persius.
3rd "	Unseen passages, Grammar, Sayce.
4th "	Livy, Sallust.
5th "	Cicero, Tacitus.
6th "	Essay, Composition, Cruttwell.

SANSKRIT.

1st Paper	Prose, Poetry and Drama.
2nd "	Grammar and Rhetoric.
3rd "	Manu and Bhagavatgita.
4th "	Veda and Upanishad with Vedic Grammar.
5th "	Philosophy, or Philosophy and Indian Paleography and Epigraphy.
6th "	Essay.

ARABIC.

1st Paper	Sabai Muallaqah.
2nd "	Diwan-i-Bahauddin Zuhir.
3rd "	Hamásah.
4th "	Maqamat-i-Hariri.
5th "	Moquddamai-i-Ibn Khalladun, Prosody, Rhetoric.
6th "	Essay.

Two unseen passages shall be set at the examination, one in prose and the other in poetry. The prose passages shall form part of Paper V, and the poetry passage shall form part of Paper II. Such passages shall not exceed in difficulty the general standard of the text-books prescribed for the examination.

PERSIAN.

1st Paper	Qasáid-i-Khúqání.
2nd "	Hadíqa-i-Samái.
3rd "	Qasáid-i-Qáání and Arúz-i-Saifi.
4th "	Inshai-i-Abul Fazl and Hadaíq-ul-Balaghut.
5th "	Akbarnámah.
6th "	Essay.

Two unseen passages shall be set at the examination, one in prose and the other in poetry. The prose passages shall form part of Paper V, and the poetry passage shall form part of Paper II. Such passages shall not exceed in difficulty the general standard of the text-books prescribed for the examination.

Candidates are also required to possess a knowledge of Arabic to the extent laid down in the course for the First Examination in Arts.

HISTORY.

1st Paper	History of England.
2nd "	Constitutional History.
3rd "	History of selected period.
4th "	Political Philosophy.
5th "	Political Economy.
6th "	Essay.

PHILOSOPHY.

1st Paper	Psychology.
2nd "	Logic.
3rd "	Ethics and Political Philosophy.
4th "	Natural Theology and Metaphysics.
5th "	History of Philosophy (general).
6th "	Essay.

N.B.—The subject of History of Philosophy (special) shall be grouped each year with the subject to which the special subject prescribed for the year is allied.

MATHEMATICS.

(GROUP A.)

1st Paper	Algebra and Trigonometry, Plane and Spherical.
2nd "	Theory of Equations and Analytical Plane Geometry, omitting the Higher Plane Curves.
3rd "	Differential Calculus, Integral Calculus (including the elements of the Calculus of Variations) and Differential Equations.
4th "	Analytical Solid Geometry.
5th "	Analytical Statics and Dynamics of a Particle.
6th "	Hydrostatics and Elementary Hydrokinetics, Newton's Principia, Sections I, II, III, and Astronomy.

(GROUP B.)

1st Paper	Analytical Plane Geometry and Analytical Solid Geometry.
2nd "	Differential Calculus and Integral Calculus, including the elements of the Calculus of Variations.
3rd "	Analytical Statics.
4th "	Dynamics of a Particle and Rigid Dynamics.
5th "	Hydro-mechanics, including the elements of the Theory of sound.
6th "	Astronomy and Newton's Principia, sections I, II, III, IX, XI.

Candidates shall be required to possess a knowledge of so much of the Theory of Equations, Differential Equations, Spherical Trigonometry, and Geometrical Optics as is necessary to understand the subjects in Group (B).

NATURAL AND PHYSICAL SCIENCE (A).

1st Paper	Chemistry of the Non-metals and Outlines of Theoretical Chemistry.
2nd "	Chemistry of the Metals.
3rd "	Organic Chemistry.
4th, 5th and 6th Papers	Practical Examination.

NATURAL AND PHYSICAL SCIENCE (B).

1st Paper	Electricity and Magnetism.
2nd "	Ditto ditto.
3rd "	Heat.
4th "	Subsidiary subjects.
5th "	Practical Examination in the Principal subjects.
6th "	Practical Examination in the Subsidiary subjects.

NATURAL AND PHYSICAL SCIENCE (C).

1st Paper	Physical Optics.
2nd "	Physical and Geometrical Optics.
3rd "	Sound.
4th "	Subsidiary subjects.
5th "	Practical Examination in the Principal subjects.
6th "	Practical Examination in the Subsidiary subjects.

NATURAL AND PHYSICAL SCIENCE (D).

1st Paper	Anatomy, Histology and Cryptogamic Botany.
2nd "	Physiology.
3rd "	Classification, Structural Botany, Palaeobotany.
4th "	Practical Anatomy and Histology. (This will include identification of prepared specimens under the Microscope, also making Micro-sections, Micro-chemical re-actions).
5th "	Identification of Cryptogamic Specimens and making sections for the Microscope.
6th "	Identification of Specimens with the help of Flora Indica, or referring them to their Natural Orders.

NATURAL AND PHYSICAL SCIENCE (E).

1st Paper	Zoology and Comparative Anatomy.
2nd "	Comparative Anatomy and Comparative Embryology.
3rd "	Physiology of the nervous system and of the special organs of sense.
4th "	Physiology of Digestion, Respiration and Circulation, and Physiological Chemistry.
5th "	Practical Examination in Zoology.
6th "	Practical Examination in Physiology.

NATURAL AND PHYSICAL SCIENCE (F).

1st Paper	Geology.
2nd "	Paleontology.
3rd "	Mineralogy and Petrology.
4th "	Crystallography and Inorganic Chemistry.
5th "	Practical Examination in Mineralogy.
6th "	Practical Examination in Geology.

1. In order to pass the M.A. Examination in Languages, History, or Mental and Moral Philosophy, a candidate must obtain 30 per cent. of the marks in each paper with 40 per cent. in the aggregate for a third class; 48 per cent. for a second class; and 60 per cent. for a first class: and in order to pass the M.A. Examination in Mathematics or Natural and Physical Science, a candidate must obtain 33 per cent. in the aggregate for a third class, 45 per cent. for a second class, and 60 per cent. for a first class, without any minimum percentage in each paper.

A. C. EDWARDS, Registrar.

SENATE HOUSE, The 12th April 1901.

**ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE
OF THE CALCUTTA UNIVERSITY.**

THE undermentioned candidates have passed the M.B. Examinations in 1901 :—

PRELIMINARY SCIENTIFIC M.B. EXAMINATION.

FIRST DIVISION.

(In order of merit.)

The undermentioned unsuccessful candidate at the recent Second M. B. Examination having attained the standard of the Second L. M. S. examination, is hereby declared to have passed that examination:—

Mitra, Ganendranath Medical College.

SENATE HOUSE,
The 12th April 1901.

A. C. EDWARDS,
Registrar.

CIVIL ENGINEERING COLLEGE, SIBPUR.

ENGINEER DEPARTMENT.

SESSION 1901-1902.

Candidates for admission to the Engineer Department should apply to the Principal before the 15th May, 1901. Each application must be accompanied by a registration fee of Rs. 1. The session begins on Monday, the 3rd June, 1901.

Candidates must furnish proof that they have passed one of the following tests:—

- (1) The F. A. Examination of the Calcutta University or a similar standard of any Indian University recognised by the Calcutta University. The candidate's age must be under 21 years.
- (2) The B. A. Examination in the B Course in Physics and Chemistry. The candidate's age must be under 23 years.

In selection of candidates who have passed the F. A. (all other things being equal)

preference will be given to those who have passed in Sanitary Science in addition to the ordinary subjects of the F. A. Examination.

The maximum number to be admitted each year is limited to 40. The position in the University Examination and the age of the candidates will be taken into consideration when selection is made, and such selection will be made by the Principal.

The tuition fee for students of the Engineer Class is Rs 10 a month for each month of the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of Junior or Senior Scholarships. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eye sight.

Further particulars will be supplied on application to the Principal.

J. S. SLATER,
Principal, Civil Engineering College

SIBPUR;
The 9th April, 1901.

CIVIL ENGINEERING COLLEGE, SIBPUR.

APPRENTICE DEPARTMENT.

SESSION 1901-1902.

The date for admission to this department is 3rd June, 1901. Candidates must be at least 15, and not more than 17, years of age.

They must have passed Standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard, so as to reach Principal not later than the 6th May 1901, together with a registration fee of Rs. 1. No application will be attended to after this date.

The maximum number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest, measurement, fitness for manual labour and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in June. All apprentices are required to join the College on that date. Any apprentice pre-

vented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of June, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be one vacancy on the free list for Christian apprentices in June next, and there will be twenty-one on the reduced

■ Rs. 5 per mensem. fee * list. For natives there
Rs. 2 per mensem. will be at least seven vacancies, possibly more on the reduced fee list.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can, therefore, be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

With the exception of students on the free and reduced fee lists, all apprentices will pay a tuition fee of Rs. 3 a month for each month of the year.

Further particulars will be supplied on application to the Principal.

I. S. SLATER,

Principal, Civil Engineering College.

SIBPUR :

The 9th April, 1901.

TELEGRAPH DEPARTMENT.

NOTIFICATIONS.

Simla, the 22nd May, 1900.

TELEGRAMS FOR THE TROOPS IN SOUTH AFRICA.

No. 9.—The following revised notification is published for general information:—

Until further notice, State and Private telegrams *in plain language* addressed to persons serving with the Field Force in South Africa will be accepted *at Sender's risk*, and charged for at the rate of R1-8 per word from offices in India or Burma. Telegrams in Code or Cypher cannot be accepted at this reduced rate. The address should consist of the following:—

- (1) The name, or number, or both of the person to whom the telegram is addressed (in the case of officers the rank may be omitted, and in the case of telegrams for Non-Commissioned Officers and men the name may, in like manner, be omitted if the number is given. Such omissions, however, add to the risk of the telegram going astray, more especially when addressed to Non-Commissioned Officers and men), and
- (2) The Regiment (*this will be counted and charged for as one word irrespective of the number of words used*).

These telegrams should be addressed "Bombay for South Africa" (*which words will be signalled free*), and not to any particular Telegraph Office in South Africa. The Bombay Telegraph Office will forward them to the Officer Commanding at Capetown, who will deliver them to the Addressees at whatever place in South Africa they may be stationed.

Senders of telegrams should accurately describe the Regiment, Battalion, Battery or Corps, to which the Addressees are attached, as it appears in the "Army List." For example: the address of an Officer or Private in the "Rifles" should give the number of the Battalion, and make it quite clear whether it is a Battalion of the "Rifle Brigade," the "King's Royal Rifle Corps," the "Royal Irish Rifles," or the "Scottish Rifles (Cameronians)."

The reduced rate will also apply to telegrams addressed to members of the Nursing Staff serving in South Africa, and any telegrams addressed to a Nurse will be treated in the same way as those intended for soldiers and sailors.

Telegrams for officers, Non-Commissioned Officers and men in South Africa who are known to be suffering from wounds or sickness may be addressed to them as if they were with their regiment or corps. Such telegrams, on arrival at the place where the regiment or corps is stationed, will be redirected to the proper hospital.

When, however, the name of the hospital is known to the sender of the message, he may address the telegram direct to that hospital, e.g., "Field Hospital, 1st Cavalry Brigade," or to "No. 2 General Hospital" or to "Moor River Hospital."

In any case, the telegram should as already stated, be addressed by the sender to "Bombay for South Africa," which words will not be charged for.

The following are given as examples of addresses and counting:—

"Captain Armstrong, 64th Royal Field Artillery, Bombay for South Africa" (*three words*); "Captain Armstrong, Wynberg Hospital, Bombay for South Africa" (*three words*); "7303 Murphy, 2nd Battalion, Royal Dublin Fusiliers, Bombay for South Africa" (*three words*); "7303, Moor River Hospital, Bombay for South Africa" (*two words*).

II. Notification No. 5, dated the 8th May, 1900, is hereby cancelled.

The 5th December, 1900.

No. 37.—The British Government announces that the transmission of Private telegrams for the Orange River Colony and the Transvaal, *via* Cape Colony and Natal, is now suspended.

Telegrams for Pretoria, Johannesburg, Vereeniging, Germiston, Middelburg, Heidelberg, and Standerton are, meanwhile, being accepted for transmission, *via* Lourenço Marques, at the usual rates. These telegrams should be written in plain English, and will be accepted only at the risk of the sender. They are also subject to censorship and to delay in transmission.

The 31st January, 1901.

TELEGRAMS FOR SOLDIERS AND SAILORS OF THE BRITISH AND INDIAN FORCES IN CHINA.

No. 43.—The following revised Notification is issued for general information:—

Until further notice, private telegrams, *in plain language*, for members of the British or Indian Military and Naval Forces in China, from their friends in India or Burma will be accepted *at sender's risk* and at the reduced rates mentioned below to the three following stations only, *via* Madras:—

1. To Shanghai at R 0-15-0 per word.
2. " Wentaiwei " 1-3-0 "
3. " Taku " 1-4-0 "

In the Official Instructions the words "*Reduced Rates*" should be inserted, and will be signalled free.

Telegrams intended for Military or Naval members stationed at Hongkong should be addressed to *Shanghai*, and those for members stationed at Tientsin or Peking should be addressed to *Taku*. These reduced rates will also apply to telegrams for Civilians in Military or Naval employ in China.

In the address the name and number of the Regiment, Battalion, Battery, or Corps will be counted and charged for as *one* word, irrespective of the number of words used. For instance, in a telegram addressed to "Capt. Brown, 2nd Field Battery, Royal Artillery, Shanghai," the number of words to be charged for will be *four* only, instead of *eight* words as usual.

II. Notification No. 34, dated the 22nd November, 1900, is hereby cancelled.

Calcutta, the 7th March, 1901.

No. 47.—The following revised notification is published for general information:—

The Post Master General, London, announces that the British Government have decided to suspend at Aden and the Cape of Good Hope the transmission of all telegrams in Code or cipher, whether of Foreign Governments or private persons, to or from British Central Africa, St. Helena and Ascension. Telegrams in plain language are subject to censorship and can only be accepted at the risk of the sender.

Code messages for the following places, *vis.*, Cape Colony, Natal, Rhodesia, Zanzibar, Seychelles, Mauritius, Madagascar, British and German East Africa, Mozambique and Lourenco Marques may, however, be accepted, if the words used are in one or other of the following Code Books, which have been deposited with the authorities at Aden, *vis.* :—

- (1) A B C (4th edition).
- (2) A Z.
- (3) Scott's (9th edition).
- (4) A I.
- (5) Telegraphenschlüssel of W. Staudt and O. Hündius (published by Julius Springer at Berlin).
- (6) The Mercur Code (2nd edition), enlarged and revised, with the First Supplement.
- (7) Broomhall's Comprehensive Cipher Code.
- (8) Western Union Telegraphic Code and International Cable Directory, Universal Edition, 1900.
- (9) Atlantic Cable Directory of registered addresses and Directory Code, 1898.
- (10) Atlantic Cable Directory of registered addresses and Directory Code 1900.
- (11) Watkin's Telegraphic Code with Appendix (17th edition), 1900.
- (12) International Mercantile Telegraph Code (Meyer), 1880.
- (13) The General, Commercial, and Mining Telegram Code, 1897, by C. A. Moreing and F. C. McCutcheon.
- (14) Bedford McNeill's Mining and General Telegraphic Code 1899.

Telegrams should be endorsed to the effect that the words used actually represent the corresponding expressions given in the above-named Code Books.

As delays occur at Aden in consequence of the difficulty of determining which Code has been employed, senders of telegrams to the above-named places in East and South Africa should write on the message draft the name of the Code employed. For instance A B C; A Z; Scott's; A I; Staudt; Mercur; Broomhall's; Directory; Atlantic, 1898; Atlantic, 1900; Watkin's; Meyer; McCutcheon; or McNeill. This information will be included in the "Official Instructions" and transmitted free of charge.

II. Notification No. 39, dated the 13th December, 1900, is hereby cancelled.

No. 47-A.—In the event of the establishment in British India of a censorship over telegrams, the first twelve Code Books mentioned in Notification No. 47, dated the 7th of March, 1901, will be used in India for purposes similar to that for which they are employed in Aden.

The public are recommended to provide themselves with such of the Codes as may appear suited to their requirements.

Simla, the 16th April, 1901.

No. 1.—Offices reported opened and closed during the month of March, 1901.

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

N.B.—The Revised prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than Resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal 8vo., with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

Section	I. Building Materials (1898), Rs. 2-0.
"	II. Masonry (1898), Rs. 1-4.
"	III. Carpentry (1898), Rs. 1-8.
"	IV. Earthwork (1892), Rs. 1-4.
"	V. Tools and Plant (never published).

VOLUME II.*

Section	VI. Buildings (1899), Rs. 1-4.
"	VII. Bridges (1897), Rs. 4-4.
"	VIII. Roads (1897), Rs. 1-8.
"	IX. Railways (1891), Rs. 1-4.
"	X. Irrigation Works. (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol.	I. Direct and Transverse Strain, principally by Analytical Methods. Rs. 7.
"	II. The Stability of Structures, mostly by Graphic Methods. (In the Press.)

MANUALS.

- VII. Surveying (by Major Firebrace, R.E., 17th edition with Curve Tables). Rs. 3.
- XIII. Drawing (by Lieut. R. Pufford R.E.). Rs. 6
- XIIIa. Drawing, First Principles of Geometrical (by do.). Rs. 1-4.
- XIV. Simple Applied Mechanics (3rd edition), Parts I and II in one. Rs. 1-8.
- Simple Applied Mechanics, Part II (1st edition) Rs.
- XV. Examples of Estimating. Comprising a progressive series of Estimates (with Plans of Buildings and Bridges worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). Rs. 12.
- XVI. Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. Rs. 1.
- XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6d.

N.B.—The complete Treatise forms the course of the Civil Engineer and Upper Subordinate classes at the Thomason College in Civil Engineering. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. 4s.
- Scantlings of Timber for Roofs. Tables and investigation of formula for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 30 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. 12s.
- Notes on Chemistry of Building Materials. Rs. 1-8.
- Tate's Mechanism. Rs. 1.
- Barman's Descriptive Mineralogy. Rs. 2-4.

* Date of Edition on sale.

† Originally published at Rs. 15, reduced to Rs. 6.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs as well as of Sawn Timbers with Tables, etc. By Rai Kunhya Lal. Rs. 2-8.

O'Callaghan's Earthwork Tables for India. In one large sheet, 12s.; mounted on cloth and bound. Rs. 1-12

Tables for Computing Earthwork in Distributaries and small open Channels in use in Irrigation Department, N.W. Provinces. 12s.

Tyndall's Hand-Book of Specifications. (In the Press.)

The Indian Engineer's Pocket Book. Rs. 1.

Wooden Bridges and Designs. By Rai Kunhya Lal. (In the Press.)

**J. CLIBHORN, Lieut.-Col., I.S.C.,
Principal, Thomason Civil
Engineering College, Roorkee.**

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1899, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.
For the Complete Series, including postage. R22-8

	Without postage.	With postage.
	R a. p.	R a. p.
For the Calcutta Series	10 0 0	12 8 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately, inclusive of postage in India	...	2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mo/usail.
	R a. p.	R a. p.
For the Calcutta Series; per copy	0 8 9	0 10 0
" each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 5 9
" the Calcutta series. For the year	7 2 6	8 6 3
" each of the Madras, Bombay, and Allahabad Series. For the year	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras.

The Superintendent, Government Central Press, Bombay.

The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.

Orders and subscriptions for 1899 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	Half page.	Quarter page.
	R a. p.	R a. p.	R a. p.
For one issue	20	14	9
" three issues	55	36	24
" six "	100	68	45
" nine "	145	96	64
" twelve "	180	120	80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
	R a. p.	R a. p.
Bengal Law Reports, for one year	20 0 0	22 8 0
Sing. copies, R2 per copy.		
Full Bench Rulings, Parts I and II	20 0 0	22 8 3

Bengal Secretariat Book Depot, Writers' Buildings, Calcutta. Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, APRIL 20, 1901.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTES.

Stolen in 1898.

The Government Promissory Note, No. 010397, of the reduced $3\frac{1}{2}$ per cent. of 1854-55 for Rs. 500 (five hundred), originally standing in the name of Mr. G. K. Sinclair, proprietor, by whom it was never endorsed to any other person. Payment of the above note and interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, Calcutta, since the year 1898, and application has been made for the issue of a duplicate in favour of the undersigned.

G. K. SINCLAIR,
Proprietor and Government Pensioner.

Lost.

The Government Promissory Note No. 040931 and 049951 of the $3\frac{1}{2}$ per cent. of 1865 aggregating Rs. 1,500 originally standing in the name of Raj Lakshmi Debi, Executrix of Ishan Chandra Chatterji and the proprietress by whom they were never endorsed to any other person. Payment of the above Notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favour of the proprietress.

Name of the Advertiser—R. L. DEBI,
C/o BABU GOPAL CHUNDER MUKERJEE,
Bulloram Sircar's Lane, Bhutpara.

Destroyed by fire.

The Government Promissory Note No. 012267 of the $3\frac{1}{2}$ per cent. of 1879 for Rs. 1,000 originally standing in the name of Peroshaw Pallonjee, the proprietor by whom it was never endorsed to any other person. Payment of the above Note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favor of the proprietor.

PEROSHAW PALLONJEE,
Government Mail Contractor, Mysore

MYSORE,
12th March 1901.

Estate, Henry Berners, deceased.

Notice is hereby given that all creditors and other persons having any claims against the estate of the deceased abovenamed are hereby requested to send in writing the particulars thereof to the undersigned on or before the 1st day of May next after which date the undersigned will distribute the assets of the estate of the said deceased amongst the parties entitled thereto having regard to the claims of which he has then had notice.

And notice is hereby further given that the undersigned will not be liable for the assets or any part thereof so distributed to any person of whose claim he shall not have had notice at the time of such distribution.

HENRY CHARLES BEGG,
Executor of the will of the deceased,
12 Mission Row, Calcutta.

Dated this 1st day of April, 1901.

SANDERSON & Co.,
Attorneys.

**Estate, Henry John Fleming
Morison, deceased.**

Notice is hereby given that all creditors and other persons having any claim against the estate of the deceased abovenamed are hereby requested to send in writing the particulars thereof to the undersigned on or before the 8th day of May next after which date the undersigned will distribute the assets of the estate of the said deceased amongst the parties entitled thereto having regard to the claims of which he has then had notice.

And notice is hereby further given that the undersigned will not be liable for the assets or any part thereof so distributed to any person of whose claim he shall not have had notice at the time of such distribution.

D. A. CAMPBELL,

*Administrator of the estate of the deceased,
12 Mission Row, Calcutta.*

Dated this the 8th day of April, 1901.

SANDERSON & CO.,

Attorneys.

SUPPLEMENT TO
The Gazette of India.

No. 16.} CALCUTTA, SATURDAY, APRIL 20, 1901.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

No. 1649-I. B.—The Governor General in Council is pleased to invest Mr. J. R. Tregear, Superintendent of Police, Bombay, Baroda and Central India and Rajputana-Malwa Railways, and Magistrate of the first class, Rajputana-Malwa Railway, with powers under sections 133, 144, 186, 190 [except as regards clause (1) (c)], 260 and 524 of the Code of Criminal Procedure, 1898 (Act V of 1898), and with power to hold inquests under section 174 of the said Code. The said powers shall be exercised within the sections of the Rajputana-Malwa Railway system mentioned in the schedule to the notification of the Government of India in the Foreign Department, No. 326-I., dated the 24th January, 1896, as altered by the like notification, No. 3206-I. B. dated the 25th November, 1898, and the following portions of the first notification, *viz.*,—

(a) the proviso to clause (2),

(b) clause (3), and

(c) clause (4)

shall apply as if the said powers had been conferred by that notification.

No. 1655-I. B.—The Governor General in Council is pleased to invest Mr. O. C. G. Hayter, Assistant Superintendent of Police, Rajputana-Malwa Railway, and Magistrate of the second class, Rajputana-Malwa Railway, with powers under clauses (1) (a) and (b) of section 190 of the Code of Criminal Procedure, 1898 (Act V of 1898), to take cognizance of offences. The said powers shall be exercised within the sections of the Rajputana-Malwa Railway system mentioned in the schedule to the notification of the Government of India in the Foreign Department, No. 326-I., dated the 24th January, 1896, as altered by the like notification No. 3206-I. B., dated the 25th November, 1898, and the following portions of the first notification, *viz.*,—

(a) the proviso to clause (2),

(b) clause (3), and

(c) clause (4)

shall apply as if the said powers had been conferred by that notification.

No. 651-E.A.—The following Order of His Majesty the King in Council, which appeared in the *London Gazette* of the 15th February, 1901, is republished for general information: Extract from the *London Gazette* of Friday, February 15th, 1901:

ORDER IN COUNCIL.

THE PERSIA (REGULATIONS) ORDER IN COUNCIL, 1901.

Saint James's, 9th February, 1901.

At the Court at *Saint James's*; the 9th day of *February*, 1901.

PRESENT :

The King's Most Excellent Majesty.

Lord President.
Duke of Marlborough.
Earl of Jersey.
Earl of Elgin.
Earl of Dartmouth.
Earl Waldegrave.
Earl of Cranbrook.
Viscount Llandaff.
Lord Belper.
Mr. Ritchie.
Sir Edmund Monson.
Sir Frank Lascelles.
Sir Fleetwood Edwards.
Sir Francis Plunkett.
Sir Mortimer Durand.
Sir Dighton Probyn.

WHEREAS by Treaty, capitulation, grant, usage, sufferance, and other lawful means, His Majesty the King has jurisdiction in the territories and places within the limits of "The Persia Order in Council, 1889," and "The Persian Coast and Islands Order in Council, 1889," respectively referred to in this Order as the "Persia Order" and the "Persian Coast Order":

Now, therefore, His Majesty, by virtue and in exercise of the powers in this behalf by "The Foreign Jurisdiction Act, 1890," or otherwise in His Majesty vested, is pleased, by and with the advice of His Privy Council, to order, and it is hereby ordered as follows, that is to say:

1. This order may be cited as "The Persia (Regulations) Order in Council, 1901."

2. This Order shall apply to all places within the limits of the Persia Order and the Persian Coast Order respectively, and the expressions "the Order" and the "Consul-General" shall be construed as applying to each of the said Orders as the case may require.

3. The Consul-General may make and alter regulations (to be called King's Regulations) for the following purposes, that is to say:

(1) For securing the observance of any Treaty for the time being in force relating to any place within the limits of the Order, or of any native or local law or custom, whether relating to trade, commerce, revenue, or any other matter.

(2) For the peace, order, and good government of British subjects or British-protected persons (so far as subject to the Order) within the said limits, in relation to matters not provided for by the order.

(3) For requiring returns to be made of the nature, quantity, and value of articles exported from or imported into places within those limits by or on account of British subjects or British-protected persons, and for prescribing the times and manner at, or in which, and the persons by whom such Returns are to be made.

(4) For the governance, visitation, care and superintendence of prisons.

4. King's Regulations may provide for forfeiture of any goods, receptacles, or things in relation to which, or to the contents of which, any breach of the Regulations is committed.

5. King's Regulations shall not take effect until they are allowed by a Secretary of State : provided that in case of urgency declared in any such Regulations, the same shall take effect before such allowance, and shall continue to have effect unless and until they are disallowed by the Secretary of State, and until notification of such disallowance is received and published by the Consul-General, and such disallowance shall be without prejudice to anything done or suffered under such Regulations in the meantime.

All King's Regulations shall be published by the Consul-General in such manner and at such places as he may think proper.

6. Any person committing any breach of the Regulations shall, in addition to any forfeiture prescribed thereby, be punishable with imprisonment, which may extend to three months, or to a fine, or to both.

7. Any fine imposed for a breach of the Regulations shall not exceed £100 in the case of places within the limits of the Persia Order, or 1,500 rupees in the case of places within the limits of the Persian Coast Order : provided that, in the case of any breach of any native or local law relating to the customs, or under which the exportation or importation of any goods is prohibited or restricted, the fine may extend to a sum equivalent to treble the value of the goods in relation to which the breach is committed.

8. In this Order "breach of the Regulations" includes the breach of any native or local law or custom, the observance of which is required by any King's Regulations.

9. Article 290 of the Persia Order, and Article 49 of the Persian Coast Order, are hereby repealed ; but nothing in this Order shall affect the validity of any Regulations made under those Articles, until superseded or replaced by Regulations made hereunder, or the enforcement of any penalty for any breach of such Regulations while in force.

10. This Order shall come into operation on the day on which it is first publicly exhibited in the office of the Consul-General.

A. W. FitzRoy.

H. S. BARNES,

SEPARATE REVENUE.
POST OFFICE.

The 22nd April, 1901.

No. 2178-S. R.—In exercise of the powers conferred by Chapter IX of the Indian Post Office Act, 1898 (VI of 1898), the Governor General in Council is pleased to cancel rule 113 of the rules published in the notification in this Department, No. 1429-C. S. R., dated the 30th March 1899.

LEAVE AND APPOINTMENTS.

The 24th April, 1901.

No. 2211-P.—Mr. C. W. C. Carson is posted temporarily as Deputy Accountant General, Bengal, with effect from the 5th of April 1901.

No. 2219-P.—Mr. J. Cornwall is appointed to be Post Master General, North-Western Provinces and Oudh, with effect from the 11th of April 1901 and until further orders.

The 25th April, 1901.

No. 2243-P.—The following promotion and appointments are made in the Postal Department, with effect from the 20th of April 1901, *vice* Mr. W. J. Ham, retired:

Mr. E. A. Doran, 1st Assistant Director General of the Post Office to be Postmaster General, 2nd grade, and to hold the appointment of Deputy Director General,

Mr. W. F. Cockell, 2nd Assistant Director General of the Post Office, to be 1st Assistant Director General,

Mr. G. A. T. Bennett, 3rd Assistant Director General of the Post Office to be 2nd Assistant Director General, but to continue to officiate as a Deputy Postmaster General, 3rd grade,

Mr. H. C. Sheridan, officiating 3rd Assistant Director General of the Post Office, to be confirmed in that appointment and to officiate as 2nd Assistant Director General, *vice* Mr. G. A. T. Bennett, and Mr. Knox Homan, Superintendent of Post Offices; 1st grade, to officiate as 3rd Assistant Director General of the Post Office, *vice* Mr. H. C. Sheridan.

SEPARATE REVENUE.
ASSESSED TAXES

The 23rd April, 1901.

No. 2180-S. R.—In exercise of the powers conferred by section 6 of the Income-tax Act, 1886 (II of 1886), the Governor General in Council is pleased to direct that the following shall be substituted for clause (A) (8) of the Notification of the Government of India in the Department of Finance and Commerce; No. 2762, dated the 6th June 1890:

"(8) Interest on securities of the classes indicated in Part III of the second schedule to the Act, which are held by, or are the property of, a Service Fund or a Friendly Society."

Explanation.—For the purposes of this exemption, a "Service Fund" is a fund established under the authority, or with the permission, of the Government for the purpose of securing deferred annuities to the subscribers, or payments to them in the event of their resignation or dismissal from the service in which they are employed, or provision for their wives or children after their death, or payments to their estate or their nominees upon their death, to which the servants of the Government, or of a Local Authority, or of a Railway Company, are alone admissible as subscribers or members, and the funds of which are either deposited with the Government or invested in Government Securities; and a "Friendly Society" is a mutual association established for the purpose of securing deferred annuities to the subscribers, or provision for their wives or children after their death, or payments to their estate or their nominees upon their death, in which the payment which may be made in respect of any one nominee does not exceed either a single payment of Rs. 3,000 or an annual payment of Rs. 500.

NOTE.—The East Indian Railway Savings Bank shall be deemed to be a "Service Fund" within the meaning of this exemption.

SEPARATE REVENUE.
EXCISE.

The 26th April, 1901.

No. 2256-Ex.—In continuation of the notifications cited on the margin and in exercise of the powers conferred by section 5 A of the Scheduled Districts Act, 1874 (XIV of 1874, as amended by XII of 1891), the Governor General in Council is pleased to direct that section 19-A of the Bengal Excise Act, 1878 (Bengal Act VII of 1878, amended by Bengal Act I of 1883), as extended to Assam, shall be read as if for the first twenty-three words the following words were substituted, namely :

"In respect of exciseable articles manufactured beyond the limits of the territories for the time being administered by the Chief Commissioner of Assam."

J. F. FINLAY,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Weather Review of India for the Week ending at 8 a.m. on
Saturday, the 20th April, 1901.**

The depression in Upper Sind, North Rajputana and the South Punjab at the close of the previous week gave light to moderately heavy rain in the Upper India hills and the Punjab. On Sunday morning Murree reported a fall of 2.42 inches, Srinagar 1.25 inches and Rawalpindi 1.09 inches. The depression advanced eastwards and on Monday was merged into the low pressure area lying along the Central and Eastern Himalayas, which had been a persistent feature in the pressure conditions since the 7th April. During the week under review this low pressure area has changed slightly in position and intensity from day to day, but it was not till the end of the week that an important alteration in its position occurred rendering conditions more favourable for thunderstorms in Bengal. During the remainder of the week the thunderstorms reported from North-East India occurred chiefly in Assam. More rain has been received in the Surma Valley this week than since the commencement of the present rainfall period on 3rd March. On Sunday Silchar reported a heavy fall of 4.50 inches, on Monday one of 1.94 inches and on Thursday another of 0.94 inch, the total rainfall of the week at this station amounting to 8.31 inches, while at Cherra Poonjee it amounted to 20.83 inches.

Pressure changes have been large and irregular in the Punjab. On Tuesday the barometer fell rapidly to very rapidly in the West and Central Punjab and the Kashmir Himalayas and a deepish depression was shewn lying close to the hills in the Central Punjab, where pressure was nearly a quarter of an inch in defect. Strong winds and gales were reported in the plains and hills of the Punjab, but the depression gave practically no rain and filled up completely by Wednesday morning. A similar but shallow depression formed in the Punjab on Friday.

A very rapid fall of temperature occurred in the West and Central Punjab on the 14th which was probably partly due to the rainfall given by the depression lying over the South Punjab at the close of the previous week, but temperature had also fallen very rapidly in Baluchistan, where no rain had fallen, and it continued in abnormally large defect in Baluchistan, the Upper India hills, the Punjab and adjacent districts throughout the week. A telegram has been received from the Superintendent of the Meteorological Observatory at Chitral, dated 23rd April, stating that heavy snowfall occurred in the regions to the north of Chitral during the previous week. The abnormal temperature conditions in North-West India are hence probably due to this heavy snowfall.

Rain.—The rainfall of the past week has been in excess of the normal in Assam, where the average fall amounted to 5.07 inches in the Surma division, 3.96 inches in the Hills division and 2.91 inches in the Brahmaputra division.

Rainfall in the remaining divisions has been comparatively light, but it has been equal to, or in excess of, the normal in Deltaic and Central Bengal, Orissa, Chota Nagpur, the Punjab (except the south-east and hills divisions), the Konkan, the Bombay Deccan and the east division of the Central Provinces.

The largest amounts received at individual stations are the following :—

Assam	Cherra Poonjee	20·83 inches.
	Karimganj (Sylhet)	11·49 „
	Dibrugarh	9·68 „
	Silchar	8·31 „
	Jorhat (Sibsagar)	4·08 „
Punjab	Murree	3·98 „

The last three columns of the table at the end show that the rainfall of the period commencing on 3rd March has been in defect over the whole of Burma and North-East India, except in Chota Nagpur and the east and east submontane divisions of the North-Western Provinces, where it has been practically normal or in excess. The actual defect in the Surma Valley amounts to 9·16 inches or 49 per cent. of the normal fall. In North-West and Central India rain has been normal or in excess in the submontane, hills, north and west divisions of the Punjab, Gujarat, Central India (East) and the Central Provinces and Berar. In the Peninsula rainfall has been in defect, except in Malabar, the Konkan, the Bombay Deccan, Khandesh and South Madras.

W. A. BION,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. B. FULLER,

Offg. Secretary to the Government of India.

SIMLA, 25th April, 1901.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the 27th April 1901.

Madras.—The rainfall was moderate in Travancore and light or *nil* elsewhere. Water-supplies are insufficient in parts of Golavari, the Deccan, the Carnatic, the Central, Madura and West Coast districts. Ploughing, sowing and transplanting are going on in parts. Standing crops generally are in fair condition, but some need rain in parts of North Arcot, Coimbatore and Tanjore. *Ciulam* in parts of Cuddapah has been blighted by disease. Harvests of late crops continue on small areas with generally moderate outturn. Pasture is scanty, except in the Circars generally and in parts of the Southern and the Nilgiris districts, but fodder generally is available. The condition of cattle generally is good. Prices have slightly risen in some districts; elsewhere they are stationary or slightly easier. The prices of some or all of the dry staples in Cuddapah, Anantapur, North and South Arcot and Salem continue above the scarcity rates. Prospects generally are fair. Numbers on relief—Cuddapah—Test-workers—men, 940; women, 1,059; children, 22, total, 2,021. Weavers—men, 1,726; women, 1,301; total, 3,087. Grand total, 5,108.

Bombay.—Slight rain fell during the week in parts of Belgaum, and there was a very slight fall in parts of Ratnagiri, Ahmednagar, Bijapur, Dharwar and Kanara. Agricultural prospects are good in Sindh, fair to good in the Konkan and in parts of Kaira, Broach, Surat, Khandesh, Poona and Satara and moderate to poor elsewhere. Standing spring crops have been damaged by rats or insects in parts of Sindh and generally are suffering from want of moisture, except in irrigated lands. Reaping of spring crops has been completed in Ahmedabad, is nearly over in the Panch Mahals, Thana, Kolaba and Ratnagiri and is progressing in other districts of Gujarat and in parts of Sindh, the Deccan and the Konkan. Threshing is in progress in parts of Shikarpur, the Upper Sindh frontier, Broach and Nasik. Cotton-picking is almost completed in Dharwar and continues in parts of Broach, Surat, Baroda and Rajkot. Lands are being prepared for next season in Shikarpur, Surat, the Konkan, the Karnatak and the Deccan. The fodder-supply generally is sufficient, except in parts of Bijapur and Dharwar. Agricultural stock generally is in good condition. The water-supply is becoming deficient in parts of Ahmednagar, Nasik, Poona, Belgaum and Dharwar. Prices have fallen in eight districts, risen in two districts and are stationary elsewhere. The price of rice is slightly over normal, but easier than in 1900. The price of *bajri* is below normal in Gujarat, and over normal in the Deccan and the Konkan, and is considerably over normal in the Karnatak and, compared with 1900, is easier in the Konkan and the Karnatak and considerably easier elsewhere. The price of *juar* is below normal in Gujarat and considerably over normal in the Deccan, the Konkan and the Karnatak and, compared with 1900 is easier in the Konkan and the Karnatak and considerably easier in the Deccan and Gujarat. The price of wheat is over normal in Gujarat and the Konkan and considerably over normal in the Deccan and the Karnatak and, compared with 1900, is about the same in the Konkan and the Karnatak and easier elsewhere.

Daily average numbers on relief—British districts—on test works, 3,539; on relief works, 188,500; dependants, 25,321; total on works, 217,860. In poor-houses, 1,001; on village relief, 55,259; total on gratuitous relief, 60,260. Figures for Ahmedabad, Sholapur, Nasik, Belgaum and Dharwar are incomplete. Native States—on relief works, 17,073; dependants, 7,103; total on works, 24,176. In poor-houses, 990; on village relief, 933; total on gratuitous relief, 1,923. Figures for Aundh and Phaltan are incomplete. Grand total, 304,219.

Bengal.—There was rain in almost all the districts of Bengal proper, Orissa and Chota Nagpur and it has been of benefit for ploughing operations which are being pushed on, but more rain is still wanted in several districts. Prospects have improved by recent rains. Fodder and water generally are sufficient. The price of common rice has risen in sixteen districts, fallen in five and is stationary in the rest.

North-Western Provinces and Oudh.—The weather was generally clear during the week. The gathering of spring crops and threshing and winnowing are in active progress. Standing crops are doing well. Slight damage by hail is reported from one tahsil of the Kheri district. Sowing of sugarcane continues in a few places. Newly sown sugarcane has been injured by insects in parts of Azamgarh. Opium weighments are still going on. Markets are well supplied and fodder is ample. Prices continue to show a falling tendency.

Punjab—Slight showers of rain have fallen in parts of Amballa, Mooltan, Lahore and Amritsar. Good rainfall is reported from Shahpur and Rawal Pindi. Harvesting of spring crops is still in progress. Sowing of cotton and sugarcane are nearly completed. Extra spring crops are still being sown in Dera Ismail Khan. Threshing of spring crops has been commenced in Hissar, Amritsar and Sialkot. Standing crops are flourishing. The outturn of spring crops is reported to be fair in Amballa, average in Jullundur, much above average in Ferozepore and good elsewhere. Locusts appeared in three tahsils of the Rawal Pindi district, but did no damage. They laid eggs in two tahsils and measures were taken to destroy them. Spring crops are reported to have been damaged by a hailstorm in parts of Dera Ismail Khan. The condition of cattle is generally good. Pasturage fodder is said to be sufficient in all districts, except in parts of Mooltan. Owing to the fresh supply from the current year's harvest being brought into the market, the prices of wheat and gram are generally falling. A rise in the price of the former staple is reported only from Amballa, Mooltan and Peshawar. The prices of other food-grains are also giving way. Wheat is selling from 10 $\frac{1}{2}$ to 17 seers, gram 15 $\frac{1}{2}$ to 25, maize 16 to 36 and bulrush millet 20 to 31 seers per rupee.

Burma—**LOWER BURMA:** The reaping of dry weather paddy is now completed in Tavoy. **UPPER BURMA:** Reaping of dry weather paddy is completed in Myingyan and has been commenced in the Patheingyi township of the Mandalay district. In Upper Chindwin the paddy has come into ear. Harrowing and ploughing for cotton and sesamum has been commenced in Sagaing. Plucking of tobacco leaves is progressing in Pak okku, Magwe, Mandalay and Myingyan. The state of standing crops continues unchanged. The price of paddy has risen slightly in Rangoon, Tharrawaddy and Kyaukse and fallen in Thongwa, Toun-goo and Mandalay.

Central Provinces.—The weather was hot and occasionally cloudy, with slight rain in Bilaspur and Sambalpur. Harvesting of spring crops has been completed, except in Chanda, Bhandara and Chhindwara, where a little still remains to be done. Threshing and winnowing is in progress generally in Betul, except in the portion affected by hail. Wheat promises a good outturn in Mandla. The outturn is estimated at 90 in Chanda. *Ringri* (cold weather) *juar* is estimated to yield from 45 to 60 per cent. *Mahua* is giving a good crop in Saugor, Chanda and Bhandara. The preparation of land for summer sowings continues. The fodder supply generally is sufficient, but is becoming scanty in Sambalpur. Prices have fluctuated but slightly there being no appreciable rise or fall. The cheapest prices are—wheat, 14; gram, 16 $\frac{1}{2}$; rice, 13 $\frac{1}{2}$; and *juar* 20 seers per rupee. The dearest prices are—wheat, 8 $\frac{1}{2}$; gram, 11; rice, 8; and *juar* 15 seers per rupee. There are still five persons on relief in the Saugor pocr-house. In Balaghat there are 805 persons on village relief and 55 in pauper wards; total, 865.

Assam.—Rain fell in all districts. More rain is wanted in Goalpara and Kamrup. The pressing of sugarcane is nearly finished. The outturn is good in Lakhimpur and fair in other districts. The plucking of tea is in progress. Prospects are fair. Ploughing for and sowing of early and late rice continue. Sugarcane is being planted in some places. The sowing of jute is in progress in Sylhet, Goalpara and the Garo hills. Reaping of lowland transplanted rice has been commenced in Sylhet. Fodder and water are scarce in the Garo hills and in parts of Sylhet and the Khasi and the Jaintia hills. Water is insufficient in parts of Darrang and Nowgong. Prices—common rice—Silchar, $12\frac{1}{4}$; Sylhet, Dhubri, Nowgong and Dibrugarh, 10; Gauhati and Sibsagar, 11; and Tezpur, $10\frac{1}{8}$ seers per rupee.

Mysore.—No rain fell in the Civil and Military station. The rainfall was good in parts of Shimoga, Kadur and Mysore. Standing crops are in good condition throughout, except in some parts of Shimoga and Chitaldrug. Prospects are good in Mysore, Kadur and Kolar, and fair in Bangalore and Hassan. Paddy and *ragi* are being harvested in some parts, and in other parts sugarcane is being sown. Prices are steady in Mysore, Tumkur and Chitaldrug, have risen in Shimoga and Kolar and in parts of Bangalore, Kadur and Hassan and have fallen in other parts of Bangalore, Kadur and Hassan. Cattle are healthy, except in parts of Chitaldrug. Water and fodder are available, except in a few parts of Tumkur and Hassan and in Chitaldrug, and some parts of Bangalore, Mysore and Shimoga, where water is getting scarce.

COORG : The rainfall amounted to 26 cents. Ploughing for rice has been commenced and for *ragi* continued. Prices of food-grains are normal. Water and fodder are sufficient.

Berar.—The weather was warm. Ploughing operations continue. Fodder and water are adequate to wants. Prices are fluctuating.

Hyderabad.—The rainfall during the week was 2 cents. The total from 1st January is two inches five cents. The winter rice harvest continues. Fields are being cleared for next sowing season. Cattle are in good condition. The water supply is diminishing in parts. Prices—wheat, $5\frac{1}{8}$; coarse rice, $7\frac{1}{8}$; *juar*, 14 seers per *halli* rupee. Numbers on relief—works, 8,597; gratuitously relieved, 10,799; total, 19,396.

Rajputana.—Agricultural operations are satisfactory. Standing crops generally are in good condition. Harvesting and threshing of spring crops continue. Cattle are in good condition. Fodder is ample. The cheapest prices range from 15'15 to $32\frac{3}{8}$ seers per rupee. Number on gratuitous relief, 211.

Central India.—No rain fell in the Agency during the week. Agricultural operations have been completed in Bundelkhand and Baghelkhand, and are in progress elsewhere. Standing crops generally are in good condition. The probable outturn is below expectations in Baghelkhand, but good elsewhere. Crops have been damaged by rust in Bundelkhand, and by drought in Malwa. The condition of opium generally is good. Agricultural stock is in bad condition in parts of Malwa, but good elsewhere. Prices of food-grains are falling in Gwalior, Malwa and Indore, are steady in Bhopal, normal in Bundelkhand and below average in Baghelkhand. Average prices—in Gwalior, 16'2 to 29; in Bundelkhand, $19\frac{1}{2}$ to $23\frac{1}{4}$; in Malwa, 18; in Bhopawar, $16\frac{1}{2}$; in Indore, 7 to 20 seers per rupee. Numbers on relief—Jaora—gratuitous, 67; on Jobat, Alirajpur, Jhabua and Amjhera relief works, 4,120; total, 4,187.

Baroda.—Agricultural stock fair. Prices—*bajri*, 34; *juar*, 36; wheat, 24; rice, superior, 13; inferior, 23 pounds per rupee. Numbers on relief works, 13,752; gratuitous relief, 5,428; total, 19,180.

Kashmir.—The weather was unsettled and mostly rainy. Prices are normal, rice selling for 24 seers the rupee. **JAMMU PROVINCE:** No rain fell. Standing crops are good. The cutting of spring crops is in progress. Fodder is sufficient. Prices are stationary, wheat selling from 10 to 17 and maize from 24 to 26 seers per rupee.

Nepal.—There was no rain during the week. The weather is cloudy. The wheat crop is being harvested. The price of rice is 8½ seers per rupee.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table :

J. B. FULLER,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.
(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected District details of the provincial totals published weekly in the Crop and Weather Summary of the *Gazette of India*.
Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns, from persons gratuitously relieved in poor-houses or at their homes. Weavers relieved in their own trade are shown under "Gratuitous relief."
The dates at the head of the table are the dates of the *Gazette of India* in which the Provincial totals were published. The figures, however, actually show the numbers on relief in each preceding week.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 25th April 1901.

NOTIFICATIONS.

No. 1342 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 20th April 1901 :—

No. 167 of 1901.—Chévur Krishnāclār Subba Rāo, Sub-Assistant Director of Agriculture, Madras, Chepauk. *Universal tread power.*

No. 168 of 1901.—Arthur William James, engineer to the Calcutta Landing and Shipping Co., Ltd., residing at 20, Howrah Road, Sulkeah, Howrah, Bengal. *An improved exhaust steam automatic surface condenser.*

No. 169 of 1901.—James Pearson, mechanical engineer, of No. 44, Cumballa Hill, Bombay, British India. *Improvements in tension wheels for carriages and other conveyances.*

No. 170 of 1901.—Henry Ferré, pharmacist, of 18, rue Mogador, Paris, France. *Improved appliance for generating gases suitable for surgical and other purposes.*

No. 171 of 1901.—Ludwig Grote, manager of works of 84B, East India Dock Road, Poplar, London, England. *Improvements in or relating to machinery for manufacturing glass bottles or the like.*

No. 172 of 1901.—Fred Ford Dow, mechanician of the city of Fredericton, county of York, in the province of New Brunswick, Canada. *Improvements in burners for heating purposes.*

No. 173 of 1901.—Fred Ford Dow, mechanician, of the city of Fredericton, county of York, in the province of New Brunswick, Canada. *Improvements in tree felling machines.*

No. 174 of 1901.—Eysen-Packer Defibrator Company, a corporation organized under the laws of the state of New Jersey and having an office at 60, Grand Street, city of Jersey City, county of Hudson, state of New Jersey, U. S. A. *A machine for defibrating ramie and other fibrous plants.*

No. 175 of 1901.—Joseph Führer, clerk, of 5, Marokkaner Strasse, Vienna, in the Empire of Austria. *Improvements in explosives.*

No. 176 of 1901.—Philip Tocque Johnstone, cashier, of Merledene, Broad Road, Sale, in the county of Chester, England. *Improvements in bale ties or fasteners and appliances for operating same.*

No. 177 of 1901.—Thomas Hammill Hicks, physician, of No. 48, Brackenridge Street, and Samuel Rockwell Alden, lawyer, of No. 160, West Berry Street, both of Fort Wayne, county of Allen, state of Indiana. *Improvements in apparatus for recovering amalgamable metals and arsenic from ores.*

No. 178 of 1901.—John Herbert Hicton Rolfe, engineer, of 63, Old Street London, E. C. *Improvements in the manufacture of compressed tea.*

No. 179 of 1901.—Frank Edmund Winsland, engineer, and George Ernest Moore, engineer, both of Joyhing Tea Estate, North Lakhimpur, Upper Assam. *Improvements in apparatus suitable for packing tea.*

No. 180 of 1901.—M. Judah, mica merchant, residing at No. 40, Radhabazar Street, Calcutta. *Improvements in sunproof mica hats.*

No. 181 of 1901.—Archibald A. Crawford, engineer, residing at No. 9, Meadows Street, Bombay. *An automatic switch for 'electric current' denominated "Crawford's automatic switch."*

No. 182 of 1901.—James Begg, tea planter, of Hoolungoric Tea Estate, Assam. *A new or improved machine for artificially withering tea leaf.*

No. 183 of 1901.—Frank Harrison, engineer, of 99, Clive Street, Calcutta. *A pankah-pulling apparatus or machine to be driven by power (preferably by an electric motor.)*

No. 1343 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

- No. 155 of 1891.—The Vacuum Brake Company, Limited. *Improvements in or applicable to automatic vacuum brake apparatus.* (From 1 October 1901 to 1 October 1902.)
- No. 33 of 1892.—George Perfect. *Improvements in sugarcane crushing mill rollers.* (From 17 April 1901 to 17 April 1902.)
- No. 119 of 1892.—The Central Cyclone Co., Ltd. *Improvements in and relating to apparatus for pulverising or disintegrating grain and other dry substances.* (From 29 April 1901 to 29 April 1902.)
- No. 129 of 1892.—The Vacuum Brake Co., Ltd. *Improvements in or applicable to automatic vacuum brake apparatus.* (From 1 August 1901 to 1 August 1902.)
- No. 298 of 1893.—The Company Daimler Motoren-Gesellschaft. *Improvements in hydrocarbon engines.* (From 27 April 1901 to 27 April 1902.)
- No. 213 of 1896.—Grainger Farwell. *Improvements in typewriting machines.* (From 15 April 1901 to 15 April 1902.)
- No. 205 of 1896.—Charles Edward Middleton, Francis Philip Middleton and Arthur Thomas Middleton. *Improvements in dyeing apparatus.* (From 17 March 1901 to 17 March 1902.)

No. 1344 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

- No. 80 of 1896.—William Silver. *Improvements in railway axle lubricators.* (Specification filed 8 January 1897.)
- No. 163 of 1896.—Vivian Edward DePenning. *An automatic punkah-pulling machine.* (Specification filed 8 January 1897.)
- No. 203 of 1896.—The Firm of Schnek and Köhnberger. *Improvements in or relating to the manufacture of stays or corsets.* (Specification filed 8 January 1897.)
- No. 206 of 1896.—William Herbert Hyatt. *A method for extracting gold without the use of water by means of a combined air blast and mercury and an apparatus for effecting same.* (Specification filed 8 January 1897.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

- No. 189 of 1894.—Richard Clarkson Scott. *Improvements in treating or ageing spirit.* (Specification filed 11 January 1895.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (c) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of Rs 50 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,
Secretary under the Inventions and
Designs Act, 1888.

THE RESIDENT IN MYSORE:

NOTIFICATIONS.

Bangalore, the 17th April, 1901.

No. 1996.—Whereas by the Notification of the Government of India in the Foreign Department, No. 2252-I., dated the 7th August, 1883, the Indian Christian Marriage Act, 1872, was with certain modifications declared to apply to the Civil and Military Station of Bangalore, so far as regards marriages between persons, one of whom is a Native Christian subject of Mysore, and neither of whom is a Christian British subject.

In exercise of the powers conferred by sections 6 and 9 respectively of the Act, the Hon'ble the Resident in Mysore is pleased—

- (a) to grant a license to the Revd. Lorenz Reichards, of the Leipzig Evangelical Lutheran Mission, to solemnize marriages within the territories included in the Civil and Military Station of Bangalore; and
- (b) to grant a license to the said Revd. Lorenz Reichards to grant certificates of marriage within the territories included in the Civil and Military Station of Bangalore between Native Christians, one of whom is a Native Christian subject of Mysore, and neither of whom is a Christian subject of His Majesty.

No. 1997.—In exercise of the powers conferred by sections 6 and 9 respectively of the Indian Christian Marriage Act, 1872 (XV of 1872, as modified by Act II of 1891), and which have been delegated to him by the Governor-General in Council under section 85 of the Act by Foreign Department Notification No. 3747-I. B., dated the 1st October, 1897, the Hon'ble the Resident in Mysore is pleased—

- (a) to grant a license to the Revd. Lorenz Reichards, of the Leipzig Evangelical Lutheran Mission, to solemnize marriages within the territories of Mysore, including the Civil and Military Station of Bangalore;
- (b) to grant a license to the said Revd. Lorenz Reichards, authorizing him to grant certificates of marriage between Native Christians within the said territories.

The powers hereby conferred are to be exercised only so far as regards Christian subjects of His Majesty.

By Order,
L. RUSSELL,
First Assistant Resident.

J. A. MILEY, Colonel,
Accountant General, Military Department.

BANK OF BENGAL.

NOTICE.

The Directors of the Bank of Bengal have granted Mr. W. D. Cruickshank, Secretary and Treasurer, seven months' leave to Europe, and have ordered the following changes in the Bank's European Establishment:—

Mr A. M. Lindsay to officiate as Secretary and Treasurer.

Mr. H. S. Lemon to officiate as Deputy Secretary and Treasurer.

Mr. L. G. Dunbar to act as Agent at Rangoon.

Mr. W. A. Gibbs to act as Sub-Agent, Rangoon, temporarily.

By Order of the Directors,

W. D. CRUICKSHANK,

Secretary and Treasurer.

BANK OF BENGAL;
Calcutta, 26th April, 1901.

ROYAL INDIAN MARINE.

NOTIFICATION.

FURLOUGH AND LEAVE.

Bombay, the 20th April, 1901.

No. 9.—The undermentioned Officer is permitted to proceed on leave out of India on private affairs, under the leave rules contained in paragraph 131, Marine Regulations, India, Volume I, Part II; the specified period to count from the date of being struck off duty:—

Commander C. F. Fletcher, R.I.M., for one year.

W. CHANDLER,
for Director of the Royal Indian Marine.

THE CHIEF COMMISSONER OF
AJMER-MERWARA.

NOTIFICATION.

Abu, the 19th April, 1901.

No. 1807-G.—Assistant Surgeon Baidya Nath Bysack, attached to the Khetri Dispensary, is granted privilege leave for three months, with effect from the 15th April, 1901, or the subsequent date on which he may avail himself of the leave.

By Order,
E. H. BLAKESLEY,
First Assistant to the Governor-General's Agent, Rajputana, and Chief Commissioner, Ajmer-Merwara.

OFFG. CHIEF COMMISSIONER, AJMER-MERWARA.

NOTIFICATION.

Abu, the 8th April, 1901.

No. 436-328.—In exercise of the powers conferred by section 185 of the Code of Civil Procedure (Act XIV of 1882), and under the authority vested in him by section 357 of the Code of Criminal Procedure (Act V of 1898), the Chief Commissioner of Ajmer-Merwara, is pleased to notify that in all civil suits in which an appeal is allowed, and in all criminal cases to which the provisions of section 356 of the Code of Criminal Procedure are applicable, tried by Rao Bahadur Govind Ram Chandra Khandekar, Officiating Assistant Commissioner, Merwara, the evidence of each witness shall be taken down by that officer in the English language only.

By Order,
E. H. BLAKESLEY,

*First Assistant to the Governor General's
Agent, Rajputana, and Chief Commissioner,
Ajmer-Merwara.*

The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,
Offg. Presidency Postmaster, Calcutta.

CIVIL ENGINEERING COLLEGE, SIBPUR.

ENGINEER DEPARTMENT.

SESSION 1901-1902.

Candidates for admission to the Engineer Department should apply to the Principal before the 15th May, 1901. Each application must be accompanied by a registration fee of $\text{Rs. } 1$. The session begins on Monday, the 3rd June, 1901.

Candidates must furnish proof that they have passed one of the following tests :—

- (1) The F. A. Examination of the Calcutta University or a similar standard of any Indian University recognised by the Calcutta University. The candidate's age must be under 21 years.
- (2) The B. A. Examination in the B Course in Physics and Chemistry. The candidate's age must be under 23 years.

In selection of candidates who have passed the F. A. (all other things being equal) preference will be given to those who have passed in Sanitary Science in addition to the ordinary subjects of the F. A. Examination.

The maximum number to be admitted each year is limited to 40. The position in the University Examination and the age of the candidates will be taken into consideration when selection is made, and such selection will be made by the Principal.

The tuition fee for students of the Engineer Class is $\text{Rs. } 10$ a month for each month of the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of Junior or Senior Scholarships. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eye sight.

Further particulars will be supplied on application to the Principal.

J. S. SLATER,

Principal, Civil Engineering College

SIBPUR;

The 9th April, 1901.

CIVIL ENGINEERING COLLEGE, SIBPUR.

APPRENTICE DEPARTMENT.

SESSION 1901-1902.

The date for admission to this department is 3rd June, 1901. Candidates must be at least 15, and not more than 17, years of age.

They must have passed Standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard, so as to reach Principal not later than the 6th May, 1901, together with a registration fee of $\text{Rs. } 1$. No application will be attended to after this date.

The maximum number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest, measurement, fitness for manual labour and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in June. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding $\text{Rs. } 10$. No apprentice will be admitted or re-admitted to the College after the close of the month of June, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be one vacancy on the free list for Christian apprentices in June next, and there will be twenty-one on the reduced

* $\text{Rs. } 5$ per mensem. fee * list. For natives there
* $\text{Rs. } 2$ per mensem, will be at least seven vacancies, possibly more on the reduced fee list.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can, therefore, be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

With the exception of students on the free and reduced fee lists, all apprentices will pay a tuition fee of Rs 3 a month for each month of the year.

Further particulars will be supplied on application to the Principal.

J. S. SLATER,

Principal, Civil Engineering College.

SIBPUR;

The 9th April, 1901.

CIVIL ENGINEERING COLLEGE.

The privilege granted to the B. A. students of the B Course in Government Resolution No. 294, dated the 21st April, 1891, of being admitted direct into the second year class of this College, has been withdrawn under Government Order No. 1626, dated 27th March, 1901. Henceforth these students will be admitted into the first year class of the Engineer Department instead of into the second year class, as at present.

J. S. SLATER,

Principal.

SIBPUR,

The 20th April, 1901.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

Section	I. Building Materials (1898), Rs. 2-0.
"	II. Masonry (1898), Rs. 1-4.
"	III. Carpentry (1898), Rs. 1-8.
"	IV. Earthwork (1892), Rs. 1-4.
"	V. Tools and Plant (never published).

VOLUME II.*

Section	VI. Buildings (1899), Rs. 1-4.
"	VII. Bridges (1897), Rs. 4-4.
"	VIII. Roads (1897), Rs. 1-8.
"	IX. Railways (1891), Rs. 1-4.
"	X. Irrigation Works. (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

- Vol. I. Direct and Transverse Strain, principally by Analytical Methods. Rs. 7.
" II. The Stability of Structures, mostly by Graphic Methods. (In the Press.)

MANUALS.

- VII. Surveying (by Major Firebrace, R.E.) (7th edition with Curve Table). Rs. 3.
XIII. Drawing (by Lieut. R. Pulford, R.E.). † Rs. 6.
XIIIa. Drawing, First Principles of Geometrical (by do.). Rs. 1-4.
XIV. Simple Applied Mechanics (3rd edition), Parts I and II in one. Rs. 1-8.
Simple Applied Mechanics, Part II (1st edition) 8s.
XV. Examples of Estimating, Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). Rs. 3-12.
XVI. Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. Rs. 1.
XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6s.

Notes.—The complete Treatise forms the course of the Civil Engineer and Upper Subordinate classes at the Thomason College in Civil Engineering. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. 4s.
Scantlings of Timber for Roofs. Tables and investigation of formulae for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 36 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. 12s.

Notes on Chemistry of Building Materials. Rs. 1-8.

Tate's Mechanism. Rs. 1.

Barman's Descriptive Mineralogy. Rs. 4.

* Date of Edition on sale.

† Originally published at Rs. 15, reduced to Rs. 6.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawed Timbers, with Tables, etc. By Rai Kunhya Lal. Rs. 2-8.

O'Callaghan's Earthwork Tables for India. In one large sheet, 12s.; mounted on cloth and bound. Rs. 1-12.

Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. 12s.

Tyndall's Hand-Book of Specifications. (In the Press.)

The Indian Engineer's Pocket Book. Rs. 1.

Wooden Bridges and Designs. By Rai Kunhya Lal (In the Press.)

Blasting under Water (2nd edition). 10s.

Waugh's Instructions for Topographical Surveying Rs. 1.

Analysis of Lime and Cement Stones. By Murray Thompson, Esq., M.D., F.R.S.E. 6s.

Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width, very useful for Projects. Rs. 1-6.

SCIENCE BOOKS.

Wilson's Inorganic Chemistry. Rs. 1-8.

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pies into decimals of a Rupee. With a few others of general utility (4th edition). Rs. 1-8.

Boileau's Tables of Log sin* † P (for computing time (4s)).

Cape's Logarithms, with Tables of Squares, Cubes, etc. Rs. 1-4.

Cape's Geometry. Rs. 1-4.

Cape's Mechanics. 8s.

Todhunter's Plane Trigonometry. Rs. 2-8.

Todhunter's Differential Calculus. Rs. 2-8.

Military Topography. 8s.

HINDUSTANI.

Elements of Hindustani Grammar. 8s.

Technical Dialogues—English and Urdu. Rs. 1.

A Vocabulary of Common and Technical Words in English-Urdu. 12s.

History of India (*Itihās Timirnāsah*), Hindi, Parts I and II. Both 6s.

Short Account of Ganges Canal (English and Urdu). Each 4s.

NOTE AND FIELD-BOOKS, etc.

Note Books (Section paper), large. Each Rs. 1-4.

Surveying Field Books (ruled). 12s.

Levelling Field Books (English Pattern). Rs. 1-4.

" " " (Canal ") Rs. 1-4.

" " " (College ") Rs. 2-0.

P. W. D. Note-Book. Rs. 1-4.

" Measurement Book. Rs. 1-4.

Circular Card-board Protractors, 2 inches. Rs. 2.

MISCELLANEOUS.

Distributary, Velocity and Discharge Table. By Capt. Allan Cunningham. 8s.

Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") Rs. 1-8.

Ditto ditto in Urdu. Rs. 1-4.

Perspective (fully explained). By Col. A. M. Brandreth, R.E. Rs. 1-12.

Thomason College Calendars for 1892,* 1895,† 1896† and 1897.† Each Rs. 2.

Ditto ditto for 1898‡ and 1899,† Pt. I. Rs. 3-6.

* This does not contain the Entrance Examination papers of the Superior Accounts Branch, Public Works Department.

† These include question papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

‡ This does not contain the Entrance Examination Papers of the Upper Subordinate Class.

Forms of Accounts, P. W. D., for Sub-Divisional Officers, in English (very old). 4s.

Memo. of Instructions for Road Project. R1.

Project for College Mess (sample Project). 8s.

Ferrotypes Printing Processes. 8s.

Thomason College Library Catalogue. R1-12.

Ditto, Supplement, 1895 to 1899. Each 2s.

Irrigation by Rajbahas.
Irrigation Tract, No. I. } 4s. each.
" " " II. }
" " " III. }

Land Measuring Chain Statement. Area of kucha and pukka Bighas, sheet. 4s.

Report of the Ganges Canal Committee (Major Crofton's Project for remodelling the Ganges Canal according to the views of Major-General Sir Arthur Cotton, R.E., K.C.S.I.), 1866. 8s.

Report of the Ganges Canal. By Captain J. Crofton, R.E., with Estimates and Plan—

Vol. I, Report, 1865. R1.

Vol. II, Estimates. 12s.

Shakespearean Readings, viz:—

1. Taming of the Shrew.
 2. Othello.
 3. Macbeth.
 4. Comedy of Errors.
 5. Merchant of Venice.
- } Each 3s.

Annual examination papers set for the years 1867 to 1870, each 8s.

PLANS OF STATIONS.

Lithographed Plans of the Cantonments and Regimental Lines in the different Military Stations of India. Drawn to a uniform scale and prepared between 1864 and 1868 for the Government of India, P. W. Department. (Useful for Executive Engineers' and Superintending Engineers' Offices.)

Bengal, 51 Plans.
Madras, 99 Plans.
Bombay, 91 Plans.
N.-W. Provinces, 104 Plans.
Oudh, 21 Plans.
Rajputana, 4 Plans.
British Burma, 19 Plans.
Central Provinces.

} Whole lot R 2 each.

A set of Professional papers both loose and quarterly numbers inclusive of Railway freight R10. This is not quite complete.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

Vol. I. (Quarterly, Nos. 1 to 5), bound R1-8.
Quarterly, Nos. 1, 2, 3, 4, and 5. } 4s. each,
Vol. II, Quarterly, Nos. 6 and 7. } inclusive
" VI, " No. 25, } of post-
" VII, " Nos. 26, 27, 28, and 29, } age.
Extra No., April 1870.

(SECOND SERIES.)

Quarterly Numbers of Vols. I, II, and IX of the series 4s. each; inclusive of postage.

Quarterly Number 41 A of Vol. X. Each 8s.

Cloth covers for Volumes of 1st and 2nd Series, at 8s. each.

Index to Professional Papers and loose Papers. 1st and 2nd Series, at 2s. each.

FERO-TYPE PRINTING.

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depot. Application to be made to the Curator.

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants.

J. CLIBBORN, Lieut.-Col., I.S.C.,
Principal, Thomason Civil
Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1899, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.
For the Complete Series, including postage. Rs2-8

	Without postage.			With postage.		
	<i>Rs.</i>	<i>s.</i>	<i>p.</i>	<i>Rs.</i>	<i>s.</i>	<i>p.</i>
For the Calcutta Series	10	0	0	12	8	0
„ each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
„ a part of the Calcutta Series purchased separately, <i>inclusive of postage in India</i>			2	0	0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately, <i>inclusive of postage in India</i>			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
	R s. p.	R s. p.
For the Calcutta Series ; per copy	0 8 9	0 10 0
„ each of the Madras, Bombay, and Allahabad Series ; per copy	0 5 3	0 5 9
„ the Calcutta Series. For the year	7 2 0	8 0 3
„ each of the Madras, Bombay, and Allahabad Series. For the year	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Report should apply to—

The Superintendent, Government Press, Madras.

The Superintendent, Government Central Press, Bombay.

The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	Half page.	Quarter page.
	R s. p.	R s. p.	R s. p.
For one issue	20	14	9
" three issues	55	39	24
" six "	100	68	45
" nine "	145	90	64
" twelve "	180	120	80

Several volumes of the BENGAL LAW REPORTS, from August 1878 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage. R s. p.	With postage. R s. p.
Bengal Law Reports, for one year	20 0 0	22 8 0
Single copies, Rs 2 per copy.		
Full Bench Rulings, Parts I and II	20 0 0	22 8 3

Bengal Secretariat Book Depot, Writers' Buildings, Calcutta.
 Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1870 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, Rs2-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series, before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

SUPPLEMENT TO
The Gazette of India.

No. 17.} CALCUTTA, SATURDAY, APRIL 27, 1901.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

ADMINISTRATION REPORT OF THE INDO-EUROPEAN TELEGRAPH DEPARTMENT
FOR 1899-1900.

No. 421 C. W. T., dated Simla, the 13th April 1901.

RESOLUTION.

READ—

Despatch from His Majesty's Secretary of State for India No. 9, Telegraph, dated the 15th March 1901, and enclosures being the Administration Report of the Indo-European Telegraph Department for the year 1899-1900 and India Office note reviewing it.

ORDER :—Ordered that copies of the report and note be forwarded to the Home Department of the Government of India, to the Government of Bombay, and to the Director General of Telegraphs, for information.

Ordered also, that the report and note be published in the supplement to the *Gazette of India*.

O. C. LEES,

Under Secretary to the Government of India.

Documents accompanying :—

Report and note referred to :—

Note reviewing the Administration Report of the Indo-European Telegraph Department for the year 1899-1900.

The following Statement shows the Financial Results of working the Department during the past five years :—

Year.	Total Capital Outlay.	Gross Receipts.*	Expenditure	Net Receipts.	PERCENTAGE OF	
					Net Receipts to Capital.	Expenditure to Gross Receipts.
	<i>R</i>	<i>R</i>	<i>R</i>	<i>R</i>	<i>£</i>	<i>£</i>
1895-96 . .	1,14,89,206	16,70,081	8,17,450	8,52,631	7.42	48.9
1896-97 . .	1,15,49,774	14,84,507	7,71,477	7,13,030	6.17	51.9
1897-98 . .	1,15,35,814	15,40,153	7,81,981	7,58,172	6.57	50.77
1898-99 . .	1,15,53,969	14,65,825	7,68,522	6,97,303	6.03	52.43
1899-1900 . .	1,15,31,047	15,38,111	8,43,502	6,94,609	6.02	54.84

* This represents the revenue of the Department after adjustments made in accordance with the provisions of the Joint Purse Arrangement.

The Capital Account was decreased by Rs. 22,922, due chiefly to a reduction of the Stores balance.

The total earnings of the Department show an increase of Rs. 72,286 as compared with the previous year. This is due principally to increased traffic with Australia and the Far East.

The expenditure shows an increase of Rs. 74,980, which is mainly due to increase in the cost of cable maintenance and increments of salary.

The net result is a profit of Rs. 6,94,609, or 6.02 per cent. on the year's working, against 6.03 realised in the previous year.

The proportion of Indian traffic carried by the Indo-European route is still much higher than that on which the Joint Purse was based, having been 59.95 per cent. in 1899-1900, against the normal percentage of 40.18. On the other hand the percentage of Trans-Indian traffic has fallen from 11.54 in 1898-99 to

Vide Statement annexed. 11.39 in 1899-1900, against the normal rate of 19.47. In other words, the Department carried in value during the past year 29,542% more on Indian and 17,467% less on Trans-Indian messages than it should have done under the normal division.

Australasian traffic shows a large increase over the previous year, and the Department has drawn out of the Fund 10,840%, against 8,719% in the previous year, and against 6,235% which represents the revenue derived from this traffic by the Department in 1889 before the Australasian Message Fund Agreement was entered into.

The general working of the Department has been very satisfactory throughout the year. A few faults were cut out of the cables, and some damage was done to the land lines in Persia by storms and floods, but these were all repaired without causing any total interruption of traffic.

EDMUND NEEL,

Secretary, Public Works Department.

Annex 1.

Statement showing the Amounts paid into, and drawn out of, the Joint Purse by the Indo-European Telegraph Department, on Indian and Trans-Indian Traffic for the past five years.

ADMINISTRATION REPORT
OF THE
INDO-EUROPEAN TELEGRAPH DEPARTMENT
FOR
1899-1900.

CAPITAL AND REVENUE ACCOUNT.

1. *Capital*.—The transactions of the year under Capital resulted in a net credit of Rs. 22,922, which reduced the Capital expenditure to end of the year to Rs. 1,15,31,047. The decrease represents chiefly reduction of the stores balance, due to issue of stores from stock on the maintenance of cables, and the lines in Persia.

The following statement shows how the above decrease is made up :—

—	Increase.	Decrease.	Total.
	R	R	R
Works	8,277	—	8,277
Suspense :			
Stores	—	27,990	— 27,990
Other heads	—	3,209	— 3,209
TOTAL	8,277	31 199	— 22,922

A summary of the year's transactions on Capital account is given in Appendix A.

2. *Revenue*.—Appendix B is a summary of the earnings and expenditure.* The earnings amounted to Rs. 15,38,111, or an increase of Rs. 72,286 as compared with 1898-99, when the sum realised was Rs. 14,65,825. The expenditure during the year was Rs. 8,43,502, against Rs. 7,68,522 in the previous year, or an increase of Rs. 74,980, due to increase in the cost of cable maintenance and increments of salary. The net result is a profit of Rs. 6,94,609 on the year's working, against that of Rs. 6,97,303 in 1898-99, or a decrease of Rs. 2,694 as compared with that year.

3. The following statement shows the chief differences between the earnings

* Excluding the cost of the London Office Establishment (1,711*l.*), which is included as part of the Establishment of the Secretary of State.

and expenditure of the current and previous years. For details, see Appendix B :—

EARNINGS.

Head of Account.	1898-99.	1899-1900.	Increase.	Decrease.
	<i>R</i>	<i>R</i>	<i>R</i>	<i>R</i>
*Traffic Earnings . . .	17,33,000	18,50,560	1,17,560	—
Common Purse . . .	—1,55,180	—1,80,953	—	25,773
Australasian Message Fund. . .	—1,21,584	—1,45,627	—	24,043
Profit and loss . . .	—391	—545	—	154
Total Message Revenue	14,55,845	15,23,435	1,17,560	49,970
Miscellaneous Revenue	9,980	14,676	4,696	—
TOTAL . . .	14,65,825	15,38,111	1,22,256	49,970
Net Increase . . .	—	—	72,286	—

4. There was an increase of Rs. 72,286 in the earnings of 1899-1900 as compared with the preceding year. The earnings of 1899-1900 as worked out in francs amounted to 3,119,955, against 2,905,793 francs in the preceding year, and the amount drawn out of the Joint Purse was 6,763% more than last year, owing to a large increase in the Far East traffic.

EXPENDITURE.

Head of Account.	1898-99.	1899-1900.	Increase.	Decrease.
	<i>R</i>	<i>R</i>	<i>R</i>	<i>R</i>
Persian Gulf Section :—				
General charges . . .	1,24,912	1,39,845	14,933	—
Line maintenance . . .	22,424	24,265	1,841	—
Signalling . . .	1,81,222	1,94,107	12,885	—
Cable maintenance . . .	1,89,315	2,31,224	41,909	—
Persian Section :—				
General charges . . .	88,118	82,470	—	5,648
Line maintenance . . .	62,807	66,140	3,243	—
Signalling . . .	81,864	88,850	6,986	—
Exchange . . .	9,357	8,347	—	1,010
Expenditure by other Departments. . .	8,413	8,254	—	159
Total . . .	7,68,522	8,43,502	81,797	6,817
Net Increase . . .	—	—	74,980	—

5. The increase and the decrease under the main heads are as follows :—

(1.) *General Charges.—Gulf Section.*—The increase is due chiefly to the payment of arrear political subsidies, which in consequence of disturbances on the Mekran Coast during the year 1898 had remained in abeyance. There has also been a slight increase in the pay of superior officers, owing to the return of some of them from furlough, which caused a corresponding reduction in

* NOTE.—The head "Traffic Earnings" includes the amount collected in India, as also the loss on account of exchange on sterling transactions. The tariffs on international messages are fixed in a gold standard, and the balances due to or from foreign administrations are settled in that standard. The rupee collections in India vary, therefore, in correspondence with the fluctuations in exchange, and the balance received from the Indian Telegraph Department at Karachi in rupees is sufficient to pay the telegraph companies and foreign administrations in the gold standard and retain the share of this Department in a gold standard also.

expenditure in England on furlough allowances. The decrease in "exchange" is due partly to this cause, and partly to an improvement in the value of the rupee.

(2.) *General Charges.—Persian Section.*—The decrease under Persian Section is chiefly in the pay of superior officers, some of whom went on furlough during the past year.

(3.) *Line Maintenance.—Gulf Section.*—The increase represents a larger outlay on repairs to land lines.

(4.) *Line Maintenance.—Persian Section.*—The increase represents chiefly a larger issue of stores and the cost of their carriage for repairs and renewals of line. It is due also, to a certain extent, to the increased cost of Assistant Superintendent Mr. J. H. C. Kelly's journey in Southern Baluchistan in connection with the survey of a route for the proposed new telegraph line through Central Persia.

(5.) *Signalling.—Gulf Section.*—The increase is chiefly in the pay and the exchange compensation allowance of general service clerks. The increase in pay is due partly to new appointments to fill existing vacancies and the return of some clerks from leave, and partly to the annual increase of pay to the staff. The increase in exchange compensation allowance is due chiefly to fresh admissions under the new rules.

(6.) *Signalling.—Persian Section.*—The increase under Persian Section is due partly to the full sanctioned strength of local service signallers having been employed, partly to purchase of furniture for hire to the staff, and partly to increased outlay on signal office stores and on repairs to buildings and carriage of stores.

(7.) *Cable Maintenance.*—The increase is due chiefly to a larger issue of stores for repairs to cables. It is also partly due to the payment of exchange compensation allowance to officers of the cable engineering establishment and of the cable steamer, who became entitled to the allowance under the new rules.

NET REVENUE.

6. On a total Capital expenditure of Rs. 1,15,31,047 a net profit of Rs. 6,94,009 was earned, which gives a dividend of 6·02 per cent. The dividends earned during the past six years are as follows :—

Year.	Interest on Capital.
	<i>Rs</i>
1894-95	6·50
1895-96	7·42
1896-97	6·17
1897-98	6·57
1898-99	6·03
1899-1900	6·02

The higher dividend in 1895-96 was due to the low rate of exchange, that is, a higher rate in rupees collected for the franc equivalent.

CIS-INDIAN JOINT PURSE.

7. Appendix C. deals with the transactions in connection with this Agreement, which was entered into in 1878. The number of words carried between Europe and India or Trans-India and *vice versa* during the year by the three Administrations (*viz.*, the Eastern Telegraph Company, the Indo-European Telegraph Company, and this Department) rose from 6,526,085½ to 7,266,558½, showing an increase of 680,473½, while the net value also shows an increase of 88,142*l.* 16*s.* 7*d.* The Department's share of the whole Purse shows an increase of 6,763*l.* 8*s.* 7*d.*, due to an increase of Trans-Indian traffic chiefly with Australasia.

8. The following table shows the sums paid in and drawn out by the Department annually since the Agreement was concluded :—

Year.	Paid in.	Drawn out.	EXCESS.	
			Paid in.	Drawn out.
1878-79	£ 42,265	£ 62,256	—	£ 19,991
1879-80	52,488	68,905	—	16,417
1880-81	57,235	76,295	—	19,060

TOTALS	2,008,812	1,856,701	217,482	65,371
TOTAL EXCESS PAID IN	—	—	152,111	—

9. *Division of Traffic.*—The following are the proportions according to which the Joint Purse receipts are divided :—

Administration.	INDIAN RECEIPTS.		Trans-Indian Receipts.
	To 1894.	From 1894.	
Eastern Telegraph Company	60'39	59'82	80'53
Indo-European Telegraph Company	22'34	22'12	12'03
Indo-European Telegraph Department	17'27	18'06	7'44
	<div> <div>39'61</div> <div>40'18</div> </div>		19'47

10. The percentages of traffic which have been actually carried since 1878-79 are :—

Year.	ON INDIAN TRAFFIC.		ON TRANS-INDIAN TRAFFIC.	
	Via Suez.	Via Indo-European Route.	Via Suez.	Via Indo-European Route.
	Per cent.	Per cent.	Per cent.	Per cent.
1878-79	71'31	28'69	95'26	4'74
1879-80	67'91	32'09	94'10	5'90
1880-81	69'01	30'99	92'50	7'50
1881-82	64'63	35'37	81'26	18'74
1882-83	48'34	51'66	59'26	40'74
1883-84	55'96	44'04	83'52	16'48
1884-85	53'02	46'98	84'44	15'56
1885-86	52'14	47'86	75'91	24'09
1886-87	55'46	44'54	85'32	14'68
1887-88	60'93	39'07	86'48	13'52
1888-89	51'69	48'31	77'04	22'96
1889-90	49'92	50'08	82'89	17'11
1891-91	46'67	53'33	83'21	16'79
1891-92	43'52	56'48	80'75	19'25
1892-93	48'09	51'91	82'49	17'51
1893-94	61'75	48'25	85'20	14'80
1894-95	48'91	51'09	84'31	15'69
1895-96	49'03	50'97	84'09	15'91
1896-97	44'15	55'85	83'00	17'00
1897-98	42'98	57'02	87'11	12'89
1898-99	41'88	58'12	88'46	11'54
1899-1900	40'05	59'95	88'61	11'39

11. *Interruptions affecting Joint Purse Traffic.*—There was again no interruption stopping traffic between Teheran and Karachi on the Persian Section during the year. Between Teheran and London the Indo-European Company's lines were totally interrupted for an aggregate of 8 days, 18 hours, 12 minutes but only one interruption affected the divisions of the Joint Purse receipts.*

12. On the Turkish route interruptions occurred between Fao and Constantinople lasting 48 days, 6 hours, 29 minutes. The working of this route continues to be very unsatisfactory. The Fao-Bushire cable was also interrupted for repairs for 2 days, 11 hours, 5 minutes.

During the last six years the Turkish route west of Fao has been interrupted as follows :—

1894-95.	1895-96.	1896-97.	1897-98.	1898-99.	1899-1900.
Days. H. M.	Days. H. M.	Days. H. M.	Days. H. M.	Days. H. M.	Days. H. M.
150 0 52	111 17 35	83 14 56	74 16 21	54 4 16	48 6 29

The Department was only liable to the Joint Purse for 24 days' interruptions on the Turkish route at Fcs. 50 per diem.

AUSTRALASIAN MESSAGE FUND.

13. Full particulars regarding the nature of this Fund are given in the Administration Report for 1893-94 (page 6, paras. 14 to 17), and for 1896-97 (page 7, para 14).

The Departmental receipts for this year show an increase of 4,605% over the receipts in 1889, on which the original Australasian Message Fund was based. See Appendix C. (1).

* The altered proportions only take effect after the lapse of one clear day, which is calculated from midnight of the day of interruption.

TRAFFIC.

14. The service regulations of the Buda-Pesth International Conference of 1896 have been in force throughout the year.

15. Appendix E shows the traffic carried by the two sections of the Department. The number of words was 2,135,903½, against 1,995,740½ in the previous year, showing an increase of 141,163½; the value as stated in francs shows an increase from 2,905,793 to 3,119,955 francs.

16. The relative value of the franc and rupee has remained stationary during the year at 1 franc = 60 rupee.

17. The following table gives the amounts paid into the Joint Purse by the Department as compared with its independent traffic revenue:—

	For JOINT PURSE, ETC.		Independent Revenue.	TOTAL.
	Indian.	Trans-Indian.		
	Fcs. cts.	Fcs. cts.	Fcs. cts.	Fcs. cts.
Persian Gulf Section	2,081,208.55½	625,004.91½	14,014.05½	2,720,227.52½
Persian Section	304,339.04½	88,025.15½	7,302.96½	399,727.15½
Total francs	2,385,547.59½	713,030.06½	21,377.01½	3,119,954.68½

18. Appendix F gives the number of messages and words carried under the four following classes during the past five years:—

State.	Press.
Commercial and Private.	"Times" (special rate).

19. The average length of "private and commercial" messages was 13.03 words in 1899-1900 as compared with 12.76 words in the previous year. The average length, calculated from the averages of the past seven years, is 13.05 words.

20. In addition to the messages classified in Appendix F, 1,063 messages, containing 103,620 words, were forwarded to the British Resident at Bushire free of charge. These are called "Government and Press" telegrams, and would, if charged for, yield Rs. 22,666 at press rates.

21. The percentages of traffic carried on the Teheran and Turkish routes were 94.00 and 6.00 respectively. The following table gives the respective percentages for the past seven years:—

Years.	Via Teheran.	Via Turkey.	REMARKS.
1893-94	93.60	6.40	
1894-95	94.36	5.64	
1895-96	93.55	6.45	
1896-97	94.61	5.39	
1897-98	95.06	4.94	
1898-99	94.74	5.26	
1899-1900	94.00	6.00	

The Turkish route continues to be next to useless, being very slow and inaccurate.

22. The mean rate of transmission of telegrams between the United Kingdom and Karachi, and between Karachi and Teheran, the latter being the sec-

* NOTE.—The independent traffic revenue is that obtained from traffic dealt with by this Department and not touching India, such as for telegrams between the Stations of Jeddah and Bushire.

tion worked by the Department, during each of the past six years is as follows:—

Year.	Between the United Kingdom and Karachi, <i>via</i> Teheran.		Between the United Kingdom and Karachi, <i>via</i> Turkey.		BETWEEN KARACHI AND TEHERAN.			
	Hours.	Min.	Hour.	Min.	Karachi to Teheran.		Teheran to Karachi.	
1894-95	0	43½	46	46	7	7	5	00
1895-96	0	46	34	00	5	27	4	41
1896-97	1	12	36	08	19	33	13	28*
1897-98	0	55	30	23	13	25	10	40
1898-99	0	50	21	23	9	1	8	13
1899-1900	0	52	21	54	10	8	8	57

23. The reason of the high rate between Karachi and Teheran during the past three years is owing in great measure to the introduction of a modified system of calculating the daily average delay on the two sections. *See* para. 23 of 1897-98 Report.

24. *Check of Errors.*—The accuracy of transmission over the lines of the Department for the past two years is shown below, and is still very satisfactory. The slight falling off is due to Bushire transmitting on the main circuit.

1898-99 : : : : : 0·132 per cent.
1899-1900 : : : : : 0·136 „

25. *Complaints and Errors.*—The number received for investigation amounted to 146, being 18 more than the total for the year 1898-99. Of this number 78 were from Europe and 68 from India; 39 related to messages *via* Turkey.

The following table gives all details:—

Nature of Complaint.	Received from Europe.	Received from India.	Total.
Non-deliveries	21	14	35
Non-deliveries due to insufficient address	1	2	3
Mis-deliveries	2	1	3
Delays	9	1	10
Errors	20	18	38
Refund of reply deposits not used	10	5	15
Miscellaneous references	15	27	42
Total	78	68	146

Of the above, 58 were not admitted by the Administrations concerned, or are still being investigated by them. Of the remaining 88 this department is responsible for 10.

OFFICES.

26. The number of offices open to the public throughout the year, excluding those on the Teheran and Meshed (Persian Government) line, was, in the Persian Gulf Section 8, and in the Persian Section 9.

ESTABLISHMENT.

27. At the close of the year the strength of the general establishment was—

Gazetted officers	25
General service clerks (including 1 inspector, Persian Section)	60
Unattached list: Non-commissioned officers of Royal Engineers (including 3 inspectors, Persian Section)	10
Officers of cable steamer (non-gazetted)	6
Local service signallers	32
Postal employé	1
TOTAL	134

* Eastern Company's route interrupted in March 1897.

28. The following casualties occurred during the year:—
 Retired on pension :—1 director ; 2 superintendents ; 1 temporary assistant superintendent ; 1 general service clerk ; 1 cable foreman.
 Resigned—1 general service clerk.
 Transferred to Royal Indian Marine :—1 assistant engineer, cable steamer.

PERSIAN GULF SECTION.

CABLES.

29. The lengths of the various cable sections on the 31st March 1900 were as follows :—

Cables.	1898-99.	1899-1900.
	Knots.	Knots.
Fao-Bushire Gutta-percha No. I . .	154 451	154 616
Bushire-Jask Gutta-percha No. II . .	520 630	520 694
Bushire-Jask India-rubber No. III . .	501 986	501 828
Jask-Manora Gutta-percha No. IV . .	527 967	528 018
Underground and harbour cables . .	16 106	16 137
TOTAL KNOTS. .	1,721 190	1,721 293

Showing an increase of 103 of a knot since last year, due to repairs and an error in measurement.

30. This department also keeps the Karachi Harbour defence cables in order, and a telephone line for the Port Trust connecting the Port Trust Office at Karachi with the Port Office at Manora, and the Clock Tower at Kimari.

31. *Summary of the History of the Cables and their Electrical and Mechanical Condition during the year 1899-1900.*

I.—*Fao-Bushire Gutta-percha Cable of 1864.*—Only one fault occurred in this cable during the year, and this was cut out in November 1899, together with the fault that existed from the previous year. One was near Bushire, and necessitated a renewal of over 5 knots, the other was caused by a toredo insect, 60·15 knots from Fao.

The mechanical condition of 58·278 knots of 1886 cable now remaining is somewhat doubtful, and it is probable that more extensive repairs and renewals will very shortly be required. The remainder of the section, excluding 17 8 knots laid in 1864, which is apparently buried, is composed of cable submerged 8 years and under. During the past year 9·074 knots of good cable were inserted, so that two-thirds of the whole section may be considered in good mechanical condition and one-third doubtful. Its electrical state may be considered very satisfactory. The insulation per knot measured 18 megohms in November 1899, and has since risen to 25 megohms.

II.—*Bushire-Jask Cable of 1885.*—Two faults occurred in this cable during the year, and were cut out in November 1899 and March 1900. The first appeared in a long section of 1885 cable, 168 knots from Bushire, and a second in the shore end section at Jask in 1896 cable. Both faults were similar in appearance and were due to punctures in the gutta-percha, but it was impossible to determine how these originated. Since this cable was laid in 1885 about 43½ knots have been renewed from time to time, and 477·24 knots remained undisturbed. The insulation of this cable has fallen to 80 megohms as compared, with 179 megohms for the previous year, but this lowness is confined, so far as is known at present, to a slight defect between Bushire and 168 knots eastward, as the remaining length of 352 knots tested at over 800 megohms per knot. The condition of the cable may be accepted as satisfactory.

III.—*Bushire-Jask India-rubber Cable of 1869.*—Only one fault occurred in this cable during the year, about 358 knots from Bushire in a section of 3 37

PERSIAN GULF SECTION—continued.

knots of thin typed cable laid in 1888, which was found badly corroded, the sheathing having completely disappeared in places. This disclosure threw suspicion upon another similar section of 16·12 knots, about 9 knots further east, which was also renewed. There are still remaining in this cable 114·69 knots of India-rubber cable which has given no evidence of fault for some years. The mechanical condition is probably fairly satisfactory, and its insulation remains the same as last year, *viz.*, 37 megohms per knot.

IV.—*Jask-Manora Gutta-percha Cable.*—Two faults occurred in this cable during the year, both in one section of 17,055 knots of thin type sheathing laid in 1887, distant 223 and 231 knots from Jask respectively. These faults were evidently due to the corrosion of the sheathing. The mechanical condition of 412 knots may be considered satisfactory, but the remainder is doubtful. The insulation has fallen from 57 to 49 megohms per knot.

Harbour Cables.—In the five Karachi Harbour cables three faults occurred, two being due to perished ends, and the third to the corrosion of the guards. The Fowler-Waring cables continue in a satisfactory state.

Cable Houses.

32. These are satisfactory.

Manora Cable Factory.

33. The following is a summary of the work done in the Cable Factory during the past year :—

	Knots.
Cable manufactured at Manora	40·000
„ recovered at sea and retaped	3·997
TOTAL	43·997
	Knots.
Cable stripped for core	25·02026
Core, taped, for leads	1·113
TOTAL	26·13326

At present the following core is lying in the tanks :—

	Knots.
Gutta-percha core, 1st class, from England	6·000
„ „ „ brass-taped	4·000
„ „ „ stripped from cables	4·201
„ „ for harbour work and short lengths	23·677
TOTAL	37·878

And 40 knots are due on indent.

Cable in Stock and Expenditure of Cable.

	Knots.
Cable in stock on 1st Ap. il, 1899	72·887
Received since above date :	Knots.
Manufactured at Manora	40·000
Recovered at sea and retaped	3·997
Received from Eastern Telegraph Company	0·526
	44·523
	117·410
Deduct cable expended during the year :—	
For Department	48·796
For Eastern Telegraph Company	20·091
	68·887
Balance on the 31st March, 1900	48·523

PERSIAN GULF SECTION—*continued.*

34. The cable referred to above as issued to the Eastern Telegraph Company has been replaced by the Company in material, which has since been made up into cable at the Manora Factory, the cost of manufacture being paid by the Eastern Telegraph Company.

The cable buildings and cable machinery at Manora are in good order.

Cable Steamer "Patrick Stewart."

35. During the past official year the "Patrick Stewart" made three trips on repairing duty, *viz.* :—

- (1) Left Karachi for Bombay on 18th August 1899, repaired the Eastern Telegraph Company's Bombay-Aden No. 1 cable on 24th August 1899, and returned to Karachi on the 29th idem.
- (2) Left Karachi for Bombay on 1st September 1899, repaired Eastern Telegraph Company's Bombay-Aden No. 1 cable, and returned to Karachi on the 17th idem.
- (3) Left Karachi on the 23rd November 1899, and repaired the Manora-Jask Cable and returned to Karachi on the 28th idem.

The first two repairs were highly satisfactory, considering the monsoon was blowing at the time.

In addition to the above, the ship made four other trips, *viz.* :—

- (1) To Bombay on 1st May for docking, etc., and returned to Karachi on the 16th idem.
- (2) To the Persian Gulf on 23rd October 1899, with the Director on inspection duty, returning to Karachi on 18th November. During this trip five faults in the cables were seen to.
- (3) To Bombay on 1st December 1899, for docking, and returned to Karachi on 12th January, 1900.
- (4) To the Persian Gulf on the 3rd March 1900, with the Director on inspection duty, returning to Karachi on 1st April 1900.

During this trip one repair and two renewals of cable were effected.

The "Patrick Stewart" steamed 9,804 knots, and the Cable Engineering Establishment was absent from head-quarters 88 days.

The actual earnings of the vessel during the year were R8,653.

"Working and Testing."

36. These continued satisfactory throughout the year.

MEKRAN COAST LAND LINE.

37. The lengths of the various sections of this line on the 31st March 1900 were as under :—

	Miles of Line	Miles of Wire.
Karachi to Sonmiani Branch	48.31	96.62
Sonmiani Branch	2.50	2.50
" " to Ormara	159.03	318.06
Ormara to Pasni Branch	89.96	179.92
Pasni Branch	2.87	2.87
" " to Gwadar	75.88	151.76
Gwadar to Charbar	119.05	238.10
Charbar to Jask	198.85	397.70
TOTAL	696.45	1387.53

PERSIAN GULF SECTION—*continued.*

The difference between these figures and those of the last year is due to a decrease of 33 miles, caused by a slight diversion in the Pasni Branch, and to an increase of 187 between Gwador and Charbar due to re-measurement of this section.

Maintenance and Repairs of Land Lines.

38. *Karachi-Gwador Sub-division.*—The Assistant Superintendent in charge inspected this line. He was provided with an escort of one native officer and 20 men of the 19th Bombay Infantry. In consequence of the scarcity of water, the party endured a good deal of hardship. The works carried out were of the usual kind, *viz.*, a diversion of 287 miles; 16½ miles of corroded wire renewed; all the fluid insulators were cleaned and refilled, and all cracked ones replaced; 17 standards, 1,364 iron posts, and 775 wooden posts were tarred, and the road through the difficult Milan range was considerably improved.

Gwador-Jask Sub-division.—The Assistant Superintendent of this sub-division was also provided with a similar escort from men of the 21st Bombay Infantry, and among the repairs the following were carried out:—39 miles of corroded wire renewed, 334 cracked insulators replaced, all fluid insulators thoroughly cleaned, and three refuges in country liable to be flooded were built; also the roads through three ranges of hills were improved.

Interruptions on Land Lines.

39. There were three total interruptions during the year, lasting in all for 6 days, 2 hours. These interruptions were caused by storms, and considerable delay occurred in restoring communication, owing to the country being flooded. Partial interruptions, *i.e.*, those not affecting communication, amounted to 16 days, 4 hours.

40. The causes of the faults are summarised as follows:—

	Number.	Duration. Hours.
Definitely traced to preventable causes:—		
Faulty construction	—	—
Faulty maintenance	8	98
Working parties	—	—
Other preventable causes	—	—
Unpreventable causes:—		
Cyclones and storms	6	224
Floods	—	—
Animals and birds	2	78
Malice	2	94
Unknown causes	3	39

The results of the year show a considerable improvement over the previous year, the total duration of faults being 533 hours as against 945 in 1898-99.

Inspections.

41. The Director inspected all the offices excepting Fao, where the plague regulations again prevented the station being visited.

General Remarks.

42. *Jask District.*—Nothing has occurred during the year in this district which calls for any notice. The chiefs at the end of the year were Mir Ali and Mustafa Khan. On the 1st May of the current year Mir Ali died, and has been succeeded by his son, Mir Hoti.

Some ill-feeling has in the past existed between the families of Mustafa Khan and Mir Ali, but the former has recently married a daughter of the latter, so this should be allayed.

Gaih and Dashtyari Districts.—For these districts throughout the year there were no recognised chiefs, but the duties of chief were carried on by

PERSIAN GULF SECTION—*continued.*

Sardar Daid Khan for the whole year for the Gaih district, and by Mir Abdi Khan since the murder of Mowladad Khan on the 22nd June 1899, for the Dashtyari district. The local headmen have all carried out their duties satisfactorily, and have accordingly been paid their presents. In May of the current year the Political Resident, Bushire, intimated his approval of the Director's suggestion that Sardar Daid Khan should be formally recognised as Chief of the Gaih district, and Mir Abdi Khan as Chief of the Dashtyari district. These Chiefs have therefore been paid their presents up to the 30th June 1900, the former with back effect from the 1st January 1899, and the latter from the 1st July 1899.

Affairs are now, it is hoped, in a satisfactory state in this district so far as the department is concerned, but it is unsatisfactory that two of the murderers of the late Mr. Graves, Julla Bin Shahbeg and Shahgool Bin Yar Mahomed are still at large, and that there are apparently small hopes of their being given up.

No new cases occurred during the year of thefts from employés of this department. Two old cases are still pending, but they are now in course of settlement.

Bahoo District.—Mir Ashraf Mahomed Ali continued to be chief throughout the year. There are no outstanding cases on account of thefts from line employés; one old case brought forward from 1897 was settled during the year by Mir Ashraf.

Gwadar District.—There are two old cases of theft from employés of this department pending since 1897 in this district. These claims are against Muscat subjects. The Director has pressed upon the Political Agent, Muscat, the necessity for their early settlement, and he hopes they will be settled very shortly.

Kej District.—Mir Mehrab Khan, Sheh Kassim, and Abdul Karim are the Chiefs of this district; the two latter are men of small power. The administration of the country is carried on by the Nazim of Mekran in conjunction with Mir Mehrab Khan.

There is nothing of importance to record. Old claims of employés of this department are still unsettled. The Director is to meet the Nazim of Mekran at Gwadar this autumn, and then it is hoped all will be disposed of.

Las Beyla District.—There is but little to record. No damage has been done to the line, nor have the line establishment had anything to complain of in this well regulated and peaceful district.

Plague.—The following statement, which for convenience sake embraces the period from 1st April 1899 to 1st August 1900, shows monthly the progress of plague at Karachi. As will be seen, April was the worst month in 1899, and at the end of July the disease had practically ceased. In January 1900 it began again, increasing month by month until the highest figures were reached in April 1900. After April there was a rapid decrease, and in June the disease ceased. On the 23rd July 1900 Karachi was declared officially to be free of plague :—

Months.	Cases.	Deaths.	Months.	Cases.	Deaths.
April 1899 . . .	1,509	1,100	December 1899 . . .	—	—
May 1899 . . .	589	463	January 1900 . . .	65	52
June 1899 . . .	42	38	February 1900 . . .	78	64
July 1899 . . .	6	4	March 1900 . . .	633	448
August 1899 . . .	—	—	April 1900 . . .	1,780	1,414
September 1899 . . .	—	—	May 1900 . . .	530	403
October 1899 . . .	—	—	June 1900 . . .	35	33
November 1899 . . .	—	—	July 1900 . . .	—	—

No deaths occurred from plague in the telegraph quarters at Karachi during the whole of the above period.

PERSIAN SECTION.

43. The lengths of the various sections of this line on 31st March 1900 remain the same as last year, namely :—

Sub-section.	Locality.	Miles of Line.	Miles of Wire.
1	Teheran to Ispahan	247	741
2	Ispahan to Meshed-i-Meerghab	195	585
3	Meshed-i-Meerghab to Mean Kotal	124	372
4	Mean Kotal to Bushire	108	324
TOTAL		674	2,022
Local Lines :			
	Teheran to Gulahek	7	41
	Ispahan to Persian Office	2'25	6'75
TOTAL		9'25	47'75
GRAND TOTAL		683'25	2,069'75

44. *Line Maintenance.*—The line was inspected and repaired by the four Inspectors both in the spring and autumn. Only ordinary repairs and minor alterations were carried out.

45. *Offices.*—All the office buildings were put in repair. No work of any magnitude was undertaken, the repairs effected being of a minor character.

46. *Interruptions.*—No total interruption occurred in this section throughout the year. The faults from all causes, including contacts between the wires, during the past three years have been—

Year.	1 Wire.		2 Wires.		3 Wires.	
	Hours.	Mins.	Hours.	Mins.	Hours.	Mins.
1897-98	340	56	7	3	22	5
1898-99	441	0	10	0	Nil	
1899-1900	332	0	Nil		Nil	

The causes of them may be summarised as follows :—

	Number.	Duration. Hours.
Definitely traced to preventable causes :—		
Faulty construction and maintenance	2	42
Working parties	2	3
Unpreventable causes :—		
Cyclones and exceptional storms	2	31
Floods	—	—
Lightning	1	6
Snow	—	—
Fires	—	—
Trees falling other than those caused by cyclones	1	2
Animals, birds, and dead snakes	7	108
Malice	12	122
Other unpreventable causes	1	2
Unknown causes	1	1
Faults in offices	3	15

The total number of faults, 32, compares very favourably with 46 in the previous year, while the average duration remains about the same. For the

PERSIAN SECTION—continued.

year under review the average is 10'37 hours; in 1898-99 the average was 9'80 hours, and in 1897-98, 9'55.

47. *Wilful Damage*.—There were 519 acts of wilful damage reported during the year, being 143 more than last year. They were distributed along the line as follows :—

Sub-section.	Locality.	No. of miles.	No. of Acts, 1898-99.	No. of Acts, 1899-1900.
1st . . .	Teheran to Ispahan . . .	247	116	143
2nd . . .	Ispahan to Meshad-i-Meerghab, 88 miles north of Shiraz.	195	112	225
3rd . . .	Meshad-i-Meerghab to Mean Kotal, 60 miles south of Shiraz.	124	121	113
4th . . .	Mean Kotal to Bushire . . .	108	27	38

The amount claimed from the Persian Government for damages was *Krans 10,582'50. Of this sum Krans 3,879'0 were collected locally, the balance, Krans 6,703, was deducted from the Jask royalty.

The Persian Government has at last interested itself in the matter of wilful damage, and, at its instance, every case is at once reported to it, as well as to the local governor in whose district the wilful damage occurs. This entails a considerable amount of extra clerical work on the staff, but if it results in a decrease in the amount of damage, it will not be labour thrown away. The greatest culprits are the nomad tribes in the 2nd Sub-section. Unfortunately the Persian Government is not in a position to coerce these people.

Wilful damage caused interruptions for the past four years as shown below :—

Year.	1 Wire.	2 Wires.	3 Wires.
	Hours. Mins.	Hours. Mins.	Hours. Mins.
1896-97	315 46	<i>Nil.</i>	20 53
1897-98	93 50	<i>Nil.</i>	<i>Nil.</i>
1898-99	171 0	2 0	<i>Nil.</i>
1899-1900	122 0	<i>Nil.</i>	<i>Nil.</i>

Of the 519 acts of wilful damage committed during the year ending 31st January 1900,† no less than 500, of which nine caused faults, were cases in which one or more insulators were broken by stones or gun shots; six were cases of poles pierced by bullets (none of them caused faults); five were contacts caused by malicious interference with the wires; four were cases of stays cut off and carried away; three were cases of insulator binders being unbound (all of these caused faults); and one was the bridge of a shackle cut (this caused a fault).

General Remarks.

48. The principal events which occurred in Persia affecting this Department are as follows :—

On one occasion a lineman was brutally beaten by the followers of a Persian official, and also on one occasion a lineman was attacked by robbers north

* Krans '358=100 rupees.

† For the convenience of the Persian Government these returns are kept for the year commencing in February and ending in January.

PERSIAN SECTION—*continued.*

of Shiraz and plundered of Government and private property. On another occasion a lineman was beaten by some soldiers.

The Bushire post, which left Shiraz on the 29th October 1899, was robbed about 20 miles south of Shiraz and 2,000 Tomans (nearly 400*l.*) were stolen but the letters were untouched.

Buildings.

49. *Teheran.*—Additional kitchens to each set of quarters, and an extra room to each set in the two "married" blocks, were provided during the year. The well was also widened to $3\frac{1}{2}$ feet diameter and deepened to 222 feet. At this depth the water is at present stationary at about 2 feet deep. Persian well-diggers cannot work in water to a depth of more than about $2\frac{1}{2}$ feet. Should the water level fall still further the well will be still further deepened; then, given a favourable rain and snowfall next winter, it is hoped that a good depth of water will be obtained. It is stated that after a drouthy year, such as 1899, a considerable period must elapse before the water level rises again. The results obtained appear to bear out this statement; there may, however, be other factors tending to keep the water level low, of which no certain information is obtainable. A record of measurements of the water is being kept. While the well is in the experimental stage an iron water cart drawn by mule power is being employed to bring water from the Legation kanat (watercourse) for the staff, and this gives complete satisfaction so far as drinking water is concerned; but it is hoped, should the well eventually prove reliable, to obtain sufficient water by pumping for both drinking and gardening purposes.

Medical.

50. The health of the staff during the year was remarkably good, no case of epidemic disease having occurred among them although diphtheria and scarlet fever were prevalent in Teheran during the autumn and winter.

Krans 400 were paid for medical attendance in Ispahan during the year.

Meteorology.

51. As in former years, telegrams reporting the state of the weather were sent to the Meteorological Reporter of the Government of India from November 1899 to 15th March 1900. The value of these reports has been acknowledged by the reporter.

TEHERAN-MESHED LINE.

52. The repairs of the line, which had not been completed at the end of last year, were completed during the year 1899-1900; 413 new juniper poles were erected, 239 old poles were dug up and re-erected after rotten wood had been cut off, and 542 insulators, field service pattern, were fixed.

No money was received from the Persian Government during the year. A special effort was made to obtain a grant through the Legation on receipt of news of the Russian loan, but as His Majesty the Shah left very shortly for Europe the negotiations had to be dropped.

The balance of the grant of Tomans 9,878 made by His Imperial Majesty the late Shah in 1893, which remained unexpended at the end of last year, *viz.*, Ks. 509*l.* 35, has been expended in the purchase of poles.

Of the sum of Rs. 20,000 sanctioned by the Government of India, Rs. 17,684 was expended during the year.

Offices.

53. These were inspected by the Assistant Superintendent and are satisfactory.

TEHERAN-MESHED LINE —continued.

Interruptions.

54. The interruptions to communication from all causes during the past three years are given in the statement below :—

—	1897-98.		1898-99.		1899-1900.	
	Hours.	Mins.	Hours.	Mins.	Hours.	Mins.
Faulty construction and maintenance.	3	20	36	0	...	
Working parties	
Cyclones and excep- tional storms.	...		15	0	...	
Floods . . .	82	0	11	0	3	0
Animals and birds		32	0	12	0
Malice . . .	33	36	196	0	22	0
Faults in offices .	65	28	23	0	10	0
Unknown causes		13	0	...	
TOTAL .	184	24	326	0	47	0

Wilful Damage.

55. One hundred and six cases of wilful damage occurred, in which 116 insulators, 12 posts, 7 struts were broken or stolen, and 14 yards of wire were carried away, and one post was dug up, but otherwise not interfered with.

The figures were for the years :—

	Acts.
1897-98	197
1898-99	145
1899-1900	106

There is thus a decrease of 39 acts during the year under report.

Traffic.

56. The table below shows the amount of paid conversational traffic, etc., carried by the line during the past three years. The money is paid over to the Persian Administration :—

Year.	Total Paid Conversation and State Messages.	State Messages only.
	Krans.	Krans.
1897-98	2,529	1,278·5
1898 99	2,919·5	1,066·5
1899-1900	3,728 5	1,648·5

There were no events of a political nature which affected the line or offices of the Meshed line.

INDO-EUROPEAN TELEGRAPH DEPARTMENT.

STORES.

57. The principal items of expenditure under this head have been as follows :—

	R
Stores purchased in India	6,580
London stores, including freight, landing charges and exchange .	1,10,200
Stores from other Departments	1,807
	C 2

INDO-EUROPEAN TELEGRAPH DEPARTMENT—*continued.*

The following were the principal issues of stores, including adjustments to the end of March 1899:—

	<i>R</i>
Repairs to cable	80,210
Cable steamer	18,409

The issues to repairs and renewals of land line and offices in the Persian Gulf Section amounted to R20,816, and in the Persian Section to R11,394.

Personal.

58. Mr. G. Sealy, Director of the Persian Gulf Section, retired from the Department on the 15th January 1900, after a total service in Government employment of 33 years. As a superintendent engineer and electrician, and as director, he gave valuable services to the Government, and well deserved the special additional pension of R1,000 per annum granted to him by the Secretary of State.

Mr. Sealy was relieved by Mr. H. Whitby Smith, a superintendent in the Indian Telegraph Department.

Mr. R. C. Barker, C.I.E., was Director of the Persian Section throughout the year. My special thanks are due to him for his able administration of his charge.

To Mr. Twisaday also, as Senior Clerk in my Office, my continued acknowledgments are due, as well as to the rest of the staff in India, Persia, and England.

B. T. FFINCH,
Director-in-Chief.

INDIA OFFICE ;
11th January 1901.

Government of India Notifications, Appointments, Promotions, &c.

MILITARY SECRETARY'S OFFICE.

NOTIFICATION.

Simla, the 3rd May, 1901.

No. 346-M.—Notice is hereby given that HIS EXCELLENCY THE VICEROY AND GOVERNOR GENERAL will hold a Levée at Viceregal Lodge, Simla, at 9-45 P.M. on Thursday, the 30th May 1901.

All Civil and Military Officers and the Native Officers of the Infantry Escort are invited to attend.

The following regulations are to be observed at His Excellency's Levée :

- I.—Gentlemen who propose to attend His Excellency's Levée are requested to bring with them two large cards with their names *clearly written* thereon—one to be left with the Aide-de Camp in waiting in the Corridor, and the other to be delivered to the Military Secretary, who will announce the name to His Excellency.
- II.—Gentlemen who have not already been presented at the Court of St. James or at the Viceregal Court should send in their names and addresses through the Gentlemen who propose to present them to the Military Secretary's Office not later than Monday, the 30th May 1901, in order that the names may be submitted to His Excellency, when, if they are approved, Presentation cards will be forwarded.

III.—Gentlemen presenting others must themselves attend the Levée.

IV.—Gentlemen wearing Uniform will appear in Full Dress. Gentlemen not entitled to wear Uniform will appear in Evening Dress. For further particulars as regards dress, attention is drawn to this Office Notification No. 904-M., dated the 8th September 1899.

By Command,
E. BARING, *Lieut.-Colonel*,
Military Secretary to the Viceroy.

No. 2369-A.

The 2nd May, 1901.

RESOLUTION—By the Government of India, Finance and Commerce Department.

Read—

Letter from the Comptroller and Auditor General, No. 2725, dated the 10th April 1901, submitting a report on the Cash Balances and Resource Operations of the Indian Treasuries for the twelve months, from October 1899 to September 1900.

Ordered, that the letter and its annexures be published in the *Gazette of India* for general information.

J. F. FINLAY,

Secretary to the Government of India.

No. 2725, dated the 10th April 1901.

From—A. F. COX, Esq., Comptroller and Auditor General,

To—The Secretary to the Government of India, Finance and Commerce Department.

I have the honour to submit my report on the Cash Balances and Resource Operations of our Treasuries for the twelve months, from October 1899 to September 1900.

Minimum Balances.

2. The following table gives the estimated Minimum Balances for all India for each month, from October 1899 to September 1901, and their distribution between the District Treasuries of the several Provinces and the Reserve Treasuries and Presidency Banks. The usual statements, marked A and B, showing the comparison of these balances with the estimates of previous years, are appended. In the table the total balances at the Presidency towns have been shown as usual in a lump sum in a separate column:

[In lakhs of Rupees]

			DISTRICT TREASURIES										Presidency Bank and Reserve Treasuries.	Grand Total.
			Bihar	Central Provinces	Bamhar	A. Sam.	Pengal.	N. W. P. (incl. Orh.)	Punjab	Madras	Gombay	Total		
1st October	1900		37	41	91	28	42	95.0	81	70	65	53.7	6,73	12,10
„ November	„		31	40	51	20	13	97	76	60	93	53.2	4,58	9,50
„ December	„		35	35	40	23	53	1,00	68	60	90	50.0	3,44	8,50
„ January	1901		40	35	45	29	63	1,30	70	65	90	55	3,04	9,20
„ February	„		25	40	63	40	75	1,15	67	1,00	1,05	6,75	4,55	11,50
„ March	„		21	43	74	42	85	1,18	90	1,05	1,10	7,23	4,47	12,00
„ April	„		48	45	90	44	1,10	1,70	63	1,10	1,00	8,82	5,08	13,00
„ May	„		33	45	79	40	1,10	1,50	90	1,00	95	7,44	5,50	13,00
„ June	„		40	45	71	20	80	1,70	85	95	90	7,18	6,12	13,50
„ July	„		35	43	70	31	90	1,33	1,12	50	1,00	7,04	8,00	15,70
„ August	„		30	45	60	35	70	1,00	1,10	80	1,00	6,70	8,14	15,10
„ September	„		25	41	60	20	65	1,50	1,00	75	1,00	6,40	7,34	13,80

3. The figures shown under District Treasuries are those furnished by Accountants General, except in certain cases in which the local estimates have been corrected with reference to past actuals and estimates. Those entered under Presidency Banks and Reserve Treasuries work up to the total balances estimated by me on the principle explained in previous reports.

Cash Balances.

4. The following table shows the actual cash balances at the Treasuries on the first day of each month during the period under report, and their distribution between the Reserve and District Treasuries and the Presidency Banks, together with the corresponding figures of the preceding period :

[In thousands of Rupees]

	October.	November.	December.	January.	February.	March.	April.	May.	June.	July.	August.	September.	September closing balance.
1899-1900.													
Reserve Treasuries . . .	2,76,990	1,59,35	1,15,55	60,18	1,37,46	1,46,44	1,73,70	1,89,88	2,49,21	2,19,10	4,13,25	1,61,45	1,36,27
Presidency Banks . . .	1,54,41	1,66,02	1,54,98	1,58,05	1,34,75	1,46,50	1,44,70	1,05,10	1,51,79	1,58,91	1,56,98	1,25,35	1,66,03
District Treasuries . . .	8,82,48	6,54,57	6,12,18	6,57,54	7,80,08	8,15,77	9,45,48	8,29,01	5,73,11	9,34,55	8,51,02	8,00,28	6,55,10
TOTAL . . .	13,13,85	9,79,94	8,82,71	8,76,67	10,52,29	11,08,71	12,63,88	11,23,99	12,74,11	13,12,56	14,21,25	11,17,08	9,77,40
1898-99.													
Reserve Treasuries . . .	2,02,98	1,08,16	1,35,87	1,35,87	1,97,72	1,96,51	3,19,02	3,48,88	4,08,88	4,53,51	4,14,59	3,62,57	2,76,96
Presidency Banks . . .	1,74,07	1,50,29	1,52,74	1,67,17	1,59,31	1,61,46	1,69,01	1,70,09	1,85,05	1,73,35	1,58,00	1,88,32	1,54,41
District Treasuries . . .	10,22,67	8,65,87	8,38,68	8,49,38	10,71,45	10,62,81	11,90,72	10,44,07	10,00,10	11,05,42	11,10,83	9,66,94	8,82,48
TOTAL . . .	13,99,72	11,84,32	11,27,29	11,52,42	11,19,48	11,22,50	16,79,05	15,63,01	16,54,00	17,22,33	16,83,48	15,17,83	13,13,85
Difference . . .	85,87	2,04,38	2,44,58	2,75,75	3,67,19	3,14,55	4,12,77	3,70,96	3,79,98	5,09,77	2,62,23	4,00,75	3,36,45

5. The period under report was remarkable for its low treasury balances. The difference between the balances held at the commencement of each month and the corresponding figures of the previous year is separately shown at the end of the foregoing table. From 86 lakhs on the first of October the deficiency increased suddenly to 204 lakhs at the end of the same month and continued to increase almost steadily in each of the following months, till it amounted to 510 lakhs on the first of July. It will be noticed that in spite of the considerable reduction in the total treasury balances the amounts left in the head offices of Presidency Banks exceeded 150 lakhs during ten months of the year, against a minimum of 73 lakhs prescribed in the Banks' Agreements.

6. During the period covered by my last Report, the cash balances had just recovered from the effects of the famine and war of 1897-98. The relief, however, did not last long. Simultaneously with the commencement of the period now under report famine re-appeared in Southern and Central India, and towards its close the expenses connected with the des-

patch of troops to China added to the pressure on the balances. The result was that as compared with the corresponding period of the previous twelve months (see table under paragraph 9) Land Revenue collections fell short by 2 crores, expenditure on Famine Relief amounted to $8\frac{1}{2}$ crores and Ordinary Civil Expenditure was in excess by one crore. Loans and Advances by Government to cultivators and Native States afflicted with famine increased by $3\frac{1}{2}$ crores. Deposits by the people in Postal Savings Banks also fell off as might have been expected in a year of famine, and the net receipts of the Post Office, which consist chiefly of these deposits, decreased by half a crore. The drawings on the treasuries by the Military and Marine Departments also increased by $1\frac{3}{4}$ crores chiefly in connection with the despatch of troops to China. The total deterioration in the position arising from these causes amounted to $17\frac{1}{4}$ crores. On the other hand, the only chief items of improvement were an increase of one crore in Opium Revenue, an increase of $3\frac{1}{2}$ crores in Railway Revenue, and a profit of $2\frac{1}{2}$ crores on Silver Coinage, making a total improvement of nearly 7 crores. The net result was a deficiency of about $10\frac{1}{2}$ crores, of which 3 crores were met by a new loan, half a crore by a temporary loan, and $4\frac{2}{3}$ crores by a reduction of Council Bills. The total net drain on the cash balances in the twelve months thus amounted to more than 2 crores.

Absorption of Coin.

7. The low cash balances were accompanied by heavy demands for rupees at all the trade and famine centres. The following statement compares the monthly consumption and the stock of rupees and half rupees during the two years :

[In lakhs of Rupees.]

	October.	November.	December.	January.	February.	March.	April.	May.	June.	July.	August.	September.	Total.
Opening Balance—

Total stock (Treasury and Currency) at the end of each month—													
1899-1900	15.96	13.49	11.80	11.15	9.66	10.78	8.73	9.29	11.91	11.83	10.64	9.21	Average, 11.20
1898-1899	21.15	20.82	20.61	21.91	21.01	23.10	21.30	21.05	23.57	23.49	21.36	19.32	21.61
Stock in Treasuries only—													
1899-1900	3.60	3.37	3.50	4.37	4.73	5.54	5.03	4.62	4.97	4.83	4.83	3.88	4.44
1898-1899	5.67	5.38	5.77	6.72	6.44	7.95	6.74	6.83	7.97	7.76	6.43	5.64	6.61

The amount passed into circulation during the twelve months increased from 2,90 lakhs in 1898-99 to 17,35 lakhs in 1899-1900, including about 134 lakhs issued to Native States, and the total average stock of the coins in the hands of Government was reduced by about one-half notwithstanding the new coinage of 7,73 lakhs. Every effort was made to work the treasuries and currency offices with the minimum silver coin balances, and the average amount held in the Treasury balances diminished from 6,61 lakhs in 1898-99 to 4,44 lakhs in 1899-1900.

Movement of Funds.

8. The following statement gives the usual details of remittances between the different provinces and the comparison of the supplies and requirements of each province with the previous year :

[In thousands of Rupees]

10. As might have been expected, the provinces largely in deficit were those visited by famine, namely, India, Central Provinces, Punjab and Bombay, but in the case of India and Bombay the deficits were converted into surpluses by the new rupee loan of the year, by the issue of funds in India against gold held in the Bank of England as part of the Currency Reserve and by a reduction in the Secretary of State's drawings.

11. Details of Inter-provincial Remittances shown in the table under paragraph 8 are given in the Statement marked C annexed to this report. As compared with the corresponding statement of the last report, there was an increase in the total amount of each kind of remittance except treasury remittances of specie which fell off by 1,21 lakhs. The important increases were 12,39 lakhs in remittances by means of Currency transfers and 5,61 lakhs in transfers through Presidency Banks. The increase in the Currency transfers was caused mainly by the low treasury balances necessitating much greater resort to Currency chests and that in Bank transfers was the result of smaller drawings of Council Bills on Bombay. The falling off in the treasury remittances was also due to the low treasury balances making it more convenient to send specie remittances through the Currency Department instead of the Treasury.

12. The following statement gives the usual particulars of the large Foreign Remittances, as well as the more important of the Local Remittances, including Supply Bills, local and foreign :

[In lakhs of Rupees.]

13. The heavy demands for coin already noticed in paragraph 7 and the considerable reduction in the Treasury and Currency balances of rupees necessitated the unusually large movements of Currency coin noted in the preceding statement. The following is a summary of the resource operations of the year connected with the three Presidency Towns. The net surpluses available for withdrawal to Calcutta and Bombay were smaller, as the help required to be sent therefrom to meet famine and other demands was greater than in the previous year.

Supplies drawn to Calcutta.

14. The following points in the resource operations of each Province may be specially noticed.

15. In *India*, Ajmere and Sambhar, as usual, continued to be the two great surplus treasuries, and of the surplus coins collected at these treasuries 52 lakhs were sent to the N.-W. Provinces, 26 to Bombay, and 10 to the Punjab, while 18 lakhs were brought down to Calcutta from Ajmere in September at a time of pressure for coins there. Besides this 13 lakhs were sent to Indore and 14 lakhs paid to the Jodhpur Durbar on account of the value of its coins paid into the Calcutta Mint. Remittances on behalf of the Indian Famine Charitable Relief Fund added 26½ lakhs to the amount of local Treasury Remittances. The Hyderabad Treasury, which is ordinarily a surplus treasury, required a supply of six lakhs of rupees from Bombay during the year under report owing to the famine in Berar. The requirements of the Coorg Treasury decreased with the slackness of the demands of the planting community for Bills drawn by Madras on this Treasury. Indore required larger help than in the previous year owing to the grant of Famine Loans.

16. In the *Central Provinces* famine reduced the surpluses collected at Central Treasuries from 48 to 9 lakhs and increased the amount of help required to be sent to the Districts from 10 to 3,92 lakhs. Currency chests were opened at all treasuries and assistance from other provinces as well as from other treasuries in the province was given chiefly through these chests. The Nagpur Treasury alone remitted 3,69 lakhs to other treasuries in the province, of which 3,27 were sent through currency chests. With effect from June 1900 the earnings of the Bengal-Nagpur Railway have ceased to be paid at Nagpur in consequence

of the removal of its head office to Calcutta and this has, to some extent, reduced the usual collections at Nagpur. Large remittances of coin were required from other provinces during the earlier months (October to March) to meet the famine demands. Their export from the province in payment of imported food-grains during the subsequent months was successfully checked by offering facilities for remittance to traders in the shape of high value Currency Notes and Supply Bills which were freely issued for coins.

17. In *Burma* the surplus of district treasuries withdrawn to Rangoon was about the same as in 1898-99. The transfers from Bassein to Rangoon by means of Telegraphic Transfers were 17 lakhs more than in the previous year, owing to increased accommodation for the storage of coins at the former treasury. Transfers issued on Henzada and Maubin fell off by 7 owing to the low price of paddy. The issue of Local Bills was somewhat restricted owing to the withdrawal of Treasury surplus coins for remittances to Calcutta.

18. In *Assam* local remittances increased by 25 due to larger collections at Central Treasuries for remittance to other provinces. There was a coin remittance out of the province of 28 lakhs, a decrease of over 5 lakhs in bill receipts and one of 6 lakhs in surplus note remittances to the Reserve Treasury, Calcutta.

19. In *Bengal* the local surpluses were almost entirely withdrawn through currency chests to Calcutta as fast as they accrued, and owing to the shortness of funds the issue of Bills and Transfers in aid of trade had to be restricted. The demands of the opium-paying treasuries were more largely supplied from the local currency chests, requiring smaller remittances from other places, than in the previous year. Of the deficit treasuries, Darjeeling required the highest amount of remittances on record for several years past in connection with the repair of damages done by the landslip.

20. In the *North-Western Provinces* the resource operations were conducted under great difficulties on account of the combination of low cash balances and short stocks of coins, with an accumulation of Foreign Circle Notes in revenue collections, an expansion of the grain trade, an increase in the demands of the Opium Department and a contraction in the supply of coins from other provinces. Every available rupee was swept up. The province imported 2,46 lakhs and exported 1,40 lakhs of rupees during the year, showing a net absorption of 1,06 lakhs. The amount of local remittances increased by 4,84 lakhs and bill drawings were generally restricted.

21. *Punjab* received from other province about a crore more than in the preceding year owing to the famine. The movement of funds within the province exceeded the corresponding figure of the previous year by 1,90 lakhs.

22. In *Madras* the net amount remitted by District Treasuries was about 19 lakhs more than in the previous year. The issues of coins at the Presidency Town amounted to 2,33 lakhs, against 53 lakhs last year, of which the Bank of Madras took 1,40 lakhs. The issues from the District Treasuries, however, fell off from 2,66 to 1,23 lakhs. To meet the demand at Madras every district surplus had to be brought down up to the end of March. The treasuries were worked with the lowest balances possible. Supply Bills fell off owing to the shortness of funds.

23. In *Bombay* receipts on account of the New Loan and the transfers of trade balances to Calcutta increased the surplus of the Presidency Bank by 6,19 lakhs over last year and reduced its demands for help from the Reserve Treasury by 1,52 lakhs. On the other hand, the adverse circumstances of the year already explained reduced the surpluses and increased the demands of the District Treasuries. The increase in remittances from the Reserve Treasury amounted to 3,95 lakhs, including 96 lakhs to Ahmedabad, 70 to Kaira, 60 to Broach, 46 to Rajkote, 30 to Khandesh and 25 to Ahmednagar. Remittances between Districts fell off by 44. Thus Ahmedabad and Broach, which were able to transfer 26 and 16 lakhs respectively through Banks to other treasuries in the previous year, had themselves to be supplied with 34 and 14 lakhs respectively through Banks from the Reserve Treasury. A similar difference is also noticeable in local remittances by Bills. Bills drawn by Bombay on the District Treasuries and *vice versa* amounted to 26 and 1,83, respectively, against 1,15 and 50 last year.

Small Silver and Copper Coin.

24. The usual details of the absorption of these coins will be found in Statement D annexed to this Report. With the re-appearance of famine the absorption of each kind, except half-pice, increased, though to a smaller extent in some cases than in 1895-97 on the occasion of the preceding famine. The largest increases occurred in India, Central Provinces, Bengal and Bombay. The special features of each province are noted below.

25. In *India* there was a large increase in the absorption of small silver on account of the famine in Rajputana. In the *Central Provinces* the increase is most noticeable in the consumption of single pice in connection with Famine Relief works which absorbed also 38 lakhs of half rupees. The increased consumption in *Burma* is attributed to a plentiful harvest in rice. The falling off in the absorption of small silver in *Assam* is due to smaller demands of the Assam-Bengal Railway in Cachar. In *Bengal* the consumption increased in connection with the requirements of tea-gardens at Darjeeling and Jalpaiguri, of the rice trade at Dacca, Tippera and Pubna, and of Famine Relief works at Ranchi. Large amounts returning into the treasuries from circulation reduced the net issues in *North-Western Provinces*. Increased demands of the Military and Public Works Departments account for the large absorption in the *Punjab*. The progress of Railway and other works in *Madras* explains the increase appearing under that province. In *Bombay* the increase which was chiefly due to famine was largest in quarter Rupees and in double and single pice.

A—contd.

Statement showing the estimated minimum Cash Balances in the District Treasuries of each Province (excluding Head Offices of Presidency Banks and Reserve Treasuries) at the beginning of each month of the years 1892-93 to 1900-1901—contd.

Second-Lieutenant Edward Augustus Dennys resigns his commission.

No. 391.—*Naini Tal Volunteer Rifles*—

Second-Lieutenant John Harold Brown to be Lieutenant, with effect from the 1st March 1901, *vice* Pemberton, promoted.

Second-Lieutenant Robert Patterson Fleming to be Lieutenant, with effect from the 1st March 1901, *vice* Godber, transferred to the supernumerary list.

No. 392.—*Eastern Bengal State Railway Volunteer Rifles*—

Captain Thomas Walter Bartlett, V.D., resigns his commission and is granted, on retirement, the honorary rank of Major, with permission to wear the uniform of the corps.

No. 393.—*North Western Railway Volunteer Rifles*—

Captain Arthur Tyrrel Chamier, Royal Engineers, resigns his commission, with effect from the 1st April 1901.

No. 394.—*Malabar Volunteer Rifles*—

Surgeon-Captain Alfred McCabe-Dallas, Unattached List, to be Surgeon-Major, with effect from the 10th January 1900.

MEDALS AND DECORATIONS.

No. 395.—His Excellency the Governor-General of India is pleased to confer the Volunteer officers' decoration upon the undermentioned officers of the Indian Volunteer Force, who have been duly recommended for the same under the Royal Warrant of the 24th May 1894 (India Army Circulars, Clause 101 of 1894):

East Indian Railway Volunteer Rifles.

Lieutenant-Colonel William Arthur Dring.

1st Battalion, Bombay, Baroda and Central India Railway Volunteers.

Captain Charles Pratt.

MARINE DEPARTMENT.

FURLOUGH AND LEAVE.

No. 12.—The undermentioned officer has been granted an extension of leave by the Secretary of State for India:

Engineer A. Mackey, Royal Indian Marine (m. c.) for six months.

E. DEBRATH, Colonel,

Offg. Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

RAILWAYS.

NOTIFICATIONS.

Simla, the 2nd May, 1901.

No. 181.—With reference to Public Works Department, Notification No. 179, dated 1st May 1901, Lieutenant-Colonel G. F. Wilson, R.E., Class I, Grade 1 of the Superior Revenue Establishment of State Railways, and Manager, Oudh and Rohilkhand Railway, is appointed to officiate as Director of Railway Traffic and Deputy Secretary to the Government of India in the Public Works Department and *ex-officio* Director of Railway Statistics, *vice* Mr. A. Brereton.

No. 185.—Mr. L. E. H. Yates, officiating Deputy Locomotive Superintendent, reverted to his substantive appointment of District Locomotive Superintendent in Class II, Grade 1 of the Superior Revenue Establishment of State Railways, on the forenoon of the 22nd March 1901. He is again appointed to officiate as Deputy Locomotive Superintendent of the North Western Railway in Class I, Grade 3, from the 1st to the 15th April 1901, and with temporary rank in Class I, Grade 3, with effect from the 14th April 1901, during the absence of Mr. J. Rickie on leave, or until further orders.

No. 186.—With reference to Director of Railway Traffic's Notification No. 16, dated 26th March 1901, Mr. J. Silvester, officiating District Locomotive Superintendent, reverted to his substantive appointment of Assistant Locomotive Superintendent in Class III, Grade 2 of the Superior Revenue Establishment of State Railways, on the forenoon of the 22nd March 1901.

He is again appointed to officiate as District Locomotive Superintendent in Class II of that establishment, with effect from the 1st April 1901 and until further orders.

A. BRERETON,

*Offg. Secretary to the Government of India.**The 29th April, 1901.*

No. 177.—Mr. F. R. Upcott, C.S.I., Secretary to the Government of India, Public Works Department, Railways, is granted privilege leave for nineteen days combined with furlough for ten months and twenty-two days, under Articles 24 A and 340 of the Civil Service Regulations, with effect from the 1st May 1901, or such subsequent date as he may avail himself of the same.

The 1st May, 1901.

No. 179.—With reference to Public Works Department, Notification No. 177, dated 29th April 1901, Mr. A. Brereton, Director of Railway Traffic and Deputy Secretary to the Government of India in the Public Works Department, is appointed to officiate as Secretary to the Government of India, Public Works Department, Railways, during the absence on leave of Mr. F. R. Upcott, C.S.I., or until further orders.

T. HUGHAM,

Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

IRRIGATION ROADS AND BUILDINGS.

NOTIFICATIONS.

Simla, the 29th April, 1901.

No. 178.—Mr. T. Butler, Executive Engineer, 1st Grade, Bengal, is appointed to officiate as a Superintending Engineer, with effect from the afternoon of the 1st April 1901, during the absence on leave of Mr. K. H. Stephen, or until further orders.

The 2nd May, 1901.

No. 182.—Mr. H. V. S. Baker, Superintending Engineer, 2nd Class, temporary rank, Punjab, reverted to his substantive rank of Executive Engineer, 1st Grade, from the forenoon of the 16th March 1901 to the afternoon of the 28th idem, from which latter date he is reappointed to Superintending Engineer, 2nd Class, temporary rank.

No. 183.—Mr. H. F. B. Frost, Executive Engineer, 1st Grade, Punjab, is appointed to officiate as a Superintending Engineer, with effect from the afternoon of the 17th April 1901.

No. 184.—Mr. A. Monies, Executive Engineer, 1st Grade, Burma, is appointed to officiate as a Superintending Engineer, with effect from the afternoon of the 11th April 1901, during the absence on privilege leave of Mr. H. W. V. Colebrook, or until further orders.

TELEGRAPHS.

The 2nd May, 1901.

Mr. J. Coo, Superintendent, Class VI, 1st Grade, with

T. HIGHAM,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Circular No. 6-F.

Extract from the Proceedings of the Government of India, in the Department of Revenue and Agriculture (Forests),—dated Simla, the 15th April, 1901.

Read Circular Resolution No. 12 F., dated 17th December 1900, containing Regulations for the Forest Service Branch of the Royal Indian Engineering College, Cooper's Hill, for 1901.

Read, also, the following revised Regulations for 1901 of the Forest Service Branch in Cooper's Hill College:

REGULATIONS FOR THE FOREST SERVICE BRANCH OF THE ROYAL INDIAN ENGINEERING COLLEGE, COOPER'S HILL, FOR 1901.

(Revised copy, to be substituted for that issued in December 1900.—*Special attention is invited to the changes in paragraphs 4, 5 (note), 6, 8 and 11.*)

[*The arrangements hereinafter described are subject to revision under the orders of the Secretary of State for India.*]

1. The Royal Indian Engineering College is primarily maintained under the orders of the Secretary of State for India in Council, in view to the education of candidates from this country for the service of Government in the Indian Public Works and Telegraph Departments, the Accounts Branch of the Public Works Department, the Traffic Branch of the Indian State Railways, and the Forest Department; but it is open, to the extent of the accommodation available, to other persons being British subjects desirous of following the course of study pursued in it.

2. Admission to the College is under the orders of the President, who will allot accommodation as may best secure the object for which the College is primarily maintained, namely, the training and recruitment of the European element in the Departments mentioned in Clause 1.

INDIA FOREST DEPARTMENT APPOINTMENTS.

3. The examination, which will be conducted by the Civil Service Commissioners will be simultaneous with, and (except that German must be taken as an obligatory subject and that Botany is added) in the same subjects and papers as the examination for the Indian Police Department,* which is usually held in June.

Candidates may undergo the written part of their examination in London, Edinburgh, or Dublin, or at any of the provincial centres at which the simultaneous examination of candidates for admission to the Royal Military College, Sandhurst, is to be held. A list of the probable centres may be obtained from the Civil Service Commissioners at any time after January 1901. The oral and practical parts of the examination will be held in London only.

A fee of £2 is required from candidates examined in London, but when the written examination is conducted elsewhere than in London the fee is £3. Candidates examined at a college or school will probably be required to pay a local fee in addition to the fee of £3 (in order to defray the expenses of superintendence), as to which they should obtain early information from the college or school authorities. The fee payable to the Civil Service Commissioners must be paid by means of stamps of the specified amount. Instructions on this point will be issued to candidates about 10 days before the examination.

4. The number of candidates to be selected annually varies according to the requirements of the Forest Service in India; the figures as regards each particular year will be advertised from time to time. *In 1901 there will be eleven appointments offered for competition*

5. Candidates for the Indian Forest Department are selected under the following arrangements:

- (1) An applicant must be a natural-born British subject, and must be above 17 and under 20 years of age on the 1st June of the year in which he competes for an appointment. He must be unmarried, and if he marries before reaching India he will forfeit his appointment.

* Candidates may, if qualified, enter for both the Police and the Forest Departments. They will, in such case, have to pay the fee due in respect of each examination.

- (2) An applicant must send* to the Revenue Department of the India Office, on or before the 1st day of May of the year, in which he proposes to compete :
- His name, parentage, and home address, a certificate or other satisfactory evidence of the date of his birth, and the written consent of parent or guardian that his name should be recorded as a candidate.
 - A statement of the places of education at which he may have been, accompanied by testimonials of good conduct, during the last four years.
- (3) Applicants will have to appear before a Medical Board† at the India Office, particular stress being laid upon good vision‡ and hearing. A physical test will also be imposed, so as to ensure the selection of persons of active habits and powers of endurance.
- (4) Applicants who have passed the medical examination and the physical test will be permitted to undergo an examination before the Civil Service Commissioners in the following subjects§ (Classes I and II), marks being assigned as follows :

CLASS I.

	Marks.
Mathematics I (including Arithmetic)	3,000
German¶ (300 for colloquial)	2,000
Botany	2,000
English Composition	1,000
Geometrical Drawing	500
Freehand Drawing	500
Geography	500

CLASS II.

Mathematics II	2,000
Latin	2,000
French	2,000
Greek	2,000
English History	2,000
Chemistry and Heat	2,000
Physics	2,000
Physiography and Geology	2,000

Candidates must obtain such an aggregate of marks in the examination as a whole as may indicate in the judgment of the Civil Service Commissioners a competent amount of general proficiency.

* There is no form of application; the documents specified in paragraph 5 (2), clauses (a) and (b), should be enclosed in a covering letter addressed to the Secretary, Revenue Department, India Office, London.

† It is suggested that a candidate before commencing any special course of study, should undergo a thorough medical examination. By such an examination any serious physical disqualification would probably be revealed, and the candidate might thus be spared the expense and waste of time involved in a course of preparation for a service for which he is physically unfit.

‡ Candidates for the Civil Service may, if they wish it, undergo a preliminary examination by the Medical Board at the India Office, not more than two years before they are qualified to compete, under the following conditions :

- Applications must be addressed to the Under-Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas and by a statement of the candidate's age.
- Candidates must pay their travelling expenses.
- Candidates considered to be unfit by the Medical Board at this preliminary examination, are not bound to accept its opinion, but may at their own risk, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, shortly before the literary examination at which they wish to compete.
- On the other hand it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit when he presents himself for the final medical examination upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the service at the preliminary examination, but may be found at the final examination to be unfit either on account of some physical defect which did not exist or passed undetected at the preliminary examination or for other reasons.

§ On the subject of the standard of eyesight required for the Indian services, a pamphlet can be obtained on application to the Secretary, Revenue and Statistics Department, India Office.

¶ Reprints of the papers set at previous examinations, together with tables of the marks assigned to the candidates, are published by the Civil Service Commissioners, and can be obtained through any bookseller from the following Agents: EYRE & SPOTTISWOOD, East Harding Street, Fleet Street, London, E. C.; JOHN MENZIES & CO. Rorie Street, Edinburgh, and 40, West Nile Street, Glasgow; and HODGAS FIGGIS & CO., Limited, 104, Grafton Street, Dublin. The price is one shilling.

‡ All the subjects of Class I may be taken up. Only two of the subjects of Class II may be taken up.

¶ Candidates must qualify in German.

(5) The Secretary of State will nominate as probationers such competitors as attain the highest aggregate of marks (provided they obtain the aggregate referred to above and satisfy the requisite conditions in other respects). These probationers will then enter the College, where they will be further trained for the Forest Service of India.

(6) If the full number of competent probationers required in any year cannot be obtained from the persons so examined, the Secretary of State reserves a discretion to fill up the deficiency by selecting any other person or persons whom, after consulting the authorities of the College, he may consider properly qualified to become probationers for the Forest Service.

6. The course of study for candidates for the India Forest Service extends over about three years. For about six terms the candidates will prosecute their studies mainly at the College, and during the period of foreign study, which will occupy the remainder of the course, they will visit under suitable supervision, such continental forests as may be selected for the purpose. Excursions may also be made for purposes of instruction, both during term time and during part of the vacations.

7. Each annual session begins in September, and is divided into three terms, with vacations of about four weeks at Christmas, two weeks at Easter, and eight weeks in the summer.

8. A charge of £61 is made for each of the six terms spent at the College; for the period of foreign study the charge is £70 for each of the three terms; the amounts must be paid terminally in advance to the Bank of England. Receivable orders, with full directions as to the mode of payment, will be forwarded from the India Office to the parents or guardians shortly before the fees fall due. A student will not be allowed to come into residence or to start for or continue his study of foreign forests until his fee for the term has been paid.

9. A deposit of £5 is required to be paid by each student on admission to the College as caution money, to cover charges incurred by him for damage to books, instruments, etc., or any College bills outstanding on leaving the College. Any balance over and above such charges will be repaid. This deposit is to be paid with the fee for the first term, making the total payment on that occasion £66.

10. The foregoing payments cover all charges for tuition, board according to the College tariff, lodging, with washing up to a cost of 2s. a week, and ordinary medical attendance while in residence at the College. When students are on tour, and during the course of practical instruction, whether in Great Britain or on the Continent, the Secretary of State will defray the expenses of (1) board, lodging, and washing (the aggregate maximum expenditure under these heads being 10s. per diem); (2) traveling expenses; and (3) fees to local Forest officers, etc.

Students are required to provide their own class books and drawing instruments. Drawing paper, drawing boards, and surveying instruments are provided by the College.

11. The prescribed course of study comprises the following subjects:

I.—Auxiliary Subjects.

- | | |
|-------------------------|----------------------------|
| 1. Geometrical Drawing. | 7. Physics. |
| 2. Freehand Drawing. | 8. Chemistry. |
| 3. Surveying. | 9. Geology and Mineralogy. |
| 4. Forest Engineering. | 10. Entomology. |
| 5. Account. | 11. Botany. |
| 6. German. | 12. Drill and Gymnastics. |

II.—Forestry, Theoretical and Practical in all its branches.

12. Every student is required to conform to the College rules, to exhibit due diligence in his studies throughout the course, and to give evidence of satisfactory progress in such manner as may be required, failing which, or in the event of serious misconduct, he will be liable to be removed from the College, or to be sent back from the foreign study, which may entail the loss of his appointment.

13. During the course of study the proficiency of the students will be tested by periodical examinations, and on the termination of their studies there will be a final examination. Each student may also, at the discretion of the Secretary of State for India be required from time to time to appear before the medical board, and should the result be unsatisfactory he cannot claim to be allowed to complete the course.

14. The subjects enumerated in paragraph 11 are grouped in certain main branches of study,* and a fixed minimum of qualification is required in each branch and in the

* For details see Royal Indian Engineering College Calendar.

subjects taught during the forest tours, as well as a certain minimum for all branches taken together. Students who obtain these minima will receive the College diploma in Forestry.

15. Candidates who have obtained this diploma, and are found to be of sound constitution and free from physical defects which would render them unsuitable for employment in the Forest Department (the final decision on which points will rest with the Secretary of State for India), will be appointed Assistant Conservators in the Forest Department of India in the order of their standing at the end of the final examination. They will be allowed before leaving the College to state their preference in respect to the Provinces to which they desire to be allotted; but the distribution will be made to the several Provinces according to the needs of the public service, at the discretion of the Secretary of State for India after consulting the President of the College. Officers are, however, at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

16. Within a month of his nomination as Assistant Conservator, each nominee must sign articles of agreement describing the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State, and will be provided with a free passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

17. The pay of an Assistant Conservator of Forests will begin from the date of reporting arrival in India. Probationers who acquit themselves creditably during their course at Cooper's Hill College will begin on a salary of Rs. 350 a month. It will, however, rest with the President of the College to decide whether any of the probationers, though they have obtained the College diploma in Forestry, have failed to deserve that rate of initial salary. Such probationers, if any, will begin on a salary of Rs. 250 a month; and this difference of salary will continue until the first departmental examination is passed in India. Officers entering the Forest Service will be required to contribute a subscription ranging from a compulsory minimum of 5 per cent. up to a voluntary maximum of 10 per cent. of their salary to the Forest Officers' Provident Fund. Such contributions, with compound interest, will accumulate till the date of retirement, when the total sum will be paid to the contributor, or, in the event of death before retirement, to his legal representative.

18. Promotion, leave, and pension will be governed by the regulations laid down by the Government of India and made applicable to Forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and then interpretation in case of any doubt arising being left to that Government. The pension rules applicable to Public Works and Telegraph officers appointed from Cooper's Hill College have been extended to Forest officers appointed from England, and the Inspector General of Forests and Conservators of the 1st grade are now eligible for the extra pension of Rs. 1,000 per annum admissible to an officer after at least three years of approved service as a head of a department in any province, it considered deserving of the special concession. A copy of the Regulations relative to these matters can be seen on application either at the Library or the Record Department of the India Office; the principal rules are contained in the Abstract of the Civil Service Regulations, as given in the "India List and India Office List," published by Messrs. Harrison and Sons, 59, Pall Mall, London, which can be procured through any bookseller.

19. Every candidate, before proceeding to India, will be required to furnish to the President of the College satisfactory evidence of his competency in riding.

GENERAL RULES.

20. Chemical, physical, and botanical laboratories, a forestry museum, a forest nursery, a library, and gymnasium are attached to the College. Means are also provided for the practice of photography. Students making use of the laboratories are supplied with the needful apparatus.

21. The responsibility for the discipline and management of the College and for the superintendence of the studies is vested in the President, under the control of the Secretary of State for India.

22. The students are distributed in divisions, under personal charge of one of the Professors or Instructors selected by the President; such tutor being responsible for exercising the proper degree of personal supervision over each student in his division, and for conducting necessary correspondence with the student's parents or guardians.

23. Each student residing in the College is provided with a separate room, and with fuel and light, also with the necessary attendance. Furniture and bedding are supplied

by the College, but students are required to provide their own towels and bed linen. Meals are taken in Hall. Wine and beer are not included in the ordinary fare, but can be obtained from the College cellar at fixed prices.

24. A chapel is attached to the College, which the students are required to attend at Sunday morning service, unless specially exempted.

25. Every student will be required to go through a course of gymnastics and also of military exercises, including the use of the rifle.

STUDENTS NOT NOMINATED FOR THE INDIAN FOREST SERVICE, BUT DESIROUS OF OBTAINING A DIPLOMA IN FORESTRY FROM COOPER'S HILL COLLEGE.

26. Students not nominated for the Indian Forest Service may be received into the College, as far as the available accommodation permits. Such students may pass through the course of instruction prescribed for the nominees of the Indian Forest Service, as detailed above, or they may be permitted to participate in the instruction given in certain subjects only. On attaining the prescribed minima of marks in the several branches of study and in totals as laid down above, they will receive, as the case may require, either the College diploma in Forestry or special certificates showing in what subjects they have followed the instruction, and with what result.

27. Candidates who desire to be admitted under paragraph 26 may submit the necessary application at any time, but not later than the 15th day of June of the year named for admission, except with the special permission of the President. The application must be made on the prescribed forms, which can be obtained from the Secretary of the College.

28. Candidates whose applications are found satisfactory as to character and in other respects will be required to undergo an examination, to be held at the College about the last week in June of the year for admission. The object of the examination will be to ascertain whether the candidate is qualified to follow the course of instruction with advantage (or certain parts of it, as the case may be). Candidates who do not come up to the required standard will not be admitted to the College.

The President may dispense with the whole or any portion of this examination in the case of a candidate who produces an University diploma, or other similar certificate granted by a recognised examining body.

29. Candidates admitted to the College under paragraph 26, who propose to pass through the full prescribed course of study, will be required to pay the same fees in every respect as those paid by the nominees for the India Forest Service. Candidates who do not become resident, and are admitted only to certain subjects of study, will be required to pay the fees which may be fixed in each special case in consideration of the extent of their studies. The candidates of both classes will be required to abide by the general rules of the College.

FOREST ENTRANCE EXAMINATION.

SYLLABUS.

Mathematics I.—Arithmetic; Algebra up to and including the Binomial Theorem; the theory and use of logarithms; Euclid Books I to IV and VI; Plane Trigonometry, up to and including solution of triangles; Mensuration.

Mathematics II.—Further questions on the Syllabus of Mathematics I; Elementary Solid Geometry, including Euclid, Book XI, Propositions 1 to 21; Euclid, Book XII, Propositions 1 and 2; Geometrical Conic Sections, the elementary properties common to the ellipse, parabola and hyperbola; Dynamics and Statics, uniform and uniformly accelerated rectilinear motion, uniform circular motion, motion of projectiles (not requiring a knowledge of the parabola), equilibrium of forces in one plane and of parallel forces, the centre of mass, and the construction and use of the simpler machines.

Latin.—Passages selected from the authors usually read in schools will be set for translation into English. Passages from English authors will be given for translation into Latin prose and verse, but candidates will be allowed, in the place of verse composition, to answer questions of a simple character which will test whether they possess a fundamental knowledge of the grammar of the language, and such an elementary acquaintance with Roman History as is required for the intelligent study of the books they have read.

Greek.—Passages will be set for translation into English from the authors usually read in schools, and in other respects the Examination will proceed on the same lines as in Latin.

French.—Translations of unseen passages from French into English, and from English into French. The passages for translation will be taken, mainly, from standard authors, and a few simple questions may be asked on the passages set, as to the structure and

character of the language, and allusions of obvious and general interest. The *visu voce* examination will include Dictation. 300 marks will be allotted to colloquial knowledge of the language.

German.—The passages for translation will be taken mainly from standard authors, and in other respects the examination will proceed on the same lines as in French.

English Composition.—Candidates will be tested by *précis*-writing as well as by an Essay. The standard of positive merit will be looked for in logical arrangement of thought, and in accuracy and propriety of expression, but large deductions of marks will be made for faults of writing and spelling.

(Candidates are also warned that for similar faults in the use of the English language similar deductions will be made from the marks obtained in other subjects.)

Geometrical Drawing.—Practical plane geometry; the construction of scales; and the elements of solid geometry, and of simple orthographic projection. Great importance will be attached to neatness and exactness of drawing.

Geography.—Simple questions in descriptive and general geography.

English History.—The General Paper in this subject will be confined to events subsequent to the Norman Conquest. It will test whether the candidates are accurately acquainted with the facts of English History, and also possess an intelligent knowledge of the meaning of the facts.

The paper on the special period will be confined to distinctly modern history. It will require from the candidates more minute knowledge than the General Paper.

The Special Period will be for 1901.—From 1748 to 1800.

Natural Science Subjects.—The standard of Examination in these subjects will be such as may be reasonably expected from the education given at schools possessing appliances for practical instruction, such as a laboratory, etc. A considerable portion of the marks will be given for proficiency shown in the practical part of the Examination. A knowledge of the metric system will be expected.

Chemistry.—The laws of chemical combination and decomposition, and the preparation, classification, and properties of the principal metallic and non-metallic elements, and of such of their compounds as are treated of in inorganic chemistry. In the practical part of the examination only the more ordinary apparatus and the less dangerous reagents will be supplied, and no candidate will be allowed to bring his own apparatus or reagents.

Heat.—The elementary portion of the subject.

Physics.—The elementary properties of electricity, magnetism, light, and sound.

Physiography, i.e., physical geography.

Geology.—Chiefly economic, including the recognition of the more familiar minerals and rocks, and their properties and uses.

Botany.—The elementary parts of vegetable morphology, histology and physiology and the principles of a natural system of classification as illustrated by the more important British natural orders. Candidates will be required to describe plants in technical language.

(Questions will not be set on vegetable paleontology or on the geographical distribution of plants.)

ORDER.—Ordered, that a copy be forwarded, for information, to the Gov-

Bengal.
North-Western Provinces
and Oudh.
Punjab.
Burma.
Central Provinces

Assam.
Coorg.
Ajmer.
Andamans.
Baluchistan.
Hyderabad.

ernments of Madras and Bombay, the Local Governments and Administrations noted in the margin, the Inspector General of Forests, and the Comptroller and Auditor General.

Ordered, also, that these papers be published in the *Supplement to the Gazette of India*.

[True Extract.]

J. B. FULLER,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Weather Review of India for the Week ending at 8 a.m. on
Saturday, the 27th April, 1901.**

The chief features of the meteorology of the past week have been the changes in position of the low pressure area in North-East India accompanied by thunderstorms in parts of Bengal and Assam, the unusually low temperature which has continued to prevail in Northern and Central India, and the cyclonic storm which formed in the Arabian Sea at the close of the week.

On Saturday, the 20th April, the low pressure area in North-East India extended southwards into the Central Provinces, and thunderstorms, which during the previous week had been confined chiefly to Assam, became more general in North-East India. On Sunday morning thundershowers were reported from numerous stations in Assam, Bengal, Orissa and Chota Nagpur. Amounts ranging from one to one-and-a-half inches were received at Saugor Island, Jessore, Calcutta and Burdwan. Thunderstorms and nor'-westers were again fairly general in Assam and Bengal during the two following days, but on Wednesday they occurred only in Assam, East and South-West Bengal and Orissa. The number of thunderstorms reported was still smaller on Thursday and Friday, and on Saturday Silchar and Sibsagar were the only stations that had received showers.

On Thursday the barometer fell slightly to briskly in the west of the Peninsula, a shallow depression was formed in the Deccan which gave thunderstorms in the interior and southern districts of the Peninsula, and winds were more easterly than the day before on the West Coast. On Friday easterly to southeasterly winds were blowing across the southern half of the Peninsula and pressure was in slight to moderate defect along the West Coast, while it was in general excess elsewhere. On Saturday morning a cyclonic storm had formed in the Arabian Sea and had given thundershowers in the south and west of the Peninsula. Winds were rising at some of the West Coast stations and the sea was rough at Colombo and Cochin. The storm was, however, at a considerable distance from the coast and the pressure changes were not large.

Abnormally low temperature has continued during the week in Northern India, but temperature rose very rapidly in Gujarat and Rajputana on Saturday, and the mean temperature of the preceding twenty-four hours was in considerable to very large excess in Gujarat and Khandesh.

Rain.—Rain has fallen in Bengal and Assam, the Bombay and Malabar Coast districts and Madras. A few showers have been received in other parts of India, but the amounts are small and unimportant. The largest amounts reported are in Eastern and Deltaic Bengal, Assam and Malabar. The rainfall of the week has been equal to, or in excess of, the normal in the Surma and hills

divisions of Assam, Eastern, Deltaic and Central Bengal, Orissa, Chota Nagpur, South Oudh, Berar, the Konkan, Mysore, Coorg, Malabar, South and South-Central Madras and the north and south divisions of the East Coast.

The following gives the largest amounts received at individual stations :—

Assam	South Sylhet	5.39 inches.
	Cherra Poonjee	8.54 „
Bengal	Bhola (Backergunge)	5.75 „
	Feni (Noakhali)	6.49 „
Malabar	Perintelmannia	5.33 „
Mysore	Devanhalli	5.24 „

The rainfall of the period, March 3rd to April 27th, has been practically normal or in excess in Eastern and Deltaic Bengal, Chota Nagpur, the eastern division of the North-Western Provinces, the Submontane, Hills, North and West Punjab, Malabar, the Konkan, the Bombay Deccan, Khandesh, Berar, the Central Provinces, Gujarat, Central India (East) and South Madras.

C

SIMLA, 2nd May, 1901.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the 4th May 1901.

Madras.—The rainfall was good in the Southern, West Coast and the Nilgiri districts, moderate in Vizagapatam and Coimbatore and light or *nil* elsewhere. The water-supply is insufficient in many districts, but has been somewhat improved in parts by the recent rainfall. Ploughing and other agricultural operations are in progress in parts. Standing crops are thriving generally, but need rain in parts of North Arcot, Coimbatore and Madura. Harvests of late crops continue on small areas with moderate yield. Pasture generally is scarce except in the Circars, Tanjore, Tinnevely and the Nilgiris, but fodder generally is available. The condition of cattle generally is good. Prices generally are stationary or slightly easier; those of some or all the dry staples in most of the Deccan districts, North Arcot, South Arcot and Salem are above the scarcity rates. Prospects generally are fair. Numbers on relief—Cuddapah—weavers—men, 1,711; women, 1,348; total, 3,059. On test-works—Cuddapah—men, 845; women, 869; children, 81; total, 1,795. One test-work opened in North Arcot attracted men, 188; women, 218; children, 16; total, 422; previous week, 200.

Bombay.—Slight rain fell during the week in parts of Surat, Poona, Satara, Belgaum and Kanara and there was a very slight fall in parts of Shikarpur, Upper Sindh frontier, Ahmednagar, Sholapur, Bijapur, Dharwar and Ratnagiri. Agricultural prospects are good in Sindh, fair to good in the Konkan and in parts of Kaira, Broach, Surat, Khandesh, Poona and Satara and moderate to poor elsewhere. Standing spring crops are suffering from want of moisture, except in irrigated lands. Reaping of spring crops has been completed in Ahmedabad, Thana, Kolaba and Sholapur, is nearly over in Karachi, the Panch Mahals, Kaira, Ratnagiri, Khandesh and Kanara and is progressing in other districts of Gujarat and the Deccan. Threshing is in progress in parts of Shikarpur, Upper Sindh frontier, Broach and Nasik. Cotton-picking has been completed in Dharwar and Wadhwan, is nearly over in Ahmedabad and Surat and is progressing in Kaira, Broach, Rajkot and Baroda. Lands are being prepared for next season in Gujarat, the Konkan, the Karnatak and the Deccan and in parts of Sindh. The fodder-supply is sufficient, except in parts of Bijapur and Dharwar. Agricultural stock generally are in good condition. The water-supply is becoming deficient in parts of Ahmednagar, Poona, Belgaum and Dharwar. Prices have fallen in three districts, risen in two districts and are stationary elsewhere. The price of rice is about normal in Gujarat and slightly over normal in the Deccan, the Karnatak and the Konkan, but easier than in 1900. The price of *bajri* is below normal in Gujarat, over normal in the Deccan and the Konkan and considerably over normal in the Karnatak and, compared with 1900, easier in the Konkan and the Karnatak and considerably easier elsewhere. The price of *juar* is below normal in Gujarat and considerably over normal in the Deccan, the Konkan and the Karnatak and, compared with 1900, is easier in the Konkan and the Karnatak and considerably easier elsewhere. The price of wheat is over normal in Gujarat and considerably over normal in the Deccan, the Konkan and the Karnatak and, compared with 1900, about the same in the Konkan and easier elsewhere.

Daily average numbers on relief—British districts—on test-works, 3,715; on relief-works, 199,891; dependants, 26,690; total on works, 230,296. In poor-houses, 4,479; on village relief, 58,452; total on gratuitous relief, 62,931. Figures for Ahmedabad, Nasik and Dharwar are incomplete. Native States—on relief-works, 19,878; dependants, 6,958; total on works, 26,836. In poor-houses, 1,056; on village relief, 1,047; total on gratuitous relief, 2,103. Figures for Aundh and Phaltan are incomplete. Grand total, 322,166.

Bengal.—There was general rain during the week all over the Province, excepting the Patna division and the districts of Monghyr, Hazaribagh and Ranchi. The rains have done much good to sowing and cultivation. Ploughing of lands for *aus* and for *aman* and jute is still in progress. Fodder and water generally are sufficient. The price of common rice has risen in twenty-one districts, fallen in five and is stationary in the rest.

North-Western Provinces and Oudh.—The weather generally was bright during the week. A few light showers are however reported from four districts. Harvesting of spring crops is completed in most districts and is approaching completion in the others. Threshing and winnowing continue. Extra crops and sugarcane are in flourishing condition, and are being irrigated. Some damage has been caused to young sugarcane in Muzaffarnagar by locusts. Supplies and fodder are sufficient. Prices are practically stationary.

Punjab.—A slight fall of rain is reported from the hilly part of the Rawal Pindi district. The harvesting of spring crops continues. Sowings of cotton and sugarcane have been nearly completed in parts of Sialkot, but are still going on in Mooltan and Lahore. Spring crops are being threshed in Hissar, Amritsar and Sialkot. Sowings of autumn crops have been commenced in Shahpur. Prospects of standing crops are generally said to be good. The yield is reported to be average in Amballa, much above average in Ferozepore, good to average in Sialkot, above average in Shahpur and good elsewhere. Standing crops are flourishing. Locusts appeared in three tahsils of the Rawal Pindi district, but did no damage. They laid eggs and measures were taken to destroy them. Locusts have also appeared in Dera Ismail Khan and are being destroyed. A flight of locusts also passed through Shahpur without doing any damage. Cattle are generally in good condition. Pasturage fodder is said to be sufficient in all districts, except in parts of Mooltan. Prices of food-grains are generally falling, except in Delhi, where a rise is reported. Wheat is selling from 13½ to 15½, barley 19½, gram 24 to 25, maize 20 to 33 and bulrush millet 20½ to 27 seers per rupee.

Burma.—Reaping of dry weather paddy in the Myedé township of Thayetmyo, ploughing for early sesamum in Pakokku and for wet weather paddy in Bhamo and sowing of paddy on hill sides in Myitkyina have been commenced. Plucking of tobacco in Myitkyina has been completed, and in Myingyan is approaching completion. In Bhamo slight damage has been caused by strong wind. Rain fell throughout during the week except in the dry zone. The price of paddy has risen in Prome, Pakokku and Shwedo and has fallen slightly in Thongwa and Thaton; elsewhere it is stationary.

Central Provinces.—The weather generally was hot and cloudy, with high winds. Light showers of rain fell in Narsinghpur and Nimar and in the Nagpur and Chhattisgarh country. Threshing of spring crops is in progress. The outturn is reported to be good in Chhindwara. In Chanda the harvesting of double cropped rice has been completed. The preparation of land for summer sowings continues. Fodder generally is sufficient. Prices are stationary in Damoh, Narsinghpur, Bhandara and Sambalpur; elsewhere there are slight local fluctuations. The cheapest prices are—wheat, 14; gram, 16½; rice, 13½; and *juar*, 20 seers per rupee. The dearest prices are—wheat, 8½; gram, 12; rice, 8; and *juar*, 15 seers per rupee. There are still five persons on relief in the Saugor poor-house. In Balaghat there are 847 on village relief and 55 in pauper wards.

Assam.—Rain fell in all districts, except Goalpara. More rain is wanted in Goalpara and Kamrup. Pressing of sugarcane is nearly finished. Prospects are good in Lakhimpur and fair in other districts. Picking of tea is in progress. Prospects are good in Lakhimpur and fair in other districts except Nowgong where tea is reported to be backward. Planting of sugarcane is in progress in places and sowing of jute in Sylhet, Goalpara and the Garo hills.

Reaping of lowland transplanting rice continues in Sylhet. Water is scarce in parts of Darrang and Nowgong and fodder and water are insufficient in the Khasi and Jaintia hills. Prices—common rice—Silchar, $11\frac{1}{2}$; Sylhet and Nowgong, 10; Dhubri, $9\frac{1}{2}$; Tezpur, $10\frac{1}{2}$; Gauhati and Sibsagar, 11; and Dibrugarh, $7\frac{1}{2}$ seers per rupee.

Mysore.—The rainfall amounted to 60 cents in the Civil and Military station. The rain was generally good throughout. Standing crops are in good condition throughout, except in parts of Chitaldrug. Paddy is being harvested in parts and *rugi* is being sown in other parts. Prospects are good in Mysore, Kolar and Kadur and fair in Hassan and Chitaldrug. Prices are steady in Chitaldrug, have risen in Mysore and parts of Tumkur and Kadur and have fallen in Kolar, Hassan and Shimoga and other parts of Tumkur and Kadur. Cattle are healthy except in parts of Chitaldrug. Water and fodder are available except in a few parts of Mysore and Tumkur and in Chitaldrug and parts of Hassan where water is gradually getting scarce.

COORG. The rainfall amounted to 45 cents. Ploughing for *rugi* and for rice continues. Coffee is in blossom. Prices of food-grains are normal. Water and fodder are sufficient.

Berar.—The weather was hot and cloudy. Land is being prepared for the monsoon crop. Fodder and water are sufficient. Prices are almost stationary.

Hyderabad.—The rainfall during the week was 14 cents. The total from 1st January is 2 inches 10 cents. The winter rice harvest still continues. Preparations for next sowing season are going on. The condition of cattle is satisfactory. Grain prices are almost steady. Number of persons on relief-works, 12,518; gratuitously relieved, 12,256; total, 24,774. Prices—wheat, $5\frac{1}{2}$; coarse rice, $7\frac{3}{4}$; and *juar*, $14\frac{1}{2}$ seers per *halli* rupee.

Rajputana.—Agricultural operations are satisfactory. Standing crops generally are in good condition. Harvesting and threshing of spring crops continue. Cattle are in good condition. Fodder is ample. Cheapest prices range from 12 to $31\frac{1}{4}$ seers per rupee. Number on gratuitous relief, 233.

Central India.—Light showers of rain fell in Bhopawar, but none elsewhere. Agricultural operations have been completed in Gwalior, Bundelkhand and Baghelkhand, and are in progress elsewhere. There were no standing crops in the agency, except in Bhopal and Malwa, where they are in good condition, and the probable outturn is below expectation in Baghelkhand and fair elsewhere. Crops have been damaged by rust in Bundelkhand and by drought in Malwa. The condition of opium generally is good. Agricultural stock is in bad condition in parts of Malwa, but good elsewhere. Prices of food-grains are falling in Gwalior, Bhopawar and Malwa, are steady in Bhopal and Indore, are normal in Bundelkhand and are below average in Baghelkhand. Average prices—in Gwalior, 16·12 to 29·2; in Bundelkhand, 19 to 23; in Malwa, $16\frac{1}{2}$; in Bhopawar, 17 to 18; in Indore, 7 to 20 seers the rupee. Numbers on relief—Jaora—gratuitous, 58; on Jobat, Alirajpur, Jhabua, Amjhera and Kuksi relief-works, 4,391.

Baroda.—Agricultural stock is in fair condition. Prices—*bajri*, 34; *juar*, 36; wheat, 25; rice, superior, 13; rice, inferior, 23 pounds per rupee. Numbers on relief—on works, 13,593; gratuitous relief, 5,895; total 19,488.

Kashmir.—The weather was sunny and bright. Crops are in good condition. Prices are normal, rice selling for $24\frac{3}{4}$ seers the rupee. **JAMMU PROVINCE:** No rain fell during the week. The condition of standing crops is good. Cutting and threshing of spring crops are in progress. Fodder is sufficient. Prices are falling, wheat selling from 15 to 17 and maize 24 to 32 seers per rupee.

Nepal.—There was no rain during the week. The weather is fine and warm. The price of rice is $8\frac{1}{2}$ seers per rupee.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table :

J. B. FULLER,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.
(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected District details of the totals published weekly in the Crop and Weather Summary of the *Gazette of India*.
Boarding children and other dependants of relief workers are classed as on relief works when distinguished in the local returns, from persons relieved in poor-houses or at their homes. Weavers relieved in their own trade are shown under "Gratuitous relief."
Dates at the head of the table are the dates of the *Gazette of India* in which the Provincial totals were published. The figures, however, actually numbers on relief in each preceding week.

Name of Province and District.	Population.	FOR THE WEEK ENDING THE 6TH APRIL 1901.			FOR THE WEEK ENDING THE 13TH APRIL 1901.			FOR THE WEEK ENDING THE 20TH APRIL 1901.			FOR THE WEEK ENDING THE 27TH APRIL 1901.

INVENTIONS and DESIGNS.

Calcutta, the 2nd May 1901.

NOTIFICATIONS.

No. 1402 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 27th April 1901 :—

- No. 184 of 1901.—William Samuel Laycock, manufacturer, of Victoria Street Works, Sheffield, England. *Improvements in mechanism for actuating the hand brakes of railway vehicles.*
- No. 185 of 1901.—George Jones Atkins, metallurgical chemist, of the Laboratory, Ruskin Road, Tottenham, in the county of Middlesex, England. *Improvements in the electrolysis of chlorides of metals of the alkalis and alkaline earths for the purpose of obtaining chlorine and apparatus therefor.*
- No. 186 of 1901.—George Jones Atkins, metallurgical chemist, of the Laboratory, Ruskin Road, Tottenham, in the county of Middlesex, England. *Improvements in the manufacture of chlorine, and in the employment thereof for bleaching, for disinfecting for the treatment of metals and metallic ores and so forth.*
- No. 187 of 1901.—Fred Ford Dow, mechanician, of the City of Fredericton, County of York, in the Province of New Brunswick, Canada. *Improvements in vapour lamps or burners.*
- No. 188 of 1901.—Hab and Son, engineers and lock manufacturers, of 51, Champatola 1st Lane, Calcutta. *A padlock called the "Demon Padlock."*
- No. 189 of 1901.—Hab and Son, engineers and lock manufacturers, of 51, Champatola 1st Lane, Calcutta. *A padlock called the "Scorpion Padlock."*
- No. 190 of 1901.—Thomas Macalpine, Doctor of Science and Research chemist, of Chiswick, England. *Improvements in the refining of oils.*
- No. 191 of 1901.—Harriet Emily Bradley, gentlewoman, of Howrah, Bengal. *A combined water or conservancy cart.*
- No. 192 of 1901.—Mower and Company, general merchants, engineers, iron founders, etc., of Kamakasit, Rangoon. *A floating rice mill to be designated "The Mower and Co. patent floating rice mill."*
- No. 193 of 1901.—Henry Elworthy, manager and agent of the firm of Messrs F. & C. Osler, of Birmingham, carrying on business as Electric Light Engineers, at No. 12, Old Court House Street, Calcutta. *A safety suspender for use with electric ceiling fans or punkahs.*
- No. 194 of 1901.—Patrick M Joseph, Assistant Port Conservator, Beypore, Malabar District. *A specific for the prevention of sudden death by heart disease.*

No. 1403 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 301 of 1900.—Montague Kelway Bamber, chemist, and Brown and Co., Ltd., engineers, both of Colombo, Ceylon. *Improvements in the manufacture of green tea.* (Specification filed 23 April 1901.)

- No. 334 of 1900.—The British Westinghouse Electric and Manufacturing Co., Ltd., manufacturers of Westinghouse Building, Norfolk Street, in the City of Westminster, England. *Improvements in controllers for electric motors.* (Specification filed 23 April 1901.)
- No. 335 of 1900.—The British Westinghouse Electric and Manufacturing Co., Ltd., manufacturers, of Norfolk Street, in the City of Westminster, England. *Improvements in electric brakes.* (Specification filed 23 April 1901.)
- No. 336 of 1900.—The British Westinghouse Electric and Manufacturing Co., Ltd., manufacturers of Westinghouse Building, Norfolk Street, in the City of Westminster, England. *Improvements in and relating to lightning arrestors.* (Specification filed 23 April 1901.)
- No. 337 of 1900.—The British Westinghouse Electric and Manufacturing Co., Ltd., manufacturers, of Norfolk Street, in the City of Westminster, England. *Improvements in mechanism for generating variable electro motive force.* (Specification filed 23 April 1901.)
- No. 412 of 1900.—The Spink Liquor Company, manufacturers, of Chicago, Cook County, Illinois, U. S. A. *Process for treating liquors and liquids.* (Specification filed 22 April 1901.)
- No. 29 of 1901.—Frank Clarence Newell, electrical engineer, of 432 Ross Avenue, Wilkinsburg, Pennsylvania, U. S. A. *Improvements in electric brakes.* (Specification filed 23 April 1901.)
- No. 30 of 1901.—Frank Clarence Newell, electrical engineer, of 432 Ross Avenue, Wilkinsburg, Pennsylvania, U. S. A. *Improvements in electric brakes.* (Specification filed 23 April 1901.)
- No. 31 of 1901.—Frank Clarence Newell, electrical engineer, of 432 Ross Avenue, Wilkinsburg, Pennsylvania, U. S. A. *Improvements in electric brake shoes.* (Specification filed 23 April 1901.)
- No. 32 of 1901.—Frank Clarence Newell, electrical engineer, of 432 Ross Avenue, Wilkinsburg, Pennsylvania, U. S. A. *Improvements in automatic regulators for electric brakes.* (Specification filed 23 April 1901.)
- No. 33 of 1901.—Frank Clarence Newell, electrical engineer, of 432 Ross Avenue, Wilkinsburg, Allegheny, in the State of Pennsylvania, U. S. A. *Improvements in electrical brakes for railway cars.* (Specification filed 23 April 1901.)
- No. 34 of 1901.—Frank Clarence Newell, electrical engineer, of 432 Ross Avenue, Wilkinsburg, Pennsylvania, U. S. A. *Improvements in electric brakes.* (Specification filed 23 April 1901.)

No. 1404 P.—THE fee prescribed in the fourth schedule to the Inventions and Designs Act of 1888 has been paid for the continuance of exclusive privilege in respect of the undermentioned invention for the period shown against it :—

- No. 76 of 1897.—Friedrich Hermann Schule. *Improvements in and relating to the oscillating supports of shaking sieves.* (From 31 August 1901 to 31 August 1902.)

No. 1405 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

- No. 166 of 1896.—James Coleman Connell. *A weir or break-water which requires no brick or mortar.* (Specification filed 13 January 1897.)
- No. 169 of 1896.—Henry Sabow. *Patent vibrating tea packer.* (Specification filed 16 January 1897.)
- No. 184 of 1896.—George Ainsworth. *A contrivance for fastening and sealing corked bottles so that they cannot be uncorked and the contents extracted without seriously damaging the seal.* (Specification filed 14 January 1897.)
- No. 380 of 1896.—David White and Thomas Moore Simpson. *An improved method and apparatus for extracting precious metals from slimes or other finely divided material containing the same.* (Specification filed 15 January 1897.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs50 for each of the above inventions.

No 222 of 1895.—Antony Bruandet. *A machine for the filling of cigarette paper tubes with tobacco.* (Specification filed 15 January 1896.)

No. 299 of 1895.—Edward Thunderbolt. *An automatic quick-acting governor for controlling the supply of actuating fluids or electric current to motors.* (Specification filed 17 January 1896.)

Fee in respect of the continuance of an exclusive privilege—

4 (b) After the expiration of the fourth year and before the expiration of the fifth year from the date of the filing of the specification—

The sum of Rs50 for each of the above inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1895) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary

S. C. HILL,
*Secretary under the Inventions and
Designs Act, 1888.*

Calcutta, 3rd May, 1901.

THE HONOURABLE THE AGENT
TO THE GOVERNOR GENERAL
IN BALUCHISTAN.

NOTIFICATIONS.

Quetta, the 23rd April, 1901.

No. 4583.—At an examination in Pushtoo held at Quetta on the 29th October and at Loralai on the 5th November, 1900, in accordance with the rules published with Notification No. 5255, dated the 7th June 1900, the following officers are declared to have passed the prescribed test:—

Lalla Lekhu Ram, Tahsildar, Shahrig.
Munshi Ghulam Rasool, Officiating Tahsildar, Peshin.
Babu Ram Singh, sub. *pro tem.* Naib Tahsildar, Peshin.
Lalla Majoo Ram sub. *pro tem.* Naib Tahsildar, Loralai.

By Order,

F. BIGG-WITHER, *Lieutenant,*
Third Assistant.

The 23rd April 1901.

No. 4612.—In exercise of the power conferred by section 17, sub-section (1), of the Cantonments Act, 1889 (XIII of 1889), as applied to the territories administered by the Agent to the Governor General in Baluchistan by the Baluchistan Agency Laws Law, 1890, and with the previous sanction of the Governor General in Council, the said Agent is pleased to impose, on and with effect from the 4th May 1901, a conservancy tax on buildings leviable at the following rates and from the following persons in the Cantonment of Quetta:—

- (1) In the area in which Civil and Military Officers usually reside,—
 - (a) if the monthly rental of the building does not exceed Rs30—Rs9 per annum;
 - (b) if the monthly rental exceeds Rs30, but does not exceed Rs60—Rs12 per annum;
 - (c) if the monthly rental exceeds Rs60—Rs15 per annum;
 - (d) if the building is used as an office—Rs12 per annum, the tax being leviable from—
 - (x) the occupier, if the building is occupied;

- (y) the owner, if the building is unoccupied;
 - (z) the head of the office, if the building is used as an office.
- (2) In other areas,—
- (a) if the estimated value of the building does not exceed two hundred rupees—As. 4 per mensem;
 - (b) if the estimated value exceeds two hundred rupees—As. 4 per mensem for every two hundred rupees (or fraction thereof) of the value,
- the tax being leviable from the occupier, not being a person in military employ.

No. 4613.—In exercise of the powers conferred by section 17, sub-section (2), of the Cantonments Act, 1889 (XIII of 1889), as applied to the territories administered by the Agent to the Governor General in Baluchistan by the Baluchistan Agency Laws Law, 1890, and with the previous sanction of the Governor General in Council, the said Agent is pleased to apply, for the assessment and recovery of the conservancy tax imposed in the Cantonment of Quetta by Notification No. 46.2 dated the 23rd April 1901, the rules, in the adapted form hereinafter set forth, which are in force in certain municipalities in British India.

Rules for the assessment and recovery of the Conservancy Tax leviable in the Cantonment of Quetta.

1. (1) In these rules—
 - (a) "owner" includes every person who is for the time being entitled to receive any rent in respect of a building, and also the manager or agent of such person;
 - (b) the officer of the Military Works Department in whose charge a building, the property of the Government, is, shall be deemed to be the owner; and
 - (c) a building in or on which any person, including a servant of the owner or occupier, resides, or any horse, ass, mule, cow, bullock, buffalo or camel is kept, shall be deemed to be occupied.
- (2) Where any question arises as to whether any person is the owner or occupier of a building, or as to whether a building is occupied, for the purposes of these rules, it shall be referred to the Cantonment Committee, and the decision of the Cantonment Committee thereon shall be final and conclusive.
2. (1) The Cantonment Committee shall annually prepare a list of persons assessed by it to the conservancy tax and shall publish the list on or before the first day of March of the financial year to which it applies, by affixing it conspicuously in the Cantonment Fund Office and at such other places as it may think fit.
- (2) Any person dissatisfied with his assessment to the conservancy tax may submit an objection thereto in writing to the Cantonment Committee within one

month after the publication of the list as aforesaid.

- (3) The Cantonment Committee shall, without unnecessary delay, enquire into every objection so submitted to it, and its decision thereon shall be final and conclusive.
- (4) The Cantonment Committee, may, from time to time, as it may think fit, revise the list, and the provisions of this rule shall, as far as may be, apply to every revision so made.
3. (1) The conservancy tax shall be payable quarterly in advance, every odd fraction of a quarter being counted as a full quarter and the quarters being deemed to commence on the following dates, respectively, namely,—
 - (a) the first quarter—on the first day of April;
 - (b) the second quarter—on the first day of July;
 - (c) the third quarter—on the first day of October; and
 - (d) the fourth quarter—on the first day of January.
- (2) In the case of occupied houses or quarters belonging to the Government, the Officer of the Military Works Department in whose charge the building is, shall collect, together with the rent, the proportionate amount due on account of the conservancy tax and shall pay such amount to the Cantonment Committee during the quarter.
4. (1) A bill for the conservancy tax due shall be presented by the tax-collector to each assessee within the first fifteen days of the period in respect of which the demand is made.
- (2) If the bill is paid on presentation, the tax-collector shall grant a receipt for the payment; if it is not so paid, he shall obtain the signature of the assessee on the counterfoil in acknowledgment of the presentation of the bill.
- (3) The tax collector shall, if possible, collect the amount of each bill before the end of the month in which it is presented.
- (4) Any arrear of the conservancy tax may be recovered on application to a Magistrate having jurisdiction within the limits of the Cantonment by the distress and sale of any moveable property within those limits belonging to the person from whom the money is claimable, and, if payable by the owner, the arrear shall be a charge on the property.

The 24th April, 1901.

Do. do. 31st Dec., 1898. Price 12a.

Apply to the Registrar, Geological Survey of India, Calcutta.

YEARLY EXAMINATION OF CANDIDATES FOR FOURTH GRADE OF ACCOUNTANTS.

The yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 1st and 2nd July 1901, at 10-30 A.M. :—

Subjects.	Full marks.	Minimum pass marks.
Writing (neatness, clearness, and rapidity.)	100	50
Dictation (spelling, punctuation, etc.)	100	50
Arithmetic (the whole)	240	160
Mensuration (a) the whole	60	30
Book-keeping (b) mercantile	100	50
TOTAL	600	...

Minimum required in all papers collectively, 400.

(a) Todhunter's Mensuration for Beginners.

(b) "Book-keeping," by Bail and Hamilton.

"Book-keeping" by double and single entry, by W. Inglis (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

*This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

- (1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)
- (2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).
- (3) Certificate that the application is in the candidate's handwriting.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the college or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

J. S. SLATER,

Principal, Civil Engineering College.

SIBPUR,

The 26th April, 1901.

CIVIL ENGINEERING COLLEGE, SIBPUR.

ENGINEER DEPARTMENT.

SESSION 1901-1902.

Candidates for admission to the Engineer Department should apply to the Principal before the 15th May, 1901. Each application must be accompanied by a registration fee of Rs 1. The session begins on Monday, the 3rd June, 1901.

Candidates must furnish proof that they have passed one of the following tests :—

- (1) The F. A. Examination of the Calcutta University or a similar standard of any Indian University recognised by the Calcutta University. The candidate's age must be under 21 years.
- (2) The B. A. Examination in the B Course in Physics and Chemistry. The candidate's age must be under 23 years.

In selection of candidates who have passed the F. A. (all other things being equal) preference will be given to those who have passed in Sanitary Science in addition to the ordinary subjects of the F. A. Examination.

The maximum number to be admitted each year is limited to 40. The position in the University Examination and the age of the candidates will be taken into consideration when selection is made, and such selection will be made by the Principal.

The tuition fee for students of the Engineer Class is Rs 10 a month for each month of the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of Junior or Senior Scholarships. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eye sight.

Further particulars will be supplied on application to the Principal.

J. S. SLATER,

Principal, Civil Engineering College.

SIBPUR;

The 9th April, 1901.

CIVIL ENGINEERING COLLEGE, SIBPUR.

APPRENTICE DEPARTMENT.

SESSION 1901-1902.

The date for admission to this department is 3rd June, 1901. Candidates must be at least 15, and not more than 17, years of age.

They must have passed Standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard, so as to reach Principal not later than the 6th May, 1901, together with a registration fee of Rs. No application will be attended to after this date.

The maximum number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest, measurement, fitness for manual labour and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in June. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of June, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be one vacancy on the free list for Christian apprentices in June next, and there will be twenty-one on the reduced

* Rs 5 per mensem. fee * list. For natives there
Rs 2 per mensem. will be at least seven vacancies,

possibly more on the reduced fee list.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can, therefore, be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

With the exception of students on the free and reduced fee lists, all apprentices will pay a tuition fee of Rs 3 a month for each month of the year.

Further particulars will be supplied on application to the Principal.

J. S. SLATER,

Principal, Civil Engineering College.

SIBPUR;

The 9th April, 1901.

CIVIL ENGINEERING COLLEGE.

The privilege granted to the B. A. students of the B Course in Government Resolution No. 294, dated the 21st April, 1891, of being admitted direct into the second year class of

this College, has been withdrawn under Government Order No. 1626, dated 27th March, 1901. Henceforth these students will be admitted into the first year class of the Engineer Department instead of into the second year class, as at present.

J. S. SLATER,
Principal.

SIBPUR,

The 20th April, 1901.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal 8vo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

Section	I.	Building Materials (1898), Rs. 2-0.
"	II.	Masonry (1898), Rs. 1-4.
"	III.	Carpentry (1898), Rs. 1-8.
"	IV.	Earthwork (1892), Rs. 1-4.
"	V.	Tools and Plant (never published).

VOLUME II.*

Section	VI.	Buildings (1899), Rs. 1-4.
"	VII.	Bridges (1897), Rs. 4-4.
"	VIII.	Roads (1897), Rs. 1-8.
"	IX.	Railways (1891), Rs. 1-4.
"	X.	Irrigation Works (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

- VOL. I. Direct and Transverse Strain, principally by Analytical Methods. Rs. 7.
 " II. The Stability of Structures, mostly by Graphic Methods. (In the Press.)

MANUALS.

- VII. Surveying (by Major Firebrace, R.E.) (7th edition with Curve Table). Rs. 3.
 XIII. Drawing (by Lieut. R. Pullford, R.E.). † Rs. 6.
 XIIIa. Drawing, First Principles of Geometrical (by do.). Rs. 1-4.
 XIV. Simple Applied Mechanics (3rd edition), Parts I and II in one. Rs. 8.
 Simple Applied Mechanics, Part II (1st edition). 8s.
 XV. Examples of Estimating. Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). Rs. 12.
 XVI. Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. Rs. 1.
 XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6s.

Note.—The complete Treatise forms the course of the Civil Engineer and Upper Subordinate classes at the Thomason College in Civil Engineering. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. 4s.
 Scantlings of Timber for Roofs. Tables and investigation of formulae for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 30 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. 12s.
 Notes on Chemistry of Building Materials. Rs. 1-8.
 Tate's Mechanism. Rs. 1.
 Barman's Descriptive Mineralogy. Rs. 2-4.

* Date of Edition on sale.

† Originally published at Rs. 15, reduced to Rs. 6.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunhya Lal. Rs. 2-8.

O'Callaghan's Earthwork Tables for India. In one large sheet, 12s.; mounted on cloth and bound Rs. 1-12.

Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. 12s.

Tyndall's Hand-Book of Specifications. (In the Press.)

The Indian Engineer's Pocket Book. Rs. 1.

Wooden Bridges and Designs. By Rai Kunhya Lal. (In the Press.)

Blasting under Water (2nd edition). 10s.

Waugh's Instructions for Topographical Surveying. Rs. 1.

Analysis of Lime and Cement Stones. By Murray Thompson, Esq., M.D., F.R.S.E. 6s.

Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width, very useful for Projects. Rs. 1-0.

SCIENCE BOOKS.

Wilson's Inorganic Chemistry. Rs. 1-8.

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund and Annas and Pies into decimals of a Rupee. With a few others of general utility (4th edition). Rs. 1-8.

Boileau's Tables of Log sin² $\frac{1}{2}$ P for computing time (44s.).

Cape's Logarithms, with Tables of Squares, Cubes, etc. Rs. 1-4.

Cape's Geometry. Rs. 1-4.

Cape's Mechanics. 8s.

Todhunter's Plane Trigonometry. Rs. 2-8.

Todhunter's Differential Calculus. Rs. 2-8.

Military Topography. 8s.

HINDUSTANI.

Elements of Hindustani Grammar. 8s.

Technical Dialogues—English and Urdu. Rs. 1.

A Vocabulary of Common and Technical Words in English-Urdu. 12s.

History of India (*Itihās Timirnāsāt*). Hindi. Parts I and II. Both 6s.

Short Account of Ganges Canal (English and Urdu). Each 4s.

NOTE AND FIELD-BOOKS, etc.

Note Books Section paper large. Each Rs. 1-4.

Surveying Field Books (ruled). 14s.

Levelling Field Books (English Pattern). Rs. 1-4.

" " " (Canal " ") Rs. 1-4.

" " " (College " ") Rs. 2-0.

P. W. D. Note-Book. Rs. 1-4.

" Measurement Book. Rs. 1-4.

Circular Card-board Protractors, 2 inches. Rs. 2.

MISCELLANEOUS.

Distributary, Velocity and Discharge Table. By Capt. Allan Cunningham. 8s.

Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") Rs. 1-8.

Ditto ditto in Urdu. Rs. 1-4.

Perspective (fully explained). By Col. A. M. Brandreth. R.E. Rs. 1-12.

Thomason College Calendars for 1892,* 1895,† 1896† and 1897.† Each Rs. 2.

Ditto ditto for 1898† and 1899.† Pt. I. Rs. 3-0.

* This does not contain the Entrance Examination papers of the Superior Accounts Branch, Public Works Department.

† These include question papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

‡ This does not contain the Entrance Examination Papers of the Upper Subordinate Class.

Forms of Accounts, P. W. D., for Sub-Divisional Officers, in English (very old). 4s.

Memo. of Instructions for Road Project. R1.

Project for College Mess (sample Project). 8s.

Ferrotypes Printing Processes. 8s.

Thomason College Library Catalogue. R1-12.

Ditto, Supplement, 1895 to 1899. Each 2s.

Irrigation by Rajbahas.

Irrigation Tract, No. I. } 4s. each.

" " " II. }

" " " III. }

Land Measuring Chain Statement. Area of kucha and pukka Bighas, sheet. 4s.

Report of the Ganges Canal Committee (Major Crofton's Project for remodelling the Ganges Canal according to the views of Major-General Sir Arthur Cotton, R.E., K.C.S.I.), 1866. 8s.

Report of the Ganges Canal. By Captain J. Crofton, R.E., with Estimates and Plan—

Vol. I, Report, 1865. R1.

Vol. II, Estimates. 12s.

Shakesperian Readings, viz:—

1. Taming of the Shrew.

2. Othello.

3. Macbeth.

4. Comedy of Errors.

5. Merchant of Venice.

} Each 3s.

Annual examination papers set for the years 1867 to 1870, each 8s.

PLANS OF STATIONS.

Lithographed Plans of the Cantonments and Regimental Lines in the different Military Stations of India. Drawn to a uniform scale and prepared between 1804 and 1808 for the Government of India, P. W. Department. (Useful for Executive Engineers' and Superintending Engineers' Offices.)

Bengal, 51 Plans.

Madras, 99 Plans.

Bombay, 91 Plans.

N.-W. Provinces, 104 Plans.

Rajputana, 4 Plans.

British Burma, 19 Plans.

Central Provinces.

} Whole lot R2 each.

A set of Professional papers both loose and quarterly numbers inclusive of Railway freight R10. This is not quite complete.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

Vol. I. Quarterly Nos. 1 to 5, bound R1-8.

Quarterly, Nos. 1, 2, 3, 4 and 5.

Vol. II, Quarterly, Nos. 6 and 7.

" VI, " No. 25.

" VII, " Nos. 26, 27, 28, and 29.

Extra No., April 1870.

} 4s. each, inclusive of postage.

(SECOND SERIES.)

Quarterly Numbers of Vols. I, II, and IX of the series 4s. each, inclusive of postage.

Quarterly Number 41 A of Vol. X. Each 8s.

Cloth covers for Volumes of 1st and 2nd Series, at 8s each.

Index to Professional Papers and loose Papers. 1st and 2nd Series, at 2s. each.

FERO TYPE PRINTING.

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depot. Application to be made to the Curator.

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants.

J. CLIBBORN, *Lieut.-Col., I.S.C.,*
Principal, Thomason Civil
Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1899, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.
For the Complete Series, including postage. R22-8

	Without postage.	With postage.
	R s. p.	R s. p.
For the Calcutta Series	10 0 0	12 8 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately, inclusive of postage in India	...	2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	...	1 0 0

The following is the rate at which deductions will be made for parts out of print and which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mousal.
	R s. p.	R s. p.
For the Calcutta Series per copy	0 8 9	0 10 0
" each of the Madras, Bombay, and Allahabad Series per copy	0 5 3	0 5 9
" the Calcutta Series for the year	7 2 0	8 0 3
" each of the Madras, Bombay, and Allahabad Series for the year	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras

The Superintendent, Government Central Press, Bombay.

The Curator of Government Books, North-Western Provinces and Orls.

The Officer in charge, Bengal Secretariat Book Depot.

Orders and subscriptions for 1899 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	Half page.	Quarter page.
	R s. p.	R s. p.	R s. p.
For one issue	30	14	9
" three issues	55	30	24
" six "	100	68	45
" nine "	145	96	64
" twelve "	180	120	80

Several volumes of the **BENGAL LAW REPORTS**, from August 1868 to December 1875, and **FULL BENCH RULINGS**, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
	R s. p.	R s. p.
Bengal Law Reports, for one year	20 0 0	22 8 0
Single copies, R2 per copy.		
Full Bench Rulings, Parts I and II	20 0 0	22 8 3

Bengal Secretariat Book Depot, Writers' Buildings, Calcutta. Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the **INDIAN LAW REPORTS** (complete series) having now been reprinted, the complete Reports from 1870 to 1899 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the last three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

PURE SULPHATE OF QUININE.

*Manufactured at the Bengal Government
Cinchona Plantation.*

From 1st April, 1900, the price of this Quinine will be as follows :—

1-pound tin, R17, or, post-free, R17-12.

$\frac{1}{2}$ " " R 8-8 " R9.
 $\frac{1}{4}$ " " R4-4 " R4-12.

Analysis shows this Quinine to be of the purest manufacture ; and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta.

**বঙ্গদেশের গবর্ণমেন্টের সিন্‌কোনা আবাদে প্রস্তুত
বিশুদ্ধ কুইনাইন ।**

১৯০০ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৭ বা ডাকমাতুল বিনা ১৭।০
১ আধ " " ৮।৫ " ৮।৫
১ দিকি " " ৪।০ " ৪।০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনি-ডাইন নামক অপকৃষ্ট কারের সহিত ইচ্ছা পূরক মিশ্রণ করিয়া তাহার গারাক্টি দেখরা বাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণ-মেন্টের কর্মচারীগণের নিকট বিক্রয় করা বাইবে, এবং কলিকাতার নিকট সিবপুরের কোম্পানি বাগানের সুপারিন্টেন্ডেন্টের নিকট পাইতে পারে ।

NOTICE.—Books and Acts required for private use only can be purchased. —Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through Local Governments to whom the applicant is subordinate.

Applications for Government publications which are no longer in print should be made to the Agents of the particular Government under whose orders they were originally issued.

The amounts within parentheses are for packing and postage.

The List of Books available for sale at the Bengal Secretariat Book Depot will in future be published once only in each month.

Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, MAY 4, 1901.

☛ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTE.

Lost.

The two Government Promissory Notes Nos. 124708 and 124709 of the 3½ per cent. of 1865 for Rs. 1,000 each, originally standing in the name of Prosad Das Bural and last endorsed to Hury Das Bhattacharjee, the proprietor,

by whom it was never endorsed to any other person. Payment of the above notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favour of the proprietor.

Proprietor—

HARI DAS BHATTACHARJEE,
Residence—*Dutt's Lane, Santipur P. O.*

SUPPLEMENT TO
The Gazette of India.

No. 18 }

CALCUTTA, SATURDAY, MAY 4, 1901.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

The subjoined rules made by the Local Government in exercise of the powers conferred by section 2, and confirmed by the Governor General in Council as required by section 3 of the said Act, are hereby published for general information in supersession of those published with the Notification of the Government of India in the Home Department, No. 232, dated the 10th July, 1885 :

SCHEDULE.

Police station.				Village.
Nurmahal	Jandāla.
Ditto	Samra.
Ditto	Bilga.
Phillour	Rurka Kalān.
Nurmahal	Bundāla.

I.—A nominal register of all Jat families in the proclaimed villages shall be drawn up and annually revised under the orders of the Magistrate of the district. In this register recognized heads of families or masters of separate households shall be entered as the heads of families, and every member of the family habitually resident in the village shall be entered by name. All persons under the age of twelve years shall be entered as children, except married female children living with their husbands, who shall, for the purpose of these rules, be deemed to be adult females.

II.—A special register of all births and marriages of females, and of all deaths of unmarried female children and of married females under the age of twelve years and not living with their husbands, occurring in the families registered under Rule I shall be kept up under the supervision of the District Magistrate.

III.—The person who is registered as the head of a family in a proclaimed village shall report immediately to the Lambardar through whom he pays his revenue the occurrence in his family of every birth, marriage and death of a female as aforesaid, and also the illness of any female child. He shall also when required produce all children of his family for the inspection of a Medical Officer appointed under Rule VI, visiting the village.

IV.—Every midwife knowing of, or having reason to believe in, the occurrence in a family entered in the register prepared under Rule I of a birth or of the illness of an unmarried female shall at once report the fact to the Lambardar through whom the head of the said family pays his revenue.

V.—The Lambardar shall immediately report to the Medical Officer appointed under Rule VI the occurrence, whether reported to him or not, of a birth, whether male or female, in a family entered in the register kept under Rule I, the marriage of a female, the death of an unmarried female or a married female under the age of twelve years and not living with her husband, the illness of a female child, and the departure of a pregnant woman to another village.

VI.—A Medical Officer not below the rank of Hospital Assistant shall be appointed by the District Magistrate for each village, or for several villages jointly, for the purposes of carrying out and supervising the provisions of Rules I, II, III, IV and V above. The District Magistrate shall also in each case, with the sanction of the Commissioner, entertain a suitable subordinate staff, and incur necessary contingent expenses in medicines, medical instruments, house-rent, and other incidental charges.

VII.—Among the families entered in the register kept under Rule I no person giving a female in marriage, nor any one on his behalf, shall incur any expense upon any ceremony or custom connected with her marriage in excess of a sum to be fixed by the District Magistrate with the sanction of the Commissioner for the particular tribe of which he is a member. Similarly, no person receiving a female into his family in marriage shall incur any charge on account of the marriage or any ceremony or custom connected therewith exceeding the sum laid down in the same manner.

VIII.—It shall be the duty of the father or other head of the family celebrating the marriage to produce immediately before the District Magistrate or an officer deputed by him on demand by the same an account showing the actual expenses incurred and to prove the correctness of the said account.

IX.—No family shall be exempted from the operation of these rules except by the orders of the Local Government, or in virtue of authority to that effect vested by Government in any officer. A family so exempted will then be struck out of the register kept under Rule I and the erasure initialled by the Magistrate of the District.

X.—Every Zaildar and Inamdar within his own circle and every Village Officer as defined in Section 3 (11) of Act XVII of 1887 shall be bound to render every assistance in carrying out the provisions of Act VIII of 1870 and of all rules framed thereunder.

XI.—All expenses incurred in carrying these rules into effect in any village to which they may be made applicable shall be recoverable as an arrear of land revenue from the Jat landowners of that village by the Collector acting under the orders of the Commissioner.

The assessment shall be made in such manner as the Local Government may from time to time direct.

J. P. HEWETT,

Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATIONS.

FAMINE.

Simla, the 6th May, 1901.

No. 1292.—With reference to the Home Department's notification, No. 38, dated the 16th January 1901, the services of Mr. S. H. Butler, I.C.S., Secretary to the Famine Commission, are replaced at the disposal of the Home Department, with effect from the date on which his duties as Secretary to the Famine Commission may cease.

The 10th May, 1901.

The 9th May, 1901.

No. 761-E.A.—In exercise of the powers conferred by section 4 of the Indian Arms Act, 1878 (XI of 1878), as applied by the notification of the Government of India in the Foreign Department, No. 1455-E., dated the 27th July, 1895, to the territories administered by the Hon'ble the

Agent to the Governor General in Baluchistan as such Agent, the Governor General in Council is pleased to extend section 5 of the said Act to all lead.

No. 762-E.A.—In exercise of the powers conferred by section 4 of the Indian Arms Act, 1878 (XI of 1878), as extended to British Baluchistan by the notification of the Chief Commissioner, No. 664-C., dated the 27th July, 1895, the Governor General in Council is pleased to extend section 5 of the said Act to all lead.

The 10th May, 1901.

No. 809-G.—Mr. J. A. Crawford, of the Indian Civil Service, Commissioner of the Hyderabad Assigned Districts, is appointed to officiate as a Resident of the 1st class and as Resident in Mysore and Chief Commissioner of Coorg, with effect from the date of assuming charge and during the absence on privilege leave and furlough combined of Lieutenant-Colonel D. Robertson, C.S.I., or until further orders.

No. 812-G.—Mr. A. Elliott, Judicial Commissioner of the Hyderabad Assigned Districts, is appointed to officiate as Commissioner, with effect from the date of assuming charge, *vice* Mr. J. A. Crawford, I.C.S., and until further orders.

No. 813-G.—Mr. J. K. Batten, of the Indian Civil Service, Civil and Sessions Judge in the Hyderabad Assigned Districts, is appointed, on return from special leave, to officiate as Judicial Commissioner, with effect from the date of assuming charge, *vice* Mr. A. Elliott, and until further orders.

No. 1834-I. A.—In exercise of the powers conferred by section 27, sub-section (1) of the Cantonments Act, 1889 (XIII of 1889), as applied to the Cantonment of Deesa by the notification of the Government of India in the Foreign Department, No. 1377-I., dated the 25th April, 1890, the Governor General in Council is pleased, in supersession of the like notification No. 2597-I.A., dated the 15th June, 1900, to direct that the Cantonment Code, 1899, as published with the notification of the Government of India in the Military Department, No. 604 (Judicial), dated the 16th June, 1899, and amended from time to time by subsequent notifications, shall be in force in the said Cantonment of Deesa, subject to the following restrictions and modifications, namely:

- (a) Section 3, sub-section (1), clause (b), section 10, sub-section (2), section 13, sub-sections (2) and (3), and section 16 of the said Code shall be omitted;
- (b) In section 14, sub-section (1), clause (d), of the said Code the words and figures "other than one which has been referred to the Local Government under section 13, sub-section (2)" shall be omitted;
- (c) In section 15, clause (b) of the said Code, the words and figures "reported to him under section 13, sub-section (2), or" shall be omitted;
- (d) In section 194 of the said Code, for the words "District Magistrate" the words "Officer Commanding the District" shall be substituted;

- (e) In section 228 of the said Code, after the word "Command" the word "or" shall be inserted, and the words "or the District Magistrate" shall be omitted;
- (f) In section 213, sub-section (2), section 248, sub-section (2), section 249, clause (a), section 250, clause (a), and section 253 of the said Code, and in third column of Schedule IV to the same opposite the references to sections 107, sub-section (2), 123 and 210, sub-section (2), for the words "District Magistrate," wherever they occur, the words "Political Superintendent, Palanpur," shall be substituted.

No. 1835-I. B.—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, 1879 (XXI of 1879), and of all other powers enabling him in this behalf, the Governor General in Council is pleased to direct that the following modification shall be made in the notification of the Government of India in the Foreign Department, No. 3063-I. B., dated the 13th August, 1897, as modified by the like notification No. 1294-I. B., dated the 16th March, 1900, namely:

In the schedule the words and brackets "(Northern Section)" in the entries relating to the Eastern Bengal State Railway shall be omitted.

No. 1836-I. B.—Whereas His Highness the Maharaja of Cooch Behar has ceded to the British Government full and exclusive power and jurisdiction of every kind over the lands lying within his State which are, or may hereafter be, occupied by the Bengal Duars Railway and the Eastern Bengal State Railway (including the lands occupied by stations, by out-buildings, and for other railway purposes), and over all persons and things whatsoever within the said lands:

In exercise of such jurisdiction, and of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, 1879 (XXI of 1879), and of all other powers enabling him in this behalf and in supersession of the notification of the Government of India in the Foreign Department, No. 1297-I. B., dated the 16th March, 1900, the Governor General in Council is pleased to provide as follows for the administration of justice within the said lands:

A—Bengal Duars Railway and Northern section of the Eastern Bengal State Railway.—

- I.—All laws for the time being in force in the Jalpaiguri District of the Bengal Presidency shall be in force in the said lands.
- II.—The Lieutenant-Governor of Bengal and all officers subordinate to the Govern-

ment of Bengal, for the time being exercising executive authority (other than in connection with the administration of the Police) within the Jalpaiguri District, shall exercise the like authority within the said lands.

III.—All Courts having for the time being jurisdiction within the Jalpaiguri District, shall have the like jurisdiction within the said lands.

IV.—The administration of the Police within the said lands shall be vested in the District Superintendent of Police, or the officer for the time being in charge of the District Police, of Jalpaiguri, who shall exercise within the said lands the same police powers as he may for the time being exercise in the Jalpaiguri District, in subordination to the authorities to whom he may be for the time being subordinate when exercising those powers within the Jalpaiguri District.

B—Kaunia-Dhubri section of the Eastern Bengal State Railway.—

I.—All laws for the time being in force in the Rangpur District of the Bengal Presidency shall be in force in the said lands.

II.—The Lieutenant-Governor of Bengal and all officers subordinate to the Government of Bengal, for the time being exercising executive authority (other than in connection with the administration of the Police) within the Rangpur District, shall exercise the like authority within the said lands.

III.—All Courts having for the time being jurisdiction within the Rangpur District shall have the like jurisdiction within the said lands.

IV.—The administration of the Police within the said lands shall be vested in the District Superintendent of Police, or the officer for the time being in charge of the District Police, of Rangpur, who shall exercise within the said lands the same police powers as he may for the time being exercise in the Rangpur District, in subordination to the authorities to whom he may be for the time being subordinate when exercising those powers within the Rangpur District.

T. HIGHAM,

Secretary to the Government of India.

SUPPLEMENT TO
The Gazette of India.

No. 19.]

SIMLA, SATURDAY, MAY 11, 1901.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and which may not else be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Weather Review of India for the Week ending at 8 a.m. on
Saturday, the 4th May, 1901.**

The cyclonic storm in the Arabian Sea at the close of the previous week passed away in a north-westerly direction, but gave moderate to heavy rain and stormy weather on the West Coast. On Sunday rain had been fairly general in Ceylon, South India and the West Coast districts and local showers had fallen in the Central Provinces. Mormugao and Goa reported amounts exceeding 4 inches, Belgaum $2\frac{1}{2}$ inches, Wellington 2 inches and Trivandrum $1\frac{1}{2}$ inches. Showers continued in parts of the Peninsula on Monday and Tuesday, but by Wednesday rainfall due to the storm in the Arabian Sea had practically ceased. The sea, however, continued very rough and winds were strong on the Kathiawar Coast.

Fine weather with local thunderstorms prevailed during the next few days. On Friday the barometer fell rapidly and skies were overcast in Baluchistan and Upper Sind, and on Saturday a deep depression and storm, which had probably advanced from Persia, lay over those areas. It was a storm of the cold-weather type and was unique in several respects, especially in its intensity and its occurrence so late in the season, for these storms rarely occur after March and are then usually very feeble. Skies were thickly clouded in the Punjab and rain had fallen in Baluchistan and Sind, the heaviest fall reported being $\cdot 78$ inch at Hyderabad (Sind).

The chief features in the temperature conditions of the week were a large decrease of temperature in the Peninsula due to the rain caused by the storm in the Arabian Sea, and a large increase of temperature in North-West India during the latter half of the week. Abnormally low temperatures were registered in the interior districts of the Peninsula, the defect being shown chiefly in day temperature, which on the 29th April averaged $21\frac{1}{2}^{\circ}$ below the normal in Berar, $15\frac{1}{2}^{\circ}$ in the Bombay Deccan and 14° in the Central Provinces.

Rain.—The heaviest rain this week has occurred in the Peninsula, due to the storm in the Arabian Sea, and the largest average falls of the division are reported from Hyderabad (South) 2·84 inches, the Bombay Deccan 2·14 inches and Coorg 1·71 inches. The rainfall of the week has been in general defect in Northern India and Burma and in general excess in the Peninsula. It has been equal to, or in excess of, the normal in Central Bengal, Orissa, the central division of the North-West Provinces, the Central, Submontane and West Punjab, Gujarat, Sind, the Baluchistan Hills, the Bombay and Malabar Coast districts and Madras.

The following gives the largest amounts received at individual stations :

Orissa	Bhadrack	5·33 inches.
Madras	Kodanad (Nilgiris)	6·19 „
	Parlakimedi (Ganjam)	5·27 „
	Gajapatinagar (Vizagapatam)	5·12 „
	Polavaram (Godavery)	7·44 „
Bombay Deccan	Hubli (Dharwar)	6·31 „

The rainfall of the period from 3rd March to 4th May has been in general defect in Burma, North-East India and the North-West Provinces, the actual deficiency being largest in Assam. It has varied from the normal by less than 20 per cent., and has hence been practically normal, in Orissa, Chota Nagpur, the central, submontane, hills and north divisions of the Punjab, the Central Provinces (East and West), Central India (East), Sind, Mysore, Coorg, Central and South-Central Madras. It has been in excess in the eastern division of the North-West Provinces, the West Punjab, Gujarat, Berar, the Central Provinces (Central), Khandesh, the Konkan, the Bombay Deccan, Malabar, the East-Coast (North) and South Madras.

SIMLA, 9th May, 1901.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the 4th* May 1901.

Madras.—The rainfall was good in most parts of the Circars and the Southern districts, Bellary, Salem, Travancore and the Nilgiris, *nil* in Madras, light in the rest of the Carnatic and North Arcot and moderate elsewhere. Water-supplies are insufficient in many districts, but have been improved by the recent rainfall. Ploughing, sowing and transplanting are in progress in parts. Standing crops are in good condition generally, but some in parts of North Arcot and Coimbatore need more rain. Small harvests continue with moderate outturn. Pasture is scanty in most districts, but fodder generally is available. The condition of cattle generally is good. Prices continue almost stationary or slightly easier, except for a small rise in Madura. Prospects generally are fair. Numbers on relief—Cuddapah—weavers—men, 1,712; women, 1,351. On test-works—Cuddapah—men, 827; women, 826; children, 76; total, 1,739—North Arcot—men, 465; women, 471; children, 97; total, 1,033.

Bombay.—Heavy rain fell during the week in parts of Admednagar, Poona, Sholapur, Satara, the Karnatak, Ratnagiri and Kanara. There was a moderate fall in parts of Karachi, Surat and Kolaba and a slight fall in parts of Sindh, the Panch Mahals, Thana and Khandesh. Agricultural prospects are good in Sindh, fair to good in the Konkan, Surat, Khandesh and Satara and parts of Poona and Broach and moderate to poor elsewhere. Reaping of spring crops has been completed in the Karnatak, Ahmedabad, Kolaba, Thana and Sholapur, and is progressing in other districts of Gujarat, the Deccan and Sindh. Threshing is in progress in parts of Shikarpur, Upper Sindh Frontier, Ahmedabad, Broach and Nasik. Cotton-picking continues in Broach and Rajkot. Lands are being prepared for next season in almost all districts. Autumn sowings have been commenced in parts of Sholapur, Belgaum and Canara. The fodder-supply is sufficient, except in parts of Bijapur and Dharwar. Agricultural stock generally is in good condition. The water-supply is deficient in parts of Nasik and Ahmednagar. Prices have fallen in two districts, risen in six districts and are stationary elsewhere. The price of rice is about normal in Gujarat and slightly over normal in the Deccan, the Konkan and the Karnatak, but easier than in 1900. The price of *bajri* is below normal in Gujarat, over normal in the Konkan and is considerably over normal in the Deccan and the Karnatak, but is considerably easier than in 1900. The price of *juar* is below normal in Gujarat and considerably over normal in the Deccan, the Karnatak and the Konkan and, compared with 1900, is easier in the Konkan and the Karnatak and considerably easier elsewhere. The price of wheat is over normal in Gujarat and considerably over normal in the Deccan, the Konkan and the Karnatak and, compared with 1900, is about the same in the Konkan and the Karnatak and easier elsewhere.

Daily average numbers on relief—British districts—on test-works, 2,805; on relief-works, 215,302; dependants, 27,910; total on works, 246,017. In poor-houses, 4,504; on village relief, 61,648; total on gratuitous relief, 66,152. Figures for Ahmedabad, Ahmednagar, Nasik and Dharwar are incomplete. Native States—on relief-works, 17,368; dependants, 4,961; total on works, 22,329. In poor-houses, 1,278; on village relief, 1,615; total on gratuitous relief, 2,893. Figures for Aundh, Phaltan and Mudhol are incomplete. Grand total, 337,391.

Bengal.—Rain fell during the week all over the Province, excepting Howrah and a few districts in Bihar and Chota Nagpur. More rain is still wanted in

* Preceding reports, commencing with the report published in the *Gazette* of the 30th March 1901, were incorrectly antedated by one week.

Hooghly, the 24-Parganas, Murshidabad, Dinajpur, Bogra, Pabna, Tippera, Chittagong, Bhagalpur and Purnea. Ploughing of lands is still going on and sowing of *aus* and jute is in progress. Sugarcane is being planted and is doing well. Fodder is dear only in Bankura and in the Ghatal sub-division of the Midnapore district. Water is sufficient. The condition of cattle generally is good. The price of common rice has risen in twenty districts, fallen in seven and is stationary in the rest.

North-Western Provinces and Oudh.—The weather was generally clear. Light and scattered showers are reported from eighteen districts. Threshing and winnowing of spring crops are in progress. Standing crops are thriving and prospects are good. Artificial irrigation is being resorted to. Indigo is being sown in some districts and has been damaged by insects in parts of Azamgarh. Slight injury by insects has also been caused to sugarcane in parts of Saharanpur and Meerut. A flight of locusts passed over the villages near Roorkee, but no report has been received as to damage caused. There is a sufficiency of supplies and fodder. Prices are practically stationary with a slightly rising tendency.

Punjab.—Rain fell in Hissar, Delhi, Ferozepore, Mooltan, Lahore and Amritsar. Heavy rainfall is reported from Sialkot, Shahpur, Rawal Pindi and Peshawar. Harvesting of spring crops is still in progress and has been nearly completed in Amballa. Crops are being housed in Hissar. Sowings of cotton, sugarcane and other autumn crops continue in Delhi, Mooltan, Lahore and parts of Sialkot. Threshing and gathering of spring crops have been stopped in Amritsar on account of the recent rain. Standing crops are flourishing. Prospects are reported to be good. The outturn is said to be much above average in Ferozepore, good to average in Sialkot and good elsewhere. Sugarcane and cotton have germinated well in Sialkot and have been much benefited by recent rain. Locusts appeared in Mooltan, Shahpur, Rawal Pindi and Peshawar, but did no damage. They laid eggs in Rawal Pindi, and measures were taken for their destruction. Insects have also appeared in two tahsils of the Amballa district, but have not done much damage. Crops on the threshing floors have been injured by excessive rain in Sialkot, Shahpur and Peshawar. A flood in the river Jhelum is reported to have done immense damage to the gram, and wheat crops cut and lying in the fields in parts of Shahpur. The condition of cattle is generally good. Pasturage fodder is said to be sufficient in all districts, except in parts of Mooltan. The prices of wheat have risen in Amballa and Peshawar fallen in Delhi, Mooltan, Amritsar and Shahpur and are unchanged elsewhere. The prices of other food-grains are also unsettled. Sialkot reports that prices are low; wheat is selling from $12\frac{1}{2}$ to $19\frac{1}{2}$ seers, barley 29, gram $17\frac{1}{2}$ to 25, maize 20 to 31 and bulrush millet 21 to 31 seers per rupee.

Burma.—Reaping of dry weather paddy is in progress in five districts of Upper Burma and transplanting has been completed in Minbu and Shwebo. Clearing and burning on up-lands in Minbu and harrowing on up-lands in Myingyan have been commenced. Plucking of cotton has been completed in Thayetmyo. The condition of standing crops is from fair to good. The price of paddy has fallen slightly in five districts and risen slightly in two others.

Central Provinces.—The weather was hot and occasionally cloudy with slight rain in Saugor, Betul and Bilaspur. Threshing of spring crops is in progress in Saugor, Narsinghpur and Chhindwara and is nearing completion in Mandla and Seoni. The preparation of land for summer sowings continues. Fodder and water generally are sufficient. Prices are steady in Mandla, Seoni, Narsinghpur, Balaghat and Sambalpur. Elsewhere there are slight local fluctuations. The cheapest prices are—wheat 14, gram $16\frac{1}{6}$, rice 14 and *juar* 21 seers per rupee. The dearest prices are—wheat 8, gram 12, rice 8 and *juar* $14\frac{1}{6}$ seers per rupee. There are five persons on relief in the Saugor poor-house. In Balaghat there are 838 on village relief. The number in pauper wards has not been reported.

Assam.—Rain fell in all districts. More rain is wanted in Sylhet, Goalpara, Kamrup and Nowgong. Pressing of sugarcane is nearly finished. Prospects are good in Lakhimpur and fair in other districts. Plucking of tea is in progress. Prospects are good in Lakhimpur and fair in other districts, except Nowgong and Sylhet, where tea is poor. Ploughing for and sowing of early and late rice continue. Planting of sugarcane is in progress in places and sowing of jute in Sylhet, Goalpara and the Garo Hills. Reaping of low-land transplanted rice is nearly finished in Sylhet. Water is scarce in parts of Darrang and Nowgong. Prices—common rice—Silchar and Sibsagar 12, Sylhet, Tezpur and Nowgong 10, Dhubri 9, Gauhati 10½ and Dibrugarh 9½ seers per rupee.

Mysore.—The rainfall in the Civil and Military station was 3 inches 41 cents. Rain was general throughout. Standing crops are in good condition in parts of Bangalore, Kolar, Mysore, Shimoga, Hassan and Kadur. Sugarcane and paddy are being harvested in parts of Bangalore, Kolar, Tumkur and Kadur, and in other parts are being sown. Ploughing and manuring operations are in progress in the Civil and Military station, Bangalore and Shimoga. Prospects are good in Mysore and Chitaldrug and fair in Bangalore, Hassan and Kolar. Prices are steady in Bangalore, Kolar, Mysore, Shimoga and Hassan and have fallen in Tumkur and Chitaldrug. Cattle are healthy. Water and fodder are available, except in parts of Tumkur, Mysore and Hassan, where water is getting scarce.

COORG. The rainfall was slight. Ploughing for rice and for *jagi* continues. Water and fodder are sufficient. Prices of food-grains are normal.

Berar.—The weather was hot and cloudy. Preparation of land for monsoon crops continues. Fodder and water are ample. Prices are fluctuating.

Hyderabad.—The rainfall during the week amounted to one inch and 70 cents. The total from 1st January is 3 inches 89 cents. The week's rainfall has injured the winter rice crop which is still under harvest. Pasture is sufficient. Grain prices are almost stationary. Number of persons on relief works, 11,386; gratuitously relieved, 860. Prices—wheat 5½, coarse rice 7¼ and *juar* 14½ seers per *halla* rupee.

Rajputana.—The rainfall in Mewar was 7 cents, in Bundi 13 cents and in Ajmer-Merwara the average was 3 cents. Showers fell in three tahsils of Alwar. Agricultural operations are satisfactory. Standing crops generally are in good condition. Harvesting and threshing of spring crops continues. Whole fields of corn have been destroyed by rats in hilly tracts of Mewar. Cattle are in good condition. Fodder is ample. Cheapest prices range from 13 to 31¼ seers per rupee. Number on gratuitous relief 224.

Central India.—The rainfall was slight in Bhopal, Bundelkhand and Bhopawar. Agricultural operations have been completed in Gwalior, Bundelkhand and Baghelkhand and are in progress elsewhere. Crops have been damaged in Baghelkhand and parts of Malwa. The probable outturn is below expectation in Baghelkhand, fair in Malwa and good in Bhopal. The condition of opium is good in Malwa. Agricultural stock and pasturage are good everywhere. Prices are falling in Gwalior and Malwa, rising in Bhopal, below average in Baghelkhand and stationary in Indore. Average prices—Gwalior 17½ to 20½, Bundelkhand 19 to 23, Malwa 16, Bhopawar 16½ to 17, Indore 17 to 20 seers per rupee. Numbers on relief—Jaora—gratuitous 55. On relief works—Bhopawar—4,032.

Baroda.—Agricultural stock is in fair condition. Prices—*bajri* 34, *juar* 36, wheat 25, rice, superior, 13, rice, inferior, 25 pounds per rupee. Numbers on relief works, 14,311; gratuitous relief, 6,260.

Kashmir.—The weather was rainy giving rise to floods. Crops have been very slightly injured. The weather is bright now. Prices are normal. Rice is selling at 24 seers the rupee. **JAMMU PROVINCE:** Copious rain fell during the week. The condition of standing crops is good. The recent rain was injurious to harvesting and threshing of spring crops which are in progress. Fodder is sufficient. Prices are falling. Wheat sells from 15 to 26 and maize 24 to 36 seers the rupee.

Nepal.—The rainfall was slight. The weather was bright and is beginning to get warm. Wheat is doing well and Indian-corn is being sown. The price of rice is $8\frac{1}{2}$ seers for the rupee.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table :

J. B. FULLER,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.
(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected District details of the annual totals published weekly in the Crop and Weather Summary of the *Gazette of India*. Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns, from persons actually relieved in poor-houses or at their homes. Weavers relieved in their own trade are shown under "Gratuitous relief." The dates at the head of the table are the dates of the *Gazette of India* in which the Provincial totals were published. The figures, however, actually the numbers on relief in each preceding week.

STATISTICS AND COMMERCE.

COMMERCE AND TRADE.

Merchant Shipping.

Simla, the 8th May, 1901.

Read—

Resolution in this Department, No. 1735-M.-S. R., dated the 29th March 1901.

Ordered, that the Resolution be published in the *Gazette of India* for general information.

J. F. FINLAY,

Secretary to the Government of India.

RESOLUTION—By the Government of India, Finance and Commerce Department,
No. 1735-M.-S. R., dated Calcutta, the 29th March 1901.

Read—

Letter in the Finance and Commerce Department, No. 5472-S. R., dated the 30th October 1900, with enclosure.

Read also—

Letter from the Government of Bengal, No. 2311 (Marine), dated the 30th November 1900.

Letter from the Government of Burma, No. 409—4 S.-41, dated the 14th December 1900.

Letter from the Government of Madras, No. 23 (Marine), dated the 11th January 1901.

Letter from the Government of Bombay, No. 13-G., dated the 17th January 1901.

OBSERVATIONS.—In the letter in the Finance and Commerce Department above cited, Maritime Local Governments were asked how the law on the subject of apprenticing Eurasians to sea service has been interpreted in practice and whether, as a matter of fact, Eurasians have been refused apprenticeship.

The replies show that very few Eurasians have presented themselves for apprenticeship in past years, but the law on the subject is differently interpreted in different provinces. In Calcutta the provision made in section 29 of the Indian Merchant Shipping Act (V of 1883) for the employment of native seamen is understood to be applicable to Eurasians, and they are not allowed to be shipped as seamen without a stipulation providing for their return to British India.

The Government of India are of opinion that the words "Native Seamen," as used in the section above mentioned, should not be held to include "Statutory Natives," but should be read in the ordinary meaning of the word Native, as referring to the indigenous, as opposed to the European or Eurasian, inhabitants of India. The law, as it at present stands, does not preclude the apprenticing of Eurasians to sea service, or prevent their being shipped as seamen on merchant vessels on the same terms as Europeans, and there is no legal bar to their being so employed.

RESOLUTION.—His Excellency the Governor General in Council considers it undesirable that any restrictions should be imposed by the executive orders of Local Governments on the employment of Eurasians on merchant vessels, and any instructions on the subject which it may be thought advisable to issue to Port Officers should be reported for the previous approval of the Government of India.

ORDER.—Ordered, that this Resolution be communicated to the Governments of Madras, Bombay, Bengal, and Burma.

R. A. MANT,
Offg. Under Secy. to the Govt. of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 9th May 1901.

NOTIFICATIONS.

No. 1490 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 4th May 1901 :—

- No. 195 of 1901.—Gabriel Tissera Gilmore, first assistant, medical store depôt, Madras Command, Madras, residing at 30, Seven Wells Street, North Black Town, Madras. *Glass irrigator or douche for medical purposes.*
- No. 196 of 1901.—Ernest Oscar Mawson, Executive Engineer, Public Works Department, Agency Engineer, Rajkote, Kathiawar. *Improvements in thermantidotes.*
- No. 197 of 1901.—The American Cigar Machinery Company, a corporation organized in accordance with the laws of the State of Connecticut, U. S. A., and having its office at Sharon in the State of Connecticut aforesaid. *Improvements in cigar-making machinery.*
- No. 198 of 1901.—Charles Arthur Berkeley Beatty, Superintendent of the Bombay District Police, Poona, British India. *A new or improved fastening for stable door guard poles.*

No. 1491 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 285 of 1900.—Ella Claudine Spencer, spinster, residing at 158, Middle Colaba, Bombay. *A damp-protecting cover for an ordinary cigar or cheroot box.* (Specification filed 2 May 1901.)
- No. 324 of 1900.—Alfred Brake, aerated water maker, of 54, Lambton Quay, Wellington, New Zealand, temporarily residing at 80, Abbeville Road, Clapham, in the county of London. *Improvements in apparatus for drawing off measured or unmeasured quantities of liquids.* (Specification filed 20 March 1901.)
- No. 358 of 1900.—The British Westinghouse Electric and Manufacturing Co., Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in current collectors for electrical machines.* (Specification filed 1 May 1901.)
- No. 359 of 1900.—The British Westinghouse Electric and Manufacturing Co., Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improved method of and installation for operating two-phase electric motors.* (Specification filed 1 May 1901.)
- No. 360 of 1900.—The British Westinghouse Electric and Manufacturing Co., Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in dynamo electric machines.* (Specification filed 1 May 1901.)

No. 386 of 1900.—Guglielmo Marconi, electrician, and Marconi's Wireless Telegraphy Co., Ltd., formerly known as (The Wireless Telegraph and Signal Company, Ltd.), both of 18, Finch Lane, Threadneedle Street, in the city of London, England. *Improvements in apparatus employed in wireless telegraphy.* (Specification filed 1 May 1901.)

No. 1492 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 81 of 1895.—Samuel Cleland Davidson. *Improvements in steam engines and in means for driving high speed shafts therefrom.* (From 17 May 1901 to 17 May 1902.)

No. 82 of 1895.—Samuel Cleland Davidson. *Improvements in apparatus for withering tea leaf, or exposing chemicals or other material to hot or cold air, or a mixture of air and vapour or gases; also for drying yarns, cloths, and other substances.* (From 17 May 1901 to 17 May 1902.)

No. 33 of 1896.—William Augustus Pailly. *Improvements in and relating to portable and other latvines.* (From 30 April 1901 to 30 April 1902.)

No. 66 of 1896.—Samuel Cleland Davidson. *Improvements in the trays or carriers of apparatus for exposing tea, coffee, cocoa, grain, and other substances, to the drying or other action of air, vapour or gases.* (From 22 May 1901 to 22 May 1902.)

No. 393 of 1896.—Perkins Patent Putter Pex Co., Ltd. *Improvements in and relating to boxes or packages for the transport of butter, fruit or other edible substances.* (From 30 April 1901 to 30 April 1902.)

No. 1493 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 181 of 1896.—The Alternate Current Electro Motor Syndicate, Ltd. *Improvements relating to electro motors and transformers.* (Specification filed 22 January 1897.)

No. 192 of 1896.—Carl Lognann. *Improvements in and relating to the spindles of spinning and like machines.* (Specification filed 22 January 1897.)

No. 209 of 1896.—Edward Thuderbolt. *Improvements in governors for regulating the speed of machinery.* (Specification filed 22 January 1897.)

No. 210 of 1896.—George Jones Atkins. *Improved compounds or products applicable to the separation of metals from their ores and other material with which they may be combined.* (Specification filed 22 January 1897.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs50 for each of the above inventions.

No. 341 of 1894.—Alexander Gray. *Improvements in apparatus used in the manufacture of paper, linen or other fabrics coated or impregnated with celluloid or varnish or the like.* (Specification filed 21st January 1895.)

Fee in respect of the continuance of an exclusive privilege—

4 (c) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of Rs50 for the above invention.

No. 257 of 1892.—Maurice Lorois. *Improvements in and connected with gas engines or motors.* (Specification filed 24 January 1893.)

Fee in respect of the continuance of an exclusive privilege—

4 (e) After the expiration of the seventh year and before the expiration of the eighth year from the date of the filing of the specification—

The sum of Rs50 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 10th, 1895) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,

Secretary under the Inventions and Designs Act, 1888.

TELEGRAPH DEPARTMENT.

NOTIFICATIONS.

Calcutta, the 4th May, 1901.

No. 5.—Mr. J. M. Whitting, Assistant Superintendent, Class VII, 2nd grade, is granted privilege leave for one month and twenty days under Civil Service Regulations, Article 291, in combination with special leave on urgent private affairs for four months and eighteen days under Articles 264-A. and 348, with effect from the forenoon of the 22nd March, 1901.

No. 6.—Mr. S. Babington, Assistant Superintendent, Class VI, 2nd grade, is granted privilege leave for two months and twenty days under Civil Service Regulations, Article 291, in combination with furlough for one year under Article 340 (b) and Government of India Home Department Resolution No. 224-240, dated the 25th January, 1901, with effect from the forenoon of the 26th April, 1901.

FRED. MACLEAN,

Director General of Telegraphs.

HIGH COURT—ORIGINAL SIDE.

NOTIFICATION.

Calcutta, the 9th May, 1901.

The Honorable the Chief Justice has, with the approval of His Excellency the Governor General of India in Council, appointed Mr. St. John Stephen, Barrister-at Law, to officiate as Clerk of the Crown during the absence on leave of the Honorable Mr. J. G. Apcar, or until further order.

By Order,

W. R. FINK,

Registrar.

Ex-officio Secretary, Military Orphan Schools.

PAY EXAMINER'S OFFICE, BENGAL COMMAND;
Calcutta, the 2nd May, 1901.

INDO-EUROPEAN TELEGRAPH DEPARTMENT.

NOTIFICATION.

Calcutta, the 7th May, 1901.

No. 104.—Mr. H. Whithy Smith, Director, Persian Gulf Section, has been granted privilege leave for two months, combined with furlough for six months, under Articles 264-A. and 340 (b) of the Civil Service Regulations, with effect from the 17th April, 1901.

F. F. HENSLEY,
Examiner of Telegraph Accounts.

AGENT TO THE GOVERNOR GENERAL FOR CENTRAL INDIA.

NOTIFICATION.

Central India Agency, Indore, the 6th May, 1901.

No. 4614.—The following additions and alterations are made by the Agent to the Governor General in Central India to the Rules published in the Central India Agency Notification No 2088, dated the 9th March, 1901, in connection with the Rules under the E. D. Act, 189, for the Cantonments of Mhow, Nimach and Nowgong:—

1. For Rule 5 substitute—

Compulsory corpse inspection by medical officers should not be resorted to, but during an outbreak of plague all deaths, the cause of which cannot be determined to be plague, should be treated as deaths from plague. It will be open to any persons to voluntarily submit a dead body to the examination of a medical officer if they wish to avoid the death from being treated as due to plague.

2. The first sentence of Rule 15 to be omitted.

3. In all Rules "plague" to be substituted for "bubonic plague."

By Order,

C. J. WINDHAM, *Captain,*
First Assistant Agent to the Governor General for Central India.

ODDH AND ROHILKHAND RAILWAY.

NOTIFICATION.

For the Punjab Mail from 6 P.M. to 7 P.M.

For the Eastern Bengal Mail from 6 P.M. to 7 P.M.

For the Khulna Mail from 6 P.M. to 7 P.M.

For Madanore, Orissa and the Madras Presidency the previous evening up to 6 P.M. and late registered letters up to 7 P.M.

The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7-30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of ½ anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies, China and Japan *via* Laticoin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 5-45 A.M., and late letters and papers fully prepaid will be received up to 6-35 A.M.

On the day of despatch of the Mail of Europe (Thursday), the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6-30 P.M., and late letters and papers fully prepaid will be received up to 6-45 P.M. Late registered

articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6-30 P.M. for despatch by any Foreign Mail *via* Bombay the same night and up to 8-30 P.M., late letters and papers up to 9 P.M., for any Foreign Mails despatched by Sea. Foreign Mails for despatch *via* Madras or Tuticorin are received up to 5-45 A.M. and with a late fee up to 6-35 A.M. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,

Offg. Presidency Postmaster, Calcutta.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1900, the price of this Quinine will be as follows:—

1-pound tin, R17, or, post-free, R17-12.

½ " " R 8-8 " R9.

¼ " " R4-4 " R4-12.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from willful mixture with the inferior alkaloids Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta.

Apply to the Registrar, Geological Survey of India, Calcutta.

YEARLY EXAMINATION OF CANDIDATES FOR FOURTH GRADE OF ACCOUNTANTS.

The yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 1st and 2nd July 1901, at 10-30 A.M.:—

SUBJECTS.	Full marks.	Minimum pass marks.
Writing (neatness, clearness, and rapidity.)	100	50
Dictation (spelling, punctuation, etc.)	100	50
Arithmetic (the whole)	240	160
Mensuration (a) the whole	60	30
Book-keeping (b) mercantile	100	50
TOTAL	600	...

Minimum required in all papers collectively, 400.

(a) Todhunter's Mensuration for Beginners.

(b) "Book-keeping," by Ball and Hamilton.

"Book-keeping" by double and single entry, by W. Inglis (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Govern-

*This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

ment employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examina-

tion and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

- (1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)
- (2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).
- (3) Certificate that the application is in the candidate's handwriting.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the college or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

J. S. SLATER,
Principal, Civil Engineering College.

SIBPUR,
The 26th April, 1901.

CIVIL ENGINEERING COLLEGE, SIBPUR.

ENGINEER DEPARTMENT.

SESSION 1901-1902.

Candidates for admission to the Engineer Department should apply to the Principal before the 15th May, 1901. Each application must be accompanied by a registration fee of Rs. The session begins on Monday, the 3rd June, 1901.

Candidates must furnish proof that they have passed one of the following tests:—

- (1) The F. A. Examination of the Calcutta University or a similar standard of any Indian University recognised by the Calcutta University. The candidate's age must be under 21 years.
- (2) The B. A. Examination in the B Course in Physics and Chemistry. The candidate's age must be under 23 years.

In selection of candidates who have passed the F. A. (all other things being equal) preference will be given to those who have passed in Sanitary Science in addition to the ordinary subjects of the F. A. Examination.

The maximum number to be admitted each year is limited to 40. The position in the University Examination and the age of the candidates will be taken into consideration when selection is made, and such selection will be made by the Principal.

The tuition fee for students of the Engineer Class is Rs 10 a month for each month of the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of Junior or Senior Scholarships. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eye sight.

Further particulars will be supplied on application to the Principal.

J. S. SLATER,

Principal, Civil Engineering College.

SIBPUR;

The 9th April, 1901.

CIVIL ENGINEERING COLLEGE, SIBPUR.

APPRENTICE DEPARTMENT.

SESSION 1901-1902.

The date for admission to this department is 3rd June, 1901. Candidates must be at least 15, and not more than 17, years of age.

They must have passed Standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard, so as to reach Principal not later than the 6th May, 1901, together with a registration fee of Rs. 1. No application will be attended to after this date.

The maximum number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Sur-

geon as to his physical strength, chest, measurement, fitness for manual labour and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in June. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of June, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be one vacancy on the free list for Christian apprentices in June next, and there will be twenty-one on the reduced

* Rs 5 per mensem. fee* list. For natives there

Rs 2 per mensem.

will be at least seven vacancies, possibly more on the reduced fee list.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can, therefore, be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

With the exception of students on the free and reduced fee lists, all apprentices will pay a tuition fee of Rs 3 a month for each month of the year.

Further particulars will be supplied on application to the Principal.

J. S. SLATER,

Principal, Civil Engineering College.

SIBPUR;

The 9th April, 1901.

CIVIL ENGINEERING COLLEGE.

The privilege granted to the B. A. students of the B Course in Government Resolution No. 294, dated the 21st April, 1891, of being admitted direct into the second year class of this College, has been withdrawn under Government Order No. 1626, dated 27th March, 1901. Henceforth these students will be admitted into the first year class of the Engineer Department instead of into the second year class, as at present.

J. S. SLATER,

Principal.

SIBPUR,

The 20th April, 1901.

GOVERNMENT CINCHONA FEBRIFUGE.

Cinchona Febrifuge can be purchased by all Government officers, and by any one taking six pounds at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, Rs 2-8; per eight-ounce tin, Rs 5; per pound tin, Rs 10. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, at the under-

noted rates : per four-ounce tin, $R3$; per eight-ounce tin, $R6$; per pound tin, $R12$. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage, four annas per four-ounce tin, eight annas per eight-ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

ing, postage, and other incidental charges except com-
mission for Value-payable supplies, and are for all pur-
chasers other than resident College students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal 8vo., with numerous Plates.

Volumes I and II are published in separate convenient sized
Sections, as below, but can be bound up if required:—

VOLUME I. *

Section	I. Building Materials (1898), $\mathbf{R2-0}$.
"	II. Masonry (1898) $\mathbf{R1-4}$.
"	III. Carpentry (1898), $\mathbf{R1-8}$.
"	IV. Earthwork (1892), $\mathbf{R1-4}$.
"	V. Tools and Plant (never published).

VOLUME II. *

Section	VI. Buildings (1899), $\mathbf{R1-4}$.
"	VII. Bridges (1897), $\mathbf{R4-4}$.
"	VIII. Roads (1897), $\mathbf{R1-8}$.
"	* IX. Railways (1897), $\mathbf{R1-4}$.
"	X. Irrigation Works. (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol.	I. Direct and Transverse Strain, principally by Analytical Methods. $\mathbf{R7}$.
"	II. The Stability of Structures, mostly by Graphic Methods. (In the Press.)

* Date of Edition on sale.

MANUALS.

- VII. Surveying (by Major Firebrace, R.E.) (7th edition
with Curve Table). $\mathbf{R3}$.
XIII. Drawing (by Lieut. R. Palford, R.E.). $\mathbf{R6}$.
XIIIa. Drawing, First Principles of Geometrical (by
do.). $\mathbf{R1-4}$.
XIV. Simple Applied Mechanics (3rd edition), Parts
I and II in one. $\mathbf{R1-8}$.
Simple Applied Mechanics, Part II (1st edition)
 $\mathbf{8a}$.
XV. Examples of Estimating. Comprising a progres-
sive series of Estimates (with Plans of Buildings
and Bridges, worked in detail). By P. Keay, Esq.,
and revised by C. C. Sullivan, Esq., Head
Master (5th edition). $\mathbf{R3-12}$.
XVI. Earthwork Estimating, with Practical Tables and
Diagrams. By Major A. M. Brandreth, R.E.
 $\mathbf{R1}$.
XVII. Specimens of Printing used in the College
Drawing Course and Entrance Examinations. $\mathbf{0a}$.

Note.—The complete Treatise forms the course of the Civil
Engineer and Upper Subordinate classes at the Thomason College
in Civil Engineering. The other Manuals are the complete
course for both classes in the several subjects of which they
treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. $\mathbf{4a}$.
Scantlings of Timber for Roofs. Tables and investiga-
tion of formulae for determining size of timbers for Flat
Roofs from 8 to 22 feet span, and for Trussed Roofs
from 30 to 50 feet span. 2nd edition. By P. Keay, Esq.,
Head Master. $\mathbf{12a}$.
Notes on Chemistry of Building Materials. $\mathbf{R1-8}$.
Late's Mechanism. $\mathbf{R1}$.
Barman's Descriptive Mineralogy. $\mathbf{R2-4}$.
Useful Rules and Tables relating to Measurement of
Timber. Rules for computing the cubic contents of
Round logs, as well as of Sawn Timbers, with Tables,
etc. By Rai Kanhya Lal. $\mathbf{R2-8}$.
O'Callaghan's Earthwork Tables for India. In one large
sheet, 1244 mounted on cloth and bound. $\mathbf{R1-12}$.
Tables for Computing Earthwork in Distributaries and
other open Channels in use in Irrigation Department
N. W. Provinces. $\mathbf{12a}$.
Tyndall's Hand-Book of Specifications. (In the Press.)
The Indian Engineer's Pocket Book. $\mathbf{R1}$.
Wooden Bridges and Designs. By Rai Kanhya Lal.
(In the Press.)
Blasting under Water (2nd edition). $\mathbf{10a}$.
Wauget's Instructions for Topographical Surveying.
 $\mathbf{R1}$.
Analysis of Lime and Cement Stones. By Murray
Thompson, Esq. M.D. F.R.S.E. $\mathbf{0a}$.
Chart, giving by a graphic method the discharges of
earthen channels up to 45 feet bed width, very useful for
Projects. $\mathbf{R1-0}$.

SCIENCE BOOKS.

Wilson's Inorganic Chemistry. $\mathbf{R1-8}$.

MATHEMATICAL.

- Boileau's Tables of Values and Rent, and of the value
of goods. Tables for converting Seers and Chit-
tacks into decimals of a Mound and Annas and Pie
into decimals of a Rupee. With a few others of
general utility. 4th edition. $\mathbf{R1-8}$.
Boileau's Tables of Log sin $\frac{1}{2} P$ for computing time (404,
Cape's Logarithms, with Tables of Squares, Cubes, etc.
 $\mathbf{R1-4}$.
Cape's Geometry. $\mathbf{R1-4}$.

Principal, Thomason Civil
Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1886, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.
For the Complete Series, including postage.

	Without postage.	With postage.
	R a. p.	R a. p.
For the Calcutta Series	10 0 0	12 8 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately, inclusive of postage in India		2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India		1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mousal.
	R a. p.	R a. p.
For the Calcutta Series; per copy	0 5 0	0 10 0
" each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 10 0
" the Calcutta Series: For the year	7 2 0	8 0 0
" each of the Madras, Bombay, and Allahabad Series: For the year	4 4 0	4 11 0

Persons desiring to subscribe for, or purchase, the Reports should apply to—

Superintendent, Government Press, Madras.

The Superintendent, Government Central Press, Bombay.

The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.

Orders and subscriptions for 1891 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	Half page.	Quarter page.

Government of India Notifications, Appointments, Promotions, &c.

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 17th May, 1901.

No. 359.—The services of the Hon'ble Mr. J. A. Bendillon, C.S.I., of the Indian Civil Service, are replaced at the disposal of the Government of Bengal, with effect from the date on which he ceased to be a Member of the Famine Commission.

MEDICAL.

The 11th May, 1901.

No. 688.—The services of the undermentioned officers are placed permanently at the disposal of the Government of the North-Western Provinces and Oudh:

Major J. Garvie, M.B., C.M., I.M.S. (Bengal).

Captain J. S. S. Lumsden, M.B., I.M.S. (Bengal).

Captain C. Thomson, M.B., I.M.S. (Bengal).

SANITARY.

Plague.

The 15th May, 1901.

No. 933.—Whereas the Governor General in Council is satisfied that Benares, in the North-Western Provinces, is visited by an outbreak of dangerous epidemic disease and

that there is a danger of its spread, if pilgrims or other persons from the Salem District of the Madras Presidency, the Bombay Presidency (including Sind), Bengal, the Jullundur, Hoshiarpur, Gurdaspur and Sialkot Districts and the Kapurthala and Patiala States in the Punjab, the Mysore, Baroda and Kashmir States and the Marwar State in Rajputana are permitted to assemble at that place on the occasion of the ensuing Solar Eclipse on the 18th May 1901 :

In exercise of the powers conferred by section 2, sub-section (1) of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Moghal Sarai and Majhwar on the East Indian Railway, Shiupur, Benares Cantonment, Kashi and Chaukhundi on the Oudh and Rohilkhand Railway and Kadipur, Benares City and Rajawari on the Bengal and North-Western Railway shall be sold from the 13th to the 18th May 1901 (both days inclusive) within the Salem District of the Madras Presidency, the Bombay Presidency (including Sind), Bengal, the Jullundur, Hoshiarpur, Gurdaspur and Sialkot Districts and the Kapurthala and Patiala States in the Punjab, the Mysore, Baroda and Kashmir States and the Marwar State in Rajputana, to any pilgrim or other person intending or believed to be intending to proceed on pilgrimage to Benares on the occasion of the Solar Eclipse.

The 16th May, 1901.

No. 946.—The following telegram is published for general information :

Telegram dated the 10th May 1901.

From—His Britannic Majesty's Ambassador Extraordinary and Minister Plenipotentiary, Pera.

To—His Excellency the Viceroy, Simla.

Clean bill of health being delivered and all measures against Constantinople withdrawn.

PORT BLAIR.

The 16th May, 1901.

No. 295.—Home Department Notification No. 259, dated the 26th April 1901, making modifications in this Department Notification No. 90, dated the 16th February 1901, sanctioning certain officiating appointments in the Port Blair Commission, consequent on the grant of furlough to Mr. E. H. Man, C.I.E., Deputy Superintendent, Port Blair, is hereby cancelled.

No. 297.—In supersession of the orders contained in Home Department Notification No. 234, dated the 17th April 1901, Mr. E. H. Man, C.I.E., Deputy Superintendent, Port Blair, is granted furlough out of India for five months and six days, under Articles 336 (b) and 340 (b) of the Civil Service Regulations, with effect from the 7th April 1901.

POLICE.

The 17th May, 1901.

No. 331.—The services of Lieutenant G. P. Evans, 19th Punjab Infantry, are placed at the disposal of the Government of Burma for employment in the Burma Military Police.

ECCLESIASTICAL.

The 17th May, 1901.

No. 221.—The Reverend H. C. Spring, a Senior Chaplain on the Bengal (Lucknow) Ecclesiastical Establishment, is permitted to retire from the service, with effect from the 18th May 1901.

J. P. HEWETT.

Secretary to the Government of India

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATION.

LAND-SURVEYS.

Simla, the 17th May, 1901.

No. 1069—4-7.—Lieutenant F. B. Tillard, R.E., is appointed to the Survey of India Department as an Assistant Superintendent, 2nd grade, with effect from the 11th April 1901.

J. B. FULLER,

Offg. Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 15th May, 1901.

No. 836-G.—Captain C. T. Ducat, Indian Staff Corps, a Political Assistant of the 3rd (officiating 1st) class, is granted privilege leave for two months and eight days, with effect from the 1st March, 1901, and is also granted furlough for ten months and four days, under article 340 (b) of the Civil Service Regulations, in continuation of the privilege leave.

(Notification No. 303-G, dated the 21st February, 1901, is cancelled.)

The 17th May, 1901.

No. 850-G.—Lieutenant S. B. A. Patterson, Indian Staff Corps, a Political Assistant of the 3rd class, is granted privilege leave for three months, with effect from the 15th May, 1901, and is also granted furlough for nine months, under article 340 (b) (IV) (i) of the Civil Service Regulations, in continuation of the privilege leave.

No. 852-G.—Lieutenant-Colonel G. H. D. Gimlette, Indian Medical Service (Bengal), is posted as Residency Surgeon in Hyderabad.

No. 854-G.—The following substantive promotions and appointment are made in and to the Berar Commission, with effect from the 1st April, 1901, consequent on the retirement from the service of Rao Bahadur Deo Rao Jayakrishna, an Extra Assistant Commissioner of the 1st class:

Mr. Vishwanath Narayan Dandekar, an Extra Assistant Commissioner of the 2nd class, to be an Extra Assistant Commissioner of the 1st class.

Mr. Maniksha Ratanji Dastur, an Extra Assistant Commissioner of the 3rd class, to be an Extra Assistant Commissioner of the 2nd class.

Mr. Ganesh Babuji, an Extra Assistant Commissioner of the 4th (substantive *pro tempore* 3rd) class, to be an Extra Assistant Commissioner of the 3rd class.

Mr. J. R. Edwards, an Extra Assistant Commissioner of the 5th (substantive *pro tempore* 4th) class, to be an Extra Assistant Commissioner of the 4th class.

Mr. Balakrishna Balvant Sule, a Tahsildar of the 1st grade and an Extra Assistant Commissioner of the 5th class, substantive *pro tempore*, to be an Extra Assistant Commissioner of the 5th class.

No 855-G.—The following substantive *pro tempore* promotions are made in the Berar Commission, with effect from the 1st April, 1901, during the absence on deputation of Mr. Ardesar Dinshaji Chinoy, an Extra Assistant Commissioner of the 3rd class, or until further orders:

Mr. Sheikh Muhammad Ismail, an Extra Assistant Commissioner of the 4th class, to be an Extra Assistant Commissioner of the 3rd class.

Mr. Sakharam Atmaram Adhikari, an Extra Assistant Commissioner of the 5th class, to be an Extra Assistant Commissioner of the 4th class.

Mr. Mir Anwar Ali, a Tahsildar of the 2nd grade and an officiating Extra Assistant Commissioner of the 5th class, to be an Extra Assistant Commissioner of the 5th class.

No. 859-G.—The following changes are made in the graded list of the Political Department:

Consequent on the return from furlough of Captain F. G. Beville, Indian Staff Corps, a Political Assistant of the 1st class, and his appointment to officiate as a Political Agent of the 4th class, and with effect from the 22nd December, 1900,—

Captain R. B. Berkeley, Indian Staff Corps, an officiating Political Agent of the 4th class, reverts to officiating Political Assistant of the 1st class.

Captain R. A. E. Benn, Indian Staff Corps, an officiating Political Assistant of the 1st class, reverts to officiating Political Assistant of the 2nd class.

Lieutenant V. de V. Hunt, Indian Staff Corps, an officiating Political Assistant of the 2nd class, reverts to his substantive grade of Political Assistant of the 3rd class.

Consequent on the appointment of Captain A. H. McMahon, C.S.I., C.I.E., Indian Staff Corps, a Political Agent of the 1st class, to be a Resident of the 2nd class, and with effect from the 24th December, 1900,—

Mr. A. L. P. Tucker, of the Indian Civil Service, an officiating Resident of the 2nd class, reverts to his substantive grade of Political Agent of the 1st class.

Consequent on the return from furlough of Captain C. J. Windham, Indian Staff Corps, a Political Assistant of the 3rd (now 2nd) class, and his appointment to officiate as a Political Assistant of the 1st class, and with effect from the 24th December, 1900,—

Captain F. C. Webb Ware, Indian Staff Corps, an officiating Political Assistant of

the 1st class, reverts to officiating Political Assistant of the 2nd class.

Lieutenant A. B. Minchin, C.I.E., Indian Staff Corps, an officiating Political Assistant of the 2nd class, reverts to his substantive grade of Political Assistant of the 3rd class.

With effect from the 24th December, 1900, consequent on the confirmation of Mr. J. Lang, of the Indian Civil Service, as a Political Agent of the 4th class, and his reversion (hereby ordered) to his substantive grade,—

Captain S. F. Bayley, Indian Staff Corps, a Political Agent of the 4th class, to officiate as a Political Agent of the 3rd class.

Consequent on the grant of furlough to Mr. R. Hughes Baller, of the Indian Civil Service, a Political Assistant of the 1st (officiating Political Agent of the 4th) class, and with effect from the 15th January, 1901,—

Captain R. B. Berkeley, Indian Staff Corps, an officiating Political Assistant of the 1st class, to officiate as a Political Agent of the 4th class.

Captain F. C. Webb Ware, Indian Staff Corps, an officiating Political Assistant of the 2nd class, to officiate as a Political Assistant of the 1st class.

Lieutenant A. B. Minchin, C.I.E., Indian Staff Corps, a Political Assistant of the 3rd class, to officiate as a Political Assistant of the 2nd class.

Consequent on the appointment of Mr. T. C. Edwards, of the Indian Civil Service, to officiate as a Political Agent of the 4th class, and with effect from the 12th February, 1901,—

Captain R. B. Berkeley, Indian Staff Corps, an officiating Political Agent of the 4th class, reverts to officiating Political Assistant of the 1st class.

Captain F. C. Webb Ware, Indian Staff Corps, an officiating Political Assistant of the 1st class, reverts to officiating Political Assistant of the 2nd class.

Lieutenant A. B. Minchin, C.I.E., Indian Staff Corps, an officiating Political Assistant of the 2nd class reverts to his substantive grade of Political Assistant of the 3rd class.

Consequent on the appointment of Captain J. Ramsay, C.I.E., Indian Staff Corps, a Political Agent of the 2nd class, to officiate as a Resident of the 2nd class, and Revenue and Judicial Commissioner in Baluchistan, in addition to his own duties, and with effect from the 13th February, 1901,—

Major (now temporary Lieutenant-Colonel) G. F. Chenavix Trenon, Indian Staff Corps, a Political Agent of the 3rd class, to officiate as a Political Agent of the 2nd class.

Captain P. T. A. Spence, Indian Staff Corps, a Political Agent of the 4th class, to officiate as a Political Agent of the 3rd class.

Consequent on the appointment of Mr. C. L. S. Russell, of the Indian Civil Service,

to officiate as a Political Agent of the 4th class, and with effect from the 2nd March, 1901,—

Captain A. McConaghey, Indian Staff Corps, an officiating Political Agent of the 4th class, reverts to his substantive grade of Political Assistant of the 1st class.

Captain C. T. Ducat, Indian Staff Corps (on privilege leave), an officiating Political Assistant of the 1st class, reverts to officiating Political Assistant of the 2nd class.

Lieutenant (now Captain) F. B. Prideaux, Indian Staff Corps, an officiating Political Assistant of the 2nd class, reverts to his substantive grade of Political Assistant of the 3rd class.

Consequent on the grant of privilege leave and furlough combined, to Lieutenant-Colonel W. Loch, Indian Staff Corps, a Resident of the 2nd class, and with effect from the 15th March, 1901,—

Mr. A. L. P. Tucker, of the Indian Civil Service, a Political Agent of the 1st class, to officiate as a Resident of the 2nd class.

Captain J. Manners Smith, V.C., C.I.E., Indian Staff Corps, a Political Agent of the 2nd class, to officiate as a Political Agent of the 1st class.

Captain F. W. P. Macdonald, Indian Staff Corps, a Political Agent of the 3rd class, to officiate as a Political Agent of the 2nd class.

Mr. J. Lang, of the Indian Civil Service, a Political Agent of the 4th class, to officiate as a Political Agent of the 3rd class.

Captain A. McConaghey, Indian Staff Corps, a Political Assistant of the 1st class, to officiate as a Political Agent of the 4th class.

Captain C. T. Ducat, Indian Staff Corps (on privilege leave), an officiating Political Assistant of the 2nd class, to officiate as a Political Assistant of the 1st class.

Consequent on the appointment of Captain W. Haig, Indian Staff Corps, to officiate temporarily as a Political Agent of the 3rd class, and with effect from the 20th March, 1901,—

Mr. J. Lang, of the Indian Civil Service, an officiating Political Agent of the 3rd class, reverts to his substantive grade of Political Agent of the 4th class.

Captain A. McConaghey, Indian Staff Corps, an officiating Political Agent of the 4th class, reverts to his substantive grade of Political Assistant of the 1st class.

Captain C. T. Ducat, Indian Staff Corps (on privilege leave), an officiating Political Assistant of the 1st class, reverts to officiating Political Assistant of the 2nd class.

Lieutenant A. L. Jacob, Indian Staff Corps, an officiating Political Assistant of the 2nd class, reverts to his substantive grade of Political Assistant of the 3rd class.

Consequent on the return from furlough of Major S. H. Godfrey, Indian Staff Corps, a Political Agent of the 4th class, and his appointment (hereby ordered) to officiate as a Political Agent of the 3rd class, and with effect from the 29th March, 1901,—

Captain P. T. A. Spence, Indian Staff Corps, an officiating Political Assistant of the 3rd class, reverts to his substantive grade of Political Agent of the 4th class.

Captain A. F. Bruce, Indian Staff Corps, an officiating Political Agent of the 4th class, reverts to his substantive grade of Political Assistant of the 1st class.

Captain C. J. Windham, Indian Staff Corps, an officiating Political Assistant of the 1st class reverts to his substantive grade of Political Assistant of the 2nd class.

Lieutenant A. B. Drummond, Indian Staff Corps, an officiating Political Assistant of the 2nd class, reverts to his substantive grade of Political Assistant of the 3rd class.

Consequent on the grant of privilege leave and furlough combined, to Captain C. T. Ducat, Indian Staff Corps, a Political Assistant of the 3rd (officiating 2nd) class, and with effect from the 31st March, 1900,—

Lieutenant A. B. Drummond, Indian Staff Corps, a Political Assistant of the 3rd class, to officiate as a Political Assistant of the 2nd class.

No. 1948-I.-A.—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, 1879 (XXI of 1879), and of all other powers enabling him in this behalf, the Governor General in Council is pleased to make the following rules for the administration of the jail established in the civil station of Wadhwan and for the detention of prisoners therein, namely:

(1) The Wadhwan jail shall, subject to the orders of the Government of Bombay, be under the general control and superintendence of the Inspector General of Prisons, Bombay.

(2) The said jail shall, as regards the classes of prisoners to be detained therein and the manner of their detention, be administered as a subsidiary jail, and the rules relating to subsidiary jails of the second class for the time being in force in the Province of Bombay shall, in so far as they are suitable, be applied to the said jail:

Provided that prisoners under sentence of imprisonment for not more than two years may be detained in the said jail.

The notification of the Government of India in the Foreign Department, No. 1448 I.-A., dated the 2nd June, 1899, is hereby cancelled.

H. S. BARNES,

Secretary to the Government of India.

FINANCE AND COMMERCE DEPARTMENT.

NOTIFICATIONS.

LEAVE AND APPOINTMENTS.

Simla, the 14th May, 1901.

No. 2602-P—Mr. R. T. Howe, Assistant Comptroller General in charge of the Paper Currency Office, Calcutta, is granted privilege leave for three months, with effect from the 17th of May 1901.

No. 2618-P.—Mr. A. F. Ashton, Deputy Commissioner, Northern India Salt Revenue, is granted privilege leave for three months, with effect from the 1st June 1901, and the following acting appointments are made during the absence on privilege leave of Mr. Ashton, or until further orders:

Mr. J. Bolster, Assistant Commissioner, Northern India Salt Revenue, to officiate as Deputy Commissioner, and

Mr. A. E. Cline, Superintendent, Northern India Salt Revenue, to officiate as Assistant Commissioner, Northern India Salt Revenue.

SEPARATE REVENUE. POST OFFICE.

The 13th May, 1901.

No. 2573-S.R.—In exercise of the powers conferred by the Indian Post Office Act, 1898 (VI of 1898), the Governor General in Council is pleased to direct that, with effect from the 1st of July 1901, the following amendments shall be made in the rules published in previous notifications in this Department under that Act:

(1) In rule 1 of the Rules published in Notification No. 2566-S.R., dated the 4th August 1899, and also in rule 127 published in Notification No. 1604-S.R., dated the 20th March 1901, *substitute* the following for the rates of postage under the head "Parcels":

(a) *Parcels not exceeding 440 tolas in weight—*

For a parcel not exceeding twenty tolas in weight . two annas.

For a parcel exceeding twenty tolas, but not exceeding forty tolas in weight four annas.

For every additional forty tolas or part of that weight two annas.

(b) *Parcels exceeding 440 tolas in weight—*

For a parcel exceeding 440 tolas, but not exceeding 480 tolas in weight . three rupees.

For every additional forty tolas or part of that weight four annas.

- (2) In rule 2 of the Rules published in Notification No. 356E.S.R., dated the 4th August 1899, cancel the words—

"On an unpaid registered parcel— The prepaid rate (and registration fee)."

- (3) For rules 21, 28, 29, 35 and 128, published in Notification No. 1429-C.S.R., dated the 30th March 1899, *substitute* the following:

21. The postage on a parcel shall be fully prepaid by means of postage stamps which shall be affixed either to the cover of the parcel or to an official label which can be obtained free at the post office. In either case, the sender or his messenger shall affix the stamps himself, postal officials being strictly forbidden to affix them.

28. In addition to the postage, a fee of two annas shall be charged for the registration of any postal article.

29. The prepayment of the postage and registration fee shall be compulsory in the case of all registered articles, and shall be made by means of postage stamps affixed to the articles.

35. Registration shall be obligatory in the case of—

- (1) any parcel exceeding 440 tolas in weight;
- (2) any insured parcel; and
- (3) any parcel addressed to a place for which a customs declaration is required.

128. The postage chargeable on the delivery of official postal articles, when the postage is not prepaid or is insufficiently prepaid, shall be as follows:

On an unpaid letter or packet— The prepaid rate.

On an insufficiently paid letter or packet— The deficiency.

In cases where it is not thought advisable to entrust postage stamps to a subordinate official who has to correspond with, or to send returns to, a superior, he may be allowed by his superior to post to him official articles other than parcels without prepaying the postage, and the same course may be adopted in other cases where it is found convenient or proper to make the postage charge fall on the receiving office.

- (4) For Note 2 under rule 127 published in Notification No. 1604-S.R., dated the 20th March 1901, *substitute* the following:

Note 2—The prepayment of postage on parcels shall be compulsory. Parcels weighing more than 440 tolas shall be registered.

- (5) In rule 133 of the Rules published in Notification No. 1429-C.S.R., dated the 30th March 1899, for the words "Letters, packets, and registered parcels" at the beginning of Clauses (1) and (2), *substitute* the words "Letters and packets."

LONDON GAZETTE.

No. 435.—The following extracts are published for general information:

"London Gazette," dated the 19th April 1901, pages 2695, 2696, 2697, 2698, 2699, 2700, 2701, 2703, 2704, 2705, 2706, 2710, 2712, 2713, 2714 and 2715.

WAR OFFICE;

Pall Mall, 19th April, 1901.

The King has been graciously pleased to give orders for the following promotions in, and appointments to, the Most Honourable Order of the Bath, and the Most Distinguished Order of Saint Michael and Saint George; for the following appointments to the Distinguished Service Order; and for the following promotions in the Army; in recognition of the services of the undermentioned officers during the operations in South Africa.

The rewards given below are for services in South Africa up to the 29th November 1900 the day on which Field Marshal Lord Roberts handed over the command, and which date (except where otherwise stated) they bear.

Owing to the multitude of recommendations forwarded to the Commander-in-Chief, it has not yet been possible to fully examine those for regimental service, or those relating to the Militia, Yeomanry, Volunteers, and certain other services. Further distinctions will be notified later. These will bear the same date as those now given, viz., the 29th November 1900, except where otherwise stated.

* * * * *

OFFICERS OF THE ARMY.

PUBLIC WORKS DEPARTMENT.

RAILWAYS.

NOTIFICATIONS.

Simla, the 13th May, 1901.

No. 199.—With reference to Public Works Department Notification No. 181, dated the 2nd May 1901, Mr. N. G. Priestley, Officiating Under Secretary to the Government of India, Public Works Department, Railway Branch, is placed in charge of the current duties of the Office of Director of Railway Traffic and Deputy Secretary to the Government of India, Public Works Department, in addition to his own duties, with effect from the forenoon of the 1st May 1901, till relieved by Lieutenant-Colonel G. F. Wilson, R.E.

The 14th May, 1901.

No. 201.—The services of Lieutenant A. H. Garrett, R.E., Assistant Engineer, 2nd Grade, State Railways, are placed temporarily at the disposal of the Foreign Department for employment in the Jaipur State.

No. 202.—Mr. J. M. Harman, Superintending Engineer, 2nd Class, temporary rank, State Railways, is granted special leave on urgent private affairs for six months, under Article 348 of the Civil Service Regulations in conjunction with four months' Famine concession on full pay as indicated in Finance and Commerce Department Resolution No. 5217-P., dated the 16th October 1900.

This cancels Public Works Department Notification No. 166, dated the 24th April 1901.

The 15th May, 1901.

No. 203.—In exercise of the powers conferred by Section 135 of the Indian Railways Act, 1890 (IX of 1890), the Governor General in Council is pleased, under clause (1) of that section, to declare that the Bengal-Nagpur Railway Company shall be liable to pay, in aid of the funds of the Howrah Municipality, a house-rate and a water-rate under the provisions of the Bengal Municipal Act, 1884 (III B. C. of 1884), in respect of holdings "No. 58, Fore-shore Road," "No. 42, Bharpara Lane," and "No. 32, Belgachia Road" acquired by the Railway Company within the limits of the said Municipality, and a latrine fee in respect of the last-named holding.

The liability imposed by this Notification shall be deemed to have arisen from the 1st April 1900.

The 17th May, 1901.

No. 204.—*Corrigendum.*—In Public Works Department Notification No. 97, dated the 11th March 1901, permitting Mr. J. E. N. Boydell, Executive Engineer, 1st Grade, State Railways, to retire from the service of Government, *for* "29th March 1901" *read* "forenoon of 14th March 1901."

A. BRERETON,

Offg. Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

IRRIGATION ROADS AND BUILDINGS.

NOTIFICATION.

Simla, the 13th May, 1901.

No. 200.—Mr. H. V. S. Baker, Superintending Engineer, 2nd Class, temporary rank, Punjab, reverted to his substantive rank of Executive Engineer, 1st Grade, from the forenoon of the 16th March 1901 to the afternoon of the 28th idem, from which latter date he is appointed to officiate as a Superintending Engineer, 3rd Class, till the afternoon of the 30th April 1901; from 1st May 1901, Mr. Baker is *temporarily* promoted to Superintending Engineer, 2nd Class.

Public Works Department Notification No. 182, dated 2nd May 1901, is cancelled.

T. HIGHAM,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

USE OF CHURCHES CONSECRATED FOR THE SERVICES OF THE CHURCH OF
ENGLAND FOR THE SERVICES OF PRESBYTERIANS AND WESLEYANS.

NOS. 205—220.

Extract from the Proceedings of the Government of India in the Home Department, (Ecclesiastical),—under date Simla, the 15th May, 1901.

Read—

The Resolutions of the Government of India in the Home Department, Nos. 146—161 and 335—350, dated, respectively, the 20th April 1899 and 19th July 1900, promulgating rules to regulate the use by other denominations of Churches consecrated for the services of the Church of England.

RESOLUTION.

The Governor General in Council is pleased to prescribe the following amendment and addition in the rules issued under the Resolutions of 20th April 1899 and 19th July 1900, read in the preamble :

For rule (3) the following shall be substituted :

“(3) The Chaplain or Minister desiring to obtain permission to use a consecrated church shall, in the first instance, address his application to the General Officer Commanding the District or the Lieutenant-General of the Command, by whom the application shall be forwarded to the Bishop of the Diocese. He shall at the same time inform the Chaplain of the Church of England that such application has been made to the Military authorities.”

The following rule shall be numbered (8) and inserted after the present rule (7) :

“(8) In the absence of the Metropolitan from India or in the case of a vacancy of the See of Calcutta, the functions devolving upon the Metropolitan under the foregoing rules shall be performed by such one of the Bishops of Madras and Bombay for the time being as shall have been first consecrated.”

ORDER.—Ordered that this Resolution be communicated to Local Governments and Administrations, the Ven'ble the Archdeacon and Bishop's Commissary, the Presidency Senior Chaplain, Church of Scotland, Bengal, the General Superintendent, Wesleyan Church, Bengal, and the Foreign and Military Departments.

Ordered, also, that it be published in the *Gazette of India*.

[True Extract.]

J. P. HEWETT,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Weather Review of India for the Week ending at 8 a.m. on
Saturday, the 11th May, 1901.**

The storm entering Upper Sind on Saturday, the 4th May, continued to advance eastward during the next twenty-four hours, but it was almost indistinguishable on Sunday morning, owing to a deep secondary depression it had given rise to in the North Punjab. The fall of the barometer exceeded three-tenths of an inch at Dera Ismail Khan, Khushab, Cherat and Murree, and at Dera Ismail Khan pressure was $\cdot 415$ inch in defect of the normal. Weather was very disturbed in North-West India, and unusually heavy rain for the time of the year was received in the North-West Punjab. Cherat reported an abnormally heavy fall of 7.70 inches, Peshawar 3.85 inches, Dera Ismail Khan 3.70 inches, Khushab 2.72 inches and Rawalpindi 2 inches. Duststorms, accompanied with light to moderate rain and gales, were reported from other parts of the Punjab and from Rajputana, Sind and Gujarat, and the sea was rough along the Sind and Kathiawar Coasts. Unusually general and heavy rain continued during the day in Upper India, the following being the most important falls reported on Monday morning: Murree 4.08 inches, Cherat 3.50 inches, Sialkot 2.51 inches and Rawalpindi 1.87 inches. A very rapid recovery of pressure had however occurred in the north and west of the Punjab, and the depression in that area had filled up. The primary depression to which the depression in the North Punjab was a secondary was passing through East Rajputana, but was of very slight importance. It passed through Bihar and Chota Nagpur on Tuesday as a shallow residual depression and was shown in Wednesday's chart as a shallow low pressure area in the submontane districts of Bengal, but its effect on the weather was very slight.

Pressure decreased slightly to briskly in Bengal, Burma and the centre and north-east of the Bay, and was in large defect over the Bay area on Monday, while the wind directions at the coast stations showed a tendency to the formation of a depression in the centre of the Bay. Pressure continued low over this region during the next few days, but no cyclonic storm was formed, the only important effect the deficiency of pressure had on the weather conditions being the establishment of strong westerly winds across the Peninsula, which gave a large increase of temperature in the Circars and Coromandel Coast districts. The highest temperatures in India were registered at stations in these districts on Monday, Tuesday, Wednesday and Thursday. Maximum temperatures of over 110° were registered on Wednesday at Nellore and Masulipatam, on Thursday at Masulipatam and Cocanada and on Friday at Nellore and Masulipatam. Temperature fell very rapidly in Upper India after the storm in the North Punjab on Sunday, and a telegram received from the Superintendent, Drosh Observatory, stated that the disturbance had given heavy snow in the Chitral Valley. The effect of the snowfall was shown in the temperatures registered in Upper India, which continued in considerable to very large defect up to Thursday, when temperature began to rise.

Moderate to heavy rain was received in Tenasserim and Lower Burma during the week. Showers, more or less local in character, fell in Assam, Bengal and the south and west of the Peninsula.

Rain.—Very heavy rain has fallen in the North Punjab and extraordinarily large amounts have been received at individual stations in this area. The rainfall of the week has been in excess in Baluchistan, Upper India, Tenasserim, Central Burma and Malabar and has been normal in Chota Nagpur and the Konkan. The heaviest average rainfall has occurred in the divisions of Tenasserim (8.88 inches) and the North Punjab (5.66 inches).

The following gives the largest amounts registered at individual stations during the week :

Tenasserim	Moulmein	8.88 inches.
	Thaton	9.28 „
	Kyaikto	10.08 „
Upper Burma	Magok	4.81 „
Assam	Sadiya	4.80 „
Punjab	Murree	8.31 „
	Uggi (Abbottabad)	8.04 „
	Peshawar	4.52 „
	Kattang (Peshawar)	8.55 „
	Cherat	11.20 „
	Kohat	7.80 „
	Fort Lockhart	17.00 „
	Edwardesabad	4.59 „
	Marwat (Bannu)	4.95 „
	Sheikhubudin (Dera Ismail Khan)	7.52 „
Malabar	Quilon	5.90 „

The last three columns of the table at the end show that the rainfall of the period from March 3rd to May 11th has been practically normal or in excess in Tenasserim, Orissa, Chota Nagpur, the east division of the North-Western Provinces, the Punjab (except the south and south-east divisions), Berar, the Central Provinces, Gujarat, Sind, Central India (East), Malabar, Coorg, the Konkan, the Bombay Deccan, Khandesh, the East Coast (North) and South Madras.

The actual defect continues largest in the Surma and Hills divisions of Assam where it now amounts to 15.17 inches and 9.02 inches, respectively.

SIMLA, 16th May, 1901.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the 11th May 1901.

Madras.—The rainfall was good in Travancore, moderate in South Arcot, the Central, the Southern, the West Coast and the Nilgiri districts, light in most parts of the Circars and *nil* elsewhere. Water-supplies are insufficient generally, except in parts of Ganjam, Vizagapatam, South Arcot, Coimbatore, Tanjore, Tinnevely, Malabar and the Nilgiris. Ploughing, sowing and transplanting are going on in parts. Standing crops are in fair condition generally, but some in parts of North Arcot and Coimbatore need more rain. Small harvests continue in parts with moderate yield. Pasture is scanty except in parts of Ganjam, Vizagapatam, Tanjore, Tinnevely, Malabar and the Nilgiris, but fodder generally is available. The condition of cattle generally is good. Prices are almost stationary or slightly easier. Those of all the dry staples in Cuddapah and of some in Bellary, Anantpur, North Arcot, South Arcot and Salem are at or above the scarcity rates. Prospects generally are fair. Numbers on relief—Cuddapah—weavers—men, 1,705; women, 1,346; total, 3,051. On test-works—Cuddapah—men, 809; women, 852; children, 117; total, 1,778; North Arcot—men, 90; women, 76; children, 18; total, 184; Total on works, 1,962; Grand total, 5,013.

Bombay.—Slight rain fell during the week in parts of Sindh, Kolaba, Ratnagiri, Belgaum, Dharwar and Kanara. Agricultural prospects are good in Sindh, fair to good in the Konkan, Surat, Khandesh and Satara and in parts of Poona and Broach and moderate to poor elsewhere. Reaping of spring crops has been completed in almost all districts. Threshing is in progress in parts of Shikarpur, Upper Sindh Frontier and Nasik. Cotton-picking is nearly over in Broach and Kaira. Lands are being prepared for next season in parts of Karachi, Hyderabad, Upper Sindh Frontier, Thar and Parkar, Gujarat, the Deccan, the Konkan, the Karnatak, Rajkot, Wadhwan and Baroda. Spring sowing has been commenced in parts of Thar and Parkar, Sholapur, Belgaum, Dharwar and Kanara. The fodder-supply is sufficient, except in parts of Sholapur, Bijapur and Dharwar. Agricultural stock generally is in good condition. The water-supply is becoming deficient in parts of Nasik, Ahmednagar, Poona and Dharwar. Prices have fallen in two districts, risen in eight districts and are stationary elsewhere. The price of rice is about normal in Gujarat and slightly over normal in the Deccan, the Konkan and the Karnatak, but is easier than in 1900. The price of *bajri* is below normal in Gujarat, over normal in the Konkan and considerably over normal in the Deccan and the Karnatak and, compared with 1900, is easier in the Konkan and considerably easier elsewhere. The price of *juar* is below normal in Gujarat and considerably over normal in the Deccan, the Konkan and the Karnatak and, compared with 1900, is easier in the Karnatak and the Konkan and considerably easier elsewhere. The price of wheat is over normal in Gujarat and the Konkan

and considerably over normal in the Deccan and the Karnatak and, compared with 1900, is about the same in the Konkan and easier elsewhere.

Daily average numbers on relief—British districts—on test-works, 884; on relief-works, 243,380; dependants, 30,026; total on works, 274,190. In poor-houses, 5,124; on village relief, 64,841; total on gratuitous relief, 69,965. Figures for Ahmedabad, the Panch Mahals and Nasik are incomplete. Native States—on relief-works, 20,893; dependants, 5,169; total on works, 26,062. In poor-houses, 1,262; on village relief, 1,633; total on gratuitous relief, 3,045. Figures for Rewa Kantha are incomplete. Grand total, 373,262.

Bengal.—More or less rain fell during the week in every district excepting Bankura and Chittagong. Several districts are still in need of more rain. Ploughing and manuring of fields, planting of sugarcane and sowing of *aus* (autumn rice), *aman* (cold season rice) and jute are still in progress. The harvesting of *boro* (hot season rice) is going on in some places. Fodder is dear in Bankura and the Ghatal subdivision. Water is sufficient. The price of common rice has risen in nineteen districts, fallen in four and is stationary in the rest.

North-Western Provinces and Oudh.—The weather was unsettled over half the provinces during the week, light showers of rain having fallen. Operations connected with the spring harvest are practically completed. Standing crops look healthy and are being irrigated. Sugarcane has been slightly damaged by insects in parts of Bijnor, Muzaffarnagar and Meerut. Locusts appeared in Dehra Dun, Bijnor, Aligarh and Partabgarh, but caused slight injury to standing crops in the first-named districts only. Markets are well stocked and fodder is ample. Prices show a slightly rising tendency.

Punjab.—Rain has fallen in Amballa, Mooltan and Lahore. Heavy rainfall has been reported from Rawalpindi. Harvesting of spring crops is still going on. Sowings of cotton, sugarcane and other autumn crops continue in Ferozepore, Mooltan, Lahore, Shahpur and Rawal Pindi. Cotton, sugarcane and tobacco crops are being weeded in Sialkot. The condition and prospect of standing crops are reported to be good. The yield of spring crops is said to be much above average in Ferozepore, good to average in Sialkot, average in Dera Ismail Khan and good elsewhere. Sugarcane and cotton have germinated well in Sialkot. Locusts appeared in Mooltan, Amritsar, Shahpur, Rawal Pindi and Dera Ismail Khan, but did no damage. They laid eggs in Rawal Pindi, and measures were taken to destroy them. A flight of locusts also passed through the two tahsils of the Amballa district, without doing any damage. Insects which appear to be grasshoppers have been observed in many villages of the Amballa district and have damaged the sugarcane crops slightly. The sugarcane crop has also been partially damaged by insects in Jullundur. Cattle are generally in good condition. Pasturage fodder is said to be sufficient in all districts, except in parts of Mooltan. The price of wheat has risen in Hissar, Amritsar and Rawal Pindi, fallen in Shahpur and Peshawar and is unchanged elsewhere. The price of gram shows a tendency to rise, except in Delhi and Ferozepore, where it is reported unchanged. The prices of other food-grains are unsettled. Sialkot reports that prices are high. Wheat is selling from $13\frac{1}{2}$ to 20, barley 28 to 29, gram $17\frac{3}{4}$ to 24, maize $16\frac{1}{4}$ to 28 and bulrush-millet 16 to 25 seers per rupee.

Burma.—Sowing of dry weather paddy has been completed in Pakokku and reaping has been commenced in Upper Chindwin and Kyaukse and is progressing elsewhere. Cultivation on up-lands in Minbu is retarded for want of rain. Sowing of paddy on hill sides has been begun in the Shan States and is finished in Myitkyina. Transplanting of early wet weather paddy is in progress in Kyaukse. Reaping of island crops has been completed in the Myingun township of Magwe. Ploughing for early sesamum has been commenced in the Palé township of Lower Chindwin and is in progress in Pakokku. The condition of standing crops is the same as last reported. Heavy rain fell in four districts and there were slight falls in most of the others. The price of paddy has risen somewhat in Thongwa, Toungoo, Thaton and Minbu and largely in the Southern Shan States.

Central Provinces—The weather was hot and occasionally cloudy with light showers of rain in five districts. Preparation of land for summer sowings is in progress everywhere. Fodder and water generally are sufficient. Prices are steady in Saugor, Mandla, Seoni, Nagpur, Bilaspur and Sambalpur. Elsewhere there are slight local fluctuations. The cheapest prices are—wheat 14, gram 16½, rice 14 and *juar* 20 seers per rupee. The dearest prices are—wheat 8, gram 11½, rice 8 and *juar* 13½ seers per rupee. There are six persons on relief in the Saugor poor-house. In Balaghat there are 531 persons on village relief and 44 in pauper wards.

Assam.—Rain fell in all districts. More rain is wanted in the Surma Valley and in Lower Assam. Pressing of sugarcane still continues in Darrang and Lakhimpur. Prospects are good in Lakhimpur and fair elsewhere. Plucking of tea is in progress. Prospects are good in Lakhimpur, fair in Cachar, Darrang and Sibsagar and poor in other districts. Ploughing for and sowing of early and laterice and planting of sugarcane continue. Sowing of jute is finished in Goalpara, but still continues in Sylhet and the Garo Hills. Reaping of low-land transplanted rice is nearly finished in Sylhet. The outturn is poor. Water is scarce in parts of Darrang and Nowgong. Prices—common rice—Silchar 12, Sylhet, Gauhati and Nowgong 10, Dhubri 9, Tezpur 8 and Sibsagar 11 seers per rupee.

Mysore.—No rain fell in the Civil and Military station. The rainfall was good in Mysore, Tumkur, Kadur and Hassan. Standing crops are in good condition throughout. Sugarcane and paddy are being harvested in parts, and in other parts *rugi* and paddy are being sown. Ploughing and manuring operations are in progress in the Civil and Military station of Bangalore, Shimoga and Kadur. Prospects are good in Mysore and Kadur and fair in Bangalore, Kolar, Hassan and Chitaldrug. Prices are steady in Shimoga and Chitaldrug, have slightly fallen in Kolar and Tumkur and parts of Kadur and have slightly risen in Bangalore, Mysore, Hassan and other parts of Kadur. Cattle are healthy. Water and fodder are sufficient, except in parts of Shimoga, Tumkur, Hassan and Chitaldrug and in a few parts of Mysore. Water is getting scarce.

COORG: The rainfall amounted to one inch forty cents. Ploughing for rice and for *rugi* continues. Prices of food-grains are normal. Water and fodder are sufficient.

Berar.—The weather was hot and cloudy, with high winds. The breaking up of land for the ensuing crop is in progress. Fodder and water are enough for requirements. Prices are fluctuating.

Hyderabad.—The rainfall during the week was seven cents. The total from first January is three inches ninety-six cents. No crop remains unharvested. Land is being ploughed and made ready for next sowing season. The water-supply with some exceptions is adequate to wants. Fodder and pasture are easily available. Grain prices have fallen slightly. Prices—wheat $5\frac{1}{2}$, coarse rice $7\frac{1}{2}$ and *juar* 15 seers per *halla* rupee. Number of persons on relief—works, 12,732 ; gratuitously relieved, 853 ; total, 13,585.

Rajputana.—The rainfall in cents was 35 in Bikaner, 40 in Nawai in the Jodhpur State, 65 in Mewar, 16 in Shahpura, 65 in Jaipur, 15 in Kishengarh, 8 in Alwar and 7 in Ajmer-Merwara. Agricultural operations are satisfactory. Standing crops are in good condition. Harvesting and threshing of spring crops are approaching completion. Cattle are in good condition. Fodder is ample. The cheapest prices range from 13 to 28 $\frac{7}{8}$ seers the rupee. Number on gratuitous relief, 223.

Central India.—Light showers fell in Bhopal, Bhopawar and Indore. Agricultural operations are in progress in Bhopal, Malwa and Indore and have been completed elsewhere. Threshing and winnowing are in progress in Baghelkhand. Land is being prepared for autumn crops in Bundelkhand and Bhopawar. The condition of standing crops is good in Bhopal and fair in Malwa. The probable outturn is estimated to be good in Bhopal, below expectations in Baghelkhand and fair in Malwa. Crops have been damaged by rust in Baghelkhand and by rats and want of rain in Malwa. Agricultural stock and pasturage are in good condition everywhere. The condition of opium is good in Malwa. Prices are fair in Gwalior, rising in Bhopal, average in Bundelkhand and Bhopawar, below average in Baghelkhand, falling in Malwa and stationary in Indore. Average prices per rupee—16 $\frac{1}{4}$ to 27 $\frac{8}{8}$ in Gwalior, 17 $\frac{1}{4}$ to 22 $\frac{1}{2}$ in Bundelkhand, 14 in Malwa, 16 in Bhopawar and 8 $\frac{3}{4}$ to 15 $\frac{5}{8}$ in Indore. Numbers on relief works—Jaora, 215 ; gratuitous relief, 61 ; Bhopawar—works, 3,926.

Baroda.—Agricultural stock is in fair condition. Prices—*bajri* 34, *juar* 36, wheat 25, rice, superior, 13, rice, inferior, 23 pounds per rupee. Numbers on relief works, 14,392 ; gratuitous relief, 6,738 ; total, 21,130.

Kashmir.—The weather was bright and somewhat warm. Prices are normal. Rice is selling for 14 seers the rupee. JAMMU PROVINCE: No rain fell during the week. The condition of standing crops is good. Harvesting and threshing of spring crops is in progress. Flights of locusts passed over several tracts of the province, but did no damage. Fodder is sufficient. Prices are falling. Wheat sold from 16 $\frac{1}{2}$ to 26 and maize 24 to 36 seers per rupee.

Nepal.—The rainfall was slight and the weather bright. Indian-corn is being sown and wheat harvested. The price of rice is 8 seers the rupee.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table :

Name of Province.	PRECEDING WEEK. (REVISED FIGURES.)			PRESENT WEEK.			Increase or decrease.

J. B. FULLER,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

2.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected District details of the totals published weekly in the Crop and Weather Summary of the *Gazette of India*.
 -labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns, from persons only relieved in poor-houses or at their homes. Weavers relieved in their own trade are shown under "Gratuitous relief."
 dates at the head of the table are the dates of the *Gazette of India* in which the Provincial totals were published. The figures, however, actually numbers on relief in each preceding week.

(b) From 1st March to 28th April 1900.

NEVILLE PRIESTLEY.

Printed and published for the GOVERNMENT OF INDIA at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.

SUPPLEMENT TO
The Gazette of India.

No. 20.} CALCUTTA, SATURDAY, MAY 18, 1901.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

- No. 142 of 1896.—Melvin Linwood Severy. *Improvements in platens, impression cylinders and the like for printing presses type-writers and other like machines.* (From 25 November 1901 to 25 November 1902.)
- No. 272 of 1896.—Hugh Jorwerth Roberts. *A baling press.* (From 12 May 1901 to 12 May 1902.)
- No. 403 of 1896.—The Military Equipment Stores and Tortoise Tents Company, Ltd. *A portable cooking stove.* (From 21 May 1901 to 21 May 1902.)

No. 1600 P.—WHEREAS the inventor of the undermentioned invention has failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fee hereinafter mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said invention in British India, and of authorising others so to do, has ceased :—

- No. 88 of 1896.—Bulaki Rama Shastri. *Automatic Pankahs.* (Specification filed 18th January 1897.)

Fee in respect of the continuance of an exclusive privilege—

- 4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs50 for the above invention.

No. 177 of 1890—Dadabhoy Rutto njee Dalal. *A new and improved automatic Totalisator.*
(Specification filed 1st February 1892.)

Fee in respect of the continuance of an exclusive privilege—

4 (f) After the expiration of the eighth year and before the expiration of the ninth year
from the date of the filing of the specification—

The sum of Rs100 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,
*Secretary under the Inventions and
Designs Act, 1888.*

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

THE undermentioned candidates have passed the Entrance Examination :—

BANGALORE ;
The 4th May, 1901.

C. I. S. RUSSELL,
First Assistant Resident.

RESIDENT AT BARODA.**NOTIFICATION.**

Baroda, the 7th May, 1901.

In exercise of the powers conferred upon him under Section 2, Sub-section (3) of the Epidemic Diseases Act, III of 1897, the Resident at Baroda is pleased to make the following Rules for the Cantonment of Baroda, and to cancel so much of Rules previously promulgated under the Epidemic Diseases Act as are inconsistent with the Rules now made:—

PART I.**GENERAL ORGANIZATION.**

1. The general control of the arrangements for the prevention and suppression of plague in the Baroda Cantonment will be in the hands of the Officer Commanding Baroda, under the general supervision of the Resident; the Officer Commanding may delegate such of the powers conferred by these Regulations as he may think fit to the Cantonment Magistrate or to any other officer, or non-official Chairman of the Plague Committee.

2. The Sanitary Officer is responsible for the supervision of the work of the Hospital Assistant in charge of the Nanawati Dispensary, and of the Plague Hospital and Detention Camp, and should report any defects in the working of the Conservancy and Sanitary Departments to the Officer Commanding.

3. The duties of the Hospital Assistant will be to visit cases of sickness and death, to examine arrivals, to assist in the work of the Chairman of different Plague Committees, to superintend the removal of sick or suspected persons to the places provided for them, and the disinfection of their houses, also to bring to the notice of the Sanitary Officer or the Cantonment Magistrate any defects in the sanitation, and generally to carry out such duties as may be prescribed by the Sanitary Officer.

4. The Jemadar or Police under the orders of the Cantonment Magistrate will supervise all police arrangements connected with the observation and examination of travellers and guarding of Hospital and Detention Camp, and is held responsible that his police co-operate actively in the carrying out of all measures for the prevention and suppression of plague.

PART II.**MEASURES AGAINST THE IMPORTATION OF PLAGUE. ARRIVALS BY RAIL OR ROAD.**

5. All persons coming either by rail or road and intending to live either temporarily or permanently within the limits of the Baroda Cantonment, should, within 24 hours of their arrival, report their arrival in person to the Hospital Assistant in charge of the Nanawati Dispensary, who will keep them under medical surveillance for a period not exceeding ten days, unless the Medical Officer sees fit to dispense with their attendance.

6. If the Hospital Assistant in charge of the Nanawati Dispensary finds, after examination, that any such arrival is suffering from plague or shows symptoms of plague, he will arrange, in communication with the Cantonment Police, for his removal to, and detention in, a place provided by the Cantonment authorities for the purpose, unless the relatives can arrange for his reception in a suitable house where the case can be properly isolated. The examination of females shall, if necessary, be effected by female agency, and every precaution shall be taken to respect the privacy of females who do not appear in public.

7. No person holding a certificate of inoculation, dated within six months previously, shall be required to attend the Nanawati Dispensary for medical surveillance, as stated in Rule 5 above.

8. The Cantonment Magistrate may prohibit the import of used apparel and bedding (except when carried as the personal baggage of travellers), rags and other rubbish from any infected area into the Baroda Cantonment.

9. The Cantonment Magistrate may require every householder or head of a family to report to the Hospital Assistant the arrival of any person from outside the Baroda Cantonment in his house or family whose arrival he does not know to have been reported to the Hospital Assistant in charge of the Nanawati Dispensary.

GENERAL MEASURES FOR THE PREVENTION OF PLAGUE AND THE TREATMENT OF EARLY CASES BEFORE PLAGUE BECOMES EPIDEMIC.

10. For so long as the Resident, Baroda, may declare this Regulation to be in force, the Cantonment Magistrate may require each householder or head of a family to give immediate information of any sickness occurring within his house or family either to him or the Hospital Assistant in charge of the Nanawati Dispensary, or to a medical practitioner authorized in this behalf by the Cantonment authorities.

11. The Cantonment Magistrate may require all medical practitioners, not being in the service of Government, at once to report either to him or to the Hospital Assistant in charge of the Nanawati Dispensary, any suspicious case of plague, or case or cases in which glandular swellings or other symptoms suggestive of plague are perceived by them.

12. The Cantonment Magistrate may require every householder, who becomes cognizant of any case of plague or of fever with glandular swellings in his house, or in any other private dwelling within the Cantonment of Baroda, to give information of the same to the Hospital Assistant with the least practicable delay.

13. The Cantonment Magistrate may require that no dead body shall be removed for the purpose of burning or burial until the Hospital Assistant or a medical practitioner, duly authorised by the Cantonment authorities, has granted a certificate testifying to the cause of death. Such certificate shall be prepared in duplicate, one copy being given to the burial or burning party to be presented on a demand being made thereof, and another sent to the Cantonment Magistrate's Office. For the purpose of the grant of a certificate the inspection of the corpse shall in no case be compulsory, but the Medical Officers authorized to grant certificates shall, unless the body of the deceased is *voluntarily* submitted to them for examination, treat the case as being one of plague, and take measures accordingly with regard to the disposal of the body and disinfection of the house; the latter being done by the Hospital Assistant, Nanawati Dispensary, as provided for in Rule 3.

14. No person shall in any way assist in the disposal of any dead body for which a certificate, as prescribed in the preceding Rule, has not been obtained, or accompany the funeral procession of any such body.

15. The owner or occupier of any house shall permit the Sanitary Officer or the Hospital Assistant to enter his premises and examine any person whom the above said Medical Officers have reason to believe to be ill, or to have recently arrived from an infected area. In case the person to be examined is a female, the examination shall, if necessary, be conducted with the aid of a qualified female.

16. If on the examination of any person the Sanitary Officer or Hospital Assistant believes or suspects that such person is suffering from plague, he may cause such person to be removed to the hospital provided for the purpose, or may take measures for segregating him in his house, if he can be properly segregated therein; provided that when he considers the death of such person to be imminent, he shall not insist on his removal to the hospital.

17. When the Sanitary Officer or the Hospital Assistant has, under the preceding Regulation caused a person suffering or believed to be suffering from plague to be removed to the hospital he may also cause the occupants of the house in which such person resides, to be removed to a Detention Camp and detained for a period not extending ten days; provided that any member of the family, who desires to attend on the sick person, shall be allowed to do so, and provided also that no person holding a certificate of inoculation, dated within six months previously, be removed to the detention camp except for so long as may be necessary for his disinfection.

18. The owner or occupier of a house shall comply with any order that may be issued by the Officer Commanding Baroda, or any officer duly authorized by him in this behalf, with regard to the clearing and disinfection of his house, the disinfection of the clothing or personal effects of the inmates, the medical inspection of any person who has, or is believed to have, come from an infected area, the disposal of any corpse, the improvement of the sanitary condition of the premises, or with regard to other similar matters, and the officer in question shall, if he considers it necessary, himself take measures for the disinfection of the house or for the carrying out of measures prescribed by this Regulation.

19. When in the opinion of the Sanitary Officer any building or place is so overcrowded as to render the inmates or occupants thereof specially liable to an attack of plague or to contribute to the spread of the disease should an outbreak occur, the Cantonment Magistrate may, by notice in writing, require the owner or occupier to abate the overcrowding within such period as he shall prescribe, not being less than 48 hours, by reducing the number of lodgers, tenants or inmates of the said building or place, and, in default of compliance with the requisition in the said notice, may summarily eject all the inmates or occupants or reduce the number of such inmates and occupants in such manner, and to such extent, as may appear necessary, and the owner or the tenants or the inmates of such building or place shall not be entitled to claim any compensation on account of such ejection.

PART III.

ACTION TO BE TAKEN ON AN OUTBREAK OF PLAGUE.

20. When there is reason to believe that cases of plague are occurring within the Cantonment of Baroda, the Regulations contained in Part II shall continue in full force and effect until suspended or modified by the Resident.

21. The Officer Commanding or the Cantonment Magistrate may grant permission to any person, or to the members of a particular caste, to erect or provide family or caste hospitals and camps; and sick persons and those who have been in contact with sick persons, who belong to the said family or caste, may be removed to their hospitals and camps.

22. Such hospitals and camps shall be under the management of the person or caste providing them, subject to medical inspection by the Sanitary Officer, and provided that suitable arrangements are made for guarding them. The Officer Commanding or the Cantonment Magistrate may, at any time for any sufficient reason, close any family or caste hospital or camp.

23. In all hospitals the relatives, friends, Hakims and Vaidyas and priests of patients shall be allowed free access to them, and if the relatives of the sick person so desire, he may be medically treated by a Hakim or Vaidya subject to any precaution which the Sanitary Officer may, by notice posted at the entrance, declare.

24. Any friend, relative or attendant who desires to tend a sick person shall be allowed to do so, but the Sanitary Officer may limit the number of such attendants in any hospital.

25. No patient in any hospital shall be compelled to take any English medicine, should he object to do so.

26. In all hospitals, separate and suitable accommodation shall be provided for females, and they shall, so far as may be possible, be treated by female agency.

27. In any house in which a case of plague has occurred, the Officer Commanding, or any officer authorized by him, shall take measures for the disinfection and cleansing of the house, bedding, clothing and articles of similar nature, the improvement, if necessary, of the sanitary condition of the premises, the provision of light or ventilation, and other sanitary precautions. The Officer Commanding, or any officer authorized by him, may further order the destruction of any building, or of any bedding, clothing, or other articles; if disinfection cannot be satisfactorily effected otherwise.

28. The owner or occupier of any house, in which a case of plague has occurred, shall permit the Officer Commanding, or any officer authorized by him, to enter his house or premises for the purposes, of carrying out the provisions of the preceding Regulation.

29. When in the opinion of the Officer Commanding or of the Sanitary Officer it appears necessary to disinfect any house or street, or block of houses, on account of vicinity of houses that have been infected by plague or on account of the insanitary nature of the surroundings, such house or street or block of houses may be at once cleaned and disinfected under the supervision of the Hospital Assistant. When the disinfecting party is ready to clean any house, the inmates may be at once required to temporarily vacate the premises while the cleaning and disinfection is being carried out. On the completion of the cleaning and disinfection, the inmates shall immediately be allowed to re-occupy the premises unless they are declared by the Sanitary Officer to be unfit for human habitation, provided that any person, who desires to disinfect his own house, a case of plague having not occurred therein, may be allowed to do so to the satisfaction of the Hospital Assistant.

30. Whenever any building or portion of a building is found to be fastened or locked up, and the owner or occupier is not present, the Cantonment Magistrate may affix a written notice on the door, stating that such building or part of a building will be opened, and disinfection will be carried out after such time, not being less than 24 hours, as may be prescribed in the notice. At or after the expiration of the time prescribed, the Cantonment Magistrate may break open and enter any such building or portion of such a building and may carry out the measures prescribed in Regulation 27.

31. Whenever any building is cleaned and disinfected, the officer in charge of the disinfection shall draw up a statement showing the description and estimated value of the articles in the building destroyed or damaged in the process of disinfection. A copy of the statement shall be given to the owner or occupier of the building, if he so requests.

32. Whenever a building is entered and disinfected, the owner or occupier of a house or any relative of his or any person authorised by him, shall be permitted to be present, and one such person shall be allowed to temporarily leave any camp in which he is detained, not being a hospital camp, for this purpose.

33. After a building or portion of a building has been disinfected, the door may be locked and sealed and the officer in charge of the work of disinfection may retain the key until re-occupation of the building or portion of a building is permitted.

34. If in the opinion of the Sanitary Officer the destruction of any hut or shed is necessary to prevent the spread of the plague, any officer authorized by the Officer Commanding may summarily take measures for the destruction of such hut or shed and the materials of which it is constructed. A record of the action taken under this Regulation shall be maintained.

35. Whenever any house is vacated under these Regulations, the owner or occupier may remove any property subject to its disinfection, if necessary, or may place it in a place to be provided in the Cantonment for the safe custody of such property.

36. No house that has remained unoccupied since the commencement of plague, or that has been vacated or deserted by its inhabitants, shall be re-occupied except with the permission of the Sanitary Officer who may require it, before he permits re-occupation, to be cleaned, and, if he considers it unfit for human habitation, to be structurally altered, so as to allow the admission of air and to improve the ventilation.

37. The Officer Commanding will provide suitable conveyances for the transport to hospital of persons suffering or suspected to be suffering from the plague, and it shall be lawful to drive or carry such conveyances through any public or private thoroughfare.

38. The Cantonment Magistrate may require that any conveyance, public or private, not being an ambulance set apart for use as prescribed in the foregoing Regulation, that has been used by any person infected with, or suspected of being infected with, plague shall be thoroughly disinfected and exposed to air and sun-light for not less than 24 hours before being used again.

39. All godowns in which dead rats have been found shall be declared unwholesome and unfit for use until thoroughly disinfected. The grain found in such places may be turned over and aired or destroyed as unfit for food, and any bags or sacks in which infected grain is found stored may be disinfected or destroyed.

40. The Officer Commanding or any officer authorized by him, may, in his discretion, pay compensation to any person who has sustained loss or damage by reason of anything done under these Regulations, provided, however, that no person shall be entitled to claim any compensation

whatsoever. Payment of compensation shall, so far as is possible, be paid immediately the damage or loss is caused.

41. All persons shall be bound to answer truly all such questions as may properly be asked of them, for the purpose of carrying out any of these Regulations, either regarding themselves or regarding the members of the household or family to which they belong.

42. Any person disobeying, or contravening, or refusing to submit himself to any of these Regulations, shall be deemed to have committed an offence punishable under Section 188, Indian Penal Code, and shall be liable on conviction to be punished with imprisonment of either description for a term which may extend to six months or with fine which may extend to one thousand rupees, or with both.

By Order,

H. F. JACOB, *Captain,*

First Assistant to the Resident at Baroda.

BARODA RESIDENCY ;

29th March 1901.

CHIEF COMMISSIONER, AJMER-MERWARA. PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

Mount Abu, the 6th May, 1901.

No. 1701-S.—The following rules made by the Kekri Municipal Committee under section 19 of the Vaccination Act, XIII of 1880, for the regulation of vaccine operations within the limits of the Kekri Municipality and confirmed by the Honourable the Chief Commissioner of Ajmer-Merwara, are hereby published for general information :—

Division of the Municipality into circles for the performance of vaccination.

I. The area of the Kekri Municipality shall be considered one circle for the purpose of these rules.

II. The Municipal Committee will provide a Vaccination Office in a convenient situation, and a board will be set up at this office and maintained there, bearing the words "Vaccination Station" followed by a notice setting forth for public information the name of the Public Vaccinator and the hours of his daily attendance at the station on vaccination duty, and a notice also notifying that the Public Vaccinator will, on due request made, attend for the vaccination of children at their homes in the circle, and a notice that no charge will be made for vaccination, whether performed at the station or at the child's home.

III. The Civil Surgeon, Ajmer, shall *ex-officio* be Superintendent of Vaccination within the limits of the Kekri Municipality.

The Hospital Assistant of Kekri for the district shall *ex-officio* be Assistant Superintendent of Vaccination within the limits of the Kekri Municipality, and shall receive such remuneration as the Municipal Committee from time to time determine, provided that such remuneration be not less than two or more than five rupees a month.

IV. The Public Vaccinator shall be appointed by the Superintendent, and may, for recorded misconduct, be suspended or dismissed from office by the Superintendent.

The authority with which the appointment, suspension and dismissal of the Public Vaccinator shall rest.

V. The hours of daily attendance of the Public Vaccinator at the vaccine station shall be fixed by the Superintendent.

VI. The Public Vaccinator may be a permanent resident of the circle, and shall be absent therefrom only for such periods of leave as may be granted by the Superintendent.

VII. The vaccination season is the period of six months extending from the 1st of October to the 31st of March.

VIII. The Public Vaccinator shall at all times, when engaged in the duties of his office, wear a badge in the form of a brass plate, with the words "Public Vaccinator, Kekri Municipality" engraved on it.

IX. The Public Vaccinator shall vaccinate children of the circle at their homes, at the request of a parent or guardian, or at any other place within the circle, by direction of the Superintendent. He may also visit and vaccinate children residing beyond the circle, at the request of a parent or guardian, and with the permission of the Superintendent.

The facilities to be afforded to people for procuring the vaccination of children at their own houses.

X. Certificates of vaccination shall be in the Form A hereto annexed.

XI. Certificates of unfitness for vaccination shall be in Form B hereto annexed.

XII. The Public Vaccinator shall issue to the parent or guardian a certificate of vaccination in Form A on account of every child vaccinated on the day of vaccination, and shall complete the certificate on the day of examination, and he shall also issue to the parent or guardian a certificate in Form B of unfitness for vaccination on account of every child found unfit on the day of its examination. All cases of reported unfitness for vaccination shall be referred by the vaccinator to the Superintendent, whose countersignature to every certificate issued in Form B will be necessary.

Before final delivery to the parent or guardian of any certificate, the Public Vaccinator shall complete and sign the entries of its fly-leaf, which shall remain bound in the book of such certificates.

The Public Vaccinator shall be provided with books of the above Forms A and B.

XIII. Buffalo lymph shall be used when it is available; when it is not, the lymph ordinarily used by the Public Vaccinator shall be human lymph, supplied to the Public Vaccinator by the Civil Surgeon in tubes at the commencement of every vaccination season, and continuously preserved during the season upon ivory points, charged by the Public Vaccinator from selected vesicles of the 7th or 8th day formed upon the arms of healthy children, and arm-to-arm vaccination shall be sedulously practised, but lymph shall not be taken for any purpose from an unhealthy or weakly child, and more especially not from a child with the appearance of skin disease. In case of failure of the lymph-supply at any time of the season, the Civil Surgeon will renew the supply in tubes.

In the event of a considerable demand for vaccination with animal lymph arising in the circle, the Superintendent shall cultivate such lymph for use in circle.

Vaccination needles and ivory points will be supplied to the Public Vaccinator free of charge by the Civil Surgeon.

No fee to be levied for vaccination.

XIV. No fee whatever shall be charged for vaccination with human or animal lymph within municipal limits.

The preparation and keeping of certain Registers.

XV. The Municipal Committee shall take measures to prepare and keep the following Registers in the forms appended to these rules:—

- (i) Register of infants born within the circle on or after the 1st October 1901, with record of vaccination or reason for non-vaccination in every mehabla of the municipality.
- (ii) Register of the names of children, now resident in or brought into municipal limits after the 1st October 1901, who have not been vaccinated or have not had small-pox: such children having resided in the municipality for a month, and being, if boys, under the age of 14 years, if girls, under the age of 8 years.

XVI. The general register of vaccination performed in the circle, and forms of monthly returns, will be supplied by the Civil Surgeon.

XVII. At the commencement of every vaccination season, the Chairman, Municipal Committee, shall cause notices to be affixed for public information in every important portion or quarter of the circle in the accompanying Form C both Hindi and Urdu.

The Chairman, Municipal Committee, may at any time of the vaccination season direct the public crier to call attention to these notices.

XVIII. A monthly figured statement of results shall be submitted by the Public Vaccinator to the Civil Surgeon during the five months of the vaccination season in the established departmental form. At the same time, a copy shall be sent to the Municipal Committee.

The Public Vaccinator shall submit to the Civil Surgeon and the Municipal Committee a figured statement of results for the season after its termination, together with a concise report upon the working of the Act during the season.

XIX. If at any time of a vaccination season the Assistant Superintendent of Vaccination shall have proof that a parent or guardian has failed to procure the vaccination of a child liable to vaccination under the Act, he shall cause to be delivered to such parent or guardian or to be attached to his house a notice in accompanying Form D.

If such a notice is not complied with, the Assistant Superintendent of Vaccination shall report the matter to the Chairman, Municipal Committee, who will proceed as directed in section 18 of the Vaccination Act, XIII of 1880.

G. G. WHITE, M.I.C.E.,

Offg. Secretary in the Public Works Department,
Rajputana and Central India.

For the Bombay Mail via Nagpur up to 10.30 A.M.

For the Bombay Mail via Jubbulpore from 5 P.M. to 6.15 P.M.

For the Punjab Mail from 6 P.M. to 7 P.M.

For the Eastern Bengal Mail from 6 P.M. to 7 P.M.

For the Khulna Mail from 6 P.M. to 7 P.M.

For Midnapore, Orissa and the Madras Presidency the previous evening up to 6 P.M. and late registered letters up to 7 P.M. The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7.30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of ½ anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies, China and Japan via Tuticorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 5.45 A.M., and late letters and papers fully prepaid will be received up to 6.35 A.M.

On the day of despatch of the Mail of Europe (Thursday), the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6.30 P.M., and late letters and papers fully prepaid will be received up to 6.45 P.M. Late registered articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6.30 P.M. for despatch by any Foreign Mails via Bombay the same night and up to 8.30 P.M., late letters and papers up to 9 P.M., for any Foreign Mails despatched by Sea. Foreign Mails for despatch via Madras or Tuticorin are received up to 5.45 A.M. and with a late fee up to 6.35 A.M. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,

Offg. Presidency Postmaster, Calcutta.

YEARLY EXAMINATION OF CANDIDATES FOR FOURTH GRADE OF ACCOUNTANTS.

The yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 1st and 2nd July 1901, at 10.30 A.M. :—

Subjects.	Full marks.	Minimum pass marks.
Writing (neatness, clearness, and rapidity.)	100	50
Dictation (spelling, punctuation, etc.)	100	50
Arithmetic (the whole)	240	160
Mensuration (a) the whole	60	30
Book-keeping (b) mercantile	100	50
TOTAL	600	...

Minimum required in all papers collectively, 400.

(a) Todhunter's Mensuration for Beginners.

(b) "Book-keeping," by Ball and Hamilton.

"Book-keeping" by double and single entry, by W. Inglis (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Govern-

ment employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it;

* This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

- (1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)
- (2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).
- (3) Certificate that the application is in the candidate's handwriting.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the college or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

J. S. SLATER,
Principal, Civil Engineering College.

SIBPUR,
The 26th April, 1901.

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে
প্রস্তুত করা হইয়াছে, এবং ইহা যে সিনকোনাইন ও সিনকোনি-
ডাইন নামক অপকৃত্ত কারের সহিত ইচ্ছা পূরক মিশ্রণ হইয়া
তাহার গারাটী দেওয়া হইতেছে। ইহা বঙ্গ মূল্য কেবল গবর্ণ-
মেন্টের কন্ট্রোলগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার
নিকট সিবিপুরের কোম্পানি বাগানের সুপারিন্টেন্ডেন্টের নিকট
পাইতে পারে।

**Catalogue of Books procurable from Thomason College
Book Depot, Roorkee.**

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT
BY VALUK-PAYABLE POST TO PERSONS IN GOVERNMENT
EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered

N.B.—The Revised prices herein entered cover the cost of pack-
ing,* postage, and other incidental charges (except com-
mission for Value-payable supplies), and are for all pur-
chasers other than resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal 8vo, with numerous Plates.

Volumes I and II are published in separate convenient sized
Sections, as below, but can be bound up if required :—

VOLUME I.*

Section	I. Building Materials (1898), R2-0.
"	II. Masonry (1898), R1-4.
"	III. Carpentry (1898), R1-8.
"	IV. Earthwork (1892), R1-4.
"	V. Tools and Plant (never published).

VOLUME II.*

Section	VI. Buildings (1899), R1-4.
"	VII. Bridges (1897), R4-4.
"	VIII. Roads (1897), R1-8.
"	IX. Railways (1891), R1-4.
"	X. Irrigation Works. (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol.	I. Direct and Transverse Strain, principally by Analytical Methods. R7.
"	II. The Stability of Structures, mostly by Graphic Methods. (In the Press.)

* Date of Edition on sale.

MANUALS.

VII. Surveying (by Major Firebrace, R.E.) (7th edition
with Curve Table). R3.

XIII. Drawing (by Lieut. R. Pulford, R.E.). † R6.

XIIIa. Drawing, First Principles of Geometrical (by
do.). R1-4.

XIV. Simple Applied Mechanics (3rd edition), Parts
I and II in one. R1-8.

Simple Applied Mechanics, Part II (1st edition)
8s.

XV. Examples of Estimating. Comprising a progres-
sive series of Estimates (with Plans of Buildings
and Bridges, worked in detail). By P. Keay, Esq.,
and revised by C. C. Sullivan, Esq., Head
Master (5th edition). R3-12.

XVI. Earthwork Estimating, with Practical Tables and
Diagrams. By Major A. M. Brandreth, R.E.
R1.

XVII. Specimens of Printing used in the College
Drawing Course and Entrance Examinations. 6s.

Note.—The complete Treatise forms the course of the Civil
Engineer and Upper Subordinate classes at the Thomason College
in Civil Engineering. The other Manuals are the complete
course for both Classes in the several subjects of which they
treat.

MISCELLANEOUS.

ENGINEERING WORKS.

Curve Tables, complete, for laying any curve. 4s.

Scandlings of Timber for Roofs. Tables and investiga-
tion of formula for determining size of timbers for Flat
Roofs from 8 to 22 feet span, and for Trussed Roofs
from 30 to 50 feet span (2nd edition). By P. Keay, Esq.,
Head Master. 12s.

Notes on Chemistry of Building Materials. R1-8.

Tate's Mechanism. R1.

Barman's Descriptive Mineralogy. R2-4.

Useful Rules and Tables relating to Measurement of
Timber. Rules for computing the cubic contents of
Round Logs, as well as of Sawn Timbers, with Tables,
etc. By Rai Kunhya Lal. R2-8.

O'Callaghan's Earthwork Tables for India. In one large
sheet 12s., mounted on cloth and bound. R1-12.

Tables for Computing Earthwork in Distributaries and
Small open Channels, in use in Irrigation Department.
N.-W. Provinces. 12s.

Tyndall's Hand-Book of Specifications. (In the Press.)

The Indian Engineer's Pocket Book. R1.

Wooden Bridges and Designs. By Rai Kunhya Lal.
(In the Press.)

Blasting under Water (2nd edition). 10s.

Wauget's Instructions for Topographical Surveying
R1.

Analysis of Lime and Cement Stones. By Murray
Thompson Esq. M.D. F.R.S.E. 6s.

Chart, giving by a graphic method the discharges of
earthwork channels up to 40 feet bed width, very useful for
Projects. R1-0.

SCIENCE BOOKS.

Wilson's Inorganic Chemistry. R1-8.

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value
of goods. Tables for converting Seers and Chit-
tacks into decimals of a Maund, and Annas and Pies
into decimals of a Rupee. With a few others of
general utility (4th edition). R1-8.

Boileau's Tables of Log sin² & P for computing time (4s.).

Cape's Logarithms, with Tables of Squares, Cubes, etc.
R1-4.

Cape's Geometry. R1-4.

Cape's Mechanics. 8s.

Todhunter's Plane Trigonometry. R2-8.

Todhunter's Differential Calculus. R2-8.

Military Topography. 8s.

HINDUSTANI.

Elements of Hindustani Grammar. 8s.

Technical Dialogues—English and Urdu. R1.

A Vocabulary of Common and Technical Words in
English-Urdu. 12s.

History of India (Jehas Timirnasak), Hindi, Parts I and
II. 12s. 6d.

Short Account of Ganges Canal (English and Urdu).
Each 4s.

NOTE AND FIELD-BOOKS, etc.

Note Books (Section paper), large. Each R1-4.

Surveying Field Books (ruled). 14s.

Levelling Field Books (English Pattern). R1-4.

" " (Canal " "). R1-4.

" " (College " "). R2-0.

P. W. D. Note-Book. R1-4.

" Measurement Book. R1-4.

Circular Card-board Protractors, 2 inches. R2.

† Originally published at R15, reduced to R6.

MISCELLANEOUS.

- Distributary, Velocity and Discharge Table.** By Capt. Allan Cunningham. 8a.
- Description of Venomous Snakes.** (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") R1-8.

- Vol. I Report 1865.** R1.
- Vol. II, Estimates—** 12a.
- Shakesperian Readings, viz.:**
1. Taming of the Shrew. } Each 3a.
2. Othello. }
3. Macbeth. }
4. Comedy of Errors. }
5. Merchant of Venice. }
- Annual examination papers set for the years 1867 to 1870,** each 8a.

PLANS OF STATIONS.

- Lithographed Plans of the Cantonments and Regimental Lines in the different Military Stations of India.** Drawn to a uniform scale and prepared between 1864 and 1868 for the Government of India, P. W. Department. (Useful for Executive Engineers' and Superintending Engineers' Offices.)
- Bengal, 51 Plans.**
- Madras, 99 Plans.**
- Bombay, 91 Plans.**
- N.-W. Provinces, 104 Plans.**
- Oudh, 21 Plans.**
- Rajputana, 4 Plans.**
- British Burma, 19 Plans.**
- Central Provinces.**
- Whole lot R2 each.

A set of Professional papers both loose and quarterly numbers inclusive of Railway freight R10. This is not quite complete.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

- Vol. I.** (Quarterly, Nos. 1 to 5 bound R1-8.
- Quarterly, Nos. 1, 2, 3, 4, and 5** } 4a. each,
- Vol. II, Quarterly, Nos. 6 and 7.** } inclusive
- " VI, " No. 25.** } of post-
- " VII, " Nos. 26, 27, 28 and 29.** } age.
- Extra No. April 1870.**

(SECOND SERIES.)

- Quarterly Numbers of Vols. I, II, and IX of the series** 4a. each inclusive of postage.
- Quarterly Number 41 A of Vol. X.** Each 8a.
- Cloth covers for Volumes of 1st and 2nd Series, at 8a. each.**
- Index to Professional Papers and loose Papers.** 1st and 2nd Series, at 2a. each.

FERROTYPE PRINTING.

- Chemicals and Lithographic Paper** for this process can be purchased from Thomason College Book Depot. Application to be made to the Curator.
- Apparatus for Printing** can be made up at the Roorkee Workshop, and all particulars obtained from the Superintendent.

* This does not contain the Entrance Examination papers of the Superior Accounts Branch, Public Works Department.

† These include question papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

‡ This does not contain the Entrance Examination Papers of the Upper Subordinate Class.

CIRCULARS.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants.

J. CLIBBORN, Lieut.-Col., I.S.C.,

Principal, Thomason Civil Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the Complete Series, including postage. R22-8

	Without postage.	With postage.
For the Calcutta Series	R 10 0 0	R 12 8 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately, inclusive of postage in India	...	2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
For the Calcutta Series; per copy	R 0 8 9	R 0 10 0
" each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 5 9
" the Calcutta Series. For the year	7 2 0	8 0 3
" each of the Madras, Bombay, and Allahabad Series. For the year	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.
Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	Half page.	Quarter page.
For one issue	R 20	R 14	R 9
" three issues	55	36	24
" six "	100	68	45
" nine "	145	96	64
" twelve "	180	120	80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
Bengal Law Reports, for one year	R 20 0 0	R 22 8 0
Single copies, <i>Rs.</i> per copy.	20 0 0	22 8 3

Full Bench Rulings, Parts I and II. 20 0 0 22 8 3
Bengal Secretariat Book Depot, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1870 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. W. C. CARNDUFF,

Offg. Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 18th May, 1901.

No. 366.—A vacancy having occurred in the office of an Ordinary Member of the Council of the Governor General of India owing to

the vacation of office by Sir Arthur Charles Trevor, K.C.S.I., His Majesty the King, Emperor of India, has been graciously pleased to appoint the Honourable Mr. Arundel Tagg Arundel, C.S.I., of the Indian Civil Service, Madras Establishment, to be an Ordinary Member of the Council of the Governor General of India.

The Honourable Mr. Arundel has, on this day, taken upon himself the execution of his office under the usual salute.

The 23rd May, 1901.

No. 371.—The Honourable Mr. H. C. Fairsawe, C.S.I., is permitted to resign His Majesty's Indian Civil Service, with effect from the 25th May 1901, or the subsequent date on which he may sail from India, or relinquish charge of office in the event of his not taking subsidiary leave.

MEDICAL.

The 22nd May, 1901.

No. 759.—In modification of the orders contained in Home Department Notification No. 445, dated the 28th March 1901, Colonel T. H.

Hendley, C.I.E., I.M.S. (Bengal), Inspector General of Civil Hospitals, Bengal, is, with effect from the 10th April 1901, granted privilege leave for three months, with leave out of India on private affairs, under Article 724, Army Regulations, India, Volume I, Part I, for five months in continuation.

SANITARY.
Plague.

The 18th May, 1901.

No. 960.—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Chidambaram in the South Arcot District of the Madras Presidency, if persons from the Mysore State are permitted to assemble at that place on the occasion of the ensuing Anithirumanjanam festival:

In exercise of the powers conferred by section 2, sub-section (1) of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Porto Novo, Kille, Chidambaram and Coleroon on the South Indian Railway shall be sold from the 7th to the 23rd June 1901 (both days inclusive) within the Mysore State to any person intending or believed to be intending to proceed to the Anithirumanjanam festival at Chidambaram.

The 23rd May, 1901.

No. 987.—Whereas the Governor General in Council is satisfied that there is a danger of an outbreak of dangerous epidemic disease at Tiruvallur in the Chingleput District of the Madras Presidency, if persons from the Mysore State are permitted to assemble at that place on the occasion of the ensuing Ani New Moon and floating festival:

In exercise of the powers conferred by section 2, sub-section (1) of the Epidemic Diseases Act (III of 1897), the Governor General in Council is pleased to direct that no tickets to travel by railway to the stations of Tinnanur, Sevvapet Road, Tiruvallur, Kadambattur, Manur and Chinnaminapet on the Madras Railway shall be sold from the 14th to the 18th June 1901 (both days inclusive) within the Mysore State to any person intending or believed to be intending to proceed to the Ani New Moon and floating festival at Tiruvallur.

J.A.S.

The 23rd May, 1901.

No. 232.—The services of Captain A. E. Berry, M.B., I.M.S. (Madras), are replaced at the disposal of the Military Department.

JUDICIAL.

The 23rd May, 1901.

No. 719.—The services of Lieutenant-Colonel H. B. Thornhill, Cantonment Magistrate, are replaced at the disposal of the Government of the North-Western Provinces and Oudh.

J. P. HEWETT,

Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

J. B. FULLER,

Offg. Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 20th May, 1901.

No. 868-G.—With reference to notification No. 190-G., dated the 5th February, 1901, the provisional recognition by the Government of India of the appointment of Mr. J. C. R. Johnston, as Consul for Denmark at Bombay, has been confirmed by His Majesty's Government.

No. 871-G.—With reference to notification No. 1903-G., dated the 15th November, 1900, the provisional recognition by the Government of India of the appointment of Herr Ernst Ritter von Manrig Sarnfeld, as Consul General for the Austro-Hungarian Empire at Calcutta, has been confirmed by His Majesty's Government.

The 21st May, 1901.

No. 876-G.—With the sanction of His Majesty's Government, the Governor General in Council is pleased to recognise the appointment of Baron Speck von Sternburg, as Consul General for Germany at Calcutta.

No. 885-G.—Captain V. G. Drake-Brockman, Indian Medical Service (Bengal), is appointed to officiate as an Agency Surgeon of the 2nd class, and is posted as Agency Surgeon in Bundelkhand, with effect from the date of assuming charge.

The 23rd May, 1901.

No. 906-G.—Major J. R. Roberts, M.B., Indian Medical Service (Bengal), an Agency Surgeon of the 2nd class, is posted as Residency Surgeon at Indore.

No. 907-G.—Major P. J. Lumsden, Indian Medical Service (Bengal), an Agency Surgeon of the 2nd class, is posted temporarily as Residency Surgeon in Gwalior and Medical Officer to His Highness the Maharaja of Gwalior, with effect from the date of assuming charge.

No. 909-G.—Captain J. Ramsay, C.I.E., Indian Staff Corps, a Political Agent of the 2nd class, and Deputy Commissioner and Political Agent in Quetta and Pishin, is granted privilege leave for twenty-five days, with effect from the 15th May, 1901, or the subsequent date on which he availed himself of the leave.

No. 910-G.—Captain J. F. Whyte, Indian Staff Corps, a Political Assistant of the 2nd (officiating 1st) class, is posted temporarily as Deputy Commissioner and Political Agent in Quetta and Pishin.

No. 912-G.—Captain C. B. Winter, Indian Staff Corps, a Political Assistant of the 3rd class, is appointed, on return from leave, to officiate as a Political Assistant of the 2nd class, and is posted as Political Agent in Southern Baluchistan, with effect from the 20th May 1901.

No. 914-G.—Captain J. W. Grant, Indian Medical Service (Bengal), an officiating Agency Surgeon of the 2nd class, and Residency Surgeon in the Persian Gulf, is granted privilege leave for three months, with effect from the 15th June 1901.

No. 915-G.—Assistant Surgeon J. A. Lobo, Indian Subordinate Medical Department, in charge of the Civil Hospital at Bushire, is appointed to officiate temporarily as an Agency Surgeon of the 2nd class, and is posted as Residency Surgeon in the Persian Gulf, with effect from the date of assuming charge, and during the absence on privilege leave of Captain J. W. Grant, I.M.S., or until further orders.

No. 2026-I.B.—In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, 1879 (XXI of 1879), and of all other powers enabling him in this behalf, the Governor General in Council is pleased to direct that the following addition shall be made to the Police Act, 1861 (V of 1861) as applied by the notification of the Government of India in the Foreign Department, No. 841 (b)-I.B., dated the 1st April, 1899, to the Indore and Gwalior Residencies, the Cantonment and Civil Lines of Nowgong, the Cantonments of Mhow, Neemuch, Sehore, Sirdarpur, Sutna and Agar, and that portion of the Agra and Bombay Road between Manpur and Bijasini Chowki which passes through the Bhopawar Agency, namely:

In section 4, *for the words* "to the Agent to the Governor General in Central India" *substitute* "in Central India to the General Superintendent of Operations for the Suppression of Thagi and Dakaiti."

No. 2028-I.B.—In exercise of the powers conferred by sections 11 and 21 of the Indian Arms Act, 1878 (XI of 1878), as applied to the Hyderabad Assigned Districts by the notification of the Government of India in the Foreign Department, No. 1875-I., dated the 1st June, 1894, and modified by the like notification No. 2140-I.B., dated the 5th August, 1898, the Governor General in Council is pleased to direct that the following further modifications shall be made in the notifications of the Government of India in the Foreign Department, Nos. 1877-I. and 1878-I., dated the 1st June, 1894, as amended by subsequent notifications, namely:

In Notification No. 1877-I.

In the preamble, *for the words and figures* "sections 8, 9 • • • and ammunition," *substitute*—

"section 9 of the said Act, save in respect of cannon, articles designed for torpedo service, war-rockets and machinery for the manufacture of arms and

ammunition, and from the operation of all prohibitions and directions contained in sections 8 and 10 of the said Act, save as aforesaid and in respect of rifles of '303 bore, rifles of '450 or '577 bore of the Snider or Martini-Henry pattern, and ammunition for such rifles".

In Notification No. 1878-1.

To Rule 5 *add* as a Note—

NOTE.—No such license will be granted for the importation of any rifles of '303 bore or of rifles of '450 or '577 bore of the Snider and Martini-Henry patterns.

To Rule 12 *add* after the words " appended to these rules "—

" But licenses to manufacture, convert, keep or sell or keep for sale breech-loading rifles, rifle ammunition or military stores for rifles shall be granted only by the Resident at Hyderabad and shall be in Form IV--B or V--B so appended. The Resident at Hyderabad may under this rule grant licenses to selected dealers to hold a certain amount of ammunition for rifles of '303 bore, or rifles of '450 or '577 bore of the Snider or Martini-Henry pattern, on the condition that the license-holders shall not sell from this stock to any person who does not hold a license to possess any such ammunition."

After Rule 14 *add* the following new rule—

" 14-A. Licenses for the possession of reasonable quantities of balled ammunition which can be fired from rifles of the '303 bore or rifles of '450 or '577 bore of the Snider or Martini-Henry pattern, shall be granted by the Deputy Commissioner in Form VI prescribed by Rule 14. Such licenses shall be granted on application to any person lawfully in possession for sporting purposes of a rifle of the '303 bore, or a rifle of the '450 or '577 bore of the Snider or Martini-Henry pattern, and shall state the amount of such balled ammunition which he may possess in the following twelve months. Duly licensed dealers shall be allowed to import their balled ammunition up to the quantity stated in their licenses. Upon every license produced in support of an application for leave to import, the quantity of ammunition to import which leave was given, and the date of giving it, shall be endorsed by the authority by whom leave is granted."

For Forms VI, VII, VIII and IX, *substitute* the revised forms hereto annexed.

1. This license is given subject to the provisions of the Indian Arms Act, 1878, as applied to the Hyderabad Assigned Districts, and the rules framed thereunder. The attention of the holder is drawn to the sections of the said Act quoted separately below.

2. He shall keep registers of all arms and ammunition in stock, and of all sales in such form as the Resident at Hyderabad may from time to time direct.

3. He shall exhibit his stock and his registers on demand by any Magistrate or by any Police officer not below the rank of Inspector.

4. If any arms or ammunition covered by this license are lost or stolen, he shall at once give notice at the nearest police station.

N.B.—This condition may be omitted at the discretion of the Resident at Hyderabad.

5. He shall affix on a conspicuous part of his shop or usual place of business a sign-board, on which shall be painted in large letters in English, and in the vernacular of the district, his name and the words "Licensed to deal in arms, ammunition, and military stores." He shall also post up in his shop a copy of section 22 of the said Act, either in the vernacular of the district or in English.

6. He shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VI or VII, (1) the name and address of the person who takes delivery of the articles sold; (2) the nature and amount of the articles sold; and (3) the date of the sale; and shall sign the endorsement.

7. This license covers only sales of arms, ammunition, or military stores effected upon the premises shown on the face of the license.

8. The licensee shall not sell arms to a soldier of the Native Army unless he produces a written pass or permit signed by his Commanding Officer, and then only to the extent and on the conditions specified in such pass.

9. This license expires on the 31st December of the year in which it is issued, but the licensee can have it renewed by filing an application for its renewal on stamped paper of the prescribed value.

Sections of the Indian Arms Act, 1878, as applied to the Hyderabad Assigned Districts, referred to in Condition No. 1.

4. No person shall manufacture, convert, or sell, or keep, offer, or expose for sale, any arms, ammunition, or military stores except under a license, and in the manner and to the extent permitted thereby.

Nothing herein contained shall prevent any person from selling any arms or ammunition, which he lawfully possesses for his own private use, to any person who is not by any enactment for the time being in force prohibited from possessing the same; but every person so selling arms or ammunition to any person other than a person entitled to possess the same by reason of an exemption under section 21 of this Act shall, without unnecessary delay, give to the Magistrate of the district, or to the officer in charge of the nearest police station, notice of the sale and of the purchaser's name and address.

10. Any person possessing arms, ammunition, or military stores, the possession whereof by him has, in consequence of the cancellation or expiry of a license, become unlawful, shall deposit the same without unnecessary delay with the officer in charge of the nearest police station.

If the owner of anything deposited under this section does not, within three years from the date on which such thing is so deposited, produce a license authorizing him to possess the same, and apply for delivery of the same, such thing shall be forfeited.

13. Whoever commits any of the following offences (namely):

(a) manufactures, converts, or sells, or keeps, offers, or exposes for sale, any arms, ammunition, or military stores in contravention of the provisions of section 4;

(b) fails to give notice as required by the same section;

* * * * *

(g) intentionally makes any false entry in a record or account which by a rule * * * he is required to keep;

(h) intentionally fails to exhibit anything which by a rule * * * he is required to exhibit; or

(i) fails to deposit arms, ammunition, or military stores as required by * * * section 10,

shall be punished with imprisonment for a term which may extend to three years, or with fine, or with both.

14. Whoever does any act mentioned in clause (a) * * * of section 13 in such manner as to indicate an intention that such act may not be known to any public servant as defined in the Indian Penal Code, or to any person employed upon a railway, or to the servant of any public carrier,

and whoever, on any search being made under section 19, conceals or attempts to conceal any arms, ammunition, or military stores,

shall be punished with imprisonment for a term which may extend to seven years, or with fine, or with both.

15. Whoever in violation of a condition subject to which a license has been granted does or omits to do any act shall, when the doing or omitting to do such act is not punishable under section 13 or section 14, be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

16. Whoever knowingly purchases any arms, ammunition, or military stores from any person not licensed or authorized under the proviso to section 4 to sell the same, or

delivers any arms, ammunition, or military stores into the possession of any person without previously ascertaining that such person is legally authorized to possess the same,

shall be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

17. Any person violating any rule made under this Act, and for the violation of which no penalty is provided by this Act, shall be punished with imprisonment for a term which may extend to one month, or with fine which may extend to two hundred rupees, or with both.

18. When any person is convicted of an offence punishable under this Act, committed by him in respect of any arms, ammunition or military stores, it shall be in the discretion of the convicting Court or Magistrate further to direct that the whole or any portion of such arms, ammunition, or military stores, and any vessel, cart, or baggage animal used to convey the same, and any box, package, or bale in which the same may have been concealed, together with the other contents of such box, package, or bale, shall be confiscated.

1. This license is given subject to the provisions of the Indian Arms Act, 1878, as applied to the Hyderabad Assigned Districts, and the rules framed thereunder. The attention of the holder is drawn to the sections of the said Act quoted separately below.

2. He shall keep registers of all arms manufactured or converted, of all ammunition and military stores manufactured, of all stock in hand, and of all sales in such form as the Resident at Hyderabad may direct.

3. He shall exhibit his stock and his registers on demand by any Magistrate or by any Police officer not below the rank of Inspector.

4. If any arms or ammunition covered by this license are lost or stolen, he shall at once give notice at the nearest police station.

N.B.—This condition may be omitted at the discretion of the Resident at Hyderabad.

5. He shall affix on a conspicuous part of his shop or usual place of business a signboard, on which shall be painted in large letters in English, or in the vernacular of the district, his name and the words "Licensed to manufacture (or, as the case may be, 'Licensed to deal in') arms, ammunition, and military stores." He shall also post up in his shop a copy of section 22 of the said Act, either in the vernacular of the district, or in English.

6. He shall at time of purchase endorse upon the license of every purchaser holding a license under Form VI or VII, (1) the name and address of the person who takes delivery of the articles sold; (2) the nature and amount of the articles sold; and (3) the date of sale; and shall sign the endorsement.

7. This license covers only sales of arms, ammunition, or military stores effected upon the premises shown on the face of the license.

8. The licensee shall not sell arms to a soldier of the Native Army unless he produces a written pass or permit signed by his Commanding Officer, and then only to the extent and on the condition specified in such pass.

9. This license expires on the 31st December of the year in which it is issued, but the licensee can have it renewed by filing an application for its renewal on stamped paper of the prescribed value.

Sections of the Indian Arms Act, 1878, as applied to the Hyderabad Assigned Districts, referred to in Condition No. 1.

4. No person shall manufacture, convert, or sell, or keep, offer, or expose for sale, any arms, ammunition, or military stores except under a license, and in the manner and to the extent permitted thereby.

Nothing herein contained shall prevent any person from selling any arms or ammunition, which he lawfully possesses for his own private use, to any person who is not by any enactment for the time being in force prohibited from possessing the same, but every person so selling arms or ammunition to any person other than a person entitled to possess the same by reason of an exemption under section 21 of this Act shall without unnecessary delay, give to the Magistrate of the district, or to the officer in charge of the nearest police station, notice of the sale and of the purchaser's name and address.

10. Any person possessing arms, ammunition, or military stores, the possession whereof by him has, in consequence of the cancellation or expiry of a license, become unlawful, shall deposit the same without unnecessary delay with the officer in charge of the nearest police station.

If the owner of anything deposited under this section does not, within three years from the date on which such thing is so deposited, produce a license authorizing him to possess the same, and apply for delivery of the same, such thing shall be forfeited.

13. Whoever commits any of the following offences (name/y) :

(a) manufactures, converts, or sells, or keeps, offers, or exposes for sale, any arms, ammunition or military stores in contravention of the provisions of section 4;

(b) fails to give notice as required by the same section;

* * * * *

(g) intentionally makes any false entry in a record or account which by a rule *** he is required to keep;

(h) intentionally fails to exhibit anything which by a rule *** he is required to exhibit; or

(i) fails to deposit arms, ammunition, or military stores as required by *** section 10,

shall be punished with imprisonment for a term which may extend to three years, or with fine, or with both.

14. Whoever does any act mentioned in clause (a) *** of section 13 in such manner as to indicate an intention that such act may not be known to any public servant as defined in the Indian Penal Code, or to any person employed upon a railway, or to the servant of any public carrier,

and whoever, on any search being made under section 19, conceals or attempts to conceal any arms, ammunition or military stores,

shall be punished with imprisonment for a term which may extend to seven years, or with fine, or with both.

15. Whoever in violation of a condition subject to which a license has been granted does or omits to do any act shall, when the doing or omitting to do such act is not punishable under section 13 or 14, be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

16. Whoever knowingly purchases any arms, ammunition, or military stores from any person not licensed or authorized under the proviso to section 4 to sell the same, or

delivers any arms, ammunition, or military stores into the possession of any person without previously ascertaining that such person is legally authorized to possess the same,

shall be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

17. Any person violating any rule made under this Act, and for the violation of which no penalty is provided by this Act, shall be punished with imprisonment for a term which may extend to one month, or with fine which may extend to two hundred rupees, or with both.

18. When any person is convicted of an offence punishable under this Act, committed by him in respect of any arms, ammunition, or military stores, it shall be in the discretion of the convicting Court or Magistrate further to direct that the whole or any portion of such arms, ammunition, or military stores and any vessel, cart, or baggage animal used to convey the same, and any box, package, or bale in which the same may have been conveyed, be

Form of renewing the License.

[illegible]

1. This license is granted subject to the provisions of the Indian Arms Act, 1878, as applied to the Hyderabad Assigned Districts, and the rules framed thereunder.

2. It covers only the persons and the arms named therein, unless it is certified to cover retainers of the holder.

3. It is void after the date named therein.

4. It extends only to the place or district named therein, unless countersigned for other districts or the whole of the Hyderabad Assigned Districts by the Commissioner or other superior officer.

5. It authorizes the holder or persons acting under it to go armed within the place or district named for *bond fide* prosecution of the purpose named on the license ; but, unless special authority is obtained from the Deputy Commissioner, it does not permit the holder or persons aforesaid to go armed in Railway carriages, or to fairs, religious processions, or other public assemblages.

6. The license-holder, when purchasing any new arms or ammunition shall have the following particulars endorsed upon his license under the vendor's signature :

- (1) the name and address of the person who takes delivery of the articles purchased ;
- (2) the nature and amount of the articles purchased ;
- (3) the date of purchase.

7. If any weapon covered by this license is lost or stolen, the license-holder shall at once give notice of the fact to the nearest Police station.

N.B.—*This condition may be omitted at the discretion of the Resident at Hyderabad.*

8. The special attention of the license-holder is drawn to the following sections of the Act :

Section 8.—No persons shall go armed with any arms, except under a license and to the extent and in the manner permitted thereby.

Any person so going armed without a license, or in contravention of its provisions, may be disarmed by any Magistrate, Police officer or other person empowered by the Resident at Hyderabad in this behalf by name or by virtue of his office.

Section 13.—Whoever commits any of the following offences (namely) :

* * * * * * *

(e) goes armed in contravention of the provisions of section 8 ;

(f) has in his possession or under his control any cannon, fire-arms, ammunition or military stores in contravention of the provisions of section 9 ;

* * * * * * *

(i) fails to deposit arms, ammunition or military stores, as required by section 9 or section 10,

shall be punished with imprisonment for a term which may extend to three years, or with fine, or with both.

9. This license expires on the 31st December of the year in which it is issued. The license-holder can have it renewed by filing an application for its renewal on stamped paper of the prescribed value.

STATISTICS AND COMMERCE.

CUSTOMS.

The 22nd May, 1901.

No. 2769-S. R.—In the Notification in the Finance and Commerce Department No. 521-S. R., dated the 1st February 1901, it was directed that certain refunds should be given of a part of the duties charged on Austro-Hungarian sugars imported into India which were shipped from Austria-Hungary between the 1st of August 1899 and the 31st of July 1900 inclusive. The Governor General in Council is now pleased to further direct that such refunds shall also be made on sugars produced in Austria-Hungary which were shipped from ports of other countries, provided it be proved to the satisfaction of the Collector of Customs that the sugars in question were exported from Austria-Hungary between the dates specified in the Notification of the 1st February 1901, and were charged with duty on importation into India at the rates specified in column (a) of that Notification.

SEPARATE REVENUE.

SALT.

The 21st May, 1901.

No. 2756-S. R.—In exercise of the powers conferred by the last paragraph of section 1 of the Indian Salt Act, 1882 (XII of 1882), the Governor General in Council is pleased to rescind so much of the notification of the Government of India in the Department of Finance and Commerce, No. 769, dated the 11th February 1888, as purports to extend to the districts of the Orissa Division, the following portions of the said Act, namely:

- (1) the words "unless the Commissioner of Northern India Salt-revenue otherwise directs" in section 22; and
- (2) the words "or the Commissioner of Northern India Salt-revenue" in section 30.

2. In exercise of the powers conferred by section 25 of the said Act, and in supersession of the like notification, No. 4327-S. R., dated the 27th September 1897, the Governor General in Council is pleased to make the following rule, and directs that it shall be added as rule 68 to the rules published with the like notification, No. 771, dated the 11th February 1888, as amended by the like notification, No. 1595-S. R., dated the 9th April 1898, namely:

"68. Subject to the provisions of rule 67, the Commissioner of Excise and Salt shall be at the head of the administration of the Salt-revenue under the Indian Salt Act, 1882 (XII of 1882)."

No. 2757-S. R.—In exercise of the powers conferred by the last paragraph of section 1 of the Indian Salt Act, 1882 (XII of 1882), the

Governor General in Council is pleased to rescind as much of the notification of the Government of India in the Department of Finance and Commerce, No. 1594-S. R., dated the 9th April 1898, as purports to extend to the districts of the 24-Parganas (except Calcutta), Midnapore, Khulna, Backergunge and Chittagong, the following portions of the said Act, namely:

- (1) the words "unless the Commissioner of Northern India Salt-revenue otherwise directs" in section 22;
- (2) the last sentence of section 27; and
- (3) the words "or the Commissioner of Northern India Salt revenue" in section 30.

2. In exercise of the powers conferred by section 28 of the said Act and in supersession of paragraph 2 of the said notification, the Governor General in Council is pleased, in continuation of the like notification, No. 1596-S. R., dated the 9th April 1898, to extend to the districts of the 24-Parganas (except Calcutta), Midnapore, Khulna, Backergunge and Chittagong rule 68 as added by paragraph 2 of the notification of the Government of India in the same Department, No. 2756-S. R., dated the 21st May 1901, to the rules applicable to the districts of the Orissa Division and published with the like notification, No. 771, dated the 11th February 1888, as amended by the like notification, No. 1595, dated the 9th April 1898.

J. F. FINLAY,

No. 467.—Lieutenant-Colonel Hugh McCalman, M.D., Indian Medical Service (Bombay), has been permitted by the Secretary of State for India to retire from the service, with effect from the 7th April 1901, subject to His Majesty's approval.

No. 468.—Lieutenant-Colonel Edward Lawrie, M.B., Indian Medical Service (Bengal), Residency Surgeon, Hyderabad, is permitted to retire from the service, with effect from the 17th May 1901, subject to His Majesty's approval.

No. 469.—Honorary Captain John Leahy, Deputy Commissary, Ordnance Department, Bengal, is permitted to retire from the service, with effect from the 1st March 1901, subject to His Majesty's approval.

REWARDS.

GOOD-CONDUCT MEDALS.

No. 470.—The undermentioned non-commissioned officers of the Bombay Unattached List are awarded the silver medal for long service and good conduct, without gratuity, for the quarter ending 31st March 1901:

Sergeant Edmund Higgins, Commissariat-Transport Department.

Sergeant-Instructor Richard Norris, Bengal-Nagpore Railway Volunteer Rifle Corps.

VOLUNTEER CORPS.

APPOINTMENTS, PROMOTIONS AND RESIGNATIONS.

No. 471.—*Rangoon Volunteer Engineers—*

Second-Lieutenant John James Bowman to be Lieutenant, to complete the establishment.

No. 472.—*2nd Punjab (Simla) Volunteer Rifles—*

Lieutenant Ernest Grey Coutts to be Captain, with effect from the 1st February 1901, *vice* McElhinney, transferred.

No. 473.—*Baluchistan Volunteer Rifles—*

The Honourable Colonel Charles Edward Yate, C.S.I., C.M.G., to be Honorary Colonel, with effect from the 4th May 1901, *vice* Barnes, resigned.

No. 474.—*Malabar Volunteer Rifles—*

Captain James Thomas Gillespie, unattached list, resigns his commission, with effect from the 11th March 1901.

No. 475.—*Assam-Bengal Railway Volunteer Rifles—*

Captain Claude Routh to be Commandant with the rank of Major, on the formation of the Corps, with effect from 23rd January 1901.

MEDALS AND DECORATIONS.

No. 476.—His Excellency the Governor-General of India is pleased to confer the Volunteer Officers' Decoration upon the undermentioned officers of the Indian Volunteer Force, who have been duly recommended for the same, under the Royal Warrant of the 24th May 1894 (India Army Circulars, clause 101 of 1894):

Oudh Light Horse.

Captain John Samuel Champion Davis.

Eastern Bengal State Railway Volunteer Rifles.

Captain Charles Lewis Taylor.

ORGANISATION.

No. 477.—The appointment of Lieutenant-Colonel Leslie Alexander Selim Porter, Commandant of the 4th Administrative Battalion, North-Western Provinces Volunteers, has terminated consequent on the orders contained in Government of India, Military Department, letter No. 867-B, dated the 4th March 1901, in connection with the abolition of Volunteer Administrative Battalions in India.

MARINE DEPARTMENT.

APPOINTMENTS.

No. 16.—The following appointment to the Royal Indian Marine has been made by the Secretary of State for India, with effect from the 26th February 1901:

To be Sub-Lieutenant.

Bruce Cunliffe Marsh.

E. DE BRATH, *Colonel,*

Offg. Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

RAILWAYS.

NOTIFICATIONS.

Simla, the 20th May, 1901.

No. 205.—In exercise of the power conferred by section 146 of the Indian Railways Act, 1890 (IX of 1890), the Governor General in Council is pleased to extend the whole of the said Act, except section 135, to the Parlakimedi Steam Tramway.

No. 206.—Mr. W. A. Johns, Executive Engineer, 1st Grade, State Railways, is appointed Deputy Consulting Engineer to the Government of India for Railways, Lucknow, until further orders.

No. 208.—With reference to Public Works Department Notification No. 181, dated 2nd May 1901 (Railways), Mr. J. Manson, officiating Deputy Manager, Oudh and Rohilkhand Railway in Class I, Grade 3 (temporary rank) of the Superior Revenue Establishment of State Railways, is appointed to officiate as Manager of that Railway, until further orders.

The 22nd May, 1901.

No. 209.—In continuation of Notification No. 475, dated the 26th November 1900, it is hereby notified for general information that the Right Hon'ble the Secretary of State

for India in Council has sanctioned the following estimates for the construction of a railway on the 2 feet 6 inches gauge from Khusalgarh to Kohat with an extension to Thal, including an aerial cable way across the Indus at Khusalgarh :

Section.	Mileage.	Cost. Rs.
(i) Khusalgarh to Kohat	30'00	28,41,452
(ii) Kohat to Thal	58'12	29,54,765
TOTAL	88'12	50,96,217

No. 211.—Mr. A. R. Hill, Assistant Locomotive Superintendent, Class III, Grade 2 of the Superior Revenue Establishment of State Railways, is, at his own request, permitted to resign the service of Government, with effect from the forenoon of the 1st January 1901.

No. 212.—It is hereby notified for general information that the Right Hon'ble the Secretary of State for India in Council has sanctioned a revised estimate amounting to Rs. 2,02,62,082 for the construction of the Myohoung-Lashio section of the Mandalay-Kunlon Railway, 175 miles in length.

The 23rd May, 1901.

No. 216.—Mr. F. H. Reaks, Assistant Traffic Superintendent in Class III, Grade 4 of the Superior Revenue Establishment of State Railways, is appointed to officiate as District Traffic Superintendent in Class II of that establishment, with effect from the 8th March 1901, and until further orders.

No. 217.—Mr. G. H. Robottom, Traffic Inspector, Eastern Bengal State Railway, is appointed to officiate as Assistant Traffic Superintendent, during the absence of Mr. Robinson, officiating Assistant Traffic Superintendent, on leave, or until further orders.

A. BRERETON,

Offg. Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

IRRIGATION ROADS AND BUILDINGS.

NOTIFICATIONS.

Simla, the 20th May, 1901.

No. 207.—Mr. J. R. C. Nicolls, Executive Engineer, 1st Grade, North-Western Provinces and Oudh, is appointed to officiate as a Superintending Engineer, with effect from the afternoon of the 28th April 1901, during the absence on leave of Mr. G. K. Watts, or until further orders.

The 22nd May, 1901.

No. 210.—Mr. A. R. Kalberer, Deputy Examiner of Accounts, attached to the Office of the Examiner of Public Works Accounts, Bengal, is granted privilege leave for three months in combination with furlough for eighteen months, under Articles 264 (a) and 371 (b) of the Civil Service Regulations.

The 23rd May, 1901.

No. 214.—Mr. A. C. Evans, Executive Engineer, 1st Grade, North-Western Provinces and Oudh, on special duty to carry out preliminary enquiries concerning protective Irrigation Works and Famine Relief Works, in the North-Western Provinces and Oudh, is temporarily promoted to Superintending Engineer, 3rd Class, with effect from the forenoon of the 8th April 1901.

No. 215.—Mr. G. C. Maconchy, Executive Engineer, 1st Grade, Bengal, on special duty to carry out preliminary enquiries concerning protective Irrigation Works in Bengal, is temporarily promoted to Superintending Engineer, 3rd Class, with effect from the forenoon of the 1st April 1901.

TELEGRAPHS.

The 22nd May, 1901.

No. 213.—Messrs. W. C. Wilby and R. Parrott, Sub-Assistant Superintendents, 1st Grade, Indian Telegraph Department, are promoted to the honorary rank of Assistant Superintendent, with effect from the 1st April 1901.

T. HIGHAM,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

ETHNOGRAPHIC SURVEY OF INDIA IN CONNECTION WITH THE CENSUS OF 1901.

NOS. 3219—3232.

Extract from the Proceedings of the Government of India in the Home Department (Public),—under date Simla, the 23rd May, 1901.

Read—

Despatch No. 5, dated the 18th January 1900, from the Secretary of State for India, forwarding a letter from Sir Michael Foster on behalf of the British Association for the advancement of science recommending that certain ethnographic investigations should be undertaken at the Indian Census of 1901, together with copy of the reply.

Read also—

Home Department Circular, dated the 21st September 1882, and enclosure, regarding statistics of castes and occupations in British India.

Home Department Resolution, dated the 26th April 1893, reviewing a scheme for the appointment of Honorary Directors of Ethnography in the several Provinces of India.

RESOLUTION.

IN August 1882, when the statistics of the census of 1881 were still in process of compilation, the Census Commissioner suggested that steps should be taken to collect full information regarding castes and occupations throughout British India. The proposal was commended to Local Governments and Administrations, and the Bengal Government undertook an ethnographic survey of the customs of all important tribes and castes in Bengal and an anthropometric inquiry, according to the methods prescribed by the French anthropologists Broca and Topinard, into the distinctive physical characteristics of selected tribes and castes in Bengal, the North-Western Provinces, Oudh, and the Punjab. The results of these inquiries were recorded in the four volumes of the *Tribes and Castes of Bengal*.

2. In December 1899, when the preliminary arrangements for the census of 1901 were under consideration, the British Association for the Advancement of Science recommended to the Secretary of State, in the letter appended to this Resolution, that certain ethnographic investigations should be undertaken in connexion with the census operations. Their proposals may be summarized as comprising—

- (i) *Ethnography*, or the systematic description of the history, structure, traditions and religious and social usages of the various races, tribes and castes in India;
- (ii) *Anthropometry*, or measurements directed to determining the physical types characteristic of particular groups; and
- (iii) *Photographs* of typical individuals and, if possible, of archaic industries.

3. The scientific importance of the investigations recommended by the British Association is admitted in Sir Arthur Godley's letter, dated the 16th January 1900, to the address of the Association, and the Government of India are in entire agreement with this view. It has come to be recognized of late years that India is a vast storehouse of social and physical data which only need to be recorded in order to contribute to the solution of the problems which are being approached in Europe with the aid of material much of which is inferior in quality to the facts readily accessible in India, and rests upon less trustworthy evidence. Mention may be made of Sir Alfred Lyall's *Asiatic Studies*, of

Professor Haddon's *Study of Man*, of M. Émile Senart's *Les Castes dans l'Inde*, and of Dr. W. Z. Ripley's recent work on *The Races of Europe*, as showing the extensive use that has been made by ethnologists of data collected in India. It is true that various social movements, aided by the extension of railways, are beginning, as Sir Alfred Lyall and others have pointed out, to modify primitive beliefs and usages in India, but that is all the more reason for attempting to record them before they are entirely destroyed or transformed.

4. It is unnecessary to dwell at length upon the obvious advantages to many branches of the administration in this country of an accurate and well-arranged record of the customs and the domestic and social relations of the various castes and tribes. The entire framework of native life in India is made up of groups of this kind, and the status and conduct of individuals are largely determined by the rules of the group to which they belong. For the purposes of legislation, of judicial procedure, of famine relief, of sanitation and dealings with epidemic disease, and of almost every form of executive action, an ethnographic survey of India, and a record of the customs of the people is as necessary an incident of good administration as a cadastral survey of the land and a record of the rights of its tenants. The census provides the necessary statistics: it remains to bring out and interpret the facts which lie behind the statistics.

5. Experience has shown that in ethnology, as in archæology, nothing can be done on a large scale in India without the active assistance of Government. That assistance, however, can only be given under certain conditions, the chief of which seem to the Government of India to be the following:

- (i) the scheme must not cost much,
- (ii) it must produce definite results within a reasonable time, and
- (iii) it must not impose much extra work on the district officers—Collectors or Deputy Commissioners.

6. The scheme which has been prepared under the orders of the Governor General in Council, and which has now received the sanction of the Secretary of State, is the following:

I.—Local Governments will select from among their officers some one who will undertake to carry on the inquiries proposed, in addition to his ordinary duties. He will be called Superintendent of Ethnography and will get an allowance of Rs. 200 a month. He will also have the services of a clerk.

II.—The Superintendent will correspond with district officers, but their obligations will, as a rule, be limited to ascertaining what persons in their districts are acquainted with the customs, traditions, etc., of particular tribes and castes, and to putting those persons into communication with the Superintendent, who will thereafter correspond direct with them and will trouble the Collector or Deputy Commissioner no further.

III.—Having thus secured his local correspondents, the Superintendent will furnish them with a set of questions which will be prescribed for general use, stating the points on which he requires information. A specimen set, which has been extensively used in Bengal and elsewhere, is appended to this Resolution.

IV.—The Government of India has further decided to place a sum of Rs. 2,000 a year at the disposal of the Local Government to be spent on honoraria to persons who draw up for the Superintendent approved monographs on particular castes, tribes or sects of which they happen to have special knowledge.

V.—The information thus obtained will be collated by the Superintendent and will be supplemented by his own inquiries from such representative men as he can find and by researches into the considerable mass of information which lies buried in official reports, in the journals of learned societies and in various books. Settlement reports, as Sir Henry Maine pointed out long ago, are a mine of

great value which no one but an Indian official can explore. The Superintendent will work up all this material into a systematic account of the tribes and castes of the province somewhat in the form adopted in *The Tribes and Castes of Bengal* and followed by Mr. Crooke for the North-Western Provinces and Oudh.

VI—By working on these lines the Government of India believe it will be possible to get a fairly complete account of the ethnography of the larger provinces drawn up within four or five years. The cost for each Province will be —

			Rs.
Superintendent's allowance at Rs. 200	2,400
Clerk's pay at Rs. 50 (maximum)	600
Honoraria, etc.	2,000
TOTAL			5,000 a year

and for eight Provinces* the cost would be Rs. 40,000 a year. If the work takes

* Madras.
Bombay.
Bengal.
N.-W. P. and Oudh.

Punjab.
Burma.
Central Provinces.
Assam

five years, it will cost Rs. 2,00,000; but there are grounds for believing that it will not take so long. In Burma, for example, the population is comparatively

homogeneous, and the number of different races and castes calling for separate inquiry is much smaller than in an Indian Province. In the North-Western Provinces a considerable body of material is already on record in Mr. Crooke's *Tribes and Castes*, and although that work is understood to stand in need of condensation in some parts and of revision and expansion in others, this will hardly take as long as four years. In Bengal, again, the inquiries necessary for the production of a second edition of Mr. Risley's work could probably be completed in a year. On the whole therefore Rs. 1,50,000 may be taken as a fair estimate, excluding the cost of printing the results, which cannot be calculated at present. This sum is, in the opinion of the Government of India, not too much to pay for an ethnographic survey of British territory in India. His Majesty's Secretary of State for India has accorded his sanction to expenditure not exceeding this amount.

7. It has often been observed that anthropometry yields peculiarly good results in India by reason of the caste system which prevails among Hindus, and of the divisions, often closely resembling castes, which are recognized by Muhammadans. Marriage takes place only within a limited circle; the disturbing element of crossing is to a great extent excluded; and the differences of physical type, which measurement is intended to establish, are more marked and more persistent than anywhere else in the world. Stress was laid upon these points by Professor Topinard in reviewing at length the results of the measurements taken in Bengal, the North-Western Provinces and the Punjab, and by the late Sir William Flower in his Presidential address to the British Association in 1894. The Government of India propose to collect the physical measurements of selected castes and tribes. In Madras the work can be done by Mr. E. Thurston, the Superintendent of the Central Museum, whose ethnographic researches in the South of India are well known, and who, it is understood, is likely to be selected by the Provincial Government as Superintendent of Ethnography for the Madras Presidency. For the rest of India it will probably be convenient to employ a Civil Hospital Assistant who worked under Mr. Risley in Bengal and is stated to have a competent knowledge of the subject. This part of the scheme will cost in all about Rs. 6,000, which will be placed at the disposal of Mr. Risley.

8. The proposal of the Association to place photographers at the disposal of the Census officers is one which could not be carried out in practice. It would be very expensive; it would interfere seriously with the proper duties of the Superintendents, and it would delay the submission of their reports. Moreover a large collection of photographs already exists at the India Office Library. The

Government of India are further advised that, in comparison with measurements, photographs possess but little scientific value and they are not disposed to spend a large sum on making the volumes on ethnography more popular and attractive. This, however, will not preclude Local Governments from introducing illustrations into the volumes produced under their orders provided that they can make arrangements to meet the cost otherwise than from Imperial Revenues.

9. The general direction of the scheme will be entrusted to Mr. Risley, who is willing to undertake it in addition to his own duties, whatever they may be. It will be his business to prescribe a standard set of questions for use in all Provinces; to determine what castes and tribes should be measured and in what way; to settle, in consultation with Local Governments, the form in which the results should be recorded; and generally to advise on all questions that may arise. His official title will be for this purpose Director of Ethnography for India. The Governor General in Council trusts that on this as on former occasions ethnologists and scientific societies in Europe and America will assist the Director with their advice, will refer to him points which they may wish to be made the subject of inquiry in India, and will, if possible, supply him with copies of publications bearing on the researches now about to be undertaken.

ORDER.—Ordered that a copy of this Resolution be forwarded to all Local Governments and Administrations for information and guidance, to the Census Commissioner for India for information and to the Finance and Commerce and Foreign Departments and the Department of Revenue and Agriculture for information and that it be published in the *Gazette of India*.

[True Extract.]

J. P. HEWETT,

Secretary to the Government of India.

PROPOSALS OF THE BRITISH ASSOCIATION REGARDING ETHNOGRAPHY, ETC., IN CONNECTION WITH THE CENSUS OF 1901.

No. 5 (Revenue), dated the 18th January 1900.

From—The Right Honourable Lord GEORGE FRANCIS HAMILTON, Her Majesty's Secretary of State for India,

To—His Excellency the Right Honourable the GOVERNOR GENERAL of India in Council.

I forward, for the consideration of Your Excellency's Government, copy of a letter* from Sir Michael Foster, making recommendation that certain ethnographical investigations should be undertaken at the Indian Census of 1901, together with copy of the reply† I caused to be sent.

* Letter from the British Association for the Advancement of Science, dated December 1899

† Reply to the above, dated 16th January 1900.

2. I have promised to send a further communication to the Association as soon as I learn your views.

ENCLOSURES.

No. 1.

British Association

for the Advancement of Science,

Burlington House, London, W.,

December 1899.

My Lord,

At the meeting of the British Association for the Advancement of Science at Dover, attention was called to the special opportunity offered by the census about to be taken in India for collecting valuable ethnographical data concerning the races of the country; and the Council of the Association having taken the matter into consideration, and being impressed by its scientific importance, have requested me, on their behalf, to bring to the notice of Her Majesty's Government the valuable scientific results which might be obtained by means of the census.

The results of the census itself constitute, of course, by their very nature, an ethnographical document of great value; and my Council feel that, without overburdening the officers of the census or incurring any very large expense, that value might be increased to a very remarkable degree, if to the enumeration were added the collection of some easily ascertained ethnographical data. They are encouraged to make this suggestion by the reflection that the Census Commissioner is an accomplished ethnographer, well known by his publication on the Tribes and Castes of Bengal, the valuable results of which would be supplemented by the inquiries now proposed. They feel confident that with his aid, and under his direction, most important data may be obtained at a minimum of effort and cost. I may add that, should the suggestion which my Council desire to make be carried out, a great step will have been taken towards establishing a uniform method of ethnographical observation in India—a matter of great scientific importance.

Stated briefly, what my Council desire to see carried out is as follows:

1. While collecting the ordinary information for the census, to investigate the physical and sociological characters of the various races and tribes of India. Such data would furnish the basis for a true estimation of the number and distribution of the tribes in question, and thus powerfully contribute to a sound classification of the races of India.

Special attention to be directed,—

(a) to the jungle races—Bhils, Gonds, and other tribes of the central mountain districts—concerning which our information is at present very limited;

- (b) to the Nagi, Kuki, and other cognate races of the Assam and Burmese frontiers, and of the vagrant and criminal tribes—Haburas, Beriayas, Sansias, etc., in North and Central India;
- (c) to collect physical measurements, particularly of the Dravidian tribes, and of the Rajputs and Jats of Rajputana and the Eastern Panjab. Such data will be of the greatest service, in throwing light on the important and difficult problem of the origin of these tribes and their relation with the Yu-echi and other Scythian races;
- (d) to pay special attention to the question of a possible Negrito element in certain ethnic groups in India.

2. To obtain, so far as can be done without too great labour and expense, a series of photographs of typical individuals of the various races, and, if it should be practicable, of views of archaic industries, etc. This, which might be accomplished by placing photographers at the service of the Census Officers, would be the commencement of an Ethnological Survey of India, similar to and certainly no less important than the Archaeological Survey, of which the Government of India may so justly be proud.

My Council, in considering the above proposal, have been assisted by a Committee of gentlemen possessing special knowledge of the subject in question, and I am to add that this Committee will be pleased to place themselves at the disposal of Her Majesty's Government to assist in the proposed investigation. If it should seem desirable to Her Majesty's Government, the Committee are prepared to put themselves into direct communication with the officers of the census, who, however, the Council have reason to believe, are fully capable of carrying out the details of the investigations proposed.

I have, etc.,

M. FOSTER.

The Secretary of State
for India.

No. 2.

R. and S. 3535.

India Office,

Sir,

16th January 1900.

I am directed by the Secretary of State to acknowledge the receipt of your letter, dated December 1899, suggesting, in behalf of the "British Association for the Advancement of Science," that opportunity should be taken to collect ethnographical information by means of the Indian census of 1901.

Lord George Hamilton appreciates the importance of the information desired by the Association; and he has forwarded a copy of your letter for the consideration of the Government of India. But I am directed to remind you that, when your Association made cognate though not precisely similar recommendations in 1895, the Government of India* held that it would be better to keep ethnological inquiries separate from the work of the census, and to undertake them separately province by province.

Lord George Hamilton is disposed to think that this opinion would apply equally to the suggestion that during the census photographs should be taken of representatives of the different Indian races and of archaic industries. The Association is no doubt aware that this has already been done on a considerable scale; and I am to add that there are in the India Office Library, where they can always be consulted, sixty portfolios, containing about 6,000 photographs or other pictures of Indian people, Indian buildings and scenes, Indian crafts, and other Indian objects.

A further communication will be made to you, when Lord George Hamilton learns the views of the Government of India on the recommendations of the Association.

I am, etc.,

A. GODLEY.

Sir Michael Foster, K.C.B., F.R.S.

Extracts from Proceedings of Conference on Ethnography of Northern India, held at Lahore, 18th to 22nd March 1885.

A.

SUGGESTIONS REGARDING SOME DOUBTFUL POINTS OF ETHNOGRAPHIC NOMENCLATURE.

Much confusion is often caused by the indeterminate use of the various terms applied to the divisions upon which society in India is based. It seems that some attempt to define more precisely the nature of the groups to which these terms should respectively be applied might usefully be made, and the following is set forth as a suggestion.

The group organization commonly follows one of two main types—(1) the caste, (2) the tribe. The former may be defined as the largest group based upon community of occupation; the latter as the largest group based upon real or fictitious community of descent, or upon common occupation of territory.

Within the caste we find the *sub-caste*, and within the *sub-caste* the *section*. The *sub caste* may be defined as the smallest *endogamous* group, and the *section* as the largest *exogamous* group, within the caste. No lower unit than the *section* need be regarded. The limits of the caste and *sub-caste* will occasionally be identical, there being no smaller *endogamous* groups included under a common caste name based on occupation.

Within the tribe we find many sub-divisions. The smallest *endogamous* group within the tribe may be called the *sub-tribe*, which, as before, will occasionally coincide with the tribe. The largest *exogamous* group within the tribe may be called the *sept* and no lower unit than this need be considered. Divisions intermediate between the *sub-tribe* and *sept* may, where they exist, be termed clans and sub-clans.

Some cases will occur in which the two types run into each other, the caste based upon occupation being made up of tribes or tribal fragments based upon community of descent. In these cases the terminology of each type will be followed so far as the organization stands upon the same basis as the type, and no further.

It might be explained that the Brahmanical *gotras* have, in many cases, been adopted by, or imposed upon, castes and tribes in addition to their proper caste or tribal divisions. In such cases the *gotras* are not what is wanted: what is wanted is the organic divisions and sub-divisions of the caste and tribe, not unusually called *got* by the people themselves, as distinguished from *gotra* in the strict Brahmanical sense. Occasionally these organic divisions and the *gotras* are identical; but where the latter are distinct from, and have been superimposed upon, the former, the *gotras* run through the divisions, the same division often, though not always, including several *gotras*, while, on the other hand, the same *gotra* is found in several divisions. The Brahmanical *gotras* are chiefly used by the officiating priest at marriage, and the ceremony of *sankalp*, and are often unknown to the people themselves without reference to their priests.

B.

ETHNOGRAPHIC QUESTIONS.

General Series.

1. Write in English and vernacular the name of the _____ caste with synonyms, if any, noting if any of these are used only by outsiders.

2. Write in English and vernacular the names of the *exogamous* sub-divisions of the caste, if such sub-divisions exist.

N.B.—By the term *exogamous* sub-division is meant a group from within which its male members cannot take their wives.

3. Show the *endogamous* divisions of the caste, if such divisions exist. If these divisions consist of groups of the sub-divisions mentioned in question 2, show the grouping. If they are distinguished by separate names, write the names in English and vernacular.

N.B.—By the term *endogamous* division is meant a group from outside of which its male members cannot take their wives.

4. State the limits within or beyond which marriage is prohibited, *e.g.*, that a man must marry within the caste, but must not marry into his own or certain other sub-divisions, or within certain degrees of relationship, or may not marry two sisters.

5. Name any prohibitions on inter-marriage based upon (a) social status, (b) geographical or local position, (c) differences of religious belief or practice, (d) differences or changes of occupation.

6. State the popular tradition, if any exists, as to the origin of the caste, naming the common ancestor, if any, the part of the country from which the caste is supposed to have come, and the approximate time of its emigration as marked by the reign of any particular king or the occurrence of any historical event, together with the number of generations supposed to have intervened.

7. Is the habit of the caste settled or wandering? Have they any recognized headquarters in the province? If wandering, over what tract of country do they wander? Are their migrations periodical or irregular, and what are the shape and material of their dwellings?

8. Do they admit outsiders into the caste? If so, from what classes, by what forms, and under what conditions?

9. Is marriage infant or adult? If the latter, is sexual license before marriage recognised or tolerated?

10. Is (a) polygamy, (b) polyandry, permitted; if so, under what conditions and within what limits? In the case of polyandry, must all the husbands be brothers?

11. What form of marriage ceremony is in ordinary use? Name the forms and state the essential and binding portion of the ceremony.

12. Is the re-marriage of widows permitted? If so, is the widow obliged or expected to marry her husband's elder or younger brother? If she does not marry a brother, within what limits may she marry? What form of marriage ceremony is used, and what is the essential and binding portion of it?

13. Under what circumstances is divorce permitted, and by what form is it effected? May wives who have been divorced marry again?

14. Do the members of the caste follow the Hindu or Mahomedan law of inheritance, or a tribal custom of their own?

15. To what religion and to what sect within the religion do the caste belong? If Hindus, do they by preference worship any special one of the regular Hindu deities, and are there any reasons for this preference?

16. Name any minor gods or patron saints specially worshipped by the caste. State what offerings are made, on what days of the week, and what class of people receive them. Is the worship of any of these gods or saints confined to women and children?

17. Do the caste employ Brahmans for religious and ceremonial purposes? If so, are these Brahmans received on terms of equality by other Brahmans? If they do not employ Brahmans, what class of people serve them as priests?

18. Do the caste burn, bury or expose their dead? If buried, in what position? Where are the bodies or ashes finally disposed of?

19. Are any ceremonies performed for the propitiation of (a) ancestors in general, (b) childless ancestors, (c) men who have died a violent death, and if so, of what nature and at what seasons? Is the ceremony of *sraddh* performed or not?

20. Is the caste, or any of its sub-divisions, named after any animal, plant, weapon or implement? Do they show their reverence for any such object either by special worship, or by abstaining from killing, eating, cutting, burning, using or naming it.

21. What do the caste believe to have been their original occupation or group of occupations? To what extent have they or any sections of them departed from it? Describe their present occupation.

22. If they are agriculturists, state what position they usually occupy in the agricultural system, *i.e.*, are they—

(1) Zemindars;

(2) Tenure-holders, specifying the kind of tenures they hold;

(3) Occupancy or non-occupancy raiyats, stating whether they have or claim any privileges in respect of rent;

(4) Nomadic cultivators, specifying the mode of cultivation they follow;

(5) Landless day-labourers, stating the manner in which they are paid?

23. If their occupation is that of—

(a) *Artizans*, what is their industry, and in what special material do they work, or abstain from working,

(b) *Hunters*, do they catch game or vermin;

(c) *Fishermen*, do they catch fish only or also crocodiles and tortoises;

(d) *Sweepers*, do they remove night-soil or not?

24. Name any implement or mode of working which is characteristic of the caste, and also note whether there is any form or detail of their main occupation by abstaining from which they believe themselves to be raised above others of the same craft?

25. Do they habitually prostitute their (1) unmarried, (2) married women?

26. Which of the following articles of food do the caste eat or abstain from eating: flesh, wine, monkeys, beef, pork, the flesh of cloven-footed or uncloven-footed animals, fowls, scaley or scaleless fish, crocodiles, snakes, lizards, jackals, rats, other vermin, the leavings of other people? Is there any special article of food their abstaining from which tends in their opinion to raise them above some other caste which does not abstain from it?

27. Name the lowest well-known caste with which the caste will—

(a) Eat pakki.

(b) Eat kachchi.

(c) Drink.

(d) Smoke.

Name the highest well-known caste which will eat, etc. (as above), with the caste.

Sources of information.—Here should be noted the names, residence (village and thana), profession, caste, sub-caste and section of the persons who answered the questions. If any of them are *ghataks*, genealogists, heads of caste panchayats, or if they occupy any hereditary official position in relation to the caste, the fact should be stated. If the answers to the questions have been derived from any source other than personal enquiry addressed to members of the caste concerned, the source should be stated, and such references given as may enable the officer in charge of the enquiry to test the correctness of the answers.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Weather Review of India for the Week ending at 8 a.m. on
Saturday, the 18th May, 1901.**

Ordinary hot weather conditions have prevailed during the week. Thunderstorms have occurred in Assam, Bengal, Burma and the south of the Peninsula and dust and thunderstorms in Upper India. The hot weather depression over the western desert showed a tendency to extend north-eastwards on Sunday and Monday, and on Tuesday a fairly well-marked depression was shown lying over the southern districts of the Punjab, and numerous dust and thunder storms, accompanied with light showers, were reported on Friday from Upper India. Pressure increased rapidly to very rapidly in the Punjab on Friday and the depression in this area had almost completely filled up, only a shallow residual depression being shown in the South-East Punjab and the adjacent districts of the North-Western Provinces which gave a few showers in the Mussooree Hills during the next twenty-four hours.

Pressure has been relatively low over West Bengal and the east of the North-Western Provinces throughout the week and thunderstorms have been of almost daily occurrence in Assam and parts of Bengal. They were most numerous on Thursday, especially in North Bengal and Bihar, the largest amounts reported having been Jessore 1·10 inches, Silchar 1·79 inches, Sibsagar 1·02 inches and Darbhanga 1·63 inches. On Saturday Sibsagar reported a fall of 2·62 inches and Silchar 1·65 inches.

The south of the Peninsula has received showers, due to thunderstorms, on most days of the week. On Friday a number of moderately heavy falls of rain was reported from this area and Ceylon. Bangalore received 1·98 inches, Salem 1·94 inches, Chitaldroog 1·91 inches, Trincomalee and Cochin 1·76 inches and Colombo 1·49 inches.

Temperature was above the normal in North-West India during the first part of the week, but a very rapid fall was shown in the Punjab on Friday morning, due partly to the dust and thunderstorms that had occurred in that area during the previous twenty-four hours and partly to heavy snowfall in the Kashmir Himalayas; and temperature was in large to very large defect over the greater part of the Punjab on Friday and Saturday. The highest maximum temperature recorded during the week was 116° which was reported from Jacobabad on Monday, Tuesday and Thursday.

Rain.—Most of the rainfall divisions have received rain during the past week, the largest amounts having been received in Assam, North Bengal and Coorg. The rainfall of the week has been in defect in Burma; but has been equal to, or in excess of, the normal in Assam, Deltaic, Central and North Bengal, the Bengal Hills, Chota Nagpur, North Bihar, the east submontane division of the North-Western Provinces, the Punjab Hills, the Submontane, North and West Punjab, the Baluchistan Hills, West Rajputana, Berar, the Central Provinces, the Bombay and Malabar Coast districts and Central Madras.

The largest amounts received at individual stations are as follow :

Assam	Sonamganj	5'98 inches.
	Hailakandi	6'20 „
	Cherra Poonjee	14'82 „
	Sibsagar	5'87 „
Malabar	Kasargad	5'99 „
Madras	Ootacamund	4'61 „
	Harpanahalli	4'68 „

The last three columns of the table at the end show that the rainfall of the period March 3rd to May 18th has been practically normal or in excess in Tenasserim, Deltaic Bengal, Orissa, Chota Nagpur, North Bihar, the east and east submontane divisions of the North-Western Provinces, the Punjab (except the south and south-east divisions), Gujarat, Sind, the Baluchistan Hills, the Bombay and Malabar Coast districts, the East Coast (North) and South and Central Madras.

W. A. BION,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. B. FULLER,

Offg. Secretary to the Government of India.

SIMLA, 23rd May, 1901.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the 18th May 1901.

Madras.—The rainfall was good in the Deccan districts except Cuddapah, in the Central districts except North Arcot and in the West Coast and Nilgiri districts, moderate in parts of Vizagapatam, South Arcot and North Arcot and light or *nil* elsewhere. Water-supplies are insufficient generally, except in Ganjam, Vizagapatam, South Arcot, Coimbatore, Tanjore, Tinnevely, Malabar and the Nilgiris. Ploughing, sowing and transplanting are in progress. Standing crops generally are in fair condition, but in parts of North Arcot they need more rain. Small harvests continue in parts with moderate yield. Fodder generally is available, but pasture is scarce, except in parts of Vizagapatam, the Southern, the West Coast and the Nilgiri districts. The condition of cattle generally is good. Prices generally are stationary or slightly easier, except for some rise in Coimbatore, Tinnevely and Travancore. Prospects generally are fair and have improved in several districts by recent rains. Numbers on relief—Cuddapah—weavers—men, 1,705; women, 1,346; total, 3,051. On test-works—Cuddapah—men, 912; women, 932; children, 103; total, 1,653: North Arcot—men, 71; women, 78; children, 12; total, 161.

Bombay.—Slight rain fell during the week in parts of the Upper Sindh Frontier, Thana, Kolaba, Ratnagiri, Khandesh, Ahmednagar, Sholapur and Bijapur districts. There was a good fall in parts of Goona, Satara, Belgaum, Dharwar and Kanara. Agricultural prospects are good in Sindh, fair to good in the Konkan, Surat, Khandesh and Satara and in parts of Poona and Broach and moderate to poor elsewhere. Spring crops have been slightly damaged by rains in parts of Thar and Parkar. Reaping of spring crops has been completed in almost all districts. Threshing is nearly over in Upper Sindh Frontier and is in progress in parts of Shikarpur and Broach. Cotton-picking has been completed in Kaira and is nearly over in Broach. Preparation of lands for next season generally is in progress. Autumn sowing has been commenced in parts of Poona, Satara, Belgaum, Dharwar, Ratnagiri and Kanara. The fodder-supply is sufficient, except in parts of Sholapur and Dharwar. Agricultural stock is in good condition, except in parts of Thar and Parkar and the Panch Mahals. The water-supply is becoming deficient in parts of Ahmednagar, Nasik and Dharwar. Prices have fallen in two districts, risen in five districts and are stationary elsewhere. The price of rice is about normal in Gujarat and slightly over normal in the Deccan, the Konkan and the Karnatak, but is easier than in 1900. The price of *bajri* is about normal in Gujarat, slightly over normal in the Konkan and considerably over normal in the Deccan and the Karnatak and, compared with 1900, easier in the Konkan and considerably easier elsewhere. The price of *juar* is below normal in Gujarat and considerably over normal in the Deccan, the Konkan and the Karnatak and, compared with 1900, is easier in the Konkan and the Karnatak and considerably easier in the Deccan and Gujarat. The price of wheat is over

normal in Gujarat and the Konkan and considerably over normal in the Deccan and the Karnatak and, compared with 1900, is about the same in the Konkan and easier elsewhere.

• Daily average numbers on relief—British districts—on test-works, 650; on relief-works, 246,476; dependants, 32,642; total on works, 279,768. In poor-houses, 5,250; on village relief, 68,229; total on gratuitous relief, 73,479. Figures for Ahmedabad, Nasik and Belgaum are incomplete. Native States—on relief-works, 25,330; dependants, 5,696; total on works, 39,026. In poor-houses, 1,281; on village relief, 1,155; total on gratuitous relief, 2,436. Figures for Rewa Kantha are incomplete. Grand total, 386,709.

Bengal.—The rainfall has been general and moderately heavy in several districts. The districts of Dinajpur, Bogra, Pabna, Chittagong, Bhagalpur and Malda are still in need of rain. The recent rain has generally benefited the standing crops and facilitated the work of ploughing which is being pushed on. The sowing of paddy and jute is still going on and the weeding of *aus* and jute has commenced in places. Sugarcane is doing well. Water is sufficient. Fodder is reported to be dear in Bankura. The condition of cattle generally is good. The price of common rice has risen in thirteen districts, fallen in nine and is stationary in the rest (twenty-four).

North-Western Provinces and Oudh.—Light and scattered showers of rain fell in half the provinces during the week, chiefly in the Himalayan, north, central, south, Oudh and Bundelkhand districts. Extra crops are in excellent condition and are being gathered in some localities. Irrigation of extra crops, sugarcane and indigo is in progress. Fields are being manured for the autumn sowings in places. Locusts appeared in Saharanpur, Muzaffarnagar, Meerut, Garhwal, Muttra, Basti and Hardoi, but caused slight damage in the first three districts only. Markets are amply stocked and fodder is sufficient. Prices are practically stationary.

Punjab.—Rain has fallen in Amballa, Jullundur, Ferozepore, Sialkot, Rawalpindi, Peshawar and Dera Ismail Khan. Harvesting of spring crops is still going on in Amballa, Jullundur, Ferozepore, Mooltan, Amritsar, Sialkot and Rawalpindi. Spring crops are being harvested in Dera Ismail Khan. Sowings of cotton, sugarcane and other autumn crops are going on in Mooltan and parts of Rawal Pindi. Sugarcane and cotton crops are being weeded in Jullundur. The condition and prospect of standing crops are reported to be good. The outturn is said to be much above the average in Ferozepore, average in Sialkot and Rawalpindi and good elsewhere. Sugarcane and cotton crops have been slightly benefited by recent rain in Sialkot. The water-supply is reported to be sufficient in the canal in Hissar. Locusts appeared in Mooltan, Amritsar, Shahpur, Rawal Pindi and Peshawar, but did no damage. They laid eggs in Shahpur and Rawal Pindi, and measures were taken for their destruction. Locusts are also being destroyed in the northern part of tahsil Dera Ismail Khan. Severe damage was done to standing crops by hail in Peshawar and parts of Dera Ismail Khan. The wheat crops lying on the threshing floors is also reported to have been damaged by rain in Sialkot. The sugarcane crop has been partially damaged by insects in Jullundur. Cattle are generally in good condition. Pasturage fodder is said to be sufficient in all districts, except in parts of Mooltan. The price of

wheat has risen in Mooltan, fallen in Hissar, Amballa, Amritsar, Rawal Pindi, Peshawar and Dera Ismail Khan and is unchanged elsewhere. The price of gram has risen in seven districts, fallen in two and is unchanged in the remaining four districts. The prices of other food-grains are also unsettled. Sialkot reports that prices are normal. Wheat is selling from 14 to 20 seers, barley 28 to 29, gram $16\frac{3}{4}$ to 24, maize 15 to 28, great millet 20 to 21 and bulrush-millet 15 to 25 seers per rupee.

Burma.—**LOWER BURMA:** Ploughing and sowing have been commenced in parts of Amherst. **UPPER BURMA:** Reaping of dry weather paddy is progressing, and threshing has been commenced in the Shwegu township of Bhamo. Cultivation on hill sides continues. Sowing in nurseries of early wet weather paddy has been begun in the Northern Shan States and transplanting is approaching completion in Kyaukse. Plucking of tobacco leaves continues in three districts and has been completed in one. Sowing of cotton is retarded for want of rain in Myingyan. Agricultural operations have been suspended in the Dayegaung township for want of water and owing to unsilting of the Sama canal, and about 1,200 acres of dry weather paddy have failed and other crops also are suffering for want of water in the Singaing township of Kyaukse. Rain has fallen in all districts, except Magwe. Crop prospects are unchanged. The price of paddy has slightly risen in three districts and fallen in one, while it has advanced considerably in Magwe.

Central Provinces.—The weather was slightly unsettled. Dust and thunder storms have given light rain in twelve districts. In Seoni and in the Chhattisgarh country the fall approximated to half an inch; elsewhere it was insignificant. Preparation of land for summer sowings is in full swing. Threshing of double-cropped rice is in progress in Chanda. Fodder and water generally are sufficient. Prices are generally steady with slight local fluctuations. The cheapest prices are—wheat, 15; gram, $16\frac{1}{3}$; rice, 14; and *juar*, 20 seers per rupee. The dearest prices are—wheat, $8\frac{3}{4}$; gram, $11\frac{2}{3}$; rice, 7; and *juar*, $13\frac{2}{3}$ seers per rupee. The numbers of persons on village relief and in poor-houses during the week were 559 and 210, respectively.

Assam.—Rain fell in all districts. More rain is still wanted in Cachar Kamrup and Nowgong. Pressing of sugarcane is finished in all districts, except Lakhimpur. The outturn is good in Lakhimpur and fair elsewhere. Plucking of tea is in progress. Prospects are fair in Cachar, Sylhet, Sibsagar and Lakhimpur and poor in other districts. Ploughing for and sowing of early and late rice and planting of sugarcane continue. Sowing of jute is finished. Prospects are good. Reaping of low-land transplanted rice is nearly finished in Sylhet. The outturn is poor. Water is scarce in parts of Darrang and Nowgong. Prices—common rice—Silchar, 12; Sylhet and Nowgong, 10; Gauhati, $10\frac{1}{2}$; Dhubri, Tezpur and Dibrugarh, 9; and Sibsagar, 11 seers per rupee.

Mysore.—The rainfall was three inches 29 cents in the Civil and Military station. The rainfall was good throughout. Standing crops are in good condition in Bangalore, Mysore, Kadur, Hassan and Shimoga. Sugarcane and paddy are being harvested in parts, and in other parts paddy and *rugi* are being sown. Ploughing and manuring operations are in progress in many

parts. Prospects are good in Mysore and Kadur and fair in Bangalore, Kolar, Chitaldrug and Hassan. Prices are steady in Chitaldrug, have risen in other districts and parts of Kadur and fallen in other parts of Kadur. Cattle are healthy. Water and fodder are available, except in parts of Hassan and Mysore and in a few parts of Shimoga and Tumkur, where scarcity of water is felt.

COORG : The rainfall amounted to 13 cents. Ploughing for rice continues. Sowing of *ragi* has been commenced. Prices of food-grains are normal. Water and fodder are sufficient.

Berar.—The weather was hot and occasionally cloudy. Ploughing of fields for ensuing crops continues. Fodder and water are sufficient. Prices are fluctuating.

Hyderabad.—The rainfall during the week amounted to fifteen cents. The total from first January is four inches eleven cents. Preparations for autumn sowings continue. Water is available in tanks and wells. The condition of cattle is satisfactory. Grain prices are fairly steady. Prices—wheat $5\frac{1}{2}$, coarse rice $7\frac{7}{8}$ and *juar* $14\frac{3}{4}$ seers per *halli* rupee. Total number of persons on relief—works, 11,370 ; gratuitously relieved, 2,543 ; total, 13,913.

Rajputana.—Rainfall in cents—Sujangarh of the Bikanir State 21, Tonk 6, Jaipur 2, Alwar 7, Ajmer-Merwara, average, 3. Good showers fell in parts of Kherwara. Land is being prepared for autumn crops. Standing crops are in good condition ; cattle are also in good condition. Fodder is ample. Prices show a tendency to rise generally. The cheapest prices range from 13 to $26\frac{1}{2}$ seers per rupee. Number on gratuitous relief, 223.

Central India.—Slight showers of rain fell in Bundelkhand and Bhopawar. Agricultural operations are in progress. Crops have been damaged in some places. In Malwa and Baghelkhand agricultural stock is in good condition and pasturage is sufficient in all agencies. The condition of opium is good in Malwa and operations have been completed in Indore. Prices are steady in Gwalior and Indore, high in Bhopal, normal in Bundelkhand, below average in Baghelkhand and rising in Malwa. Average prices—Gwalior 15-13 to 27-1, Bundelkhand 17-21 $\frac{1}{2}$, Malwa 13 $\frac{1}{2}$, Bhopawar 16 $\frac{1}{2}$, Indore 7 to 20. Numbers on relief-works—Jaora, 305 ; Alirajpur, 2,189 ; Jobat, 135 ; Jhabua, 1,923, Amjhera, 870 ; Kukhi, 228 ; total on gratuitous relief—Jaora, 62 ; total 5,712.

Baroda.—Agricultural stock is in fair condition. Prices—*bajri* 30, *juar* 36, wheat 24, rice, superior, 13, rice, inferior, 23 pounds per rupee. Numbers on relief works, 17,946 ; gratuitous relief, 7,703 ; total, 25,649.

Kashmir.—The weather was rainy, causing ordinary floods. The weather is bright now. Prices are normal ; rice selling for 4 seers the rupee. **JAMMU PROVINCE :** Slight rain fell during the week. Harvesting and threshing of spring crops are in progress. Fodder is sufficient. Prices are stationary ; wheat selling from $16\frac{1}{2}$ to 26 and maize 24 to 36 seers the rupee.

Nepal.—The rainfall was slight. The weather was stormy with rain and hail. Sowing of Indian-corn is finished. Wheat is still being harvested. The price of rice is $8\frac{3}{4}$ seers the rupee.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table :

Name of Province.	PRECEDING WEEK. (REVISED FIGURES.)			PRESENT WEEK.			Increase or decrease.

J. B. FULLER,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.
(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected District details of the Provincial totals published weekly in the Crop and Weather Summary of the *Gazette of India*.

Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns, from persons gratuitously relieved in poor-houses or at their homes. Weavers relieved in their own trade are shown under "Gratuitous relief."

The dates at the head of the table are the dates of the *Gazette of India* in which the Provincial totals were published. The figures, however, actually show the numbers on relief in each preceding week.

CUSTOMS.

Simla, the 16th May, 1901.

Read—

Customs Circular No. VII of 1901.

Ordered, that the circular be published for general information in the Supplement to the *Gazette of India*.

J. F. FINLAY,
Secretary to the Government of India.

Customs Circular No. VII of 1901.

From—The Secretary to the Government of India, Finance and Commerce Department, No. 2309-S. R., dated the 8th May 1901,

To—The Chief Secretary to the Government of Bombay, Revenue Department.

I am directed to acknowledge the receipt of your letter No. 1886, dated the 19th March 1901, referring for orders a question as to the liability to import duty of silver communion plate, with reference to an application from the Revd. * * * * * for the refund of the duty charged on a set of communion plate, his personal property and imported by him as part of his baggage.

* * * * *

3. The Governor General in Council is of opinion that communion plate, when imported by a clergyman as part of his personal baggage, may be classed under the category of instruments, apparatus and appliances in actual use by the importer in the exercise of his profession or calling, and should be passed free of duty under entry No. 48 of Schedule IV of the Indian Tariff Act, VIII of 1894.

* * * * *

No. 2721-S. R.

GOVERNMENT OF INDIA.

FINANCE AND COMMERCE DEPARTMENT.

STATISTICS AND COMMERCE.

CUSTOMS.

Simla, the 22nd May, 1901.

Read—

Customs Circular No. IX of 1901.

Ordered, that the circular be published for general information in the Supplement to the *Gazette of India*.

J. F. FINLAY,

Secretary to the Government of India.

Customs Circular No. IX of 1901.

From—The Secretary to the Government of India, Finance and Commerce Department,
No. 2380-S. R., dated the 6th May 1901,

To—The Secretary to the Government of Bengal, Financial Department.

In reply to your letter No. 1550-S. R., dated the 7th March 1901, I am directed to say that "Sirocco" and "Blackman's" fans may be classed as machinery and passed free of duty under entry No. 14 of schedule IV of the Indian Tariff Act (VIII of 1894), provided they are not specially adapted for use by animal or hand power.

GOVERNMENT OF INDIA. DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 23rd May 1901.

NOTIFICATIONS.

No. 1699 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 18th May 1901 :—

- No. 202 of 1901.—Casimir Wurster, chemist, of Dudley Mansions, 29 Abbey Road, St. Johns Wood, London, England. *An improved pulping and kneading machine.*
- No. 203 of 1901.—John Jarvis, solicitor's clerk, of 23 Campden Grove, Kensington, in the county of London, England. *Improved means applicable for use in carrying rifles and other articles on cycles.*
- No. 204 of 1901.—William Burgeland Johnson, engineer, of 51 Egerton Street, Liverpool, in the county of Lancaster, England. *Improvements in ventilators.*
- No. 205 of 1901.—William Chapman, electrical engineer, of 5 Norfolk Street, Strand, in the city of Westminster, England. *Improvements in or relating to track construction for electric railways operated on the conduit system.*
- No. 206 of 1901.—William Chapman, electrical engineer, of 5 Norfolk Street, Strand, in the city of Westminster, England. *Improvements in insulators.*
- No. 207 of 1901.—The Cosmopolitan Power Company, having its office at the Temple, city of Chicago, county of Cook, State of Illinois, U. S. A. *Improvements in the art of condensing steam or cooling fluids.*
- No. 208 of 1901.—Charles Cheers Wakefield, merchant, and Walter Grimes, commercial traveller, both of 27 Cannon Street, London, England. *Improvements in or relating to sight feed lubricators.*
- No. 209 of 1901.—Archibald White Maconochie, merchant, of the firm of Maconochie Bros., of 131 Leadenhall Street, in the city of London, England. *Improvements in the manufacture of tins or containers for enclosing preserved foods provisions or the like.*
- No. 210 of 1901.—Frank Lemont Dodgson, engineer, of Rochester, in the State of New York, U. S. A. *Improvements in pneumatic railway signalling.*
- No. 211 of 1901.—Herbert Samuel Reading, furniture dealer, Percy Archibald Reading, piano-forte tuner, and Owen Elcome Reading, manager of Paper Mills, all of 18 Albion Road, Tunbridge Wells, in the county of Kent, England. *Improvements in pianofortes.*

No. 1700 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 332 of 1900.—Charles Stuart Bivar, tea planter, at present of Seconee, Assam, in British India. *The instantaneous withering of leaf for the manufacture of tea, whether green or black, or for any other purpose for which such a system of withering may be suitable.* (Specification filed 13 May 1901.)

- No. 378 of 1900.—The British Westinghouse Electric and Manufacturing Company, Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in dynamo electric machines.* (Specification filed 10 May 1901.)
- No. 379 of 1900.—The British Westinghouse Electric and Manufacturing Company, Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in insulating supports for electrical conductors.* (Specification filed 10 May 1901.)
- No. 380 of 1900.—The British Westinghouse Electric and Manufacturing Company, Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in means for protecting electrical apparatus from abrupt changes in static potential.* (Specification filed 10 May 1901.)
- No. 381 of 1900.—The British Westinghouse Electric and Manufacturing Company, Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in means for protecting electrical apparatus from abrupt changes in static potential.* (Specification filed 10 May 1901.)
- No. 382 of 1900.—The British Westinghouse Electric and Manufacturing Company, Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in polyphase induction motors.* (Specification filed 10 May 1901.)
- No. 383 of 1900.—The British Westinghouse Electric and Manufacturing Company, Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements relating to the distribution of electric current.* (Specification filed 10 May 1901.)
- No. 408 of 1900.—John Darling, engineer, of Gallowflats, Rutherglen, in the county of Lanark, Scotland. *Improvements in and connected with the windows of railway carriages, cabs, omnibuses, ships, and such like.* (Specification filed 11 May 1901.)
- No. 418 of 1900.—Carl Jost, engineer, of 13 Hornby Row, Bombay. *An improved apparatus for pulling punkahs.* (Specification filed 13 May 1901.)
- No. 64 of 1901.—The International Metal Extraction Company, of Denver, county of Arapahoe, State of Colorado, U. S. A. *A method or process of treating ores.* (Specification filed 11 May 1901.)
- No. 68 of 1901.—The Muir Mills Co., Ltd., manufacturers, of Cawnpore, North-West Provinces. *Improvements in telescopic tent poles.* (Specification filed 11 May 1901.)
- No. 118 of 1901.—Thomas James Clarke Drewett, stereotyper, of 36 Trederwen Road, London, England. *Improved slong for stereomoulds.* (Specification filed 10 May 1901.)
- No. 124 of 1901.—Vincenz Macku, engineer, residing in Brünn, Neugasse 113, in the Empire of Austria-Hungary. *Improvements in wire healds for looms.* (Specification filed 11 May 1901.)

No. 1701 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

- No. 90 of 1892.—William Young Fleming, Peter Ferguson and George Dixon. *Improvements in motive power engines actuated by steam or other fluid pressure.* (From 18 July 1901 to 18 July 1902.)
- No. 64 of 1896.—Robert Allison Hall. *Improved means for stopping bottles and a tool for use therewith.* (From 22 May 1901 to 22 May 1902.)
- No. 74 of 1896.—Charles Hodgson. *A method of ensuring safety in the working of railway points and signals and apparatus for that purpose.* (From 2 June 1901 to 2 June 1902.)
- No. 168 of 1896.—The Economical Refrigerating Company. *Improvement in refrigerating apparatus.* (From 15th August 1901 to 15th August 1902.)
- No. 404 of 1896.—The Right Honourable Douglas Mackinnon Baillie Hamilton Cochrane, Earl of Dundonald. *An improvement in pocket stoves.* (From 21 May 1901 to 21 May 1902.)

No. 428 of 1896.—John Poyser. *Improvements in battens for weaving looms.* (From 21 May 1901 to 21 May 1902.)

No. 1702 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

No. 371 of 1895.—Shidramappa Ishwarappa Jamma and Shanker Baba Mandrupker. *A water lift.* (Specification filed 9 February 1897.)

No. 92 of 1896.—William Naylor. *An improved pulley, called "Naylor's patent challenge channel pulley."* (Specification filed 8 February 1897.)

No. 215 of 1896.—Tom Drewet, Junior, and Palonji Dadabhoy Chowma. *A gland to prevent any leakage of water from an inverted hydraulic cylinder on to the work beneath it.* (Specification filed 8 February 1897.)

No. 220 of 1896.—Arthur George Brown. *Improvements in and connected with moulds for casting metals.* (Specification filed 5 February 1897.)

No. 221 of 1896.—Alexander Karyschew and Sergei Demmenie. *A new pyrochemical process and apparatus for the direct production of iron and other metals from their ores.* (Specification filed 5 February 1897.)

No. 222 of 1896.—Arthur George Brown. *Improvements in cycles.* (Specification filed 5 February 1897.)

No. 223 of 1896.—Arthur George Brown. *Improved means for the production of metal castings.* (Specification filed 5 February 1897.)

No. 262 of 1896.—Nathan William Horatio Sharpe. *Improvements in apparatus for packing tea or such like substances.* (Specification filed 9 February 1897.)

No. 307 of 1896.—Pettibone, Mulliken and Company. *An improvement in gas generators.* (Specification filed 4 February 1897.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,
Secretary under the Inventions and
Designs Act, 1888.

Apply to the Registrar, Geological Survey of India, Calcutta.

YEARLY EXAMINATION OF CANDIDATES FOR FOURTH GRADE OF ACCOUNTANTS.

The yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 1st and 2nd July 1901, at 10-30 A.M. :—

Subjects.	Full marks.	Minimum pass marks.
Writing (neatness, clearness, and rapidity.)	100	50
Dictation (spelling, punctuation, etc.)	100	50
Arithmetic (the whole) . . .	240	160
Mensuration (a) the whole . .	60	30
Book-keeping (b) mercantile . .	100	50
TOTAL . . .	600	...

Minimum required in all papers collectively, 400.

- (a) Todhunter's Mensuration for Beginners.
(b) "Book-keeping," by Ball and Hamilton.
"Book-keeping," by double and single entry, by W. Inglis (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

- (1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

- (2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).
(3) Certificate that the application is in the candidate's handwriting.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the college or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

J. S. SLATER,
Principal, Civil Engineering College.

SIBPUR,
The 26th April, 1901.

with Curve Table). Rs. 3.
XIII. Drawing (by Lieut. R. Pulford, R.E.). † Rs. 6.
XIIIa. Drawing, First Principles of Geometrical (by
do.). Rs. 1-4.
XIV. Simple Applied Mechanics (3rd edition), Parts
I and II in one. Rs. 1-8.
Simple Applied Mechanics, Part II (1st edition)
8s.
XV. Examples of Estimating. Comprising a progres-
sive series of Estimates (with Plans of Buildings
and Bridges, worked in detail). By P. Keay, Esq.,
and revised by C. C. Sullivan, Esq., Head
Master (5th edition). Rs. 3-12.
XVI. Earthwork Estimating, with Practical Tables and
Diagrams. By Major A. M. Brandreth, R.E.
Rs. 1.
XVII. Specimens of Printing used in the College
Drawing Course and Entrance Examinations. 6s.

Note.—The complete Treatise forms the course of the Civil
Engineer and Upper Subordinate classes at the Thomason College
in Civil Engineering. The other Manuals are the complete
course for both Classes in the several subjects of which they
treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. 4s.
Scantlings of Timber for Roofs. Tables and investiga-
tion of formulae for determining size of timbers for Flat
Roofs from 8 to 22 feet span, and for Trussed Roofs
from 30 to 50 feet span (2nd edition). By P. Keay, Esq.,
Head Master. 12s.
Notes on Chemistry of Building Materials. Rs. 1-8.
Late's Mechanism. Rs. 1.
Barman's Descriptive Mineralogy. Rs. 2-4.
Useful Rules and Tables relating to Measurement of
Timber. Rules for computing the cubic contents of
Round Logs, as well as of Sawn Timbers, with Tables,
etc. By Rai Kunhya Lal. Rs. 2-8.
O'Callaghan's Earthwork Tables for India. In one large
sheet, 1224 mounted on cloth and bound. Rs. 1-12.
Tables for Computing Earthwork in Distributaries and
small open Channels, in use in Irrigation Department,
N.-W. Provinces. 12s.
Tyndall's Hand-Book of Specifications. (In the Press.)
The Indian Engineer's Pocket Book. Rs. 1.
Wooden Bridges and Designs. By Rai Kunhya Lal.
(In the Press.)
Blasting under Water (2nd edition). 10s.
Waugh's Instructions for Topographical Surveying.
Rs. 1.
Analysis of Lime and Cement Stones. By Murray
Thompson, Esq., M.D., F.R.S.E. 6s.
Chart, giving by a graphic method the discharges of
earthen channels up to 40 feet bed width, very useful for
Projects. Rs. 6.

SCIENCE BOOKS.

- Wilson's Inorganic Chemistry. Rs. 1-8.

MATHEMATICAL.

- Boileau's Tables of Wages and Rent, and of the value
of goods. Tables for converting Seers and Chit-
tacks into decimals of a Maund, and Annas and Pies
into decimals of a Rupee. With a few others of
general utility (4th edition). Rs. 1-8.
Boileau's Tables of Log sin† P for computing time (4th ed.).
Cape's Logarithms, with Tables of Squares, Cubes, etc.
Rs. 1-4.
Cape's Geometry. Rs. 1-4.
Cape's Mechanics. 8s.
Todhunter's Plane Trigonometry. Rs. 2-8.
Todhunter's Differential Calculus. Rs. 2-8.
Military Topography. 8s.

HINDUSTANI.

- Elements of Hindustani Grammar. 8s.
Technical Dialogues—English and Urdu. Rs. 1.
A Vocabulary of Common and Technical Words in
English-Urdu. 12s.
History of India (Iltis Timirnasat), Hindi, Parts I and
II. Both 6s.
Short Account of Ganges Canal (English and Urdu).
Each 4s.

NOTE AND FIELD-BOOKS, etc.

- Note Books (Section paper), large. Each Rs. 1-4.
Surveying Field Books (ruled). 14s.
Levelling Field Books (English-Pattern). Rs. 1-4.
" " " (Canal " "). Rs. 1-4.
" " " (College " "). Rs. 2-0.
P. W. D. Note-Book. Rs. 1-4.
" Measurement Book. Rs. 1-4.
Circular Card-board Protractors, 2 inches. 8s.

† Originally published at Rs. 15, reduced to Rs. 6.

MISCELLANEOUS.

- Distributary, Velocity and Discharge Table.** By Capt. Allan Cunningham. 8a.
- Description of Venomous Snakes.** (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") R1-8.

- " VII, " Nos. 26, 27, 28, and 29. } inclusive
- Extra No., April 1870.** } of postage.

(SECOND SERIES.)

- Quarterly Numbers of Vols. I, II, and IX of the series** 4a. each, inclusive of postage.
- Quarterly Number 41 A of Vol. X.** Each 8a.
- Cloth covers for Volumes of 1st and 2nd Series, at 8a. each.**
- Index to Professional Papers and loose Papers.** 1st and 2nd Series, at 2a. each.

FERROTYPE PRINTING.

- Chemicals and Lithographic Paper** for this process can be purchased from Thomason College Book Depot. Application to be made to the Curator.
- Apparatus for Printing** can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

* This does not contain the Entrance Examination papers of the Superior Accounts branch, Public Works Department.

† These include question papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts branch, Public Works Department.

‡ This does not contain the Entrance Examination Papers of the Upper Subordinate Class.

CIRCULARS.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants.

J. CLIBBORN, *Lieut.-Col., I.S.C.,*
Principal, Thomason Civil
Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series. The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.
For the Complete Series, including postage. R22-8

	Without postage.	With postage.
For the Calcutta Series	R 10 0 0	R 12 8 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately, inclusive of postage in India	...	2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
For the Calcutta Series; per copy	R 0 8 9	R 0 10 0
" each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 5 9
" the Calcutta Series. For the year	7 2 6	8 0 3
" each of the Madras, Bombay, and Allahabad Series. For the year	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.
Orders and subscriptions for 1893 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	Half page.	Quarter page.
For one issue	R 20	R 14	R 9
" three issues	55	36	24
" six "	100	68	45
" nine "	145	96	64
" twelve "	180	120	80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
Bengal Law Reports, for one year	R 20 0 0	R 22 8 0
Single copies, R2 per copy.		
Full Bench Rulings, Parts I and II	20 0 0	22 8 3

Bengal Secretariat Book Depot, Writers' Buildings, Calcutta. Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

PURE SULPHATE OF QUININE.*Manufactured at the Bengal Government Cinchona Plantation.*

From 1st April, 1900, the price of this Quinine will be as follows:—

1-pound tin, R17, or, post-free, R17-12.

½ " " R 8-8 " R9.

¼ " " R4-4 " R4-12.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta.

বঙ্গদেশের গবর্ণমেন্টের সিন্‌কোনা আবাদে প্রস্তুত
বিশুদ্ধ কুইনাইন।

১৯০০ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য
হইবে, যথা—

১ এক পৌণ্ড টিন ১৭ বা ডাকবাণ্ডল বিনা ১৭।১০

½ আবে " " ৮ ৯

¼ শিকি " " ৪।০ " ৪।১২

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে
প্রস্তুত করা হইয়াছে, এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনি-
ডাইন নামক অপকৃষ্ট কারের সহিত ইচ্ছা পূর্বক মিশ্রিত হয় না
তাহার গারাণ্টি দেওয়া বাইতেছে। ইহা বঙ্গদ মূল্যে কেবল পণ্য-
মেন্টের কর্মচারীগণের নিকট বিক্রয় করা বাইবে, এবং কলিকাতার
নিকট সিবপুরের বটানি বাগানের সুপারিন্টেন্ডেন্টের নিকট
পাইতে পারে।

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, MAY 25, 1901.

☛ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTES.

Stolen.

The Government Promissory Notes Nos. 026823 and 028151 of the 3 per cent. of 1896-97 and No. 024149 3½ per cent. 1854-55, aggregating ₹2,300 originally standing in the name of the Bank of Bengal and last endorsed to Ramani Mohan Basu, the pro-

prietor, by whom they were never endorsed to any other person. Payment of the above Notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favour of the proprietor.

Name of the Advertiser—

RAMANI MOHAN BASU,

Residence—121.1, Cornwallis Street, Calcutta.

SUPPLEMENT TO
The Gazette of India.

No. 21.}

CALCUTTA, SATURDAY, MAY 25, 1901.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

WM. ROSS,
Publisher, Gazette of India.

II A

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 31st May 1901.

NOTIFICATIONS.

No. 1772 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 25th May 1901 :—

- No. 212 of 1901.—The Cotton Seed Company, Limited, of 37 Old Jewry, London, England. *Improvements in or relating to the bleaching of oleaginous matter.*
- No. 213 of 1901.—The Cotton Seed Company, Limited, of 37 Old Jewry, London, England. *Improvements in or relating to apparatus for bagging or packing meal and the like.*
- No. 214 of 1901.—William Burgeland Johnson, engineer, of 4 Clayton Square, Liverpool, in the county of Lancaster, England. *Improvements in ventilators.*
- No. 215 of 1901.—John Gardner, engineer, of Knott End, Fleetwood, in the county of Lancaster, England. *Improvements in or relating to telegraphic transmitting instruments.*
- No. 216 of 1901.—Herbert Henry Frost, engineer, of the Manchester Water Meter Company, of Tipping Street, Ardwick, Manchester, in the county of Lancaster, England. *Improvements in liquid meters.*
- No. 217 of 1901.—Pedro Victor San Martin, chemist, of 253 Calle San Martin, Buenos Aires, Argentine Republic. *Improved process for tanning.*
- No. 218 of 1901.—Howard Darling Colman, manufacturer, of No. 320 North Street, Rockford, county of Winnebago, State of Illinois, U. S. A. *Improvements in knot-tying implements.*
- No. 219 of 1901.—Walter Grimes, commercial traveller, and Charles Cheers Wakefield, merchant, both of 27 Cannon Street, London, England. *Improvements in sight-feed lubricators.*
- No. 220 of 1901.—Isaiah L. Hauser, importer of India tea, resident of Chicago, Illinois, U. S. A. *A packing case or "knock down box" for shipping various kinds of goods.*
- No. 221 of 1901.—Franklin George Benson, engineer, of Cheltenham Street, Malvern, in the State of South Australia. *Improvements in sprayers for perfume antiseptics and the like.*

No. 1773 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 372 of 1900.—Rustomji Pestonji Hormasji Rana, merchant, residing at Khetwady 10th Lane, Main Road, Bombay. *Improvements in fibre extractors.* (Specification filed 20 May 1901.)

- No. 397 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited, manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in or relating to electric railways operated on the conduit system.* (Specification filed 18 May 1901.)
- No. 398 of 1900.—The British Westinghouse Electric and Manufacturing Company, Limited, manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in strap coils for electrical machines.* (Specification filed 18 May 1901.)
- No. 425 of 1900.—Birger Ljungstrom, engineer, of 18 Grefmagnigatan, Stockholm, in the kingdom of Sweden. *Improvements in or connected with balanced rotary steam engines.* (Specification filed 18 May 1901.)
- No. 428 of 1900.—Charles Daniel Horgan, mining engineer of Schlitz Hotel, Omaha, in the State of Nebraska, U. S. A., and John Harnan, gentleman, of Colorado Springs in the State of Colorado, U. S. A. *Improvements in car couplings.* (Specification filed 17 May 1901.)
- No. 442 of 1900.—Awdajee Radhujee Hadwale, cultivator, care of Allimahomed Fazulbhoy, merchant, 203 Khoja Moholla, Bombay. *Improvements in machines for treating aloe and other fibres.* (Specification filed 20 May 1901.)
- No. 463 of 1900.—William James Angus Morrow, engineer, of 48 Chowringhi Road in the town of Calcutta. *Improvements in the manufacture of brushes of various descriptions.* (Specification filed 2 May 1901.)
- No. 38 of 1901.—Augustine John Madden, metal worker of No. 187 Little Collins Street, Melbourne, in the colony of Victoria, Australia. *Improved automatically cleansing filter.* (Specification filed 18 May 1901.)
- No. 45 of 1901.—William Walker, manufacturer, and Joseph Thomas Freestone, chemist, both of African House, Water Street, Liverpool, in the county of Lancaster, England. *Improvements in metallic drums and cans for oil and similar substances.* (Specification filed 17 May 1901.)
- No. 56 of 1901.—A. Simon & Co., saddlers and boot and shoe makers, of Quetta, India. *A new and improved arrangement for fastening leggings or gaiters.* (Specification filed 16 May 1901.)
- No. 112 of 1901.—The Marconi's Wireless Telegraph Company, Limited, of 18 Finch Lane, Threadneedle Street, in the city of London, England. *Improvements in apparatus for wireless telegraphy.* (Specification filed 17 May 1901.)

No. 1774 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the period shown against each :—

- No. 59 of 1888.—The Cassel Gold Extracting Company, Limited. *Improvements in extracting gold and silver from ores or other compounds.* (From 12 July 1901 to 12 July 1902.)
- No. 147 of 1889.—George Westinghouse, Junior, and Frank Moore. *Improvements in driver's valves for controlling pneumatic brakes in railway trains.* (From 7 August 1901 to 7 August 1902.)

- No. 345 of 1896.—William Alfred Gibbs and Gilbert William Sutton. *Improvements in apparatus for drying tea and other substances.* (Specification filed 17 February 1897.)

No. 399 of 1896.—Robert Alfred Fraser. *An improved mechanism for opening or closing doors of railway carriages and for indicating to passengers the names of arrival stations.* (Specification filed 13 February 1897.)

Fee in respect of the continuance of an exclusive privilege—

4 (a) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs50 for each of the above inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicant are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 5th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,

Secretary under the Inventions and

Designs Act, 1888.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1900, the price of this Quinine will be as follows:—

1-pound tin,	R18, or, post-free, R18-12.
$\frac{1}{2}$ " "	R9, " R9-8.
$\frac{1}{4}$ " "	R4-8, " R5.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Secbore, near Calcutta.

বঙ্গদেশের গবর্ণমেন্টের সিনকোনা আবাদে প্রস্তুত
বিশুদ্ধ কুইনাইন।

১৯০০ সালের ১লা এপ্রেল হইতে এই কুইনাইনের বিক্রয়িত মূল্য
হইবে, যথা—

১ এক পৌণ্ড টিন	১৮ বা ডাকমাস্তুল বিনা ১৮-১২
১ আধ " "	৯ " ৯-৮
১ শিকি " "	৪-৮ " ৫

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে
প্রস্তুত করা হইয়াছে, এবং ইহা যে সিনকোনাইন ও সিনকোনি-
ডাইন নামক অপকৃত্ত কার্যকর সহিত ইচ্ছা পুষক মিশ্রণ হয় না
তাহার পরীক্ষা দেখিয়া বাইতেছে। ইহা মগদ মূল্যে কেবল গ-
বর্ণের কমচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকতার
নিকট শিবপুরের কোম্পানি বাগানের সুপারিন্টেন্ডেন্টের নিকট
পাইতে পারে।

MUNICIPAL OFFICE.

NOTIFICATION.

Bangalore, the 2nd April, 1901.

No. 35.—In exercise of the powers conferred under section 102 (d) and (e) of the Bangalore Municipal Law, 1897, the Municipal Commission for the Civil and Military Station of Bangalore have made the following amendment to the bye-law regarding control of places for sale of articles of food and drink published in this office Notification No. 670, dated the 2nd May, 1899, and the same having been confirmed by the Honourable the Resident in Mysore as required by section 139, it is hereby notified for public information under section 180 (3) of the said law :—

For—

Section 15. No coolies shall be allowed into the markets unless in the service of stallholders, or brought in by intending purchasers, nor shall any vagrants or beggars be allowed.

Substitute—

15. No person shall enter or loiter in any public market for the purpose of begging.

15A. With the exceptions specified in section 15D of this bye-law, no person shall work for hire as bazaar cooly within the limits of the following public markets who is not duly licensed for this purpose by the President or an officer authorized by him in this behalf :—

General Market . . .	New Market Road.
Beef and Poultry Markets . . .	Broadway Road.
Fish Market . . .	Broadway Road.
Fish Market . . .	New Market Road.
Vegetable Market . . .	New Market Road.

25B. A register of licensed coolies shall be affixed in a conspicuous position in each of the markets showing their name, number, address, age, sex, and marks of identification.

15C. A licensed cooly shall wear on his left arm a brass or tin ticket, which will be supplied

to him with a license on payment of an annual fee of four annas.

15D. These rules shall not apply to private servants employed by persons frequenting the markets to carry purchases made by them.

L. T. HARRIS,

President, Municipal Commission, Civil and Military Station, Bangalore.

GEOLOGICAL SURVEY OF INDIA.

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered.

N.B.—The Revised prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal 8vo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required :—

VOLUME I. *

Section	I. Building Materials (1898), Rs 2-0.
"	II. Masonry (1898), Rs 1-4.
"	III. Carpentry (1898), Rs 1-8.
"	IV. Earthwork (1892), Rs 1-4.
"	V. Tools and Plant (never published).

VOLUME II. *

Section	VI. Buildings (1899), Rs 1-4.
"	VII. Bridges (1897), Rs 4-4.
"	VIII. Roads (1897), Rs 1-8.
"	IX. Railways (1891), Rs 1-4.
"	X. Irrigation Works. (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol	I. Direct and Transverse Strain, principally by Analytical Methods. Rs 7.
"	II. The Stability of Structures, mostly by Graphic Methods. (In the Press.)

* Date of Edition on sale.

MANUALS.

- VII. Surveying (by Major Firebrace, R.E.) (7th edition with Curve Table). Rs 3.
XIII. Drawing (by Lieut. R. Pulford, R.E.). † Rs 6.
XIIIa. Drawing, First Principles of Geometrical (by do.). Rs 4.
XIV. Simple Applied Mechanics (3rd edition), Parts I and II in one. Rs 1-8.
Simple Applied Mechanics, Part II (1st edition) 8s.
XV. Examples of Estimating. Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). Rs 3-12.
XVI. Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. Rs 1.
XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6s.

Note.—The complete Treatise forms the course of the Civil Engineer and Upper Subordinate classes at the Thomason College in Civil Engineering. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. 4s.
Scantlings of Timber for Roofs. Tables and investigation of formulae for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 36 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. 12s.
Notes on Chemistry of Building Materials. Rs 1-8.
Gate's Mechanism. Rs 1.
Darman's Descriptive Mineralogy. Rs 2-4.
Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Kai Kunhya Lal. Rs 2-8.
O'Callaghan's Earthwork Tables for India. In one large sheet, 12s.; mounted on cloth and bound. Rs 1-12.
Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. 12s.
Tyndall's Hand-Book of Specifications. (In the Press.)
The Indian Engineer's Pocket Book. Rs 1.
Wooden Bridges and Designs. By Kai Kunhya Lal. (In the Press.)
Blasting under Water (2nd edition). 10s.
Waugh's Instructions for Topographical Surveying. Rs 1.
Analysis of Lime and Cement Stones. By Murray Thompson, Esq., M.D., F.R.S.E. 6s.
Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width, very useful for Projects. Rs 1-0.

SCIENCE BOOKS.

Wilson's Inorganic Chemistry. Rs 1-8.

MATHEMATICAL.

- Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pies into decimals of a Rupee. With a few others of general utility (4th edition). Rs 1-8.
Boileau's Tables of Log sin² & P (for computing time) 4s.
Cape's Logarithms, with Tables of Squares, Cubes, etc. Rs 4.
Cape's Geometry. Rs 1-4.
Cape's Mechanics. 8s.
Todhunter's Plane Trigonometry. Rs 2-8.
Todhunter's Differential Calculus. Rs 2-8.
Military Topography. 8s.

HINDUSTANI.

- Elements of Hindustani Grammar. 8s.
Technical Dialogues—English and Urdu. Rs 1.
A Vocabulary of Common and Technical Words in English-Urdu. 12s.
History of India (Lithas Timirnasah), Hindi, Parts I and II. Both 6s.
Short Account of Ganges Canal (English and Urdu). Each 4s.

NOTE AND FIELD-BOOKS, etc.

- Note Books (Section paper), large. Each Rs 1-4.
Surveying Field Books (ruled). 14s.
Levelling Field Books (English Pattern). Rs 1-4.
" " " (Canal " "). Rs 1-4.
" " " (College " "). Rs 2-0.
P. W. D. Note-Book. Rs 1-4.
" Measurement Book. Rs 1-4.
Circular Card-board Protractors, 2 inches. Rs 2.

† Originally published at Rs 15, reduced to Rs 6.

MISCELLANEOUS.

- Distributary, Velocity and Discharge Table.** By Capt. Allan Cunningham. 8a.
- Description of Venomous Snakes.** (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") R1-8.
- Ditto ditto in Urdu. R1-4.
- Perspective** (fully explained). By Col. A. M. Brandreth. R.E. R1-12.
- Thomason College Calendars** for 1892,* 1895,† 1896† and 1897.† Each R2.
- Ditto ditto for 1898† and 1899.† Pt. I. R3-0.
- Forms of Accounts, P. W. D., for Sub-Divisional Officers,** in English (very old). 4a.
- Memo. of Instructions for Road Project.** R1.
- Project for College Mess** (sample Project). 8a.
- Ferotype Printing Processes.** 8a.
- Thomason College Library Catalogue.** R1-12.
- Ditto, Supplement, 1895 to 1899. Each 2a.
- Irrigation by Rajbahas.**
- Irrigation Tract, No. I.** } 4a. each.
- " " " II. } 4a. each.
- " " " III. } 4a. each.
- Land Measuring Chain Statement.** Area of kucha and pukka Highas, sheet. 4a.
- Report of the Ganges Canal Committee** (Major Crofton's Project for remodelling the Ganges Canal according to the view of Major-General Sir Arthur Cotton, R.E., K.C.S.I.), 1866. 8a.
- Report of the Ganges Canal.** By Captain J. Crofton, R.E., with Estimates and Plan—
- Vol. I, Report, 1865. R1.
- Vol. II, Estimates. 12a.
- Shakesperian Readings, viz.:**—
1. Taming of the Shrew.
2. Othello.
3. Macbeth.
4. Comedy of Errors.
5. Merchant of Venice.
- } Each 3a.
- Annual examination papers set for the years 1867 to 1870, each 8a.**

PLANS OF STATIONS.

- Lithographed Plans of the Cantonments and Regimental Lines** in the different Military Stations of India. Drawn to a uniform scale and prepared between 1864 and 1868 for the Government of India, P. W. Department. (Useful for Executive Engineers' and Superintending Engineers' Offices.)
- Bengal, 51 Plans.
- Madras, 99 Plans.
- Bombay, 91 Plans.
- N.-W. Provinces, 104 Plans.
- Oudh, 21 Plans.
- Rajputana, 4 Plans.
- British Burma, 19 Plans.
- Central Provinces.
- } Whole lot R2 each.
- A set of Professional papers both loose and quarterly numbers inclusive of Railway freight R10.** This is not quite complete.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

- Vol. I.** (Quarterly, Nos. 1 to 5), bound R1-8.
- Quarterly, Nos. 1, 2, 3, 4, and 5.** } 4a. each,
- Vol. II, Quarterly, Nos. 6 and 7.** } inclusive
- " VI, " No. 25. } of post-
- " VII, " Nos. 26, 27, 28, and 29. } age.
- Extra No., April 1870.**

(SECOND SERIES.)

- Quarterly Numbers of Vols. I, II, and IX of the series** 4a. each, inclusive of postage.
- Quarterly Number 41 A of Vol. X.** Each 8a.
- Cloth covers for Volumes of 1st and 2nd Series, at 8a. each.**
- Index to Professional Papers and loose Papers.** 1st and 2nd Series, at 2a. each.

FERROTYPE PRINTING.

- Chemicals and Lithographic Paper** for this process can be purchased from Thomason College Book Depot. Application to be made to the Curator.
- Apparatus for Printing** can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

* This does not contain the Entrance Examination papers of the Superior Accounts Branch, Public Works Department.

† These include question papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

‡ This does not contain the Entrance Examination Papers of the Upper Subordinate Class.

CIRCULARS.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants.

J. CLIBBORN, Lieut.-Col., I.S.C.,
Principal, Thomason Civil
Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series. The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the Complete Series, including postage. R22-8

	Without postage.	With postage.
For the Calcutta Series	R 10 0 0	R 12 8 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately, inclusive of postage in India	2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
For the Calcutta Series; per copy	R 0 8 9	R 0 10 0
" each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 5 9
" the Calcutta Series. For the year	7 2 0	8 0 3
" each of the Madras, Bombay, and Allahabad Series. For the year	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.
Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	Half page.	Quarter page.
For one issue	R 20	R 14	R 9
" three issues	55	36	24
" six "	100	68	45
" nine "	145	96	64
" twelve "	180	120	80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
Bengal Law Reports, for one year	R 20 0 0	R 22 8 0
Single copies, R2 per copy.		
Full Bench Rulings, Parts I and II	20 0 0	22 8 3

Bengal Secretariat Book Depot, Writers' Buildings, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

METEOROLOGICAL PUBLICATIONS FOR SALE.

At the Meteorological Office, India, Alipore, Calcutta, at the prices specified below :—

Rainfall Map of India in two sheets, scale 64 miles to one inch, showing the annual distribution of rainfall in India (in colours). R3.

Instructions to Observers of the India Meteorological Department, in which are described in detail the various Meteorological instruments in use at the Meteorological observatories, with full instructions how to read them, etc. Demy, 103 pages. R3.

Tables for the Reduction of Meteorological Observations in India. This book contains tables for reducing barometric observations taken at different heights, and for calculating humidity and vapour tension, etc., etc. R2.

Barometer, Wind and Current Charts of the Bay of Bengal and adjacent sea, north of the equator. R5.

Charts of the Bay of Bengal and adjacent sea, north of the equator, showing the specific gravity, temperature and currents of the sea surface. R1-8.

Barometer, Wind and Current Charts of the Arabian Sea and the adjacent portion of the North Indian Ocean. R5.

Monthly Weather Review of India, giving a summary of the chief features of the weather in India and containing discussions on atmospheric pressure, barometric depressions, temperature of the air, winds, rainfall, etc. It also contains all available information about snowfall in the mountain districts to the north and north-west of India, and an abstract of observations taken at about 200 observatories in India. Published *monthly*. R1 per month or R12 per annum. Postage 1s. 6d. for each copy outside Calcutta.

Indian Daily Weather Report and Chart, containing observations recorded at 8 A.M. at 147 observatories, with a Chart showing the distribution of atmospheric pressure and rainfall all over India, and a brief summary of the chief features of the weather of the day. Issued *daily* from the Simla Meteorological Office. Monthly subscription R2, and postage annas 3.

JOHN ELIOT,

*Meteorological Reporter to the Govt. of India
and Director General of Indian Observations*

List of Books for sale at the Library of the Asiatic Society of Bengal, No. 57, Park Street, Calcutta, and obtainable from the Society's Agents, Messrs. Luzac & Co., 46, Great Russell Street, London, W. C., and Mr. Otto Harrassowitz, Bookseller, Leipzig, Germany.

Complete copies of those works marked with an asterisk* cannot be supplied—some of the Fasciculi being out of stock.

The 6th June, 1901.

No. 243.—The Reverend W. K. Firminger, a Chaplain on probation, is appointed a Junior Chaplain on the Bengal (Calcutta) Ecclesiastical Establishment, with effect from the 24th May 1901.

The 7th June, 1901.

No. 247.—The following revised subsidiary rules for the erection, repair and endowment of monuments in Government cemeteries throughout India, except in the Madras Presidency, are published for general information and guidance :

Subsidiary rules for the erection, repair and endowment of monuments in Government Cemeteries.

APPLICATION FOR ERECTION OF A MONUMENT.

I.—A person desiring to erect a monument should submit his application in the Form A (annexed), with a dimensionized drawing of the monument drawn to scale and a detailed estimate, to the Chaplain or other officer in charge of the Cemetery.

II.—The Chaplain or other officer in charge will (unless the monument is a single stone monument as defined in the margin) send on the application, with the drawing and estimates, with a forwarding letter (Form B annexed) to the Executive Engineer in charge of the Cemetery. The Executive Engineer will fill in column 7 and examine and countersign the drawing and the estimate, and return the application, with the drawing and the estimate, to the Chaplain.

A single stone monument is a monument consisting of a plain cross, head stone, or slab over a masonry foundation, 3' x 2', the total height not exceeding 3 feet in the case of masonry graves and 3 feet 6 inches in the case of non-masonry graves.

The repair of fragile or costly work liable to receive damage cannot be undertaken by Government, and should not be taken into consideration in the estimate of column 7 (d).

III.—On return of the application by the Executive Engineer the Chaplain will see that the application in Form A is correctly filled in, sign the memorandum at the foot of the form and forward it with the enclosures to the Archdeacon. If the deceased belonged to some other denomination than that of the Church of England, the Chaplain shall obtain a certificate of approval of the design from the Minister of the denomination to which the deceased belonged and forward it with the application to the Archdeacon.

Note.—It is not compulsory for endowment to be made in any cases of monuments erected to their deceased comrades by British soldiers or non-commissioned officers.

IV.—The Archdeacon will permit the monument to be erected or refuse to do so. If permission is given, the Chaplain will advise the applicant of the sanction in Form D (annexed) and instruct him to pay the amount of the endowment calculated as in Rule VI to the Executive Engineer, who will grant the applicant a receipt in Form C (annexed).

V.—The Chaplain must inform the Executive Engineer in Form D (annexed) as soon as the monument is ready for erection, and the latter will see that it is set up in accordance with the drawing and the estimate sanctioned and

will enter the monument upon his list for repairs by the Public Works Department. The Chaplain will, in communication with the Executive Engineer, send in April every year to the Archdeacon a list of the monuments erected and endowed during the year ending March 31st, together with the amounts of the endowment fees.

AMOUNT OF ENDOWMENT.

VI.—An endowment fee of Rs. 15 will be charged when a person wishes to endow a single stone monument. The payment will not be compulsory.

Other monuments shall be divided into two classes—

- (1) plain and solid monuments, which are likely to require only occasional repair; and
- (2) elaborate monuments and other monuments which are likely to require special attention or frequent repair.

An endowment fee of Rs. 30 shall be charged for monuments of the first of these classes, and of Rs. 75 for monuments of the second class. The classification will rest with the Executive Engineer, but any person objecting to his decision may appeal to the Superintending Engineer. With the sanction of the Superintending Engineer a higher fee may be charged in cases where fees on the classified scale are clearly insufficient.

Note.—In the case of a child's monument these fees may be reduced to Rs. 25 and Rs. 50, provided that the monument does not exceed 5 x 3.

No addition to an existing monument in a Government Cemetery will be allowed beyond mere lettering on existing slabs, head-stones, or crosses, unless the whole monument is endowed.

VII.—The endowment is intended to cover the expense of ordinary annual maintenance, re-lettering, and repairs, but not the risk of accidents due to floods or earthquakes or other extraordinary causes. It is open to any person to provide for extraordinary repairs by making a special endowment in addition to the ordinary endowment fixed by the Executive or Superintending Engineer under Rule VI. This special endowment must, however, be limited to the amount necessary to cover such work as the Government officers can undertake to execute.

VIII.—When an endowment is paid to the Executive Engineer in accordance with Rules IV and VI, the amount must be entered in the Divisional Cash Book as a deposit received and paid into treasury with a Remittance Note in Form G (annexed) for credit to Civil Department. The Executive Engineer will forward the Treasury Officer's receipt with his monthly accounts to the Examiner of Accounts in support of the debit to "Deposits," a note to the effect that this has been done being entered in red ink across the block foil of the Remittance Note.

The Examiner will from these receipts maintain a Register in Form H (annexed) showing the endowments for each Cemetery in his Province. The Civil Account Officer will credit to a head Cemetery Endowment Fund under the major head Savings Bank Deposits—Bank Accounts all sums received on account of these endowments, but will show no details regarding the Cemeteries.

After the amount has been paid into the treasury the Executive Engineer will enter it in the Register of Endowments Form E (annexed) (Part I).

IX.—The Executive Engineer shall maintain an account of all ordinary and special endowments in Form E (annexed) (Part II). A separate ledger account shall be opened in Form E (annexed) (Part III) for each monument for which a special endowment exceeding Rs. 25 has been made under Rule VII.

[Note.—The provision as to separate accounts should be applied as far as possible to endowments made prior to the issue of these rules.]

X.—The interest calculated under Rule XI on the deposit shall be used in meeting the expenditure for the repair of those monuments for whose preservation deposits have been made. In no circumstances should the capital sum be applied to meet such expenditure, nor should the interest be separate for each monument. The interest accruing on the deposits shall form a common fund to be used exclusively for the repairs of all endowed tombs: provided that the interest on deposits for which separate accounts are opened under Rule IX shall be used exclusively for the particular monument on account of which the deposit is made.

If a monument becomes so damaged as not to admit of repair, the Chaplain shall communicate with the friends of the deceased, or when such communication is not possible, advertise three times in the *Gazette of India* and the *Gazette of the Province*; and if no person will undertake to restore it, the monument shall be treated at the next repairs in such manner as the Chaplain may decide to be necessary for the maintenance of the Cemetery in decent order: provided always that any inscribed slab or tablet which formed part of it shall be placed over the grave in simple masonry or be inserted in the wall of the Cemetery and shall be carefully preserved.

XI.—Joint estimates shall be framed in October of each year by the Executive Engineer and the Chaplain, or other officer in charge of the Cemetery, of the cost of repairs of endowed tombs, during the following official year, and the aggregate of the sums so estimated shall not exceed the estimated interest at 5½ per cent. per annum on the capital sum deposited up to the 31st March preceding. The Executive Engineer should budget annually for the grant required; such grant would be entered in a lump sum under the head "Civil Works" without any distinction between ordinary and special endowments.

XII.—The Civil Account Officer of each Province will in his final accounts for March debit to 14—Interest, by credit to the Public Works Department the interest at 5½ per cent. calculated on the amount standing at credit of the deposit head on 31st March. On receipt of the credit the Examiner of Public Works Accounts will distribute the amounts between the Cemeteries of the Province and advise the Executive Engineer concerned of the amounts so credited. On receipt of such intimation the Executive Engineer will credit the amount in his divisional accounts as Public Works Revenue under the head "Interest on Endowments for Repairs of Monuments" and then fill in the interest column in Form E (Part II).

ENDOWMENT OF EXISTING MONUMENTS.

XIII.—When application is made for the endowment of an existing monument the above procedure should be followed as far as applicable. The application in Form A must be submitted to the Chaplain or other officer in charge, and forwarded by him to the Executive Engineer. The latter, besides framing an estimate of annual repairs, must estimate the cost of placing the monument upon a suitable foundation, if he is satisfied that such a foundation does not exist. The application should be sent to the Archdeacon, and with his consent the monument will be brought on to the books of the Public Works Department. The cost of the foundation should be paid over to the Executive Engineer, who will carry out the work without delay.

XIV.—In order that the Local Government or Administration may know that the tombs are kept in proper repair, an Annual Report in Form F (annexed) should be forwarded as soon as possible after the close of the accounts for a financial year, by the Executive Engineer with respect to their condition, for each Cemetery, to the Examiner of Public Works Accounts, who will consolidate the returns so received and render a general return to the Local Government or Administration. The account will merely show the totals for each Cemetery as taken from the Executive Engineer's accounts.

The reports sent to the Examiner should contain remarks, both by the Chaplain and Executive Engineer, as to the state of the tombs for which endowments have been made.

Note.—The foregoing rules are applicable to Cenotaphs erected in Church compounds, but the previous consent of the Local Government to the construction of a Cenotaph is in every case necessary.

Form A.

Application to erect a monument in the Government Cemetery at _____

(Referred to in Rules I, III and XIII.)

1. Name and address of the applicant.
2. Name of the deceased.
3. Denomination to which he belonged.
4. Plot-line and number of the grave.
5. Whether the existing grave is a masonry grave or not.
 - (a) In the case of a masonry grave give a dimensioned drawing of its cross-section (showing thickness and height of walls, maximum width between walls, and thickness of the arch) and state its length of inside walls and the nature of the materials used in its construction.
 - (b) In the case of a non-masonry grave, state the depth of the grave.
And the depth from the ground level to which it is intended to dig to provide the necessary foundation.
6. Dimensions of the proposed monument—
 - (a) Length, breadth, height from the ground level.
 - (b) Kind of stone used in each part.
 - (c) Whether the letters of the inscription are to be leaded, painted or merely cut.
 - (d) Proposed cost (in words).
 - (e) Proposed inscription.
 - (f) Name of the maker of the monument.

T. HIGHAM,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Memorandum on the snowfall in the mountain districts bordering Northern India and the abnormal features of the weather in India during the past year, with a forecast of the probable character of the south-west monsoon rains of 1901.

1. *It may be noted here that the greater part of this long memorandum, more exactly the portions which give statements of the snowfall in the mountain as to the north and north-west of India, summaries of the meteorological conditions in India during the past eighteen months, and all the available information of the meteorology of South Africa and other areas (indicative of the strength and character of the south-east trades) is chiefly intended for reference in the preparation of future forecasts and in any future investigations into the relation between the meteorology of India and the Oceanic area to the south.*

The summary of the snowfall information will be found in pages 1162 to 1164, the summary of the chief features of the meteorology of India during the past winter months in pages 1177 and 1178, the information relating to the Indian Ocean and South Africa in pages 1180 to 1185, and the forecast based on the whole of the available information in pages 1186 to 1190.

2. The present memorandum is drawn up in accordance with the practice of the past seventeen years, and includes, firstly, a brief summary of the information received from various officers relating to the snowfall of the past winter or cold weather in the Afghan mountains and the Himalayan area; secondly, a statement of the chief peculiarities or abnormal features of the meteorology of India during the past year; and, thirdly, a forecast of the probable character of the approaching south-west monsoon rains based on this information.

3. The forecast is based in part on the snowfall information and on the abnormal features of the weather during the past five months, and in part on a comparison with the meteorology of the previous twenty-four years, so far as it is available. It is necessary to point out that the forecast is a statement of probabilities and not of certainties, and that it is liable to error from the limitation and uncertainty of part of the data on which it is based. It has been drawn up after a consideration of all the available information, but it should, to use the words of the Famine Commission Report, "be used with due caution."

4. The monsoon forecasts, as at present issued, necessarily leave out of consideration two important points on which the agricultural value of the monsoon rainfall largely depends, viz.:

- (1) the probability of the occurrence of a prolonged break in the rains in July or August;
- (2) the probability of the unusually early termination of the rains in North-Western and Central India or in Bengal;

and are hence imperfect every year to that extent.

5. The chief features or conditions which influence and determine the extension and general strength of the south-west monsoon currents are as follows:

- 1st.—The amount and time of occurrence of the cold weather snowfall in the mountain districts adjacent to Northern India.
- 2nd.—The local peculiarities of the weather in India immediately antecedent to the advance of the monsoon currents across the coasts of Bombay and Bengal into the interior, and which, it is found, are generally initiated during the hot weather, and are frequently more or less persistent in character. These abnormal features are, on the whole, best estimated by means of the variations of pressure from the normal.
- 3rd.—Local peculiarities in the Bay of Bengal and Arabian Sea, over which the monsoon currents pass before they reach India, and

probably also the Indian Ocean, which is the source of the massive current of the south-west monsoon in India.

The first of these conditions or factors is mainly influential in determining the northern limits of the monsoon rains, heavy and prolonged snowfall in the Western Himalayan area either preventing or delaying the extension of the monsoon current over Upper India during the rainy season. Heavy and untimely snowfall in April and May especially exercises a very powerful influence in this way.

The second factor determines those large local district or provincial variations of rainfall during the monsoon, which are evidently due to persistent local conditions or peculiarities, and not to general causes influencing the whole of India more or less.

The third and last factor is at least of equal importance with the preceding two, but it is that on which information is most difficult to obtain and is least in amount and longest in being received. In fact, information respecting the weather conditions in the Arabian Sea Bay of Bengal or the Indian Ocean has hitherto been rarely received in time to be utilized in drawing up the annual forecasts. Special arrangements have been made to obtain telegraphic information from Zanzibar, Mauritius and the Seychelles in the hope that it might throw some light upon the conditions at present prevailing in the south-east trades region in the Indian Ocean.

6. A statement was given in last year's forecast of the bearing and influence of the meteorology of the Indian Ocean on the distribution of the monsoon rainfall in India. It appears to be desirable to repeat the following portion of that note :

" The rainfall of the period June to September or October in Abyssinia, the South Arabian highlands and Northern India is due to a common source. The whole area is intensely heated in May, but practically no rain falls in any part of these areas in that month. The solar action in India and the neighbouring land areas gives rise to meteorological changes which prepare for the advance of the monsoon currents, but which do not primarily and directly give rise to the advance.

" Before the advance occurs light unsteady winds prevail in May in the Arabian Sea. The advance commences in the neighbourhood of the Equator and is due to actions chiefly over the Indian Ocean, the result of which is that the current of the south-east trades is impelled across the Equator and thence northwards over the Indian Seas, and towards the heated regions in East Africa, South Arabia, India and the Malay Peninsula. The advance of the current is accompanied by heavy squalls with much rain and when fully accomplished gives strong steady humid winds for some months in the Indian Seas. These humid winds are determined to the regions named above and give frequent heavy rain, the distribution of which depends upon a variety of causes, but which is greatest in the coast and hill districts, more especially the Abyssinian highlands, the Himalayan mountain districts, the West Ghats and the Arakan and Tenasserim hill ranges and the coast districts of Burma, Bengal and Bombay.

" It is evident from a consideration of these facts and theoretical views there may be variations in the amount and distribution of the rainfall due to various causes. They might, for example, be due to variations from year to year in the strength of the south-east trades and their continuation the south-west monsoon currents in the Indian Seas. If the south-east trades were weak, but determined normally across the Equator, the monsoon currents in the Indian Seas and neighbouring land areas would be much feebler than usual, and there would hence be a general deficiency, varying in amount in different parts. There might also be a general deficiency due to an abnormal and prolonged set of the south-east trades to South Africa and hence to a smaller flow across the Equator from the south-east trades region than usual.

" On the other hand, the south-east trades and south-west monsoon currents might be of normal strength or stronger than usual, yet, as the result of conditions established during the preceding hot weather, the current might be determined

more largely than usual to a part of the area to the detriment of the remaining areas. There might hence be more unequal distribution of the monsoon rainfall than usual, although the average for the whole area might be normal or in excess.

"It is almost self-evident that the former cause (weakness of the south-east trades) would give rise to the largest and most general deficiency, whilst the latter (unequal distribution due to local conditions) would be far more frequent and would give rise to local deficiency and excess and hence to droughts of moderate extent and intensity."

7. As there seems to be some misconception as to the importance of the Himalayan snowfall and the extent of its influence on the monsoon currents and the distribution of the south-west monsoon rainfall in India, it appears to be desirable to state the theory in the form it has been employed by the Meteorological Department for many years. The theory was stated by the late Mr. Blanford in a paper entitled "On the connection of the Himalayan snowfall with dry winds and seasons of drought in India" read before the Royal Society in 1884.

The most important of the conclusions of this paper embodying the chief points of the theory are as follows :

- 1st.—The experience of recent years affords many instances of an unusually heavy and especially a late fall of snow on the North-Western Himalaya being followed by a prolonged period of drought on the plains of North-Western and Western India.
- 2nd.—The conclusion is that an unusual expanse of snow on the North-West Himalaya, whether due to the unmelted residue of an unusually copious winter snowfall or to an unusually late fall in the spring months, acts at high levels in the summer months, in somewhat the same way as the ordinary falls of snow and rain on the lower Himalaya do at low levels in the winter season and favours the production of dry north-west winds on the plains of Western India.
- 3rd.—That this dependence of dry winds on the Himalayan snowfall affords a criterion for forecasting the probabilities of drought in North-Western and Western India.

The theory asserts that the distribution and character of the snowfall in the Western Himalayas is one factor (of several) determining the distribution of rainfall in the south-west monsoon. It states that excessive and late or untimely winter snowfall tends to give rise to conditions which divert the monsoon currents from North-Western India and hence give diminished and perhaps scanty rainfall and drought. It does not assert that scanty winter rainfall is necessarily followed by good south-west monsoon rains in Upper India, as they depend upon other factors, more especially the general strength of the monsoon current which is mainly determined by the strength and steadiness of the south-east trades air movement.

REPORTS OF SNOWFALL ON THE AFGHAN MOUNTAINS AND HIMALAYAS DURING THE WINTER OF 1900-01.

The whole of the information referring to the snowfall in the mountain districts bordering Northern India for each month of the year is now published as it is received in the India Monthly Weather Reviews.

8. The following gives a brief summary of the information relating to the snowfall of the past cold weather obtained up to date :

I.—AFGHAN MOUNTAIN DISTRICTS.

(1) HILLS WEST OF DERA ISMAIL KHAN, INCLUDING WAZIRISTAN.

(1) WANA.

November.—Light snow fell on the 15th on the Marwati, Kanigoram and Pirghal hills above 6,500 feet.

December.—Snow fell on the 2nd, 18th, 23rd, 24th, 25th, 30th and 31st. The fall on the 23rd and 24th averaged 2 feet on the higher hills. The storm of the 30th—31st was severe and gave heavy snow. The fall on Kundeghar was 5 feet in depth. Snow lay on the hills above 6,500 feet in height during the whole month.

January.—Snowstorms occurred in the district on the 1st, 4th, 10th and 12th. The falls on the 1st, 4th and 10th were light, but that of the 12th was moderately heavy, ranging between 2 and 3 feet in depth on the Kanigoram, Marwati and Pirghal ranges. Snow fell as low down as Wana (elevation about 3,000 feet).

February.—Snow fell on the 4th, 6th, 7th, 13th, 14th, 17th and 19th. The falls of the 4th, 6th, 14th, 17th and 19th were light to moderate in amount and of the 6th and 7th were heavy. The depth of the fall at Marwati was $4\frac{1}{2}$ feet and on the Pirghal 4 feet. At the end of the month the snow accumulation on the Pirghal, Marwati and Kanigoram ranged between 2 and 3 feet.

March.—No snow fell in this area during the month. The snowfalls of the past winter were much heavier and more frequent than for some years previously.

(2) DERA ISMAIL KHAN (KULACHI BORDER).

December.—Snow fell on the 19th, 20th and the 23rd to the 31st on the hill ranges to the west of this district.

January to April.—No reports received. Hence probably no snow fell on these hill ranges.

(3) KURRAM.

The following is a summary of the reports received from the Civil Surgeon, Kurram :

September.—Snow fell on the Sufed Koh down to 16,000 feet on the 23rd, 26th and 27th.

October.—Snow fell on ten days on the Sufed Koh down to about 10,000 feet.

November.—Snow fell on ten days down to 9,000 feet in the first-half of the month and to 7,000 to 6,500 feet in the second-half.

December.—Snow fell on fifteen days during the month. During the storms of the 22nd to the 26th and the 29th and 30th it fell as low as 4,500 feet. All passes across the Sufed Koh were closed during the month.

January.—Snow fell on ten occasions and on seven days as low as Parachinar (5,200 feet) and on one occasion as low as Sadda (4,000 feet above the sea-level). At Parachinar $2\frac{1}{2}$ feet were received on the 11th and 12th. The accumulation on the passes at the end of the month was estimated at 10 feet.

February.—Snowstorms occurred on twelve days of the month, on six days of which it fell as low as Parachinar (5,200 feet). A peculiarity of the storms was that they came from the south and fell in the valley several miles below Parachinar as low down as 4,000 feet. The passes were all closed during the month.

March.—Snow fell on eleven days above 8,000 feet on the Sufed Koh.

April.—Snow fell on five days during the month on the Sufed Koh.

The snowfall of the past winter is stated to be heavier than has been received for many years past. The weather was more cloudy than usual and very cold in the early part of the winter.

(4) KOHAT DISTRICT (TIRAH).

January.—During the month there were in all eight falls of snow on the hills on the border, *viz.*, on the 7th, 10th, 11th, 13th, 18th, 19th, 21st and 31st. The total fall at Fort Lockhart, which is the only place from which accurate and reliable reports can be obtained, was $3\frac{1}{2}$ feet.

On the 13th and 21st heavy falls were reported from the Samilzar Iláqá Astar Ghar (5,411 feet high). On the same dates falls estimated at 3 and $3\frac{1}{2}$ feet respectively were reported on the Maula Ghar, Lundakar and Mazza peaks (elevation between 7,000 and 8,000 feet) across the border—the first mentioned to the north of the Astar Ghar and the two latter to the west of it.

February.—Nine falls of snow were reported on the hills on the border. The heaviest fall occurred on the 5th on the hills in the Samilzar Iláqá. The total fall of the month at Fort Lockhart was 2 feet 2 inches.

The Commandant, Border Military Police, adds with respect to my request for information from the inhabitants of the district as to the character of the snow-fall of the present year as compared with that of previous years: "This is generally very misleading, for the inhabitants have two stereotyped replies; it is either severe drought or too much rain and snow. This year the Orakzais state that they have never had so much snow and they made the same remark last year."

The following report of the snowfall on the Samana range (to the west of the Kohat district) has been submitted by the Assistant Commissioner, Thal:

December.—Snow began to fall on the 23rd on the Samana range. Light falls occurred on the 23rd, 24th, 25th and 30th.

January.—Light falls of snow occurred on the 10th, 11th and 12th. Snow also fell on the Samana range on the 13th January on the lower heights in the neighbourhood of Sháhu Khel, Chappar and Ibrahimzar to a depth of from $1\frac{1}{2}$ to 3 inches. Roughly speaking, the snowfall on the last mentioned heights which reach an altitude varying between 2,000 and 3,000 feet above sea-level may be taken to represent the lowest limit to which snow descended.

As a general rule, snow in the hills was accompanied by rain in the plains, and it is to be noticed that as the latter increased in intensity the snow owing to the cooling of the atmosphere descended to a lower limit. Thus the lowest limit recorded was not observed until the 23rd January when snow had been received on the higher slopes of the Samana more or less intermittently for three weeks. The weather in the intervals between the snowstorms was fine and bright, though probably not colder than usual. With the exception of the higher slopes of the Samana, *i.e.*, Fort Lockhart, Saragarhi and the Samana Sukh, the snow melted as soon as it fell, and even on the southern slopes of the latter the action of the sun was sufficient to cause the snow to disappear until a further fall. The same remarks apply to the hills to the north of Danzab, Torwari, Darsamand and Thal.

The results therefore to be deduced from the observation of the snowfall for the last month are:

- (1) Its local nature.
- (2) A varying snow-line according as the intervals between successive snowfalls were short or long.
- (3) Rapid disappearance of the snow except on the higher northern slopes where the sun's rays were not sufficiently powerful to cause it to melt.

The temperature of the month was normal.

The winter of the year 1900 was marked by unusual severity. 2 inches of snow fell in Hangu itself (about 2,000 feet in elevation)—an almost unprecedented occurrence.

February.—Snow fell on the 4th, 5th, 7th, 14th and 17th over the Samana range. The total fall was estimated at $2\frac{1}{2}$ feet. The weather was milder than usual.

March.—No snow fell on the Samana range in this month. The snow melted away before the end of the month.

April.—No snow fell during this month

(5) KABUL.

The following is a summary of the information received from the Meteorological Observer, Kabul, through the British Agent :

November.—Light snow fell at Kabul on the 20th and 22nd. The Paghman hills were covered with snow at the end of the month.

December.—Snow fell at Kabul on nine days during the month, *vis.*, the 16th to 18th, 22nd to 24th, 26th, 29th and 30th.

January.—Snowfalls occurred on the 9th to the 12th, the 18th, 23rd and 31st in Kabul city. Frequent falls were received on the Paghman range and the passes on the roads from Kabul to Ghazni and Gandamak were closed during the month. The Kabul plain was covered with snow during the month.

February.—Storms gave moderate to light snow on the 5th, 6th and 18th. The snow accumulation in the Kabul valley melted away during the month.

March.—Snow fell on the 6th. The Paghman hills were covered with snow at the end of the month.

(6) KHYBER.

The Political Officer, Khyber Pass, has forwarded the following account of the snowfall in the neighbouring ranges :

"No snow fell in this district before the 27th December. Heavy rain fell at Landi Kotal and its vicinity and continued at intervals from the 27th December to the 3rd January. Snow fell on the high peaks of Lakka, Dalkhud, Torsappar, etc., the average depth being one foot.

"It again began raining on the 10th January and continued till the 13th. Heavy snow fell on the 14th and 15th over the neighbouring hills and plains. The average depth of snow on the hills was 12 inches, while on the Loargi plateau it was 6 inches. Snow again fell on the 5th February, the depth on the high peaks being $1\frac{1}{2}$ feet. In the plains the snow melted as soon as it fell.

"Unusually stormy and cold winds blew in the intervals between the storms. The snowfall in the area is believed to have been about normal in amount."

(7) CHITRAL.

October.—Slight snow fell on the neighbouring mountain ranges above 10,000 feet on the 4th and 24th.

November.—Heavy snow was received on the 17th, 22nd and 23rd on the neighbouring ranges.

December.—Snowstorms occurred on the 2nd, 12th, 15th to the 18th and 22nd and 23rd. The falls of the 12th, 15th, 22nd and 23rd were heavy on the neighbouring mountains and moderate at Drosh.

January.—Snow fell on eight days in this month, *vis.*, the 7th, 10th to the 13th, 20th, 21st and 26th. The fall of the 12th and 13th was heavy on the neighbouring mountain ranges. Light snow fell at Drosh (4,000 feet).

February.—Storms giving light snow to the higher mountain ranges occurred on the 4th, 6th and 16th to 18th. The fall extended to Drosh on two occasions.

March.—Light snow fell on the highest ranges on the 5th, 6th and 21st.

April.—Heavy snow fell on the mountain ranges to the north of Drosh and Chitral on the 13th and 14th.

May.—Heavy snow fell in the Chitral district down to 6,000 feet in the Chitral valley and hills on the 5th and 6th.

The following gives comparative data of the precipitation at the observatories of Chitral and Drosh for the period November to April :

Chitral.

Year.	RAINFALL.						
	November.	December.	January.	February.	March.	April.	Total fall, November to April.
	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.
1896-97	0	0'02	4'88	2'94	4'65	4'20	16'69
1897-98	0	1'68	0'63	1'65	15'25	6'28	25'49
1898-99	0'05	1'55	0'10	2'28	3'11	2'10	9'14
1899-1900	2'25	1'74	2'60	0'80	2'49	1'61	11'49
1900-1901	0	0	0	0	4'09	4'22	8'31

Killa Drosh.

1897-98	0	1'98	1'45	1'26	2'12	5'34	22'15
1898-99	0	1'16	0	2'19	2'27	2'66	8'28
1899-1900	0'80	1'49	?	1'35	2'61	2'44	8'69
1900-1901	0'94	1'47	0	0'49	4'37	3'67	10'94

II.—HIMALAYAS.

(A) THE PUNJAB AND KASHMIR HIMALAYAS.

(1) MURREE.

9. The following tables give statements of the snowfall as measured at Murree and on the hills near Kahuta during the past and preceding winters for comparison :

Station.	TOTAL FALL OF SNOW IN THE MONTH OF						Total of period 1900-1901.
	December 1900.	January 1901.	February 1901.	March 1901.	April 1901.		
	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	
Murree	1 8	7 11	4 9	0 6	Nil	14 10	
Kahuta	?	4 0	Nil	Nil	Nil	(?) 4 0	

Station.	TOTAL FALL OF SNOW FROM JANUARY TO MARCH IN													Average of twelve years.
	1901.	1900.	1899.	1898.	1897.	1896.	1895.	1894.	1893.	1892.	1891.	1890.		
	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	Ft. In.	
Murree	13 3	12 2	6 7	6 8½	10 3½	7 5	11 10	15 9	20 4	0 5	29 0	3 8	12 3	
Kahuta	4 0	5 0	7 0	13 2	4 0	1 0	6 0	5 0	18 0	Nil	5 3	0 9	5 9	

The data show that the snowfall at Murree and Kahuta was practically normal and was comparable in amount with the falls in the cold weathers of 1895, 1897 and 1900.

(a) KASHMIR.

The following account of the snowfall in Kashmir during the past winter has been received from Dr. Mitra, Meteorological Reporter, Kashmir State:

"The last winter in Kashmir has been normal in character. Snow began to fall somewhat earlier than usual and the higher ranges had their first fall of snow on the 4th October and the last on the 21st April 1901, descending as low down as 6,500 feet.

The first fall of sleet in Srinagar was on the 17th December and of snow on the 19th December."

The following table gives the total snowfall up to the 21st of February as measured in Srinagar (in inches of rain):

December.	Amount of snowfall measured as water.	January.	Amount of snowfall measured as water.	February.	Amount of snowfall measured as water.
	Inches.		Inches.		Inches.
19th	0.39	1st	0.05	1st	0.25
24th	0.58	9th	0.07	2nd	0.04
26th	0.18	14th	0.97	6th	0.70
27th	0.21	15th	0.32	7th	0.14
		16th	0.08	13th	0.05
		22nd	0.34	14th	0.09
				17th	0.57
				18th	0.17
				19th	0.07
				20th	0.06
				21st	0.05
Total	1.36		1.83		2.19

The periods of heaviest snowfall were from the 19th to the 27th December, the 14th to the 22nd January and the 17th to the 21st February.

Some avalanche accidents were reported from the higher passes of Burzil on the way to Gilgit and Zoji-La pass *en route* Leh. Two mail carriers were buried in the avalanche at the former pass and two coolies under the latter.

The following table shows the snowfall measured as rain during the winter under review and the previous five winters for comparison:

Year.	PRECIPITATION.						Total.
	December.	January.	February.	March.	April.	May.	
	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.
1900-1901	1.36	1.83	2.19	0	0	0	5.38
1899-1900	0	3.38	1.80	0	1.95	0	7.13
1898-99	2.73	0.68	4.21	2.01	3.44	1.38	14.45
1897-98	0.35	1.91	2.15	0.76	1.28	2.64	9.09
1896-97	0.63	6.18	1.38	5.79	4.93	4.53	23.44
1895-96	0.62	1.09	2.46	2.22	1.48	2.22	10.09

The comparison indicates clearly that the snowfall at Srinagar during the past winter was less than the normal and largely below the falls of the winters of 1896-97 and 1898-99.

The rainfall for the month of April was four inches less than that of April 1900.

(3) LADAKH.

Full accounts of the snowfall during the past winter in Ladakh have been received from the Superintendent of the Leh observatory. The following is a brief summary of these reports :

October.—Frequent light showers of snow were received on the hills surrounding Leh down to an elevation of 13,500 feet. Light snow showers fell on two occasions at Leh. The snow-line was at a height of about 14,000 feet at the end of the month.

November.—No snow fell at Leh.

December.—Light showers of snow fell at Leh on the 19th and 27th. Frequent snowstorms occurred on the surrounding hills, giving snow down to 13,000 feet. The weather was unusually damp and cloudy.

January.—Light snow showers fell in Leh and the neighbourhood on fourteen days during the month. The weather was unusually unsettled and cloudy.

February.—Snowstorms occurred on eight occasions during the month. The falls were light in the Indus valley. About six inches of snow were lying in the open near Leh at the end of the month.

March.—Light snow fell on the 3rd, the 24th and 25th.

April.—Frequent snow showers fell on the neighbouring hills. Weather during the month was unusually cloudy, cold and damp.

(4) LAHOUL.

The following gives a statement of the snowfall registered at the observatory at Kailang in Lahoul during the past winter and also the mean of the corresponding periods of the past five years for comparison :

Month.	Normal monthly precipitation measured as rainfall. (Derived from 25 years data.)	RAINFALL, 1901.	SNOWFALL, 1901.		Mean snowfall in month of past five years.	
		Total precipitation of month measured as rainfall.	Total snowfall of month.			
	Inches.	Inches.	Ft.	In.	Ft.	In.
November . . .	0'61	0'01	Nil		0	8
December . . .	1'01	3'54	2	9½	1	11
January . . .	3'07	2'71	1	10	2	3
February . . .	3'20	4'63	3	8	2	4
March . . .	3'39	1'61	Nil		2	10
April . . .	2'80	Return not received.	Return not received.		1	4
Total .	14'08		.		11	4

The snowfall at Kailang during the period November to March was hence about normal.

It was similar in amount to that of the corresponding period of 1899-1900.

The Superintendent of the observatory writes as follows :

" In our narrow valley at Kailang snowstorms are not of frequent occurrence. The past winter has been an exceedingly cold one. During December, January and part of February the temperature was mostly about zero. Even in the day time it was very cold, as the skies were usually thickly clouded. Fine weather with sunshine was very scarce this season.

At Kailang (10 000 feet) the snow was about 6 feet deep about the middle of March. Altogether we have had about 10 feet snow. In the valley men can go from one village to the other now, but only in the morning when the snow is frozen. The passes were all closed from 13th December to the date of the report (11th March).

Really less snow than the normal has fallen, but in the absence of sunshine it has not yet begun to melt."

(5) SIMLA HILL DISTRICTS.

The following is a summary of the data for these districts received from the Deputy Conservator of Forests, Bushahr Division :

October.—Snow fell on eight days during the month down to 9,000 feet. The depth of snow on the 31st October on the Borenda and Shatul passes was $2\frac{1}{2}$ feet. The Rupin, Runang and Bulder passes were free from snow.

November.—Light snow fell on the 21st and 25th down to 10,000 feet. The depth of snow at the end of the month on the Rupin pass was $5\frac{1}{2}$ feet, on the Borenda pass 6 feet, on the Shatul pass 6 feet and on the Bulder pass 8 feet. All these passes were now closed for the season.

December.—Snow fell on ten days during the month. The falls were unusually light. The depth of snow on the passes at the end of the month was estimated at from .5 to 20 feet.

January.—Light to moderate snowfalls were received over the whole area above 5 750 feet on eight days during the month and frequent falls occurred on the higher ranges. The month was unusually cold and cloudy. The depth of snow at the end of the month on the higher passes is not known, but is said to range from 20 to 50 feet. All passes were closed during the month. The fall during the month was much heavier than has occurred for several years past.

February.—Light to moderate falls of snow occurred on the 5th, 13th, 14th, 18th, 20th, 22nd and 23rd down to 5,700 feet. Slight falls were also received on the 2nd, 4th, 6th to 8th, 12th and 19th at higher hills. The depth of snow at the end of the month on the Borenda, Rupin and Shatul passes was estimated to be 28 to 30 feet and on the Bulder pass 31 feet. The snowfall was much heavier than in the same month last year.

March.—There were light falls on the 7th, 8th and 24th. These falls were general throughout the whole of Bushahr. All the passes over 10,000 feet in elevation were closed throughout the month. The depth of snow at the end of the month on the Rupin and Borenda passes was 29 feet, on the Shatul pass 32 feet and the Bulder pass 33 feet.

April.—There were several falls of snow during the month, *viz.*, on the 11th, 12th, 14th and the 20th to the 23rd. The snow-line descended to about 8,500 feet on the 22nd and 23rd. The accumulation at the end of the month measured 14 feet on the Bulder pass (16,000 feet high), 12 feet in depth on the Rupin and Borenda passes (each 16,000 feet high), 6 feet on the Runang pass (14,000 feet high) and $1\frac{1}{2}$ feet on the Harang pass (12,000 feet). All these passes except the Harang pass were closed at the end of the month.

The snowfall was larger and the winter has been longer than for several years past.

The Superintendent of the observatory at Poo in the Upper Sutlej Valley writes that " the winter snowfall commenced earlier than usual on the 23rd of December. Although the amount of snow accumulation probably does not exceed that of the previous year, it is lying longer on account of the cloud being greater than during the corresponding period of 1899-1900."

(6) CHAMBA.

December.—Snowstorms occurred on thirteen days of the month. The most severe storms were those of the 24th and 31st. The snow fell down to 2,500 feet on the 24th. Five feet of snow fell at Kalatop on the 31st. There was 8 feet of snow lying at Kalatop at the end of the month. The snowfall commenced earlier than usual on the higher elevations.

January.—Snow fell on fifteen days of the month. The falls were most general between the 12th and 23rd. The depth of the snow accumulation at the end of the month was 8 feet at Kalatop (7,500 feet) and 4 feet at Barmaur (5,000 feet).

February.—Frequent light falls of snow occurred during the month. Measurable amounts were recorded on 22 days of the month. The skies were clouded to an unusual extent. The snow accumulation at the end of the month was 7½ feet at Kalatop and 5 feet at Barmaur and Olansa.

March.—Very light falls were reported on the 6th and 7th. The depth of snow on Kalatop at the end of the month was reduced to 2½ feet.

The snowfall in this district during the past year was greater than in the preceding winter. There appears from all the information received to have been exceptionally heavy snow on the higher elevations above 6,500 feet. Below that there was much rain, but little or no snow.

The following statement gives the snowfall as measured at certain forest stations during the past winter in the Chamba State :

Month.	PANGI.	DALHOUSIE NEIGHBOUR- HOOD.		WEST OF STATE	TIRA RANGE, NORTH OF STATE.				VALLEY OF RAVI.			
	Killar, 8,400 feet.	Kalatop, 8,000 feet.	Sutkbigalli, 5,000 feet.	Bhandal, 6,000 feet.	Tisa, 5,000 feet.	Thaneela, 7,000 feet.	Chanan, 6,500 feet.	Alwas.	Dareel, 4,500 feet.	Chitrari, 6,000 feet.	Oiansa, 7,000 feet.	Barmaur, 8,000 feet.

Mean, November to April, five years.	...	12 0	2 4	4 5	8 1	11 2	6 8	...	7	8 0	15 11	25 0

The following report of the snowfall in Pangl has been received from the Deputy Conservator of Forests :

December.—Snow fell on ten days during the month on Killar (8,400 feet high) down to 6,400 feet. The total fall of the month measured about five feet in depth.

January.—Frequent light falls of snow occurred at Killar during the month. The snow-line was at 6,400 feet throughout the month.

February.—There were five periods of disturbed weather and snowfall during the month, *vis.*, the 2nd and 3rd, 5th and 6th, 12th, 16th to 19th and 21st. The total fall of the month was estimated to be 4 feet.

March.—Snow fell on the 6th, 21st and 23rd. The falls were light and the total of the month was only $1\frac{1}{2}$ feet.

April.—There were light falls of snow on the 10th, 11th, 19th, 20th, 21st and 22nd. The snowfall extended down to 6,400 feet on the 20th to 22nd.

Weather was more windy than usual during the period December to April.

There was no snow lying at Killar on the 5th of May. The Sach pass was still closed.

The snowfall began earlier than usual in the beginning of December and was above the average on the higher hills.

(7) KULU.

The following is a summary of the reports received from the Assistant Commissioner, Kulu :

January.—Snow fell on nine days during the month on the high ranges of the Kulu Tahsil and on eight days in the Plach Tahsil. The falls were general and descended to 5,200 feet.

February.—Snowstorms occurred on five days in the Kulu Tahsil and thirteen days in the Plach Tahsil. The falls were general and occurred above an elevation of 5,000 feet. The snowfall of the month was above the normal.

March.—There was slight snowfall on four days of the month on the higher peaks and passes. The snowfall of the month was in slight excess.

April.—Rain fell slightly on the 10th, 11th, 13th and 14th in the Kulu Tahsil and on the 11th, 12th, 14th and 15th in the Plach Tahsil. During this period snow fell on three occasions on the higher passes and peaks down to about 10,000 feet.

The Rotang pass was closed for seven or eight days due to this snowfall.

Nearly all the passes in this district were open for foot traffic at the end of the month.

The snowfall of the month exceeded in amount that of the corresponding period of the previous year in the Plach Tahsil, but was in defect in the Kulu Tahsil.

The following table gives the depth of snow at the end of each month from January to April 1901 and also on the 25th April of the past ten years on seven of the passes in this district for comparison :

Tahsil.	Name of pass.	Elevation.	DEPTH OF SNOW IN				Mean, April past 10 years.	DEPTH OF SNOW ON THE 25TH APRIL									
			January 1901.	February 1901.	March 1901.	April 1901.		1900.	1899.	1898.	1897.	1896.	1895.	1894.	1893.	1892.	1891.
		Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.	Feet.

(B) NORTH-WESTERN PROVINCES HIMALAYAS.

(1) KUMAON.

10. The following is a statement of the estimated snowfall in this district measured in the same manner as in former years in accordance with arrangements made in the year 1894 :

Month.	Fall on Pindari and Pankua peaks.		Fall on Ralumdhura and Utamdhura passes.		Fall on Malla Byans, Chandan and Darma.	
	Ft.	In.	Ft.	In.	Ft.	In.
1st to 31st October 1900	3	0	11	0	3	0
1st to 30th November 1900	Nil		Nil		Nil	
1st to 31st December 1900	7	0	16	0	4	6
1st to 31st January 1901	8	0	16	0	10	6
1st to 28th February 1901	4	6	18	0	7	0
1st to 31st March 1901	1	9	10	0	6	0
1st to 30th April 1901	0	2½	6	0	2	0
Total fall in winter of 1901 up to 30th April .	24	5½	77	0	33	0
Mean of six cold weathers, October to April .	25	7	63	11	18	11

The snowfall of the past winter in Kumaon was considered by the natives of the district to be more than usual during the greater part of the season. The data of the preceding table show that it was on the average of the whole area greater than usual for the whole period. The fall was similar in amount to that of the winter of 1899-1900.

(2) GARHWAL.

The following is a summary of the reports received from the Deputy Commissioner, Garhwal :

October.—Snow fell on the 13th, 16th, 19th, 22nd, 26th and 28th on the perpetual snows down to about 12,000 feet. The depth of the fall was estimated to be from 6 inches to 3½ feet.

November.—No snow fell during the month in this area.

December.—Snow fell at frequent intervals during the second-half of the month. The falls were heaviest on the 19th, 24th and 31st when the snow-line descended to about 6,500 feet.

January.—There were frequent falls during the month and the snow-line descended to about 5,000 feet. The passes into Thibet were all closed.

February.—Snow fell more or less intermittently throughout the month. The more considerable falls were on the 18th, 19th, 22nd and 23rd. The snow-line descended to about 5,000 feet.

The snowfalls were more frequent than usual at this time.

March.—Snow fell in the region of the perpetual snows on the 1st, 6th, 7th, 15th, 21st and 22nd. The Mana and Nite passes leading into Thibet were open before the end of the month. The snowfall of the whole winter was larger in amount than the normal.

April.—Light falls of snow occurred in the region of perpetual snows on the 14th and 15th. The total fall of the month was less than that of the corresponding period of the previous year.

(C) ASSAM HIMALAYAS.

11. *Hills north of Lakhimpur.*—The Sub-divisional Officer, North Lakhimpur, reports that "the snowfall during the past season in the hills north of is understood to have been below the normal. There has certainly been less snow than usual on the peaks visible from the plains."

Hills north and east of Sadiya.—The Assistant Political Officer, Sadiya, reports as follows :

" Small snowstorms occurred early in the season, but the heavy snows came down later than usual, and judging from the mildness of the last winter, I do not think the fall was as great as it was last year.

The rivers are all abnormally low for the time of year, though the weather has been quite warm enough of late to melt the snows, and this confirms my belief that the fall of snow has been smaller than usual during the last winter."

Hills north of Darrang District.—The Deputy Commissioner states that no reliable information is available and adds that "the Bhutia Chiefs who came down to Mangaldai reported that the snowfall this year was heavier in the hills than in the last year. This has been corroborated by the Charduan Bhutias and the Akas who came to Tezpur and reported that the snowfall in their hills was very heavy."

Hills north of Kamrup.—The Deputy Commissioner, Kamrup, reports as follows : "Snowstorms occurred at intervals during November, December and January. The snowfall was heavier, the depth being reported to be varying from 28 inches to 30 inches in different peak ranges and passes.

"The snow line is reported to have descended on the peak known by the name of Youngla hill, the height of which is not known, extending to the Salikhora road.

"Snowstorms occurred over an extensive area, though the exact length and breadth have not been given. The weather during the storm was cloudy, but its general character during the intervals was unusually cold.

"It is reported that there was no snow accumulation for some time previous to this date (31st March) on any of the roads leading to the hills ; but as there was a heavier fall during the year, it is likely that there is still an accumulation of snow at this date on the hills.

The snowfall is reported to have been greater than in the previous year."

Hills north of Upper Burma.—Mr. Wright, Manager of the Choukpazat Gold Mining Company, Mu Valley, Upper Burma, writes as follows :

"The winds from the north have not been out of the way cold, and I think therefore that there could not have been an unusual fall of snow. I am inclined to think the fall has been probably less than usual."

The Deputy Commissioner, Myitkyina, in a letter to Mr. Wright, states that "I am afraid I cannot give you information of any value this year as to the weather in northern unadministered tracts, as we have had no column up there this year.

"There is, however, no reason to believe that the weather has been abnormal, or that there has been any heavy snowfall. The cold season here was warmer than usual, but this I attribute to scanty rainfall in 1900 and early drying up of vegetation. But March, April and so far May have been unusually temperate though we have had less rain during these months than usual. In March the thermometer only once touched 90°, in April the maximum was above 90° on three days only (90·5°, 92·0°, 91·0°) and the maximum up to date in May has been 95·5°. This seems cool for a place at 450 feet elevation only. The prevailing winds this year have been north instead of west as they usually are.

"There was a rise in the river from 14th to 20th April, but this was too high and sudden to be due to melting of snow.

"There must have been a heavy fall of rain near the head waters of the Ninai kha river."

PERSIA.

12. The data for this area are scanty. The winter commenced earlier than usual in Persia and Baluchistan, and the precipitation was generally above the normal in these areas in the months of November and December.

During the remainder of the season the weather was much drier than usual in Persia, and the precipitation of the whole cold-weather period was hence largely in defect. The returns from the stations of Dasht Arjin, Sivand, etc., on the Indo-European Telegraph line show that frequent snow occurred on the higher

elevations in December and occasional snow in January, after which dry weather set in and held steadily during the remainder of the winter.

The following table gives comparative data of the precipitation at several stations in the Persian area and also at Quetta and Kashgar :—

Station.	RAINFALL.												RAINFALL OF PERIOD NOVEMBER 1900 TO DATE OF LAST RETURN.

The data indicate that the precipitation was in large excess in December and January and was generally in defect in March and April. The chief feature of the precipitation of the whole period was the very large excess at the stations of Simla, Chakrata and Mussooree (and perhaps Kotgarh). The lower and middle ranges of the Simla and Mussooree hills in fact received about double their normal fall. This excess was apparently a local factor, as it did not extend to the interior as indicated by the data of Poo, Kilba and Kailang. The precipitation at Murree, Srinagar and Leh, representative of the Kashmir hills, and at Ranikhet was only in moderate excess while in Sikkim it was below the normal. The distribution as indicated by the returns of these stations is in full agreement with that indicated in the corresponding higher regions by the snowfall reports.

SUMMARY OF THE SNOWFALL DATA.

14. The whole of the available data bearing on the character and amount of the snowfall in the mountain regions to the north and north-west of India has been given above. The data have been given in full detail, as the conclusions are partially opposed to statements that have appeared in various quarters with respect to the snowfall of the past winter. The data are consistent and indicate clearly the character and distribution of the snowfall of the past six months in the Himalayan area.

15. The accumulation at the commencement of the winter was unusually small. The snowfall during the previous winter at least had been less than the normal, and the accumulation in May 1900 was abnormally small on the higher ranges in Afghanistan and Chitral and about normal in the Kashmir and Punjab Himalayas. The snow-line was also somewhat higher than usual in May. In consequence of the prolonged delay in the establishment of the monsoon rains in Upper India the snow accumulation melted to a much greater extent than usual in June and July, and its amount at the beginning of October 1900 was much below the normal. October was more disturbed than usual in the hills of Upper India, but the light snow which fell at short intervals below the permanent snow-line melted almost immediately after its fall. November, on the other hand, was an exceedingly dry month in the Upper India hill districts and the snow line at the beginning of the month of December on the ranges to the north of Simla was at an elevation of about 11,000 feet.

The number of cold-weather storms was greater than usual in January and February. Most of the storms were, however, of slight intensity and advanced along more southerly tracks than usual and hence failed to give rise to well-marked secondary depressions in the Punjab. Two storms, those of the 10th to the 15th January and the 4th to the 8th February, were moderately deep depressions and occasioned heavy snowfall in the Western Himalayas. The snowfall up to the end of February was in moderate to considerable excess in that area.

March was drier than usual and the snow accumulation at the end of that month was probably about the normal. It, however, melted more slowly than usual, as there was much more cloud than usual in the hill districts of Upper India. Weather was, on the other hand, unusually disturbed in April and the first fortnight of May. A heavy fall of snow down to unusually low levels (5,000 feet) in Kashmir and Chitral and the mountain areas to the north occurred on the 13th and 14th April and another heavy fall occurred in the same area in the first week of May. The chief result of this late snowfall is to give an accumulation probably exceeding the normal to a slight or moderate extent at the end of May in Kashmir and Chitral and the areas to the north.

16. The chief features of the snowfall of the cold weather were :

- (1) The winter commenced in November and hence earlier than usual in Afghanistan and Baluchistan. Weather was fine and free from winter storms in the first-half of December. The latter half of December and January were more stormy than usual, and these areas received frequent rain and snow during this period. March, April and May were, on the other hand, drier than usual. The snowfall of the period hence melted rapidly in these months and the accumulation disappeared except on the highest ranges of Afghanistan.

- (2) The number of cold-weather disturbances in Upper India in November and the first-half of December was less than usual and the storms were of very slight intensity. A large number of storms formed in the second-half of December and in January. They advanced along more southerly tracks than usual and failed in the great majority of cases to give rise to well-marked secondary depressions in the Punjab. The precipitation accompanying them was hence generally moderate in amount. The snowfall up to the end of January in that area was probably somewhat greater than usual, but was nowhere excessive.
- (3) The number of depressions in February, April and May was larger than usual. In consequence of their origin in North-Western India or Baluchistan, they chiefly affected the Punjab and Gangetic Plain. The Punjab hills, Kashmir and Chitral had frequent light to moderate precipitation during these months. A disturbance of moderate intensity extending from the 12th to the 15th April gave heavy snow in the Chitral and Kashmir Himalayas. The snowfall during the period from February to May was in moderate to considerable excess in the Western Himalayas, more especially in Kashmir and Chitral, where it was chiefly due to late and abnormally heavy falls in April and May, the excess being probably most marked on the interior and higher ranges.
- (4) The chief feature of the season was the frequent snowfall in January, February and April over the whole of the Western Himalayas west of Nepal. The number of disturbances or storms was much larger than usual, but the storms were generally of feeble intensity and the accompanying precipitation light to moderate in amount. The fall was heavy in the Chitral, Kashmir and Punjab hills, but was very unequally distributed. Snow fell down occasionally to unusually low levels in April (5,000 feet) and May and caused extensions of the snow-clad surface in the hills for brief periods which affected the meteorological conditions in Upper India and, more especially, reduced temperature largely below the normal. The snow melted rapidly during the hot weather of the last fortnight of May and the snow-line on the 31st May was at a mean elevation of from 13,000 feet to 14,000 feet in the Punjab Himalayas and 15,000 feet in Ladakh.
- (5) The snowfall of the past season up to the end of May was, so far as can be judged from the data, below the normal to a moderate extent in Persia, chiefly due to the early termination of the winter.
- (6) The snowfall in Baluchistan was normal in amount and fell chiefly in November, December, January and February. It was hence favourable in all respects.
- (7) The precipitation in Afghanistan was generally less than usual.
- (8) The snowfall in Chitral was, so far as can be judged by a comparison of the past year with the previous three years, considerably below the normal in the earlier part of the winter, but was heavy in April and the first-half of May.
- (9) The snowfall was heavier than usual in Kashmir. It commenced on the higher ranges somewhat earlier than usual. The chief feature was the heavy and late fall of the 13th, 14th, 20th and 21st April.
- (10) In Chamba, Lahoul and the Simla hill states the winter commenced earlier than usual. Moderately heavy snow fell in the latter half of December, January and February and heavy and frequent snow in

April. The total snowfall of the season appears to have been considerably above the average in Chamba and the Simla hill states and in slight defect in Lahoul. The accumulation at the end of May was probably greater than usual, chiefly due to the abnormal prevalence of cloudy weather.

- (11) The winter began earlier than usual in Kulu and the precipitation was above the normal during the winter up to the end of March. It was small in amount in April and May and the accumulation melted more rapidly than usual, as the depth of snow on the passes at the end of April was less than the average of past years.
- (12) The snowfall in Kumaon and Garhwal during the period from the middle of December to the end of March was greater than usual and was about normal in April and May. The total fall of the season was hence above the normal to a moderate extent.
- (13) No information has been received for Sikkim and Nepal.
- (14) The information relative to the snowfall in the Assam Himalayas is as usual scanty, but appears to indicate that the fall was below the normal in that area. The deficiency was apparently most marked in Upper Assam and hence probably also in the hills to the north of Upper Burma.

ABNORMAL FEATURES OF THE METEOROLOGY OF INDIA DURING THE PREVIOUS EIGHTEEN MONTHS.

17. *Chief features of the meteorology in the cold and hot weather seasons, 1900.*—The meteorology of the dry monsoon (January to May) 1900 was very similar in several respects to that of the corresponding period of the past six years, in each of which the cold-weather precipitation has been more or less below the normal in North-Western India and the Persian area. The most important features of the meteorology of India during the first five months of 1900 were as follows :

- (1) Weather was fine, dry and free from cold-weather storms in Afghanistan and Baluchistan in November and the first three weeks of December. A storm in the last week of the month gave moderate snow in Chitral and Kashmir. The first fortnight of January was unusually fine in the Persian area and Upper India. Two cold-weather storms affected Northern India in the second-half of the month. These storms gave heavy falls of snow in the Western Himalayas.
- (2) The number of cold-weather storms was greater than usual in February, but they were, with one exception, the storm of the 16th to the 19th, feeble. March was unusually free from cold-weather storms. The precipitation of the two months was hence largely below the normal in the Persian area and North-Western India and the Western Himalayas. April was unusually disturbed and a large number of cold-weather storms, generally of slight intensity, affected the weather in Upper India and gave light to moderate snowfalls on the interior ranges. One storm, that of the 7th to the 10th, gave a heavy fall of snow in the North Afghan mountains, Chitral, Kashmir and the Punjab Himalayas. The snowfall during the period from February to April was in moderate to considerable excess in the Western Himalayas, chiefly due to late and abnormally heavy falls in April, the excess being probably most marked on the interior and higher ranges.

- (3) The chief feature of the season was the frequent snowfall in April over the whole of the Western Himalayas west of Kumaon. The fall was very heavy in the Chitral, Kashmir and Punjab hills. Snow fell down occasionally to unusually low levels in April (5,000 feet) and caused extensions of the snow-clad surface in the hills for brief periods which affected the meteorological conditions in Upper India. The snow melted very rapidly during the hot weather of the last fortnight of May, and the snow-line on the 31st of May was at a mean elevation of from 13,000 feet to 14,000 feet in the Punjab Himalayas and 15,000 feet in Ladakh.
- (4) The snowfall of the whole season from November 1899 to May 1900 was below the normal to a moderate extent in Persia and Afghanistan and Chitral, normal in Baluchistan, in moderate to considerable excess in Kashmir, and above the normal to a slight or moderate extent in the Punjab and Kumaon Himalayas and probably also in the Assam Himalayas.
- (5) The snowfall accumulation in the last week of May 1900 was nowhere in large excess and was probably about normal in the Kashmir, Bushahr, Kumaon and Garhwal Himalayas and in Baluchistan and less than usual in the area including the Afghan and Chitral mountains and in Persia.
- (6) The temperature and other meteorological conditions were chiefly related to the character of the storms of the period and the accompanying distribution of rain and snow in the Himalayan area. Temperature in North-Western India, for example, was in considerable to large excess in November, December, February and March and also in slight excess in May, but was more or less in defect in January and April. The most important feature of the temperature conditions was the very large excess in the Deccan, Berar and the Central Provinces from November to January. The chief feature of the pressure conditions was a marked tendency to deficient pressure in Northern India and to increased pressure in the Peninsula and North Bombay.

18. *Meteorology of India during the whole south-west monsoon period, 1900.*—The following gives a brief statement of the meteorology of India, month by month, during the whole south-west monsoon period June to December 1900:

June 1900.—The conditions in India at the beginning of June were, on the whole, favourable to the establishment of the monsoon in India and its rapid extension in the interior. Conditions were, however, unfavourable in the Arabian Sea and the Indian Ocean and the meteorological data collected from ships indicated that the south-east trades were at that time below their normal strength and hence that the full advance of the monsoon currents would be considerably delayed.

The south-west monsoon rains commenced considerably later than usual on the Malabar Coast on the 11th and 12th June and extended to the Konkan on the 13th and 14th, but were feeble for some time in that area. They began earlier than usual, but somewhat unsteadily in North-Eastern India. A moderate cyclonic storm formed in the Bay on the 10th and 11th and passed by a curved path through Orissa, the eastern districts of the Central Provinces and Chota Nagpur into North Bengal. Bengal and Assam received their first general rain from the Bay current on the 12th and Bihar on the 14th.

The first burst of monsoon winds in the Arabian Sea gave showers in the Deccan and Central Provinces on the 13th June and moderate to heavy rain in the coast districts during the next fortnight, when the rainfall was almost restricted to the coast districts and the West Deccan. The monsoon current in the Arabian Sea strengthened in the last week of the month, and heavy rain fell

in the Konkan on the 26th and following days. This burst of rain extended into the interior in the first week of July, the Central Provinces and Central India receiving their first general rain on the 6th July and the North-Western Provinces on the 6th and 7th.

The rainfall of the month of June was, on the whole, favourable in Burma and North-Eastern India or in the areas dependent on the Bay current, but was in large defect in North-Western and Central India, the Central Provinces, Berar and the North and East Deccan.

July.—The Bombay or Arabian Sea current was below its normal strength throughout the greater part of July, indicated chiefly by the delay in its advance towards Upper India and by the sporadic character of the rainfall in the Deccan and Central India. Gujarat and West and Central Rajputana had moderate to heavy rain for the first time in the second week of the month. The current, however, fell off rapidly in strength on the 18th and 19th and the rainfall was light and sporadic in Western India during the next week. Fortunately, conditions changed in the sea areas to the south of India on the 26th and 27th, antecedent to, and initiating, a strong and persistent advance of monsoon winds. Heavy rain again began to fall in the West Coast districts on the 27th July and extended to the Deccan and Gujarat on the 28th. Moderate to heavy rain fell in Gujarat, Kathiawar, the Central Provinces and Rajputana during the next week and also extended into the Punjab as heavy local showers.

The Bengal current was unsteady during the month of July and a succession of four storms formed in the north-west of the Bay. These storms advanced landwards along westerly and north-westerly tracks giving bursts of moderate to heavy rain in the areas in North-Eastern India traversed by them.

The rainfall of the month of July was generally above the normal over Bengal and Assam and the southern half of the Peninsula and was in moderate to largish defect in the North-Western Provinces, the Punjab, Rajputana, Central India, North Bombay, Berar and the Central Provinces.

August.—The conditions in August were very similar to those initiated during the last week of July. The Arabian Sea current was stronger and steadier than usual throughout the month and extended to its furthest limits in the Punjab during the greater part of the month. A succession of three storms formed in the north of the Bay, two of which advanced west-north-westwards through the Central Provinces and Central India into Rajputana and the third through Chota Nagpur and the eastern districts of the Central Provinces into the North-Western Provinces. These storms gave heavy rain to the areas they traversed, and the indraught to them diminished the rainfall in Assam, East Bengal and Burma and also in the West Coast districts and the Deccan.

The rainfall of the month was in slight to moderate excess in Burma, but was more or less below the normal in Assam and the greater part of Bengal, Bihar and the North-Western Provinces. It was in slight to large excess in the Punjab, Berar, the Central Provinces, Central India, Gujarat and Kathiawar and normal in the West Coast and the South and Central Deccan.

September.—The conditions in September were similar to those which obtained in August. A moderately strong and steady monsoon obtained in the Arabian Sea and a normal but somewhat unsteady monsoon in the Bay. Three cyclonic storms formed in the Bay and advanced into the North-Western Provinces, determining heavy rain to the areas in and near their tracks and diminishing the rainfall in the areas to the north and east outside the storm tracks.

The first storm was feeble, but gave a heavy burst of rain in Berar, the Central Provinces, Rajputana and Gujarat from the 5th to the 7th. The second disturbance of the month was the most remarkable of the year. Two cyclonic storms apparently followed each other across the Orissa Coast at an interval of two days. The second of these storms was absorbed by the first in the Central Provinces and the combined disturbance intensified and was almost

stationary for some days in that area. It finally advanced slowly into the North-Western Provinces and filled up in that area on the 28th. It gave an extraordinarily heavy downpour of rain in parts of South and West Bengal. Calcutta obtained a total of 40·35 inches during the week ending 8 A.M. of 25th September or 13·44 inches greater than the heaviest total rainfall hitherto recorded in any month (*vis.*, 26·91 inches in August 1844).

The rainfall of the month of September was hence very partially and irregularly distributed. The districts affected directly by the storms, including Lower Bengal, Orissa, Chota Nagpur, the Central Provinces, the North-Western Provinces, Central India and parts of Rajputana and the Punjab, obtained much heavier rain than usual. In Assam, the Deccan and Gujarat the rainfall of the month was, on the other hand, more or less below the average. Madras and Mysore had more frequent rain than usual.

October.—The meteorology of October and November was slightly abnormal, the chief feature being the early withdrawal of the retreating south-west monsoon current from the Bay. The Arabian Sea current apparently held steadily and strongly until nearly the end of September, but withdrew rapidly from its northern limits in the beginning of October and hence later than usual.

A storm formed in the centre of the Bay and passed by a curved path through the Central Provinces into Chota Nagpur and Bihar in the second week of October. It gave light to moderate rain in parts of the Central Provinces and North-Eastern India. Numerous showers fell in the south and centre of the Peninsula in the third week of the month.

A second and more severe storm formed in the Bay in the last week of the month and passed slowly westwards across the Coromandel Coast, near Madras, into the Peninsula. The course of this storm and the character of the rainfall indicated that the south-west monsoon was retreating much more rapidly southwards than usual.

The total rainfall of the month of October was in moderate to considerable defect in Burma, Bengal, Assam, Berar, the Central Provinces, the Konkan and the Bombay Deccan and in excess only in the south of the Peninsula. The deficiency was largish in North-Eastern India, the Konkan, the Deccan and North Madras and affected the rice crops to some extent.

Several feeble disturbances affected the Persian area, Upper India and the Kashmir and Punjab Himalayas in October and November. They gave much cloud and occasional snow in Persia, Baluchistan and Afghanistan. The precipitation was apparently heavier than usual in the Western Himalayas and Baluchistan, but was small in actual amount in Persia.

November.—The Bay monsoon current withdrew unusually early in November. Practically no rain fell in North-Eastern India, Burma, Assam and the Peninsula (except the extreme south) during the month. The rainfall of the month was hence exceptionally small in these areas and the deficiency was serious in some parts of the Deccan, affecting the crops very considerably. The rainfall of the month was in considerable to large defect in actual amount in the Coromandel Coast districts and in Central and South-Central Madras. Temperature hence fell much less rapidly than usual and was in moderate to large excess over the whole of North-Western and Central India and the Deccan area.

December.—The weather was more disturbed than usual in North-Western India by a succession of three cold-weather storms in the last fortnight of the month. These storms gave moderate rain over the plains of North-Western India and moderate to heavy snow in the hills. The precipitation was in considerable to large excess, relatively to the normal, in Persia, Baluchistan and North-Western India. Temperature was generally above the normal, more especially in a broad belt stretching across the head of the Peninsula, where it was 5° to 9° above the normal on the mean of the month. Southern India received occasional showers and the rainfall in that area was in slight to moderate defect.

19. *The rainfall of the south-west monsoon period proper 1900 (June to October).*—The rainfall of the monsoon period (June to October) was from 20 to

52 per cent. below the normal in seven out of 56 rainfall divisions and less than 21 per cent. in 21 divisions. It was in excess in the remaining 26 rainfall divisions, but by more than 20 per cent. in seven divisions only. The four following tables give comparative data for the variation of rainfall in the 56 rainfall divisions grouped according to the amount of the excess or defect :

TABLE I.—*Comparative data for seven meteorological divisions in which the monsoon rainfall of 1900 was more than 20 per cent. in excess.*

Province.	Division.	RAINFALL FROM 3RD JUNE TO 13TH OCTOBER 1900.			Variation expressed as a percentage.
		Average actual.	Average normal.	Variation from normal.	
		Inches.	Inches.	Inches.	
Bengal . . .	Deltaic Bengal . . .	61·75	45·40	+ 16·35	+ 36
	Orissa	58·41	45·60	+ 12·81	+ 28
Punjab . . .	South East Punjab . .	25·55	20·74	+ 4·81	+ 23
	South Punjab	18·36	13·13	+ 5·23	+ 40
	Punjab Submontane . .	36·14	23·29	+ 12·85	+ 55
Madras	Madras South-Central .	32·47	24·33	+ 8·14	+ 33
Central Provinces .	Central Provinces East .	62·38	45·27	+ 17·11	+ 38

The rainfall of the period was hence in large excess in seven divisions, including three in the Punjab, two in Bengal and one each in Madras and the Central Provinces.

TABLE II.—*Comparative data for nineteen meteorological divisions in which the monsoon rainfall of 1900 was 20 per cent. or less in excess.*

Province.	Division.	RAINFALL FROM 3RD JUNE TO 13TH OCTOBER 1900.			Variation expressed as a percentage.
		Average actual.	Average normal.	Variation from normal.	
		Inches.	Inches.	Inches.	
Burma	Tenasserim	157·70	152·38	+ 5·32	+ 3
	Lower Burma, Deltaic .	93·59	79·89	+ 13·70	+ 17
	Central Burma	61·25	50·88	+ 10·37	+ 20
	Arakan	174·07	155·60	+ 18·47	+ 12
Bengal	Central Bengal	47·18	46·20	+ 0·98	+ 2
	Chota Nagpur	47·99	45·02	+ 2·97	+ 7
	North Bihar	46·07	44·52	+ 1·55	+ 3
Punjab	Central Punjab	16·48	13·97	+ 2·51	+ 18
	Punjab Hills	61·87	56·22	+ 5·65	+ 10
	North Punjab	14·45	12·06	+ 2·39	+ 20
Bombay and Malabar Coast Districts (Madras).	Malabar	100·86	97·09	+ 3·77	+ 4
	Coorg	128·54	109·54	+ 19·00	+ 17
	Mysore	25·28	24·95	+ 0·33	+ 1
	Bombay Deccan	29·13	25·09	+ 4·04	+ 16

TABLE II.—Comparative data for nineteen meteorological divisions in which the monsoon rainfall of 1900 was 20 per cent. or less in excess—concl'd.

Province.	Division.	RAINFALL FROM 3RD JUNE TO 13TH OCTOBER 1900.			Variation expressed as a percentage.
		Average actual.	Average normal.	Variation from normal.	
		Inches.	Inches.	Inches.	
Central Provinces	Central Provinces West	41'80	38'10	+ 3'70	+ 10
	" " Central	49'92	48'53	+ 1'39	+ 3
Bombay (North)	Kathiawar	23'42	19'71	+ 3'71	+ 19
Rajputana	West Rajputana	11'26	11'19	+ 0'07	+ 1
Madras	East Coast North	28'09	27'68	+ 0'41	+ 1

The preceding data hence indicate that the seasonal precipitation of the south-west monsoon of 1900 was in slight to moderate excess in the greater part of Burma, Bengal, the Punjab, the Central Provinces and Southern India (except the coast districts).

TABLE III.—Comparative data for twenty-one meteorological divisions in which the monsoon rainfall of 1900 was 20 per cent. or less in defect.

Province.	Division.	RAINFALL FROM 3RD JUNE TO 13TH OCTOBER 1900.			Variation expressed as a percentage.
		Average actual.	Average normal.	Variation from normal.	
		Inches.	Inches.	Inches.	
Burma	Upper Burma	33'12	39'81	— 6'69	— 17
Bengal and Assam	Eastern Bengal	68'33	72'01	— 3'68	— 5
	Assam Hills	92'44	113'84	— 21'40	— 19
	Bengal Hills	95'01	111'99	— 16'98	— 15
	South Bihar	36'39	38'08	— 1'69	— 4
North-Western Provinces and Oudh.	North-Western Provinces East.	32'17	35'40	— 3'23	— 9
	South Oudh	31'47	33'39	— 1'92	— 6
	North Oudh	34'21	35'99	— 1'78	— 5
	North-Western Provinces Central.	26'18	31'39	— 5'21	— 17
	North-Western Provinces West.	23'93	24'06	— 0'13	— 1
	North-Western Provinces East Submontane.	37'09	38'48	— 1'39	— 4
	North-Western Provinces West Submontane.	35'00	38'82	— 3'82	— 10
	North-Western Provinces Hills.	35'58	39'04	— 3'46	— 9
Bombay and Malabar Coast Districts.	Konkan	110'11	112'95	— 2'84	— 3
	Khandesh	19'52	22'79	— 3'27	— 14
Berar	Berar	32'77	34'72	— 1'95	— 6
Rajputana and Central India.	Rajputana East and Central India West.	23'14	25'33	— 2'19	— 9
Madras	Madras Central	16'50	18'47	— 1'97	— 11
	East Coast Central	16'55	18'24	— 1'69	— 9
	East Coast South	15'53	17'85	— 2'32	— 13
	Madras South	8'07	8'28	— 0'21	— 2

The preceding data show that the rainfall of the period was below the normal by less than 20 per cent. in 21 divisions. The variations were less than 10 per cent. in 13 of these divisions.

TABLE IV.—Comparative data for seven meteorological divisions in which the monsoon rainfall of 1900 was more than 20 per cent. in defect.

Province.	Division.	RAINFALL FROM 3RD JUNE TO 13TH OCTOBER 1900.			Variation expressed as a percentage.
		Average actual.	Average normal.	Variation from normal.	
		Inches.	Inches.	Inches.	
Bengal and Assam	Assam Surma	69·81	92·89	—23·08	—25
	„ Brahmaputra	44·44	56·55	—12·11	—21
	North Bengal	61·47	78 11	—16·64	—21
Punjab	West Punjab	3·50	5·86	— 2·36	—40
Bombay (North)	Gujarat	30·24	42·97	—12·73	—30
	Sind	2·66	4·20	— 1·63	—38
	Baluchistan Hills	1·07	2 25	— 1·18	—52

The rainfall of the period was more than 20 per cent. in defect in seven divisions, including three in Bengal and Assam, one in the Punjab and three in Bombay. It was in slight to large defect in Upper Burma, Assam, North and East Bengal, due to the large indraught of the Bay monsoon current in August and September to Upper India. It was also in moderate to large defect in a part of the Bombay Presidency, including Gujarat, Sind and Baluchistan and in the West Punjab, due to abnormal pressure conditions, the existence of which was noted in the June forecast.

The data of Tables I, II, III and IV show that the rainfall of the monsoon period of 1900 was above the normal in 26 divisions and below the normal in 28 out of 54 divisions of the Empire. On the average of the whole Empire it was almost exactly normal in amount. The area of greatest percentage deficiency included Baluchistan, the West Punjab, Sind and Gujarat in which the deficiency averaged 40 per cent.

20. *The rainfall of the retreating south-west monsoon period (October to December).*—The following table gives data of rainfall in the larger provinces from the 30th September to 29th December 1900.

Political Province or area.	RAINFALL FROM 30TH SEPTEMBER TO 29TH DECEMBER 1900.			
	Average actual.	Average normal.	Variation from normal.	Percentage variation from normal.
	Inches.	Inches.	Inches.	
Burma	7·62	10·53	— 2·91	— 28
Bengal and Assam	2·73	5·54	— 2·81	— 51
North-Western Provinces and Oudh	2·41	2·12	+ 0·29	+ 14
Punjab	1·08	1·00	+ 0·08	+ 8
Central Provinces	1·33	2·83	— 1·50	— 53
Berar	0·05	4·45	— 4·40	— 99
Rajputana and Central India	0·49	0·77	— 0·28	— 36
North Bombay	0·08	0·85	— 0·77	— 91
Bombay	1·01	6·41	— 5·40	— 84
Madras	10·41	14·92	— 4·51	— 30

The data of the preceding table show that practically no rain fell during the retreating south-west monsoon period, October to December, over Berar and North Bombay.

The rainfall of the period was in considerable to large defect in Burma, Bengal, Assam, the Central Provinces, Berar, Central India and the Bombay Coast districts. The deficiency was serious in parts of the Deccan where the crops were scanty and famine conditions prevailed.

There was a slight excess in the Punjab and North-Western Provinces, due chiefly to more frequent rain than usual from cold-weather storms in December.

The rainfall in the Madras Presidency was very unequally distributed, as is shown by the following statement :

Division.	RAINFALL FROM 30TH SEPTEMBER TO 29TH DECEMBER 1900.			
	Average actual.	Average normal.	Variation from normal.	Percentage variation from normal.
	Inches.	Inches.	Inches.	
Madras East Coast North	6.95	12.49	—5.54	—44
Madras Central	3.67	8.62	—4.95	—57
Malabar	10.51	15.13	—4.62	—31
Madras South-Central	10.46	13.31	—2.85	—21
Madras East Coast Central	7.70	16.30	—8.60	—53
" " " South	16.69	22.72	—6.03	—27
Madras South	16.86	15.86	+1.00	+6

The data indicate that the deficiency was relatively large in all the interior districts of Madras, averaging about 50 per cent. The precipitation in South Madras was normal and in Malabar and the Coromandel Coast districts it was in moderate to considerable defect and in the north coast districts in considerable defect.

The retreating monsoon withdrew much more rapidly than usual from the Bay and the period was characterized by the complete absence of severe cyclonic storms. The rainfall of the period was hence more or less below the normal over the Deccan and Madras Presidency except in the extreme south where occasional showers were received in December after the withdrawal of the south-west monsoon current.

21. *Chief features of the meteorology of India, January to May 1901.*—The following is a brief summary of the chief features of the meteorology of India during the past five months :

January.—A series of five depressions affected the weather in Northern India during the month, of which three probably formed over Kathiawar. They marched by more southerly tracks than is the usual rule in January. They gave cloudy weather and moderate rain over Northern and Central India. The third storm, that of 10th to the 15th, advanced from Persia and gave rise to a secondary depression in the Punjab. The double disturbance gave heavy snow in the hills and much rain in the plains of Northern India. The mean temperature of the month was below the normal to a moderate extent over the whole of Northern and Central India. It was, on the other hand, in excess in Burma and the Peninsula, the excess averaging 3° in South India and Lower Burma where it was greatest.

A noteworthy feature of the month was the abnormally cloudy weather in the Upper India hill districts. The precipitation of the month was normal or in excess over the whole of India and Lower Burma. The excess was very large, relatively to the normal, in Northern and Central India and the Deccan, where the rainfall of the month was from two to five times its normal amount.

February.—Weather was abnormally fine and settled in Persia and no cold-weather storms advanced into India from that area during the month. The conditions in India were, on the other hand, feebly unsettled throughout the month. Four shallow depressions formed over Khandesh or North Bombay and advanced across Central India. They gave numerous thundershowers to Northern and Central India and the North Deccan. Three formed in Baluchistan or Upper India and marched eastwards across Northern India. These storms gave moderate rain over North-Western India. Although the storms were feeble, they were more numerous than usual and gave general and moderate rain. The rainfall of the month was hence in very large excess, relatively to the normal, over nearly the whole of India and Burma. It is noteworthy that the rainfall was practically or absolutely *nil* in Lower Sind, West Rajputana, North Bombay and South Baluchistan, in which areas the depressions of the month originated.

The mean temperature of the month was in moderate excess in Southern India, Burma and Assam and was in slight to considerable defect in North-Western and Central India and the North Deccan.

Pressure was in local excess in Northern India and in local defect in the Deccan and Southern India and averaged $\cdot 020$ inch above the normal for the whole of India.

March.—Weather was, as in February, finer than usual in Persia. Several cold weather storms affected Northern India. These storms originated either near the north-west frontier or in North Bombay. Four of the five storms were very feeble and gave only sporadic showers. The second storm of the series was a well-marked primary with a secondary in the Central and East Punjab. It gave moderate general rain over the greater part of Northern and Central India and heavy snow on the higher ranges. An important feature of the meteorology of the month was the very scanty rainfall in North-Eastern India, Assam and Upper and Central Burma. For example, Assam Surma received only an average of $1\cdot 23$ inches, the normal fall of the month being $7\cdot 36$ inches. The deficiency in the plains of North-Eastern India, Burma (except Lower Burma) and Assam ranged between 50 and 100 per cent.

The rainfall of the month was practically normal in amount in Upper and Central India, but was more or less in defect in Rajputana, Sind and Baluchistan.

The mean pressure of the Indian area was in general excess by amounts averaging $\cdot 045$ inch. Pressure was, relatively to the general condition, in local excess in Northern and Central India and Upper Burma and was in defect elsewhere, more especially in the southern half of the Bay. Temperature was in slight to moderate excess to the west of the 77th meridian and also in Burma and Assam and was in defect in the intermediate area, more especially in Chota Nagpur and the eastern districts of the Central Provinces.

April.—Marked hot-weather conditions prevailed at the commencement of the month in North-Western India. Series of thunderstorms occurred during the first week in North-Eastern India and the Central Provinces. Pressure, which had been more or less in considerable excess ever since the middle of February, fell below the normal generally during the second week of the month. Strong westerly winds prevailed in the Peninsula and Central India. Assam received general and favourable rain. A disturbance of unusual character gave showers in the North Punjab and a heavy fall of snow in Chitral and the districts to the north on the 13th or 14th. This was followed by an intense cool wave which appeared in the North Punjab on the 14th and gradually extended eastwards and southwards during the next week, but diminishing in intensity. Frequent thundershowers were received in Assam during the week. Temperature increased above the normal in North-Western and Central India during the last week of the

month and strongly marked hot-weather conditions were re-established for a brief period in that area. Rain continued in Assam and extended to Bengal during the last week of the month. The chief feature of that period was a cyclonic storm in the Arabian Sea. It formed about the 25th in about Lat. 8° N. and Long. 60° E. and advanced in a general north-westerly direction, increasing in intensity during its northward march. The West Coast districts and parts of the Deccan received fairly general and moderate rain during the existence of the storm. The rainfall of the month was considerably below the normal in Burma. It was normal or in slight excess in Orissa, South and East Bengal and Assam, but was in largish defect in North Bengal. Practically no rain fell in the Gangetic Plain, Rajputana, Central India, North Bombay and Sind. The North Punjab received somewhat heavier rain than usual, but over the remainder of the Punjab the rainfall of the month was in moderate defect. The rainfall was practically normal over the greater part of the Deccan, Konkan and Southern India, but was in moderate excess in Malabar.

May.—Weather at the commencement of the month was disturbed with frequent thunderstorms in the Deccan area where temperature was hence very largely in defect. It was, on the other hand, remarkably dry in North-Eastern India. A disturbance of the cold-weather type affected Upper India on the 4th, 5th and 6th. It gave heavy rain in the North and North-East Punjab and severe snowstorms in the North Kashmir, including Chitral. It was followed by a cool wave of unusual intensity for some days. Temperature was from 15° to 20° below the normal in Baluchistan and the North Punjab on the 5th and 6th. Very dry cool weather hence prevailed in Northern and Central India until the 11th. Burma obtained series of thundershowers from the 9th to the 16th and Bengal from the 12th to the 21st and Southern India occasional local showers during the same period. A feeble cyclonic storm formed in the Bay on the 22nd and 23rd. It advanced by a curved path to the Akyab coast and gave moderate to heavy rain to Burma from the 23rd to the end of the month. Bengal received moderate rain on the 29th and two following days.

The mean pressure of the Indian area was $\cdot 013$ " above the normal. It was in slight relative defect in Northern India and Burma and in slight relative excess in the Peninsula and Central India. The variations of the mean temperature conditions of the month from the normal were generally small and of little importance. Temperature was generally in slight excess, more especially in Rajputana and Upper Sind, where the excess averaged $2\frac{1}{2}^{\circ}$. It was in local defect in the North and Central Punjab by amounts averaging 3° .

The rainfall of the month was in moderate excess in Burma (16 per cent.) and in very large excess in the Punjab, more especially the northern and western districts. It was normal in amount in Sind, Rajputana, Gujarat and Madras, in slight defect in Bombay, the North-Western Provinces and Central Provinces and in considerable to large defect in Bengal and Assam.

22. Larger abnormal features of the meteorology of India during the pre-monsoon period, 1901.—The meteorology of India during the past five months has been characterized by strongly marked abnormal features.

The following states the most important :

- (1) Pressure was from January to March in increasing excess over the Indian area and was normal in April and in slight excess in May, as is shown by the following statement :

Month.	MEAN 8 A.M. PRESSURE ANOMALY OF INDIAN AREA.									
	1901.	1900.	1899.	1898.	1897.	1896.	1895.	1894.	1893.	1892.
	Inch.	Inch.	Inch.	Inch.	Inch.	Inch.	Inch.	Inch.	Inch.	Inch.
January . . .	+011	-004	-003	+017	-003	-003	-009	-020	+030	+073
February . . .	+020	-008	-040	-077	-036	-012	+009	+010	+033	+051
March . . .	+045	+006	-010	-013	-026	-022	-018	-017	+044	+037
April . . .	-004	+022	-001	-017	+038	-032	+013	-010	+037	+066
May . . .	+013	+061	-019	-008	-005	+013	-007	-023	+032	+041

(7) In Tropical India the variations of temperature from the normal were, as a rule, generally opposite in character to those in Extra Tropical India. Temperature was in excess from December to April, the variations being large in January and February. It was, on the other hand, in slight defect in May. The following gives data :

Area.	VARIATION FROM NORMAL OF MEAN DAILY TEMPERATURE.						
	December 1900.	January 1901.	February 1901.	March 1901.	April 1901.	Mean of period, December to April.	May 1901.
West Coast	+1.9	+0.8	+0.3	+1.0	+1.0	+1.0	+0.7
Bombay Deccan	+5.8	+1.9	-2.3	+1.0	+0.3	+1.3	-0.2
Mysore	+2.5	+4.1	+2.3	+0.1	+1.3	+2.1	-0.2
Madras Coast	+0.7	+2.7	+1.4	-0.6	-0.2	+0.8	-0.1
Madras Deccan	+2.5	+4.1	+1.1	-0.7	+0.7	+1.5	-1.5
South India	-0.2	+2.9	+3.1	-0.6	+0.1	+1.1	+0.1

(8) The air has been much damper than usual during the greater part of the period over nearly the whole of the interior and more especially in North-Western India, Berar, the Central Provinces and the Deccan. The air was generally drier in November and of normal or slightly increased humidity in December. During the period (January to April) it was in general excess. The following gives comparative data for nine representative stations :

Station.	VARIATION FROM NORMAL OF MEAN RELATIVE HUMIDITY (i.e., PERCENTAGE OF SATURATION).						Mean of period.
	November 1900.	December 1900.	January 1901.	February 1901.	March 1901.	April 1901.	
Hazaribagh	?	+13	+15	+21	+6	-1	+11
Allahabad	-2	+1	+11	+8	+6	+2	+4

Belgaum	-10	0	+5	+10	+3	+7	+3
Bellary	-11	-7	-5	+10	+2	-4	-3

(9) The distribution of the cold and hot weather precipitation has been abnormal. The rainfall of the cold weather was more or less in excess over the whole of India with the exception of Assam and Sind. The excess was very large in the Gangetic Plain, Chota Nagpur, Orissa, the Central Provinces and Berar in which the rainfall averaged from two to five times its normal amount. It was in considerable to large defect, relatively to the normal, in the hot weather period in North-Eastern India, Central India and Rajputana. It was, on the other hand, in large excess in the

Punjab and in moderate excess in Berar and Gujarat. The following table gives comparative data showing the character and distribution of the rainfall of the two periods:

Province or Division.	COLD-WEATHER RAINFALL (JANUARY AND FEBRUARY 1901).				HOT-WEATHER RAINFALL (FROM 3RD MARCH TO 30TH MAY 1901).

SUMMARY OF THE CHIEF FEATURES OF THE METEOROLOGY OF THE SOUTH-WEST MONSOON PERIOD OF 1900 AND OF THE COLD AND HOT WEATHER PERIODS OF THE PRESENT YEAR.

23. The chief features of the meteorology of the south-west or wet monsoon period of 1900 were as follows:

- (1) The contrast between the steadiness and strength of the two branches of the monsoon currents. The Bay current was strong and steady in June and July and unsteady and somewhat feeble than usual in August and September. The Bombay current was, on the other hand, feeble and unsteady in June and July and was remarkably steady and much stronger than usual in August and September. The Bombay current was not established in full strength until nearly the end of July.
- (2) The rains, although very irregularly distributed in time, were practically normal in amount over the greater part of Northern and Central India. They were deficient chiefly in the West Deccan and Gujarat. The deficiency was serious only in the Bombay Deccan area.
- (3) The termination of the monsoon rains in North-Western and Central India, occurred slightly later than usual, in Bengal about the normal date and in Burma earlier than usual in the first week of November.
- (4) The retreating south-west monsoon gave moderate rain to the Peninsula south of Lat. 12° N., i.e., South Madras, Mysore and the North Madras coast. The rainfall during this period was scanty in the Deccan area.

24. The chief features of the meteorology of the past five months may be summed up as follows :—

- (1) The winter rains and snowfall commenced earlier than usual in the Persian area and Western Himalayas. They ceased slightly earlier than the normal date in Persia and Baluchistan. The precipitation was in defect in Persia and normal in Baluchistan.
- (2) The winter was more severe and prolonged than usual in Chitral, Kashmir and the Punjab and North-Western Provinces Himalayas. The chief features were the excessive precipitation in the middle and lower ranges from Simla to Garhwal and the late snowfall in Chitral and Kashmir in April and the first fortnight of May.
- (3) The snow accumulation was probably slightly above the normal in the Western Himalayas at the end of May.
- (4) The snowfall in the Eastern Himalayas was more or less considerably below the normal.
- (5) During the whole period from January to May the variations of the meteorological conditions from the normal in extra Tropical India were opposite in character to those in Tropical India or more exactly in India to the south of the 20th parallel of latitude.
- (6) The more important meteorological conditions of the first four months of the year were opposite in character to those of the month of May.
- (7) The variations in the first four months of the year were such as are almost invariably associated with a more severe winter and larger snowfall than usual in the Western Himalayas, *viz.*, excess of pressure, deficiency of temperature and heavier rain than usual in Extra Tropical India and increased temperature and deficient pressure in Tropical India. The variations were not large and hence were in agreement with the character of the snowfall.
- (8) In the month of May temperature was in general excess and pressure in equally general defect in Northern India. Temperature was, on the other hand, in defect and pressure in excess over a considerable part of the Peninsula. These variations almost invariably obtain in hot weather seasons of years of light snowfall. They were not very strongly marked in the present case, but indicate that the effect of the winter snowfall on the weather conditions in India had practically ceased before the end of the month.
- (9) The local variations of the pressure conditions from the normal have been throughout comparatively small. The only important features in May were a moderate excess in Western India and a moderate deficiency in Lower Burma and the Andamans. The most important feature of the general pressure conditions in May over the whole Indian monsoon area was the very slight variation from the normal conditions, in which respect they agreed closely with those of the corresponding month of 1900 (*viz.* last year's forecast).
- (10) It may be noted that the meteorology of the past two months has been very abnormal in many respects. There appears to have been more frequent and severe series of nor'westers and hailstorms. A severe cyclonic storm formed unusually early in the season in the south-east of the Arabian Sea in the fourth week of April and advanced north-westwards to the Arabian Coast. The most remarkable feature was a storm unique in its occurrence which gave a deluge of rain in the west and north-west frontier districts of the Punjab and the adjacent districts of Afghanistan in the first week of May.

COMPARISON WITH PREVIOUS YEARS.

25. Comparison with previous years is of little value as a guide unless the resemblances are strongly marked. The following gives brief descriptions of the

years 1878, 1891, 1898 and 1900 which resemble the present year in some respects. The resemblance was most pronounced in the years 1878 and 1900:

1878.—Very heavy snow fell in the Kashmir and Punjab Himalayas in January, February, April and May, and there was a very large accumulation of snow in the Kashmir Himalayas at the end of May. Temperature in North-Western India was above the normal in February and March and was slightly below it in April and very largely below in May (4° to 7° in the Punjab). The chief feature of the cold weather was the excessive snowfall in Kashmir in the latter part of May which occurred during a period of very stormy weather generally in Upper India. Pressure was steadily in defect in the Peninsula, Central India, Rajputana and Sind during the pre-monsoon period, the deficiency being greatest on the West Coast and was considerably in excess locally in Bengal and Assam.

The monsoon rains were very late in setting in and June was a very dry month. They were abundant in July, August and September, and every part of India received rainfall in excess of the normal, except Bihar, the North-Western Provinces and Central India in which there was a moderate deficiency and Burma in which there was a deficiency ranging from 10 to 20 per cent. in amount. The rainfall was especially abundant in Gujarat, the Konkan, Mysore, the Deccan and Berar. A noteworthy feature of the south-west monsoon was the excessive rain in the areas which usually receive their rainfall from the Bombay current and the very deficient rainfall in Burma.

The rainfall of September was practically normal in amount. The monsoon currents withdrew from Upper India in the fourth week of September.

The retreating south-west monsoon rains were slightly more abundant than usual, more especially in Burma.

1891.—The snowfall in the mountain regions of Baluchistan and Afghanistan was very much above the average. The winter began early in November 1890 and continued unusually late, and snow fell at frequent intervals and in large amounts during the whole of that period. The winter was exceptionally severe and prolonged in the Western Himalayas (bordering the Punjab and North-Western Provinces). The first considerable snowfall occurred in November, and snow fell more or less steadily throughout the whole season up to nearly the end of May. The amount received in the lower ranges was generally (except in the North Punjab) not much greater than usual, but on the higher and interior ranges it was excessive.

Pressure was steadily in excess from January to May 1891 over the Indian area by amounts averaging $1\cdot7$ inch. Pressure was locally in excess in North-Western India, the excess increasing from January to May. The excess was most pronounced in the Indus Valley and Baluchistan. Pressure was, on the other hand, locally in defect in Burma, Assam and the Peninsula.

The temperature conditions were as marked as the pressure conditions. Temperature was during the period (January to May) steadily below the average in Northern and Central India and above it in Burma and the Peninsula. The deficiency in Northern India increased until the month of March, in which month temperature was 6° in defect over the greater part of North-Western India. Temperature decreased throughout April and May, and at the end of the latter month it was slightly above the average in North-Western India and increasing rapidly. The excessive temperature over the Peninsula and North-Eastern India was most marked in Burma, and the excess increased from January until May, when the mean of the month was upwards of 4° above the normal over the greater part of that province.

The south-west monsoon of 1891 was greatly delayed and was not fully established on the Bombay Coast until nearly the end of June. In the North-Western Provinces and East Punjab the rains did not set in properly until the last week of July. Notwithstanding this prolonged delay in the establishment of the monsoon currents in Upper India, the rainfall of the monsoon period was very largely in excess in the large area, including the North-Western Provinces, the eastern districts of Rajputana, Central India and the Central Provinces, due chiefly to steady heavy rainfall in the months of August and September.

The great indraught of the monsoon currents to this area of excessive rainfall diminished the rainfall in the remainder of India—more especially in West

and Central Rajputana and North Bengal and Bihar—and the rains practically failed in West and Central Rajputana. The rains ceased almost simultaneously over the whole of Northern and Central India at the beginning of the second week of October (from the 5th to 8th), and the area of heavy general rainfall was immediately transferred to South Madras, which continued to receive moderate to heavy rain during the next two months.

1898.—The weather was less disturbed and drier than usual in January. It was, on the other hand, somewhat more unsettled than usual in February in North-Western India, and the precipitation of the month was generally above the normal in the plains of India. The snowfall of the winter of 1897-98 was much less than usual over the whole of the Western Himalayas and probably also in Afghanistan, Chitral and in Baluchistan. The hot weather was even drier than usual over nearly the whole of India. There was a heavy and somewhat abnormal fall of snow in the second week of May over the whole of the Western Himalayas.

The south-west monsoon currents were, on the whole, favourable as rain-distributing winds. The rains commenced on the 9th and 10th (somewhat later than usual) on the Malabar and Konkan Coasts. They began on the 16th on the Bengal Coast and hence about the normal date. The humid currents extended rapidly into the interior and gave general rain from the 14th to the 18th. The first burst in the Arabian Sea was, however, feeble and the current withdrew temporarily from Upper India on the 19th. A short break obtained over the whole country from the 25th to the 28th when rain re-commenced. Both currents gave satisfactory rain in July. The Bombay current was weak in August and was determined more largely than usual to the Peninsula and North-East India in September.

The rainfall of the monsoon period was in moderate excess in North-East India, normal in the Peninsula and more or less in defect in North-West India.

1900.—Heavy snow fell in the Western Himalayas in February and frequent snow in April and the first half of May, occasionally down to 5,000 feet. January and March were, on the other hand, drier than usual. The winter snowfall was probably in moderate excess on the higher ranges in Kashmir and Chitral and in Kumaon and perhaps the Assam Himalayas.

The first advance of the monsoon current in the Arabian Sea took place at the end of the second week in June. It was, however, weak and failed to extend beyond Bombay. The current was feeble during the next month, and it was not until the last week of July that the humid currents penetrated to Upper India. The Bombay current was very strong in August, moderately strong in September and withdrew from Upper India somewhat later than usual.

The rainfall due to the Bombay current was abundant on the West Coast, normal in the Central Provinces, Central India and Rajputana and in slight to moderate defect in the interior of the Peninsula.

The Bengal current was above its normal strength throughout the greater part of the season and gave favourable rain to Burma and North-Eastern India. The rainfall of the season was normal in amount in the Punjab and North-Western Provinces where, however, it occurred chiefly in August and September.

GENERAL CONDITIONS IN THE INDIA MONSOON AREA, SOUTH AFRICA AND THE INDIAN OCEAN.

26. Theory indicates that any large and persistent variation in the strength of the south-east trades would be reproduced in the strength of the south-west monsoon. A variation in the strength of the south-east trades was probably the chief or primary factor in determining the variations in the south-west monsoon in India during the past year—more especially the weakness of the Arabian Sea current in the early part of the monsoon period and its strength in the months of August and September. It is hence desirable to ascertain the chief meteorological features of the areas dominated by the south-east trades during the past three or four months, in the hope that this information may give a valuable indication at the present time of the probable general strength of the approaching monsoon. The following is a summary of the information received, partly by letter and partly by telegrams, from South Africa, the Seychelles, Zanzibar, Mauritius and Cape Town and partly from the logs of ships regarding this important factor.

27. South Africa.—The following interesting summary of the weather in South Africa from November to April has been received from Mr. Hutchins, Conservator of Forests, Cape Colony :

"I attach a statement showing percentage of rainfall at various selected stations in South Africa for this summer south-east season October to March. The weather for this period, influenced possibly by the abnormal condition of the sun, shows peculiar and abnormal features. During October the weather was nearly normal, though some slight excess rainfall at western stations (rising to as much as 142 per cent. at Ceres the highest and wettest of the inland western stations), and light drought at eastern stations show a slightly delayed arrival of the south-east trade.

"During November heavy south-easters began to prevail, bringing down the rainfall at western stations to a little below the average, but not as yet affecting the eastern stations. During December the south-easters, as I think I mentioned in my last note to you, blew with terrific force in the Cape Peninsula and at the western stations, and their effect made itself felt in the increased rainfall which you will see in the statement attached beginning at Robertson in the south-west of Cape Colony and extending right across the sub-continent to Salisbury. Kimberley and Durban with their rainfall rather below the average are local exceptions. On the shores of False Bay the south-east wind was stronger than at any time since 1895. Early in January, however, there came a change ushering in the peculiar feature of the season. The strong south-east winds began to take on a cyclonic character and during the month three depressions, altogether abnormal for the time of the year in their depth and strength, passed across from east to west. These depressions had the character of those of higher latitudes; in fact, they were deeper and stronger than we usually get during winter. (Our summer depressions are usually shallow and weak.) The first of these deep depressions passed during the last week in December. On the 15th of January the barometer fell to 29.683" at the Royal Observatory, Cape Town, and to 29.472" at Agulhas, our most southerly station. Soaking rains, altogether unprecedented for the time of the year, fell, as the barometer rose—as much as five inches rain in one day, at Kenilworth near Cape Town where I live. This surpasses, not only all summer, but all winter records. The rain was equally heavy in proportion all over the south-west of Cape Colony, but it is noticeable that on Table Mountain between 2,000 and 3,000 feet the rain was not so heavy in proportion. After this memorable 15th of January, the barometer did not rise much and on the 18th came another fall nearly as remarkable.

"Rain again fell in torrents in Cape Town and the suburbs. These depressions seem to have been what the Australians call Antarctic with the following features of high latitude depressions :

- (1) Rain before the bottom of the barograph curve instead of, as usual, after it.
- (2) Unusual depth even for winter.
- (3) Wind-veer before the barometer movement instead of, as is normally the case here, after it.

"The following statements extracted from the *Cape Argus* of the 20th January have been verified :

"The rainfall this month has already beaten the record, which at the Royal Observatory goes back to 1842. Up to 9 A.M. on the 19th instant the gauge at the Royal Observatory registered 3.31 inches which fell as follows :

	Inches.
January 5—6	0.34
" 6—7	0.18
" 19—20	0.18
" 15—16	1.28
" 18—19	1.33
Total	3.31

"The total rainfall in January has only exceeded 2 inches on three occasions, namely, in 1850, 2·07 inches; 1846, 2·41 inches, and the old record in 1845 of 3·18 inches. It will be thus seen that the record has been easily broken this year with 13 days yet to spare. The average rainfall for this month of the last ten years was only 0·56 inch. It is not unusual for the rainfall to be less than a tenth of an inch in this month, and sometimes there is none at all.'

"This abnormal weather continued during January and died away during the early part of February. Remarkably low temperatures prevailed during January and February as the result of the abnormal storms and rain. It was remarked that the sun seemed powerless to ripen the grapes which hung rotting in the vineyards. During January the average rainfall at seven selected average stations in the Cape Peninsula was sixteen times the normal. This heavy rain extended inland, as mentioned, over the south-west of the continent. It flooded rivers and ruined the grape crop as is shown by the following extract from the *Cape Times* :

"*Herman, January 19th.*—The weather is most miserable and unseasonable, the rainfall being more than in any winter month. The Berg River has been in flood for days, and the grape and sweet potatoes and garden crops along the river will be greatly damaged, if not totally ruined.'

"At Ceres there fell seventeen times the average : at Drakenstein, near Paarl, twelve times the average. At the same time, exactly as happens with winter storms, the south-east of the Colony showed a deficient rainfall, though not to a great extent. Durban and East London on the coast (as also usually happens with these storms) show little or no deficient rainfall. Durban shows the effect of the storms in a low average barometer. Rhodesia, as we shall see presently, was not touched by them.

"After the early days of February up till now, the weather may be described as normal, with, generally, a moderate excess of south-east wind strength, bringing good rains to all that part of the continent watered by the south-east summer rainfall. Magistrates' reports in the Transkei, Halse at Cernarvon, Forest Officers' reports at Hanover, etc., concur in this. (See also the rainfall return.) An observer at Port Elizabeth remarks on the extraordinary preponderance of south-east winds there during February and March. During the last three weeks there has been a noticeable absence of the early winter storms which should have begun to make themselves felt at this season. The barograph shows a gently undulating line, and thus the storms which we had in such extraordinary excess in January are now in defect. Durban and Kimberley seem now getting the rains which most other places got earlier. At Kimberley the weather has been summed up to me in a telegram as being this year two months late."

"At Port Nolloth this summer the wind is described as about the normal. This is a practically rainless locality.

"The above relates to Cape Colony and Natal. From Orange River Colony and the Transvaal I have no figures, but in Rhodesia, Salisbury shows a rainfall of 41 inches to the end of March with a heavy excess during January. Bulawayo rainfall is 24 inches to the end of March which is rather above the average.

"The good south-east summer rains of this year were predicted in my annual forecast; the extraordinary storms of January were not. Possibly they were caused by the same solar influence which Sir Norman Lockyer holds caused the last Indian famine, *vide* his paper on Sunspot influence read before the Royal Society in November last.

"To resume, south-east winds and rain have this summer been generally above the average, but unsteady. The unprecedented storms of January on the southern coast suggest the continuance of those abnormal solar conditions which Sir Norman Lockyer holds caused the last Indian famine."

Percentage variation of rainfall from November to March at 29 stations in South Africa :

The following telegram giving the weather from middle of April to the 25th of May was sent by Mr. Hutchins on the 25th :

"The south-east trades were above their average strength this summer, but were unsteady. There were series of storms of unprecedented strength in January. These conditions appear to point to the continuance of the solar disturbing influence which Sir Norman Lockyer maintains caused the last Indian famine. The weather since the middle of April has been characterized by a somewhat early decline of the south-east trades and by the early setting in of winter, at least two weeks earlier than usual with the appearance of a deep depression of the winter type and heavy rain on the 12th. The following gives the variation of the rainfall from the normal in April in the chief districts of the Cape Colony :

Western districts, 51 per cent. in defect ;
 South Coast districts, 26 per cent. in defect ;
 Eastern districts, 29 per cent. in defect ;
 Karoo, 86 per cent. in excess ; and
 Kimberley, 11 per cent. in excess.

At Durban the weather and rainfall of the month were practically normal ; at Bulwayo weather is abnormally fine and cold and at Salisbury it is drier than the normal, but not so dry as in the corresponding period of last year.

Mr. Hutchins finally telegraphs on the 1st June : "Early winter rains continue at Cape Town. Seven inches of rain fell last week in the suburbs of Cape Town."

28. *Central Africa*.—The rains commenced in Lat. 5° in the Soudan about the end of March. Broken weather with thunderstorms obtained as far north as Lat. 10° N. in April. The rains in that district are said to be earlier than last year. According to telegraphic information published recently in Indian Newspapers, the Nile began to rise at Khartum on the 1st May, and there appears to be every probability of a fair Nile flood this year. The Victoria Nyanza is reported to have risen two feet above the highest recorded water-mark.

A telegram, dated the 1st June, received from Cairo, states that stations in the Soudan south of Khartum report southerly winds and the prevalence of thunderstorms with rain during the preceding fifteen days.

29. *Seychelles*.—The weather telegrams received from this station in May show that pressure was slightly lower than usual. Winds were much stronger than usual and were steady and normal in direction. The mean air movement of the month averaged about 70 per cent. above the normal. The rainfall of the month was slightly above the normal. At the end of the month pressure and other conditions were normal.

30. *Zanzibar*.—The observations recorded at this station in April show that trade winds obtained throughout the month and were giving considerably heavier rain than usual. The total rainfall of the month was 18.10 inches, or practically 50 per cent. above the normal of the month (12.2 inches). The winds were, on the average of the month, about 10 per cent. above their normal intensity and were slightly more westerly than usual. Pressure in May as in April was below the normal, the greatest deficiency occurring in the second week of the month. Winds were throughout the month more westerly than usual. (from S.S.W., instead of from S. 5° E.). The wind velocity was also throughout the month above the normal by amounts averaging 20 per cent. The rainfall was excessive, the total amount from the 4th to the end of the month being 17 inches, or double the normal fall of the month which is only 8.8 inches. Weather was during the greater part of the month squally and more stormy than usual.

31. *Mauritius*.—The information from this island is less than usual, but agrees in its main features with the weather during the same period in South

Africa. Pressure was above the normal in January and February, but was below it in March, April and May, the deficiency being greatest in April. Winds were slightly stronger during the last fortnight of May, but were very unsteady. Conditions are reported to have been abnormal for some time past and the weather in May resembled that which usually obtains in April.

32. *Information derived from ships entering the Ports of Bombay and Calcutta.*—The information received from ship's logs is very scanty. The data obtained from four or five vessels from the Cape or Mauritius to Bombay show that in the latter half of May the south-east trades were strong and probably stronger than usual in the south and west of their usual area of extension in May, but were somewhat weak and unsteady with squally variable weather in the central area to the south of Ceylon. The S.S. *India* from Mauritius to Colombo had moderate to strong south-west winds with showery weather on the 26th and 27th to the south-west of Colombo. The S.S. *Orono* from Mauritius to Bombay had squally weather with winds very variable in strength and direction between Lat. 13° S. and Lat. 5° N. on the 21st and seven following days.

Light variable winds obtained during the month over the whole of the Arabian Sea, except near the coasts, where moderate to strong winds prevailed.

The belt of strong local sea winds which usually prevail off the Sind and Kathiawar Coast did not extend more than 150 to 200 miles from the land off the west coast of India.

The mail steamer *Persia*, which arrived in Bombay on the 31st May, had light variable winds in her passage from Aden. Her log shows that pressure was practically normal over the sea area between Aden and Bombay; in this respect differing from the conditions in the latter part of May 1899 when there was a considerable excess of pressure which persisted steadily throughout the monsoon period.

33. *Summary of the preceding information.*—The most important facts relating to the south-east trades region are:

- (1) The past five months have been much wetter than usual over the greater part of South and Central Africa. The meteorological conditions of that area resemble in some respects those of 1899, but differ entirely from those obtaining in 1895, 1897 and 1900.
- (2) The available data indicate that the meteorological conditions in South and probably Central Africa have been very remarkable and abnormal, and that the rainfall during the past six months is the heaviest on record and probably for over 100 years.
- (3) Although the rainfall has been almost unprecedented in amount, the northward march of the rainfall in East Africa has apparently been quite normal. The northward march in South Africa began a fortnight earlier than usual and was followed by much drier weather than usual in the Cape Colony. The northward march of the humid currents gave excessive rain in Central Africa in March, April and May (the normal period) and the information from Egypt indicates the northward extension to the Soudan slightly earlier than usual.
- (4) The information from Zanzibar and the Seychelles suggests that the south-east trades in May were much stronger than usual in the north-westward part of the extension of these currents. The pressure conditions at these stations and Mauritius were normal at the end of May.
- (5) The information obtained from ship's logs shows that at the end of May fine weather with light variable winds and a smooth sea obtained over the whole of the Arabian Sea to the north of Lat. 8° N., and that weather was showery and squally near the Equator to which the south-east trades had extended. There were indications shown by the observations recorded at observatories on the Ceylon and South Malabar Coasts that an advance of south-west monsoon winds or burst of the south-east trades across the Equator was in slow progress.

The information hence indicates that the south-east trades were probably stronger than usual at the end of the month, and that conditions were favourable for their early extension as south-west monsoon winds into the Arabian Sea.

The pressure conditions in the north and centre of the Arabian Sea as well as in North-Western India in the beginning of June are favourable to an early advance of monsoon winds and to a monsoon of at least normal strength. The only doubtful factor is the tendency of the humid currents to give excessive rain in East Africa thus perhaps indicating an abnormal westerly determination; but so far as can be judged, this is not likely to affect the monsoon in India to any unfavourable extent.

FORECAST OF THE SOUTH-WEST MONSOON OF 1901 IN INDIA.

34. *The probable strength and general character of the south-west monsoon.*—In the preceding pages have been given for future reference the most important data utilized for the preparation of the following forecast :

The most important points for determination under this head are—

- (1) The probable general strength and character of the monsoon currents, as rain-giving and distributing currents.
- (2) The relative strength of the two currents, *viz.*, the Arabian Sea and the Bay currents.

The first point is, in the absence of much necessary information, the most difficult to estimate, and the conclusions arrived at below should, it may be again noted, be considered as probabilities based on very imperfect information.

35. The chief factors or indications that have to be taken into consideration for the determination of the probable general strength of the monsoon currents during the present year are the following :

- (1) The phase of the sun spot periodicity.
- (2) The strength of the south-east trades winds (as indicated by the information received from South Africa, Mauritius, Zanzibar and the Seychelles), and more especially, the partial similarity between the first five months of the present year and the corresponding period of the year 1899.
- (3) The general experience of the succession of seasons in India, and hence of a weak monsoon in one year being followed by a strong monsoon during the next year.
- (4) The general meteorological conditions of the Indian monsoon area during the past six months and more especially during the hot weather months of April and May.
- (5) The character and period of the winter snowfall in the Western Himalayas and Persian area.
- (6) The strength and character of the monsoon and distribution of the accompanying rainfall in previous years of similar conditions in India.

36. The following is a brief statement of these factors in the present year and the chief inferences derived from their consideration :

- (1) The connection between sun spot periodicity and rainfall in India has been recently discussed in a paper read before the Royal Society. In that paper it was pointed out that the drought and famine of 1899 coincided with a remarkable variation in the sun indicating higher temperature than is usual before and at the minimum epoch of the sun spot period. Mr. Hutchins in his memorandum (page 36) suggests that these remarkable conditions have not yet passed away, and has hence inferred the possibility of another abnormal year and possible large deficiency of rainfall. Solar observations at Kodaikanal and Poona indicate, however, that the minimum epoch is past. Sun spots are again appearing on the sun's surface and the iron lines, the absence of which in the spectra of the sun spots was the chief

factor are re-appearing. I have also been informed that the present phase of the sun spot period is similar to that of the year 1878 and (to a less extent) that of 1889. These years were characterized by favourable and abundant rains. The indications for good rains based on this factor are hence favourable for at least normal monsoon rains.

- (2) The information received from South Africa and the Indian Ocean indicates that the south-east trades are above their normal strength and have given unusually abundant rain during the past six months in the land areas. The rainfall in South Africa was unprecedentedly heavy in January and February, in this respect resembling the rainfall in the same area in the corresponding period of 1899. Zanzibar and probably Central Africa received very heavy rain in April and May of the present year as in 1899. There is hence a considerable resemblance between the two years. In 1899 the rains continued in South Africa through May, June, July and August, whereas in the present year they ceased earlier than usual in April and the area of the heavy general rain has advanced northwards through Central Africa at the normal rate as is shown by the fact that the South Soudan began to receive its monsoon rains about a fortnight earlier than usual. The abnormal features of 1899 which gave rise to the very weak monsoon of that year and the failure of the Bombay rains are hence absent from the conditions of the present year. The most probable inference is that the south-east trades are unusually strong and that their continuation, the monsoon currents, will be equally strong and will give normal to abundant rain. The only doubtful element is the conditions in Central Africa which may possibly be such as to continue during part of the monsoon period the abnormally strong indraught into East Africa which prevailed in April and May, to the detriment of India. The information from Cairo, brief as it is, is opposed to this supposition. Hence, so far as the whole of the available information goes, it is certain that the south-east trades are strong, and it is very probable that their continuation, the south-west monsoon currents, will be of at least normal strength and give at least normal rain on the average of the whole Indian area.
- (3) An examination of the rainfall data of India for many years gives the following results:
 - (a) Years of very deficient rainfall are in about five cases out of six followed by years of normal rainfall or of slight excess.
 - (b) Years of deficient rainfall occasionally occur in pairs, the most notable examples during the past thirty years being 1876-77, 1895-96 and 1899-1900. A year of deficient rainfall is followed in about one out of four cases by a second year of deficient rainfall.
 - (c) Years in which the rainfall is very largely in defect are in about two cases out of five followed by years of much heavier rain than usual.
 - (d) The probability of two years of deficient rainfall being followed by a third year of very deficient rain is very small, no such case having occurred during the past 25 years.

The experience of the past 40 years hence indicates that the probability of the present year being one of diminished monsoon rainfall is very slight.

- (4) and (5) The distribution of the winter snowfall and the temperature and pressure conditions from January to April were undoubtedly slightly unfavourable to an early or strong monsoon. Important changes, however, occurred in May establishing conditions generally favourable over the whole of India (except the North Punjab). The pressure conditions over the Arabian Sea and the eastern half of the Indian Ocean were at the end of May normal. The conditions in

India, the Arabian Sea and the Bay of Bengal are undoubtedly favourable for a normal to a strong monsoon over nearly the whole Indian land area.

- (6) The following gives the years of more or less similar conditions :

1878, 1884, 1885, 1889, 1891, 1893, 1897 and 1900.

The years of closest resemblance are 1878, 1891, 1898 and 1900. The consideration of the rainfall in these years and its relation to the pre-monsoon conditions of winter snowfall, pressure and temperature indicates that it is very probable the monsoon rains on the average of the whole of India will be in excess, and that the excess will be between 2 and 4 inches, or between 5 and 10 per cent. of the normal amount.

37. The conclusions derived from the consideration of the whole of the facts are—

- (1) *Judging from the conditions in India and the known conditions in the Indian seas and ocean, it is, on the whole, very probable the monsoon currents of the present year will be, as rain distributing currents, of at least normal strength on the average of the whole season and probable that they will be stronger than usual. It should, however, be noted that the heavy rainfall of the past two months in Central or Equatorial Africa points to the possible existence of conditions in that area unfavourable to a strong monsoon in India. So far as can be judged from the available information the probability of this effect is very small.*
- (2) *The average rainfall of the whole of India will probably be between 2 and 4 inches, or 5 and 10 per cent. in excess.*
- (3) *It is probable there may be a slight delay in the establishment of the monsoon currents on the Bombay Coast. The delay will very probably be slight, and it is probable that the rains will set in fully on the Bombay Coast before the middle or end of the second week of June. The monsoon rains will probably begin about the normal date, in the third week of the month, on the Bengal Coast.*
- (4) *The Bombay current is more likely to be above its normal strength than the Bay current.*

38. **The probable distribution of rainfall in India.**—The chief features or local conditions in India which have to be taken into account in estimating the probable distribution of rainfall during the approaching monsoon due to normal or slightly stronger monsoon currents than usual are :

- (1) The distribution of the winter snowfall in the mountain areas to the north and north-west of India.
- (2) The abnormal features of the pressure, temperature and humidity conditions of the past five months and more especially the temperature and pressure conditions in May. It is assumed that no large changes of these features will occur during the period of delay of the monsoon in June.

39. The following inferences respecting the distribution of the south-west monsoon rains of 1901 in India are deduced from the comparison of the antecedent conditions of the present year with those of previous years and are based chiefly on the facts and data stated above :

- (1) Conditions are favourable generally in Burma—more especially in Lower Burma. The rainfall of the period will probably be in excess in Lower and Central Burma and about normal or in slight defect in Upper Burma.
- (2) Conditions are practically normal in Assam and Bengal and are very slightly more favourable in East and North Bengal and Assam than in West Bengal. These areas will probably receive about normal rain. The rainfall is more likely to be excess in East and North

Bengal than in South-West Bengal. The rainfall in Assam will probably be normal or in slight excess.

- (3) Conditions are almost as favourable in Bihar and Chota Nagpur as in the North-Western Provinces. It is probable that the rainfall will be normal in Chota Nagpur and normal or in slight excess in Bihar.
- (4) Conditions are favourable in the North-Western Provinces—more especially in the eastern districts where there is a local deficiency of pressure of some importance. It is very probable that the rainfall will be in slight to moderate excess, except in the south-western and western districts, where it may be normal.
- (5) Conditions are slightly unfavourable in the Punjab, due chiefly to the excess of pressure in the northern districts—a residual effect of the late heavy snowfall in Kashmir and Chitral. On the supposition of a monsoon of normal strength, it is probable that the monsoon rainfall of the present year will probably be about normal in the eastern districts and below the normal to a moderate extent in the western and northern districts. The character of the rainfall in this area, however, depends chiefly on the general strength of the monsoon and not on the local conditions, and these conclusions should be suitably modified if the monsoon turns out to be stronger than is assumed in drawing up the forecast.
- (6) Conditions are, on the whole, favourable in Rajputana—more especially in the eastern and central districts. The monsoon rainfall will hence very probably be normal or in slight excess. The rainfall in Rajputana, as in the Punjab, depends chiefly on the general strength of the monsoon, and hence if the Bombay monsoon current be strong, the rainfall may be favourable and in excess over the whole area.
- (7) Conditions are almost as favourable in Central India as in the North-Western Provinces, and it is probable that area will receive about normal rainfall. The rainfall is more likely to be in excess in the eastern than the western states.
- (8) Conditions are, on the whole favourable in the Central Provinces and Hyderabad. It is hence probable that these areas will receive at least normal rainfall. The conditions are slightly more favourable in the eastern than the western districts of the Central Provinces, and it is hence probable that the eastern districts may receive rainfall in slight to moderate excess of the normal. They are very slightly less favourable in Hyderabad than the Central Provinces, and the rainfall in that area will probably be normal or in slight excess.
- (9) Conditions are practically normal in Berar and Khandesh, and the rainfall in these areas will probably be about normal. They are more favourable in the West Deccan and that area will very probably receive its normal fall.
- (10) The conditions in the west coast districts are such as are, in years of normal monsoon conditions, usually associated with normal rainfall. It is hence probable that the rainfall of the present year's south-west monsoon will be in moderate to considerable excess in those districts, if, as is not probable, the rains are not greatly delayed. It is probable it will be normal in Malabar.
- (11) The variations of the rainfall in the North Madras Coast districts are in at least five years out of six similar to those of Orissa and the Central Provinces. Conditions appear to be, on the whole, favourable, and it is probable those districts will receive about normal rain.
- (12) A comparison of the conditions in the Madras Deccan, Mysore and the Carnatic with those of similar years indicates that the rainfall

during the period—June to September—will probably be in slight excess in Mysore and the Deccan—more especially in Mysore and normal or in slight defect in the Carnatic. It is difficult to forecast for this part of India, as rain in the southern half of the Peninsula during the monsoon proper occurs chiefly during the intervals of breaks in the rains in Northern India, and is hence essentially of irregular occurrence.

40. It should be carefully noted that the preceding probabilities are obtained on the assumption that the currents will be about normal or slightly stronger than usual. They will require to be suitably modified if the monsoon currents should be much weaker than is anticipated from the data. It should also be noted that the chances for an inference stated to be very probable are at least 5 to 1 and for an inference stated to be probable at least 5 to 2.

JOHN ELIOT,

*Meteorological Reporter to the Government of India
and Director General of Indian Observatories.*

SIMLA ;

The 6th of June 1901. }

J. B. FULLER,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on
Saturday, the 1st June, 1901.

The barometer rose briskly to very rapidly on the Arakan Coast on Sunday morning. The cyclonic storm off that coast on Saturday had crossed the coast near Akyab and had advanced inland, but had nearly filled up and only a shallow residual depression of no importance was shown in Upper Burma. The storm had given moderate to heavy rain in Upper and Central Burma and on the Arakan Coast, the largest amounts reported being: Kindat 6·04 inches, Akyab 1·49 inches, Yamethin 1·23 inches and Bhamo 1·20 inches. For the next three days light to moderately heavy rain was received in Burma, but winds grew light and unsteady in Lower Burma and rain decreased towards the end of the week. Only a few local showers were reported on Saturday.

The trough of low pressure in Northern India was lying along the Himalayas on Sunday, but on Monday it was displaced to the south, thus rendering conditions favourable for the extension of easterly winds up the Gangetic Plain. With slight variations from day to day, the position of the trough of low pressure continued practically unchanged during the remainder of the week, and easterly and south-easterly winds extended north-westwards and on Saturday were blowing over the south and east of the Punjab where they formed part of the cyclonic circulation round the hot-weather depression over the western desert. Showers were general over the whole of Bengal on Wednesday, Thursday and Friday, and on Saturday had extended into the submontane districts of the North-Western Provinces and of the East Punjab. The hot-weather depression in North-West India intensified on Friday and Saturday and gave duststorms and slightly unsettled weather in Upper India at the end of the week. Thunderstorms have occurred in the west and south of the Peninsula and were more numerous in the latter area on Thursday and Saturday. A few thunderstorms have also occurred in the Central Provinces due to a shallow depression which formed in the western and central districts on Thursday.

The most important feature in the temperature conditions of the week has been the steady rise of temperature in the North Punjab. The defect over that area noticed in last week's report disappeared entirely by Tuesday, and from that day mean temperature has been above the normal at both the hills and plains stations, thus showing that the late snowfall in the Kashmir Himalayas has ceased to influence the temperature conditions in North-West India.

Rain.—The rainfall of the past week has been in moderate to large defect in Tenasserim, Lower Burma, Arakan and Assam. It has been normal or in excess in Central and Upper Burma, Eastern, Deltaic and Central Bengal, Bihar, North Oudh, the hills and the submontane districts of the North-Western Provinces, the Submontane Punjab, Mysore, East Coast (North) and South Madras. It has hence been in defect over the greater part of the country; and has, generally

speaking, been in excess only in the area in Burma affected by the storm at the beginning of the week, and in parts of Bengal and the submontane districts lying along the Central Himalayas where showers have been given by the southerly and easterly winds from the Bay of Bengal.

The largest amounts received at individual stations are as follow :

Central Burma	.	.	Mindanao	12.61 inches.
Upper Burma	.	.	Mandalay	6.93 "
			Shwagun	7.20 "
			Bhamo	5.39 "
			Kindat	9.81 "
			Sagaing	5.71 "
			Magók	6.81 "
Arakan	.	.	Akyab	5.90 "
Assam	.	.	Sunamganj	6.91 "
			Cheera Poonjee	6.71 "
East Bengal	.	.	Gournadi	6.14 "
			Brahmanbaria	5.75 "
			Dacca	5.03 "
			Mymensingh	7.66 "
Central Bengal	.	.	Azimganj	6.28 "
			Bogra	5.29 "
			Naogaon	5.03 "
North Bengal	.	.	Pirganj	5.83 "

The last three columns of the table at the end show that the rainfall of the period March 3rd to June 1st has been practically normal in Upper Burma, Deltaic and Central Bengal, Chota Nagpur, North Bihar, the east division of the North-Western Provinces, the Punjab Hills, Sind, Berar, the central and east divisions of the Central Provinces, Mysore, Coorg, the Konkan and the central and south central divisions of Madras.

It has been in excess by 20 or more per cent. of the normal in only eight divisions and in defect in all the remaining divisions. The eight divisions are : the east submontane division of the North-Western Provinces, the central, submontane, north and west divisions of the Punjab, the Bombay Deccan, East Coast (North) and South Madras.

The largest actual defect occurs in Tenasserim (10.52 inches), Arakan (18.93 inches), the Surma Division of Assam (21.58 inches), the Assam Hills (12.80 inches) and the Bengal Hills (10.37 inches).

PROVINCE.	DIVISION.	RAINFALL DATA FOR WEEK ENDING JUNE 1ST, 1901.			RAINFALL DATA FROM MARCH 3RD TO JUNE 1ST, 1901.		
		Average actual rainfall of division.	Average normal rainfall of division.	Excess or defect in inches.	Average actual rainfall of season to date.	Average normal rainfall, March 3rd to June 1st.	Excess or de- fect of (sea- sonal) rain- fall expressed as a per- centage.

W. A. BION;

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. B. FULLER,

Off. Secretary to the Government of India.

SIMLA, 6th June, 1902.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the
1st June 1901.

Madras.—The rainfall was up to the average in Vizagapatam, Bellary, Madura and Tinnevely, moderate and below average in the West Coast districts and the Nilgiris, *nil* in the Carnatic and light elsewhere. Water-supplies are low in parts of the Deccan and the West Coast districts, Chingleput, North Arcot, Salem and Madura. Ploughing, sowing and transplanting for the new season are in progress. The small areas of standing crops, mostly under irrigation, are in fair condition and some have been harvested with moderate outturn. Pasture generally is scanty, but fodder is available. Cattle for the most part are in good condition. Prices are almost stationary, except for some rise in Coimbatore. Prospects generally are fair. Numbers on relief—Cuddapah—weavers—men, 1,757; women, 1,385; on test-works—men, 847; women, 960; children, 121; total, 1,928. North Arcot—test-works—men, 60; women, 42; total, 102.

Bombay.—Moderate rain fell during the week in parts of Satara and there was a slight fall in parts of Ratnagiri, Khandesh, Ahmednagar, Poona, Sholapur, the Karnatak and Kanara. The outturn of crops is good in Sindh, fair to good in the Konkan, Surat, Khandesh, Satara and Rajkot and parts of Poona and Broach and moderate to poor elsewhere. Spring crops have been slightly damaged by locusts in parts of Karachi and Thar and Parkar. Reaping of spring crops has been completed in almost all districts. Threshing is still in progress in Shikarpur. Preparations for the autumn crops generally are in progress. Autumn sowings are going on in parts of Shikarpur, Thar and Parkar, Ratnagiri, Poona, Satara, the Karnatak and Kanara. The fodder-supply is sufficient, except in parts of Sholapur and Dharwar. Agricultural stock is in good condition, and generally is sufficient, except in the Panch Mahals and in parts of Nasik, Bijapur and Dharwar, where deficiency is being met by *takavi* grants. The water-supply is becoming deficient in parts of Thar and Parkar, Nasik, Ahmednagar, Sholapur and Baroda. Prices have fallen in three districts, risen in four districts and are stationary elsewhere. The price of rice is about normal in Gujarat and slightly over normal in the Deccan, the Konkan and the Karnatak, but easier than in 1900. The price of *bajri* is about normal in Gujarat, over normal in the Konkan and considerably over normal in the Deccan and the Karnatak and, compared with 1900, is easier in the Konkan and the Karnatak and considerably easier elsewhere. The price of *juar* is about normal in Gujarat and considerably over normal elsewhere and, compared with 1900, is easier in the Konkan and the Karnatak and considerably easier elsewhere. The price of wheat is over normal in

the Konkan and Gujarat and considerably over normal in the Deccan and the Karnatak and, compared with 1900, is about the same in the Konkan and easier elsewhere.

Daily average numbers on relief—British districts—on test-works, 698; on relief-works, 261,059; dependants, 37,387; total on works, 299,144. In poor-houses, 5,460; on village relief, 79,357; total on gratuitous relief, 84,817. Figures for Ahmedabad are incomplete. Native States—on relief-works, 31,436; dependants, 6,559; total on works, 37,995. In poor-houses, 3,125; on village relief, 1,901; total on gratuitous relief, 5,026. Figures for Palanpur, Aundh and Phaltan and Kolhapur are incomplete. Grand total, 426,982.

Bengal.—There has been rain in all parts of the Province during the week, except in Palamau. More rain is still wanted in Bankura, Howrah, Dinajpur, Tippera, Chittagong, Purneah and Cuttack. The ploughing of land and the sowing of paddy and jute are still in progress. Seedlings are out at places and thriving well. Sugarcane is growing. Prospects are fair. Fodder is sufficient except in Bankura and at Dumka. Scarcity of water is reported from the Netrokona sub-division of the Mymensingh district. The price of common rice has risen in seven districts, fallen in twelve and is stationary in the rest (twenty-seven).

North-Western Provinces and Oudh.—The weather was stormy and rainy during the week in half of the provinces, principally in the Himalayan, western, central and eastern submontane and South Oudh districts. Extra crops are thriving and are being reaped in some localities. Prospects continue good. Irrigation is still in progress. Preparations for autumn crop sowings are in hand. Damage by hail to extra crops and fruit is reported from parts of Bareilly. Injury to crops by locusts and insects has been reported from a few districts. Markets are well supplied and fodder is ample. Prices continue practically steady.

Punjab.—Rain has fallen in Amballa, Ferozepur, Lahore, Shahpur, Rawalpindi and Dera Ismail Khan. There was also some slight rain in Amritsar and Sialkot. The rainfall exceeded over an inch in Dera Ismail Khan. Harvesting of spring crops continues in Ferozepur, Mooltan, Lahore and Sialkot. It is nearly completed in Amritsar, Rawalpindi and Dera Ismail Khan. Reaping of extra spring crops is going on in Delhi. Sowings of cotton, sugarcane and other autumn crops are in progress in Mooltan and Sialkot. Land is being ploughed for autumn crops in Amballa. The condition and prospects of standing crops are reported to be good. The outturn is expected to be average in Hissar and Sialkot, much above average in Ferozepur and good in Lahore, Rawalpindi and Peshawar. Locusts appeared in the Delhi, Sialkot, Shapur, Mooltan, Lahore, Rawalpindi, Peshawar and Dera Ismail Khan districts, but did practically no damage. Cattle are generally in good condition. Pasturage fodder is said to be sufficient in all districts, except in parts of Mooltan. Prices

are generally fluctuating. There has been a marked rise in the price of wheat in the markets of Ferozepur and Shahpur. In the remaining districts it has remained unchanged, except in Mooltan and Peshawar, where a slight rise is reported. The price of gram generally shows a downward tendency, except in Mooltan and Shahpur, where it has risen slightly. Wheat is selling from $14\frac{1}{8}$ to 21, barley 28, gram $17\frac{3}{8}$ to $22\frac{1}{2}$, maize $15\frac{7}{8}$ to $24\frac{1}{8}$, great millet 19 to 21 and bulrush-millet $17\frac{9}{8}$ to 25 seers per rupee.

Burma.—**LOWER BURMA:** Ploughing progresses in seven districts. **UPPER BURMA:** The condition of dry weather crops is generally fair to good. Reaping of dry weather paddy is completed in Kyaukse and parts of Shwebo and Myitkyina. Ploughing on both high and low lands and sowings in hill clearings in the northern districts are general. The state of early wet weather paddy in Kyaukse is now reported to be good. The price of paddy has risen in Prome; elsewhere changes are unimportant.

Central Provinces.—The weather continues excessively hot. Thunderstorms and duststorms have given rain in thirteen districts. The rainfall amounted to three-quarters of an inch in Raipur and Chhindwara and half an inch in Bhandara. Preparations of land for summer sowings are almost completed in Bhandara and elsewhere are in progress. Sowing of inferior rice has been commenced in parts of Raipur and Sambalpur. A flight of locusts from Berar passed through parts of Wardha and Chanda and re-entered Berar. Another flight passed through parts of Chhindwara, Nagpur, Chanda and Bhandara, but caused no damage, as there were no standing crops. Fodder and water generally are sufficient. Prices are steady in seven districts; elsewhere there are slight local fluctuations. The cheapest prices are—wheat 15, gram $16\frac{1}{2}$, rice $13\frac{1}{2}$ and *juar* 20 seers per rupee. The dearest prices are—wheat 8, gram $11\frac{3}{4}$, rice 7 and *juar* 15 seers per rupee. There were 2,006 persons on gratuitous relief during the week.

Assam.—Rain fell in most districts. More rain is still wanted in Cachar, Kamrup, Darrang, Nowgong and Sibsagar. Plucking of tea is in progress. Prospects are fair in Sibsagar and Lakhimpur and poor in other districts. Red spider is prevalent. Ploughing for and sowing of early and late rice and planting of sugarcane continue. Prospects of jute are good in Sylhet and the Garo Hills and fair in Goalpara. Early rice is in good condition in Sylhet, Lakhimpur and the Garo Hills and fair elsewhere. Prices—Common rice, Silchar, 12; Sylhet, Gauhati and Nowgong, 10; Dhubri and Tezpur, 9; Sibsagar, 11; and Dibrugarh, $9\frac{1}{2}$ seers per rupee.

Mysore.—The rainfall amounted to 1 inch 55 cents. in the Civil and Military station. The rain was general. Standing crops are in good condition in Bangalore, Mysore and Hassan and in parts of Shimoga and Kadur. *Ragi*, paddy and sugarcane are being sown in various parts. Ploughing operations are in progress in Shimoga. Prospects are good in Mysore and fair in Bangalore, Kolar,

Hassan and Chitaldrug. Prices are steady in Chitaldrug, have slightly risen in parts of Bangalore, Tumkur and Kadur and have fallen slightly elsewhere. Cattle are healthy. Water and fodder are available, except in a few parts of Hassan and in some parts of Mysore and Tumkur. Water is scarce.

COORG: The rainfall was 50 cents. Ploughing for rice continues. Prices of food-grains are normal. Water and fodder are sufficient.

Berar.—The weather was hot and cloudy. Preparation of land for the ensuing monsoon crop continues. Fodder and water are adequate to wants. Prices are almost steady.

Hyderabad.—The rainfall during the week was 27 cents. The total from 1st January is 4 inches 58 cents. Autumn sowing has been commenced in parts of the Raichur and Lingsagur districts. Grain prices are almost steady. Prices—Wheat $5\frac{1}{2}$, coarse rice $7\frac{7}{8}$ and *juar* $14\frac{1}{2}$ seers per *halli* rupee. Numbers on relief-works—16,221 ; gratuitously relieved, 2,804.

Rajputana.—The rainfall in cents was—Bikanir 48, Alwar 2, Ajmer-Merwara, average, 43. Agricultural operations are progressing satisfactorily. Land is being ploughed and manured in parts for the autumn crop. Standing crops are in good condition. So are cattle. Fodder is sufficient. Prices are rising in six States, falling in four and are steady elsewhere. The cheapest prices range from 11 to 24 seers the rupee. Number on gratuitous relief, 222.

Central India.—Slight showers fell in Gwalior, Bhopal, Bundelkhand and Baghelkhand. Agricultural operations are in progress everywhere. Crops have been damaged by rust in Baghelkhand. Agricultural stock is in good condition in all agencies. Prices are rising in Gwalior, Malwa and Indore, are high in Bhopal, normal in Bundelkhand and below average in Baghelkhand. Average prices—Gwalior 14 to 26-11, Bundelkhand 17 to 22, Malwa 14, Bhopawar $16\frac{1}{2}$, Indore $12\frac{1}{2}$ to 20 seers the rupee. Numbers on relief—works—Jaora, 393 ; Bhopawar, 3,446. On gratuitous relief—Jaora, 43.

Baroda.—Numbers on relief—works—18,076 ; gratuitous relief, 8,505. Agricultural stock is in fair condition. Prices—*bajri* 30, *juar* 34, wheat 23, rice, superior, 13, rice, inferior, 22 pounds per rupee.

Kashmir.—The weather was mostly rainy during the week ; it is cloudy now. Prices are normal ; rice selling for 24 seers the rupee. **JAMMU PROVINCE:** Slight rain fell during the week. The condition of standing crops is good. Threshing is in progress. Fodder is sufficient. Prices are stationary. Wheat sells at 16 to 26 and maize 24 to 36 seers the rupee.

Nepal.—The rainfall was slight. The weather was stormy and showery. Wheat has been harvested with good outturn. More rain is wanted for early rice and Indian-corn. The price of rice is $9\frac{1}{2}$ seers for the rupee.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table :

Name of Province.	PRECEDING WEEK. (REVISED FIGURES.)			PRESENT WEEK.			Increase or decrease.

Note.—The above tabular statement is based on the rainfall returns of 158 meteorological stations published in the India Daily Weather Report. It contains rainfall data for the week ending at 8 A.M. on each Thursday. The weekly Weather Review, published elsewhere in the Gazette, on the other hand, contains data based on the rainfall returns of many more stations (about 1,260), which are weekly collated in each district in India and reported in a concise form to the Simla Office. The weekly Weather Review is thus the more comprehensive and complete of the two, though it is necessarily a few days behind hand in its intelligence.

A new arrangement of provinces or divisions has been adopted this year in dealing with the meteorological conditions over India. The divisions given above will be those eventually adopted in the Daily Weather Report as soon as the necessary arrangements can be made, and they have been introduced into this weekly rainfall report without waiting for their appearance in the Daily Weather Report in order that there may be uniformity in the rainfall returns throughout the present monsoon season.

During the week under review the monsoon current was somewhat delayed in its advance over the Arabian Sea, and it was not till to-day (Thursday) that

any heavy rain fell along the West Coast. As a consequence the rainfall is in considerable defect in that area. Similar conditions have prevailed on the Bay side, and in the Burma Coast and Burma Wet divisions the week's rainfall has been considerably less than usual, averaging less than half the normal amount.

On the other hand, in Northern India thundershowers have been both more frequent and heavier than usual, and the total rainfall in Burma Dry, Delta of Bengal, the Gangetic Plain East, the Western Himalayas and the North-West Dry area have had more rain than usual. Baluchistan and Gujarât received no rain during the week, and in East and West Satpuras the week's rainfall was unimportant. In other divisions of the central parts of India and of the Peninsula the rainfall of the week was approximately normal.

SIMLA ;
The 6th June, 1901.

to the Government of India.*

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.
(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected District details of the totals published weekly in the Crop and Weather Summary of the *Gazette of India*.
Sowing children and other dependants of relief workers are classed as on relief works when distinguished in the local returns, from persons relieved in poor-houses or at their homes. Weavers relieved in their own trade are shown under "Gratuitous relief."
At the head of the table are the dates of the *Gazette of India* in which the Provincial totals were published. The figures, however, actually numbers on relief in each preceding week.

J. B. FULLER,

Offg. Secretary to the Government of India

No. 3062-S. R.

GOVERNMENT OF INDIA.

FINANCE AND COMMERCE DEPARTMENT.

Simla, the 6th June, 1901.

Read—

Customs Circular No. X of 1901.

Ordered, that the circular be published for general information in the Supplement to the *Gazette of India*.

J. F. FINLAY,

Secretary to the Government of India.

Customs Circular No. X of 1901.

From—The Secretary to the Government of India, Finance and Commerce Department,
No. 2701-S. R., dated the 27th May 1901,

To—The Secretary to the Government of Bengal, Financial Department.

I am directed to acknowledge the receipt of your letter No. 3124-S.R., dated the 24th April 1901, forwarding, for consideration and orders, a copy of a letter from the Collector of Customs, Calcutta, regarding the tariff valuation of alum cake.

2. It appears that this article is different from, and of lower value than, ordinary alum which is assessed to import duty at Rs. 4-8-0 per cwt., and that the Collector of Customs has classified and assessed a recent consignment of it imported into Calcutta to duty *ad valorem* under the sub-head "All other sorts of chemical products and preparations" under No. 10—Chemical products and preparations—of Schedule IV of the Indian Tariff Act, VIII of 1894. I am to say that the Governor General in Council approves of the course followed by the Collector of Customs.

STATEMENT OF APPROXIMATE GROSS EARNINGS OF INDIAN RAILWAYS.

N.B.—As regards the figures in column *Total earnings*, audited figures have been used as far as possible.

(a) Earnings of the East Coast State Railway for the previous year have been added in proportion to mileage transferred.

(b) From 1st March to 30th May 1900.

21st, the 6th June, 1901.

NEVILLE PRIESTLEY,
Offg. Under Secretary to the Govt. of India.

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.

ACCOUNT.
RAILWAY.

EAST INDIAN RAILWAY.

Synopsis of the financial transactions for, and to end of, the year 1900.

No. 384-A. R., dated Simla, the 28th May, 1901.

RESOLUTION—By the Government of India, Public Works Department.

Read the following :

Note by A. R. BECHER, Esq., Accountant General, Public Works Department, No. 247-R., dated 13th May 1901, on the synopsis of the financial transactions of the East Indian Railway for the year 1900.

In continuation of my note No. 255-R. of 21st May 1900, I beg to submit, for the information of the Government of India, a synopsis of the financial transactions of the East Indian Railway from the date of its purchase by the State (1st January 1880) to the close of the year 1900.

2. The Capital Expenditure of the East Indian Railway may be thus stated—

Under the purchase Act, 42 and 43 Vict., Cap. CCVI, the Capital Stock of the Company was taken over by Government at a commuted value of £ 125 for every £ 100 of Capital Stock :

	£
The share capital of the Company, amounting to £ 26,200,000, was accordingly stated at	32,750,000
Under the same Act the debentures and debenture stock were taken over by Government, and amounted to	4,450,000
TOTAL	37,200,000
	Rs.

The Company had at 31st December 1879 overdrawn from Government on Capital Account 26,45,269

The cost of the land taken up for the Railway and paid for by Government had been 59,26,183

and the further outlay to close of the year 1900 from grants by Government from borrowed moneys, and from funds raised by debentures and debenture stock by the Company has been—

	Rs.
On Construction Account	10,32,44,172
„ Stores Suspense Account	1,25,29,629
„ Capital Advance Account	—6,81,515
	11,50,92,286
	12,36,63,738

Deduct.—Assets on the 31st December 1879, received by Government on purchase of the line and made over to the Company—

	Rs.
Stores in stock	76,65,340
Balance of cash and other Suspense Accounts	8,22,167
	84,87,507

Realization by the sale of surplus and obsolete stores originally valued at Rs. 16,06,079 not taken over by the undertaking, and other miscellaneous receipts '

6,30,652

91,18,159

making the Capital outlay at close of 1900...

Rs. 11,45,45,579 + £37,200,000

						Rs.
3. During the year 1900, the gross traffic earnings were	...					6,84,74,972
the working expenses	2,33,07,728
and the net earnings	4,51,67,244

4. These results of working the East Indian Railway affected the finances of the Government of India in the manner and to the extent exhibited in the following paragraphs.

5. The liabilities incurred by the Government of India in connection with the purchase of the East Indian Railway are as follows :

Sterling liabilities—	Capital.	Interest.
	£	£
(a) Debenture stock ...	1,500,000	67,500
(b) Annuities, terminable in 1953 ...	20,200,000	1,179,000 (Inclusive of payment for redemption of Capital).
(c) Deferred annuities ...	6,550,000	262,000
		1,508,500
Less—Annual payment for redemption of Capital ...		65,500
		1,443,000
Net sterling annual liability ...		1,443,000 which

at 16'0015d. per rupee = Rs. 2,16,42,971.

6. The liabilities incurred by Government since the purchase of the line have been—

			Rs.
Debentures of old Company discharged	3,54,66,835
Debentures raised by new Company (£1,550,000)	2,08,80,832
Debenture stock raised by new Company (£1,000,000)	1,58,62,308
Ditto ditto ditto (1,000,000)	1,42,35,688
			Rs.
Construction Account	10,32,44,172
Stores Suspense Account	1,25,29,629
Capital Advance Account	—6,81,515
			11,50,92,286
Less—Outlay met from debentures and debenture stock raised by the Company	...	5,69,78,828	5,81,13,458
Land charges by the State	59,26,183
Capital overdrawn at time of purchase	26,45,269
			15,91,30,573
Less—Credits to Government for value of stores, etc., made over to the Company	91,18,159
			15,00,12,414
TOTAL	15,00,12,414

The debentures raised by the Company form a sterling liability of £1,550,000 bearing interest at $2\frac{1}{2}$ per cent. per annum, and the debenture stock forms a sterling liability of £2,000,000 bearing interest at 3 per cent per annum. The difference between the above total and the rupee equivalent of the debentures and debenture stock (15,00,12,414—5,69,78,828), *vis.*, Rs. 9,30,33,586 represents the rupee liabilities incurred by Government.

7. The following, therefore, seems to be a fair account of the transactions of the railway, as they affect Government, for 1900:

	Rs.	Rs.
Traffic earnings	6,84,74,972	
Less—Working expenses	2,33,07,728	
Net earnings		4,51,67,244
Sterling liabilities in connection with the purchase, £1,443,000 at 16,0015 per rupee	2,16,42,971	
Interest on debentures and debenture stock, £88,517	13,24,416	
Interest on rupee liabilities—		
Interest on outlay to 30th June 1895, including land charges, Rs. 8,13,35,890 at 4 per cent.	32,53,436	
Interest on subsequent outlay, <i>viz.</i> ,—	Rs.	
From 1st July 1895 to 31st December 1899	1,01,30,052	
Half outlay during 1900 (15,67,644)	7,83,822	
	1,09,13,874	
at 3½ per cent.	3,81,986	
Payment of surplus profits to the Company	18,09,104	
Payment to the Company's Provident Fund	4,51,672	
Total payments		2,88,63,585
Net profit to Government		1,63,03,659

The corresponding net profit was—

	Rs.
in 1899	1,36,31,224
„ 1898	1,25,51,271
„ 1897	1,24,81,903
„ 1896	77,89,472
„ 1895	70,76,494
„ 1894	56,27,445

8. The Capital outlay on the undertaking may be taken as under—

Sterling (<i>vide</i> paragraph 2)	£	37,200,000
Converted into Indian currency at the average rate of 19'961d. per rupee at time of purchase	Rs.	44,72,72,180
Rupee debt... ..	Rs.	15,00,12,414
Less—Rupee value of debentures discharged (<i>vide</i> paragraph 6 <i>ante</i>)		3,54,66,835
TOTAL		56,18,17,759
The interest at 1 per cent. on this Capital would be		56,18,178

It follows from this that—

- (i) the net earnings of the railway are $\frac{4,51,67,244}{56,18,178}$, or 8'04 per cent. on the Capital invested by the Government in it;
- (ii) the burden which Government bears in respect of it is $\frac{2,88,63,585}{56,18,178}$, or 5'14 per cent.;
- (iii) the clear profit to Government is 2'90 per cent.

ORDER.—Ordered that a copy of the note and accompaniment be forwarded to the Consulting Engineer to the Government of India for Railways, Calcutta, and to the Department of Finance and Commerce, for information.

A. BRERETON,

Offg. Secretary to the Government of India.

WM. ROSS,
Publisher, Gazette of India.

GOVERNMENT OF INDIA. DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 7th June 1901.

NOTIFICATIONS.

No. 1843 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 1st June 1901 :—

No. 221A of 1901.—C. S. Bivar, tea planter, at present of Seconee, Silghat, Assam. *An invention for the desiccation of tea leaf.*

No. 222 of 1901.—Joseph Alexander Fraser, manager, Jorhat State Railway, Assam. *An improved shape for the ends of rails used in the permanent way of railways and tramways.*

No. 223 of 1901.—Herbert Wilfred Perry, assistant engineer, South Indian Railway Company, and residing at Trichinopoly, South India. *An improved railway goods vehicle, to be called the "skeleton (frame) and (roller) box wagon."*

No. 224 of 1901.—The Linotype Company, Limited, sole proprietors of, and sole manufacturers and licensors under, the "Linotype" Patents, of No. 188 Fleet Street, in the city of London, England. *Improvements in linotype machines.*

No. 225 of 1901.—The Linotype Company, Limited, sole proprietors of, and sole manufacturers and licensors under, the "Linotype" Patents, of No. 188 Fleet Street in the city of London, England. *Improvements in machinery for loading type, type matrices or similar matter into the channels of type or matrix distributing machines.*

No. 226 of 1901.—The Linotype Company, Limited, sole proprietors of, and sole manufacturers and licensors under, the "Linotype" Patents, of No. 188 Fleet Street, in the city of London, England. *Improvements in moulds for casting lines of type.*

No. 227 of 1901.—The Cotton Seed Company, Limited, of 37 Old Jewry, London, England. *Improvements in or relating to drying apparatus for cotton and other materials.*

No. 228 of 1901.—George Westinghouse, manufacturer, of Westinghouse Building, Pittsburg, Pennsylvania, U. S. A. *Improvements in car couplings.*

No. 229 of 1901.—Arthur Koppel, manufacturer, of 38—40, Neue Friedrichstrasse, Berlin, in the German Empire. *An arrangement for retaining in position the trough-shaped body of a tipping wagon.*

No. 230 of 1901.—Edward Hunt, engineer, of 6, Waterloo Street, Calcutta. *A device for cooling the interior of railway passenger carriages.*

No. 231 of 1901.—The Rowland Telegraphic Company, manufacturers, a corporation duly organized and existing under the laws of the State of New Jersey, U. S. A., whose principal place of business is at 711, Linden Avenue, Baltimore, in the State of Maryland, U. S. A. *Improvements in electric telegraphs.*

No. 232 of 1901.—Dr. Albert Calmette, of Lille, in the Republic of France. *A new process for extracting indigo from indigo-bearing plants.*

No. 233 of 1901.—Thomas Cole and William Lawes Cole, engineers, both of St. Ann's Road, Burdett Road, Bow, London, England. *Improvements connected with apparatus for producing cold air for refrigerating and like purposes.*

No. 234 of 1901.—John Knox Ewart, gentleman, residing at 141, Byars Road, in the city of Glasgow, Scotland. *Improvements in or connected with the brake mechanism of railway and other wagons.*

No. 235 of 1901.—A. P. Roy, inspector of works, Indian Midland Railway, Saugor, Central Provinces. *Tiled walling, to be called Roy's tiled walling.*

No. 236 of 1901.—Eugene Charles Schrottky, scientific chemist, at present of Calcutta. *An improved method of malting rice.*

No. 237 of 1901.—Frederick Charles Dorrett Little, Assistant Traffic Superintendent, of No. 178, Lower Circular Road, and James Clarke Watson, engineer, of No. 7, Canal Street, West, both of Calcutta. *The automatic locking of doors and openings of wagons, carriages, trucks, trolleys and vehicles of all descriptions used on railways, tramways and roadways.*

No. 238 of 1901.—Charles Kynaston Powell, draper and general importer, of Nos. 5, 5-1, 5-2, and 5-3, Esplanade East, in the Town of Calcutta. *The application and use of mica in the construction and manufacture of hats, helmets, topis, bonnets and other head-gear, tents, awnings, umbrellas, carriage hoods, the roofs of railway carriages and trucks, and other conveyances or vehicles, pads for the protection of the spine shoulders or back of human beings or animals, jules or blankets.*

No. 1844 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

No. 304 of 1900.—Ernest August Faller, civil engineer, residing at 839, Bryant Street, and James White Chisholm, gas manufacturer, residing at the Palace Hotel, both in the city and county of San Francisco, State of California, U. S. A. *Improvements relating to multiplex telephony.* (Specification filed 28 May 1901.)

No. 323 of 1900.—Prasanna Kumar Datta and Lalit Mohun Datta, merchants and taluqdars, of College Lane, Uttarpura, district Hooghly. *A boat, called the "Panticot."* (Specification filed 15 April 1901.)

No. 403 of 1900.—Gilbert William Sutton, civil engineer, of Bothmans, Great Baddow, Chelmsford, in the county of Essex, England. *Improvements in apparatus for driving fans, air propellers and the like.* (Specification filed 28 May 1901.)

No. 430 of 1900.—Francis Samuel Peck, Lieutenant-Colonel, Indian Medical Service, residing at No. 6, Harrington Street, in the town of Calcutta, British India. *A new or improved entrenching tool.* (Specification filed 28 May 1901.)

No. 433 of 1900.—Wasudeo Balwant Soman, merchant, residing at Parel, Bombay. *Improvements in lap rollers of scutchers.* (Specification filed 25 May 1901.)

No. 46 of 1901.—John Crake Vaughan, electrical engineer, of Wrexall, near Bristol, in the county of Gloucester, England. *Improvements in pneumatic lubricating systems and apparatus therefor.* (Specification filed 28 May 1901.)

No. 63 of 1901.—The Westinghouse Brake Company, Limited, manufacturers, 82 York Road, King's Cross, in the County of London, England. *Improvements in draught appliances for railroad cars.* (Specification filed 30 May 1901.)

No. 92 of 1901.—George Morris, draftsman, residing at 27, Toltollah Bazar Street, Calcutta. *An improved purdah rest and hold-down.* (Specification filed 18 April 1901.)

No. 148 of 1901.—Karl Louis Gocht, architect, of 19 Josephinenstrasse, Chemnitz, Saxony, Germany. *New or improved means for securing bolt and screw nuts.* (Specification filed 30 May 1901.)

No. 1845 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 19 of 1892.—George William Rowe and William George Heys. *Improvements in and relating to pneumatic and similar tyres.* (From 6 July 1901 to 6 July 1902.)

- No. 12 of 1893.—Edward Garlick. *An improved refuse and excrement incinerator.* (From 29 June 1901 to 29 June 1902.)
- No. 28 of 1893.—Samuel Cleland Davidson. *Improvements in apparatus for drying tea or other vegetable substances or other material.* (From 7 June 1901 to 7 June 1902.)
- No. 313 of 1893.—William Bull. *An improved method of working continuous kilns for burning bricks and tiles by means of a single movable chimney.* (From 9 April 1901 to 9 April 1902.)
- No. 190 of 1894.—Samuel Telford Dutton. *Improvements in interlocking pull-over levers on railways.* (From 29 May 1901 to 29 May 1902.)
- No. 105 of 1895.—Samuel Cleland Davidson. *Improvements in apparatus for withering or limping tea leaf in the course of its manufacture into black tea, or for the finishing or "facing" of green tea preparatory to its being packed into chests.* (From 19 June 1901 to 19 June 1902.)
- No. 124 of 1895.—The Deutsche Metallpatronenfabrik. *Improvements in storing and packing opium and in appliances therefor.* (From 22 October 1901 to 22 October 1902.)
- No. 340 of 1895.—Alexander Gordon and the Trustees, Executors and Agency Company, Limited. *Improvements in diving apparatus.* (From 9 July 1901 to 9 July 1902.)
- No. 410 of 1895.—Alister MacNab. *Improvements in the manufacture of bay salt.* (From 7 June 1901 to 7 June 1902.)
- No. 204 of 1896.—Andrew Worthington Billings. *Improvements in the manufacture of beer.* (From 30 July 1901 to 30 July 1902.)
- No. 418 of 1896.—John Poyser. *Improvements in let-off mechanism for weaving looms.* (From 7 June 1901 to 7 June 1902.)
- No. 424 of 1896.—John Poyser and Francis Livingstone Ball. *Improvements in let-off motions for weaving looms.* (From 7 June 1901 to 7 June 1902.)
- No. 2 of 1897.—Charles Kingston Welch. *Improvements in or relating to air valves for pneumatic tyres.* (From 2 August 1901 to 2 August 1902.)
- No. 90 of 1897.—Donald Cameron and Frederick James Commin. *Improvements in apparatus for automatically alternating the delivery of liquid in two chambers or receptacles and also its discharge therefrom, particularly applicable to sewage filters.* (From 13 August 1901 to 13 August 1902.)
- No. 92 of 1897.—Donald Cameron and Frederick James Commin. *Improvements in the treatment of sewage and in apparatus therefor.* (From 13 August 1901 to 13 August 1902.)
- No. 93 of 1897.—Donald Cameron, Frederick James Commin and Arthur John Martin. *Improvements in apparatus for the treatment of sewage or other liquids.* (From 13 August 1901 to 13 August 1902.)
- No. 113 of 1897.—James Davidson. *Improvements in the manufacture of products from tea.* (From 2 July 1901 to 2 July 1902.)

No. 1846 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

- No. 193 of 1896.—Robert Greenhalgh. *An improved method of marking and arranging patterns or sections of garments and wearing apparel in several distinctive sizes and designs upon the materials from which the said garments and wearing apparel are to be made or upon paper or other material, the said method being also applicable for instruction in the art of shaping, cutting out and making up.* (Specification filed 19 February 1897.)
- No. 226 of 1896.—Abraham Wood. *Improvements in loom shuttles and tongues.* (Specification filed 19 February 1897.)
- No. 243 of 1896.—William Roberts King and Francis Wyatt. *Apparatus and process for forming calcium carbide.* (Specification filed 19 February 1897.)
- No. 310 of 1896.—Paran Chandra Chatterjee. *An improved tricolour hand signal lamp.* (Specification filed 22 February 1897.)

No. 355 of 1896.—Bishambar Nath. *A country oil lamp.* (Specification filed 19 February 1897.)

No. 366 of 1896.—Bishambar Nath. *A water heater.* (Specification filed 19 February 1897.)

No. 390 of 1896.—Henry George Hills. *A machine for drying tea leaf and analogous substances.* (Specification filed 22 February 1897.)

No. 419 of 1896.—John Marr. *A tea packing box of novel construction, called the Marr tea box.* (Specification filed 18 February 1897.)

Fee in respect of the continuance of an exclusive privilege—

4 (a). After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of Rs 50 for each of the above inventions.

No. 316 of 1894.—John Arthur Torrens. *An improved appliance for picketting horses.* (Specification filed 23 February 1895.)

No. 345 of 1894.—Julius Evinof. *Improvements in locking nuts.* (Specification filed 23 February 1895.)

Fee in respect of the continuance of an exclusive privilege—

4 (c) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of Rs 50 for each of the above inventions.

No. 220 of 1893.—Thomas McGuire. *A new or improved waterproof composition for stopping leaks in roofs, floors, walls and the like, called McGuire's patent waterproof composition.* (Specification filed 22 February 1894.)

No. 282 of 1893.—Shyama Charan Chunder, Khetter Mohun Chunder, and Gour Mohun Chunder. *Improvement of surveying prismatic compasses.* (Specification filed 24 February 1894.)

Fee in respect of the continuance of an exclusive privilege—

4 (d) After the expiration of the sixth year and before the expiration of the seventh year from the date of the filing of the specification—

The sum of Rs 50 for each of the above inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicant are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 10th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,
Secretary under the Inventions and
Designs Act, 1888.

Akyab, Kyaukpyu and Sandoway.	8th "	7-30	Ditto.
Mauritius, Réunion, Mayotte, Nossi Bé, Delagoa Bay, Natal and Cape Colony.	15th "	5-45	Vid Tuticorin and Colombo.
Port Blair	10th "	P.M. 7-30	Vid Rangoon.
Mauritius	12th "	8-30	Per Steamer Sirdhana.

* Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail Steamer, full allowance being made for the steamer being in advance of her published timing. Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

Correspondences for China and Japan are despatched daily to Colombo so that they may proceed by the first steamer available. The letter-box for inland articles will be cleared for the forenoon Mails at the following hours:—

For Goalundo, Arakan and Chittagong Express train at 5-30 A.M.
For Midnapur, Orissa and Madras Presidency at 5-45 A.M.
For Eastern districts as far as Dacca and Mymensing at 6-30 A.M.
For Khulna Line at 7-30 A.M.
For Bombay Mail via Nagpur and Mail for Midnapore at 10-45 A.M. and with a late fee of ½ anna up to 11-35 A.M.
The letter-box will be cleared for the evening Mails without late fee at the following hours, viz.:—
For E. I. Railway Loop Mail at 2-30 P.M. and up to 2-55 P.M. with a late fee of ½ anna.
For Darjeeling and Assam at 3-25 P.M. without late fee, and 3-50 P.M. with a late fee of ½ anna.
For the Bombay Mail via Jubbulpore at 6 P.M.
For the Punjab Mail at 7-30 P.M.
For Midnapore and Orissa Districts at 7-30 P.M.

For Khulna Mail at 7-30 P.M.

For the Eastern Bengal Mail at 7-30 P.M.

Late letters bearing a fee of $\frac{1}{4}$ anna will be received for the Midnapore, Orissa, and the Madras Presidency Mails from 5-45 A.M. to 6-35 A.M., and for the Bombay Mail *via* Jubbulpore up to 6-30 P.M. and for other Mails from 7-30 to 8 P.M., and from 8-0 to 8-45 P.M. with a late fee of 1 anna for the Punjab and Eastern Bengal Mails only.

Late registered letters will be received between the following hours:—

For the Bombay Mail *via* Nagpur up to 10-30 A.M.

For the Bombay Mail *via* Jubbulpore from 5 P.M. to 6-15 P.M.

For the Punjab Mail from 6 P.M. to 7 P.M.

For the Eastern Bengal Mail from 6 P.M. to 7 P.M.

For the Khulna Mail from 6 P.M. to 7 P.M.

For Midnapore, Orissa and the Madras Presidency the previous evening up to 6 P.M. and late registered letters up to 7 P.M.

The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7-30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of $\frac{1}{4}$ anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies, China and Japan *via* Tuticorin, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 5-45 A.M., and late letters and papers fully prepaid will be received up to 6-35 A.M.

On the day of despatch of the Mail of Europe (Thursday), the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6-30 P.M., and late letters and papers fully prepaid will be received up to 6-15 P.M. Late registered articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6-30 P.M. for despatch by any Foreign Mails *via* Bombay the same night and up to 8-30 P.M., late letters and papers up to 6 P.M., for any Foreign Mails despatched by Sea. Foreign Mails for despatch *via* Madras or Tuticorin are received up to 5-45 A.M. and with a late fee up to 6-35 A.M. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,

Offg. Presidency Postmaster, Calcutta.

GEOLOGICAL SURVEY OF INDIA.

FOR SALE.

1. Records of the Geological Survey of India, Vols. I to XXX. Price Rs 2 per volume or Rs 1 per part.

2. Memoirs of the Geological Survey of India, Vols. I to XXIX. Price per volume Rs 5.

3. Palæontologia Indica, Series I to XVI and new series, Vol. I, 1-2. The price of these publications is 4a. per single plate.

4. A Manual of the Geology of India, 2nd Edition. By R. D. Oldham, A.R.S.M., F.G.S. Price Rs 8.

5. A Manual of the Geology of India, Economic Geology, 2nd Edition, part 1, corundum. By T. H. Holland, A.R.C.S., F.G.S. Price per copy Rs 1.

6. An Introduction to the Chemical and Physical Study of Indian Minerals. By T. H. Holland, A.R.C.S., F.G.S. Price 8a.

7. Report on the Geological Structure and Stability of the Hill Slopes around Naini Tal. By T. H. Holland, A.R.C.S., F.G.S. Price Rs 3.

8. Bibliography of Indian Geology. By R. D. Oldham, A.R.S.M., F.G.S. Price Rs 1-8.

9. Map of the Geology of India, scale 1"=96 miles. Rs 1 per copy.

10. Map of the Geology of India, in 6 sheets, scale 1"=32 miles. Rs 12 per copy.

11. Reports on the Inspection of Mines in India, by James Grundy:—

Report for the year ending 30th June, 1894.

Do. do. 30th June, 1895. Price Rs 1.

Do. do. 30th June, 1896. Price Rs 1.

Do. do. 31st Dec., 1896. Price Rs 1.

Do. do. 31st Dec., 1897. Price Rs 1.

Do. do. 31st Dec., 1898. Price Rs 12a.

Apply to the Registrar, Geological Survey of India, Calcutta.

PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

Simla, the 20th September, 1893.

A Registry Office for men of all grades out of employ is kept up by the Principal, Thomason College, Roorkee. Officers requiring men are requested to apply to Principal.

J. CLIBBORN, Major, I.S.C.,

Principal, Thomason College.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1900, the price of this Quinine will be as follows:—

1-pound tin, Rs 17, or, post-free, Rs 17-12.

$\frac{1}{2}$ " " Rs 8-8, " Rs 9.

$\frac{1}{4}$ " " Rs 4-4, " Rs 4-12.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেন্টের সিনকোনা আবাদে প্রস্তুত
বিশুদ্ধ কুইনাইন।

১৯০০ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য
হইবে, যথা—

১ এক পৌণ্ড টিন ১৭, বা ডাকপাশে মিনা ১৭-১২

$\frac{1}{2}$ আদ " " ৮-৮ " ৯

$\frac{1}{4}$ শিক " " ৪-৪ " ৪-১২

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে
প্রস্তুত করা হইয়াছে, এবং ইহা যে সিনকোনাইন ও সিনকোনি-
ডাইন নামক অপকৃত্ত কারের সহিত ইচ্ছা পূর্বক মিশ্রণ হয় তাহ
আহার গারাকী দেওয়া বাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণ-
মেন্টের কর্মচারীগণের নিকট বিক্রয় করা বাটবে, এবং কলিকতায়
নিকট দিবাধুরের কোম্পানি বাগানের হুপারিকোডেন্টের নিকট
পাইতে পারে।

GOVERNMENT CINCHONA FEBRIFUGE.

Cinchona Febrifuge can be purchased by all Government officers, and by any one taking six pounds at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates —per four-ounce tin, Rs 2-8; per eight-ounce tin, Rs 5; per pound tin, Rs 10. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, at the under-
noted rates: per four-ounce tin, Rs 3; per eight-ounce tin, Rs 6; per pound tin, Rs 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage, four annas per four-ounce tin, eight annas per eight-ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

منکونا فبري فيوج يعنه تپ بهگانے والی منکونا *

منکونا فبري فيوج کلمتہ کے بوٹانکل کارڈن یعنی
اپنی باغ کے سپرنٹنڈنٹ صاحب سے ہر ایک ملازم
سرداری اور ایک مشت چہہ پونڈ تک لینے والا ہر
ادسی حسب نرخ ذیل خرید کر سکتا ہے: — یعنی
چار اونس والا ٹین بقیمت دو روپیہ آٹھ آنہ؛ آٹھ
اونس والا ٹین بقیمت پانچ روپیہ؛ ایک پونڈ والا
ٹین بقیمت دس روپیہ *

عام آدمیوں کو یہ درا بوٹانکل کارڈن یعنی کمپنی
باغ کے سپرنٹنڈنٹ صاحب سے بقیمت نقد حسب نرخ
ذیل مل سکتی ہے۔ یعنی چار اونس والا ٹین بقیمت
تین روپیہ؛ آٹھ اونس والا ٹین بقیمت چہہ روپیہ؛
ایک پونڈ والا ٹین بقیمت بارہ روپیہ *

یہ درا کلمتہ کے بڑے بڑے رابٹی اور دیسی
مواخاڑوں میں بھی بکتی ہے — ماسوائے قیمت
مذکورہ بالا کے محصول ذاک چار اونس والا ٹین کا
چار آنہ، آٹھ اونس والا ٹین کا آٹھ آنہ؛ اور ایک
پونڈ والا ٹین بارہ آنہ *

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

* Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT
BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT
EMPLOYMENT ONLY.

N.B.—The Revised prices herein entered cover the cost of pack-
ing, postage, and other incidental charges (except com-
mission for Value-payable supplies), and are for all pur-
chasers other than resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal 8vo, with numerous Plates.

Volumes I and II are published in separate convenient sized
Sections, as below, but can be bound up if required:—

VOLUME I. *

Section	I. Building Materials (1898), Rs. 2-0.
"	II. Masonry (1898), Rs. 1-4.
"	III. Carpentry (1898), Rs. 1-8.
"	IV. Earthwork (1892), Rs. 1-4.
"	V. Tools and Plant (never published).

VOLUME II. *

Section	VI. Buildings (1899), Rs. 1-4.
"	VII. Bridges (1897), Rs. 4-4.
"	VIII. Roads (1897), Rs. 1-8.
"	IX. Railways (1891), Rs. 1-4.
"	X. Irrigation Works. (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol.	I. Direct and Transverse Strain, principally by Analytical Methods. Rs. 7.
"	II. The Stability of Structures, mostly by Graphic Methods. (In the Press.)

* Date of Edition on sale.

MANUALS.

- VII. Surveying (by Major Firebrace, R.E.) (7th edition
with Curve Table). Rs. 3.
XIII. Drawing (by Lieut. R. Pulford, R.E.). + Rs. 6.
XIIIa. Drawing, First Principles of Geometrical (by
do.). Rs. 1-4.
XIV. Simple Applied Mechanics (3rd edition), Parts
I and II in one. Rs. 1-8.
Simple Applied Mechanics, Part II (1st edition)
8s.
XV. Examples of Estimating. Comprising a progres-
sive series of Estimates (with Plans of Buildings
and Bridges, worked in detail). By P. Keay, Esq.,
and revised by C. C. Sullivan, Esq., Head
Master (5th edition). Rs. 3-12.
XVI. Earthwork Estimating, with Practical Tables and
Diagrams. By Major A. M. Brandreth, R.E.
Rs. 1.
XVII. Specimens of Printing used in the College
Drawing Course and Entrance Examinations. 6s.

Note.—The complete Treatise forms the course of the Civil
Engineer and Upper Subordinate classes at the Thomason College
in Civil Engineering. The other Manuals are the complete
course for both Classes in the several subjects of which they
treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. 4s.
Scantlings of Timber for Roofs. Tables and investiga-
tion of formula for determining size of timbers for Flat
Roofs from 8 to 22 feet span, and for Trussed Roofs
from 30 to 50 feet span (2nd edition). By P. Keay, Esq.,
Head Master. 12s.
Notes on Chemistry of Building Materials. Rs. 1-8.
Late's Mechanism. Rs. 1.
Darman's Descriptive Mineralogy. Rs. 2-4.
Useful Rules and Tables relating to Measurement of
Timber. Rules for computing the cubic contents of
Round Logs as well as of Sawn Timbers, with Tables,
etc. By Rai Kunhya Lal. Rs. 2-8.
O'Callaghan's Earthwork Tables for India. In one large
sheet, 12s.; mounted on cloth and bound. Rs. 1-12.
Tables for Computing Earthwork in Distributaries and
small open Channels in use in Irrigation Department
N.-W. Provinces. 12s.
Tyndall's Hand-Book of Specifications. (In the Press.)
The Indian Engineer's Pocket Book. Rs. 1.
Wooden Bridges and Designs. By Rai Kunhya Lal.
(In the Press.)
Blasting under Water (2nd edition). 10s.
Waugh's Instructions for Topographical Surveying
Rs. 1.
Analysis of Lime and Cement Stones. By Murray
Thompson, Esq., M.D., F.R.S.E. 6s.
Chart, giving by a graphic method the discharges of
earthen channels up to 40 feet bed width, very useful for
Projects. Rs. 1-0.

SCIENCE BOOKS.

- Wilson's Inorganic Chemistry. Rs. 1-8.

MATHEMATICAL.

- Boileau's Tables of Wages and Rent, and of the value
of goods. Tables for converting Seers and Chit-
tacks into decimals of a Maund, and Annas and Pies
into decimals of a Rupee. With a few others of
general utility (4th edition). Rs. 1-8.
Boileau's Tables of Log sin² & P for computing time (4s.)
Cape's Logarithms, with Tables of Squares, Cubes, &c.
Rs. 1-4.
Cape's Geometry. Rs. 1-4.
Cape's Mechanics. 8s.
Todhunter's Plane Trigonometry. Rs. 1-8.
Todhunter's Differential Calculus. Rs. 2-8.
Military Topography. 8s.

HINDUSTANI.

- Elements of Hindustani Grammar. 8s.
Technical Dialogues—English and Urdu. Rs. 1.
A Vocabulary of Common and Technical Words in
English-Urdu. 12s.
History of India (Iltis Timirnasah), Hindi, Parts I and
II. Both 6s.
Short Account of Ganges Canal (English and Urdu).
Each 4s.

NOTE AND FIELD-BOOKS, etc.

- Note Books (Section paper), large. Each Rs. 1-4.
Surveying Field Books (ruled). 14s.
Levelling Field Books (English Pattern). Rs. 1-4.
" " " (Canal " "). Rs. 1-4.
" " " (College " "). Rs. 2-0.
P. W. D. Note-Book. Rs. 1-4.
" Measurement Book. Rs. 1-4.
Circular Card-board Protractors, 2 inches. 8s.

† Originally published at Rs. 15, reduced to Rs. 6.

MISCELLANEOUS.

Distributary, Velocity and Discharge Table. By Capt. Allan Cunningham. 8a.

Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") R1-8.

Ditto ditto in Urdu. R1-4.

Perspective (fully explained). By Col. A. M. Brandreth R.E. R1-12.

Thomason College Calendars for 1892,* 1895,† 1896† and 1897.† Each R2.

Ditto ditto for 1898‡ and 1899,† Pt. I R3-0.

Forms of Accounts, P. W. D., for Sub-Divisional Officers, in English (very old). 4a.

Memo. of Instructions for Road Project. R1.

Project for College Mess (sample Project). 8a.

Ferotype Printing Processes. 8a.

Thomason College Library Catalogue. R1-12

Ditto, Supplement, 1895 to 1899. Each 2a.

Irrigation by Rajbahas.

Irrigation Tract, No. I. 4a, each.

" " " II.

" " " III.

Land Measuring "Chain Statement. Area of kucha and pukka Bighas, sheet. 4a.

Report of the Ganges Canal Committee (Major Crofton's Project for remodelling the Ganges Canal according to the view of Major-General Sir Arthur Cotton, R.E., K.C.S.I.), 1866. 8a.

Report of the Ganges Canal. By Captain J. Crofton, R.E., with Estimates and Plan—

Vol. I, Report, 1865. R1.

Vol. II, Estimates. 12a.

Shakesperian Readings, viz.:

1. Taming of the Shrew.

2. Othello.

3. Macbeth.

4. Comedy of Errors.

5. Merchant of Venice.

} Each 3a.

Annual examination papers set for the years 1867 to 1870, each 8a.

PLANS OF STATIONS.

Lithographed Plans of the Cantonments and Regimental Lines in the different Military Stations of India. Drawn to a uniform scale and prepared between 1864 and 1868 for the Government of India, P. W. Department. (Useful for Executive Engineers' and Superintending Engineers' Offices.)

Bengal, 51 Plans.

Madras, 99 Plans.

Bombay, 91 Plans.

N.-W. Provinces, 104 Plans.

Oudh, 21 Plans.

J. CLIBBORN, Lieut.-Col., I.S.C.,
Principal, Thomason Civil
Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1899, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the Complete Series, including postage. R22-8

Bengal Secretariat Book Depot, Writers' Buildings, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

PROMISSORY NOTES.

Lost.

The lower halves of Government Promissory Notes Nos. B 002904 and B 002905 of the 3½ per cent. of 1842-43 for Rs500 each, originally standing in the name of E. W. Proctor-Sims, who endorsed them to the Bank of Bombay and by whom they were re-transferred to E. W. Proctor-Sims, the proprietor, by whom they

were never endorsed to any other person. Payment of the above Notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favour of the proprietor.

Name of the Advertiser—

E. W. PROCTOR-SIMS,
Residence—Bhavnagar, Kathiawar.

SUPPLEMENT TO
The Gazette of India.

No. 23.} CALCUTTA, SATURDAY, JUNE 8, 1901.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

PART I.

Government of India Notifications, Appointments, Promotions, &c.

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 14th June, 1901.

No. 412.—The services of Mr. H. E. L. P. Dupernex, of the Indian Civil Service, are placed temporarily at the disposal of the Department of Revenue and Agriculture.

MEDICAL.

The 12th June, 1901.

No. 871.—The services of Captain W. D. Hayward, M.B., I.M.S. (Bengal), are placed permanently at the disposal of the Government of Bengal.

No. 852.—The Governor General in Council is pleased to direct that the following shall be substituted for paragraph 4 of the Home Department Notification No. 437, dated the 25th July 1893, regarding the remuneration of Medical Officers for attendance on Native Chiefs and Nobles and Native Gentlemen of high position in a Native State:

“4. The report prescribed in the preceding paragraph will not be required from a Medical Officer when the fee does not exceed Rs. 50 a visit, or Rs. 1,000 in the aggregate for repeated visits in the course of a year.”

JUDICIAL.

The 11th June, 1901.

No. 801.—Captain H. deV. Harvest, Indian Staff Corps, Cantonment Magistrate of Cawnpore, is granted leave to proceed out of India on private affairs, under the leave rules for the Staff Corps for one year, the specified period to count from the date of being struck off duty. Pension service—13th year, commenced on 11th December 1900.

POLICE.

The 14th June, 1901.

No. 418.—The services of Captain G. T. Robinson, 33rd Punjab Infantry, Deputy Inspector General of Police for Supply and Clothing, Burma, are replaced at the disposal of His Excellency the Commander-in-Chief in India, with effect from the 8th July 1901.

No. 419.—The services of Lieutenant W. H. Pennington, 12th Bengal Cavalry, an Assistant Commandant in the Burma Military Police, are replaced at the disposal of His Excellency the Commander-in-Chief in India, with effect from the 8th June 1901.

J. P. HEWETT,

Secretary to the Government of India.

DEPARTMENT OF REVENUE AND AGRICULTURE.

NOTIFICATIONS.

REVENUE.

Simla, the 8th June, 1901.

No. 1243.—In exercise of the power conferred by section 1, sub-section (3), of the Punjab Alienation of Land Act, 1900 (XIII of 1900), the Governor General in Council is pleased to direct that the said Act shall come into force from the 8th June 1901.

CIVIL VETERINARY ADMINISTRATION.

The 10th June, 1901.

No. 1624—88.—Veterinary-Lieutenant F. S. H. Baldrey, M.R.C.V.S., Assistant to the Inspector General, Civil Veterinary Department, is appointed to the charge of the current duties of the Superintendent, Civil Veterinary Department, North-Western Provinces and Oudh, in addition to his own, during the absence on leave of Veterinary-Major Ringe, *vice* Veterinary-Major W. R. Hagger, transferred.

LAND-REVENUE.

The 11th June, 1901.

No. 1264—140-10.—The Honourable Mr. F. A. Nicholson, C.I.E., I.C.S., 2nd Member of the Board of Revenue, Madras, and an additional Member of the Legislative Council of the Governor General, is placed on special duty with the Department of Revenue and Agriculture, with effect from the 29th May 1901.

GEOLOGY AND MINERALS.

The 12th June, 1901.

No. 1562—45-5.—In exercise of the powers conferred by section 29 of the Indian Mines

Act, 1901 (VIII of 1901), the Governor General in Council is pleased to exempt from the operation of the said Act all kankar, stone and laterite quarries, being "mines" within the definition contained in Section 3, Clause (d), throughout the Province of Bombay.

The 14th June, 1901.

No. 1580—46-4.—Dr. T. L. Walker, Assistant Superintendent, Geological Survey of India, is appointed to act as Curator of the Geological Museum, with effect from the 8th June 1901, *vice* Mr. H. H. Hayden, Assistant Superintendent, on field duty.

FAMINE.

The 13th June, 1901.

No. 1655-40.—The services of the officers named below, which were placed at the disposal of the Honourable the Chief Commissioner of the Central Provinces in Notifications Nos. 318—84-23-F., 85—84-20-F. and 1535-F., dated respectively the 13th December 1899, 11th January 1900 and 18th July 1900, for employment on famine duty, were replaced at the disposal of His Excellency the Commander-in-Chief in India, with effect from the dates noted against their names:

- (1) Captain F. H. Domenichetti, 28th Regiment of Madras Infantry,—11th August 1900.
- (2) Captain W. A. Bailey, 36th (Sikh) Regiment of Bengal Infantry,—10th October 1900.
- (3) Captain R. A. Firth, 10th Regiment of Madras Infantry,—19th October 1900.

J. B. FULLER,

Offg. Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 10th June, 1901.

No. 247.—The following is published for general information:

No. 788-G., dated Simla, the 8th June 1901.

RESOLUTION—By the Government of India, Public Works Department.

Continuance in the Irrigation, Roads and Buildings Branch of the Public Works Department for the present of the existing rules for the organisation of the Engineer Establishment of the Public Works Department.

Read—

Government of India, Public Works Department, Resolution No. 2523-G., dated 28th September 1893.

Despatch to Secretary of State, No. 7 Public Works, dated 24th January 1901.

Despatch from Secretary of State, No. 10 Public Works, dated 1st March 1901.

RESOLUTION.—In paragraph 10 of the Resolution of the 28th September 1893, quoted in the preamble, publishing rules and orders for regulating the

organisation of the grades, the grade pay, and the promotion of Executive and Assistant Engineers of the Public Works Department, it was stated that, under the orders of the Secretary of State for India, those rules were subject to revision at the end of seven years. That period was completed on the 15th August 1900; but, as it is considered undesirable to modify the rules in question at present, the Governor General in Council is pleased, with the concurrence of the Secretary of State for India, to sanction the continuance of the present system until further orders.

2. The limiting scales for regulating promotion on the several lists for the year 1901, are shown in the table below :

Lists.	Order Nos.	LIMITING SCALE.					
		Executive Engineers.			Assistant Engineers.

} Public Works Department, No.
315-G., dated 5th March 1901.

3. Instructions as regards the limiting scale for the current year have already been separately intimated to those Local Governments who make promotions on lists under their control in the orders noted in the margin.

ORDER.—Ordered that the above Resolution be circulated to the Local

The Governments of Madras and Bombay, Public Works Department, General Branch.
The Governments of Bengal, the North-Western Provinces and Oudh and the Punjab, Public Works Department.
The Government of Burma, Public Works Department, General Branch.
The Honourable the Chief Commissioners of the Central Provinces, Assam and Coorg.
The Honourable the Resident at Hyderabad.
The Honourable the Agents to the Governor General for Central India and Rajputana and Baluchistan.
The Accountant General, Public Works Department.

Governments and Administrations and officers noted in the margin for information and guidance, and that it be published in Part I of the *Gazette of India*.

No. 789-G., dated Simla, the 8th June 1901.

RESOLUTION—By the Government of India, Public Works Department.

Continuance in the Railway Branch of the Public Works Department for the present of the existing rules for the organisation of the Engineer Establishment of the Public Works Department.

Read—

Government of India, Public Works Department, Resolution No. 2523-G., dated 28th September 1893.

Government of India, Public Works Department, Resolution No. 788-G., dated 8th June 1901.

RESOLUTION.—In the Resolution of the 8th June 1901, quoted in the preamble, the continuance is authorised, for the present, in the Irrigation, Roads and Buildings Branch of the Public Works Department, of the existing rules for the organisation of the Engineer Establishment of the Public Works Department promulgated in Public Works Department Resolution No. 2523-G., dated the 28th September 1893.

2. The cadre number and limiting scale for regulating promotion on the Railway list for the year 1901 is shown in the table below :

Cadre No.	LIMITING SCALE.					
	Executive Engineers.			Assistant Engineers.		
	1	2	3	1	2	3
160	40	24	16	32	24	24

Promotions on that list will be made in accordance with the scale stated above, and subject to the rules quoted in the Resolution of this date which also apply to the Railway Branch.

ORDER.—Ordered that the above Resolution, together with Resolution No. 788-G., dated 8th June 1901, be circulated to the Local Governments

The Governments of Madras and Bombay, Public Works Department, Railway Branch.

The Government of Burma, Public Works Department, Railway Branch.

The Accountant General, Public Works Department.

The Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow and Assam.

The Managers, North Western, Oudh and Rohilkhand, and Eastern Bengal State Railways.

The Engineer-in-Chief, Jherriah Connection Survey.

The Engineer-in-Chief, Fatehpur-Markundi Choral Railway Survey

The Engineer-in-Chief, Khushalgarh-Kohat-Thal Railway.

and officers noted in the margin, for information, and that it be published in Part I of the Gazette of India.

T. HIGHAM,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

ALTERATION OF THE AGE-PERIODS IN IMPERIAL CENSUS TABLE XIV.

Nos. 99—114.

Extract from the Proceedings of the Government of India in the Home Department (Census),—under date Simla, the 11th June, 1901.

Read—

Home Department Resolution Nos. 137—149, dated the 3rd August 1900.

RESOLUTION.

The Government of India have had under consideration the question of altering the age-periods prescribed for Table XIV of the Imperial Census Tables appended to the Resolution cited in the preamble. With a view to illustrating more accurately the extent to which infant marriage is prevalent, it has been decided to recast the age-periods as follows :

0—5.	15—20.
5—12.	20—40.
12—15.	40 and over.

As the table is a special one it is not necessary to similarly alter the age-periods in Table VII. In Provinces where Table XIV has already been tabulated in the form originally prescribed, a Supplementary Table (XIV-A) should be prepared in the new form and both included in the Tables appended to the Report.

ORDER.—Ordered, that a copy of this Resolution be forwarded to all* Local

* Madras.
Bombay.
Bengal.
North-Western Provinces and
Oudh.

Merwara.
The Honourable the Agent to the
Governor General in Baluchistan.
The Superintendent of Port Blair.

Governments and Administrations for information and guidance, and that a copy be forwarded to the Foreign Department and to the Census Commissioner† for India.

† With a copy of the letter to the Under Secretary of State for India, No. 2, dated 13th June 1901.

Ordered also that the Resolution be published in the Supplement to the *Gazette of India*.

[True Extract.]

J. P. HEWETT,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on
Saturday, the 8th June, 1901.

On Tuesday winds were light and unsteady on the Malabar Coast and were changing to southerly directions; the sea was rough at Colombo and conditions were slightly suspicious in the extreme south of the Arabian Sea. The barometer fell slightly to briskly in the south of the Peninsula and Ceylon on Wednesday and the sea was rising and southerly winds continued on the Malabar Coast. These conditions indicated the formation of a cyclonic storm in the south of the Arabian Sea in front of the advancing monsoon current, and this storm proved the principal feature of the meteorology of the week. The storm intensified slowly during the next few days, and on Saturday the deficiency of pressure in the South Konkan Coast amounted to a fifth of an inch. The storm, however, moved very slowly, and at the end of the week had advanced northwards only to about Lat. 14° or 15° N. The monsoon broke on the Malabar Coast on Thursday, but did not extend inland during the week. The heaviest falls reported were:—on Thursday, Cochin 4.76 inches, Karwar 3.34 inches; on Friday, Trivandrum 5.41 inches, Cochin 4.50 inches, Calicut 4.32 inches; and on Saturday, Mangalore 5.34 inches, Calicut 3.09 inches, Cochin 2.41 inches, Mercara 2.06 inches.

At the time this storm was forming in the South Arabian Sea another was forming in the south-east of the Bay which advanced north-westwards towards the Orissa Coast at the close of the week. It was a very feeble disturbance and was of very little importance except in determining an advance of humid winds into Burma which gave moderate to heavy rain in that area.

Thunderstorms more or less local in character have occurred in North-East India. A depression from Sind advanced eastwards into the west submontane districts of the North-Western Provinces on Monday and gave showers in the Punjab and light rain and snow in Kashmir. Weather was disturbed in Kashmir for several days and showers were reported from that area up to Thursday. In consequence of the rain and snow in Kashmir, temperature has been steadily in defect and pressure steadily in excess in the North-West Punjab during the whole of the week.

Rain.—The rainfall of the week has averaged more than 3 inches in the divisions of Lower Burma, Arakan, Assam, North Bengal, Malabar and Coorg, and has been equal to, or in excess of, the normal in the Surma and Brahmaputra divisions of Assam, Orissa, the central division of the North-Western Provinces, the Central, North and West Punjab, West Rajputana, Malabar, Mysore, the three divisions of the East Coast and in Central and South Madras.

The following gives the largest amounts received at individual stations :

Burma	Thatôn	6'91 inches.
	Kyaukton	8'06 „
Assam	Sunamganj	16'28 „
	Sylhet	14'98 „
	Burkola	6'74 „
	Cheera Poonjee	12'17 „
Bengal	Durgapur	9'70 „
	Dinhota	8'96 „
	Cooch Behar	8'69 „
Malabar	Cochin	14'62 „
	Calicut	8'84 „
	Hosdrug	11'58 „
	Mangalore	6'92 „
	Aleppy	15'69 „
	Trivandrum	9'18 „
Madras	Devala (Nilgiris)	6'93 „

This week commences a new rainfall period and the variations from the normal of the period are hence the same as those of the week.

W. A. BION,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. B. FULLER,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the 8th June 1901.

Madras.—There has been general rainfall. It was heavy in Tranvancore, good in Kurnool, Cuddapah, South Arcot and Tinnevely, up to average in the Circars, Anantapur, the Central districts, except Coimbatore and Malabar, *nil* in Madras and moderate elsewhere. Water-supplies continue low in parts of the Deccan, Chingleput, North Arcot, Salem and Madura. Ploughing, sowing and transplanting are in progress generally. Standing crops are in fair condition and have been benefited by recent rain. Harvests continue in small areas with moderate outturn. Pasture is scanty, except in Vizagapatnam, South Arcot, Coimbatore and the southern and west coast districts, but fodder generally is available. The condition of cattle generally is good. Prices rose slightly in the southern half of the Presidency, but are stationary in the northern half. Prospects generally are fair. Numbers on relief—weavers—Cuddapah—men, 1,749; women, 1,379; total, 3,128: Test-workers—Cuddapah—men, 720; women, 855; children, 113; total, 1,688: North Arcot—men, 24; women, 27; total, 51.

Bombay.—Good rain fell during the week in parts of Poona, Satara, Belgaum and Dharwar. There was a moderate fall in parts of Kolaba, Ratnagiri, Ahmednagar and Kanara and a slight fall in parts of the Panch Mahals, Ahmedabad, Thana, Nasik, Sholapur and Bijapur. The outturn of the spring crops is good in Sindh, fair to good in the Konkan, Surat, Khandesh, Satara and Rajkot and parts of Poona and Broach and moderate to poor elsewhere. Preparation for the autumn crop sowings are generally in progress. Autumn crop sowing is going on in parts of Shikarpur, Thar and Parkar, Poona, the Karnatak and the Konkan, but is retarded in Sholapur and parts of the Karnatak for want of sufficient rain. The fodder-supply is sufficient, except in parts of Sholapur and Dharwar. Agricultural stock is in good condition and generally sufficient, except in parts of Gujarat, Nasik, Bijapur and Dharwar, where deficiency is being met by *takavi* grants. The water-supply is becoming deficient in parts of Thar and Parkar, Nasik, Ahmednagar and Sholapur. Prices have risen in three districts and are stationary elsewhere. The relation of prices of the principal staples to normal and prices of 1900 remain substantially unchanged.

Daily average numbers on relief—British districts—on test-works, 604; on relief-works, 266,829; dependants, 39,756; total on works, 307,189. In poor-houses, 5,551; on village relief, 84,434; total on gratuitous relief, 89,985. Figures for Ahmedabad and Ahmednagar are incomplete. Native States—on relief-works, 33,798; dependants, 6,445; total on works, 40,243. In poor-houses, 3,047; on village relief, 2,603; total on gratuitous relief, 5,650. Grand total, 443,067.

Bengal.—Excepting in Palamau and a few districts in Bihar there was general rain over the Province, the heaviest fall being in East Bengal. Ploughing and sowing are going on. Jute and *aus* plants are thriving. Sugarcane is growing well. Sowing of *marua* and *makai* has been commenced in Gaya. Indigo needs rain in Saran. Fodder and water are sufficient, except in Bankura, where the former is said to be dear. The price of common rice has risen in twelve districts, fallen in nine and is stationary in the rest.

North-Western Provinces and Oudh.—The weather was hot and unsettled with westerly winds. Light showers fell in nineteen districts. Standing

crops are doing well and are being irrigated. Prospects are good. Preparation of lands for autumn cultivation is in progress. Millet is being sown in Aligarh, cotton in Muttra, maize in Farukhabad, rice in Fyzabad and indigo in Allahabad. Sugarcane has been damaged to some extent by insects and caterpillars in a few districts. Markets are adequately stocked and fodder is sufficient. Prices are stationary.

Punjab.—Slight rain has fallen in Hissar, Amballa, Mooltan, Lahore, Shahpur, Rawalpindi and Dera Ismail Khan. Harvesting of spring crops is going on in Ferozepur, Mooltan, Lahore and Sialkot. Reaping of hot weather crops continues in Delhi. Sowings of autumn crops are in progress in Amballa and Mooltan. Sugarcane and cotton crops are being weeded in Sialkot. The condition and prospects of standing crops are reported to be good. The outturn of spring crops is expected to be average in Sialkot, much above average in Ferozepur and good in Lahore and Peshawar. Autumn crops have been slightly damaged by locusts in parts of Mooltan and Shahpur. Young locusts have patched out in parts of Lahore, Rawalpindi and Peshawar, but measures are being taken to destroy them. The sugarcane crop has been partially damaged by insects in Jullundur. Cattle are generally in good condition. Pasturage fodder is reported to be sufficient in all districts, except in parts of Mooltan. Prices of wheat and other food staples are generally showing a downward tendency, except in Rawalpindi, Delhi and Dera Ismail Khan, where they have risen slightly. The price of barley has suddenly risen in Jullundur. Wheat is selling from $13\frac{3}{4}$ to 22 seers, barley 21 to 29, gram 17 to $22\frac{1}{2}$, maize 17 to $24\frac{1}{16}$, great millet 20 to 22 and bulrush millet 16 to 25 seers per rupee.

Burma.—**LOWER BURMA:** Ploughing is in progress in ten districts. **UPPER BURMA:** Reaping of dry weather paddy is completed in Myitkyina. Ploughing for the wet weather crops is general. Sowing of the early wet weather crops, such as sesamum and cotton in Sagaing, Lower Chindwin, Meiktila and Myingyan, has commenced. Sowing on hill sides is completed in parts of Bhamo. The early paddy harvest in Mandalay will be below the average owing to want of rain. The price of paddy has risen in Thayetmyo and fallen in Prome. Elsewhere changes are unimportant.

Central Provinces.—The weather was very hot and cloudy, with occasional storms. Light showers of rain fell in six districts. Betul received nearly an inch, Sambalpur three-quarters and Mandla half an inch. Preparation of land for summer sowings is in full swing. Sowing of rice has been commenced in parts of Balaghat, Raipur and Sambalpur. Locusts appeared in Saugor, Narsinghpur, Wardha, Chanda, Raipur and Sambalpur, but did no damage. Fodder and water generally are sufficient. Prices are steady in eight districts. The price of *juar* has risen in Hoshangabad, Nagpur and Balaghat, owing to the demand for seed. The price of gram shows a tendency to fall. The cheapest prices are—wheat 15, gram $16\frac{1}{8}$, rice $13\frac{1}{2}$ and *juar* 20 seers per rupee. The dearest prices are—wheat 8, gram 12, rice 7 and *juar* $11\frac{1}{4}$ seers per rupee. There were 2,569 persons on gratuitous relief during the week.

Assam.—Rain fell in all districts. More rain is still wanted in Cachar, Kamrup, Darrang, Nowgong and Sibsagar. Plucking of tea is in progress. Prospects are fair in Sibsagar and Lakhimpur and poor in other districts. Red spider is prevalent. Ploughing for and sowing of early rice are nearly finished. Ploughing for and sowing of late rice and planting of sugarcane are in progress. Prospects of jute are good, and of early rice good in Sylhet, Goalpara, Lakhimpur and the Garo Hills, fair in Darrang and indifferent elsewhere. Prices—common rice, Silchar, 12; Sylhet, Gauhati, Nowgong and Sibsagar, 10; Dhubri and Tezpur, 9; and Dibrugarh, $9\frac{1}{2}$ seers per rupee.

Mysore.—The rainfall in the Civil and Military station was 33 cents. The rain was general. Standing crops are in good condition in Mysore, Bangalore, and Kadur and in parts of Hassan and Shimoga. *Ragi*, paddy and sugarcane are being sown in various parts, and in a few other parts paddy is being harvested. Ploughing operations are in progress in parts of Bangalore and the Civil and Military station. Prospects are good in Mysore and fair in Bangalore, Hassan, Chitaldrug and Kolar. Prices are steady in Hassan and Chitaldrug, have slightly risen in Bangalore, Shimoga and parts of Tumkur and Kadur and have slightly fallen in Mysore, Kadur and in other parts of Tumkur and Kadur. Cattle are healthy. Water and fodder are available, except in a few parts of Shimoga and Tumkur, where water is needed.

COORG: The rainfall was 6 inches 47 cents. Sowing of paddy has been commenced in parts. Prices of food-grains are stationary. Water and fodder are sufficient.

Berar.—The weather was hot and occasionally cloudy. Ploughing operations are well advanced. Fodder and water are sufficient. Prices are almost stationary.

Hyderabad.—The rainfall during the week was 26 cents. The total from 1st January is 4 inches 84 cents. Autumn sowings have been begun in parts of the Raichur, Lingsagur and Mahbubnagar districts. There is sufficient pasture for cattle. The water-supply, with few exceptions, is adequate. Grain prices are almost stationary. Prices—Wheat 51⁹/₁₆, coarse rice 7³/₄ and *juar* 14¹/₁₆ seers per *halli* rupee. Total number of persons on relief—works, 16,380; gratuitously relieved, 2,860; total 19,240.

Rajputana.—The rainfall in cents was—Bikanir, average, 22, Marwar 25, Jaisalmir 2, Abu 15, Mewar 13, Deoli 49, Shahpura 40, Tonk 9, Bundi 20, Jaipur 5, Alwar 8, Karauli 13 and Ajmer-Merwara 17. Land is being prepared in parts for autumn sowing. Cattle are in good condition. Fodder is sufficient. Prices are rising in four States, falling in two and are steady elsewhere. Cheapest prices range from 13 to 25 seers per rupee. Number on gratuitous relief, 216.

Central India.—There was a slight rainfall everywhere, except in Baghelkhand. Agricultural operations are in progress in Bhopal, Bundelkhand, Malwa, Bhopawar and Indore. Agricultural stock is in good condition in all agencies. Prices are steady in Gwalior, high in Bhopal, normal in Bundelkhand, below average in Baghelkhand and rising in Malwa and Indore. Average prices—Gwalior 14 to 25⁹/₁₆, Bundelkhand 16 to 21¹/₁₆, Malwa 14, Bhopawar 16, Indore 10 to 17 seers the rupee. Numbers on relief—works—Jaora, 490; Bhopawar (Dhar), 194; gratuitous relief—Jaora, 43.

Baroda.—Agricultural stock is in fair condition. Prices—*bajr.* 30, *juar* 34, wheat 23, rice, superior, 13, rice, inferior, 22 pounds per rupec. Numbers on relief—works, 19,673; gratuitous relief, 9,025; total 28,698.

Kashmir.—The weather was dry and warm. Prices are normal, rice selling for 24 seers the rupee. JAMMU PROVINCE: No rain fell during the week. The condition of the standing crops is good. Threshing is in progress. Fodder is sufficient. Prices generally are stationary. Wheat sells from 17 to 26 and maize 24 to 36 seers the rupee.

Nepal.—Report not received.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table :

Name of Province.	PRECEDING WEEK. (REVISED FIGURES.)			PRESENT WEEK.			Increase or decrease.

Note.—The above tabular statement is based on the rainfall returns of 159 meteorological stations published in the India Daily Weather Report. It contains rainfall data for the week ending at 8 A.M. on each Thursday. The weekly Weather Review, published elsewhere in the Gazette, on the other hand, contains data based on the rainfall returns of many more stations (about 1,260), which are weekly collated in each district in India and reported in a concise form to the Simla Office. The weekly Weather Review is thus the more comprehensive and complete of the two, though it is necessarily a few days behind hand in its intelligence.

During the week under review (7th to 13th June) the only important rainfall has been along the West Coast and over Burma and North-East India. As stated last week the monsoon current preceded by a moderate storm struck the West Coast on the 6th. Both storm and current advanced slowly up the coast on the 7th when the rainfall was between 4 and 5 inches in Malabar; on the 8th the storm lay off Karwar, heavy rain had continued along the West Coast and showers (in places heavy) had fallen in the Deccan. On the 9th the storm was more intense, but had hardly moved and monsoon rainfall was practically

confined to the West Coast ports and even there was not very heavy. On the 10th the storm was passing away north-westward, but the winds along the coast continued to be influenced by the storm and there had been no extension of rain inland. On the 11th, 12th and 13th the storm ceased to affect the weather along the West Coast and the winds to a certain extent assumed the usual monsoon directions, but during those three days the rainfall was more or less confined to the narrow strip between the Western Ghats and the sea. On the last day (13th) the rainfall in this strip was very heavy. Karwar reporting 6 inches, Goa and Mormugao 7 inches and Bombay 4 inches.

On the opposite side of India the general conditions and changes have not been very dissimilar. The monsoon current preceded by a storm has advanced up the east side of the Bay. Heavy rain was received in Tenasserim and Lower Burma on the 7th and this rain extended northward during the 8th, 9th and 10th, so that during the 11th, 12th and 13th the rainfall area embraced the whole of Burma and Assam and parts of south-east, east and north of Bengal. The rainfall due to this advance was more or less heavy over Lower Burma throughout the week (2" to 4" daily) and was heavy in South-East Bengal on the 10th and 13th and in Assam on the 12th and 13th.

In other parts of the country there has been practically no rain except in the Bombay Deccan on the 7th and 8th, in the Central Provinces on the 12th and in Madras on the 7th, 8th and 9th when thundershowers were received.

The above table shows that the week's rainfall was very excessive on the Burma Coast, slightly excessive in Burma West and the Brahmaputra Valley and very excessive again on the West Coast. In all other places the fall was short and in Himalayas and Sub-Himalaya West, the Indo-Gangetic Plain West, the North-West Dry area, Baluchistan, Gujarát, Central India Plateau, East Satpuras and East Coast South the week's rainfall was actually or practically *nil*.

The above shows that up to date the monsoon current and rainfall have spread over Burma, into part of North-East India, but that the Bombay current's rainfall is still practically confined to a narrow strip along the West Coast.

SIMLA ;
The 13th June, 1901. }

W. L. DALLAS,
Assistant Meteorological Reporter
to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.
(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected District details of the total totals published weekly in the Crop and Weather Summary of the *Gazette of India*.
Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns, from persons actually relieved in poor-houses or at their homes. Weavers relieved in their own trade are shown under "Gratuitous relief."
The dates at the head of the table are the dates of the *Gazette of India* in which the Provincial totals were published. The figures, however, actually be numbers on relief in each preceding week.

Simla, the 14th June, 1901.

Read—

Resolution by the Government of India, in the Home Department, No. 224—40, dated 25th January 1901.

Letter to the Government of Bengal, No. 869-P., dated 13th February 1901.

Resolution by the Government of India, in the Home Department, No. 1587—1614, dated 8th March 1901.

Letter from the Government of Bengal, No. 511 (Marine), dated 11th March 1901.

Letter to the Government of Bengal, No. 1837-P., dated 11th April 1901.

Letter from the Government of Bengal, No. 977 (Marine), dated 13th May 1901.

RESOLUTION.—By the Resolution of the 8th March 1901, read in the preamble, the changes in the leave rules, which were sanctioned in the Resolution of 25th January 1901, were made applicable to officers of certain Departments having special leave rules.

2. The Governor General in Council is now pleased to announce that the new rules may also be applied, with effect from January 21, 1901, to members of the Bengal Covenanted Pilot Service whose leave is regulated by the rules in Chapter XXXII of the Civil Service Regulations, subject to the following conditions :

- (a) that the special privilege leave on half pay admissible under clause (b) of Article 746 shall not be combined with other leave under the new rules ; and
- (b) that the condition prescribed by clause (c) of Article 746 that a pilot may not take ordinary privilege leave for 11 months after his return to duty from leave under clause (b) of that Article shall be enforced even when the privilege leave is not taken by itself but is combined with other leave.

ORDER.—Ordered that this Resolution be communicated to the Home Department, to the Government of Bengal and to the Accountant General, Bengal.

Ordered, also, that the Resolution be published in the Supplement to the *Gazette of India*.

J. F. FINLAY,

Secretary to the Government of India.

INVENTIONS and DESIGNS.

Calcutta, the 13th June 1901.

NOTIFICATIONS.

No. 1941 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 8th June 1901 :—

- No. 239 of 1901.—Messrs. Ernsthausen, Ltd., merchants, Calcutta. *Improvement of indigo manufacture.*
- No. 240 of 1901.—Mahboob Alum, supervisor, Public Works Department, Rawal Pindi. *Improvements in water lifts.*
- No. 241 of 1901.—George Westinghouse, manufacturer, of Westinghouse Building, Pittsburg, Pennsylvania, U. S. A. *Improvements relating to the production and utilization of gas.*
- No. 242 of 1901.—Alexander Muirhead, doctor of science, telegraph engineer, of the town of Shortlands in the county of Kent, and kingdom of England. *Improvements relating to electric telegraphy.*
- No. 243 of 1901.—Metchislav Fiedler, director of House Schelaputin, Mochowaja Street, in the city of Moscow, in the empire of Russia. *Improvements in explosive compounds.*
- No. 244 of 1901.—John Storer, chemical engineer, of Broken Hill Chambers, 31 Queen Street, Melbourne, in the state of Victoria, Australia. *Improvements in or connected with cans or receptacles for kerosene and some other oils and liquids.*
- No. 245 of 1901.—Ernest Oscar Mawson, executive engineer, Public Works Department, agency engineer, Rajkote, Kathiawar. *Improvements in automatic weirs.*
- No. 246 of 1901.—Hentir Sarafian, merchant, of 22 Rue Victor Hugo, B. Colombes, Paris, France. *Improvements in lamp wicks.*
- No. 247 of 1901.—David Smith, assistant to Messrs. Richardson and Cruddas, iron founders, etc., of Byculia Iron Works, Bombay, in British India. *Improvements in boiler furnaces.*
- No. 248 of 1901.—Duncan Cameron Fraser, assistant in the firm of Messrs. G. Wense & Co., proprietors of the Wense Tannery Leather Works and Equipment Factory, Cawnpore. *Improvements in boots and gaiters, to be known as the "improved gaiter boot."*
- No. 249 of 1901.—William Hucks and William Hucks, junior, engineers, both of 22 Oval Road, Camden town, in the county of London, England. *Improvements in apparatus for use in dispensing aerated liquids.*
- No. 250 of 1901.—William Hucks, junior, engineer, of 4 Acacia Place, St. Johns Wood, in the county of London, England. *Improvements in apparatus for use in dispensing aerated liquids.*

No. 1942 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's

office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

- No. 349 of 1900.—John Thomas Moate, insurance agent, of King William Street, Adelaide, South Australia. *An improvement in book leaves.* (Specification filed 4 June 1901.)
- No. 399 of 1900.—Edward Lloyd Pease, engineer, of the Parkfield Works, Stockton-on-Tees, in the county of Durham, England. *Improvements in structural arrangements in a manner applicable to roofing, walling, and the like structural purposes.* (Specification filed 4 June 1901.)
- No. 414 of 1900.—The British Westinghouse Electric and Manufacturing Company, Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improved method of and means for indicating speed or current frequency of electric generators.* (Specification filed 3 June 1901.)
- No. 415 of 1900.—The British Westinghouse Electric and Manufacturing Company, Ltd., manufacturers, of Westinghouse Building, Norfolk Street, in the city of Westminster, England. *Improvements in systems of electrical distribution.* (Specification filed 3 June 1901.)
- No. 423 of 1900.—Charles Perdrisat, manufacturer, a member of the firm Perdrisat, Blanc & Co., of Territet, Switzerland. *Improvements relating to coin-freed apparatus.* (Specification filed 4 June 1901.)
- No. 446 of 1900.—Harry Vaughan Rudston Read, civil engineer, of Broad Street Avenue, in the city of London, England. *Improved means to be employed in charging gas into liquids contained in bottles and the like.* (Specification filed 4 June 1901.)
- No. 452 of 1900.—Harry Vaughan Rudston Read, civil engineer, of Broad Street Avenue, in the city of London, England. *Improved means to be employed in charging gas into liquids contained in bottles or the like.* (Specification filed 4 June 1901.)
- No. 70 of 1901.—Arthur Hoare, civil engineer, of 8 Elphinstone circle, Bombay. *Improvements in mechanical punkahs.* (Specification filed 23 May 1901.)
- No. 108 of 1901.—John William Kincaid, locomotive engineer, 16 West 15th Street, in the city of Covington, state of Kentucky, U. S. A. *A mechanical stoker.* (Specification filed 4 June 1901.)
- No. 137 of 1901.—Harry Walker Abbott, mechanical engineer, of 414 Winchester Avenue, and Thomas Inlow Porter, officer of the U. S. Secret Service, 166 Adam Street, both residing in Chicago, county of Cook, state of Illinois, U. S. A. *Machines for counting coins, disks, etc.* (Specification filed 4 June 1901.)
- No. 168 of 1901.—Arthur William James, engineer to the Calcutta Landing and Shipping Company, Ltd., residing at 20 Howrah Road, Sulkeah, Howrah, Bengal. *An improved exhaust steam automatic surface condenser, called "The Simplex."* (Specification filed 4 June 1901.)

No. 1943 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the period shown against each:—

- No. 208 of 1895.—The Central Cyclone Company, Limited. *Improvements in and relating to machines for grinding, crushing or disintegrating grain or other materials.* (From 15 June 1901 to 15 June 1902.)
- No. 19 of 1896.—Frank Sidebotham Rippingille. *Improvements relating to wheels or pulleys for guiding driving ropes, and for other like purposes.* (From 4 August 1901 to 4 August 1902.)
- No. 100 of 1896.—William Healy. *A machine for making box blanks.* (From 17 July 1901 to 17 July 1902.)
- No. 130 of 1896.—Harry Dain Hinks. *Improvements in tubular or hurricane lanterns.* (From 21 August 1901 to 21 August 1902.)
- No. 28 of 1897.—Donald Barns Morison. *Improvements in stamp mills or apparatus for crushing ores and other substances.* (From 9 August 1901 to 9 August 1902.)

No. 1944 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

No. 16 of 1896.—Edward Nicoll Dickerson and Julius John Suckert. *An improved process of and apparatus for producing and liquefying acetylene gas.* (Specification filed 26 February 1897.)

No. 37 of 1896.—Samuel Maurice Johnson. *An improved sanitary closet.* (Specification filed 1 March 1897.)

No. 54 of 1896.—Taylor Burrows and Dick Edwards Radclyffe. *A machine for breaking or decorticating and scutching fibrous plants, stems or straws such as ramie hemp and the like throughout the length thereof at one operation.* (Specification filed 26 February 1897.)

Fee in respect of the continuance of an exclusive privilege—

4 (i) After the expiration of the eleventh year and before the expiration of the twelfth year from the date of the filing of the specification—

The sum of Rs100 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 15th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,

*Secretary under the Inventions and
Designs Act, 1888.*

Port Blair	22nd " 5-45	Via Madras.
† China and Japan	19th " 5-45	Via Tuticorin and Colombo.

* Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail Steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

† Correspondences for China and Japan are despatched daily to Colombo so that they may proceed by the first steamer available.

The letter-box for inland articles will be cleared for the forenoon Mails at the following hours :—

For Calcutta, Arakan and Chittagong Express train at 5-30 A.M.

For Midnapur, Orissa and Madras Presidency at 5-45 A.M.

For Eastern districts as far as Dacca and Mymensing at 6-30 A.M.

For Khulna line at 7-30 A.M.

For Bombay Mail via Nagpur and Mail for Midnapore at 10-45 A.M. and with a late fee of ½ anna up to 11-35 A.M.

The letter-box will be cleared for the evening Mails without late fee at the following hours, viz. :—

For E. I. Railway Loop Mail at 2-30 P.M. and up to 2-55 P.M. with a late fee of ½ anna.

For Darjeeling and Assam at 3-25 P.M. without late fee, and 3-50 P.M. with a late fee of ½ anna.

For the Bombay Mail via Jubbulpore at 6 P.M.

For the Punjab Mail at 7-30 P.M.

For Midnapore and Orissa Districts at 7-30 P.M.

For Khulna Mail at 7-30 P.M.

For the Eastern Bengal Mail at 7-30 P.M.

Late letters bearing a fee of ½ anna will be received for the Midnapore, Orissa, and the Madras Presidency Mails from 5-45 A.M. to 6-35 A.M., and for the Bombay Mail *via* Jubbulpore up to 6-30 P.M. and for other Mails from 7-30 to 8 P.M., and from 8-0 to 8-45 P.M. with a late fee of 1 anna for the Punjab and Eastern Bengal Mails only.

Late registered letters will be received between the following hours:—

For the Bombay Mail *via* Nagpur up to 10-30 A.M.

For the Bombay Mail *via* Jubbulpore from 5 P.M. to 6-15 P.M.

For the Punjab Mail from 6 P.M. to 7 P.M.

For the Eastern Bengal Mail from 6 P.M. to 7 P.M.

For the Khulna Mail from 6 P.M. to 7 P.M.

For Midnapore, Orissa and the Madras Presidency the previous evening up to 6 P.M. and late registered letters up to 7 P.M.

The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7-30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of ½ anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies, China and Japan *via* Tuticorin, the letter-box for foreign articles will be cleared for the last time for articles without the late fee at 5-45 A.M., and late letters and papers fully prepaid will be received up to 6-35 A.M.

On the day of despatch of the Mail of Europe (Thursday), the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6-30 P.M., and late letters and papers fully prepaid will be received up to 6-45 P.M. Late registered articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6-30 P.M. for despatch by any Foreign Mails *via* Bombay the same night and up to 8-30 P.M., late letters and papers up to 9 P.M., for any Foreign Mails despatched by Sea. Foreign Mails for despatch *via* Madras or Tuticorin are received up to 5-45 A.M. and with a late fee up to 6-35 A.M. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,

Offg. Presidency Postmaster, Calcutta.

GEOLOGICAL SURVEY OF INDIA.

Do. do. 31st Dec., 1896. Price Rs 1.

Do. do. 31st Dec., 1897. Price Rs 1.

Do. do. 31st Dec., 1898. Price 12a.

Apply to the Registrar, Geological Survey of India, Calcutta.

PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

Simla, the 20th September, 1893.

A Registry Office for men of all grades out of employ is kept up by the Principal, Thomason College, Roorkee. Officers requiring men are requested to apply to Principal.

J. CLIBBORN, Major, I.S.C.,

Principal, Thomason College.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1900, the price of this Quinine will be as follows:—

1-pound tin, Rs 17, or, post-free, Rs 17-12.

½ " " Rs 8-8, " Rs 9.

¼ " " Rs 4-4, " Rs 4-12.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seepore, near Calcutta.

বঙ্গদেশের গবর্ণমেন্টের সিনকোনা আবাদে প্রস্তুত
বিশুদ্ধ কুইনাইন।

১৯০০ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য
হইবে, যথা—

১ এক পৌণ্ড টিন ১৭ বা ডাকমাত্রল বিনা ১৭০০

½ আধ " " ৮৮ " ৮৮০

¼ শিকি " " ৪৪ " ৪৪০

পত্রীকা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে
প্রস্তুত করা হইয়াছে, এবং ইহা যে সিনকোনাইন ও সিনকোনি-
ডাইন নামক অশুদ্ধ কারের সহিত ইচ্ছা পূরক মিশ্রণ হয় নাই
তাহার পরীক্ষা দেওয়া যাউক। ইহা নগর মূল্যে কেবল গবর্ণ-
মেন্টের কামচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার
নিকট শিবপুরের কোম্পানির বাগানের সুপারিন্টেন্ডেন্টের নিকট
পাইতে পারে।

GOVERNMENT CINCHONA FEBRIFUGE.

Cinchona Febrifuge can be purchased by all Government officers, and by any one taking six pounds at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, Rs 2-8; per eight-ounce tin, Rs 5; per pound tin, Rs 10. chasers other than resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal 8vo, with numerous Plates.

Volumes I and II are published in separate convenient sized
Sections, as below, but can be bound up if required:—

VOLUME I. *

Section	I. Building Materials (1898), Rs. 2-0.
"	II. Masonry (1898), Rs. 1-4.
"	III. Carpentry (1898), Rs. 1-8.
"	IV. Earthwork (1892), Rs. 1-4.
"	V. Tools and Plant (never published).

VOLUME II. *

Section	VI. Buildings (1899), Rs. 1-4.
"	VII. Bridges (1897), Rs. 4-4.
"	VIII. Roads (1897), Rs. 1-8.
"	IX. Railways (1891), Rs. 1-4.
"	X. Irrigation Works. (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol.	I. Direct and Transverse Strain, principally by Analytical Methods. Rs. 7.
	II. The Stability of Structures, mostly by Graphic Methods. (In the Press.)

* Date of Edition on sale.

MANUALS.

- VII. Surveying (by Major Firebrace, R.E.) (7th edition
with Curve Table). Rs. 3.
XIII. Drawing (by Lieut. R. Pulford, R.E.). † Rs. 6.
XIIIa. Drawing, First Principles of Geometrical (by
do.). Rs. 1-4.
XIV. Simple Applied Mechanics (3rd edition), Parts
I and II in one. Rs. 1-8.
Simple Applied Mechanics, Part II (1st edition)
8s.
XV. Examples of Estimating. Comprising a progres-
sive series of Estimates (with Plans of Buildings
and Bridges, worked in detail). By P. Keay, Esq.,
and revised by C. C. Sullivan, Esq., Head
Master (5th edition). Rs. 3-12.
XVI. Earthwork Estimating, with Practical Tables and
Diagrams. By Major A. M. Brandreth, R.E.
Rs. 1.
XVII. Specimens of Printing used in the College
Drawing Course and Entrance Examinations. 6s.

Note.—The complete Treatise forms the course of the Civil
Engineer and Upper Subordinate classes at the Thomason College
in Civil Engineering. The other Manuals are the complete
course for both Classes in the several subjects of which they
treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. 4s.
Scantlings of Timber for Roofs. Tables and investiga-
tion of formulae for determining size of timbers for Flat
Roofs from 8 to 22 feet span, and for Trussed Roofs
from 30 to 50 feet span (2nd edition). By P. Keay, Esq.,
Head Master. 12s.
Notes on Chemistry of Building Materials. Rs. 1-8.
Late's Mechanism. Rs. 1.
Farman's Descriptive Mineralogy. Rs. 2-4.
Useful Rules and Tables relating to Measurement of
Timber. Rules for computing the cubic contents of
Round Logs as well as of Sawm Timbers, with Tables,
etc. By Rai Kunhya Lal. Rs. 2-8.
O'Callaghan's Earthwork Tables for India. In one large
sheet, 12s.; mounted on cloth and bound. Rs. 1-12.
Tables for Computing Earthwork in Distributaries and
small open Channels in use in Irrigation Department,
N.W. Provinces. 12s.
Tyndall's Hand-Book of Specifications. (In the Press.)
The Indian Engineer's Pocket Book. Rs. 1.
Wooden Bridges and Designs. By Rai Kunhya Lal.
(In the Press.)
Blasting under Water (2nd edition). 10s.
Waug's Instructions for Topographical Surveying.
Rs. 1.
Analysis of Lime and Cement Stones. By Murray
Thompson, Esq., M.D., F.R.S.E. 6s.
Chart, giving by a graphic method the discharges of
earthen channels up to 40 feet bed width, very useful for
Projects. Rs. 6.

SCIENCE BOOKS.

- Wilson's Inorganic Chemistry. Rs. 1-8.

MATHEMATICAL.

- Boileau's Tables of Wages and Rent, and of the value
of goods. Tables for converting Seers and Chit-
tacks into decimals of a Maund, and Annas and Pies
into decimals of a Rupee. With a few others of
general utility (4th edition). Rs. 1-8.
Boileau's Tables of Log sin² P (for computing time (4s.).
Cape's Logarithms, with Tables of Squares, Cubes, etc.
Rs. 1-4.
Cape's Geometry. Rs. 1-4.
Cape's Mechanics. 8s.
Todhunter's Plane Trigonometry. Rs. 2-8.
Todhunter's Differential Calculus. Rs. 2-8.
Military Topography. 8s.

HINDUSTANI.

- Elements of Hindustani Grammar. 8s.
Technical Dialogues—English and Urdu. Rs. 1.
A Vocabulary of Common and Technical Words in

‡ This does not contain the Entrance Examination Papers of the Upper Subordinate Class.

CIRCULARS.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants.

J. CLIBBORN, Lieut.-Col., I.S.C.,
Principal, Thomason Civil
Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.

For the Complete Series, including postage.

	Without postage.	With postage.
	R. a. p.	R. a. p.
For the Calcutta Series	10 0 0	12 0 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately, inclusive of postage in India	...	2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	...	1 0 0

The following is the rate at which deductions will be made to parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For moulasil.
	R. a. p.	R. a. p.
For the Calcutta Series; per copy	0 0 0	0 0 0
" each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 5 3
" the Calcutta Series. For the year	7 2 0	8 0 0
" each of the Madras, Bombay, and Allahabad Series. For the year	4 4 0	4 11 1

Persons desiring to subscribe for, or purchase, the Reports should apply to—

Superintendent, Government Press, Madras.

The Superintendent, Government Central Press, Bombay.

The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.

Orders and subscriptions for 1893 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rate payable in advance:—

	One page.	Half page.	Quarter page.
	R. a. p.	R. a. p.	R. a. p.
For one issue	20	14	9
" three issues	55	30	24
" six "	100	65	41
" nine "	145	90	64
" twelve "	180	120	80

Several volumes of the **BENGAL LAW REPORTS**, from August 1868 to December 1875, and **FULL BENCH RULINGS**, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
	R. a. p.	R. a. p.
Bengal Law Reports, for one year	30 0 0	32 5

Single copies, K2 per copy.

Full Bench Rulings, Parts I and II. 22 5
Bengal Secretariat Book Depot, Writers' Buildings, Calcutta
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the **INDIAN LAW REPORTS** (complete series) having now been reprinted, the complete Reports from 1870 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, K22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions to the complete series before the 31st March in each year. Those who register their names after that date will understand the copies will be supplied only if available.

The 8th June, 1901.

SUPPLEMENT TO

The Gazette of India.

No. 24 } CALCUTTA, SATURDAY, JUNE 15. 1001.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

The Gazette of India.

EXTRAORDINARY.

Published by Authority.

SIMLA, MONDAY, JUNE 17, 1901.

NOTIFICATION.

SIMLA, the 17th June, 1901.

His Excellency the Viceroy and Governor General in Council has received with profound regret the intelligence of the death on the sixteenth of June of Her Highness the Nawab Shah Jahan Begam of Bhopal, Knight Grand Commander of the Most Exalted Order of the Star of India and Member of the Imperial Order of the Crown of India.

During the thirty-three years, for which Her Highness ruled her State, she followed worthily in the footsteps of her illustrious predecessor Her Highness the Sikandar Begam of Bhopal. She administered her country with marked ability and success. She was distinguished for her liberality and benevolence. And she maintained undimmed the loyal traditions of her House, which has always been conspicuous for its zeal and fidelity to the interests of the Paramount Power. By Her Highness's death, her people have lost a just and considerate ruler, and the British Crown one of its most faithful feudatories.

H. S. BARNES,
Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

EXAMINATIONS.

Simla, the 21st June, 1901.

No. 523.—It is hereby notified for general information that the rule, published in Home Department Notification No. 539, dated the 8th September 1899 for the regulation of appointments in the Secretariat Clerical Service of the Government of India and attached offices, will not in future apply to the Office of the Commissioner, Northern India Salt Revenue Department.

MEDICAL.

The 20th June, 1901.

No. 927.—Home Department Notification No. 504, dated the 11th April 1901, granting privilege leave for five weeks to Colonel B. Franklin, C.I.E., Indian Medical Service (Bengal), Inspector General of Civil Hospitals, Punjab, is cancelled.

The 21st June, 1901.

No. 929.—The services of Captain W. C. Lockhart-Mure, 4th Bombay Cavalry, are replaced at the disposal of the Military Department, with effect from the 1st June 1901.

No. 933.—In modification of the orders contained in Home Department Notification No. 573, dated the 25th April 1901, Major F. J. Drury, M.B., I.M.S. (Bengal), Professor of Pathology in the Medical College, Calcutta, is, with effect from the 23rd May 1901, granted privilege leave for twenty-two days with furlough out of India for fifteen months and thirteen days in continuation.

SANITARY.

Plague.

The 17th June, 1901.

No. 1091.—The following telegram is published for general information :

Dated Therapia, the 13th June 1901.

From—His Britannic Majesty's Ambassador and Minister Plenipotentiary,

To—His Excellency the Viceroy.

Forty-eight hours' quarantine on arrivals from all Egyptian ports. Free pratique granted to arrivals from Basra, and medical inspection substituted.

The 18th June, 1901.

No. 1097.—The following Notices of the Board of Trade are published for general information :

(F. & H. 7723.)

Board of Trade (Fisheries and Harbour Department), London, May 10, 1901.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a Telegram from His Majesty's Representative at St. Petersburg, intimating that Bussorah is declared dangerous on account of plague.

(F. & H. 7907.)

Board of Trade (Fisheries and Harbour Department), London, May 14, 1901.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a Telegram from His Majesty's Representative at Teheran, intimating that Venice rules are imposed in Gulf ports against arrivals from Bussorah.

No. 1098.—The following Notices of the Board of Trade are published for general information :

(F. & H. 8112.)

Board of Trade (Fisheries and Harbour Department), London, May 17, 1901.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a Telegram from His Majesty's Representative at Alexandria, intimating that clean bills of health are now issued.

(F. & H. 7955.)

Board of Trade (Fisheries and Harbour Department) London, May 17, 1901.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from His Majesty's Representative at Constantinople, enclosing the following Turkish notice respecting quarantine, *vis.* :

Circulaire à la Navigation.

Par décision du Conseil Supérieur de Santé, il est rappelé à MM. les Agents maritimes que l'entrée en Turquie des marchandises dites susceptibles, à savoir : hardes, chiffons, déchets d'animaux cheveux, lingerie usée, sacs usés, nattes usées, zembils usés, tapis usés, broderies usées,

literie usée, mobilier usé et tous autres effets usés, provenant de pays où existe la peste, le choléra ou la fièvre jaune, est formellement interdite.

Toute infraction à la présente interdiction occasionnera, de la part de l'Autorité compétente, la répulsion ou la destruction de ces marchandises.

Les mêmes mesures (destruction ou répulsion) seront aussi appliquées à l'égard des marchandises neuves, de nature pareille, si elles se trouvent en contact direct c'est à dire dans la même enveloppe, avec celles précédemment énumérées, et les parties du bateau où ces objets auront été logés devront subir une désinfection aussi rigoureuse que soignée.

Pour l'Inspecteur Général,
DR. THEJORICH.

(F. & H. 8337.)

Board of Trade (Fisheries and Harbour Department), London, May 21, 1901.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, the following copy of a Quarantine Notice issued by the Austro-Hungarian Government, *vis.* :

Translation of Circular No. 5429 of the Imperial and Royal Marine Board to all the Imperial and Royal Offices and Officers and Subordinate Port and Sanitary Offices and Officers.

Trieste, 4th May 1901.

The Imperial and Royal Ministry of Commerce has, by decree of 1st May 1901, No. 1741-H. M., ordered that henceforth all arrivals from Alexandria (Egypt), if provided with clean bills of health, will undergo only medical inspection (ordered by Government Decree of December 1899, No. 14968, against arrivals from Turkey, Greece and North Africa).

Should, however, arrivals from Alexandria not be provided with clean bills of health, the respective vessels will have to be treated according to Government Circular of 5th November 1900, No. 13835.

This is made known in addition to the said Circular for information and guidance.

The President.

BECHER.

The 20th June, 1901.

No. 1112.—The following Notices of the Board of Trade are published for general information :

(F. & H. 8490.)

Board of Trade (Fisheries and Harbour Department), London, May 23, 1901.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a telegram from His Majesty's Representative at The Hague, intimating that Port Elizabeth, Cape Colony, has been declared infected with plague, and that the provisions of the Venice Convention will be applied to any vessel leaving Port Elizabeth ten days or less before 21st May.

(F. & H. 8449.)

Board of Trade (Fisheries and Harbour Department), London, May 25, 1901.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a Despatch from His Majesty's Representative at Lisbon, intimating that the application of the Sanitary Regulations of the 14th April 1897, to arrivals from Alexandria has been removed from departures from that port subsequent to the 13th instant.

EDUCATION.

The 20th June, 1901.

No. 239.—Under section 12 of Act II of 1857, the Governor General in Council is pleased to authorize the affiliation of the Gauhati Government College to the Calcutta University in Arts up to the F. A. standard, with effect from June 1901.

J. P. HEWETT,
Secretary to the Government of India.

NOTIFICATION.

GEOLOGY AND MINERALS.

Simla, the 21st June, 1901.

No. 1637—40-5.—Dr. A. Von Krafth, Ph. D., Assistant Superintendent, Geological Survey of India, is appointed to officiate as Palaeontologist of the Survey, with effect from the afternoon of the 1st May 1901, during the absence of Dr. Fritz Noetting, Ph. D., F.G.S., on leave.

J. B. FULLER,

Offg. Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATION.

Simla, the 17th June, 1901.

No. 2340-I.B.—His Excellency the Viceroy and Governor General in Council has received with profound regret the intelligence of the death on the sixteenth of June of Her Highness the Nawab Shah Jahan Begam of Bhopal, Knight Grand Commander of the Most Exalted Order of the Star of India and Member of the Imperial Order of the Crown of India.

During the thirty-three years, for which Her Highness ruled her State, she followed worthily in the footsteps of her illustrious predecessor, Her Highness the Sikandar Begam of Bhopal. She administered her country with marked ability and success. She was distinguished for her liberality and benevolence. And she maintained undimmed the loyal traditions of her House, which has always been conspicuous for its zeal and fidelity to the interests of the Paramount Power. By Her Highness's death, her people have lost a just and considerate ruler, and the British Crown one of its most faithful feudatories.

H. S. BARNES,

Secretary to the Government of India.

The 19th June, 1901.

No. 1495-F.—Lieutenant E. H. S. James, Indian Staff Corps, Adjutant, 1st Battalion,

Khyber Rifles, is appointed to officiate as 2nd-in-Command of that Battalion, during such time as Captain W. E. Venour officiates as Political Officer in the Khyber and Commandant of the Khyber Rifles, or until further orders.

The 20th June, 1901.

No. 1072-G.—Lieutenant H. B. St. John, Indian Staff Corps, a Political Assistant of the 3rd class, is posted as Assistant to the Resident in Mewar.

No. 1074-G.—With the sanction of His Majesty's Government, the Governor General in

Council is pleased to recognise the appointment of Monsieur Jules Claine, as acting Consul for France at Rangoon.

No. 1077-G.—The special leave granted in notification No. 116-G., dated the 18th January 1901, to Lieutenant-Colonel A. F. Dobson, Indian Medical Service (Madras), then Residency Surgeon at Bangalore, is extended by one day.

The 21st June, 1901.

No. 1081-G.—Subject to the confirmation of His Majesty's Government, the Governor General in Council is pleased to recognise provisionally the temporary appointment of the Revd. P. J. Kieffer, as Consular Agent for France at Akyab, *vice* Mr. G. W. White, deceased.

No. 2402-I. B.—In exercise of the powers conferred by sections 4, 5 and 6 of the Foreign Jurisdiction and Extradition Act, 1879 (XXI of 1879), and of all other powers enabling him in this behalf, the Governor General in Council is pleased—

- (1) to appoint the Special Magistrate (being a European British subject) in the territories of His Highness the Nizam of Hyderabad to be a Justice of the Peace in and for the said territories other than the Hyderabad Assigned Districts, the Hyderabad Residency Bazars, the Cantonment of Secunderabad, the Hyderabad Contingent Stations of Aurangabad, Bolarum, Ilingoli, Jalna, Mominabad and Raichur and all railway lands;
- (2) to direct that the Court to which the said Special Magistrate is to commit for trial shall be—
 - (a) the High Court at Bombay, in the case of all European British subjects of His Majesty (being Christians),
 - (b) the Judicial Commissioner of the Hyderabad Assigned Districts in the case of—
 - (i) all European British subjects of His Majesty (not being Christians); and

- (ii) all Europeans and Americans, not being European British subjects; and

- (3) to direct that, in all inquiries preliminary to commitment under this notification, the said Special Magistrate shall be guided, as far as may be, by the provisions of the Code of Criminal Procedure, 1898 (Act V of 1898).

No. 2403-I. B.—In exercise of the powers conferred by section 21 of the Indian Arms Act, 1878 (XI of 1878), as applied to the Hyderabad Assigned Districts by the Notification of the Government of India in the Foreign Department, No. 1875-I., dated the 1st June, 1894; and modified by the like Notification No. 2140-I. B., dated the 5th August, 1898, the Governor General in Council is pleased to direct that in clause 1 of the Notification of the Government of India in the Foreign Department, No. 1877-I., dated the 1st June, 1894, before the words "all persons bearing" the words "all persons to whom the Kaiser-i-Hind medal has been awarded"; shall be inserted.

No. 1016-E. A.—The following Notification which appeared in the *London Gazette* of the 7th May, 1901, is republished for general information:

FOREIGN OFFICE;

May 4th, 1901.

PASSPORTS IN TURKEY.

His Majesty's Secretary of State for Foreign Affairs has received a Despatch from His Majesty's Consul at Constantinople, calling attention to the difficulties which arise owing to the arrival of British subjects in the Turkish Dominions unprovided with passports. His Majesty's Consul points out that such persons are liable to be turned back on the frontiers, and must in any case suffer inconvenience from their failure to comply with the Turkish Passport Regulations, which require every foreigner arriving in the country to be provided with a passport bearing the visà of a Turkish Consular Officer.

- (1) that in the calendar year 1902 not more than 48,000 chests of Bengal opium will be offered for sale, and not more than 4,000 chests in each month of the year;
- (2) that of the quantity to be offered for sale each month, not more than 2,000 chests will be Benares opium and not more than 2,000 chests Patna opium; and
- (3) that no reduction will be made in these quantities without three months' previous notice.

PENSIONS AND GRATUITIES.FUNDS.*The 21st June, 1901.***Indian Military Service Family Pension Regulations.**

No. 3397-P.—In accordance with the terms of G. G. O. No. 1315, dated the 28th December 1872, as republished in G. G. O. No. 560, dated the 23rd May 1873, the Governor General in Council directs the publication of the following documents regarding the condition of the Indian Military Service Family Pension Fund as on the 31st March 1898:

India Office,
London, 17th May 1901.

Financial (Funds),

No. 3.

**To His Excellency the Right Honourable the Governor General of
India in Council.**

MY LORD,

With reference to the notification contained in G. G. O., No. 1315, dated the 28th of December 1872, I transmit, for the information of your Excellency in Council, 12 copies of reports by Mr. Willis Browne, F.I.A., of this Office, and by Mr. Stanley Day, F.I.A., the Actuary employed by me in succession to the late Mr. William Sutton, relating to the fifth quinquennial valuation, as at the 31st of March 1898, of the assets and liabilities under the Indian Military Service Family Pension Regulations.

2. The consolidated accounts for the five years ending the 31st of March 1898 are also transmitted.

3. The following is a summary of the Actuary's valuation if the subscriptions and donations are to be continued at the rates at present prevailing, and the pensions to be paid according to existing rules:

Present Values, 31st March 1898.

<i>Assets.</i>		£	£
Subscriptions for present wives	...	673,000	
Subscriptions and donations for future wives		616,000	
		1,289,000	
Subscriptions for present children	...	59,000	
Subscriptions and donations for future children		355,000	
		414,000	
Subscriptions of unmarried members	118,000
Supplementary donations for future wives and children			96,000
Accumulated capital adjusted for outstandings	1,012,000
		2,929,000	
Total assets	2,929,000

Liabilities.

	£	£
Widows in receipt of pensions ...	269,000	
Contingent pensions of present wives ...	1,075,000	
Contingent pensions of future wives ...	787,000	
		2,131,000
Children in receipt of pensions ...	162,000	
Contingent pensions of existing children ...	379,000	
Contingent pensions of future children ...	947,000	
		1,488,000
Reduction of subscription to half in case of furlough	60,000	
Management charges ...	83,000	
		143,000
Total liabilities ...		3,762,000
Resulting deficit ...		833,000

4. This valuation has been made at $3\frac{1}{2}$ per cent. rate of interest, as announced in my Financial (Funds) Despatch, No. 3, of 17th June 1897, with which I sent to your Excellency's Government the quinquennial valuation for March 1893. If this rate can be taken as representing a fair payment for the use of the money during the long period for which the contributions received from present subscribers are to be held for the benefit of the widows and orphans, it is obvious that any higher rate involves a contribution at the charge of Indian revenues.

5. The valuation for 1893, under practically the same conditions, exhibited a deficit of nearly 363,000/; and the larger deficit now shewn is due to the adoption of new rates of mortality and of marriage, which have resulted from the investigations made by the Actuary into the more recent statistics of the lives provided for under the Regulations.

6. The result shown by this valuation is a serious one, especially as it indicates that the existing rates of subscription are inadequate to provide for the existing scale of pensions, and that the deficit is therefore likely to be increased, as every new member added to the list of subscribers brings with him more liabilities than assets; so that it must be taken that under existing conditions the regulations are not sufficient to ensure the accumulation necessary for the payment of the promised pensions.

7. The scheme, as first issued in 1872, provided that, upon the basis of periodical valuations, the Secretary of State was to so adjust the rates of subscription and of pension that the former might be just sufficient to provide for the latter, and that no charge should fall upon Indian revenues; the only limitation being that no alteration of pension rates should apply to incumbent pensions. All this is fully explained in the preamble of the rules; and the principle was further insisted on in the Despatches of 15th of May 1890, and of 17th of June 1897, in which were conveyed to your Excellency's Government the orders upon the valuations of 1888 and 1893. In the former of these the valuation as then made having shewn a surplus, it was directed that it should be distributed among existing subscribers in the form of a reduction of subscriptions, which, though declared at the time to be temporary only, has not yet been reconsidered; in the latter the valuation having shown a deficit, I directed, in order to partially cover it, that certain supplementary donations on marriages and births of children should be levied from persons who began to subscribe from and after the 1st April 1893. If the principle hitherto declared of not placing any direct charge on the revenues for providing family pensions to military officers is to be adhered to, it will be necessary to enhance

the subscriptions or to reduce the pensions by amounts representing a value of 833,000/. The value of future subscriptions and donations at their present reduced rate (excluding supplementary donations) is, according to the figures above quoted, 1,821,000/; and, if the original scale were reverted to, it would be 2,185,000/., an increase of 364,000/.; so that the mere reversion to the unreduced scale is not enough to secure a position of solvency. The subscriptions in fact would have to be enhanced in the proportion of 1,821,000 to 1,821,000+833,000 to attain this end. This would involve the establishment, so far as subscriptions for wives are concerned, of the monthly rates shewn in the last column of the following statement :

Class.	Original Rates.	Present Reduced Rates.	Full Rates required.
	£ s. d.	£ s. d.	£ s. d.
Class I	4 15 10	4 0 0	5 17 8
Class II	3 16 8	3 4 0	4 14 2
Class III	2 17 6	2 8 0	3 10 7
Class IV	1 18 4	1 12 0	2 7 1
Class V	0 19 2	0 16 0	1 3 6

8. Although I feel much doubt of the expediency of calling upon the subscribers for so considerable an enhancement of the rates of subscription, on the other hand, I think there are still greater objections to reducing the amount of the pensions promised. However, the conclusion cannot be avoided that, if the pensions in future are to be paid at full rates on the existing scale, a valuation at $3\frac{1}{2}$ per cent. would require the assets to be increased by over 800,000/.

9. In order to ascertain in what manner such an increase of assets could be secured, various general calculations have been laid before me. It appears therefrom that, by a reversion to the original rates of subscriptions and donations, including those for children, the deficiency would be materially reduced, and that it might then be computed at about 540,000/ if the rate of interest payable by Government were taken at $3\frac{1}{2}$ per cent.; 216,000/ if it were taken at 4 per cent.; and 43,000/ at $4\frac{1}{2}$ per cent.

10. In the face of the above figures it is impossible to avoid the conclusion that the first step to be taken is to reinstate in full the subscriptions and donations which were in force from the beginning up to the 1st of August 1890. As regards a further increase of the annual subscriptions for children, the actuaries point out that on a basis of $3\frac{1}{2}$ per cent. the original rates of 1/. 3s. for a son and 2/. 18s. for a daughter are wholly inadequate to secure the existing pensions, and they recommend, accordingly, an increase to 2/. 8s. for a son and 9/. 12s. for a daughter. I am reluctant to sanction at the present time any enhancement beyond the original scales, but I have decided to withdraw the temporary reduction of subscriptions and donations which was allowed in consequence of surpluses found in the earlier valuations, and to revert to the original scale of payments in all cases.

11. With regard to the rate of interest taken as payable by the Government,

I am willing to postpone for the present any consideration of a reduction below $4\frac{1}{2}$ * per cent., because any such reduction would involve the adoption of a scale of subscriptions and donations higher than that originally in force; but it must be distinctly understood that the rate of $4\frac{1}{2}$ per cent., which is largely in excess of

* For the Insurance Branch the rate will be as now at $3\frac{1}{2}$ per cent.

the market rate, is one which the Secretary of State reserves his power to modify at his discretion.

12. In paragraph 6 of my Despatch dated 17th June 1897, No. 3, supplementary or additional donations for wives and children were imposed on certain subscribers. The present orders must be taken as superseding those then issued; and the supplementary donations then prescribed should now be discontinued. All sums paid on this account should be refunded.

13. There remain for disposal some minor matters. "The small additional donation" required under Regulation 5 B from certain Royal Indian Marine officers is no longer necessary, and the Examiner, Marine Accounts, Bombay, was informed accordingly on 2nd March 1900. No refund on this account can be made.

14. The increase by 5 per cent. of contributions and donations to be paid by Native Members of the Covenanted Medical Service is no longer necessary, and will now be discontinued. The separate accounts for the Native Members will not be required in future.

15. For the reasons given by Mr. Willis Browne commutation of subscriptions, provided for in Regulations 17 and 18, will no longer be allowed, except in the few cases of subscribers who have already commuted and who desire to make further commutations.

16. You will observe that an estimated loss of over 60,000*l.* is incurred by subscribers on furlough being allowed to pay their subscriptions at half rates only. There are other subscribers employed at home or permitted to reside out of India who have hitherto been charged half rates because they are not in receipt

* See Article 1570, Army Regulations, India, of full Indian pay.* It is necessary to confine the half rates to the following subscribers only, *viz.* :

- (1) Half-pay officers who are unmarried (Regulation 27).
- (2) Retired officers (Regulation 28).
- (3) Officers on leave in or out of India whose allowances are less in amount than full Indian pay.
- (4) Officers in receipt of Colonel's pay and allowances at the English rate, and officers permitted to reside out of India, who have attained the age of 51 years.

Married officers on temporary half-pay must continue to subscribe for full benefits, but while in receipt of half-pay they will have the option of paying only half-rates for their wives. In the latter case, however, they will, on retirement, or reversion to full pay, be required to pay arrears with interest; and in the event of the death of a subscriber while on temporary half-pay, or before the arrears have been paid, the amount due will be recovered from the pension granted to the widow.

17. The terms "Indian Rates" and "Europe Rates" used in the Regulations should be changed to "full rates" and "half rates."

18. The alterations indicated in this Despatch will, in accordance with the Regulations, take effect with the beginning of the month following the date of their publication in the *Gazette of India*, which date should be communicated to me by telegram.

I have the honour to be,

My Lord,

Your Lordship's most obedient, humble Servant,

(Signed) GEORGE HAMILTON.

ENCLOSURES.

Enclosure No. 1.

Report by Mr. Willis Browne, dated 31st October 1899.

This is the fifth quinquennial valuation of the Indian Military Service Family Pension Fund, and I have found it to be necessary to again make a complete and thorough investigation into the rates of mortality, marriage, &c., existing among the members and their wives and children during the past 25 years.

In most cases, the rates adopted in the last valuation are verified by the results of the present investigation; but there are three instances in which it has been found necessary to make material changes. These are in respect of the rates of marriage of subscribing members, and of the rates of mortality and marriage of daughters of present and past subscribing members. Whilst the effect of the change in the marriage rates of members is to slightly benefit the financial position of the Fund, the effect of the changes in the mortality and marriage rates of daughters is, on the other hand, of a very adverse character.

Mortality Experience of Officers, 1873-97.

In the 25 years, the total number of officers, *including* natives, entered at all ages was 4,092, the number of subscribers living at 30th September 1897 being 3,408.

The total number under observation was 48,039 and the number exposed to risk 45,922, the number of withdrawals and deaths being, respectively, 138 and 546.

The total number of officers, *excluding* natives, entered at all ages was 4,049, the number of subscribers living at 30th September 1897 being 3,373. The total number under observation was 47,340 and the number exposed to risk 45,247, the number of withdrawals and deaths being, respectively, 135 and 541.

On the above data, the following rates of mortality obtain:

Ages.	Including Natives.			Excluding Natives.		
	Exposed to Risk.	No. of Deaths.	Mortality Rate.	Exposed to Risk.	No. of Deaths.	Mortality Rate.
20 to 23	1,610	22	'0137	1,610	22	'0137
24 to 26	11,677	147	'0126	11,582	147	'0127
29 to 33	11,940	133	'0111	11,774	132	'0112
34 to 38	8,644	92	'0106	8,475	90	'0106
39 to 43	5,695	64	'0112	5,557	63	'0113
44 to 48	3,547	42	'0118	3,472	41	'0118
49 to 53	1,246	31	'0168	1,819	31	'0170
49 to 55	2,210	34	'0154	2,182	34	'0156

It may be here noticed that the rates of mortality up to the age of 55, instead of being increased by the inclusion of natives, are slightly diminished, but I shall refer to this matter more fully at a later stage of this report.

*The experience of 1892, excluding natives, I found to be as shown in the following statement :

Ages.	Exposed to Risk.	Deaths.	Mortality Rate.
20 to 23	1,124	13	'0.16
24 to 28	8,667	99	'0114
29 to 33	8,445	99	'0117
34 to 38	5,702	66	'0116
39 to 43	3,631	40	'0110
44 to 48	1,890	28	'0148
49 to 53	725	18	'0248
49 to 55	864	19	'0220

For comparison, the above rates on the experience of 1892 are placed side by side with those adopted for the 1893 valuation and with the rates based on experience of 1897, as under :

Ages.	Rates of Mortality excluding Natives.		
	Experience, 1892.	Adopted in 1893, Valuation.	Experience, 1897.
20 to 23	'0116	'0176	'0137
24 to 28	'0114	'0127	'0127
29 to 33	'0117	'0123	'0112
34 to 38	'0116	'0136	'0106
39 to 43	'0110	'0147	'0113
44 to 48	'0148	'0173	'0118
49 to 53	'0248	'0214	'0170
49 to 55	'0220	'0224	'0156

Thus it will be seen that the rates on the larger experience, *vis.*, that of 1897, approximate more nearly to the rates adopted in the last valuation up to the age of 28, than do the rates based on the 1892 experience, proving, so far, the wisdom of making some allowance for unforeseen contingencies. For ages 29 to 38, the latest experience gives results slightly less than that of 1892, but, at the same time, allowing for variations, points to the fact that the adopted rates are as they should be. For ages from 39 to 43, the adopted rates although somewhat higher than the experience shows are not too high with due regard to safety. From the age of 44, the rates based on the 1897 experience have fallen considerably as compared with the adopted rates, and with those of the experience of 1892. The experience, however, begins here to become scanty; and, considering how near the adopted rates are to those of the 1892 experience, I do not feel disposed to make any alteration at present. Nevertheless, the fact

of lower rates obtaining on a more extended experience induces the belief that, at a later period, the rates of contribution, as affecting entrants after 31st March 1899 in the higher classes, will be found to bear considerable reduction as expressed in my report on the 1893 valuation.

The rates of mortality, on which the tables for the 1893 valuation were constructed, are shown below at the various ages, and are compared with those based on the experience of Life Assurance Companies collected by the Institute of Actuaries :

Age.	Mortality Rates.		Age.	Mortality Rates.	
	Adopted in 1893.	Life Assurance Companies.		Adopted in 1893.	Life Assurance Companies.
21 . . .	'0194	'0067	39 . . .	'0142	'0101
22 . . .	'0174	'0068	40 . . .	'0144	'0103
23 . . .	'0157	'0068	41 . . .	'0146	'0105
24 . . .	'0142	'0066	42 . . .	'0150	'0107
25 . . .	'0132	'0066	43 . . .	'0154	'0111
26 . . .	'0123	'0067	44 . . .	'0160	'0116
27 . . .	'0117	'0069	45 . . .	'0166	'0122
28 . . .	'0118	'0072	46 . . .	'0172	'0129
29 . . .	'0119	'0074	47 . . .	'0180	'0137
30 . . .	'0120	'0077	48 . . .	'0188	'0144
31 . . .	'0122	'0079	49 . . .	'0196	'0152
32 . . .	'0125	'0081	50 . . .	'0204	'0160
33 . . .	'0128	'0083	51 . . .	'0214	'0167
34 . . .	'0131	'0085	52 . . .	'0224	'0175
35 . . .	'0134	'0088	53 . . .	'0234	'0186
36 . . .	'0136	'0091	54 . . .	'0246	'0197
37 . . .	'0138	'0095	55 . . .	'0258	'0210
38 . . .	'0140	'0098			

Reviewing generally the facts above shown, I do not feel myself in a position to make any alteration at present in the rates of mortality obtaining among subscribing members, and I have therefore, in respect of the valuations accompanying this report, accepted the rates of mortality adopted for the valuation of 1893.

Mortality Experience of the Wives of Officers, 1873-97.

During the 25 years, the total number entered at all ages was 2,232, and the number living at 30th September 1897, 1,719. The total number under observation was 22,617, and the number exposed to risk 21,348, the number of withdrawals and deaths being respectively 300 and 213.

From the above data the following rates are obtained :

Ages.	Rates.
20 to 24	·0127
25 to 34	·0101
35 to 39	·0095
40 to 44	·0061
45 to 49	·0069
50 to 54	·0167

The rates used for the 1893 valuation, and which were based on the experience of the Fund, for the period 1873-92 are as follows, and are placed side by side with the rates shown above :

Ages.	Rates on Experience, 1873-97.	Used in Valuation of 1893.
20 to 24	·0127	·0102
25 to 34	·0101	·0106
35 to 39	·0095	·0097
40 to 44	·0061	·0082
45 to 49	·0069	·0116
50 to 54	·0167	·0146

It will be observed that the rates adopted in 1893 are less for ages 20 to 24, about the same for ages 25 to 39, and greater for ages 40 to 49. Then again they become less for ages 50 to 54. In the case where the rates used are less than those actually obtaining, the excess of liability over asset is thereby increased, with the result that a margin of safety is created, and *per contra* an element of unsafety is created where the rates used are greater than those actually obtaining. In 1893 I found that, from the age of 40, the data became somewhat scanty, and although considerably reducing the original rates, I could not entirely discard the fact that the latter were based on a wider numerical experience, although it was not of so recent a date. The same remark now applies. On insufficient numbers, the rates will vary from year to year, and no absolute reliance can be placed upon them. Having considered the matter from every point of view, I do not think I can do better than accept the rates adopted in 1893.

Marriage Rates. Officers, 1873-97.

The determination of the rates of marriage of officers is a matter of very considerable importance. If the rates adopted are too high the financial effect is an increase of liability over asset in respect of the future wives and children of bachelors and widowers, and an underestimate of the subscriptions of unmarried officers. I have therefore made a thorough investigation into this matter, and the results obtained therefrom are as follows :

The total number entered unmarried at all ages was 3,618, the number of subscribers still unmarried at 30th September 1897 being 1,647. The total number under observation was 26,121 and the number subject to marriage 24,119, the number of withdrawals and deaths being respectively 83 and 306, whilst the number of marriages was 1,582.

The rates obtained from the above data, after being adjusted, are shown below and are placed side by side of those used in previous valuations :

Age.	Marriage Rates. Data 1873-97.	Marriage Rates. Original Data.	Age.	Marriage Rates. Data 1873-97.	Marriage Rates. Original Data.
19 . . .	'020	'091	42 . . .	'080	'070
20 . . .	'020	'091	43 . . .	'075	'069
21 . . .	'020	'093	44 . . .	'070	'069
22 . . .	'025	'095	45 . . .	'070	'069
23 . . .	'035	'097	46 . . .	'070	'069
24 . . .	'045	'099	47 . . .	'070	'069
25 . . .	'055	'106	48 . . .	'070	'070
26 . . .	'060	'113	49 . . .	'070	'070
27 . . .	'065	'121	50 . . .	'070	'071
28 . . .	'070	'128	51 . . .	'065	'071
29 . . .	'075	'135	52 . . .	'060	'067
30 . . .	'080	'150	53 . . .	'060	'061
31 . . .	'085	'170	54 . . .	'055	'057
32 . . .	'090	'198	55 . . .	'055	'053
33 . . .	'090	'173	56 . . .	'050	'048
34 . . .	'085	'154	57 . . .	'045	'044
35 . . .	'085	'149	58 . . .	'040	'040
36 . . .	'085	'136	59 . . .	'035	'035
37 . . .	'085	'123	60 . . .	'030	'030
38 . . .	'080	'110	61 . . .	'025	'026
39 . . .	'080	'097	62 . . .	'020	'021
40 . . .	'080	'084	63 . . .	'016	'016
41 . . .	'080	'071			

It will be observed that, from the age of 40, the original rates and those based on the most recent data are very nearly alike, but that, at the younger ages, the former are enormously in excess of the latter. It is precisely at the younger ages from 19 to 40 that the Fund experience of 1873-97 may be relied upon; for, of the total number subject to marriage, *viz.*, 24,119, no less than 22,217 were of ages ranging from 19 to 40. Under these circumstances, it was perfectly clear that all the tables, over 100 in number, in which the marriage rates entered would have to be reconstructed. Having completed this work I have valued the pensions and contributions accordingly.

Mortality Experience, 1873-97. Sons of Officers.

The number born, together with the number entered at other ages from 1 to 21, was 2,413, the number living between those ages, and on the books of the Fund at 30th September 1897, being 1,618. The total number under observa-

tion was 23,598, and the number subject to mortality 23,386, the number of withdrawals and deaths being, respectively, 54 and 372.

From the above data the following rates obtain, and are placed side by side with those based on the experience of 1873-92 and used in connection with the 1893 valuation.

Ages (inclusive).	Experience, 1873-92.	Experience, 1873-97.
0 to 4	·0328	·0382
5 to 9	·0028	·0032
10 to 15	·0027	·0031
15 to 20	·0026	·0023

It will be observed that the rates on the experience of 1873-97 are, on the whole, slightly in excess of those based on the previous experience. It will be on the safe side, therefore, to make no alteration, and I have in consequence retained the old rates.

Mortality and Marriage Experience, 1873—97. Daughters of Officers.

For the purposes of the 1893 valuation, I found it necessary to entirely discard the original mortality rates selected by the late General Hannington, consequent on their being so greatly in excess of the rates then obtaining, and I substituted in their stead the rates that that officer selected for daughters of Indian Civil Servants as being more nearly in agreement with existing facts. I likewise considerably reduced the marriage rates. For the present valuation I have again made a very thorough investigation into the rates obtaining on the data brought up to 30th September 1897. The results are very interesting. It might at first be said that after the age of 5, the daughters of our military officers in India are not subject to death. In addition to this the marriage rates are very low. The data after the age of 22 must, of course, be discarded as being too scanty and therefore unreliable.

The number born, together with the number entered at other ages, was 2,351, the number living unmarried at 30th September 1897 being 1,907. The total number under observation was 24,366 and the number unmarried subject to mortality 24,150, the number of withdrawals and deaths being respectively 37 and 303. The number subject to marriage from the age of 16, and excluding two natives at earlier ages, was 2,956, and the number of marriages, excluding the two natives alluded to, was 102.

From the above data the following rates of mortality are deduced after adjustment :

Age.	Mortality Rates, 1873—97.	Age.	Mortality Rates, 1873—97.
0	·0869	14	·0012
1	·0198	15	·0016
2	·0133	16	·0021
3	·0085	17	·0025
4	·0062	18	·0030
5	·0051	19	·0037
6	·0032	20	·0046
7	·0028	21	·0048
8	·0025	22	·0048
9	·0023	23	·0048
10	·0021	24	·0041
11	·0021	25	·0030
12	·0014	26	·0023
13	·0014		

For comparison, the above rates are entered in the following statement, in which I give Mr. Sutton's rates on the Bengal Civil Fund experience, Mr. Finlaison's rates on the lives of Government Annuitants, and General Hannington's rates based on the lives of Indian Civil Servants :

Age.	Mortality Experience, 1873-97.	Sutton's Bengal Civil.	Finlaison's Govern- ment Annuitants.	Hannington's Indian Civil.
0	'0869	'0743	...	'1347
1	'0198	'0505	...	'0620
2	'0133	'0154	...	'0353
3	'0085	'0100	'0107	'0241
4	'0062	'0070	'0094	'0178
5	'0051	'0055	'0083	'0133
6	'0032	'0050	'0074	'0105
7	'0028	'0045	'0067	'0092
8	'0025	'0035	'0061	'0078
9	'0023	'0030	'0057	'0064
10	'0021	'0020	'0055	'0060
11	'0021	'0030	'0055	'0053
12	'0014	'0030	'0057	'0051
13	'0014	'0035	'0061	'0051
14	'0012	'0045	'0067	'0053
15	'0016	'0055	'0072	'0057
16	'0021	'0060	'0077	'0057
17	'0025	'0070	'0080	'0067
18	'0030	'0070	'0083	'0071
19	'0037	'0075	'0084	'0080
20	'0046	'0080	'0084	'0085
21	'0048	'0088	'0084	'0087
22	'0048	...	'0083	'0092
23	'0048	...	'0083	'0092
24	'0041	...	'0083	'0092
25	'0030	...	'0083	'0096
26	'0023	...	'0084	'0101
27	'0085	'0101
28	'0086	'0103

The foregoing columns of mortality experience, if nothing else can be said of them, are certainly varied, and it is difficult to know what to do under the circumstances. It will be observed that the rates based on the experience of 1873-97 are, with the exception of the rate of mortality during the first year of

life, very much lower than any of the others enumerated. It may be that this state of things will not continue, and that the rates will tend to increase as the field of experience becomes wider. Mr. Sutton's Bengal Civil Fund rates approach nearer to those deduced from the military experience under consideration than do those of General Hannington or Mr. Finlaison, but even Mr. Sutton's rates are far in advance of the results obtained by me on the present experience of the Fund. Up to the age of 21, the numbers subject to mortality which Mr. Sutton had under observation were smaller than those upon which I have based my results. I am not disposed therefore to ignore the facts now before me, and I am of opinion that it should be accepted, if not in its entirety, at any rate in a very considerable degree. I may here remark that its effect upon the financial position of the Fund is of the utmost importance, increasing, as it does, the liability over asset for daughters (incumbent, contingent, and future) by an amount not far short of half a million sterling.

After giving the matter very careful consideration I have adopted the following rates of mortality for the purposes of the present valuation :

Age.	Rates of Mortality.	Age.	Rates of Mortality.
0	·0869	15	·0025
1	·0198	16	·0025
2	·0133	17	·0025
3	·0085	18	·0030
4	·0062	19	·0037
5	·0051	20	·0046
6	·0032	21	·0050
7	·0028	22	·0055
8	·0027	23	·0060
9	·0026	24	·0065
10	·0025	25	·0070
11	·0025	26	·0075
12	·0025	27	·0080
13	·0025	28	·0085
14	·0025		

For ages 0 to 7 inclusive the rates adopted are deduced from the recent experience. For ages 8 to 16 inclusive I have increased the experience rates so as to better fall in with those after the age of 16, but they are still considerably below those of Mr. Sutton, and very much below those selected by General Hannington. For ages 17 to 20 inclusive the rates are those of the recent experience, and for ages 21 to 27 inclusive the experience rates have been gradually increased in order to converge to Mr. Finlaison's rate for Government Annuitants at age 28. The experience for these latter ages is scanty, and I am therefore justified in gradually approaching to rates based on a wider field of experience. After the age of 27 I have adopted Mr. Finlaison's rates for Government Annuitants, which seem to me to be more suitable to the lives under consideration than those selected by General Hannington or Mr. Sutton, the

latter being based on the somewhat antiquated, and I think unsuitable, data collected by the late Mr. Samuel Brown.

The number of daughters subject to marriage from the age of 16 was, as previously stated, 2,956; and the number of marriages 102.

The marriage rates deduced from these data are every considerably lower than those adopted in the last valuation, and they compare with those obtained by Mr. Sutton on the experience of the Bengal Civil Fund in the following manner:

Age.	Experience, 1873-97.	Sutton's Bengal Civil.	Age.	Experience, 1873-97.	Sutton's Bengal Civil.
17	'0090	'0200	34	...	'0280
18	'0164	'0500	35	...	'0260
19	'0338	'0700	36	...	'0240
20	'0433	'0850	37	...	'0220
21	'0521	'0800	38	...	'0200
22	'0521	'0750	39	...	'0180
23	'0575	'0720	40	...	'0160
24	'0575	'0680	41	...	'0140
25	'0575	'0640	42	...	'0110
26	'0575	'0600	43	...	'0100
27	'0575	'0540	44	...	'0100
28	'0467	'0470	45	...	'0090
29	'0405	'0420	46	...	'0060
30	...	'0380	47	...	'0050
31	...	'0350	48	...	'0040
32	...	'0320	49	...	'0020
33	...	'0300			

It will be observed that the rates deduced from the Fund experience are lower, and in most cases very much so, than those deduced by Mr. Sutton. After the age of 29, the experience of the Fund is too small to warrant acceptance, and it will be further observed that the experience rates coincide very nearly with Mr. Sutton's for ages 26 to 29. On these facts I have, for the purposes of the valuation now under consideration, adopted the rates deduced from the Fund experience of 1873-97 up to and including the age of 29, and for after ages followed on with those deduced by Mr. Sutton on the Bengal Civil experience.

Before commenting on the result of the valuation balance sheet, I will refer briefly to one or two points bearing on the regulations of the Fund.

Article 5B.

Marine Officers and Engineers.

In the second paragraph of this article, the following sentence occurs:

"Unmarried subscribers who have been in the service for a number of years may, on marriage, be required to pay a small additional donation."

The reason for requiring these donations was explained in my note, dated 24th November 1892; which formed an enclosure to Military Despatch to India No. 5 of 1893. Six years have since elapsed to date at which the present valuation is made; and I am of opinion that that period, during which additional payments have been required, is sufficient, considering the number of unmarried entrants and the comparatively small number of marriages since 1893, to counteract any loss of unmarried subscription prior to a given date, and therefore to remove the necessity for further payments; provided always, that the proportion of unmarried members does not fall below that ruling amongst the other subscribers. I have examined into this matter, and I find that the progress of the numbers during the six years under observation, instead of showing any tendency towards such a result, indicates rather that the reverse may be anticipated. Basing my figures on the number of subscribers on the Active List, the proportion of unmarried officers is, for Marine Officers and Engineers nearly 71 per cent., and for all other officers slightly over 51 per cent. Under these circumstances I recommend that the sentence above referred to be expunged from the rules. In the valuation I have assumed that this recommendation will be accepted, and I have accordingly omitted the value of any additional donations from the date at which the present valuation is made, *viz.*, 31st March 1898, I see no objection to a refund of any donations of this kind that may have been paid since that date.

Article 12. End Note and Article 25 B.

The note at the end of Art. 12 reads "The contributions and donations to be paid by native members of the Covenanted Medical Service are fixed for the present at an increase of 5 per cent. on the rates paid by Europeans."

In connection with the facts I have brought to notice relating to the rates of mortality obtaining amongst subscribing members, I have shown that, up to the age of 55, those rates are not affected by the inclusion of native lives.

What slight difference there is, is rather in favour of the native members. I do not lose sight of the fact that the experience is extremely small, and that it does not extend beyond the age of 56. Nevertheless, it indicates that up to that age the lives of native medical officers are as good as those of the European subscribers.

In respect to the wives of native members, the experience, as in the case of the native officers themselves, is exceedingly small. It shows, however, that the death-rates to which the wives are subject are considerably in excess of those obtaining among the wives of European officers. For the latter, the total deaths represent rather under one per cent. of the total number exposed to risk, whilst, in the case of native wives, the total deaths represent rather over $1\frac{1}{2}$ per cent. It will accordingly be seen that, as regards native members and their wives, an increased rate of contribution is not required.

In respect of native children, the experience is likewise very limited. What little there is, however, shows that the combined marriage and death-rates among native daughters are considerably in excess of those obtaining among the daughters of European subscribers. The death-rate up to the age of one is—

For native daughters	12.5 per cent.
For combined European and native daughters	8.7 "

whilst the number of marriages and deaths together represent the following percentages on the total numbers exposed to risk from the age of one to 32—

For native daughters	1.90 per cent.
For combined European and native daughters	1.03 "

The death-rates among the sons of natives are higher than those among the sons of Europeans. Up to the age of one, the rate is—

For native sons	19 per cent.
For European sons...	12 "

whilst the death numbers represent the following percentages on the total numbers exposed from the age of one to 21—

For native sons	1.08 per cent.
For European sons...	0.60 "

Under these circumstances it does not seem to be necessary to charge native members contributions in excess of those paid by European officers, and I accordingly recommend that the end note of Article 12 be expunged from the Rules. Article 25 B may follow suit.

Articles 17 and 18.

I have on previous occasions spoken on the subject of these articles, and have strongly recommended that no commutation of subscription be permitted. It does not seem to me that the subscribing members of the Fund regard these Articles as a privilege, for very few avail themselves of their terms, and there is in fact no privilege except where a high rate of interest is allowed in the calculation of the commuted values. On the other side of the question, many intricacies would be added to those already prevailing in connection with the valuation of the assets of the Fund supposing future adjustments to be made a condition in the case of an increase or decrease of contributions, due either to a change of interest rate or to other causes, such as a large surplus or deficit. In the event of a reduction of interest or some other cause that would involve an increase of contribution, the Fund would incur a loss on every commutation unless such adjustments were determined upon. On the one hand, therefore, if adjustments be made a condition of commutation, intricacies must be created. On the other hand, if no adjustments be required, a loss to the Fund must be the result. Under these circumstances, I cannot do otherwise than advise the deletion of these Articles from the Rules of the Fund.

Article 25.

The Government of India recommend that the amount of assurance should be increased from Rs. 1,500 to Rs. 3,000; that the special contribution, *viz.*, the value of the assurance at the specified age, be payable by instalments extending over four instead of two years, and that no health certificate should be required.

As the several values of the assurances are calculated at a $3\frac{1}{2}$ per cent. rate of interest, there can be no objection, supposing that that rate of interest is not considered to be excessive, to allow the amount of assurance to be increased to Rs. 3,000, and to extend the period from two to four years over which the instalments may be made, provided interest be charged on the unpaid instalments. As, however, these assurances are optional, I am unable to recommend that health certificates should be dispensed with. The reason is obvious. Without a health certificate, any officer, who might be liable to premature death, would very naturally take advantage of the rule in favour of those whom he was about to leave behind. Thus the Insurance Fund would become insolvent.

Article 27.

I concur with the remarks of the Director of Funds in his reference dated 17th January 1899. His suggestion that an officer may secure the full benefits of his class although paying only half rates of subscription, provided, on retirement or reversion to full pay, he be required to pay arrears with interest, and provided in the event of previous death, the amount due be recovered from his widow's pension, will, I think, in its action, work smoothly and fairly, and will entail no loss to the Fund. Moreover, it will prevent difficulties in the valuation which would otherwise occur. I recommend, therefore, that the Article be revised accordingly.

The result of the valuation is a large deficit. The hopes I expressed on a former occasion that the deficit might become extinguished in 1902 or 1903, do not seem likely to be realised; and, assuming a near reduction in the rates of interest to $3\frac{1}{2}$ per cent., other means must be adopted with a view of effecting a financial equilibrium. There are several causes on the assumption of a $3\frac{1}{2}$ per cent. basis for the existence of a deficit, the most important being that relating to children. I alluded to this particular point in the consideration of the rates of mortality existing among the daughters of subscribing members. Although the rates deduced from the Fund experience are so entirely at variance with rates based on any other experience, I have nevertheless felt constrained to

accept the results obtained rather than discard them in favour of what I might call "well-seasoned rates." Thus, I have constructed new tables based on the recent experience of the Fund. The effect on the valuation of using these new tables is very considerable. It amounts to an additional liability not far short of half a million sterling. To counteract this on the assumption of a $3\frac{1}{2}$ per cent. basis there would seem to be no alternative but to increase the ridiculously small rates of subscription for children to such an extent as to give some pretension to their being able to meet the liability for which they were intended. Of course, the subscriptions for children were originally fixed on an assumed $4\frac{1}{2}$ per cent. rate of interest, and the subscriptions of unmarried officers, which were to be devoted to the same purpose, were also calculated at $4\frac{1}{2}$ per cent. Notwithstanding the assumption of this rate of interest and its application to life tables which have since proved to be a great deal too favourable, the subscriptions payable, including those derived from unmarried members, were even then, as I noted on a previous occasion, insufficient to meet their corresponding liabilities. The value of the subscriptions of existing unmarried officers is 117,983 $\frac{1}{2}$ l. To ascertain the rates of subscription required to provide for the corresponding liability for pension, the calculation should be based on potential assets and liabilities only. If incumbent and contingent liabilities were included, results would be obtained which, if acted upon, would have the effect of increasing the subscriptions to an extent not only to provide for liabilities to come, but also for the deficiency already created by insufficient contributions in the past. I take it that this would not meet with the Secretary of State's approval, and I have, in consequence, based my calculations on the future losses that would result from retaining the present rates of subscription, and not on the losses incurred in the past. Thus, on potential values only and omitting additional birth donations—

				£
The total value of subscriptions and donations on existing rates including bachelors' subscriptions				= 434,653
The total value of pensions				= 952,469
Potential deficiency				517,815
				£
The total value of subscriptions only, payable by the fathers of the children				= 203,168
Additional subscriptions required				= 255 per cent.

The above calculation has been made on pairs, each pair consisting of one girl and one boy. Thus, for each pair the present rates should be increased by 255 per cent.

The existing rates = 5s. 7d. per pair per mensem. This multiplied by 3.55 = 19.82s. per mensem, or in round numbers 1l.

This 1l. per mensem divided proportionately to the respective values of the pensions = 16s. for girl and 4s. for boy per mensem, or £9.6 for girl and £2.4 for boy per annum.

The effect of adopting these rates in the valuation is to show a deficit of 207,560l., as per Balance Sheet No. 1. If the existing reduced rates be continued, the deficit will amount to 833,395l., as per Balance Sheet No. 2.

As these increased rates, together with unmarried subscriptions, would provide for the pensions, the additional birth donations applicable to officers entered after 31st March 1893 would not be required.

Another cause of the present deficit is the large increase in the number of incumbent pensioners. The number of widows alone has increased from 146 in 1893 to 221 in 1898, and the liability on their account has, based on the same tables, swollen in the five years from 169,400l. to 269,330l., while the liability for incumbent daughters has, on the new tables, increased from 68,846l. to 133,154l. (nearly double), their number in the same period having risen from 161 to 242.

The North Frontier War is responsible for nine widows and 20 children.

At the date of the last valuation marine officers had not been admitted, but were allowed to become subscribers soon after that date, their admission, however, taking effect from a date prior to 1st April 1893. Thus they became members before the change, and were therefore not liable for the additional donations required from officers entering on and after that date as a consequence of the proposed reduction in the rate of interest. In other words, these officers were admitted on a $4\frac{1}{2}$ per cent. basis, and this proceeding has of course helped to swell the deficit calculated on a $3\frac{1}{2}$ per cent. basis.

In consequence of the unavoidable delay that occurred in the production of the last quinquennial valuation, many of the additional donations could not be claimed, and this loss, although small, is included in the deficit.

Whatever may be the minor causes of the deficit, they would, of course, be in-existent were it not for the reduction in the rate of interest. To this reduction the deficit is wholly due. That it would in time become extinguished by a continuance of a $4\frac{1}{2}$ per cent. rate, combined with the supplementary donations, is undoubted; but as to the length of time required to effect this result, I am not anxious to again court failure by resorting to prophecy.

Assuming a reduction in the rate of interest to $3\frac{1}{2}$ per cent. it is very essential that measures should be adopted in order to rid the Fund of its deficit. The following alternatives are submitted for consideration in addition to the increased rates of contribution for children :

- (1) That the rate of $4\frac{1}{2}$ per cent. be continued until the extinction of the deficit.
- (2) That a sum of 208,000*l.* be written in the books to the credit of the Fund, and the rate of interest immediately reduced to $3\frac{1}{2}$ per cent.
- (3) That Government charge nothing for expenses of management, and place to the credit of the Fund, in the books, a sum of 108,000*l.*, at the same time reducing the interest to $3\frac{1}{2}$ per cent.
- (4) That Government charge nothing for expenses of management, and increase contributions for wives by a value sum of 108,000*l.*
- (5) That the pensions all round be reduced.
- (6) That contributions for wives be increased by a value sum of 208,000*l.*
- (7) That a re-adjustment of contributions be effected.

The adoption of (1), (2), or (3), would be wholly at the cost of Government.

The adoption of (4) would be partly at the cost of Government and partly at the cost of the subscribers.

The adoption of (5), (6), or (7), would be wholly at the cost of the subscribers.

The first point to be considered, then, is whether the deficit that has been created by the reduction of interest shall be accepted by Government or be provided by the subscribers.

If the deficit be wholly accepted by Government, I strongly recommend either (2) or (3), the latter for preference, as being simple and of immediate effect, and, moreover, of being effectual in removing all doubt as to the rate of interest to be used in the various adjustments that are constantly required.

As regards cost, the difference between (1) and (2) or (1) and (3) is immaterial. It is simply a matter of time. The actual cost itself must be the same. In either case it is represented by an increased present value of liability over asset, due to reduction of interest, and this increased present value is the amount of the deficit, itself and something more besides. In the very first year after the date to which this valuation is applicable, the interest at $3\frac{1}{2}$ per cent. on the income and capital increased by No. (2), *i.e.*, by the amount of the deficit, would have been some 3,500*l.* less than would be the interest at $4\frac{1}{2}$ per cent. or

the income and capital without the addition of the deficit; and, assuming the adoption of (3), the interest for that year at $3\frac{1}{2}$ per cent. would have been something like 7,000% less than would the interest at $4\frac{1}{2}$ per cent. on the supposition of No. (1).

If it be decided to require the subscribers to wholly provide for the deficit, the burden that would be thus thrown upon them would be very heavy.

I surmise that (5) would not meet with favour in any quarter, and I have not therefore estimated the amount of reduction that would be required.

The adoption of (6) would mean an increase of donations and subscriptions for wives of about 22 per cent., a corresponding value deduction being, however, allowed for in the supplementary donations fixed for officers entered after 31st March 1893, as these officers already pay for their liabilities on a $3\frac{1}{2}$ per cent. basis. An increase of 22 per cent. is equivalent to an increase on the original fixed contributions of nearly 2 per cent.

The adoption of (4) would mean an increase in the present rates of contribution for wives of about 12 per cent., which would still leave the rates less than the original fixed rates by about $6\frac{1}{2}$ per cent.

A re adjustment of contributions would be applicable alike to officers entered before and after the 1893 date. The adjustment being based on a $3\frac{1}{2}$ per cent. rate of interest, the supplementary donations would become unnecessary. These donations are so heavy and so unpopular that, supposing the adjusted rates be not applied throughout, I would desire to repeat my former suggestion that the donations in question be replaced by subscription on the scale that follows.

I have already made suggestions by which the liabilities for children can in future be met in full. With reference to the contributions for wives, I have most carefully considered the means by which the present rates of pension may be provided on a $3\frac{1}{2}$ per cent. basis, and I conclude that the following scale of contributions will meet the case:

Class.	Monthly subscription.	Marriage donation.	Promotion donation.
	£ s. d.	£	£
V	0 16 0	20	...
IV	2 0 0	40	10
III	3 6 8	80	20
II	5 0 0	160	30
I	7 10 0	320	60*

If the Secretary of State decide that the deficit be accepted by Government then, of course, the above scale will be unnecessary in respect to members entered before 1st April 1893. But for members entered on and after that date, I strongly recommend that the scale be adopted, instead of requiring payment of the large supplementary donations, which must, indeed, prove a heavy burden to officers on their wedding-day.

The result of the valuation of the Insurance Branch is a surplus of Rs 5,850. I have already expressed my views on the proposals of the Government of India.

* Up to age 55, increasing by £1. for every year or fraction of a year beyond that age. The marriage and promotion donations are the same as the reduced rates now in force. In the event of the above scale being adopted, a new Disparity Table will be constructed, beginning with a difference in age of 10 years.

My recommendations are—

That the rules and regulations of the Fund be revised as suggested.

That no additional donations be required of Marine Officers on marriage after 31st March 1898, and that any such donations paid since that date be refunded.

That the additional 5 per cent. on contribution paid by native members be no longer required.

That no commutation of subscription be permitted.

That the amount of assurance for passage money be increased from Rs. 1,500 to Rs. 3,000, and that the instalments of premium be spread over a period of four years or less, interest, however, being required on the unpaid instalments.

That subscriptions for children be increased as suggested, and that the supplementary birth donations from officers entered after 31st March 1893 be no longer required, any such donations already paid being refunded.

That, if the deficit be wholly accepted by Government, no charge for expenses of management be made, and that a sum of 108,000% be placed in the books to the credit of the Fund.

That, if the deficit be partly accepted by Government, no charge for expenses of management be made and that contributions for wives be increased by 12 per cent.

That in the event of the Government declining to accept any portion of the deficit the new scale of subscriptions be adopted.

That in any case the new scale of subscriptions be substituted for the supplementary donations from officers entered after 31st March 1893.

Agreeably to instructions I have estimated approximately the result of a valuation on the supposition of a $4\frac{1}{2}$ per cent. rate of interest, and a reversion to the original scale of contributions all round.

On the assumption that the *original* mortality and marriage rates for daughters were now suitable, I estimate that the assets and liabilities, as at 31st March 1898, would be as follows :

	£
Total assets	3,140,346
„ liabilities	2,832,841
	<hr/>
Surplus	307,505
	<hr/>

This result would warrant, at $4\frac{1}{2}$ per cent. interest, a further continuance of the $16\frac{1}{2}$ per cent. reduction.

Recent data, however, show very clearly that the rates of mortality and marriage that were originally adopted are not now suitable. Moreover, the amount of subscription derived from unmarried members is not likely to satisfy the expectations that were formerly held. Substituting, therefore, the tables based on more recent data, I estimate approximately the following result :

	£
Total assets	2,977,054
„ liabilities	3,020,397
	<hr/>
Deficit	43,343
	<hr/>

Thus, on the basis of a $4\frac{1}{2}$ per cent. rate of interest, and a return to the original full scale of contributions, a financial equilibrium may be considered to exist.

WILLIS BROWNE.

Enclosure No. 2.

Report by Mr. Stanley Day, dated 20th November 1900.

1. As desired by Sir Arthur Godley's letter of 29th November 1899, I have fully perused and examined Mr. Willis Browne's Report on the 5th quinquennial valuation of this Fund as at 31st March 1898.
2. Considerable difficulty arises from the reduction of the rate of interest assumed to $3\frac{1}{2}$ per cent. from $4\frac{1}{2}$ per cent. as originally contemplated, and the machinery of the valuation is thereby thrown out; but so long as an effective rate of $4\frac{1}{2}$ per cent. is continued by the Government of India, the valuation deficiency is of slight importance, and need cause but little alarm, except in the case of contributions for children, which are clearly insufficient whichever rate of interest is employed. Assuming, however, as I think I must, that it is the intention of the Government to reduce the rate of interest allowed to $3\frac{1}{2}$ per cent. forthwith, steps must be taken to put the Fund on a proper financial equilibrium.
3. On a previous occasion, a surplus having been found, the substantial reduction of $16\frac{1}{2}$ per cent. was allowed off the contributions and donations payable, and in my opinion the first step to be taken is to reinstate in full the contributions and donations for wives and the unmarried subscriptions as applying to all subscribers, both present and future. Or, should the Government consider the change too great, to make at once (for it means an increase of 20 per cent. in the current rates), it would be sufficient for the present to accept the fourth alternative alluded to in Mr. Willis Browne's report, except that it might also apply to unmarried subscriptions. This would require an increase of about 12 per cent. in the rates of subscription and donation, and they would then be about 7 per cent. less than the full original rates.
4. I have carefully noted Mr. Willis Browne's suggestion as to the introduction (under certain conditions) of an entirely new scale of subscriptions and donations, and, while I believe it would meet the necessities of the case, I think it would be best to keep for the present to the original rates laid down in the regulations, or to increase the present reduced scale by 12 per cent. Should an entirely new scale be put forward now it might be inconvenient to claim from the early contributors to the Fund an altogether different rate of subscription; but there can be no hardship in calling upon them, now that the rate of interest allowed is reduced to pay an increase of 12 per cent. on the present reduced scale or even the full contributions, both subscription and donation (authorised under the existing regulations), which under more prosperous circumstances were found might be abated. On a subsequent valuation a surplus may appear, and the opportunity will then come for the reduction of the heavy donations which, I gather from the constitution of the Fund, were intended as make-weights, and, if necessary, the subscriptions also can be revised.
5. While a balance of asset and liability could be found by increasing the subscriptions of future contributors only, it would not be right that a new series of contributors should be called upon to make good a deficiency which has arisen from past operations.
6. With reference to a suggestion that a rate of interest should be allowed, such as to effect a solvency on present reduced subscriptions, I am of opinion that such a compromise would not work well. At the best it could only be a temporary expedient, and looking at the principles on which the Fund was founded it must be fairly evident that at the present time $3\frac{1}{2}$ per cent. is the proper rate of interest to be allowed by the Government and to be assumed in the valuation.
7. I have also considered the suggestions contained in the further letter of the 7th April last, and entirely approve of the proposal that the full rates of subscription should be payable while officers are on furlough, sick leave, or other temporary absence from India. The complication caused by such temporary reductions as have been hitherto allowed is considerable, and calculation is

inconvenient; moreover, it leads to the unsatisfactory anomaly that an officer while contributing half rates only can pass from his existing class to a higher one without ever paying the full subscription for that class.

8. Originally it seems to have been intended by General Hannington, in his admirable report on the scheme, that the Fund should be of a simple character, necessitating only the valuation of actual contributions payable and of incumbent and proximate contingent pensions (*viz.*, for the class to which they belong), but the reduction of the rate of interest, with other circumstances, has led to the introduction in the valuation of contingent pensions to unborn children of future marriages of bachelors and of second marriages of existing married men, and of the corresponding contributions therefor. While such calculations can be made and are no doubt within the province of the actuary, it is unsatisfactory to have to group the results derived therefrom with the present values of contributions actually payable, and of incumbent and contingent pensions which can be calculated with greater certainty. Should the full contributions be reverted to, and the allowance on furlough or other absence from India be stopped, I think that the valuation might in future regain its original simplicity, and its increased clearness would carry with it greater weight and conviction.

9. With regard to the contributions for children, I think there can be no question that the existing rates are insufficient, and I recommend that the rates proposed by Mr. Willis Browne be adopted. I observe that attention is called in my original letter of instructions to the effect that Mr. Willis Browne has adopted these rates in the present valuation before they have been fully authorised, and thereby has considerably reduced the deficiency. The difference in the valuation figures is large and approximates to half a million sterling, but I think the Government will probably find but little difficulty in confirming the alteration of rates and, in consequence, permitting the valuation to stand as it is.

10. Should the Government approve of the resumption of the full rates of unmarried subscription and of subscription and donation for wives (or an increase of 12 per cent. on the reduced scale), and also the new rates of subscription for children proposed by Mr. Willis Browne, the supplementary donations required under page 8A of the regulations from subscribers joining after 1st April 1893 will not be required, and a considerable proportion of such supplementary donations as have been paid might be refunded if thought advisable.

11. On reference to the constitution of the Fund and preliminary regulations, I observe that the Fund and the pensions are to be at no charge to the Government, from which I take it that the contributions are to be just sufficient to meet the pensions; but it is not clear to me that it is necessary that the expenses of management should be charged to the Fund, except in the case of the actuarial and other reports specially referred to in the regulations. If the Government of India could see their way to relinquish this charge for expenses, a charge over which the actual contributors have no control of any kind, it would be a considerable relief to the Fund, and as far as I can see would be within the scope of the existing regulations.

12. It is clearly shown in Mr. Willis Browne's report that the necessity for an additional charge of 5 per cent. on the contributions of native members does not exist, and, his recommendation as to the deletion of the option of commutation of subscription must meet with approval.

13. There can be no objection to the increase to Rs. 3,000 in the assurance of passage money for an officer's widow and orphans, and the amount may be provided for by a sum paid down or by instalments extending over four years, or by an annual premium payable throughout life as may be convenient, but as the option is left to the officer to assure or not as he pleases, a certificate of good health must be required, and this will be more essential if the annual premium plan is adopted. There will be no objection to an officer withdrawing from this branch and claiming a refund of a proportion of

his contribution as a surrender value, but bearing in mind the object of the regulation, the Government will probably think it fit to require that this privilege shall only be exercised for the purpose of passage money for wife and children.

STANLEY DAY.

Muhammad Mansur to be Jemadar, on probation, to fill an existing vacancy.

CANTONMENTS.

No. 546—In exercise of the power conferred by section 25 of the Cantonments Act, 1889 (XIII of 1889), the Governor-General in Council is pleased to extend to the cantonment of Pachmarhi, in the modified form set forth below, section 18 of the Central Provinces Municipal Act, 1889 (XVIII of 1889), for the time being in force in the Municipality of Pachmarhi.

Adapted section.

The cantonment authority may, from time to time, concur with the Municipal Committee in appointing, out of their respective bodies, a Joint Committee for protecting from injury or interference forest lands within the cantonment and the municipality, and in delegating to such Joint Committee any power which might be exercised by either the authority or the committee and in framing and modifying regulations as to the proceedings of such Joint Committee, and as to the conduct of correspondence relating to the purpose for which the Joint Committee is appointed.

(2) If any difference of opinion arises between the cantonment authority and the Municipal Committee acting under this section, the decision thereon of the Commissioner of the Division shall be final.

No. 547—The following draft of a notification, which it is proposed to make in exercise of the powers conferred by section 26, clause (16), and section 27 of the Cantonments Act, 1889 (XIII of 1889), is published as required by section 27, sub-section (1) of the said Act, for the information of persons likely to be affected thereby, and notice is given that the draft will be taken into consideration by the Governor-General in Council on or after the 22nd day of July 1901.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date fixed as aforesaid will be considered by the Governor-General in Council.

Draft notification.

In exercise of the powers conferred by section 26, clause (16), and section 27 of the Cantonments Act, 1889 (XIII of 1889), the Governor-General in Council is pleased to make the following rules for keeping the forest lands within the cantonment of Pachmarhi in proper order:

Rules.

1. No forest produce shall be removed and no animals shall be grazed otherwise than in accordance with a written permit previously obtained from the cantonment authority and paid for at such rates as the cantonment authority may, from time to time, prescribe.

2. No cattle shall be taken into, or allowed to enter, such portions of the forest lands as may, from time to time, be notified by the cantonment authority as closed to grazing.

3. No timber shall be felled or cut except in the coupe of the year which shall be felled by the direct agency of the forest establishment appointed by the cantonment authority.

4. No forest produce shall be removed otherwise than by such routes as the cantonment authority may, from time to time, prescribe.

5. No minerals shall be quarried nor shall the surface of the soil be destroyed or injured otherwise than at such places and on such conditions as may, from time to time, be prescribed by the cantonment authority.

6. No fire shall be carried or kindled except in such places as may, from time to time, be specially exempted by the cantonment authority from this prohibition.

7. Any person committing a breach of any of the above rules, shall be punishable with fine which may extend to fifty rupees.

COMMANDS.

T. HIGHAM,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Weather Review of India for the Week ending at 8 a.m. on
Saturday, the 15th June, 1901.**

The storm in the Arabian Sea had intensified slightly by Sunday morning, but was still practically unchanged in position. It had given moderate rain on the West Coast as far north as Karwar, the largest amount reported being 2·83 inches at Mangalore. On Monday morning the barometer rose very rapidly on the South Konkan Coast and the storm had passed away in a north-westerly direction, but it continued to influence the winds on the West Coast, and rain continued to fall in only moderate amounts till Wednesday, when winds returned to their normal monsoon directions. Pressure had at the same time been giving way briskly to rapidly in Northern India and increasing slightly in the west and south of the Peninsula, and on Wednesday was in very large defect along the Western Himalayas, while it was in moderate to considerable excess in the south-east of the Peninsula. Pressure gradients were in consequence much steeper than usual, especially in Rajputana, in the south of the North-Western Provinces and in the north-east of the Peninsula,—conditions which favoured the prevalence of strong winds over nearly the whole country. A strong monsoon was blowing across the West Coast on Thursday and Friday, and gave heavy rain in the Bombay Coast districts, where the necessary ascensional movement was given to the winds by the Western Ghâts, but rainfall was light and scattered in the interior districts of the Peninsula, where strong winds are not favourable to heavy general rain. The heaviest falls reported on Thursday were amounts ranging from 6 to 7 inches at Karwar, Mormugao and Goa and 4½ inches at Bombay. On Friday Karwar received 6·35 inches, Bombay 3·51 inches, and rain was slightly heavier in the Central Provinces, where Sambalpur reported a fall of 1·65 inches, Hoshangabad 1·05 inches and Jubbulpore ·83 inch. The changes of pressure on Friday and Saturday tended to reduce the abnormal pressure gradient over Northern India and the Peninsula, and winds decreased in strength and rain in amount on the West Coast on Saturday, but light to moderate showers continued in the Central Provinces and the Deccan.

The Bay monsoon current has not given much rain, except in Burma during the first half of the week, when moderate to heavy and fairly general rain was received over that region. The formation of a low pressure area at the head of the Bay diverted the monsoon current from Burma, and on Thursday during the early stage of its formation rain increased in Bengal and Assam, and moderate to heavy falls were received at Barisal (4·45 inches), Sibsagar (3·75 inches), Dinajpur (2·53 inches) and Chittagong (2·18 inches); but as the shallow depression at the head of the Bay commenced influencing the winds on the Bengal Coast, rain decreased in Bengal and Assam. On Saturday the depression was lying over the head of the Bay and Lower and West Bengal, but had failed to intensify.

An extension of easterly winds into the submontane districts of the Central Himalayas gave showers in the North-Western Provinces on Friday and Saturday, and dust and thunder storms occurred on the same days in Upper India. The largest amounts of rain received were 1·03 inches at Gorakhpur on Friday; and 1·52 inches at Delhi, 1·15 inches at Bareilly, ·92 inch at Bahraich, ·74 inch at Lucknow and ·71 inch at Simla on Saturday.

The highest maximum temperature recorded this year was registered at Jacobabad on the 11th, *viz.*, 125°. This temperature has only once been exceeded during the past twenty-five years.

Rain.—Heavy rain has fallen in the divisions of Tenasserim, Arakan, Malabar, Coorg, the Konkan and parts of the Bombay Deccan. The monsoon rainfall has been restricted chiefly to the Bombay, Malabar and Burma Coast districts. Amounts equal to, or in excess of, the normal have been received in Tenasserim, Lower and Central Burma, Arakan, East Bengal, the Brahmaputra division of Assam, the west and west submontane divisions of the North-Western Provinces, the South-East and submontane Punjab, Berar, the Bombay Deccan, the Konkan, Malabar, Coorg and South-Central and South Madras. Large amounts have been received at stations on the Burma and West Coast districts.

The following gives the largest amounts reported :

Tenasserim	Moulmein	15'32 inches.
	Thaton	14'94 „
Arakan	Rathedaung	14'40 „
Bengal	Chittagong	17'25 „
Malabar	Vayitri	27'32 „
	Karkal	21'88 „
Coorg	Virajpat	15'67 „
Konkan	Ankola	18'70 „
	Karwar	17'75 „
	Thana	15'27 „
	Dapoli	17'75 „
Bombay Deccan	Chandgad	17'17 „
	Bavda	28'37 „

The rainfall of the period 2nd to 15th June, or of the past fortnight, has been normal or in excess in Tenasserim, Lower Burma, the Brahmaputra and Surma divisions of Assam, Eastern Bengal, the west and west submontane divisions of the North-Western Provinces, the South-East, Central, North and West Punjab, Malabar, Mysore, Coorg, the Konkan, the Bombay Deccan and Central and South Madras.

W. A. BION,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. B. FULLER,

Offg. Secretary to the Government of India.

SIMLA, 20th June, 1901.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the
15th June 1901.

Madras.—The rainfall was seasonable in Tinnevely, in the West Coast districts and the Nilgiris, moderate in Godaveri and Kistna and light or *nil* elsewhere. Water-supplies are low in Ganjam, parts of the Deccan, the Carnatic, North Arcot, Salem and Madura. Ploughing and other agricultural operations are progressing. Standing crops generally are in good condition, but have been damaged by locusts in parts of Ganjam. Harvests continue in small areas with moderate yield. Pasture is scanty, but is improving in many districts. Fodder is available. The condition of cattle generally is good. Prices have slightly risen in parts of the Carnatic, the Central and the Southern districts, but are almost stationary or easier elsewhere. Prospects generally are fair. Numbers on relief—weavers—Cuddapah—men, 1,749; women, 1,379; total, 3,128: On test-works—Cuddapah—men, 683; women, 819; children, 117; total, 1,624.

Bombay.—There was heavy rain during the week in the Konkan and in parts of Belgaum, Dharwar and Surat. The fall was moderate in parts of Khandesh, Nasik, Poona and Satara and slight in parts of Gujarat, Ahmednagar, Sholapur and Bijapur. Reaping of spring crops continues in Hyderabad and Thar and Parkar. Preparations for the autumn crop sowings are generally in progress. Sowing of autumn crops is going on in parts of Shikarpur, Thar and Parkar, Surat, the Deccan, the Konkan, the Karnatak and Baroda, but is retarded in parts of Nasik, Sholapur and Bijapur for want of sufficient rain. The fodder supply is sufficient, except in parts of Sholapur, Dharwar and Ahmednagar. Agricultural stock is generally in good condition and sufficient, except in parts of Gujarat, Khandesh, Nasik, Bijapur and Dharwar, where the deficiency is being met from *takari* grants. The water-supply is deficient in parts of Nasik, Ahmednagar and Sholapur. Prices have risen in five districts, fallen in four districts and are stationary elsewhere. The relation of prices of the principal staples to the normal and the prices of 1900 remain substantially the same.

Daily average numbers on relief—British districts—on test-works, 585; on relief-works, 271,357; dependants, 42,998; total on works, 314,940. In poor-houses, 5,843; on village relief, 92,128; total on gratuitous relief, 97,971. Figures for Ahmedabad, Kaira, Poona and Khandesh are incomplete. Native States—on relief-works, 33,784; dependants, 7,205; total on works, 40,989. In poor-houses, 3,671; on village relief, 2,964; total on gratuitous relief, 6,635. Figures for Palanpur are incomplete. Grand total, 460,535.

Bengal.—Rain fell during the week all over the Province, excepting Midnapore and Ranchi. More rain is however wanted in Bankura, Midnapore, Bogra, Darbhanga, Purneah, the Sonthal Parganas, Cuttuck, Balasore, Hazaribagh and Ranchi. Ploughing and sowing continue. Standing crops generally are doing well. Locusts appeared in parts of Midnapore, Murshidabad and the Sonthal Parganas, and caused some damage to paddy plants in the former two districts. Fodder and water are sufficient, except in Bankura, where the former is still reported to be dear. The price of common rice has risen in ten districts, fallen in fourteen and is stationary in the rest.

North-Western Provinces and Oudh.—Nearly all districts report light to fairly heavy rain during the week. The falls averaged $1\frac{1}{4}$ to 2 inches in six districts: in the remainder the fall was less than an inch. The rain has been beneficial to sugarcane and standing crops. Preparations for the autumn crops

generally are in progress and early crops are being sown in some districts. Locusts appeared in Almora and Banda, but did no damage to crops. In five districts some injury to sugarcane and indigo has been caused by insects and caterpillars. Markets are well supplied and fodder is sufficient. Prices are practically stationary.

Punjab.—Slight rain fell in Hissar, Amballa, Jullundur and Amritsar. Good rainfall is reported from Delhi and parts of Sialkot. The price of wheat has risen in Amritsar, Shahpur, Peshawar and Dera Ismail Khan, has fallen in Jullundur, Ferozepore, Mooltan, Lahore and Rawalpindi and is unchanged elsewhere. The price of gram has remained either unchanged or has fallen in all districts, except in Sialkot, where prices are said to be high. The prices of other food-grains are also fluctuating. Wheat is selling from 13 to 21 seers, barley 26 to 30, gram 17 to 24, maize 15 to 24, great millet 18 to 21 and bulrush-millet 16 to 26 seers per rupee. Harvesting of spring crops continues in Ferozepore, Mooltan and Sialkot; hot weather crops are being cut in Hissar and Rawalpindi. Sowing of autumn crops is in progress in Mooltan and ploughings have been commenced in Delhi, Lahore, Amritsar and Sialkot. Sugarcane and cotton crops are being weeded in Sialkot. The condition and prospects of standing crops are reported to be good, except in Dera Ismail Khan, where they are said to be normal. The outturn of hot weather crops is expected to be good in Hissar. The standing autumn crops have been much benefited by the recent rain in Delhi and Sialkot. Autumn crops in certain places in Shahpur and extra spring crops in Rawalpindi have been slightly damaged by locusts. Locusts were also observed in parts of Mooltan and Peshawar, but did no damage. Young locusts have hatched in parts of Lahore and Peshawar, but measures are being taken for their destruction. Cattle are generally in good condition. Pasturage fodder is sufficient in all districts, except in parts of Mooltan.

Burma.—**LOWER BURMA:** Ploughing for wet weather paddy is almost general. **UPPER BURMA:** Reaping of dry weather paddy has been completed in the Tongu township of Mandalay and has been commenced in Yamethin. Reaping of early wet weather paddy is approaching completion in the Shwebo township of Shwebo; elsewhere ploughing and sowing for wet weather crops are in progress. Sowing of cotton and sesamum has been completed in Myingyan and continues in other places. Crops generally promise well. The price of paddy has fallen slightly in Rangoon and has risen similarly in Mandalay; elsewhere there is no change.

Central Provinces.—The weather was generally unsettled. Dust and thunder storms have given rain in all districts, except Bilaspur. The fall was heavy in Narsinghpur and Wardha and moderate to light elsewhere. Preparation of land for summer sowings continues. Sowings of cotton have been commenced in Wardha and of minor crops in Seoni and Chhindwara. Locusts have appeared in Narsinghpur, Chanda, Raipur and Bilaspur. In the last-mentioned district they are reported to have caused some damage to the sugarcane crop in one tahsil. Fodder and water generally are sufficient. Prices are generally steady. The price of gram has risen slightly. The cheapest prices are—wheat 15, gram $16\frac{1}{8}$, rice $13\frac{1}{4}$ and *juar* 20 seers per rupee. The dearest prices are—wheat 8, gram $11\frac{1}{2}$, rice $6\frac{1}{2}$ and *juar* 13 seers per rupee. There were 1,178 persons on gratuitous relief during the week.

Assam.—Rain fell in all districts, but more is wanted in all plains districts, except Goalpara and Lakhimpur. Plucking of tea is in progress. Prospects generally are poor. Red spider is reported. Ploughing for and sowing of early rice are nearly finished and of late rice are in progress. Sugarcane is being planted. Prospects of jute are good, and of early rice are good in Goalpara, Lakhimpur and the Garo Hills, fair in the Surma Valley, Darrang and Sibsagar and indifferent elsewhere. Prices—common rice, Silchar, 11; Sylhet, $10\frac{1}{2}$, Gauhati and Nowgong, 10; Dhubri, Tezpur and Sibsagar, 9; and Dibrugarh, $9\frac{1}{2}$ seers per rupee.

Mysore.—Thirty cents of rain fell in the Civil and Military station. The rainfall was good in Hassan, Shimoga, Chitaldrug, Mysore and Kadur. The standing crops are in good condition in Bangalore, Tumkur, Shimoga, Kadur and in parts of Mysore. *Ragi*, paddy and sugarcane are being sown in various parts, and in a few other parts paddy is being harvested. Ploughing operations are in progress in parts of Bangalore, Tumkur and the Civil and Military station. Prospects are good in Mysore and Kadur and fair in Bangalore, Tumkur, Hassan, Chitaldrug and Kolar. Prices are steady in Kolar and Chitaldrug, have slightly fallen in parts of Tumkur, Hassan and Kadur and have slightly risen in other parts of these districts. Cattle are healthy. Water and fodder are sufficient.

COORG: The rainfall amounted to 9 inches 75 cents. Sowing of paddy continues. Prices of food-grains are stationary. Water and fodder are sufficient.

Berar.—The weather was cloudy and warm. Preparation of land for the ensuing monsoon crops is in progress. Sowing of cotton has been commenced in parts of the province. Fodder and water are adequate to wants. Prices are steady.

Hyderabad.—The rainfall during the week amounted to 60 cents. The total from 1st January is 5 inches 44 cents. Autumn sowings have been commenced in eight districts. Pasture is freely available. Grain prices show a tendency to rise. Total numbers on relief—works, 14,837; gratuitously relieved, 2,793; total 17,630. Prices—wheat 5½, coarse rice 7½ and *juar* 14 seers per *halli* rupee.

Rajputana.—The rainfall in cents was—Bikanir 4, Marwar 73, Kherwara 52, Alwar, average, 4, and Bharatpur 80. Land is being prepared in parts for autumn sowings. Agricultural stock is in good condition. Fodder is sufficient generally. Prices are rising in six States, falling in three, fluctuating in Haraothi and Tonk and are steady elsewhere. The cheapest prices range from 12 to 25 seers the rupee. Number on gratuitous relief, 205.

Central India.—Slight rain fell everywhere. Agricultural operations are in progress in Bhopal, Bundelkhand, Malwa, Bhopawar and Indore. The condition of crops and agricultural stock is good in all agencies. Prices are steady in Gwalior, high in Bhopal, normal in Bundelkhand, below the average in Baghelkhand, rising in Bhopawar and are almost stationary in Indore. A flight of locusts settled in the Nimach Cantonment on Saturday afternoon, the 1st June. They did no appreciable damage and disappeared again by Sunday morning. They appeared to have come from an easterly direction. The average prices were—Gwalior 14 to 26-11, Bundelkhand 17 to 20, Malwa 13½, Bhopawar 15, Indore 7 to 17. Numbers on relief—works—Jaora, 514; Bhopawar, 4,884. Gratuitous relief—Jaora, 53. (Alirajpur and Jobat reports have not been received.)

Baroda.—Agricultural stock is in fair condition. Prices—*bajri* 30, *juar* 34, wheat 22, rice, superior, 13, rice, inferior, 22 pounds per rupee. Numbers on relief—works, 21,180; gratuitous relief, 8,995; total 30,175.

Kashmir.—The weather was bright and pleasant, but rather warm. Prices are normal; rice is selling at 24 seers the rupee. JAMMU PROVINCE: There were duststorms during the week accompanied with heavy rain. The condition of standing crops is good. Threshing and housing are in progress. Fodder is sufficient. Prices are rising slightly. Wheat sells at from 16 to 26 and maize 24 to 36 seers the rupee.

Nepal.—The rainfall was slight. The weather was cloudy. Indian-corn and upland rice are suffering from want of sufficient moisture. The price of rice is 9 seers the rupee.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table :

Note.—The above tabular statement is based on the rainfall returns of 15, meteorological stations published in the India Daily Weather Report. It contains rainfall data for the week ending at 4 A.M. on each Thursday. The weekly Weather Review, published elsewhere in the Gazette, on the other hand, contains data based on the rainfall returns of many more stations (about 1,200), which are weekly collated in each district in India and reported in a concise form to the Simla Office. The weekly Weather Review is thus the more comprehensive and complete of the two, though it is necessarily a few days behind hand in its intelligence.

During the week under review (June 14th to 20th), the monsoon rainfall has failed to extend to any considerable extent, and has been more or less confined to Burma, Assam and Bengal in the north-east and to the West Coast districts in the west. On the 14th, 15th, 16th and 17th a slight depression was shown over the head of the Bay and another depression over the Central Punjab, while there was a slight extension of south-west monsoon winds from the West Coast across the Deccan and the central parts of the country as far as the North-Western Provinces. In consequence during these four days there was a certain amount of rain received over a large part of the country, the fall having been heavy in Tenasserim,

moderate to light in Burma and Assam and light and scattered in Bengal, the North-Western Provinces and the Upper India Hills, while practically no rain was received over the North, West and South Punjab. During the same four days the Arabian Sea current gave heavy rain to the West Coast districts, moderate to heavy rain to the Deccan districts and moderate scattered rain to the Central Provinces and Berar. The last three days of the week have witnessed a gradual diminution in the amount and extent of the rainfall. The depression at the head of the Bay passed inland and filled up on the 18th and steady westerly winds set in over India and steady southerly winds in Burma and Bengal. The southerly winds from the Bay gave moderate rain during the 18th, 19th and 20th to Burma, Bengal and Assam, and the westerly winds from the Arabian Sea, where they met the Western Ghâts, gave moderate to heavy rain along the strip between the hills and the West Coast, but rain during the past three days has been practically confined to these areas and the whole of West Bengal, the North-Western Provinces, the Punjab, Sind, Rajputana, Gujarât, Central India, the Central Provinces and the centre and east of the Peninsula have been actually or practically rainless.

This abnormal distribution of rainfall is shown by the information given in the first part of the above table. The week's rainfall has exceeded the normal in Burma Dry (slightly); in the Brahmaputra Valley (largely); along the West Coast (very largely); in South India (very slightly) and in the Deccan (considerably). In all the remaining divisions the week's rainfall has been less than the normal and in the North-West dry area, Baluchistan, Gujarât, the Central India Plateau and the south of the East Coast there has been actually or practically no rain throughout the week, while in the East and West Satpuras, the Indo-Gangetic Plain and the Himalayan areas the week's fall has been about half or less than half the normal.

The rainfall of the three weeks, May 31st to June 20th, has been about normal in Burma, Bengal, Assam, the North-West dry area and South India; above the normal in the West Coast districts and the Deccan; and below in all other parts of the country, the deficiency having been most marked and amounting to 50% or more in the Sub-Himalayan regions, the West Indo Gangetic plain, Baluchistan, Gujarât, the Central India Plateau, the East Satpuras and the East Coast districts.

SIMLA ;
The 20th June, 1901. }

W. L. DALLAS,
Assistant Meteorological Reporter
to the Government of India

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.
(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected District details of the Provincial totals published weekly in the Crop and Weather Summary of the *Gazette of India*.
Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns, from persons gratuitously relieved in poor-houses or at their homes. Weavers relieved in their own trade are shown under "Gratuitous relief."
The dates at the head of the table are the dates of the *Gazette of India* in which the Provincial totals were published. The figures, however, actually show the numbers on relief in each preceding week.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 21st June 1901.

NOTIFICATIONS.

No. 2078 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 15th June 1901 :—

- No. 251 of 1901.—S. S. Balasundaram Naicker, iron safe manufacturer, residing at Old Washermanpettah, Madras. *Improved iron safe.*
- No. 252 of 1901.—Robert William Thompson, civil engineer, of San Thome, Madras. *A self-acting sub aqueous dredger.*
- No. 253 of 1901.—Noel and Richards, Army Clothing and Necessaries Import Agents, Bombay and London, of 24 Forbes Street, Fort, Bombay. *An improved self-acting stop revolving army water bottle stopper.*
- No. 254 of 1901.—William Naylor, mechanical engineer, residing at Howrah, in the Province of Bengal, India. *Improvements in spikes, nails or bolts and means of fixing the same.*

No. 2079 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 424 of 1900.—Ernest Rowland Hill, electrical engineer, of 814 Maple Avenue, Wilkesburg, in the county of Allegheny, State of Pennsylvania, U. S. A. *Improvements in electro-pneumatic controlling apparatus.* (Specification filed 10 June 1901.)
- No. 427 of 1900.—John Quinn, engineer, and John Henry Turland, battery proprietor, both of the Royal Hotel, Young, in the Colony of New South Wales, and William George Archer, senior, butcher, of Wallendbeen, New South Wales, aforesaid. *Improvements in and relating to stripping and harvesting machines.* (Specification filed 10 June 1901.)
- No. 434 of 1900.—John Edward Neale, Superintendent of Telegraphs, Great Indian Peninsula State Railway, Byculla, Bombay. *An improved telegraphic train signalling instrument.* (Specification filed 7 June 1901.)
- No. 20 of 1901.—Bissun Dutt, foundry proprietor, of Guneshpur, Baraban, Oudh. *Improvements in portable sugarcane mills.* (Specification filed 28 May 1901.)
- No. 52 of 1901.—David Kemp West, engineer, of 23 St. Mary Axe, London, E. C. *Improvements in presses for baling hay or other fodder for transport.* (Specification filed 17 May 1901.)
- No. 117 of 1901.—Arthur Hoare, civil engineer, of 8 Elphinstone Circle, Bombay. *Starting gears for mechanical punkahs.* (Specification filed 11 June 1901.)
- No. 164 of 1901.—The Right Honourable Douglas Mackinnon Baillie Hamilton Cochrane, Earl of Dundonald, of 34 Portman Square, in the county of London, England. *An improvement in tea and coffee pots.* (Specification filed 7 June 1901.)

- No. 171 of 1901.—Ludwig Grote, manager of works of 84 B., East India Dock Road, Poplar, London, England. *Improvements in or relating to machinery for manufacturing glass bottles or the like.* (Specification filed 8 June 1901.)
- No. 172 of 1901.—Fred Ford Dow, mechanician, of the city of Fredericton, county of York, in the Province of New Brunswick, Canada. *Improvements in burners for heating purposes.* (Specification filed 8 June 1901.)
- No. 173 of 1901.—Fred Ford Dow, mechanician, of the city of Fredericton, county of York, in the Province of New Brunswick, Canada. *Improvements in tree felling machines.* (Specification filed 8 June 1901.)
- No. 187 of 1901.—Fred Ford Dow, mechanician, of the city of Fredericton, county of York, in the Province of New Brunswick, Canada. *Improvements in vapour lamps or burners.* (Specification filed 8 June 1901.)

No. 2080 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

- No. 34 of 1889.—George Ashworth and Elijah Ashworth. *Improvements in the method of and in means for attaching the clothing to carding engine flats.* (From 27 June 1901 to 27 June 1902.)
- No. 334 of 1891.—Charles Arthur Marchant. *An improved style of dredger.* (From 15 June 1901 to 15 June 1902.)
- No. 305 of 1895.—Pierre Paulin Faure. *Improvements in the method of and machinery for decorticating ramie and other textile plants and leaves.* (From 2 July 1902 to 2 July 1903.)
- No. 12 of 1896.—George Sinclair. *Improvements in apparatus for superheating steam or for heating boiler feed water.* (From 4 August 1901 to 4 August 1902.)
- No. 349 of 1896.—Charles Tellier. *Improvements in the manufacture of ice and in the production of cold and in apparatus therefor.* (From 7 June 1901 to 7 June 1902.)
- No. 117 of 1897.—John Mervyn Wrench. *A cheap and improved system of interlocking points and signals at small road side stations.* (From 5 July 1901 to 5 July 1902.)
- No. 205 of 1897.—Anton Raky. *Improvements in boring-apparatus for deep-borings.* (From 20 December 1901 to 20 December 1902.)
- No. 216 of 1897.—Eugen Hornung and Stefan Hansel. *Improvements in the treatment of india-rubber, gutta percha and their compositions.* (From 20 December 1901 to 20 December 1902.)
- No. 266 of 1897.—John Mervyn Wrench. *A cheap system of interlocking main and distant signals at small road side stations.* (From 26 November 1901 to 26 November 1902.)

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,

*Secretary under the Inventions and
Designs Act, 1888.*

J. CLIBBORN, Lieut.-Col., I.S.C.,
 Principal, Thomason Civil
 Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series. The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1899, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

	Without postage.		With postage.	
	R.	Rs. p.	R.	Rs. p.
For the Complete Series, including postage.			R22-8	
For the Calcutta Series	10	0 0	12	8 0
" each of the Madras, Bombay, and Allahabad Series	6	0 0	7	0 0
" a part of the Calcutta Series purchased separately, inclusive of postage in India	...		2	0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	...		1	0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
	R.	Rs. p.
For the Calcutta Series; per copy	0	8 9 0 10 0
" each of the Madras, Bombay, and Allahabad Series; per copy	0	5 3 0 5 9
" the Calcutta Series. For the year	7	2 0 8 0 3
" each of the Madras, Bombay, and Allahabad Series. For the year	4	4 6 4 11 0

Persons desiring to subscribe for, or purchase, the Report should apply to—
 Superintendent, Government Press, Madras.
 The Superintendent, Government Central Press, Bombay.
 The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.
 Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	Half page.	Quarter page.
	Rs.	Rs.	Rs.
For one issue	20	14	9
" three issues	55	36	24
" six "	103	68	45
" nine "	145	96	64
" twelve "	180	120	80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
	R.	Rs. p.
Bengal Law Reports, for one year	20	0 0 22 8 0
Single copies, R2 per copy.		
Full Bench Rulings, Parts I and II	25	0 0 22 8 3

Bengal Secretariat Book Depot, Writers' Buildings, Calcutta.
 Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

TREASURE TROVE.

NOTICE.

It is hereby notified under section 5 of the Indian Treasure Trove Act, VI of 1878, that on the 29th December, 1900, a treasure consisting of the undermentioned articles, valued at about R18, was found by one Anga Boyen and three others, of Jaggampathi, while repairing the compound wall of the temple of Mulathathani Swami in the village of Mularapathi, Dharapuram Taluk.

2. All persons claiming the said treasure or any part thereof are hereby required to appear personally or by agent before the Collector of Coimbatore on the 2nd day of December, 1901, in order that the matter may be enquired into and determined by the Collector according to the provisions of the said Act.

Particulars of the treasure.

Gold circular button	:	:	45
Gold rings	.	.	5
Gold cobra head	:	:	7
Gold virarayan panams	.	.	12

for Collector.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1900, the price of this Quinine will be as follows:—

1-pound tin,	R17, or, post-frec,	R17-12.
$\frac{1}{2}$ "	R8-8,	" R9.
$\frac{1}{4}$ "	R4-4,	" R4-12.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebore, near Calcutta.

বঙ্গদেশের গৱর্ণমেন্টের সিন্‌কোনা জাবাদে প্রাপ্ত
বিশুদ্ধ কুইনাইন।

১৯০০ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য
হইবে, যথা—

১ এক পোণ্ড টিন	১৭ বা তাকমাগুল কিনা	১৭০০
১ আধ "	"	৮৫
১ শিকি "	"	৪২০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ ও
প্রস্তুত করা হইয়াছে, এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনি-
ডাইন নামক অপকৃষ্ট কারের সহিত ইচ্ছা পূর্বক মিশান হয় তাহ
তাহার গারাণ্টি দেওয়া বাইতেছে। ইহা নগদ মূল্যে কেবল গৱর্ণ-
মেন্টের কর্মচারীগণের নিকট বিক্রয় করা বাইবে, এবং কলিকাতার

IN THE COURT OF THE MUNSIFF OF DEOBAND, ZILA SAHARANPUR.

SUIT NO. 609 OF 1901.

In re

Siri Mahant Odo Singh of Nirmala Akhara at Kankhal *Plaintiff*

(versus)

Ghofoor Mohamed Khan and others of Jawalapur *Defendants.*

Claim to recover ₹555 principal and interest on the bond.

As the above named plaintiff has instituted a suit for ₹555 against Ghofoor Mohamed Khan and others as set forth above, on the basis of a bond, alleging himself to be the headman of Siri Mahant of the Nirmala Akhara at Kankhal, notice is hereby given that any one of that persuasion having claim, or interest therein, should appear either in person or by pleader before this Court on or before the Fifteenth day of July 1901, at 10 A.M., the date for final disposal of the suit or in default of such appearance the suit shall be disposed of.

Given under my hand, and the seal of the Court this 28th day of May 1901.

KRISHNA SEWAK LAL,
Munsiff of Deoband.

SUPPLEMENT TO
The Gazette of India.

No. 25.} CALCUTTA, SATURDAY, JUNE 22, 1901.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

T. HIGHAM,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the Week ending at 8 a.m. on
Saturday, the 22nd June, 1901.

The Arabian Sea monsoon current was strong at the beginning of the week and gave heavy rain in the west coast districts, but on Tuesday winds decreased in strength and were irregular in Malabar while rain diminished in amount over the same region. Moderate to heavy rain continued in the west coast districts, north of Mangalore, but the amounts received were not as large as they had been at the commencement of the week and the Arabian Sea monsoon gradually fell off in strength and only light rain was received on Friday and Saturday in both the Konkan and Malabar. The following gives the heaviest falls of rain reported on Sunday, Monday and Tuesday:

Sunday.—Mormugao 11·66 inches, Goa 10·10 inches, Karwar 11·26 inches.

Monday.—Karwar 13·76 inches, Goa 9·22 inches, Mormugao 6·93 inches, Mangalore 4·84 inches.

Tuesday.—Goa 8·55 inches, Mormugao 7·35 inches, Karwar 8·24 inches, Mangalore 4·61 inches.

Rainfall has hence been confined chiefly to the South Konkan, where it was very heavy, and very little rain has fallen in the interior districts of the Peninsula. On Monday showers were received in the Bombay Deccan, Coorg and the Central Provinces, the most important falls reported having been: Sholapur 5·23 inches, Bijapur 2·95 inches and Mercara 2·85 inches.

As the rain given by the Arabian Sea current decreased, that given by the Bay current increased. The shallow depression lying over the head of the Bay and Lower and West Bengal at the close of the previous week was in practically the same position on Sunday. It had moved slightly in a north-westerly direction on Monday when moderate to heavy rain fell in Assam and on Tuesday morning had advanced into the North-Western Provinces, but it had practically filled up and had ceased to affect the weather to any important extent. Rain was heavier in Bengal on Wednesday where several stations reported falls ranging from $1\frac{1}{2}$ to $2\frac{1}{2}$ inches, and on Friday and Saturday moderate to heavy rain fell in Assam and North and East Bengal. The largest amounts reported on Friday were 6·62 inches at Mymensingh and from 2 to 3 inches at Silchar, Darjeeling, Bogra and Durbhanga. On Saturday Narayanganj reported a fall of 6·10 inches, Barisal 3·66 inches, Dhubri 3·61 inches and Darjeeling 2·99 inches. Light to moderate rain has been received during the week in Burma.

Weather was slightly unsettled and thunderstorms occurred in the Upper India hills at the commencement and end of the week, and on Saturday the Observer at Gulmarg (Kashmir) reported the occurrence of a light fall of snow on the summits of the higher mountains.

Temperature has been in considerable to very large excess in Northern and Central India during the greater part of the week. The highest maximum temperature was 124° recorded at Jacobabad on Tuesday and Wednesday.

Rain—Heavy rain has fallen in Arakan, Assam, East Bengal and the South Konkan, the largest amounts reported being nearly 39 inches at Karwar, 4 inches at Vengurla and 33 inches at Cherra Poonjee. The rain given by the Arabian Sea monsoon current has, however, been restricted almost entirely to the coast districts,

and that given by the Bay current has not extended westwards beyond Bengal. The following divisions have received amounts practically equal (to, or in excess of, the normal: Burma (except Upper Burma), Assam, Bengal (except the Bengal Hills), Malabar, Coorg, South-Central and Central Madras, the Konkan and the Bombay Deccan.

The following gives the largest amounts received at individual stations during the week :

Tenasserim	Belin	15.38 inches.
Arakan	Akyab	16.24 „
	Maungdaw	26.18 „
Assam	Sunamganj	19.48 „
	Cherra Poonjee	33.29 „
East Bengal	Agertola	17.91 „
	Netrakona	16.28 „
North Bengal	Dinhata	15.48 „
Malabar	Puttur	24.64 „
Konkan	Karwar	38.82 „
	Vengurla	34.26 „

The rainfall of the period from 2nd to 22nd June has been in defect in Upper Burma, but has been practically normal in other parts of Burma. It has been practically normal or in excess in Assam, East and North Bengal, the North Punjab, the Bombay and Malabar Coast districts (except Khandesh) and the central and south divisions of Madras. The only divisions in which the excess was more than 20 per cent. of the normal were: Assam (Surma), Coorg and South Madras.

SIMLA, 27th June, 1901.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, the
22nd June 1901.

Madras.—The rainfall was heavy in South Canara ; good in Bellary ; seasonable in parts of Vizagapatam, West Deccan districts, Coimbatore, Trichinopoly, Malabar and the Nilgiris, moderate in Ganjam, Godaveri and Travancore and light or *nil* elsewhere. Water-supplies are low in Ganjam, parts of the Deccan and the Carnatic, North Arcot, Salem and Madura. Ploughing and other agricultural operations are in progress generally. Standing crops are thriving on the whole, but have been damaged by insects in parts of Anantapur. Small harvests continue with moderate outturn. Pasture is scarce in many districts, but fodder is available. The condition of cattle generally is good. Prices generally are rising. Prospects on the whole are fair. Numbers on relief—Cuddapah—weavers—men, 1,742 ; women, 1,373 ; total, 3,115 : on test-works—men, 594 ; women, 711 ; children, 121 ; total, 1,426. Grand total, 4,541.

Bombay.—Heavy rain fell during the week in the Konkan. There was a moderate fall in parts of Khandesh, Sholapur and the Karnatak and a slight fall in parts of Surat, Nasik, Ahmednagar, Poona and Satara. There has been no rain in Kathiawar and the other districts of Gujarat where it is urgently wanted, as well as in parts of the Deccan. Preparations for the autumn crops are in progress in parts of Sindh, Gujarat, the Deccan, Rajkot and Wadhwan. Sowings for these crops have been completed in Kolaba and are in progress in parts of Karachi, Thar and Parkar, Surat, Thana, Ratnagiri, Kanara, the Deccan, the Karnatak and Baroda, but have been retarded in parts of Nasik, Poona and Sholapur for want of sufficient rain. Transplantation has been commenced in parts of Shikarpore. The fodder-supply is sufficient, except in parts of Sholapur and Dharwar. Agricultural stock is in good condition and generally sufficient, except in parts of Gujarat, Khandesh, Nasik, Bijapur and Dharwar, where the deficiency is being met from *takavi* grants. The water-supply is deficient in parts of Nasik, Sholapur and Karachi. Prices have risen in five districts, fallen in three districts and are stationary elsewhere. The relation of the prices of the principal staples to the normal and the prices of 1900 remain substantially the same.

Daily average numbers on relief—British districts—on relief-works, 283,274 ; dependants, 44,287 ; total on works, 327,561. In poor-houses, 5,874 ; on village relief, 96,840 ; total on gratuitous relief, 102,714. Figures for Ahmedabad are incomplete. Native States—on relief-works, 32,525 ; dependants, 7,143 ; total on works, 39,668. In poor-houses, 3,445 ; on village relief, 3,264 ; total on gratuitous relief, 6,709. Figures for Mahikantha are incomplete. Grand total, 476,752.

Bengal.—Rain fell during the week in every district of the Province, excepting Patna and Shahabad. The fall was heavy in East and North Bengal. Most of the districts of Bihar, Orissa and Chota Nagpur received only light showers and are in need of more rain. Ploughing and sowing are still in progress. Sesamum is being harvested. Sugarcane is doing well. Cotton is being gathered in Orissa. Prospects generally are good. The districts of Burdwan, Birbhum, Bankura, Midnapore, Hooghly, the 24-Parganas, Nadia, Rajshahi, Dinajpur, Rangpur, Bhagalpur, the Sonthal Parganas, Cuttack, Balasore and Puri were visited by flights of locusts, but no very serious damage has up to date been reported from any of the districts. Fodder and water are sufficient, except in the Raniganj sub-division of the Burdwan district, but fodder is said to be dear at Bankura. The price of common rice has risen in eighteen districts, fallen in ten and is stationary in the rest.

North-Western Provinces and Oudh.—Light and unevenly distributed showers fell in half of the Provinces during the week, chiefly in the Himalayan Central Doab, Central and Eastern Submontane and Bundelkhand districts. More rain is required for agricultural operations. Ploughing and sowing are in progress. Sugarcane, indigo and extra crops are being irrigated in five districts. Some crops have been slightly damaged by insects and locusts. Supplies and fodder are sufficient. Prices continue practically stationary.

Punjab.—Slight rain fell in Amballa, Jullundur and Rawalpindi. Good rainfall is reported from parts of Sialkot and Peshawar. Harvesting of spring crops still continues in Mooltan. Hot weather crops are being harvested in Hissar and Ferozepore. Ploughings and sowings of autumn crops are going on in Delhi, Ferozepore, Mooltan, Lahore, Sialkot and Peshawar. Sugarcane and cotton crops are being weeded in Sialkot. The condition and prospects of standing crops are reported to be good. The outturn of hot weather crops is reported to be average in Hissar. Locusts have been seen in Mooltan, Lahore, Shahpur, Rawalpindi and Peshawar, but they have hitherto done no damage. Measures are being taken to destroy the young ones. Cattle are generally in good condition and pasturage fodder is sufficient in all districts, except in parts of Mooltan. There have been very slight fluctuations in the prices of food-grains. They are generally showing a downward tendency, except in the case of great millet and bulrush millet which each show a rise of 3 seers per rupee in Delhi.

Burma.—**LOWER BURMA:** Ploughing for wet weather paddy is progressing in all districts. **UPPER BURMA:** Reaping of dry weather paddy has been commenced in Upper Chindwin and continues in four other districts. Cultivation of wet weather paddy is almost general and of early sesamum, cotton and maize as last reported. Early wet weather crops are ripening in parts of the Southern Shan States. Agricultural operations are at a stand still in the Dayegaung township of Kyaukse for want of water. Owing to unsilting of the Sarna canal the condition of standing crops is good and prospects generally are hopeful. The price of paddy has fallen slightly in Thongwa and risen similarly in Pakokku and Magwe. The changes elsewhere are unimportant.

Central Provinces.—The weather generally was cloudy and unsettled. Dust and thunder storms have given rain all over the province except in Saugor, Damoh and Bilaspur. The falls averaged about $1\frac{1}{2}$ inches in seven districts; in the remainder the falls were less than an inch. Preparations for the sowing of summer crop are approaching completion in parts. In other parts sowings are in progress, but more rain is wanted. Prices are generally steady. The cheapest prices are—wheat 15, gram 17, rice $13\frac{1}{4}$ and *juar* 20 seers per rupee. The dearest prices are—wheat 8, gram $11\frac{1}{2}$, rice $6\frac{1}{2}$ and *juar* 13 seers per rupee. There were 1,228 persons on gratuitous relief during the week.

Assam.—Rain fell in all districts, but more rain is wanted in Kamrup and Nowgong. Tea is improving in Upper Assam and in Sylhet, but is still backward elsewhere. Plucking is in progress. Sowing of early rice still continues in the Surma Valley. Harvesting of early rice has been commenced in places in the Assam Valley. Prospects are good in Sylhet, Goalpara, Lakhimpur and the Garo Hills, are fair in Cachar and Darrang and are indifferent elsewhere. Ploughing for and sowing of late rice are in progress. Sugarcane is being planted. Jute is doing well. Prices—common rice, Silchar, 11 to $11\frac{1}{2}$, Sylhet, Nowgong and Sibsagar, 10, Dhubri and Dibrugarh, $9\frac{1}{2}$, Gauhati and Tezpur, 9 seers per rupee.

Mysore.—The rainfall in the Civil and Military station was 70 cents. It was good in Kadur, Shimoga, Chitaldrug, Bangalore, Hassan and Tumkur. Standing crops are in good condition in Bangalore, Tumkur and Shimoga and in parts of Mysore, Hassan and Kadur. Paddy and *ragi* are being sown in various parts, and in a few other parts paddy is being harvested. Ploughing operations are in progress in parts of Bangalore, Tumkur and the Civil

and Military station. Prospects are good in Bangalore and fair in other districts generally. Prices are steady in Mysore, Bangalore, Kolar, Shimoga and Chitaldrug, have slightly fallen in Hassan and in parts of Kadur and Tumkur and have slightly risen in other parts of Kadur and Tumkur. Cattle are healthy. Water and fodder are available, except in a few parts of Kadur and Shimoga.

COORG: The rainfall amounted to 2 inches 12 cents. Sowing of paddy continues. Prices of food-grains are stationary. Water and fodder are sufficient.

Berar.—The rain during the week amounted to 4 cents. The weather was warm and cloudy. Preparation of land for the ensuing monsoon crop continues. Cotton sowing is in progress in places. Fodder and water are sufficient. Prices are almost stationary.

Hyderabad.—The rainfall during the week was 1 inch 18 cents. The total from 1st January is 6 inches 62 cents. Sowings for the autumn crops have been commenced in most districts. Cattle are in good condition. Grain prices show a tendency to rise. Total number of persons on relief—works, 14,965; gratuitously relieved, 2,894; total 17,859. Prices—wheat 5½, coarse rice 7½ and *juar* 13½ seers per *halli* rupee.

Rajputana.—The rainfall in cents was—Marwar 22, Alwar, average, 41, Karauli 26, Dholpur, average, 52. Slight showers fell in some tahsils of Kotah. Land is being prepared in parts for autumn sowings. Agricultural stock is in good condition. Fodder generally is sufficient. Prices are rising in six States, falling in three and are steady elsewhere. The cheapest prices range from 12 to 27½ seers the rupee. Number on gratuitous relief, 205. The report from Mewar has not been received.

Central India.—Slight showers fell in Bhopal, Malwa and Bhopawar. Agricultural operations are in progress in Bhopal, Bundelkhand, Malwa and Bhopawar. Crops are in good condition in Bhopal. The state of agricultural stock is good in all Agencies. Prices are steady in Gwalior, high in Bhopal, normal in Bundelkhand, below average in Baghelkhand and rising in Malwa. Average prices—Gwalior 14 to 26-11, Bundelkhand 17 to 21, Malwa 13½ and Bhopawar 16 seers the rupee. Numbers on relief—works—Jaora, 404; Kuksi (Dhar), 843; total 1,247. Figures from other states have not been received. On gratuitous relief—Jaora, 61. The report from Indore has not been received.

Baroda.—Sowing operations have been begun in one taluka of the Naosari District. Agricultural stock generally is in fair condition. Prices—*bajri* 29, *juar* 34, wheat 22, rice, superior, 13, rice, inferior, 22 pounds per rupee. Numbers on relief—works, 20,483; gratuitous relief, 9,479; total 29,962.

Kashmir.—The weather was bright and pleasant at first, but rainy during the latter part of the week. Prices are normal, rice is selling for 24 seers the rupee. **JAMMU PROVINCE:** High winds and slight rain occurred during the week. The condition of standing crops is good. Threshing and housing of spring crops are in progress. Fodder is sufficient. Prices are normal. Wheat sells from 14½ to 30 and maize 27 to 36 seers the rupee.

Nepal.—The rainfall was slight. The weather was cloudy. More rain is required for upland rice and Indian-corn. The price of rice is 9 seers for the rupee.

The number of persons in receipt of relief during the preceding and present weeks in each Province is shown in the following table :

Note.—The above tabular statement is based on the rainfall returns of 151 meteorological stations published in the India Daily Weather Report. It contains rainfall data for the week ending at 8 A.M. on each Thursday. The weekly Weather Review, published elsewhere in the Gazette, on the other hand, contains data based on the rainfall returns of many more stations (about 1,200), which are weekly collated in each district in India and reported in a concise form to the Simla Office. The weekly Weather Review is thus the more comprehensive and complete of the two, though it is necessarily a few days behind hand in its intelligence.

The monsoon has been unusually light and irregular on both sides of India during the week under review, and the monsoon rainfall has been almost rigidly confined to two areas.

The Bay monsoon current gave moderate daily rain during the week to Tenasserim and Burma Wet, the heaviest falls having been 3'08" at Toungoo on the 23rd and 7'85" at Akyab on the 22nd. In Burma Dry, on the contrary, the incursions of monsoon winds were intermittent and the rainfall irregular. In East Bengal there was daily rain until the 25th when the fall partially ceased, while Deltaic and Central Bengal had fairly fine weather during the early part of the week and fairly general rain in the latter half. Narayanganj and Barisal had

several heavy falls. Assam, North Bengal and North Bihar received daily rain throughout the week, but with some local exceptions the falls were not generally heavy.

The West Coast received very light rain during the 21st and 22nd, and there was no extension of rain beyond the coast districts. On the 23rd there occurred a very trifling increase in the West Coast rainfall and an equally slight and very erratic extension of rain inland, but, from that date onward, there has occurred a very gradual but nevertheless steady increase in the amount of the rainfall and in its extension inland. Thus on the 25th there were showers over the Deccan, Khandesh, Berar and the west of the Central Provinces; on the 26th over Rajputana and on the 27th over the Deccan, Khandesh, the Central Provinces, Gujarát and Central India. The rainfall on these three days, though heavier than on the 21st, 22nd and 23rd, was yet very light for the time of year, and the heaviest falls during the twenty-four hours ending at 8 A.M. on the 27th were 2.19" at Mangalore, 1.68" at Karwar, 1.01" at Mormugao, 2.04" at Ratnagiri, 1.49" at Ahmednagar, 0.82" at Khandwa, 1.45" at Ahmedabad and 1.62 at Rajkot.

The table given above shows that the week's rainfall was above the normal in the Delta of Bengal and in Burma Dry; normal in the Brahmaputra valley, South India, the Deccan and the West Satpuras; and below the normal in all the remaining divisions. Practically no rain whatever fell, during the week, in the Indo-Gangetic Plain West; the north-west dry area; Baluchistan and the East Coast South; and less than half an inch in the Western Himalayas and Sub-Himalayas; Gujarát; South India and the East Coast North.

The returns for the four weeks May 31st to June 27th show that the monsoon up to date has given more rain than usual to Burma Dry; the Delta of Bengal; the West Coast and the Deccan; has given the normal amount to Burma Coast, the Brahmaputra Valley and South India; and less than usual to all other parts of the country, the deficiency amounting to over 60% in the Himalayas and Sub-Himalayas, West; the Indo-Gangetic Plain West; Baluchistan; Gujarát; the Central India Plateau; the East Satpuras and the East Coast South. The driest areas relatively to the normal average are the Indo-Gangetic Plain West (—82%); Baluchistan (—100%) and Gujarát (—90%).

SIMLA;
The 27th June, 1901. }

W. L. DALLAS,
Assistant Meteorological Reporter
to the Government of India.

GOVERNMENT OF INDIA
DEPARTMENT OF REVENUE AND AGRICULTURE
(FAMINE.)

Return of the number of persons in receipt of relief in districts a scarcity.

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected District details of the Provincial totals published weekly in the Crop and Weather Summary of the *Gazette of India*.

Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns, from persons gratuitously relieved in poor-houses or at their homes. Weavers relieved in their own trade are shown under "Gratuitous relief."

The dates at the head of the table are the dates of the *Gazette of India* in which the Provincial totals were published. The figures, however, actually show the numbers on relief in each preceding week.

INVENTIONS and DESIGNS.

Calcutta, the 27th June 1901.

NOTIFICATIONS.

No. 2159 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 22nd June 1901 :—

- No. 255 of 1901.—Charles Martin Hall, metallurgist and chemist, of Niagara Falls, in the county of Niagara and state of New York, U. S. A. *Process for obtaining pure alumina from bauxite.*
- No. 256 of 1901.—William Naylor, locomotive and carriage foreman, Howrah Amta, Howrah Sheakallah and Ranaghat Krishnagar Light Railways, and Sydney-Stanford Doeg, mechanical engineer, both residing in Howrah, Bengal, India. *A locking device for railway carriage door handles.*
- No. 257 of 1901.—The Diamond Soda Water Machine Company, Limited, manufacturers, of 14 to 16 Bishops Court, Old Bailey, London, England. *Improvements in drawing taps for aerated waters and the like.*
- No. 258 of 1901.—Thomas Adam Clayton, accountant, of 212 West Coulter Street, Germantown, in the city and county of Philadelphia, U. S. A. *Improvements in mechanism for fumigating and extinguishing fires in closed compartments with gas.*
- No. 259 of 1901.—Arthur Harold Abbott, mechanical engineer, residing at 4 Alipore Lane, Calcutta, British India. *A new or improved punkah-pulling machine.*
- No. 260 of 1901.—Thomas Alva Edison, inventor, a citizen of the U. S. A., residing at Llewellyn Park, Orange, Essex County, New Jersey, U. S. A. *Improvements in storage batteries.*
- No. 261 of 1901.—William Allen Pendry, mechanical engineer, of 65 Farnsworth Avenue, city of Detroit, county of Wayne and state of Michigan, U. S. A. *Improvements in button-making machines.*

No. 2160 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

- No. 426 of 1900.—Gilbert William Sutton, civil engineer, of Bothmans, Great Baddow, Chelmsford, in the county of Essex, England. *Improvements in tea drying or withering apparatus and for drying similar materials.* (Specification filed 19 June 1901.)
- No. 431 of 1900.—Marconi's Wireless Telegraph Company, Ltd., of 18 Finch Lane, Threadneedle Street, in the city of London, England. *Improvements in apparatus for wireless telegraphy.* (Specification filed 18 June 1901.)
- No. 432 of 1900.—Hermann Eschwege, manufacturer, of Sunnyside, Mayow Road, Forest Hill, in the county of Kent, England. *Improvements in the manufacture of infusions of coffee and in apparatus therefor.* (Specification filed 18 June 1901.)

No. 54 of 1901.—Ram Charan Karmakar, blacksmith of Udayagunge, Thana Ghattal, Sub-Division Ghattal, District Midnapore. *An improved hand plough.* (Specification filed 13 May 1901.)

No. 2161 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the period shown against each :—

No. 47 of 1892.—C. E. Livesay. *An invention for completely regulating the supply of water into a canal (called Livesay's patent regulator) so as to prevent the admission of the heavier particles of silt and sand drift.* (From 20 June 1901 to 20 June 1902.)

No. 271 of 1895.—Theodore Guilleaume. *Improved means for insulating electric conductors.* (From 23 November 1901 to 23 November 1902.)

No. 109 of 1896.—Richard Stephens and William Charles Stephens. *Improvements in apparatus or machinery for drilling rocks and other hard substances.* (From 18 June 1901 to 18 June 1902.)

No. 113 of 1896.—Richard Stephens and William Charles Stephens. *Improvements in apparatus or machinery for drilling rocks and other hard substances.* (From 18 June 1901 to 18 June 1902)

No. 2162 P.—WHEREAS the inventor of the undermentioned invention has failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fee hereinafter mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said invention in British India, and of authorising others so to do, has ceased :—

No. 248 of 1890.—John Donnelly. *Improvements in the manufacture of axle boxes.* (Specification filed 14 March 1892.)

Fee in respect of the continuance of an exclusive privilege—

4 (7) After the expiration of the eighth year and before the expiration of the ninth year from the date of the filing of the specification—

The sum of Rs 100 for the above invention.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS' BRANCH), CALCUTTA."

The Office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October, 1895, in regard to the preparation of applications, specifications, and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitor's room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

S. C. HILL,

*Secretary under the Inventions and
Designs Act, 1888.*

† Straits Settlements (also China and Japan, if the Steamer's name is super-scribed on the cover).	3rd "	8-30	Per Steamer <i>Chelydra</i> .
Rangoon and Moulmein	4th "	7-30	Per B. I. S. N. Co.'s Steamer.
Rangoon, Moulmein, Tavoy, Mergui, Penang and Singapore.	29th June	7-30	Ditto.
Rangoon and Moulmein	1st July	7-30	Ditto.
Akyab, Kyaukpyu and Sandoway.	29th June	7-30 A.M.	Ditto.
Mauritius, Réunion, Mayotte, Nossi Bé, Delagoa Bay, Natal and Cape Colony.	3rd July	5-45	Via Tuticorin and Colombo.
South Africa (Letters)	3rd "	5-45 P.M.	Ditto.
Port Blair	29th June	7-30 A.M.	Via Rangoon.
South Africa (Letters)	29th "	5-45	Str. <i>Congella</i> from Madras.

* Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail Steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

† Correspondences for China and Japan are despatched daily to Colombo so that they may proceed by the first steamer available.

The letter-box for inland articles will be cleared for the forenoon Mails at the following hours:—

For Goalundo, Arakan and Chittagong Express train at 5-30 A.M.

For Midnapur, Orissa and Madras Presidency at 5-45 A.M.

For Eastern districts as far as Dacca and Mymensing at 6-30 A.M.

For Khulna Line at 7-30 A.M.

For Bombay Mail via Nagpur and Mail for Midnapore at 10-45 A.M. and with a late fee of ½ anna up to 11-35 A.M.

The letter-box will be cleared for the evening Mails without late fee at the following hours, viz.:—

For E. I. Railway Loop Mail at 2-30 P.M. and up to 2-55 P.M.

with a late fee of ½ anna.

For Darjeeling and Assam at 3-25 P.M. without late fee, and 3-50 P.M. with a late fee of ½ anna.

For the Bombay Mail via Jubbulpore at 6 P.M.

For the Punjab Mail at 7-30 P.M.

For Midnapore and Orissa Districts at 7-30 P.M.

For Khulna Mail at 7-30 P.M.

For the Eastern Bengal Mail at 7-30 P.M.

Late letters bearing a fee of ½ anna will be received for the Midnapore, Orissa, and the Madras Presidency Mails from 5-45 A.M. to 6-35 A.M., and for the Bombay Mail via Jubbulpore up to 6-30 P.M. and for other Mails from 7-30 to 8 P.M., and from 8-0 to 8-45 P.M. with a late fee of 1 anna for the Punjab and Eastern Bengal Mails only.

Late registered letters will be received between the following hours:—

For the Bombay Mail via Nagpur up to 10-30 A.M.

For the Bombay Mail via Jubbulpore from 3 P.M. to 6-15 P.M.

For the Punjab Mail from 6 P.M. to 7 P.M.

For the Eastern Bengal Mail from 6 P.M. to 7 P.M.

For the Khulna Mail from 6 P.M. to 7 P.M.

For Midnapore, Orissa and the Madras Presidency the previous evening up to 6 P.M. and late registered letters up to 7 P.M.

The late fee on each registered letter will be two annas, which must be prepaid in stamps on the letter.

Articles for Burma and for Port Blair by Sea are received without late fee up to 7-30 P.M., after which hour they are received fully prepaid and bearing an extra stamp of ½ anna up to 8 P.M.

On the latest safe day of despatch of the Mail for the Australasian Colonies, China and Japan via Tuticorin, the letter-box for foreign articles will be cleared for the last time for articles without the late fee at 5-45 A.M., and late letters and papers fully prepaid will be received up to 6-35 A.M.

On the day of despatch of the Mail of Europe (Thursday), the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 6-30 P.M., and late letters and

papers fully prepaid will be received up to 6-45 P.M. Late registered articles will be received from 5 to 6 P.M. On other days the letter-box for Foreign articles will be cleared for the last time without the late fee at 6 P.M., and late letters and papers will be received up to 6-30 P.M. for despatch by any Foreign Mails *via* Bombay the same night and up to 8-30 P.M., late letters and papers up to 9 P.M., for any Foreign Mails despatched by Sea. Foreign Mails for despatch *via* Madras or Tuticorin are received up to 5-45 A.M. and with a late fee up to 6-35 A.M. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

P. J. GORMAN,

Offg. Presidency Postmaster, Calcutta.

CIVIL ENGINEERING COLLEGE, SIBPUR.

Agricultural Department.

HIGHER AGRICULTURAL CLASS. SESSION 1901-1902.

Rules for Admission.

For admission to the Higher Agricultural Class, an applicant must have one of the following qualifications:—

- (i) He must have passed the F. E. examination of the Calcutta University, and be under 23 years of age, but no student will be allowed to join the Agricultural class after the expiration of five years from admission into the Engineering College.
- (ii) He must have passed the B.A. examination of the Calcutta University by the B course, or possess other sufficient educational qualifications; be under 23 years of age, and in addition have received a nomination from the Bengal Government.
- (iii) He must have had a general education qualifying him to follow the instruction in the Higher Agricultural Class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed special agricultural students. They will not be subject to any maximum limits of age, but will not be entitled to the privileges conferred on passed students under rules 11 and 12, even though they should obtain fully signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application for a nomination, which must be addressed to the Principal, may be obtained from the College. In the event of the form not being properly filled up, and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination

by the College Surgeon, before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the first Monday in November.

Course of Instruction.

The course of instruction in the Higher Agricultural Class will extend over two academic years.

Scholarships.

Senior scholarships awarded in the Engineer Department are tenable in the Agricultural Department.

One graduate scholarship of Rs30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

Appointments.

Two appointments annually are assigned to students holding a fully signed diploma; one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for these appointments will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Other holders of fully signed agricultural diplomas, who wish to compete at the examination for admission to the Provincial, Subordinate Executive, and Opium Services, may submit their names through the Principal to Government for nominations. These applications for nominations will be considered, provided the applicants appear to His Honour the Lieutenant-Governor to be otherwise suitable for admission to these services.

Each student in the Higher Agricultural Department will be required to pay an admission fee of Rs10.

F.E.'s who elect to join the Agricultural Department immediately after passing the F.E. examination are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (iii). The tuition fees for these students will be Rs8 a month.

Further particulars may be obtained on application to the Principal.

B. HEATON,

Offg. Principal, Civil Engineering College.

SIBPUR,

The 26th June 1901.

GOVERNMENT CINCHONA FEBRIFUGE.

Cinchona Febrifuge can be purchased by all Government officers, and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, Rs8; per eight-ounce tin, Rs5; per pound tin, Rs10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only*, at the under-noted rates: per four-ounce tin, Rs3; per eight-ounce tin, Rs6; per pound tin, Rs12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage, four annas per four-ounce tin, eight annas per eight-ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

منکونا فیری فوج ہند نپ بھارت والی منکونا *

منکونا فیری فوج کلکتہ کے برگانکل گارڈس یعنی کمپنی باغ کے سپرنٹنڈنٹ صاحب سے ہر ایک ملازم سرکاری اور ایک مشینت چھہ پونڈ تک لینے والا ہر آدمی حسب نرخ ذیل خرید کر سکتا ہے: — یعنی چار اونس والا تین بقیمت دو روپیہ آٹھ آنہ؛ آٹھ اونس والا تین بقیمت چار روپیہ؛ ایک پونڈ والا تین بقیمت دس روپیہ *

عام آدمیوں کو یہ دوا برٹانکل گارڈس یعنی کمپنی باغ کے سپرنٹنڈنٹ صاحب سے بقیمت نقد حسب نرخ ذیل مل سکتی ہے۔ یعنی چار اونس والا تین بقیمت تین روپیہ؛ آٹھ اونس والا تین بقیمت چھہ روپیہ؛ ایک پونڈ والا تین بقیمت بارہ روپیہ *

یہ دوا کلکتہ کے بڑے بڑے دکانی اور دیسی دواخانوں میں بھی بکتی ہے — ماسوائے قیمت مذکورہ بالا کے محصول ذاک چار اونس والے تین کا چار آنہ، آٹھ اونس والے تین کا آٹھ آنہ؛ اور ایک پونڈ والے تین بارہ آنہ *

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

It is advised that letters containing remittances be registered

N.B.—The Revised prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal 8vo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I.*

Section	I. Building Materials (1898), R2-0.
"	II. Masonry (1898), R1-4.
"	III. Carpentry (1898), R1-8.
"	IV. Earthwork (1892), R1-4.
"	V. Tools and Plant (never published).

VOLUME II.*

Section	VI. Buildings (1899), R1-4.
"	VII. Bridges (1897), R4-4.
"	VIII. Roads (1897), R1-8.
"	IX. Railways (1891), R1-4.
"	X. Irrigation Works. (Under revision.)

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol.	I. Direct and Transverse Strain, principally by Analytical Methods. R7.
II.	The Stability of Structures, mostly by Graphic Methods. (In the Press.)

MANUALS.

- VII. Surveying (by Major Firebrace, R.E.) (7th edition with Curve Table). R3.
XIII. Drawing (by Lieut. R. Pufford, R.E.). † R5.
XIIIa. Drawing, First Principles of Geometrical (by do.). R1-4.
XIV. Simple Applied Mechanics (3rd edition), Parts I and II in one. R1-8.
Simple Applied Mechanics, Part II (1st edition) 8s.
XV. Examples of Estimating. Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition). R3-12.
XVI. Earthwork Estimating, with Practical Tables and Diagrams. By Major A. M. Brandreth, R.E. R1.
XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6s.

Note.—The complete Treatise forms the course of the Civil Engineer and Upper Subordinate classes at the Thomason College in Civil Engineering. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

- Curve Tables, complete, for laying any curve. 4s.
Scantlings of Timber for Roofs. Tables and investigation of formulae for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 36 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. 12s.
Notes on Chemistry of Building Materials. R1-8.
Tate's Mechanism. R1.
Barman's Descriptive Mineralogy. R2-4.
Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunhya Lal. R2-8.
O'Callaghan's Earthwork Tables for India. In one large sheet, 12s.; mounted on cloth and bound. R1-12.
Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. 12s.
Tyndall's Hand-Book of Specifications. (In the Press.)
The Indian Engineer's Pocket Book. R1.
Wooden Bridges and Designs. By Rai Kunhya Lal. (In the Press.)
Blasting under Water (2nd edition). 10s.
Waugh's Instructions for Topographical Surveying. R1.
Analysis of Lime and Cement Stones. By Murray Thompson, Esq., M.D., F.R.S.E. 6s.
Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width, very useful for Projects. R1-6.

SCIENCE BOOKS.

- Wilson's Inorganic Chemistry. R1-8.

MATHEMATICAL.

- Boileau's Tables of Weights and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pies into decimals of a Rupee. With a few others of general utility (4th edition). R1-8.
Boileau's Tables of Log sin² P (for computing time) 4s.
Cape's Logarithms, with Tables of Squares, Cubes, etc. R1-4.
Cape's Geometry. R1-4.
Cape's Mechanics. 8s.
Todhunter's Plane Trigonometry. R2-8.
Todhunter's Differential Calculus. R2-8.
Military Topography. 8s.

HINDUSTANI.

- Elements of Hindustani Grammar. 8s.
Technical Dialogues—English and Urdu. R1.
A Vocabulary of Common and Technical Words in English-Urdu. 12s.
History of India (Hindus Timirnasah), Hindi. Part I and II. Both 6s.
Short Account of Ganges Canal (English and Urdu). Each 4s.

NOTE AND FIELD-BOOKS, etc.

- Note Books (Section paper), large. Each R1-4.
Surveying Field Books (ruled). 12s.
Levelling Field Books (English Pattern). R1-4.
" " (Canal " "). R1-4.
" " (College " "). R2-0.
P. W. D. Note-Book. R1-4.
Measurement Book. R1-4.
Circular Card-board Protractors, 2 inches. R2.

MISCELLANEOUS.

- Distributary, Velocity, and Discharge Table.** By Capt. Allan Cunningham. 8a.
- Description of Venomous Snakes.** (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") R1-8.
- Ditto ditto in Urdu. R1-4.
- Perspective** (fully explained). By Col. A. M. Brandreth. R.E. R1-12.
- Thomason College Calendars** for 1892,* 1895,† 1896† and 1897.† Each 4a.
- Ditto ditto for 1898† and 1899.† Pt. I. R3-6.

2. Othello. }
3. Macbeth. }
4. Comedy of Errors. }
5. Merchant of Venice. }
- Annual examination papers set for the years 1867 to 1870,** each 8a.

PLANS OF STATIONS.

- Lithographed Plans of the Cantonments and Regimental Lines** in the different Military Stations of India. Drawn to a uniform scale and prepared between 1864 and 1868 for the Government of India, P. W. Department. (Useful for Executive Engineers' and Superintending Engineers' Offices.)
- Bengal, 51 Plans. } Whole lot 4a
- Madras, 99 Plans. } each.
- Bombay, 91 Plans. }
- N.-W. Provinces, 104 Plans. }
- Oudh, 21 Plans. }
- Rajputana, 4 Plans. }
- British Burma, 19 Plans. }
- Central Provinces. }

A set of Professional papers both loose and quarterly numbers inclusive of Railway freight 410. This is not quite complete.

PROFESSIONAL PAPERS ON INDIAN ENGINEERING.

(FIRST SERIES.)

- Vol. I.** (Quarterly, Nos. 1 to 5), bound R1-8.
- Quarterly, Nos. 1, 2, 3, 4, and 5.** } 4a. each,
- Vol. II, Quarterly, Nos. 6 and 7,** } inclusive
- " VI, " No. 25, } of post-
- " VII, " Nos. 26, 27, 28, and 29, } age.
- Extra No., April 1870.**

(SECOND SERIES.)

- Quarterly Numbers of Vols. I, II, and IX of the series** 4a. each, inclusive of postage.
- Quarterly Number 41 A of Vol. X.** Each 8a.
- Cloth covers for Volumes of 1st and 2nd Series,** at 8a. each.
- Index to Professional Papers and loose Papers.** 1st and 2nd Series, at 2a. each.

FERROTYPE PRINTING.

- Chemicals and Lithographic Paper** for this process can be purchased from Thomason College Book Depot. Application to be made to the Curator.
- Apparatus for Printing** can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

* This does not contain the Entrance Examination papers of the Superior Accounts Branch, Public Works Department.

† These include question papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

‡ This does not contain the Entrance Examination Papers of the Upper Subordinate Class.

CIRCULARS.

Circulars containing the Rules of admission to the different classes of the College will be forwarded to applicants.

J. CLIBBORN, Lieut.-Col., I.S.C.,
Principal, Thomason Civil
Engineering College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supercession of the previous advertisements, on and from the 1st January, 1899, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the Complete Series, including postage. R22-8

	Without postage.	With postage.
For the Calcutta Series	R 10 0 0	R 12 8 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately, inclusive of postage in India	...	2 0 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, inclusive of postage in India	...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
For the Calcutta Series; per copy	R 0 8 9	R 0 10 0
" each of the Madras, Bombay, and Allahabad Series; per copy	0 5 3	0 5 9
" the Calcutta Series. For the year	7 2 0	8 6 3
" each of the Madras, Bombay, and Allahabad Series. For the year	4 4 6	4 11 0

Persons desiring to subscribe for, or purchase, the Report should apply to—
Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depot.
Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrapper of the Indian Law Reports, Calcutta Series, at the following rates payable in advance:—

	One page.	Half page.	Quarter page.
For one issue	R 20	R 14	R 9
" three issues	55	36	24
" six "	100	68	45
" nine "	145	96	64
" twelve "	180	120	80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
Bengal Law Reports, for one year—	R 20 0 0	R 22 8 0
Single copies, 4a per copy.		
Full Bench Rulings, Parts I and II	20 0 0	22 8 3

Bengal Secretariat Book Depot, Writers' Buildings, Calcutta. Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1871 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, R22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

TREASURE TROVE.

NOTICE.

It is hereby notified under section 5 of Act VI of 1878, that on the 4th January 1901, 4 copper idols of the undermentioned description were found by one Narayanaswami Aiyar while he was engaged in converting into a thrashing floor a vacant house site in Paimash No. 304. S. No. 203A Natham, close to Kailasanathaswamikoil in Nalladai, a hamlet of Kothangudi village in Kumbakonam Taluk.

4. Sathiabaniai .	16½	6 3 0
TOTAL	142	53 4 0

2. All persons claiming the said treasure or part thereof, are hereby required to appear personally or by agent before the Collector of Tanjore at his office on the 12th November 1901, in view to the matter being enquired into and determined according to law.

J. ANDREW,
Collector.

TANJORE COLLECTOR'S
OFFICE,
The 15th June 1901.

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government
Cinchona Plantation.

From 1st April, 1900, the price of this Quinine will be as follows:—

1-pound tin,	R17, or, post-free, R17-12.
½ " "	R8-8, " R9.
¼ " "	R4-4, " R4-12.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেন্টের সিনকোনা আবাদে প্রস্তুত
বিশুদ্ধ কুইনাইন।

১৯০০ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন	১৭ বা ডাকমাতল বিনা ১৭।০০
½ আধ " "	৮ " ৯
¼ শিকি " "	৪। " ৪।০০

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিনকোনাইন ও সিনকোনিডাইন নামক অপকৃষ্ট কার্যকর সহিত ইচ্ছা পূরক মিশ্রণ হয় তাহা তাহার গারান্টি দেওয়া বাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেন্টের কন্সটারীগনের নিকট বিক্রয় করা বাইবে, এবং কলিকাতার নিকট শিবপুরের কোম্পানি বাগানের সুপারিন্টেন্ডেন্টের নিকট পাইতে পারে।

SUPPLEMENT TO

The Gazette of India.

No. 26.]

CALCUTTA, SATURDAY, JUNE 29, 1901.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.
